PPLPMDL0020000001	Mayfield Heights	OH	44124	6/13/2013	Met first with front desk staff, Kathy & Laurie who are in charge of samples/OTC/ savings cards. Left OTC visual aid 1 box Senokat samples. Went through OTC samples& availability. Left Butrans dosing slider for nursing, Butrans updated formulary grid, savings card flashcard. Let nursing know this is CIII 1 x week pain patch, which can be called in with refills. Left Butrans patient guide. All HCP's will write an opioid or refill 1 x but refer to pain mgt for chronic patients. they will write insomnia agents, including dr bailey. Left OxyContin managed care piece, savings card flashcard, FPI. Asked staff to review updates to section 9.2 of OxyContin FPI. Left dr bailey Intermezzo dosing card. Told the girls just to focus on Caresource for now.
PPLPMDL0020000001	Chagrin Falls	OH	44022	6/13/2013	I made a drop-in visit to speak w/ the D.O.N., BeAnne Clipper to introduce Purdue's Nurse Educator Program and discuss educational opportunities. I spoke with the receptionist, Kellystated, "BeAnne just stepped out to go get something, b/c she is having a luncheon for the STNA's today." She gave me her e-mail and also the ADON's, Nancy Virginia and told me to cc her on the e-mail.I verified the Medical Director as Dr. Balaji and the CPP as Omnicare of Eastlake with Kelly. I left PAP handouts and my BC.
PPLPMDL0020000001	Solon	OH	44139	6/13/2013	I made a drop-in visit to speak w/ Judith Sawtner to re-schedule the in-service cancelled on 6/7. I was informed by the receptionist, that Judy just completed rounds and is currently in a managers meeting. I left my BC
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/13/2013	Good discussion with dr over lunch about all products. Dr told me he has been having great success with Butrans but is seeing more managed care issues. I asked if there are any particular plans and he said he didn't know but said that he wants me to review all the formulary coverages for the product and where it should not be used like Buckeye. I told dr it maybe better if Kendra would be better served providing a managed care inservice on all products. Dr told me its a good idea and to set it up because he feels there are many scripts lost because the staff is not informed enough on coverage. I asked dr for continued business and to prescribe OxyContin for his IR oxycodone patients. Dr said he would rather that've all his patients on ER medicines. Discussed intermezzo and asked him to identify patients with in the middle of the night insomnia.<font color=blue><b>CHUDAKOB added notes on 06/21/2013</b></font>Cliff, very nice job with this physician. You have forged a trusted relationship very quickly. Keep up the good work!
PPLPMDL0020000001	Cleveland	OH	44104	6/14/2013	Briefly discussed Intermezzo indication/dosing, asked how she is treating her moderate to severe chronic pain patients, she responded doesnt really see many, if she does then refers out or lets Dr. Pandit/Rosenfield handle those.With physician group- Covers alot of nursing homes (Cedarwood, ParkEast, Franklin plaza etc)Agreed with Dr. Rosenfield that Butrans fits into Hospice/Palliative care setting.
PPLPMDL0020000001	Mogadore	OH	44260	6/14/2013	Quick reminder about Butrans at front counter and told him to continue prescribing and to identify patients on tramadol or vicoden around the clock who complain of pain. Dr said thanks and told me he really likes it. Told him about the Medco Med D coverage.
PPLPMDL0020000001	Stow	OH	44224	6/14/2013	Asked to see dr at front desk. Angie said he just finished a procedure and will give me a second. I asked dr if he will try Butrans for a patient like Scott or nancy and gave him the profiles.? Dr said he will and asked any conversions. I showed him the slide scale and explained approximate conversions. Dr said he will keep it with him to remind himself. Nothing else learned
PPLPMDL0020000001	Akron	OH	44313	6/14/2013	Good discussion surrounding his use of OxyContin. I showed him all the OxyContin profiles and asked him where it seems to fit best for him? Dr said the Tom profile where the patient is on IR oxycodone. Discussed why it is important to consider switching IR oxycodone patients who are complaining of pain and have been on it for 3+ months. Dr said he will be trying to switch as many ad he can especially in his nursing homes. I explained the Scott and Nancy patient profiles and asked him to prescribe Butrans for the first time so it can prove itself. Dr. Said he would prescribe it when he finds that patient type we discussed. I told him that I'm guessing he had many patients on tramadol or vicoden who would be prime candidates when they meet the indication. Dr agreed and said he would prescribe. Explained the intermezzo indication and asked him to identify patients.
PPLPMDL0020000001	Akron	OH	44304	6/14/2013	Showed dr the OxyContin conversion chart at the front desk and asked him to continue converting patients from IR oxycodone to ER oxycodone. Dr said thanks. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	6/14/2013	Intro- Talked with Jessica/Amanda very familiar with all three products. Discussed Scott profile with Amanda, agreed Butrans would be appropriate for those uncontrolled pain patients and said Dr. prescribes alot of Tramadol.Intermezzo-asked if we still had trial offer cards, told to print<font color=blue><b>CHUDAKOB added notes on 06/19/2013</b></font>No OxyContin or OTC discussion.
PPLPMDL0020000001	Westlake	OH	44145	6/14/2013	Spoke with jacqui about any intermezzo prescriptions from dr Celeste and she said she has not seen any from him or any recently. Asked if there have been new Butrans scripts and she said yes from St. John. I told her I just spoke with Duncan and he said he has written some intermezzo and she said she has not seen any but she has seen OxyContin.
PPLPMDL0020000001	Cleveland	OH	44104	6/14/2013	Discussed Intermezzo Vignettes,indication,dosing, Dr, stated he sees alot of patients that meet this indication. Went over Butrans, initiation/dosing, Scott profile. Likes product and would find it utilized best in the nursing home/hospice setting. Asked if he prescribe for patients in his practice, and he said "The would try" patients like taking meds PO 3-4x a day<font color=blue><b>CHUDAKOB's query on 06/19/2013</b></font>Mark, look at your next call objective. How will this help you move the sales process forward? The next call objective should be about moving the process forward assuming you will see the physician.<font color=green><b>GUTKOWA's response on 06/20/2013</b></font>By finding out locations and times this will allow me access and a opportunity to move the sale process forward thru discussions. At his present office location the only way to see him is thru lunch, which are booked until Sept.<font color=blue><b>CHUDAKOB added notes on 06/20/2013</b></font>Thanks for your response. The next call objective relates specifically to what will happen on the sales call. Once you get in front of him again, what will you do?
PPLPMDL0020000001	Cleveland	OH	44104	6/14/2013	Briefly talked Hakeem, no new prescribers, suggested Dr. Barry in the bldg (Faith Medical Group) Requested OxyContin Savings card<font color=blue><b>CHUDAKOB added notes on 06/19/2013</b></font>I know we discussed this, but a reminder to only include the products discussed on the call. I do not see any reference to Butrans or Intermezzo.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/14/2013	Spoke with randy the pharmacist about the intermezzo doing and indication guide which he said they do not stock or dispensed. I discussed the OxyContin FPI and advised him to read section 9.2. I showed him the dosing and titration guide for Butrans and he said he has a few patients on it and all have said it works well for their pain. I explained the titration and use of supplemental analgesia if necessary.
PPLPMDL0020000001					

	Westlake	OH	44145	6/14/2013	Discussed OxyContin FPI change. Dr said he has a lot of chronic pain patients because pain management is not able to treat patients all the time and they end up sending his patients back to him still in pain. Dr said he has patients wanting OxyContin because they like the high. I asked the dr if that is what they are telling him and he said this is what he knows. He said he knows because the patients request OxyContin when he has prescribed something different. I asked if these patients may still be in pain and that is why they are asking for something. I reminded him that OxyContin can still be abused and patient selection is important. I reminded him that there may be patients I his practice who are being treated with Percocet around the clock and have been on Percocet for several months. Reviewed OxyContin conversion and titration guide. Discussed Butrans conversion guide and Butrans dosing and administration. Dr asked about efficacy data and I reviewed the opioid naive trials and he wanted data on opioid experienced patients and I reviewed pain reduction, open label screening and percent of 20 mcg tolerance patients. Warned the dr about respiratory depression with opioids and let him know he could use supplemental analgesia. Reviewed how to write and let him know he will have to educate patients on how to use Butrans. Reviewed dosing and administration of intermezzo
PPLPMDL0020000001	Cleveland	OH	44104	6/14/2013	Discussed product portfolio, Dr said he likes the BID dosing and the flexible dosing strengths OxyContin provides, doctor likes to use Butrans in nursing homes for elderly patients, discussed Scott profile, Tramadol failures, Initiation/Titration, said he will keep that in mind. Intermezzo vignettes, indication/ dosing Leaving the country for 17 days
PPLPMDL0020000001	Stow	OH	44224	6/14/2013	Spoke with Greg the pharmacist about any taints being initiated on intermezzo? Greg said none that he knows of. Greg asked if it is covered on Medicare or Medicaid? I explained the Caresource coverage and failing Ambien. I asked about his Butrans starts and he has most are on the 5 mcg and he is seeing titration to the 10mcg for most of those patients. I explained the conversion guide and discussed titration. Left him the OxyContin conversion guide. Greg reminded me he doesn't fill it.
PPLPMDL0020000001	Hudson	OH	44236	6/14/2013	I asked Galiana the pharmacist if she is seeing any prescriptions from Unity Health drs Tosino, Russ and Seiple? She said she sees most pain medicines from Seiple and 1 from Butrans. I asked if she is filling butrans often and where are they coming from. Galiana said that they see some prescriptions from Fouad and Lababidi but said she only has a couple of patients from them on Butrans. I asked if she is dispensing OxyContin? She said she is but just about all of them have been on it or a long while and they are refills. Galiana said they don't have many new at all.
PPLPMDL0020000001	Westlake	OH	44145	6/14/2013	Dr was eating while I was talking and was running behind. She did not answer my questions. I reviewed Butrans stating that Butrans allowed her to treat patients in pain with 4 patches a month. Reviewed pain reduction from opioid naive clinical trials. Asked dr what would keep her from prescribing Butrans and she said cost. I explained the savings card and vouchers. I asked if this clarified who should use Butrans and what other information she needed in order to prescribe. No answer. Reviewed FPI change for OxyContin. She said she knew about intermezzo. Dr excused herself and left.
PPLPMDL0020000001	Cleveland	OH	44102	6/14/2013	Talked with Ed, discussed key clinicians at the facility(Nouraldin, Degolio)believes Butrans is under utilized in facility, suggested non-branded in service.<font color=blue><b></b></font>CHUDAKOB's query on 06/19/2013</b></font>If he believes Butrans is underutilized don't you think an in-service by you on Butrans to his staff and his nursing staff would also be very beneficial. They can't increase usage if they do not know about the product or how to use it, don't you think?<font color=green><b></b></font>GUTKOMA's response on 06/24/2013</b></font>Totally agree and offered to do that, but he suggested to focus on visiting physicians(Nouraldin, Degolia etc. I am going to request again a Butrans in-service instead of a non-branded in service by Cindy.<font color=blue><b></b></font>CHUDAKOB added notes on 06/24/2013</b></font>OK. Let me know how this works. You can get a non-branded from Cindy, but let's get them to understand the product first. As an aside, notice the products presented and the call notes.
PPLPMDL0020000001	Cleveland	OH	44127	6/17/2013	Discussed Butrans, savings card, patient instruction booklet, caresource. Dr said she will continue to look for appropriate patients. Intermezzo, indication, dosing and 5 day trial cards. Invited to upcoming Laham program, and said she will attend
PPLPMDL0020000001	Cleveland	OH	44113	6/17/2013	Briefly discussed Butrans hospital formulary process. Justin referenced CCF main campus as a start. Pharmacy is owned by ExactCare Pharmacy.
PPLPMDL0020000001	Cleveland akron	OH	44333	6/17/2013	Quick discussion in hallway about Butrans And the tramadol patient. I also told him about the Medco Medicare part D pan addition to e formulary coverage. I told him to identify patients on tramadol and Medco medicare D. Nothing else learned.
PPLPMDL0020000001	Beachwood	OH	44122	6/17/2013	I made a drop-in visit to meet w/ ADON, Cathy Cigli to discuss Purdue's Nurse Educator Program. I spoke w/Chris who paged Cathy. I met w/ Cathy who informed me that it would be best and she would prefer that I talk w/ their "new" D.O.N. Susan LoDolce. Cathy said," she is very hands on. It would be best if you could wait until next month we are currently under the correction process with the state, nothing big, but I'm sure she won't have anytime until she gets that taken care of."
PPLPMDL0020000001	Lakewood	OH	44107	6/17/2013	Let pharmacist know there is no ab equal for Intermezzo. Asked about any insurance changes for OxyContin or Butrans. Shared formulary win for Butrans and asked if she was aware of any pain doctors I should let know this information. She said all the pain doctors should be aware of this because she has had patients get the free trial and then not have the right insurance to get Butrans filled.
PPLPMDL0020000001	Akron	OH	44312	6/17/2013	Dr closing up office for day but gave me a second. I asked dr if she has initiated Butrans for any of her patients on Ultram? Dr said she has but most recently used it for a vicoden patient. I asked her for more information but dr told me to come in last in the week because she needs to finish charts so she can leave for the day.
PPLPMDL0020000001	Cleveland	OH	44122	6/17/2013	I called Francine Young on 6/14 to remind her of the in-services scheduled for Monday 6/17 @ 10:30 & 3:30. She informed me that She forgot to post it and asked if we we could just do the 10:30 in-service and reschedule the 3:30. In-Service on pain management was completed @10:30 for the nursing staff, 9 were in attendance. A discussion and interaction took place on the The CPP and Medical director was confirmed
PPLPMDL0020000001	Akron	OH	44312	6/17/2013	Dr told me he wanted dosing and titration information for Butrans. I provided him with the initiation and titration diode and reviewed it quickly with him. I asked dr to initiate it early on in treatment for patients failing on tramadol or vicoden. Nothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	6/17/2013	Asked how butrans patient was doing and dr said the patient was doing good. I reviewed the titration guide and discussed supplemental analgesia opioid and non opioid. Discussed the START principle
PPLPMDL0020000001	Lakewood	OH	44107	6/17/2013	Spoke with Stephanie about OxyContin FPI change. She said the change happened awhile ago and I confirmed and let her know the FPI just changed to reflect the reformulation change. She said a lot of dr elgazzar patients come to this location because it is close to the office. She knew about intermezzo and had a doctor writing. She was only aware of one patient on Butrans. I reviewed the titration guide and asked her about high tramadol writers in the area. She said that is hard to say
PPLPMDL0020000001	Akron	OH	44333	6/17/2013	Quick hello at front desk. Dr asked me what's new and I told him about the Medco/ ESI Medco Medicare D plans and asked him to continue prescribing it early on in treatment. Dr told me to give it to Linda to fax to the home office. Dr said he is glad to finally hear about Medicare coverage. Left dr with an OxyContin conversion and titration guide.
PPLPMDL0020000001	Cleveland	OH	44113	6/17/2013	Discussed challenges in treating patients with chronic pain, Dr. stated her confidence in Butrans and feels its less abusable, I said that Butrans has the same misuse and abuse potential as any opioid. Went over Initiation/Titration. OxyContin flexible 7 dose forms
PPLPMDL0020000001	Lakewood	OH	44107	6/17/2013	Quick call. Just gave a reminder of for OxyContin with Percocet page of titration guide and asked dr to keep in mind patients already on oxycodone ir around the clock. Asked dr to think of butrans for patients not controlled on tramadol.
PPLPMDL0020000001	Fairlawn	OH	44333	6/17/2013	Some to Pam the technician. I explained intermezzo indication and dosing and the limitations of use. Pam said they have not filled it and do not stock it. I discussed the OxyContin FPI and section9.2 I asked if they have seen Butrans or if Pam knew about it? Pam said she was trained on it but forgot it is a schedule 3 and the 7 days. Pam said they have only filled it once or twice.
PPLPMDL0020000001	Cleveland	OH	44113	6/17/2013	Discussed Butrans and patient population. Gain understanding of Dale's scope of responsibility in practice. He sees mostly new patients, does alot of inpatient rounding. Stated Butrans non formulary status in Hospital(CCF) believes that does hinder prescribing habits. OxyContin 7dose strengths and comprehensive formulary coverage
PPLPMDL0020000001	Beachwood	OH	44122	6/17/2013	I made a drop-in visit to speak w/ Cheryl Grim and discuss Purdue's Nurse Educator Program. I spoke w/ the receptionist, Janet who informed me that Cheryl was not in today. I left my BC
PPLPMDL0020000001	Fairlawn	OH	44333	6/17/2013	Spoke with Kristen the pharmacist about intermezzo and discussed the indication, doses and limitations of use. She said she had heard of it but they do not stock it or have any filled to her knowledge. Discussed OxyContin FPI update and advised her to read section 9.2. Kristen said she forgot about the 15mg dose. Explained Butrans dosing and indication.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/18/2013	Told Tiffany abo intermezzo dosing and asked her if she has seen any since my last visit? Tiffany said no because it is too tough to get from an insurance perspective. I explained the Caresource coverage. Gave her the Scott profile for Butrans and explained appropriate patient types. Did the same with OxyContin and discussed Tom.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/18/2013	Follow up with Darlene about the Caresource PA she completed last week for Butrans. Darlene said that it did get approved today. I was also told that dr Azem looked back to another patient who has Caresource who wanted to give Butrans to and got it approved as well. Darlene said thatshenhad also approved two other Butrans prescriptions this week. One for anthem Bc/b's and the other for a medical mutual. I thanked Darlene for all her hard work getting Butrans approved.
PPLPMDL0020000001	Parma	OH	44134	6/18/2013	Placed a call to Linda Belford in Staff Development, to re-schedule the Butrans Luncheon w/ the NP's and talk with her about scheduling a in-service on Butran's for the nursing staff. N/A I left a msg.I recv'd a phone call back from Linda Belford. The Butrans lunch for the NP's was rescheduled for 7/2 @12 noon and a Butrans in-service was scheduled for 7/15 @ 2PM for the nurses.
PPLPMDL0020000001	Akron	OH	44310	6/18/2013	When dr saw me today he told me that he sees me just about every week now and told me that he just did a Harris survey online about how often he sees pharmaceutical sales reps. I asked dr if I am in front of him too often? Dr said no. I asked him if I provide him value each time I see him in which he agreed I do. I showed him the Butrans conversion scale and told him and Char to put on in their labcoat or pocket to help them remember Butrans. Dr said ok and will continue to write.
PPLPMDL0020000001	Cleveland	OH	44113	6/18/2013	Discussed Intermezzo vignettes, Dr. stated indication and dosing, has numerous patients that complain about Middle of the night awakening.Talked about Butrans and patients that are doing well on,still some insurance issues occasionally with Caresource but getting more PA's approved(Melissa is handling issues),asked dr if he will continue starting more patients on Butrans in thist- week? dr said yes he will. OxyContin 7 tablet strengths and flexibility. Dr stated not prescribing C2
PPLPMDL0020000001	Solon	OH	44139	6/18/2013	I placed a phone call to Judith Sawtner to re-schedule the in-service cancelled on 6/7. I recv'd her voice-mail, I left a msg.
PPLPMDL0020000001	Cleveland	OH	44128	6/18/2013	I placed a phone call to RoseAnne Howell to confirm the in-service on pain management for 7/19 starting at 6am. N/A, I left a message on her voice-mail. I recv'd a phone call from RoseAnne Howell confirming the in-services for 7/19 starting at 6am.
PPLPMDL0020000001	Cleveland	OH	44122	6/18/2013	Note Cont. from 6/17/2013 Discussion and interaction took place on the barriers of Pain in the elderly and the consequences of unrelieved pain. The Medical Staff was updated. The Medical Director is Jill BarryNP's Amy Koosliish & Maggie work w/ Dr. Rajesh Agarwalli MariAnne Barchanowitz, NP works w/ Dr.Ghasan Haddad
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/18/2013	Dr asked for more OxyContin copay cards but told me the is finding success with Butrans. I asked where and he told me in patients older who are not surgical candidates and have chronic pain. I asked what short acting medicine patients have been on previously? Dr said all over the board but a lot of tramadol and vicoden. I asked dr to titrate to 20 when necessary and to read the efficacy results in the clinical trail of opioid experienced patients. Dr said he would.
PPLPMDL0020000001	Cleveland	OH	44113	6/18/2013	Informed Rhonda of update to the State of OH NP prescribers list (Officially adding Butrans to formulary list) Intermezzo vignettes/indication and dosing. Rhonda agreed she sees patients that suffer MOTNA. Went over Butrans, Scott profile, Initiation and Titration. She agreed she sees patients like this everyday.Asked for those Lorlab/Norco patients that are not adequetly controlled. OxyContin flexible dosing and 7 tablet strengths.
PPLPMDL0020000001	Cleveland	OH	44105	6/18/2013	Briefly discussed all three products,dosing and the initiation/Titration of Butrans. Hasnt seen any new Butrans scripts
PPLPMDL0020000001	Akron	OH	44305	6/18/2013	Good discussion with Matt about all products. Matt said he saw a couple of intermezzo scripts a while ago but nothing recently because he knows many patients have a tough time getting it due to PA's. I asked about his dispensing of Butrans? Matt said he gets about 1 a week most from pain management. Matt said he had one last week where a patient was titrated from 10 to 20 mcg. Matt said he had to order the 20mcg. Explained the new Medicare D coverages and commercial matrix. I asked if he is seeing OxyContin prescriptions that are new? Matt said he mostly sees refills from Medicaid plans like Caresource and Buckeye. I asked if he is seeing PA's for Buckeye? Matt said he does but the drs get it pushed through. Explained the OxyContin savings cards.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44109	6/18/2013	Met with Sue in Anes/Pain Mgmt 4floor. Presented LELE program info with Marc Gonzalez, left his contact info for her to follow up with. She thought it was a great opportunity to present to their in coming Fellows/Residents and whole hospital staff. Left Butrans Initiation/Titration Guides along with FPI and PI's for Butrans/OxyContin Respectively
	Uniontown	OH	44685	6/18/2013	Dr started out by saying he thinks he prescribed Butrans to a patient recently but said he couldn't remember anything about it. I told him that I believe he did and dr said he can't remember what e patient was taking. I discussed with him the patient types ideal for Butrans, appropriate initiation dose, titration, clinical studies proving efficacy, proper skin prep, and application sites. I reminded dr Butrans is a schedule 3 opioid. Dr said that he does prescribe all types of opioids and he feels Butrans is a great option for his patients not tolerating or failing efficacy wi the short acting. I asked dr to initiate early in treatment.I asked dr to continue to prescribe and prescribe often. Dr said ok he will try. Discussed the OxyContin FDA findings and FPI update. I asked dr to evaluate his IR oxycodone patients for ER oxycodone and asked him if he agrees to that? Dr said he tries to get most of his patients on ER products when they need something for an extended period of time. I asked him to also identify patients for intermezzo.
PPLPMDL0020000001	Cleveland	OH	44114	6/18/2013	Intermezzo vignettes/indication and dosing, Elaine agreed she sees patients that suffer MOTNA. Went over Butrans,Scott profile, Initiation and Titration, She agreed she sees patients like this everyday.Asked for those Lortab/Norco patients that are not adequately controlled. OxyContin flexible dosing and 7 tablet strengths.
PPLPMDL0020000001	Tallmadge	OH	44278	6/18/2013	Quick hello at counter and told him I'm leaving a patient profile for Butrans that we had discussed last time at lunch. I told dr I'm trying to keep Butrans front of mind for his failing tramadol patients. Dr said ok and took the Scott profile.
	Euclid	OH	44117	6/18/2013	Upon arriving @ 7am to complete an In-Service on Defining Key Terms in Pain Management, I was informed by D.O.N., Kathy Nemeth that a State Survey was in process. She stated,"I'm so sorry, but we are going to have to cancel the 2PM and 3Pm in-services scheduled for today, I cannot afford to have anyone off the floor, but I will allow the 7AM in-service for night shift whose shift is ending." In-Service completed, 7 were in attendance.
PPLPMDL0020000001	Akron	OH	44307	6/18/2013	Handouts on Defining Key Terms in Pain Management and a brochure on How To Stop Drug Diversion & Protect Your Institution was reviewed w/ the staff. Led with communication insight and asked him how he deals with busting his patients provide him with all the information he needs to make his decision on treatment? Dr said it is difficult because patients withhold so much information. Dr said it takes time but usually finds out what he needs. I asked him about communicating about pain and how Butrans can fit. I explained how a transdermal administration can foster good discussion with his patients and explained how to discuss it with the patients. Reviewed all key selling messages and reviewed Bup 3015 hitting all efficacy messages. I discussed Scott and nancy profiles and asked if Butrans is a medicine he will use? Dr said he would like to have all of his patients on IR opioids on ER products and that he believes it works. I asked him then if he will prescribe it? Dr said yes. I explained the OxyContin FPI information and recent FDA decision. I asked dr to move his Percocet patients to ER oxycodone. Dr agreed and he would rather have them on more ER products again. Showed dr the intermezzo dosing guide and asked for his commitment to prescribe
PPLPMDL0020000001	Richmond Heights	OH	44143	6/18/2013	I made a drop-in visit to speak with Aldona Bur to talk about future in-service opportunities. I spoke w/ receptionist, Darlene who informed me that Aldona no longer is employed at Grande Pointe. Sheila Harris, RN is the new Education Liason. An appt. is recommended.
	Akron	OH	44305	6/18/2013	Showed dr the Scott profile for Butrans and asked him if it makes sense to him that the patient should be placed on Butrans? Dr said it does and he is trying to find patients that fit the profile. I asked him to continue to look for the signs from the patient that requires a change in therapy and asked him what they are? Dr said pain in walking or limited movement, and discussion about their pain level. I showed dr the Tom profile for OxyContin and asked him if it makes sense to initiate OxyContin. Dr agreed again and said he will do that because its an easy switch. Gave him th dosing guide for intermezzo and asked him to identify patients with in the middle of the
PPLPMDL0020000001	Richmond Heights	OH	44143	6/18/2013	I made a drop-in visit, to speak w/ Joan Southard to remind her of the in-service scheduled for July 10th @ 2:30 on pain documentation.I left my BC.
PPLPMDL0020000001	Cleveland	OH	44102	6/19/2013	Discussed his practice and protocol for treating pain.Dr said he has brought back some of his pain patients feels its his duty He said these were the good patients. I said he should consider Butrans which is a schedule 3 and gives him an option after ultram and before Vicodin. He said that sounds like a good strategy and will allow him to not see the drug seeking patients. I told him Butrans has the same abuse,misuse as any other schedule3, He said he understood. Referring any OxyContin patients out to Pain Specialty We discussed the opportunity he had to help patients with motna and how intermezzo fits into his practice. I asked Dr. if he will consider Butrans and Intermezzo for appropriate patients and he agreed.
PPLPMDL0020000001	Cleveland	OH	44109	6/19/2013	Quick reminder on OxyContin TTablet strengths and Butrans Workers Comp.patients. Dr. said he will see what he can do this week.
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Quick window call follow up. Reminded dr that he wanted more information on Butrans and I provided him with opioid experienced clinical trials and OxyContin conversion guide. No new information gained.
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Dr not available at window but spoke with ma about vouchers for butrans. Reviewed dosing of OxyContin.
	Akron	OH	44303	6/19/2013	Rod told me today that he got his first Butrans prescription last week. Rod told me that it was from dr Souzdanitski in Cuyahoga falls. Rod said that it took some effort from his office to get approval for it but got it completed and the patient will be picking up the month of 5mgc today. Told him about the new Medicare d coverage. Of told me he is still seeing OxyContin prescriptions but the majority are refills and from pain management except for Oyakawa. Discussed the savings cards. Gave him intermezzo information including dosing and administration. Rod said until it gets on Medicare or Medicaid he probably will not see any. Told him about Carsource with intermezzo.
PPLPMDL0020000001	Munroe Falls	OH	44262	6/19/2013	Caught dr while she was heading out the door and handed her the Butrans conversion slide guide and asked her to keep it with her to remind her about the patient types she needs to identify. Dr said thanks for the reminder and will keep it with her. Nothing else learned
PPLPMDL0020000001	Akron	OH	44333	6/19/2013	Becky asked me if Butrans is indicated for acute pain? I explained to her the indication and contraindications of use. I discussed with her the patient type selection for Butrans and appropriate staring dose, appropriate skin application and skin prep. I asked Becky to identify patients because she told me not all of her patients have acute pain. Asked her to not just refill the Percocet and to consider OxyContin for those patients. Discussed intermezzo card and dosing.
PPLPMDL0020000001	Cleveland	OH	44109	6/19/2013	Left invites to upcoming Butrans Laham program for Fellows in Anes./Pain Mgmt
PPLPMDL0020000001	Fairlawn	OH	44333	6/19/2013	Dr told me that he started a patient on Butrans last week. I asked for to provide information about the situation. Dr told me that he thinks the patient was on tramadol and initiated the 5mgc patch. I reviewed that conversion from tramadol and based on the patient being under 300mg of tramadol that he made the right decision. I asked dr for continued use of the product and discussed new Medicare D update. I asked dr to continue doing what he has been doing with OxyContin which is to switch patients on IR oxycodone. Quick mention of intermezzo dosing and patient identification.
PPLPMDL0020000001	Cleveland	OH	44106	6/19/2013	MSL attended PRA monitoring visit with CRA Bill Thornton. Met individually with Dr. Speicher and Sue Bargent, study coordinator. MSL provided study updates, discussed pre-screen history with PI, and discussed outreach to pediatric specialties, including palliative care, hematology/oncology, and others. MSL met briefly with research pharmacist and provided study update.
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Spoke with Jacqui about intermezzo dosing and administration. Reviewed conversion table for butrans and discussed supplemental analgesia. Asked about Vicodin strengths. Discussed the start principles of OxyContin. She asked about OxyContin generics and I explained that there were none
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Spoke with Lisa about intermezzo dosing and administration and no ab equal. Gave Butrans conversion from tramadol and explained that I am asking drs to consider Butrans before Vicodin or Percocet. Asked if the 15 mg OxyContin dose was prescribed. She said not much
PPLPMDL0020000001	Cleveland	OH	44128	6/19/2013	In-Services completed @ 6AM,6:30AM, 1:30PM, 2PM, 3:30PM & 4PM for nurses on Pain Management. 12 nurses were in attendance. Discussion/interaction on barriers in treating pain in the elderly and consequences of unrelieved pain took place. The Patient Comfort Assessment Guide and the Wong-Baker Pain Assessment tool was handed out and reviewed with the nurses.I talked with Roseanne Howell in Staff Development and an in-service on Pain Documentation was scheduled for 8/14. CPP was confirmed as Omnicare of Wadsworth and the medical staff information was also updated.
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Quick window call. Asked dr to consider the efficacy of butrans in opioid experienced patients and showed the pain reduction. Showed the flexible dosing of OxyContin.
PPLPMDL0020000001	Akron	OH	44320	6/19/2013	Dr told me when she saw me that she started a patient on Butrans this morning. I asked for more information and she told me that the patient came from pain management after she was tapered off Percocet and is only taking it 1-2 times a day for chronic back pain. Dr said she initiated on the 10mgc dose and thought it was appropriate. I showed dr the appropriate starting doses from the approximate conversion scale. Dr said she referenced it and will adjust the dose as necessary. I asked for continued business. I gave quick review of the start principles for OxyContin. Dr said ok and needed to get back into the exam room. I left her the intermezzo
PPLPMDL0020000001	Akron	OH	44313	6/19/2013	I showed dr the OxyContin conversion guide and showed him the 1 to 1 ratio from IR oxycodone. I asked him to initiate patients on the 10mg dose and told him how 20mg of Percocet is 10mg of OxyContin q12h. Dr took the guide and looked at it. I handed him the Butrans conversion guide and asked him what he dose with a tramadol patient who needs a dose adjustment? Dr said he would push them to vicoden and said he can see how Butrans would be a good product to use. I told him about conversions and appropriate starting doses. Gave Tina the managed care card for OxyContin and Butrans.
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Told dr I wanted to pick up where we left off with and that was providing him with clinical data showing efficacy and tolerance of Butrans so he feels confident prescribing. Reviewed opioid experienced study design, open label titration to 20, # of patients, pain reduction scores for 5 and 20, over 50% had improvement of 30% or better. Discussed Scott profile and said he had patients in his waiting room like Scott and he said no he did not because his patients are on Vicodin or Percocet and I redirected him to the study and showed him most of the patients in the study were on hydrocodone. He asked way they took for breakthrough and I said ibuprofen or acetaminophen. I said I have another patient type to discuss with him at our next lunch. I asked what else he needs to feel confident writing Butrans and he said information on Vicodin and Percocet patients. Dr said he does not go over 20 mg for OxyContin and I asked what he did for patients on Percocet around the clock for several months and he said he keeps them on Percocet. I asked why Percocet 1 or 2 as needed 4 times a day instead of oxycodone twice a day since he prescribes oxycodone anyway. He said OxyContin has a bad image. I asked if he ever reassesses his pain to see if patients can be reduced since there is a 10 and 15. He said once they get something they never want to go down and after 20 he tells them they have to get out of his practice. Gave Intermezzo indication and limitation of use.
PPLPMDL0020000001	Fairlawn	OH	44333	6/19/2013	I asked Robin if she knows where the one prescription of intermezzo came from? She said she didn't know and she didn't really have time to look into it. I gave her the dosing guide and asked her if she has seen any more Butrans since my last visit? Robin said she doesn't because she didn't dispense it. Left her with the OxyContin conversion and titration guide and made a point about 1 to 1 ratio from IR oxycodone to OxyContin. .
PPLPMDL0020000001	Fairlawn	OH	44333	6/19/2013	First opportunity to give full presentation on Butrans. Discussed all key selling messages including schedule 3 7 day transdermal system, dosing, titration, patch description, patient type section, application sites, efficacy, and safety. Dr asked about conversion from fentanyl. I explained that patient as a patient not necessarily for Butrans and discussed how there are no head to head studies. Explained how Butrans should be used early on in the treatment of pain and reviewed Scott profile. I asked dr what he is doing after tramadol and dr said typically moved to another IR opioid. Dr said he can see how Butrans would be a good fit and admitted to using it early on but hasn't used it since. Reviewed savings cards and formulary coverage. Dr said he will look for patients. Explained OxyContin patient types and when to use the product. Conversations and titration as well. I asked dr to identify patients for intermezzo and reviewed indication, dosing and limitations of use.
PPLPMDL0020000001	Akron	OH	44320	6/19/2013	I reviewed the patient types for Butrans and provided updated formulary information. Dr told me she has one prior authorization for Butrans that she prescribed last week. I asked about it and she said the patient is coming back from pain management where they tapered her off of most of her Percocet and she is taking about 20mg a day. Dr said the patient is a dual eligible with cvs Caremark and state Medicaid. Dr said she should be able to get it approved. I reminded her of the conversions scale and told her to prescribe OxyContin for her Percocet patients.I asked dr to identify patients for intermezzo.
PPLPMDL0020000001	Beachwood	OH	44122	6/19/2013	I made a drop-in visit to speak w/ Cheryl Grim and discuss Purdue's Nurse Educator Program. I spoke w/ the receptionist, Janet who informed me that Cheryl was in "morning meeting" and will not be out for another 25-30 minutes. I mentioned that I will stop back later today. Janet informed me that their Administrator has left and that Pam Hartman is acting ADM.I returned at 1PM to speak w/ Cheryl Grim, i spoke w/ the receptionist, Janet who phoned Cheryl. Cheryl stated, "I am not able to meet with her because i am getting reading to jump on a conference call." I left my BC
PPLPMDL0020000001	Westlake	OH	44145	6/19/2013	Window call. I reminded dr that he had questions about Butrans lasting 7 days based on the pharmacokinetics and I told him I was leaving the opioid naive study for him to look over and pointed out the pain reduction scores. Showed the flexible dosing of OxyContin. Gave Intermezzo dosing reminder.

PPLPMDL0020000001	Stow	OH	44224	6/20/2013	Dr told me that he referred a patient to dr Souzalnitski because of the history of opioids did not match the patients pain level. Dr said he saw the patient back after the referral and dr Souzalnitski initiated Butrans. Dr Russ said he was glad to know Butrans was initiated. I asked dr if he will prescribe it himself. Dr said he plans to more knowing pain management feels comfortable with it.m I explained all patient profiles. OxyContin dosing and conversions and intermezzo dosing guide and asked him to identify patients meeting the indication.
PPLPMDL0020000001	Stow	OH	44224	6/20/2013	I showed dr the Scott profile and told him that we have had many discussions regarding appropriate patients for Butrans. Dr agreed and said he remembers. I told him that on a few occasions that he had has said that its going to take time. Dr said yes. I asked him what are you waiting for? Dr didn't know quite what to say but agreed. I asked again what he's waiting for? Dr said its just going to take time and said he wanted the slide conversion guide I gave him to help remind him. Gave him the conversion guide for OxyContin and dosing guide for intermezzo.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/20/2013	Spoke to Teri e receptionist for dr Black. I asked to schedule a lunch to discuss products and she told he that all drs do appointments individually and for dr Black she said he has requested to leave a business card that has an email address. If dr wants to meet he will send an email to schedule and appointment. Left Butrans and intermezzo dosing information.
PPLPMDL0020000001	University Hts Westlake	OH	44118	6/20/2013	Window call, Reminded of upcoming Laham program and both Butrans and OxyContin new formulary grids. Said he doesnt prescribe alot of OxyContin anymore but will keep in mind
PPLPMDL0020000001	Westlake	OH	44145	6/20/2013	Dr said he is bringing back some of his patients that he considers good and he is thinking about Butrans for these patients. He thinks giving them Butrans before they get on Vicodin will help. He said he still has a few OxyContin patients but he does not want to get back to prescribing OxyContin due to the issues he has had I the past. Dr said he has a place for intermezzo in his practice but he does not have any patients yet.
PPLPMDL0020000001	Westlake	OH	44145	6/20/2013	Gave intermezzo dosing and administration. Asked pharm tech about Vicodin strengths and formulations. He said there is some confusion and they are calling offices back. I shared butrans conversion from hydrocodone.
PPLPMDL0020000001	Westlake	OH	44145	6/20/2013	Quick window call. Discussed if the office needed vouchers and left senakot samples. Booked lunch and reviewed dosing for OxyContin
PPLPMDL0020000001	Cleveland Hts	OH	44118	6/20/2013	Dr. stated he has started a few patients on Butrans, so far so good. Verified with Savings Card being distributed. Asked for his continued support, said he will do that. Invited to upcoming Laham program, he said he will try to make it. Reminded of OxyContin seven tablet strengths, flexible dosing.
PPLPMDL0020000001	Cleveland	OH	44119	6/20/2013	Met with staff @ hospice. Introductory call. Dr Dann Ganzorn had stepped out for lunch. Left PAP Caregiver Guides & Yellow hospice caregiver guides. Left OxyContin FPI. Asked them to review & forward updates to section 9.2 to dr Ganzorn, medical director, they will place my business card & all items left on his desk.
PPLPMDL0020000001	Euclid	OH	44119	6/20/2013	Met with LPN Jen @ front window. Left July 8 Laham invite. Left packet on all 3 branded products for dr. Indication, core message presented to Jen & medical staff up front. Scheduled lunches through remainder of 2013.
PPLPMDL0020000001	Cleveland Hts Euclid	OH	44118	6/20/2013	Brief Indication/dosing for both Butrans/intermezzo.
PPLPMDL0020000001	Euclid	OH	44119	6/20/2013	First time at office as Purdue rep. Found out Dr Polster retired, Dr Hoppes practicing in Columbus area ( Mt Gilead). Met with Jen & office coordinator. Left packets of information on all 3 products with medical staff. Left same for PA-C Judy, who's also their office mgr. Core messages all products. they set QUARTERLY lunches& SAMPLING appointments. Able to set up lunches through end of 2013. (New Doctor starting Sept 1)
PPLPMDL0020000001	Westlake	OH	44145	6/20/2013	Quick window call. Reminded christin of Butrans for patients not controlled on tramadol.
PPLPMDL0020000001	Westlake	OH	44145	6/20/2013	Meghan let me give dr information on Butrans conversion and I asked him to review the opioid experienced patient study. Shared the flexible OxyContin dosing.
PPLPMDL0020000001	Hudson	OH	44236	6/20/2013	Very short discussion about products. It asked for his continued use of Butrans and showed him the Scott profile. Gave him the OxyContin conversion guide and quickly explained the start principles which dr said was good to review. Indication and dosing for intermezzo.
PPLPMDL0020000001	Cleveland Hts	OH	44118	6/20/2013	Asked Bridgit if she has seen any Butrans or intermezzo RX's from Harris, She said not yet, Pharmacist Ole, said once she gets a script she will start stocking. Reiterated indication for both Butrans and Intermezzo
PPLPMDL0020000001	Fairlawn	OH	44333	6/20/2013	I placed a call to Michelle Williams in Staff Development to schedule an in-service on Pain Management. N/A, left a msg. on her voice-mail.
PPLPMDL0020000001	Cleveland	OH	44130	6/20/2013	I met with Melenie Petropoulos and Tom Roth to discuss FPI for Oxycontin, Butrans, and Intermezzo. discussed Oxycontin generic issue and new information and study results in FPI. reviewed the various savings cards. they do not have a specific pt monitoring program, but Melenie said the state uses the OARS program that would catch people attempting to use multiple pharmacies. we have an appointment with them at NACDS. they discussed a ROC that I then called in when I got to my car.
PPLPMDL0020000001	Cleveland	OH	44195	6/20/2013	Visited Walker-Anes/Pain mgmnt, left Butrans Initiation/Titration guide with Rosenquist- Samuel, King, Berenger and Michaela for residents and fellows
PPLPMDL0020000001	Westlake	OH	44145	6/20/2013	Spoke with floating pharmacist about intermezzo indication and limitation of use and no ab equal. Reviewed Butrans conversion guide from hydrocodone and tolerance data from clinical trials for opioid experienced patients.
PPLPMDL0020000001	Akron	OH	44313	6/20/2013	Reviewed OxyContin flexible dosing and titration every 1-2 days if necessary.
PPLPMDL0020000001	Euclid	OH	44119	6/20/2013	Spoke with Sara the pharmacist about intermezzo dosing, limitations of use and indication. Sara said she has not seen any come through yet and dos not stock it. I explained the OxyContin FDA information and FPI update. Sara told me she has had a few patients that have come in to ask if the is a generic version of OxyContin. Butrans indication and dosing and explained Scott profile. Sara said that they have one patient from dr Souzalnitski that is in Butrans 10mcg and its the only dose they have in stock. I discussed the dosing and conversions and requested her to stock the 5mcg dose.
PPLPMDL0020000001	Euclid	OH	44119	6/20/2013	Left REMS flashcard. Asked floating pharm Audrey & tech Paula, to review section 9.2 of OxyContin FPI & pass info along to both Kevin & Laurel. They checked a few existing scripts for me & both were written for a q 12 h dosing. They understand now that our recommended dosing is q 12 h. intermezzo, none on shelf, none dispensed. Detailed all key messages, left 2 patient guides& pharmacists guide. Butrans, none on shelf, not dispensing.
PPLPMDL0020000001	Euclid	OH	44119	6/20/2013	Key messages for Butrans, left 2 patient guides.
PPLPMDL0020000001	Euclid	OH	44117	6/20/2013	Met with nurse Joan. Found out doctors wife is office mgr. (dr has special interest in diabetes) limited hours. They DO accept CARESOURCE & BWC. Detailed core messages for all 3 products with Joan. Reviewed how savings & trials should work for my branded products. Joan remembered being detailed on Butrans a while back. Left Intermezzo patient guides. Stop back in & meet dr & his wife.
PPLPMDL0020000001	Euclid	OH	44117	6/20/2013	An In-Service was completed on Constipation for the nurses. 3 were in attendance. A discussion and interaction on risk factors of constipation, complications of chronic constipation as well as the signs and symptoms of constipation took place. The Senokot laxative protocol was handed out and reviewed. The SPM in-service was cancelled d/t no attendance.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/20/2013	I asked dr why he isn't using the 10, 15 or 20mg doses? Dr didn't really answer the question but said that he has a threshold of 30-49mg of Percocet before he moves to ER opioids. I showed him the conversion scale and told him that 40mg of IR oxycodone is 20mg of OxyContin q12. Dr said he knows and then said its tough to get through insurance. I explained the commercial insurance of OxyContin. Noting else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/20/2013	I asked dr how he decides who is appropriate for OxyContin? Dr said it depends on what the patient is bing treated for. Dr said for patients with cancer it is good or for happiness with severe pain. I showed dr the conversion guide and asked him if he starts patient on 10mg if patient is less than severe because the indication is for moderate to severe? Dr said ok and looked at the conversions. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	6/20/2013	Short discussion over lunch about his philosophy about treating pain. Dr said that he does treat pain but will not treat chronic pain. I asked dr how he classifies chronic pain? Dr said when a patient needs long term opioid therapy. I asked him if he has used Butrans? Dr said that he has used Butrans in the past and had good luck with it. I asked him why he isn't continuing to use it if he has such good results. Dr said he isn't making it a regular thing because he doesn't see many pain patients. Dr said he will refer to pain management when a patient has pain that requires injections or surgery and usually is a good judge of that. I explained Butrans and all key selling messages. I asked dr to continue using it. Discussed OxyContin briefly and where he should be using it. Quick hit on intermezzo and dr said he knows it well but has not used it. I asked dr to identify patients who tell him that have sleep maintenance issues.
PPLPMDL0020000001	Hudson	OH	44236	6/20/2013	Good discussion about oxycontin identification of patients using the patient profiles. Dr said he is more prone though to using Butrans because he feels more comfortable using it as it is a schedule 3 and transdermal patch. Dr explained to me how he does believe that the product is best used if it is initiated early because patients on too much vicoden or Percocet are less likely to be willing to move to a patch. I explained the Scott and nancy profiles and dr agreed to both and admitted he should be using it. Dr said he just needs to remember it. I asked for him to identify patients appropriate for intermezzo.
PPLPMDL0020000001	Akron	OH	44319	6/21/2013	Spoke to the pharmacist about intermezzo dosing and indication and showed placebo pill packs. He said that they have not filled any and probably won't because of poor coverage. I asked how he knew what the coverage was if he hasn't dispensed it? He said he heard how hard it was got get approved. I explained Caresource coverage and commercial grid. I told him about Butrans schedule 3 and 7 day transdermal system. He said he sees lots of vicoden and Percocet along with ultram. I explained patient types for Butrans. OxyContin dosing guide and intermezzo dosing.
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Spoke with Angie about intermezzo not having an ab equal. Reviewed Butrans conversion from 15-40 mg of hydrocodone. Discussed OxyContin flexible dosing.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/21/2013	Made drop-in visit to Nancy Strausser, in Staff Development to talk w/ her about scheduling a date for an in-service on pain management. She was unavailable. I left my BCI placed a phone call to Nancy Strausser, N/A, I left a msg. that I would be in the area on 6/25 & 6/26 and would like to meet with her if possible.
PPLPMDL0020000001	Cleveland Akron	OH	44125	6/21/2013	Had tech follow up with Christine in regards to OxyContin Savings card, can be used for 10 day supply. No new Butrans prescribers
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Dr was talking with his ma about a patient who is on vicoden and was in to get more after 20 days of the last prescription. Dr saw me and told me that he needs to make a switch to another medicine and what the conversion from vicoden is to Butrans. I discussed the nancy profile and showed him the approximate conversion chart. I also explained the new formulary updates and asked him to switch the patient to Butrans. Dr said he will discuss it with her when she gets into a room. Nothing else learned.
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Spoke with dr about Percocet patients taking round the clock meds for several months and her thoughts on OxyContin for these patients. She said insurance and I communicated that oxycontin is covered in 90% of the plans. I asked if there was a reason she did not prescribe butrans and she said insurance. I communicated the formulary win for Medco part d. Gave intermezzo dosing and administration.
PPLPMDL0020000001	C. Falls	OH	44223	6/21/2013	Spoke with Cindy the pharmacist and Denise the tech about Butrans formulary coverage. Discussed Medicare D coverages and asked about dispensing. Cindy said they are filling them now for dr Natouze and dr Souzalnitski. Denise who does the PA's said her success with them is about 70-75% and said that Caresource is the easiest and Medicare is the toughest. Discussed intermezzo dosing and indication and OxyContin copy cards and formulary coverage. Denise said she just got an OxyContin approved on Buckeye.
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Spoke with Melissa about dr Patel and butrans usage and she said he is using a little bit. Asked her to give the nancy patient profile to dr and explained that low dose hydrocodone patients needing a dose adjustment should be considered potential Butrans patients
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Rescheduled lunch with Debbie and reviewed Butrans Scott patient profile.
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Reviewed dosing and administration of intermezzo. Discussed Butrans conversion from hydrocodone and showed appropriate butrans doses. Asked about Vicodin and pharmacist said they are making office calls. Reviewed OxyContin and let him know about the lower doses.
PPLPMDL0020000001	Akron	OH	44313	6/21/2013	Stopped by to confirm Richard Lynch of In-service on Constipation - June 25th @PM-
PPLPMDL0020000001	Barberton	OH	44203	6/21/2013	Gave intermezzo dosing and administration. Gave pharmacist information on Butrans dosing with supplemental analgesia. Reviewed OxyContin flexible dosing and discussing titration 1-2 days 25-50%
PPLPMDL0020000001	Akron	OH	44312	6/21/2013	Discussed the opioid experienced trial with dr hitting all efficacy points, use of supplemental analgesia and titration. Dr told me that he has a patient who has Medicare that he is considering putting on Butrans. Dr said pt is currently on vicoden and wants more. Dr said it is a chronic low back condition. Dr asked about Medicare coverage. Discussed coverage with all insurance and told him to process. Gave him a slide conversion guide as a reminder for use. Explained OxyContin conversions and asked him to not forget about the 10mg dose. Left him with a intermezzo dosing guide.
PPLPMDL0020000001	Garfield Hts	OH	44125	6/21/2013	Presented Scott Profile again, asked if he had patients like him that are not adequately being controlled on Tramadol, he agreed and said that he sees more and more patients on higher doses of Tramadol and agreed that Butrans would be appropriate. He also has started a new patient on Butrans 10mcg/hr (she was taking percocet 3 times a day and wasnt controlled, he said it took some convincing to have patient try Butrans and so far hasnt heard back. Did give Savings Card and will follow up.Reminded of Titration. Went over Intermezzo indication/dosing Briefly Vignettes. Dr. stated cost and coverage will be the issue with his patients. OxyContin Flexible dosing and Quick hit on products at window. I told him how I thought our discussion last visit was a good one on Butrans. Dr said he did prescribe Butrans for a couple of patients since that time. I reminded him about titration and to not allow for a dose failure. Gave him dosing for intermezzo and OxyContin.
PPLPMDL0020000001	Uniontown	OH	44685	6/21/2013	

PPLPMDL0020000001	Akron	OH	44319	6/21/2013	Conducted the intermezzo in service with dr Wu. Dr said he already had been given all the information about the product. I asked him if he used it? Dr said no and I asked why? Dr said he needs samples of a product like intermezzo. I told him there are no longer samples. Dr asked me if a patient takes Ambien to go to sleep can they take intermezzo if they wake up. I read the action of the FPI for warnings and precautions. I asked dr if he has patients with sleep onset and maintenance issues? Dr said yes. I reminded him that patients need at least 4 hours of sleep remaining prior to taking intermezzo. Gave him quick info on Butrans patient types and asked for his business and left him with OxyContin conversion and titration guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/21/2013	Upon arriving at the front desk, I asked for my contact: D.O.N., Debbie Bouslough for the scheduled in-service @ 2PM on Pain Management & Constipation for the STNA's, I spoke w/ the Receptionist, Linda Bergman, who informed me that Debbie Bouslough has been out on Medical Leave x 2 weeks. I asked to speak w/ the ADON, Deb Lovette. Linda informed me that Deb Lovette was in a meeting and asked me to have a seat. At 2:15 Linda said, "I'm sorry, Deb Lovette will call you to re-schedule the in-service, she did not know anything about it."
PPLPMDL0020000001	Akron	OH	44333	6/21/2013	I made a drop-in visit to speak w/ Ramona Watson, I was informed that she was not available. I later placed a phone call to Ramona, I asked her if she has had time to review the list of education topics that I e-mailed her, per her request. Ramona said, "I have not had time." I told her that I would in the area next Tuesday, 6/25 and I asked to meet w/ her. She said, "I am only going to be in a 1/2 day." She asked that I call her the morning of the 25th to see how her day is going.
PPLPMDL0020000001	Fairlawn	OH	44333	6/21/2013	I made a drop-in visit to speak w/ D.O.N. Deborah Shafer and introduce myself and Purdue's Nurse Educator Program. I spoke w/ the receptionist, Dee who informed me that Deborah was off today. I left my BC & a PAP handout and placed an e-mail to her as well.
PPLPMDL0020000001	Akron	OH	44312	6/21/2013	Dr told me he had a patient last week he considered for Butrans but wasn't sure about coverage for Medicare and Medicaid so he didn't prescribe. I asked dr why he didn't consult with Nadia or myself to confirm coverage? Dr said he didn't know why. I discussed coverage and asked him not to let formulary rule his clinical decisions. Dr agreed and said he will continue to find patients on ultram or vicoden who are in pain. Discussed using OxyContin for his Percocet patients and why he continues to refill Percocet for a patient with pain for an extended period of time? Intermezzo for his patients with sleep maintenance issues.
PPLPMDL0020000001	Fairlawn	OH	44333	6/21/2013	I made a drop-in visit to speak w/ Michelle Williams in Staff Development to schedule an in-service on Pain Management. I spoke with the receptionist, Helen who tried calling Michelle's office, N/A. Helen stated, "Orientation is going on today." I left my BCI later placed a phone call to Michelle Williams, N/A, left a msg. that I will be in the area on 6/25 & 6/26 and would like to meet with her.
PPLPMDL0020000001	Akron	OH	44312	6/21/2013	Reviewed the opioid experienced trial and discussed all efficacy points. I asked dr if he would be happy with a 30% reduction in pain score? Dr said for sure and told me about 2 patients he identified for Butrans. Dr said one patient has T12 compression and can't take vicoden or Percocet and still in pain. Dr said he started on the 5 mcg dose and has not heard anything back yet. Dr said the other patient had either Medicare or Medicaid and he gave her Butrans and she called back in to say it was over \$400. I asked him for specifics and he told me to speak with Nadia. Didn't get to speak with Nadia but will follow up with her soon. I asked for his continued business with Butrans and reminded him of use of OxyContin and intermezzo.
PPLPMDL0020000001	Cleveland	OH	44102	6/24/2013	Quick discussion thru window, Dr. said he is looking for appropriate patients for Butrans and is confident he will find those patients. I asked if he will find 1 this week and he said he has a busier schedule over at Detroit Rd office and will start appropriate patients. Told him I will see him there
PPLPMDL0020000001	Cleveland	OH	44195	6/24/2013	Visited Criele/A-bldg, 4th floor- Ortho. Left info for Iannotti, Parker, Ballis, Schaffer, Evans, Krebs,Umeda, 5th floor- obtained floor protocol for CNP's=Jones,Paczos,Kirchner,Tuthill, Clark and MD=Long, Chatterjee, Calabrese, Burg, Abelson, Fellows-Azar, Chong, Clifford, Lenert, Lucke, Morales-Mena,Syed
PPLPMDL0020000001	Cleveland	OH	44103	6/24/2013	Followed up Justin, no new scripts of Butrans, most OxyContin coming from Tausing Cancer Ctr. asked anyone particular( Chatterjee,Davis)
PPLPMDL0020000001	Cleveland	OH	44109	6/24/2013	Talked with tech. asked if she has seen any Rx's from Carson nothing for Butrans or OxyContin, most scripts come from Metro.
PPLPMDL0020000001	Cleveland	OH	44128	6/24/2013	In-Service for today was cancelled d/t expecting a re-visit inspection from State
PPLPMDL0020000001	Cleveland	OH	44195	6/24/2013	Stopped in Pharmacy, Intro. Butrans/OxyContin- indication/dosing. Brian Doss is Pharmacy Mgr. Said they see alot of OxyContin from Ortho. Pharmacy was busy, stopped back at a better time
PPLPMDL0020000001	Cleveland	OH	44103	6/24/2013	Dr was running behind again, reminded of the 7 tablet strengths Of OxyContin, also patients taking q4-6 of the short acting an appropriate conversion.Reminded of those tramadol failures for Butrans. Dr. said getting anything approved is a challenge.
PPLPMDL0020000001	Cleveland	OH	44113	6/24/2013	Continuing to build on past Butrans success, asked for those LorTab/Norco failures. She said she will consider, relayed to her Melissa's success with getting CareSource approved. Intermezzo indication/dosing reminder.
PPLPMDL0020000001	Cleveland	OH	44115	6/25/2013	Reminded of Upcoming Laham program and future program in August
PPLPMDL0020000001	Cleveland	OH	44115	6/25/2013	Talked again with Dave, asked if he would distribute Butrans patient booklets for appropriate patients to take back to providers. He said they really dont fill narcotics,once a while percocet, doesnt stock OxyContin (Filled 400 total scripts yesterday) Said I could leave a few next visit
PPLPMDL0020000001	Cleveland	OH	44115	6/25/2013	Intro. obtained office protocol, Presented Butrans/OxyContin and Intermezzo indication/Dosing. Toya stated that Dr. does treat alot of pain and she has seen patients on Butrans and can help identifying the appropriate patients, she also stated it's a great product before the patient starts on short-acting. I went of dosing and titration along with Savings cards for OxyContin and Butrans
PPLPMDL0020000001	Euclid	OH	44117	6/25/2013	I recv'd a phone call from D.O.N., Kathy Nemeth requesting another in-service on Constipation ASAP. She explained that they just had a state inspection and was cited for not following their bowel protocol. Kathy would like to include an in-service on constipation as part of her corrective action plan.An in-service was scheduled for 7/3 @ 2:30 & 3PM
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2013	Quick window detail asked dr if he had enough information to fill comfortable writing Butrans and he said not yet. I asked him to review the nancy profile and we can discuss at our next lunch. Reviewed OxyContin dosing and reminded him of lower doses.
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2013	Asked dr how he was doing with evaluating patients on Percocet and if they are candidates for an extended release medication like OxyContin. Dr said he remembered. Gave brief reminder of nancy profile and asked him to consider patients like this for Butrans. Gave indication and reminder of Intermezzo. Asked if he needed more senakat samples. Dr had not used the samples yet.
PPLPMDL0020000001	Cleveland	OH	44119	6/25/2013	I placed a call to the ADM., Nancy Sugaman to introduce myself and Purdue's Nurse Educator Program. N/A, I left a msg. on her voice-mail.
PPLPMDL0020000001	Richmond Heights	OH	44143	6/25/2013	I placed a phone call to Nurse Educator, Sheila Harris, to introduce myself and Purdue's Nurse Educator Program. N/A, I left a msg.
PPLPMDL0020000001	Parma Heights	OH	44130	6/25/2013	I placed a phone call to D.O.N., Katherine Myers to schedule a meeting to introduce Purdue's Nurse Educator program. N/A, I left a msg. on her voice-mail.
PPLPMDL0020000001	Lakewood	OH	44107	6/25/2013	Window call asking dr if he has considered evaluating patients on Percocet for several months as OxyContin patients. Asked if he will keep Butrans in mind now that Medco Medicare part d has favorable formulary coverage. Gave indication for Intermezzo. Dr said he will keep in mind.
PPLPMDL0020000001	Parma	OH	44129	6/25/2013	I recv'd the following e-mail from Kim Barber in Staff Development. I have made several attempts to call her and have sent e-mails to re-schedule, but have recv'd no response.Cynthia,I am sorry to tell you that I have been asked to cancel these in-services.Thank you,Kimberly Barber LPNStaff Development Nursel placed a call to the ADON, Jasvir Brar to see about re-scheduling the in-services that were cancelled for 7/15 & 7/29. N/A, I left a msg. on her voice-mail.
PPLPMDL0020000001	Westlake	OH	44145	6/25/2013	I placed a phone call to Nurse Educator, Patty O'Shea to see if she was still interested in continuing in-services on Pain Management for the STNA Classes even though the D.O.N., Ovisli Pilblad is not interested in Purdue's Nurse Educator Program. N/A, I left a msg. on her voice-mail.
PPLPMDL0020000001	Westlake	OH	44145	6/25/2013	I placed a phone call, spoke w/ D.O.N., Sue Williams to follow-up from meeting on 2/14 and to schedule educational in-service. I spoke w/ the receptionist, Debbie who informed me that Sue was not in today. I left a msg. on her voice-mail
PPLPMDL0020000001	Cleveland	OH	44115	6/25/2013	Visited Spine and Ortho Institute along with George in Pharmacy - left Butrans/OxyContin info/cards for ORTHO Levy,Stickney,Blades MD along J. Reisman ONC.
PPLPMDL0020000001	Westlake	OH	44145	6/25/2013	I called to follow-up w/ ADON,Janie Adamo to check on status of facility ownership and discuss education opportunities. I spoke with Janie, she said, "we are still in the process of switching over, but I can tell you that I don't think your program is something that we will use. We have a Regional Nurse from Genesis that comes to our facility to complete our educational needs."
PPLPMDL0020000001	Uniontown	OH	44685	6/25/2013	Dr gave a quick hello at window and told me he started a couple of new patient on Butrans after I was in for our lunch last time. I told dr that's great and asked him what the patients were taking previously and why he thought about Butrans? Dr said he knows one patient was taking under 300mg of Ultram and could remember the other. Dr said the ultram patient has chronic back pain and had good insurance. I asked dr to continue prescribing and told him and Kelly his ma about Medco Medicare D coverage.
PPLPMDL0020000001	Stow	OH	44224	6/25/2013	Dr asked me how high the dose of Butrans can be pushed and what others are doing to push the dose for severe pain? I told dr that in the clinical studies with Butrans when patients had 2 20 mcg patches it prolonged the QTC interval by 9.2 msec over 13 assessments points. I told dr that is why it is not recommended to go above 20mcg. I asked why he asks? Dr said he has a patient with severe osteoarthritis of the spine and is in severe pain. Dr said the patient is also taking Percocet for breakthrough. I reminded dr again about the 20mcg dose. I showed dr the Scott profile and nancy and asked him to do his best to identify patients like those. Asked dr to look for intermezzo patients and reviewed the indication and dosing.
PPLPMDL0020000001	Stow	OH	44224	6/25/2013	Explained patient type profiles with Sandra and asked her what her thoughts are? Sandra said she just wrote ones last eek for a patient on Percocet 20mg. Sandra said the patient was asking for something different and that's what made her think of Butrans. I asked her what dose she initiated and she said 10mcg. I reminded her to titrate to 20mcg if necessary and backed it up with the opioid experienced trial forced titration. I asked her to continue prescribing and she agreed. I showed her the intermezzo dosing guide and asked her to identify patients.
PPLPMDL0020000001	Stow	OH	44224	6/25/2013	Abby discussed with me how a male patient of her cam in with Butrans to show her his blistering from Butrans patch and how many of his patches after being worn after a week had evidence of possible mold on them. Abby said she discontinued even though it worked very well for the patient. I told her she did the right thing and that I would report the information. I asked Abby if a patient had a rash if she would treat the rash instead of discontinuing? Abby said she would treat wit and has in the past with success. Reviewed patient profiles an formal updatres. Explained intermezzo and asked for her to use it. Abby said she does not believe in zolpidem because it is so habit forming and uses melatonin with good success.<font color=blue>-b>CHUDAKOB added notes on 07/18/2013</font>-Cliff, here is an instance of you recording three products presented, but call notes only suggest two were discussed. We discussed this on our recent work session, but I wanted to point this out.
PPLPMDL0020000001	Stow	OH	44224	6/25/2013	Had a good conversation over lunch with dr about Butrans and intermezzo. I focused on identifying the right patient for Butrans. I first discussed nancy profile because he said he has very few patients on just tramadol. Explained nancy profile in depth and asked him if it makes sense to use Butrans for a patient like her and to use it early on in the treatment of pain? Dr said it does make sense and said that his goal is to initiate ER opioids earlier on in treatment. I asked dr if he will initiate Butrans for patients like the ones we discussed? Dr agreed. Dr said that he spoke to his pcp last month about possibly initiating intermezzo because eye sometimes wakes up in the night and has trouble returning to sleep. Dr Geiger said his pcg didn't know about it but wrote a prescription. Dr Geiger took it to have it filled and it cost him \$300. Dr said he was really surprised because he has good insurance with UHC. I explained that he may not have met the criteria on many plans to fail Ambien first and possibly another sells agent. Dr said he has never tried anything and understands why it was so expensive
PPLPMDL0020000001	Cleveland	OH	44115	6/25/2013	Talked with George, hasn't seen any Butrans RX's, doesn't think Dr. Nickels is that busy yet, only 1 day a week for now. Said he sees some OxyContin from the Ortho Group Levy, Stickney, Blades. I said I will follow up
PPLPMDL0020000001	Stow	OH	44224	6/25/2013	Discussed products with Greg over e lunch hour. I asked him if he has filled an intermezzo? Greg said no not yet but thinks it's a good medicine. I asked him if they have had any issues approving Butrans or issues with the copy cards? Greg said it all has gone smoothly with Butrans and said he has noticed more prescribing since I began meeting with the doctors. Discussed the patient types ideal for Butrans and asked him to call me if he runs into anything out of the ordinary.
PPLPMDL0020000001	Fairlawn	OH	44333	6/25/2013	I made a drop-in visit to speak with Michelle Williams about scheduling an in-service on Pain management. The receptionist, Helen called her office, N/A.I called and left a msg. on her voice-mail.

PPLPMDL0020000001	Akron	OH	44313	6/25/2013	I completed an in-service on constipation for the nursing staff. 9 were in attendance. Discussion and Interaction on risk factors of constipation, s/s of chronic constipation, diseases associated with constipation and tx for constipation took place with the nurses. The Senokot laxative protocol was handed out and reviewed. The Nurses liked the protocol and talked about initiating it in their facility. Richard Lynch scheduled an in-service on constipation for the STNA's for July 22 @ 2pm
PPLPMDL0020000001	Akron	OH	44320	6/26/2013	Dr not felling well and not willing to talk much. I thanked dr for pushing through the PA for her last Butrans patient. I asked dr to continue identifying the right patients for Butrans and updated her on formulary coverage. I gave her an OxyContin dosing guide and asked her to switch Percocet patients. Gave her an intermezzo dosing guide and asked her to identify appropriate patients who meet the indication.
PPLPMDL0020000001	Stow	OH	44224	6/26/2013	Spoke with Holly about intermezzo and if she has dispensed any yet? Holly said she has not and won't order it until she sees a script. Explained the Scott profile with Butrans and spoke to her about appropriate patient selection, initial dose and titration. I explained the OxyContin dosing and conversion guide and made sure they have all doses available.
PPLPMDL0020000001	Fairlawn	OH	44333	6/26/2013	Spoke with Gilbert the pharmacist and his pharmacy student. I asked him about his intermezzo prescriptions and if he has had any patients inquiring about it. Gilbert said he hasn't filled any recently but will keep it in the shelf. Discussed Butrans patients types and my goal to teach the physicians about the mechanism of action, appropriate patients and titration. Gilbert said he has not iced more patients titrating over the last couple of months. Discussed steady state, titration, and how physicians are teaching their patients on the product. Explained OxyContin dosing and switching patients from Percocet to OxyContin.
PPLPMDL0020000001	Cleveland	OH	44106	6/26/2013	Talked with Margie, Presented the Medical Education Resource Catalog Online handout, which discussed Pharmacist Role in providing Medication Guides for Products with REMS per her request, Also presented handout for FACETS on education of Pain Mgmt. She thought it was useful.
PPLPMDL0020000001	Cleveland	OH	44103	6/26/2013	No new prescribers for Butrans, has filled some OxyContin from Metro. No Savings cards needed
PPLPMDL0020000001	Cleveland	OH	44195	6/26/2013	MSL phone call with Sharon, nurse coordinator, to discuss OTR and outreach to additional specialties. Site team is meeting internally to discuss recruitment plan week of July 1.
PPLPMDL0020000001	Akron	OH	44320	6/26/2013	Short discussion about OxyContin and Butrans. I showed her the Tom profile for OxyContin and asked her it it makes sense and to identify patients that meet that criteria. Dr said she would. I asked her how the Butrans patient she had in the exam room last week on Butrans? Dr said the hasn't heard anything from the patients once initiated and will have the patient back in in a couple of weeks for a follow up. Asked dr to continue looking for patients meeting the indication for intermezzo and explained the Caresource coverage.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/26/2013	I made drop-in visit to Nancy Strausser, in Staff Development to talk w/ her about scheduling a date for an in-service on pain management. Her office was locked and there was no one around to have her paged. I left my BCI placed a phone call to Nancy Strausser, N/A, I left a msg.
PPLPMDL0020000001	South Euclid	OH	44121	6/26/2013	Met with dr med asst Jen Klabunde. Dr can't attend Laham July 8 program because its his first day back from vacation. Reviewed indication for Butrans. Left Savings card flashcard, formulary grid. Reviewed OxyContin indication, update to section 9.2 FPI, please have dr review, left formulary grid, savings flashcard.
PPLPMDL0020000001	Akron	OH	44333	6/26/2013	Short discussion over lunch about his Butrans prescribing. I told dr to continue identifying patients for Butrans like the opioid naive patients and the patients on tramadol or vicoden around the clock and still in pain. I asked dr if he has had any issues with product recently which may be impacting his prescribing? Dr asked why I asked and I told him that I have noticed his numb of prescriptions has fell off. Dr said he has been having more issues getting it approved. I asked where and he told me his Medicare patients and Medicaid. Found out that he forgot about the Caresource PA and gave him the Medicare D coverage. I told dr that Leala will be sending over the formulary grid with updates to the home office. I told dr to prescribe more Butrans. I asked dr to continue prescribing OxyContin for his IR oxycodone patients and to identify intermezzo patients who have in the middle of a phone call to Javir Bar to see Why the in-services were cancelled for July and to discuss re-scheduling. N/A I left a msg. on her voice-mail.
PPLPMDL0020000001	Parma	OH	44129	6/26/2013	Met with Carroll. Dr does write pain meds, currently managing pain in office. Asked her to have dr review update on section 9.2 of OxyContin FPI. left updated formulary grid. Detailed Butrans, she feels dr would be very interested in learning more about Butrans. Left July 8 th Laham invite. Suggested I leave trial savings cards so dr could review. left one box, & showed her how trial, monthly savings for Butrans should work, left savings cards as soon as I receive my shipment. Butrans, had not heard of Butrans, says interesting concept, Really liked that Butrans was a CII. Asked if Butrans was indicated for acute pain? I responded no, it's indicated for chronic, moderate to severe pain& clinical study was conducted on patients with chronic low back pain. Presented Opioid naive trial data, Maria profile, as dr was leaving, he took a Butrans savings card out of holder, & said I want to present this to my next patient. I found out from RN Ann a few hours later, that it was a female patient, & he didn't end up writing for her. didn't get any further details. Intermezzo, he likes product, & will continue to write for MOTN insomnia. New Facebook page, where patients can print savings.
PPLPMDL0020000001	South Euclid	OH	44121	6/26/2013	He's following START Principles & q 12 h dosing for OxyContin, happy with efficacy for patients. Butrans, opioid experienced trial presented, pain reduction scores@ 12 weeks. He likes data. Please keep in mind Butrans for your BCW patients, which he says he will.
PPLPMDL0020000001	Mayfield Hts	OH	44124	6/26/2013	Lunch in-service completed on Butrans w/ Nurse Practitioner, Charlene Sonda. The Butrans initiation and titration guide was reviewed. Charlene was informed that a prior authorization would be required. Charlene said, "Prior authorization is a bad word." I informed her that we should do what is best for the patient or resident. I asked Charlene, "Can you think of a patient who would be a candidate for Butrans?" She replied, "yes, its not at this facility, but at Hickory, another place I work. I just started them on Tramadol." I informed her, if she had any questions to contact me and that I would follow-up w/ her in the next couple of weeks. Leave behinds: Butrans initiation & titration guide, my BCI also spoke w/ the ADON Deb Lovette about re-scheduling the in-service on Pain Management & Constipation for the STNA's from 6/21 which was cancelled. She informed me that I would need to speak with Lisa Adams in MDS who is "acting" DON. I had the receptionist, Linda Bergman page Lisa, N/A. She advised me to call before 9am or after 10:30 d/t morning meeting to reach her.
PPLPMDL0020000001	Cleveland	OH	44124	6/26/2013	Met with RN Gail Smith for first time back in her office. She stated when Purdue first re formulated OxyContin, the majority of the patients complained & stated it didn't work as well. a few patients had to be titrated up, and a few switched to another pain med. However, after "fussing" for a while, most patients stayed on re formulated OxyContin. Left her with OxyContin FPI, read section 9.2 please, she started reading as I sat in her office. Then detailed Butrans. She had no information as to why Dr doesn't write Butrans, I invited her to July 8 Laham program, did not commit to attending. Asked what other resources I could provide her with, she says patients really like the Senokot S samples, so I left 1 box. Told her I'd bring OxyContin savings cards as soon as I get them. Left her both formulary grids for OxyContin & Butrans, Savings flashcards, managed care piece for OxyContin.
PPLPMDL0020000001	Fairlawn	OH	44333	6/26/2013	Quick discussion about all products. Dr told me that he is really liking Butrans and is finding great success for patients earlier than later on in the treatment with IR opioids. Dr said the problem is that many family drs are giving short acting opioids and too many of them. Dr said its hard to get them to switch to Butrans but it is working. I asked dr if he is convinced Butrans worker. Dr said the proof is in the pudding because the patients really like it. Dr told me that he really doesn't like to give breakthrough medicines with it because it keeps them too attached to their pills. I explained the patient profiles and asked for his continued business. OxyContin conversion and titration guide and FDA decision and FPI. I gave him an intermezzo dosing guide.
PPLPMDL0020000001	South Euclid	OH	44121	6/26/2013	Lunch, first time meeting dr while waiting for Drs to come in, detailed both RNs on all products. Left them updated formulary grids for all 3 branded products, OTC visual aid. Dr very receptive to all product details. Went through core messages OxyContin& patient types, chronic pain, ATC, Reviewed steady state dosing START principles. Dr really liked START principles & picked up conversion titration guide after lunch, & placed in his office. Dcussed syeady state, opportunity to titrated up or down, with 7 doses. I promised to bring savings cards as soon as I receive shipment.. also asked dr to review section 9.2 of updated FPI. Likes that we re formulated product. Butrans, unfamiliar with, but interested in learning more, left Laham invite for July 8. Went through opioid naive trial, reduction pain scores, & Maria profile, dr says the positioning of Butrans makes sense for patient like Maria. Black Box Warning discussed, QTC prolongation, & why max dose is 1 patch per week, 20 mcg hr max dose. What if patch loosens says dr? Went through patient guide, solutions for first aid tape, bioclusive, Tegaderm. Intermezzo, patient guides Reviewed, indication, limitations of use, highway driving study. Gender dosing. Facebook page, patients can print out savings.
PPLPMDL0020000001	Akron	OH	44333	6/26/2013	Good conversation after her came back from his vacation last week. Dr told me that his patient who is on both Butrans 5mcg and intermezzo was in monday and said she is doing very well and is extremely happy with both medicines. Dr told me he prescribed another intermezzo the other day as well for a middle aged man who had previously failed 2 sedative hypnotics. I explained the dosing again and asked for continued business. I updated dr as well on new Butrans Medicare plan coverages and focused on Medco Med D plan. Dr told me that he also prescribed an OxyContin the other day for a young 27 yr old man who has severe disc herniations and was taking way too much Percocet. Dr said he placed the patient on 60mg of OxyContin q12h and Percocet for breakthrough. I discussed dosing options and steady state for up or down titration.
PPLPMDL0020000001	Stow	OH	44224	6/26/2013	Asked dr what his philosophy is about treating pain and when he introduces ER opioids? Dr told me that he strongly believes that the IR opioids should only be used for acute pain and post operative pain for short periods only. Dr said that he wants to initiate come type of ER opioid as soon as possible for patients who have a chronic pain condition. I asked what his thoughts are on OxyContin and Butrans? Dr said he didn't know I had OxyContin. Dr told me that he doesn't understand why so many people are taking IR oxycodone for so long. Dr said he tries to switch patients over as often as possible. I explained the FDA decision and advised him to read section 9.2. I told dr to continue doing what he is doing for OxyContin. I discussed all key selling messages for Butrans. Dr said the slide conversion chart is the most important piece and wanted them for his exam rooms. I introduced intermezzo and showed him the dosing guide. Dr said he will keep a look out.
PPLPMDL0020000001	akron	OH	44333	6/26/2013	Good discussion with dr about his ability to identify patients for Butrans. Dr told me that he will be looking at using Butrans more now that he added 2 nursing homes. Dr said that he saw a patient the other day at a nursing home who is an amputee and has chronic pain. Dr said the patient takes 5 mg Percocet 8 Times a day and sit not working. Dr said he hated the patient if he would consider using a patch like Butrans? The patient told him the adhesive in the patches don't agree with him but he may consider it. Dr said he is coming into the office next month and he will initiate as long as its covered. I discussed the formulary with Butrans highlighting the Medco Medicare D plan coverage. I asked him to also identify patients appropriate for OxyContin and intermezzo. Gave him dosing for each. Window call. Reminded of Butrans for the Tramadol failure before they get on those Short acting along with BWC patients that are appropriate. Also reminded of OxyContin Q12 dosing for those Percocet patients.
PPLPMDL0020000001	Cleveland	OH	44109	6/26/2013	Met with Medical assistant Michelle. Dr on vacation, back July 1 st. Detailed Butrans, left updated formulary grid, savings flash card, July 8 th invite to Laham program. Left one box savings cards. Discussed OxyContin indication, dosing, q 12 h, updates to section 9.2 of FPI. Left savings flashcard, formary grid FPI, OxyContin.
PPLPMDL0020000001	South Euclid	OH	44121	6/26/2013	Quick Butrans reminder, Positioned 7day transdermal for Tramadol failures, good managed care coverage. OxyContin flexible 7tablet strengths
PPLPMDL0020000001	Cleveland	OH	44113	6/26/2013	Maria profile & Butrans positioning as first Opiod. Dr says he likes Butrans, recently wrote for a Medicare Part D patient & patient called him back & couldn't afford, so he had to write for another pain med. Dr, if we take Medicare Part D out of the equation, Butrans has great coverage, & Medco Medicare Part D just added Butrans to their national formulary. I will meet with Helen & make sure she gets all formulary updates. I also met with practice manager, Ellen T, & Reviewed formulary updates for both OxyContin & Butrans with her. When Butrans not appropriate & patient more appropriate for CI, please consider OxyContin. Q 12 h.
PPLPMDL0020000001	Lyndhurst	OH	44124	6/26/2013	I made a drop-in visit to speak w/ D.O.N., Debbie Keller to reschedule a meeting to introduce Purdue's NE program. Upon entering the facility, there was construction taking place. I spoke w/ the receptionist who paged her, N/A. I left my BC and later placed a phone call to her, N/A, I left a msg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	6/26/2013	Per Marge request..To present to Ron Cowen -In-Patient Pharmacy Mgr. Medical Education Resource Catalog Online handout, which discussed Pharmacist Role in providing Medication Guides for Products with REMS Also presented handout for FACETS on education of Pain Mgmt
PPLPMDL0020000001	Cleveland	OH	44106	6/27/2013	

PPLPMDL0020000001	East Cleveland	OH	44112	6/27/2013	Talked with Michelle-Tech went over Butrans indication and dosing along with OxyContin flexible dosing. Location doesn't fill a lot of OxyContin
PPLPMDL0020000001	Cleveland	OH	44127	6/27/2013	Reminded of Scott profile and those Tramadol failures as appropriate patients for Butrans, went of Dosing and titration. Intermezzo indication and dosing along with 5 day trial offer.
	Cuyahoga Falls	OH	44221	6/27/2013	Was speaking with Lori at the front desk and she asked me what the doses of Butrans are. I explained the doses and asked her why she asked. Lori said that Dr Azem has a patient that called in today and said her 10mcg Butrans should be increased to 20mcg. Lori said that the patient is also taking 2 tylenol 4 times a day. Dr Azem walked up confirmed the patient situation. I discussed with dr how the patient needs to be titrated to 20mcg as long as she can tolerate it. Dr said she plans on titrating and told me how much the patient really likes Butrans but has severe pain. I told dr to continue looking for appropriate patients. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44308	6/27/2013	MSL meeting with PRA CRA Bill Thornton, Dr. Frieber, and Hillary Tonni, study coordinator. MSL provided OTR study updates of enrolled patients and pre-screening information. Discussed patient population, patient flow, and pediatric palliative care practice.
PPLPMDL0020000001	Cleveland	OH	44119	6/27/2013	I made a drop-in visit to meet w/ ADM., Nancy Sugarman to present Purdue's NE Program, I spoke w/ receptionist, Melissa who informed me that Nancy was in a meeting. I left my BC.
PPLPMDL0020000001	Cleveland	OH	45786	6/27/2013	I went over managed-care grids for all three products. Went over co-pay cards. W-they're still learning the EMR system. They have a lot of kickbacks with Butrans.
	Cleveland	OH	44106	6/27/2013	Per Marge request (Bowell Pharmacy Mgr) to present Ron Cowen -in patient pharmacy director the Medical Education Resource Catalog Online handout, which discussed Pharmacist Role in providing Medication Guides for Products along with the handout for FACETS on education of Pain Mgmt. Ron was on vacation, Shirley will follow thru- <b>font color=blue</b> <b>CHUDAKOB added notes on 07/07/2013</b></font>-Bowell pharmacy is an out-patient pharmacy and would not constitute a hospital call.
PPLPMDL0020000001	Waterford	OH	45786	6/27/2013	Was out of town on vacation until next week.
	Mogadore	OH	44260	6/27/2013	I had Pam ask dr Stenzel if he needed any more Butrans copay cards. Dr came up to window and said he just wrote a Butrans recently and it was for a patient on ultram. I told dr that an ultram patient is ideal as long as the pain is moderate to severe. Dr said the patient has chronic low back pain and just used the last copay card. I told dr to continue using Butrans and to remember to titrate if necessary. Left him with a intermezzo dosing card
	Cuyahoga Falls	OH	44223	6/27/2013	Good conversation with Kyle the pharmacist. I introduced intermezzo and Butrans. Kyle said he did not know about Butrans and wanted me to give him the information. Discussed all key selling messages and told him I was surprised he has not seen any because of the high number of scripts coming out of Cuyahoga Falls. Andy said New Choice is probably seeing most and Summit Spain has their own as well. Discussed the approximate conversion chart and candidates for the product. I gave him an OxyContin conversion and titration guide and asked him to identify patients on long term IR opioids. I told Kyle about copy cards for all products.
PPLPMDL0020000001	Cleveland	OH	44112	6/27/2013	Briefly went over intermezzo vignettes, dosing and indication. Went over Scott Profile and those Ultram/Tramadol failures as appropriate choice for Butrans. Dr. mentioned she had a patient in mind and I told her I will look forward to following up with her on that patient. Initiation and Titration reminder- <b>font color=blue</b> <b>CHUDAKOB's query on 07/07/2013</b></font>-Mark, I do not see an OxyContin discussion. Was there? OxyContin should not be third position call. Only first or second- <b>font color=green</b> <b>GUTKOMA's response on 07/08/2013</b></font>-Ok.....Also, I did briefly discuss OxyContin and its flexible dosing- <b>font color=blue</b> <b>CHUDAKOB added notes on 07/09/2013</b></font>-Ok
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/27/2013	I spoke to Andy the pharmacist about all products. I reviewed the intermezzo dosing fluid and asked him if he has dispensed any recently? Andy said he has for dr Higley. I told dr to keep both doses in stock. I told him about Butrans and discussed good candidates for the product. I asked if he is seeing a rise in prescriptions being filled? Andy said he is seeing more of it and most are coming from Summa Western Reserve Pain. I asked him which doses he has in stock? Andy said the 5 and 10mcg are in stock and he will order the 20 mcg when he starts seeing prescriptions. Gave him the conversion and titration guide for OxyContin and told him about all 7 doses and Quick hello at window and told him that Butrans can be a solution for his patients in moderate to severe pain who are on short acting opioids around the clock. I handed him the initiation and titration guide and asked him to find patients.
PPLPMDL0020000001	Akron	OH	44312	6/27/2013	Told dr at the front counter that I have the candidate that fits well for Butrans. Dr said ok. I told him instead of titrating ultram or moving to another short acting opioid when patients are on the IR opioid around the clock and still in pain. I told dr to review the profile and asked if he would switch patients to Butrans? Dr said he will look at it. Gave updated Butrans managed care to office manager.
PPLPMDL0020000001	Tallmadge	OH	44278	6/27/2013	I- Went over the managed-care grids, Medicare part D, co-pay cards and dosing for OxyContin. Went over intermezzo everything, administration and limitations of use. W-they will see reps again when Dr. Waters comes back from vacation after next week. They've been having trouble getting Butrans through and were interested in some of the Step edits that surround Medicare and Medicaid.
PPLPMDL0020000001	Waterford	OH	45786	6/27/2013	I asked dr at the window if he has had any bad experiences with Butrans? Dr said no and asked me why I asked? I told him that I noticed he has not prescribed Butrans in a long while and that I was just making sure he believes in the product. Dr said he does and that he has tried to write it a few times over the last month or two but patients have told him its too expensive. I asked if he knew the plans and he said he couldn't remember. I gave him a copy of the Bup 3015 and formulary grid. I told him about Medco Medicare D plan and Summa Care Med D coverage and reminded him about the copay cards. Nothing else learned.
PPLPMDL0020000001	Euclid	OH	44117	6/27/2013	An in-service on Medication Routes & Delivery Systems was completed for the nursing staff. 9 were in attendance. Routes of administration, Medication delivery responsibilities, safe consideration for medication administration and the different types of delivery systems were presented. Discussion and interaction among the staff took place. The PAP Medication Routes and Delivery System educational handout was shared w/ the nurses. Charlene Miller, requested that a 2nd in-service on constipation for the nurses take place. It was scheduled for August 28th @ 2:30.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	6/27/2013	Discussed all products over lunch appointment. I discussed with dr that I now know his practice is largely a geriatric practice. I explained how OxyContin and Butrans are two products that can fit his patient population because of their efficacy and formulary coverage. I Eco, wined OxyContin patient profiles and showed him how he can switch his IR oxycodone patients to OxyContin q12h and that it is a single entity opioid. I discussed formulary coverage focusing on Medicare D. I reviewed Butrans core messages and reviewed the Bup 3015 in its entirety. I explained to the dr that I need to ensure he knows it works and its safe before he uses it. Dr agreed and said that he remembers that it is a CII and he can call it in. Dr said that it is a huge selling point for him. I reviewed the approximate conversions and reviewed patient types. I finally told him that Butrans now has Medicare D coverage and reviewed Medco, SummaCare and ESI Med D coverages. Gave dr a intermezzo dosing guide.
PPLPMDL0020000001	Akron	OH	44308	6/27/2013	Email communication with Olivia Bitter regarding the upcoming non-accredited pain management webinar, scheduled for July 18, 2013. Ms. Bitter provided the requested topics (Pain Care in the Older Adult: Special Considerations and Primer on Addiction).
PPLPMDL0020000001	Brooklyn	OH	44144	6/28/2013	Briefly reminded dr. of Butrans for those Tramadol failures, dosing and titration. Presented intermezzo trial cards again, Dr. said he will see what he can do. Asked Tiffany for help with reminding Dr., said she will.
PPLPMDL0020000001	Brooklyn	OH	44144	6/28/2013	Talked with Beverly no new scripts. Went over Butrans and where to position (Tramadol failures) Intermezzo-MOTN and dosing along with Savings card
PPLPMDL0020000001	Cleveland	OH	44109	6/28/2013	Briefly Discussed all 3 products, indication/dosing with Bernie, Went over Scott profile/ Tramadol failure for Butrans- He said hasn't seen any. Does see intermezzo prescribed, had some denial thru ins. requested savings cards. and suggested Raheja as key prescriber. OxyContin flexible dosing
PPLPMDL0020000001	Lakewood	OH	44107	6/28/2013	Dr was not in, reviewed patient profile Scott with crystal
PPLPMDL0020000001	Akron	OH	44319	6/28/2013	I asked dr why he won't listen to me about how Butrans can help his patients? Dr asked if there are samples? I told him its a scheduled product and NO samples... Dr said there is nothing important for him to know about the product. I told him I'm sorry he has that outlook because I can teach him some things about treating pain. Dr said ok then. I gave him Butrans, OxyContin and intermezzo dosing guides.
PPLPMDL0020000001	Westlake	OH	44145	6/28/2013	Quick window call asking dr to keep butrans in mind for patients not getting pain relief from tramadol. Showed dr flexible dosing of OxyContin.
PPLPMDL0020000001	Hudson	OH	44236	6/28/2013	Told pharmacy technician about intermezzo and he didn't know about it. It asked him if he was stocking it and he said they have a box of each dose. I explained the Butrans doses and titration of the product. Discussed the patient type of Scott and reviewed the copay cards. Provided him an OxyContin conversion and titration guide.
PPLPMDL0020000001	Westlake	OH	44145	6/28/2013	Spoke with Jennifer about no ab equal for intermezzo. Reviewed patient pamphlet for Butrans and discussed disposal of the product. Discussed flexible dosing and the ability to titrate every 1-2 days for OxyContin.
PPLPMDL0020000001	Brooklyn	OH	44144	6/28/2013	Briefly discussed Butrans/Intermezzo with Michelle the nurse, booked lunch appt with guru to further discuss. Positioned Butrans for those Tramadol failures and intermezzo for the MONA/Dosing Titration. left info for all 4 docs and Savings Cards
PPLPMDL0020000001	Westlake	OH	44145	6/28/2013	Spoke with Tech about no ab equal for intermezzo. Reviewed patient profile nancy for Butrans and discussed conversion table. Discussed flexible dosing and the ability to titrate every 1-2 days for OxyContin.
PPLPMDL0020000001	Hudson	OH	44236	6/28/2013	I asked dr at window if he is identifying patients that we discussed over lunch who are taking tramadol around the clock and need a dose adjustment? Dr said he's trying. I told him that if he evaluates his pain patients like I figured he does, I'm sure he has many patients on short acting opioids who would be appropriate for Butrans. Dr said he agrees. Gave him a conversion slide guide, OxyContin conversation and titration guide and intermezzo
PPLPMDL0020000001	Akron	OH	44312	6/28/2013	Told dr at window that he needs to be switching his patients on IR opioids like Percocet to OxyContin. I showed him the conversions from the conversion and titration guide. Dr said he knows and is trying. I told him to begin with his Butrans prescribing for patients on ultram around the clock. Dr said he did write one recently but was too expensive for the patient. I asked which plan and he said to ask Nadia. Spoke with Nadia and she said the patient called in and said it would cost her about \$200 on SummaCare commercial. I explained the formulary grid and asked her to ensure they reference it prior to the patient leaving with the prescription.
PPLPMDL0020000001	Westlake	OH	44145	6/28/2013	Discussed no ab equal for intermezzo and asked pharm tech what they did when a patient presents a script that has a step edit. I asked her about the auto look back and she said they always call the office. I reminded her that sometimes they don't need to call the office because the information is in their system. Reviewed Butrans patient profile nancy. Reviewed OxyContin start principles. Pharmacist was busy
PPLPMDL0020000001	Westlake	OH	44145	6/28/2013	Spoke with Stephanie about patients in intermezzo were taking the drug as instructed which is middle of the night and any switch to a non ab equal may confuse the patient and they may take another zolpidem product in the middle of the night. She agreed that this would present a problem. I explained the Butrans conversion guide and explained that patients not doing well on tramadol should consider Butrans before increasing the dose or moving to Vicodin or Percocet. Discussed the start principle and what it means to the patient to move to an extended release before they get to the higher doses of OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	6/28/2013	Quick OxyContin reminder (7dose strengths, flexible dosing), Dr. stated he is comfortable using for the right patient, Positioned Butrans for the Tramadol failures, Also told him I'm trying to schedule a in-service over at St. Augustine per Ed(RPH)
PPLPMDL0020000001	Akron	OH	44302	6/28/2013	I asked dr what has been the toughest thing about prescribing OxyContin recently? Dr said he still uses a lot of it and it is his go to ER opioid but has been having difficulty getting it pushed through Medicaid and Medicare. Dr said that he is having to place patients on MS Contin or ER morphine instead or that they have to fail them first. I explained the formulary grid and focused on Medicare D plans. Dr said he will continue trying. I asked him to reconsider using Butrans but that it needs to be initiated earlier on in the treatment of pain. Gave him the Scott and nancy profile. Dr said he would look at them. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	6/28/2013	Intro to Dr. and staff. Went over intermezzo vignettes, Dr. is a confident prescriber of intermezzo. Went over dosing and trial/savings cards. Asked Dr. if he had some patients today and he agreed. Went over Butrans and Tramadol/Ultram failures- Dr. said he doesn't prescribe any narcotics, refers to Nickels.
PPLPMDL0020000001	Uniontown	OH	44685	6/28/2013	Spoke with Barb the pharmacist about the intermezzo indication and dosing. Barb said she has not seen any recently but has filled a couple of the last few months. Discussed with her the Butrans formulary grid and spoke about the Medco Medicare D preferred status. Barb said she was glad to hear about that and said she has been filling many more prescriptions from Fouad and Lababidi since they moved in down the street. I asked Barb if she has many patients that come in every month to refill their short acting opioids? Barb said there are too many to count. I asked her if she would be willing to provide a Butrans patient information guide for any of those patients? She said possibly but said she doesn't like recommending products but said if a patient asks she will recommend it.
PPLPMDL0020000001	Cleveland	OH	44109	7/1/2013	Positioned Butrans for those Tramadol failures, and patients not adequately controlled. Asked Amanda if should would distribute patient info booklet with vouchers, she agreed! Intermezzo indication/dosing along with Savings/Trial Cards. Invited to upcoming Laham program
PPLPMDL0020000001	Cleveland	OH	44113	7/1/2013	Reinforced Scott profile, asked for those Tramadol/Lortab failures, positioned Butrans for those patients not adequately controlled. They agreed Butrans is appropriate and will look for new starts. Intermezzo indication/dosing along with Savings/Trial Cards. Invited to upcoming Laham program

PPLPMDL0020000001	Akron	OH	44304	7/1/2013	Spoke to Rob the pharmacist about all products. Explained intermezzo indication, dosing and limitations of use. Rob said he has not seen any but is familiar with it. I asked him if he has seen any Butrans since I was in last? Rob said he didn't think so but looked it up and said he had a script from Christina Peters D.O. in Wadsworth in January for the 10mcg dose but the patient could not get it for some reason. I explained the dosing, 7 day transdermal system, appropriate patients and conversions. Rob thanked me for the information and said it was helpful. I told him I figured he fills OxyContin? Rob said he does but is filling most IR opioids like Percocet. Explained OxyContin q12h dosing and switching patients from Percocet. Rob said he agreed and wishes drs understood all of that and sees a lot of percocet from Summit pain. I gave him a conversion and titration guide and told him I'm working on them.
	Cleveland	OH	44195	7/1/2013	Got feedback/status of EVoucher program from Sabrina on Butrans,OxyContin and Intermezzo. Asked if we can have further clarification and requested appt. with pharmacy dept.<font color=blue><b>CHUDAKOB added notes on 07/01/2013</b></font>Mark, if someone else was reading this call note they would want to know what feedback you received on the E voucher program. This is what should be included in your call notes. For example, it might read "spoke with Sabrina in pharmacy about E-voucher program. Sabrina said that our products are in generic form according to the pharmacy and therefore not eligible for the E-Voucher program. I explained that I would like to set up an appt. with pharmacy and asked who the contact is."
PPLPMDL0020000001	Cleveland	OH	44113	7/1/2013	Left Butrans/OxyContin info/and requested appts with Premier office clinicians, along with 6thfloor General Surgery/Ortho/Rheumat. ,K.Stearns,Donley S. Joy, L.Bilfield) Hollie Recep. 4th floor Bruce Long MD, B Stulberg (Lynn- stated that dont treat much chronic pain. Refer out to pain management Shen/Daoud
PPLPMDL0020000001	Cleveland	OH	44109	7/1/2013	Talked with Ray, Asked for Butrans prescribers, said Raheja wrote both Intermezzo and Butrans, store doesn't hardly maybe 2-3 RX of OxyContin a week. A lot of percocet. Requested Butrans Savings card
PPLPMDL0020000001	Akron	OH	44333	7/1/2013	Quick hello to dr in his office and told him about the new OxyContin formulary grid. I told him it was going to be sent to Sue in the home office. I gave him the OxyContin and Butrans conversion guides and told him to continue business with the products. I told dr to keep the conversion slide guide in his exam rooms to help him keep Butrans front of mind. Dr said he would take a few. Nothing else learned
PPLPMDL0020000001	Akron	OH	44304	7/1/2013	I asked dr if he has a large number of Medicare patients in his practice? Dr said he does. I told him that 33% of patients in the clinical trials with OxyContin were over 65 years old. I showed him the Medicare D coverage and asked him if he is having success switching patients from IR oxycodone to OxyContin? Dr said he has has a few patients move to OxyContin and thanked me for the information. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44333	7/1/2013	Said hello through window and told him to prescribe more Butrans. I gave him the nancy profile and asked him instead of refilling the vicoden to think Butrans instead. Dr said ok and thanks.
PPLPMDL0020000001	Akron	OH	44333	7/1/2013	Discussed him finding more opportunities for Butrans. Discussed the opioid experienced trial and used the inclusion criteria and told him to get three patients in three days this week for Butrans. Dr said he will try and said he prescribed a intermezzo prescription late last week. I showed dr the new intermezzo patient vignette brochure and asked him to continue finding patients. I discussed the new OxyContin commercial prescription formulary grid and asked him to continue switching his Percocet patients to OxyContin.
PPLPMDL0020000001	Uniontown	OH	44685	7/1/2013	Handed dr the Butrans opioid experienced trial and told him to review because he needs to know Butrans worked in the clinical trials. Dr said he knows it works clinically because he has had appointments with the other doctors patients on Butrans and has seen and heard first hand how well it works. I told him that's great and reminded him the 62% of patients were on hydrocodone combinations in the trial. Gave him the OxyContin conversion and titration guide and asked for his switches. Gave Lella the new OxyContin commercial formulary grid to send to Sue at the home office.
PPLPMDL0020000001	Fairlawn	OH	44333	7/1/2013	I reminded dr at counter to continue identifying patients appropriate for OxyContin such as those on IR oxycodone. Dr said ok and will continue to use it. I gave him the new commercial formulary grid. Handed him the Butrans initiation and titration guide and intermezzo dosing guide. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	7/1/2013	Reinforced Scott profile, asked for those Tramadol/Lortab failures, positioned Butrans for those patients not adequately controlled. They agreed Butrans is appropriate and will look for new starts. Intermezzo indication/dosing along with Savings/Trial Cards. Invited to upcoming Laham program. Also updated her on Butrans being officially approved On OH NP RX list
PPLPMDL0020000001	North Olmsted	OH	44070	7/1/2013	I made a drop-in visit to speak with Nurse Managers, Jo & Danette to introduce Purdue's NE program and discuss educational in-service opportunities. I spoke with the receptionist, Sandi who informed me that Dannette was not available. She called Jo's office, N/A. I left educational offering materials and my BC for both Nurse managers.
PPLPMDL0020000001	Westlake	OH	44145	7/1/2013	I made a drop-in visit to speak w/ Patty O'Shea to schedule a pain management in-service for the July STNA class. I spoke w/ Patty and we scheduled a pain management in-service for 7/17 @ 12:30 for her STNA class of 9 students. Patty stated, "Even though our D.O.N., Sue William on scheduling an in-service on Pain Management. I spoke w/ receptionist, Samantha, who informed me that Sue was not available. I left educational offering handouts and my BC.
PPLPMDL0020000001	Westlake	OH	44145	7/1/2013	I made a drop-in visit to speak w/ the D.O.N., Liz Williams to schedule an in-service on Pain management. I spoke w/ the receptionist, Casey who informed me that Liz is out of the building. I left my BC along w/ PPX043
PPLPMDL0020000001	Cleveland	OH	44114	7/1/2013	Reinforced Scott profile, asked for those Tramadol/Lortab failures, positioned Butrans for those patients not adequately controlled. They agreed Butrans is appropriate and will look for new starts. Intermezzo indication/dosing along with Savings/Trial Cards. Invited to upcoming Laham program
PPLPMDL0020000001	Cleveland	OH	44125	7/2/2013	Talked with Linda, no new prescribers per Betsy, for both Butrans and OxyContin. Reminded of Butrans 7day transdermal delivery system and OxyContin flexible dosing
PPLPMDL0020000001	Garfield Hts	OH	44125	7/2/2013	Quick call with Butrans reminder for those Tramadol failures, said he is always looking for the appropriate patients, Asked Deena if she would help reminding and agreed
PPLPMDL0020000001	Akron	OH	44310	7/2/2013	Reviewed the Butrans nancy profile with dr and asked him to identify more patients like her that should be placed on Butrans. Dr said he has in the past. I told him that he probably is refilling patients vicoden on a regular basis. I told dr to initiate Butrans for those patients. Dr agreed. Reviewed formulary insurance focusing on BWC and Caresource.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/2/2013	Asked to see dr Ali and he came to window. I reviewed the 7 doses of OxyContin and asked him to continue switching patients on IR oxycodone. Dr agreed and said he tries to do it as often as possible. I asked for more frequent switches. Showed dr the nancy profile and asked him if it makes sense? Dr said it does and the prescriptions he has had recently were for vicoden. Showed him the initiation and conversion guide and asked him to dose appropriately. Dr said he plans to use more of it for his moderate pain patients.
PPLPMDL0020000001	CLEVELAND	OH	44106	7/2/2013	Intro. Talked with Troy-Pharm Mgr. discussed OxyContin- flexible 7 dose strengths along with Butrans 7 Day Transdermal delivery system. Troy said sees alot of OxyContin all strenghts, mentioned Dr. Davis. and oncology/palliative Care team. He also feels Butrans with this location/Onclergy that its too far down the pain spectrum of treatment option. Requested savings cards for OxyContin
PPLPMDL0020000001	Parma Heights	OH	44130	7/2/2013	I made a drop-in visit to meet w/ D.O.N., Katherine Myers to introduce Purdue's Nurse Educator Program. I spoke w/ the receptionist, Sherry Majoris, informed me that to see Katherine, is by appointment only. I left educational offering handouts and my BC.Receptionist, Helen Sanka Retired.
PPLPMDL0020000001	Akron	OH	44305	7/2/2013	I asked dr that I figured its easy to refill the short acting opioids like ultram or vicoden? Dr agreed and said that it becomes habit. I told dr to break that habit because if it is not providing enough pain relief then another therapy must be implemented. Dr agreed. I reviewed both Scott and nancy and told him to identify patients like them instead of refilling the short acting. Dr said ok and he will do his best. I asked him to take his IR oxycodone patients and switch them to OxyContin. Intermezzo dosing guide and asked him to identify patients meeting the indication.
PPLPMDL0020000001	Parma	OH	44134	7/2/2013	I completed a lunch in-service on Butran's for 3 Nurse Practitioners and other available nursing staff. The Butrans Initiation and Titration Guide was reviewed. A demonstration of the Butrans disposal packaging system was handed out & completed. A sample of the Butrans patch was handed out to the nurses. This facility is currently using Butrans and have 5 residents on treatment. Two out of the three NP's had not heard of Butran's. I received very positive feedback from the NP's and observed excitement that Butrans is a scheduled III. They immediately had resident's in mind for Butrans. I reminded the staff that a Prior Authorization is required. A second Butrans in-service was scheduled for the remainder of the Nursing Staff for Monday July 15th @ 2PM.
PPLPMDL0020000001	Garfield Hts	OH	44125	7/2/2013	Left Butrans Initiation/Titration cards along with OxyContin pl/savings sheet for Levine,Gemma,Lopresti,Forcier and Kaiser docs
PPLPMDL0020000001	Cleveland	OH	44195	7/2/2013	Briefly went over Butrans- 7 day delivery system, patient information guide and dosing/titration. OxyContin 7 tablet strengths and flexible dosing.<font color=blue><b>CHUDAKOB's query on 07/11/2013</b></font>Who did you speak with? This is pretty vague.<font color=green><b>GUTKOMA's response on 07/11/2013</b></font>1st spoke w/Emily, who relayed info to Pam G, than Tomrit H.<font color=blue><b>CHUDAKOB added notes on 07/16/2013</b></font>Make sure you include who you spoke with and what they do in our call notes.
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	Quick call while checking samples and vouchers. Shared butrans indication and titration
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	I made a drop-in visit to see if Kim Barber in Staff Development or Tammy Pasela, NP was available. I spoke w/ the receptionist Carol, who informed me that Kim was busy w/ hourly in-servies today. She called her office, N/A. I left educational offering handouts along w/ my BC. I also left a Butrans Medication Titration Guide for the NP, Tammy Pasela along w/ my BC
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	Spoke with Stephanie, floating pharmacist based in fair lawn. Discussed intermezzo dosing and indication and limitation of use. Shared OxyContin FPI change and let her know the changes are in section 9.2. Shared patient profile Maria and discussed titration every 3 days if necessary.
PPLPMDL0020000001	Stow	OH	44224	7/2/2013	Dr told me at the window he is writing more Butrans and needs more copy cards. I told dr to continue using it early on in treatment and to titrate to avoid dosing failures.
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	Quick call. Spoke with dr and Anna while booking lunch and discussed OxyContin flexible dosing. Discussed Butrans positioning after tramadol. Gave intermezzo indication and limitation of use. Anna said best day is wed all day and then I can get more time.
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	Introduced myself to Myra and she was glad someone was taking over the territory because she uses Butrans and needed vouchers. I asked about OxyContin and the staff said they do not prescribe OxyContin. There was little knowledge if intermezzo so I gave indication and limitation of use.
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	Booked lunch with Nicole and spoke with dr briefly sharing broad coverage OxyContin with formulary Grid. Asked if he would be able to review the Maria profile I left for Butrans. Gave intermezzo indication and limitation of
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/2/2013	Spoke to dr and Liz about OxyContin formulary coverage for his commercial and Medicare and patients. I asked dr to use OxyContin more often for his patients failing Percocet and to not go against the molecule when patients fail that IR oxycodone. Dr agreed and said he is using more but insurance continues to be difficult.
PPLPMDL0020000001	Parma	OH	44129	7/2/2013	Asked dr what he doesn't like about the Butrans and he said there is nothing he does not like. I asked him why he is not prescribing and he said insurance. I said so that means you have written and run into a problem and he said no. I told him he could't say insurance was a problem unless he runs into a problem and how could it be a problem if patients with insurance get to trial butrans for free. He said what did I mean by free and I told him the trial card gives the patient 100 off the copay. He said he would like two of those coupons and I went to the voucher area and took 2 out the box and gave it to him. I reminded him he should think of patients taking tramadol around the clock and he has to move them to something. he is going to move them then move them to Butrans and referred to scott profile. Dr asked how long I have been with the company and I told him I helped launch intermezzo last year and recently added butrans and OxyContin to you bag. He said intermezzo was another problem with insurance and I told him not really. I told him to think of his caseload patients. He asked why and I said these patients will require a trial and failure of xolpidem and en they can get intermezzo. He asked about the other insurance and I mentioned that some of them are a 2 step edit and I don't want him to have an insurance excuse the next time wife speak. I mentioned flexible dosing of OxyContin.
PPLPMDL0020000001	Akron	OH	44320	7/3/2013	Quick call with dr about Butrans. I told dr that he needs to continue using Butrans and get more prescriptions under his belt. Dr said he has already prescribed a couple and said his patients love it. I told dr that his success with it needs to propel him into more Butrans opportunities and showed him the Scott profile. Dr said that vicoden patient is more realistic and I told him to look or this patients then for Butrans.
PPLPMDL0020000001	Beachwood	OH	44122	7/3/2013	Spoke with pharmacist float sandy about intermezzo driving study and she said she has not seen a script. Shared the butrans patient brochure and asked if information like this would help her patients. Shared start principle for OxyContin and asked if this location did a lot of OxyContin volume and she said a steady amount.
PPLPMDL0020000001	Stow	OH	44224	7/3/2013	Spoke to the pharmacy technician and discussed all products. Sam didn't know about intermezzo but said he has seen Butrans and knows about OxyContin. Gave him patients assistance info on all products.
PPLPMDL0020000001	North Hampton	OH	45349	7/3/2013	She said that she still hasn't found a butrans patient. I told her that she appears to not be convinced of the value that butrans can offer her patients yet so I want to set up one more appointment to run through all the data and patient profiles. She said she would like that and we put one on the books

PPLPMDL0020000001	Richmond Heights	OH	44143	7/3/2013	I made a drop-in visit and met w/ Nurse Educator, Sheila Harris. I introduced myself and Purdue's Nurse Educator Program. She expressed interest in our program and an appt. was set up for 7/18 to discuss their educational needs and educational in-service opportunities.
PPLPMDL0020000001	Cleveland	OH	44109	7/3/2013	Discussed with Dawn Butrans Indication/dosing along with OxyContin 7tablet strengths, requested appt., Stephanie requested to leave info and Savings card for Butrans
PPLPMDL0020000001	Cleveland	OH	44109	7/3/2013	Visited outPatient pavilion, identified and left info for Oncology/Hem. (Obrien,Snell, Crum, Hergenroder and Trey along with Fellows M.Treasure,T Gula, Leland Metheny) Oncology care pharmacy Center-Michelle. Also ID'd Ortho/Surgery dept. left info per Cheryl for Feighan,Bafus, Allain, Huyen, Liu, Nash and Patterson
PPLPMDL0020000001	Cleveland	OH	44109	7/3/2013	Quick Intro. Butrans 7 day transdermal, dosing/ indication along with OxyContin flexible dosing . She said they dispense a lot OxyContin, left info and contact info
PPLPMDL0020000001	Cleveland	OH	44109	7/3/2013	Discussed Butrans/OxyContin with Carol (Indication/dosing) 7Tablet strengths and 7Day transdermal delivery system, Dr./Nurses(Harrington) requested Savings Cards for both. Left info and card for appt
PPLPMDL0020000001	Richmond Heights	OH	44143	7/3/2013	I made a drop-in visit to meet w/ Joan Southard, the receptionist,informed me that she was meeting w/ a family. I left my BC
PPLPMDL0020000001	Beachwood	OH	44122	7/3/2013	Spoke with vikki about Percocet patients that may be candidates for OxyContin. I asked if she needed butrans vouchers and she shared with me some of her insurance issues and I gave her the formulary grid. She said she has not had luck with getting intermezzo approved. Scheduled breakfast.
PPLPMDL0020000001	Akron	OH	44320	7/3/2013	Spoke with dr about her patients on Butrans. I asked dr if any of her patients have needed to be titrated? Dr said ah doesn't think so but a couple have been back for follow up appointments and to get refills. I told dr that when her patients tell her that their pain may be increasing to ensure she titrates instead of discontinuing. Dr said she wouldn't discontinue anyway. I showed her the Scott profile and asked her to continue prescribing. Dr said she already knows it works so she just has to find patients like Scott. Told dr to continue switching patients from IR oxycodone to OxyContin and to remember intermezzo for her patients with in the middle of the night
PPLPMDL0020000001	Woodmere	OH	44122	7/3/2013	Spoke with pharm tech because she the regular pharmacist was not in. shared intermezzo indication and asked if she has seen any refills and and she said only dr zober. Shared the butrans titration and conversion. Shared flexible dosing of OxyContin.
PPLPMDL0020000001	Shaker Heights	OH	44122	7/3/2013	Spoke with floating pharmacist about intermezzo indication and explained that there is no ab equal. Shared the butrans titration and conversion and he said there are some pain management drs at south pointe that have written butrans. Shared flexible dosing of OxyContin.
PPLPMDL0020000001	Beachwood	OH	44122	7/3/2013	Spoke with float pharmacist about intermezzo dosing and she has not seen a script. Shared the butrans titration and conversion. Shared start principle for OxyContin and she asked about the titration every 1-2 days. I explained that they can if they need to titrate. She said she has not seen that but it was good information to know
PPLPMDL0020000001	Akron	OH	44333	7/3/2013	Good discussion with dr over lunch on all products. Dr told me that he continues to have most of his success with the Butrans 10mcg and not much luck with the 5 mcg because almost all patients need to be titrated. I explained how patients who are under 3 pills a day of vicoden 5 and under 300mg of tramadol really should be initiated on the 5 mcg but he should just use his best clinical judgement on starting doses. Dr said he will continue to prescribe Butrans. I asked dr to prescribe at least three a week and asked him if that's realistic? Dr said possibly and he will try. Dr said he has a couple of patients that he is trying to get approved for intermezzo and is fighting the pa criteria. Dr said both patients have failed 2 sedative hypnotics and should be approved but are not. I asked him to continue fighting and I appreciate it. I told him to make sure he tells me earlier so I can help him. Discussed OxyContin and told him to continue using it for his patients on IR oxycodone.
PPLPMDL0020000001	Euclid	OH	44117	7/3/2013	In-service repeated on Constipation for Nurses as part of a state corrective action plan. 10 nurses were in attendance. The laxative protocol was handed out and reviewed with the staff. A discussion w/ interaction on the risk factors, disease state, complications and the importance of documentation r/t constipation took place. Positive feedback was received from the nursing staff.
PPLPMDL0020000001	BEACHWOOD	OH	44122	7/3/2013	Spoke with floater pharmacist about intermezzo and she said her pharmacy had not seen a script. I explained that this location had intermezzo in stock and there were a few writers in the area. Shared start principle but the pharmacy was use and she had to attend to customers. I told about butrans quickly with the indication and limitation of use
PPLPMDL0020000001	Munroe Falls	OH	44262	7/3/2013	Quick discussion about Butrans and explained how she can identify patients for Butrans. Told dr that she needs to look and listen for cues that the patients current therapy isn't cutting it. I told her to use the pain scales, pain journals, and physical mobility changes. I asked her if those are what she does when she assesses a patient? Dr said she does all those things but admitted she doesn't do much with them and that she should use them to help determine pain therapy.
PPLPMDL0020000001	Copley	OH	44321	7/3/2013	Discussion with dr about the Scott profile and asked him if he wants his patients with spinal stenosis to be on short acting opioids for an extended period of time? Dr said no but patients continue to tell him that their pills like vicoden work better than the patch. I asked him if he believes that? Dr said he doesn't judge but said Butrans does work and he will try to write more. Nothing else learned.
PPLPMDL0020000001	Beachwood	OH	44122	7/3/2013	Quick window call. Spoke with dr about butrans patient profile Maria and set up lunch appointment. Discussed flexible dosing and asked her if she found any intermezzo patients and she said insurance was a problems. I told her I would discuss how to identify different patient types during our up coming lunch but in the meantime think about patients who she is considering changing their prescription of Ir opioids.
PPLPMDL0020000001	Valley View	OH	44125	7/5/2013	Met with Aaron, discussed Butrans and the 7 day transdermal delivery system, he said he sees it being used in the assisted living segment for appropriate patients, their exactpak propriety packaging has grown in that segment . I reiterated that Butrans has the same /misuse/abuse liability as other Schedule 3 opioids. Went over OxyContin flexible dosing and 7tablet strengths. They are moving across the street on the 15th to accommodate
PPLPMDL0020000001	Cleveland	OH	44125	7/5/2013	Had floater filling in for vacation, Left Butrans patient information guide and card to follow up with Christine
PPLPMDL0020000001	Garfield Heights	OH	44125	7/5/2013	Went over Butrans and discussed the Tramadol failure patients being the appropriate choice, Hasnt seen any recently, She said Bogar/Marocco alot of Short acting, told her I would follow up with that group. OxyContin flexible dosing and 7 Tablet strengths along with intermezzo indication dosing
PPLPMDL0020000001	Stow	OH	44224	7/5/2013	Used the OxyContin patient profiles to explain who I'm focusing on with physicians about OxyContin. I told Holly the pharmacist that in also asking to initiate OxyContin earlier and to use the lower doses instead of continuing to keep patients on IR oxycodone. Gave her doing guides for intermezzo and Butrans.
PPLPMDL0020000001	Akron	OH	44319	7/5/2013	Spoke with Sara the pharmacist about intermezzo patient savings program and reviewed the cards. I gave her the indication and dosing and asked her if she has filled any since May? Sara said she has not but said she thinks its a good medicine and said its not taking off because insurance is not paying for it. Reviewed the formulary grid. Discussed Butrans and OxyContin dosing and indications. Sara said she has not seen much Butrans but fills OxyContin often and most come from the cancer centers.
PPLPMDL0020000001	Hudson	OH	44236	7/5/2013	Told dr through window to continue using Butrans and to look for those patients on the short acting opioids around the clock and telling you they are still in pain. Dr said he is trying. Gave him the new formulary grid. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44308	7/5/2013	E-invite sent for the webinar/conference call scheduled for 7/18/13. The attachments to the invitation included the handout for the presentation (PDF file, 3 slides per page) and a feedback form.
PPLPMDL0020000001	Beachwood	OH	44122	7/5/2013	Dr was by the desk while I was introducing myself the barb. I introduced myself shared indications of my products and left information for our lunch on the 15th
PPLPMDL0020000001	Warrensville	OH	44122	7/5/2013	Dr moved from Michigan and said he had a difficult time tying to get butrans approved. I explained the managed care environment with the formulary grid and pointed out which plans are large for notheast Ohio since he was not familiar with the plan names. Dr said he used Butrans after tramadol. He said once he uses 50 mg tid and once they need more he considers butrans. I asked him how he set the expectation for butrans for the patients and he said he likes to present it as something new. I reminded him that starting at the 5 may not provide enough relief for sme patients and I reviewed the titration guide. He said he did not write a lot of opioids in Michigan and here is finding he has to write more. I reviewed the flexible dosing. Dr was pulled away but I gave an intermezzo overview with indication and limitation of use and told him I will provide him more information on the 15th
PPLPMDL0020000001	Beachwood	OH	44122	7/5/2013	Spoke with barb and nursing staff about butrans titration. Asked about OxyContin usage and they said the physicians are using. They had questions about intermezzo and I provided dosing, indication and limitation of use information along with a leave behind. They introduced me to d welsh and Callahan
PPLPMDL0020000001	Akron	OH	44319	7/5/2013	Told dr about his assessment of his ultram and vicoden patients. I asked what he does when he has that type of patient in the office who is complaining of being in pain around the clock? Dr said it is difficult because the patient feels the medicine is working. I told dr that he needs to tell his patients what he wants them to do because if they're still in pain a change in therapy is necessary and to discuss Butrans. I showed him the nancy and Scott profiles and told him to identify patients criminal to them. Told dr about the intermezzo copy cards and trial offer. Dr said he wanted them and will try it out again. Gave dr the OxyContin conversion and titration guide and told him to switch his patients from IR oxycodone.
PPLPMDL0020000001	Bedford	OH	44146	7/5/2013	Spoke with Diane in purchasing who explained what I need to do to set up appointments. Shared butrans indication andnsHemasked how it compared to tramadol and I said there is no head to heard data. I shared the butrans conversion guide. Explained the start principle and intermezzo indication. She said if I wanted to schedule in services then Kevin is the person to speak to in admin.
PPLPMDL0020000001	Bedford	OH	44146	7/5/2013	Spoke with Kevin the nurse manager to schedule in services. We agreed that the lunch hour would be best because I would get more of the nursing staff and we our concentrating on the out patients, I reviewed butrans indication. Discussed that I would also review OxyContin and some of the pain management materials. I also gave the intermezzo indication and limitation of use
PPLPMDL0020000001	Bedford	OH	44146	7/5/2013	Spoke with Tracy in the pharmacy and explained that I wanted to speak the the pharm it's but she was on vacation. I gave tract the pharm tech butrans, intermezzo and OxyContin materials and explained the indication for each. She said she would put the information on the pharmacists desk for review
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/5/2013	Quick Butrans reminder for those Tramadol failure/Scott Profile, Confirmed attendance for Monday's Laham program. OxyContin 7 tablet strenghts and efficacy of Q12h
PPLPMDL0020000001	Cleveland	OH	44113	7/8/2013	Quick reminder on Butrans/OxyContin(Tramadol failures/OxyContin flexible dosing strengths). No new prescribers, mentioned Robson on 55th street. Said Exactcare is moving across the street next week.
PPLPMDL0020000001	Akron	OH	44333	7/8/2013	I asked dr if he has the confidence that Butrans will work on the appropriate patients in his practice? Dr said yes. I told dr that he needs to identify more patients for Butrans like those on ultram or vicoden around the clock. Dr said he is doing that. I reminded dr that BWC is still paying for Butrans and Discussed the Carsource prior authorization.
PPLPMDL0020000001	Cleveland Heights	OH	44118	7/8/2013	Asked Opelia if she has seen any Butrans from Dr. Harris, she said not yet. Reminded of Tramadol failures as the appropriate patients. OxyContin flexible dosing and intermezzo indication and dosing
PPLPMDL0020000001	Akron	OH	44312	7/8/2013	Quick message in between patients. Told her that I wanted her to continue finding patients on IR opioids around the clock and initiate them on Butrans. I told her about the new Medicare D coverages and how it will just make it easier to get it pushed through for that population. Told her about Senokot S and gave her dosing information. Dr said her patients she has on Butrans really like it and said its working well.
PPLPMDL0020000001	Akron	OH	44333	7/8/2013	Spoke with dr in Fairlawn office. Dr told me he has been using more OxyContin and likes Butrans. I asked dr if he is using the 10mg dose? Dr said most are 20mcg dose and over. I showed him the conversion guide and how he can start earlier when he knows an ER product should be used. Dr agreed and thanked me for the reminder. Dr said he has used Butrans a handful of times and his patients like it. I asked dr to continue using early on in treatment like those on ultram or vicoden. Gave dr intermezzo dosing guide and to use it for patients with in the middle of the nit insomnia. Dr asked about Senokot S and what the dosing was. Explained dosing and asked him to provide it for patients with constipation due to medicine.
PPLPMDL0020000001	akron	OH	44333	7/8/2013	I told dr to continue looking for patient in his nursing home for Butrans and OxyContin. Dr said he has been using a lot of OxyContin in Manor nursing home because the drs at the hospital put the patients on IR opioids and when he put them on ER oxycodone the patients are much happier and said it works great. Dr asked me if I have seen an increase in OxyContin for him? I told him I haven't looked and asked when the patients get their scripts filled and he said most have their own pharmacy called the Hartland who maybe doesn't report. Told him to fill for intermezzo and explained how and when to give Senokot S samples out.
PPLPMDL0020000001	Bedford	OH	44146	7/8/2013	Followed up with Diane's request of butrans patient information brochure. Discussed the rotation of the patch. Discussed conversion of OxyContin with conversin guide. Gave Intermezzo indication and discussed the leave behind piece
PPLPMDL0020000001	Cleveland	OH	44113	7/8/2013	Called on Pain dept/ Dr. Shen/Daoud/Dale/Pam, reminded/confirmed attendance for Dr. Laham program tonight. Left Butrans Scott profile.
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/8/2013	Attended Laham program, Reminded of OxyContin 7 tablet strengths
PPLPMDL0020000001	Cleveland	OH	44109	7/8/2013	Visited Anes/Pain dept to remind/confirm attendance to Dr. Laham program,Sue-Dept admin.confirmed. Left Butrans FPI's Had 2 new fellows attend program

	Bedford	OH	44146	7/8/2013	Discussed savings cards with tiffanay of butrans while I waited for dr. Dr will not be in office in two weeks. Dr said he know what he needs to know about butrans and oxycontin and I asked him if he was aware of the Medco formulary change for Butrans. He was not and I quickly reviewed. He said he just tried to get intermezzo approved again and it did not go through. I discussed the managed care environment for intermezzo. Reminded dr of flexible dosing of oxycontin. Tiffanay said dr has been using a lot of butrans vouchers and that he also has an office in the chagrin highland building now on tues.
PPLPMDL0020000001	Cleveland	OH	44113	7/8/2013	Attended Laham program, Reminded of OxyContin 7 dosing strenghts
PPLPMDL0020000001	Bedford	OH	44146	7/8/2013	Spoke with Ed about intermezzo dosing and administration and discussed patient profiles. Reviewed butrans titration and conversion guide and explained that there is still abuse potential with a schedule 3. Reviewed the titration of OxyContin and let him know you can titrate every 1-2 days if necessary
PPLPMDL0020000001	Cleveland	OH	44113	7/8/2013	Quick call thru window, Reminded of Butrans-Tramadol failures, dosing/titration. Intermezzo indication, dosing and savings card
PPLPMDL0020000001	Fairlawn	OH	44333	7/8/2013	Used the intermezzo patient profiles piece to explain patient types to intermezzo. Robin said she understands it but patients don't want it because its just still too expensive. Used the Butrans profiles to explain how patient type selection and the specification of them will improve the positive outcomes. Told robin to look for patients on IR oxycodone and provide them with an OxyContin covers on and titration guide. She took a few and said she spoke with Gilbert the pharmacist about all products. Gave him the patient profiles for intermezzo and asked him to listen for patients complaining about in the middle of the night insomnia. Gilbert said he would speak to patients about it. Discussed the new NSAID profile for Butrans and asked him if it made sense? Gilbert said yes and explained how earlier is better for ER products. OxyContin conversion and titration guide and asked him to continue stocking all doses.
PPLPMDL0020000001	Fairlawn	OH	44333	7/8/2013	Discussed Butrans in Fairlawn office at front counter. I asked dr if he feels comfortable with what Butrans brings for efficacy and the patient types appropriate for it? Dr said he does and said I did a good job explaining the product to him. Dr said I was thorough and he has no questions or apprehension about using it and that he just has to build up his patient base first. I said great and reminded him about insurance coverage and gave him a First visit to office. Presented my product line to Samantha. Found out that although there are 12 HCP s in their practice ( Family Behavioral Healthcare Services), dr Kontos is the only HCP in their practice that writes any type of prescriptions, scheduled or otherwise.
PPLPMDL0020000001	Akron	OH	44333	7/8/2013	Discussed OxyContin flexible 7 tablet strengths/Q12h dosing. Dr. said she is not Prescribing much anymore. Went over Butrans and Tramadol failures as appropriate patients, Initiation/Titration and Intermezzo MOTNA and dosing along with trial offer/savings cards. Her biggest concern is cost on all products, has alot of Medicare patients
PPLPMDL0020000001	Mayfield Village	OH	44143	7/8/2013	I-went over clinical trial for opioid na rve patients, managed care and co-pay cards for Butrans. Went over OxyContin FPI update. Went over OxyContin formulary grid. Went over intermezzo dosing.W-said he would look over the OxyContin FPI update and let me know if you have any questions. Said that his biggest concern with Butrans have been cost and prior Authorizations. He said with the changes to Medicare part D he has many appropriate patients that he can put Butrans on.
PPLPMDL0020000001	Brooklyn	OH	44144	7/9/2013	I-went over clinical trial, dosing, managed-care and co-pay cards for Butrans. Went over OxyContin formulary update. Went over Intermezzo dosingW-said that she has not been writing Butrans due to the fact that she cannot get it through managed-care. Said the information about caresource and Medco part D is extremely helpful for her patients
PPLPMDL0020000001	Waterford	OH	45786	7/9/2013	Discussed patient who could not get butrans approved. Discussed managed care. Discussed pa meetings.
PPLPMDL0020000001	Parma	OH	44129	7/9/2013	Asked dr how he uses butrans and what types of patients. He said he gets them off Vicodin or oxycontin and switches them to butrans. Asked how he tells the patient to use Butrans and if he gets any push back from patients using Butrans and he said yes but he explains mgg and mg for butrans. He said he us the medication as he sees fit and sometimes cuts the patch. Explained that cutting is not recommended and he said he knows.
PPLPMDL0020000001	Parma	OH	44134	7/9/2013	Spoke with Kathy who is Lonsdorfs head nurse about Butrans. Discussed his use of the product and patient types for the product. Kathy said that dr Lonsdorf does like and and said she thinks the patients are still doing well. I told Kathy to continue looking for patients I discussed on ultram or vicoden around the clock. Explained new formulary coverage and Medicare D plans. Kathy said she would talk with dr about new insurance coverages.
PPLPMDL0020000001	Akron	OH	44312	7/9/2013	I-went over managed care and co pay cards for Butrans and OxyContin. Went over dosing for intermezzo.W-sven she has not had much experience with Butrans.
PPLPMDL0020000001	Waterford	OH	45786	7/9/2013	Quick window call with dr. Asked him what he liked about butrans and he said he likes the patch. Shari his ma interrupted and said he had a patient. She informed me that dr is retiring in August
PPLPMDL0020000001	Parma	OH	44129	7/9/2013	spoke to tech about all products and gave Jim the dosing for all products. Jim said he didnt know about filling of Butrans but sees oxycontin often.
PPLPMDL0020000001	Uniontown	OH	44685	7/9/2013	Intro. to office protocol, Talked with nurse/Jackie. Discussed Butrans indication/7 day transdermal system and product position for Tramadol failures. Went over Intermezzo Indication and dosing. Jackie is familiar with . Left Initiation/Titration guide
PPLPMDL0020000001	Brooklyn	OH	44144	7/9/2013	Discussed Butrans for her Ultram failures and before they start on the short acting opioids, when over initiation/titration. Dr. said she likes Butrans for elderly but poor ins. coverage,and patients like taking PO. Intermezzo-indication/dosing/trial offer/savings card,she agreed to give it a try. OxyContin flexible 7 tablet strength
PPLPMDL0020000001	Cleveland	OH	44144	7/9/2013	Spoke with floating pharmacist from the east side. Shared intermezzo indication. Shared information on exposure to heat warning and proper skin application of Butrans. Shared flexible dosing of OxyContin and titration can be 1-2 days 25-50%.
PPLPMDL0020000001	Parma	OH	44129	7/9/2013	spoke with Rosemary about products/ gave her the dosing information about intermezzo and asked if she had filled any. pharmacist said no but she will keep it in mind when patients speak with her. Butrans dosing and patient type information and oxycontin dosing and conversion info.
PPLPMDL0020000001	Uniontown	OH	44685	7/9/2013	Intro. all 3 products to lgnal(floating pharmacist) Butrans-7day transdermal, for those Tramadol/Ultram failures, OxyContin-7 tablet/flexible dosing and Intermezzo MOTNA and dosing. Savings and Trial cards presented as well
PPLPMDL0020000001	Brooklyn	OH	44144	7/9/2013	Spoke with ma for other physician in the practice that dr Anthony is no longer part of the st Vincent practice and is not at this location. They did not communicate where he was now located
PPLPMDL0020000001	Independence	OH	44131	7/10/2013	Dr was not available to see. I was told to leave my card and the dr would get back to me. Gave indication for butrans and oxycontin
PPLPMDL0020000001	Independence	OH	44131	7/10/2013	Quick window call, said he prescribed Butrans-so far, so good" Reminded of Butrans Patient experience program. Intermezzo Indication/dosing and left Trial/Savings card
PPLPMDL0020000001	Cleveland	OH	44104	7/10/2013	Can only see drs at this location with a lunch or breakfast. Was told the doctors sometimes see reps at the sagamore location. Gave butrans and OxyContin indications
PPLPMDL0020000001	Parma	OH	44134	7/10/2013	Was told I could only see the dr with lunch. Gave indication for Butrans and OxyContin
PPLPMDL0020000001	Sagamore Hills	OH	44067	7/10/2013	Spoke to dr about using the Butrans experience kits and that he only had one left so I was providing him with 5 more. Dr said he uses them but his patients never do the surveys. Dr told me that he had one patient he put on Butrans this week who was on vicoden 20mg and initiated the 10mcg. I told dr that was a good starting dose. Explained approximate conversions and told him to use his best clinical decision on best starting dose. Dr told me he thinks he wrote at least 5 OxyContin prescriptions over the last week. I asked him why OxyContin and he told me that the patients were all on Percocet and needed an ER product and that OxyContin was the easiest switch. Dr said he is actually surprised because one of the patients he prescribed Exalgo originally and was too expensive so he went to OxyContin and was much less expensive. I told dr to continue initiating Butrans early on in pain treatment and OxyContin earlier so the 10 and 15mg can be used. Intermezzo indication and dosing and asked for more business.
PPLPMDL0020000001	Akron	OH	44333	7/10/2013	Cleveland clinic location. I wanted to make sure dr still had intermezzo vouchers. Staff said they had the ones I left last time. Gave butrans indication
PPLPMDL0020000001	Independence	OH	44131	7/10/2013	Dr saw me and told me that he is continuing to have problems getting Butrans covered. I asked him where and what plan or plans? Dr said for Buckeye and Medicare D plans. I explained to him the situation about Buckeye and reminded him about the Caresource PA. Told him about the Medco Medicare D coverage and SummaCare Medicare D. I asked dr if Sue at the home office works out the patients prescription coverage? Dr said he thinks do but to confirm with Leila. I spoke to her about coverage and made sure she sent all formulary information to the home office. I asked Leila to call me when and if they have coverage issues.told dr to continue using OxyContin for his patients on IR oxycodone.
PPLPMDL0020000001	Stow	OH	44224	7/10/2013	Quick hit thru window, Butrans-7day transdermal and Intermezzo- MOTNA and dosing along with Trial/Savings cards. Wanda asked about ins.coverage, discussed PA for Caresource. Left Butrans Initiation/Titration along with Intermezzo dosing guide
PPLPMDL0020000001	Cleveland	OH	44104	7/10/2013	Left Butrans Initiation/Titration guides along with FPI for Pain Mgmt dept . Fellows/residents,Left contact info for Mickeyla, to set up in service-font color=blue>b>CHUDAKOB's query on 07/18/2013</b></font>When you are in the Clinic, what other departments are you going around to in order to leave information, make contacts etc.<font color=green>b>GUTKOMA's response on 07/20/2013</b></font>That particular call/day was to the CCF Walker Bldg.Anes/Pain in previous calls Rheumatology, Ortho, Oncology, Neuro have been contacted and info left for clinicians<font color=blue>b>CHUDAKOB added notes on 07/21/2013</b></font>When you are in the Clinic you will probably want to plan to blanket all departments. The same with all the other hospitals you call on.
PPLPMDL0020000001	Cleveland	OH	44195	7/10/2013	Spoke with Brett the pharmacy intern about products. I asked about his familiarity with intermezzo explaining the indication, dosing and limitations of use. Brett said he was trained on it and thinks its a good medicine but has seen how difficult it is for patient to get it due to insurance. I showed him the formulary grid. Discussed Butrans which he was familiar with. Discussed dosing, titration and conversion chart. Brett said he has seen it come through. Discussed OxyContin dosing and asked about filling rates. Brett said they see it but they are almost all refills. Reviewed savings cards for all products.
PPLPMDL0020000001	Akron	OH	44313	7/10/2013	Discussed Butrans indication/dosing/titration for those Tramadol failures. She sees alot of elderly patients and sees it as a viable option in that setting.Went over intermezzo indication/dosing . Says she doesnt like to use Zolpidem in her patients due to past experiences.
PPLPMDL0020000001	Cleveland	OH	44106	7/10/2013	Discussed Butrans- Indication/Scott profile along with Initiation/Titration. Asked for those Tramadol failures, Dr. agreed she would look for some patients, said she hates managing pain patients, but likes transdermal system, I reiterated that it has the same abuse/misuse potential as other opioids. Went over intermezzo indication and dosing along with OxyContin 7tablet strenths and proven efficacy. Trial/Savings Cards<font color=blue>b>CHUDAKOB's query on 07/18/2013</b></font>Remember we discussed the S.T.A.R.T principles. Did you discuss these on this call. If you are going to increase OxyContin sales, you will need to sell more than just 7 tablet strengths. Agreed?<font color=green>b>GUTKOMA's response on 07/20/2013</b></font>Agreed-<font color=blue>b>CHUDAKOB added notes on 07/21/2013</b></font>OK. Thanks!
PPLPMDL0020000001	Fairlawn	OH	44333	7/10/2013	Discussed all key selling messages to dr Parisi over lunch. Explained Butrans dosing, titration, patient types, efficacy,safety, and how the product will fit into his practice. Dr said he can see the product fitting into his patients in the Copley Medical Center where most of the patients are older and have chronic pain. Dr said that his patients would like that they could put one patch on for a week and not worry about it. I spoke to him about the patient population makeup from the clinical trials and inclusion/exclusion criteria. Dr said he would like me to do an inservice for his patients at Copley Medical Center which I agreed to call the nurse manager to set it up. Discussed OxyContin and where he is using it. Dr said he used to use it a lot but it is very difficult to get approved. Dr said he uses IR oxycodone or MS Contin because they work and are cheap. I discussed the q12h dosing of OxyContin and flexibility of 7 doses. Explained the commercial and Medicare D coverage and asked him to use it more frequently. Intermezzo dosing and patient profiles.
PPLPMDL0020000001	Akron	OH	44312	7/10/2013	Dr Platts 86th birthday today. I told him to continue using OxyContin for his patients already on the IR oxycodone molecule. Dr agreed and said he will do more of that. I showed dr the initiation and titration guide for Butrans and reviewed the dosing and approximate conversions. Dr said he would discuss more on my next visit about Butrans.
PPLPMDL0020000001	Independence	OH	44131	7/10/2013	Spoke with dr about butrans for patients he does not want to have Vicodin and he reviewed the dosing and titration. He said he doesn't think of butrans and I told him I will help him remember the Butrans patient types like Scott. Reviewed flexible dosing of oxycontin and gave intermezzo indication reminder. He said he would keep these products in mind
PPLPMDL0020000001	Cleveland	OH	44104	7/10/2013	Talked w/Hakeem no vouchers needed for Butrans/Intermezzo or OxyContin. Said Clark pharmacy does use Intermezzo(Rahja) He Said Dr. Pandit has prescribed Butrans but had Ins.issues. Just had OxyContin script that got rejected, patient was on 30mg and Script was for 10mg,- not authorized- said patients pain was being controlled and titrating dn. Had to go thru another PA to get approved for 10mg dose

	Fairlawn	OH	44333	7/10/2013	I asked dr when he has a patient in one of his exam rooms who is taking an IR opioid how he assesses their pain and if he uses any tools to help him? Dr said he doesn't use any tools but just has a conversation with the patient to determine if they are better or worse than the last time he saw them. I showed him the Wong baker face scale and told him that with the scale it will help him at least for charting purposes where the patient rates their pain. Dr agreed and said it may be helpful with certain patients. I reviewed all key selling messages or Butrans and OxyContin along with intermezzo dosing and patient types. Dr said he likes the idea of Butrans and feels that it will be useful for some of his patients on tramadol or vicoden. Dr said he will try it out. Discussed OxyContin dosing and asked told him where and when to use which I did the same for intermezzo. Discussed savings cards for each product and talked about Caresource for Butrans.
PPLPMDL0020000001	Copley	OH	44321	7/10/2013	I asked dr what he tells or discusses with his patients when they tell him that their short acting products work when they come in telling him they need more? Dr said if he thinks his patients are lying and their drug screen also comes back negative then he usually discharges them from his practice. I told dr that it is important to qualify each and every patient he treats for pain for proper IR or ER analgesics. Dr agreed. I told dr to qualify his patients on tramadol for Butrans and showed him the Scott profile. Dr said ok and walked away. Nothing else learned.
PPLPMDL0020000001	Independence	OH	44131	7/10/2013	Tried to speak with dr but he would not engage. Left information with ma and spoke with other dr in the practice
PPLPMDL0020000001	Highland Heights	OH	44143	7/11/2013	Met first with Marianne & Michelle. Discussed appropriate patients or both Butrans, & OxyContin. Then discussed dosing for both & proper application of Butrans. Reminded Michelle to hand out BPE packets, which she still has. They stated they have intermezzo savings cards left as well. Went over new formulary grids with them, & OxyContin managed care piece which they said would be very helpful. Left 2 Senokot S, & they are placing tear sheets in each patient room. dr Salama came in, in between procedures. Dr Salama, I'd like to share a few key points on safety. & efficacy from the Butrans OPIOID experienced trial. Presented reduction upon pain scores. Remember our steady state is 72 hrs, so you should also counsel patients on supplemental analgesia. I do think Butrans is good product, but you just don't have good coverage, especially for Medicare patients, said Dr Salama. Shared with him Medco Medicare Part D win, Caresource PA, & BWC. I have new formulary grids for Marianne & Michelle & will continue to keep you updated. Lets concentrate on these plans. What patients will you place on Butrans? patients failing on Percocet & patients with GI issues or allergic to aspirin. I responded that's great. And for those patients with pain on more severe side, I hope you'll Keep OxyContin q12 h top of mind. OxyContin has excellent coverage, & I've left you \$90 monthly co pay cards. Please make sure to hand these out when patients leave the office. Intermezzo, left new mktg piece.
PPLPMDL0020000001	Mayfield Village	OH	44143	7/11/2013	Dr Azar, why are you not using any of the pain meds that I promote? Dr responded, I use oxycodone. & MS Contin. Those are short acting or immediate release meds@ I promote the long acting or extended release such as OxyContin & Butrans. Went through OxyContin indication, I said you have \$90 off monthly co pay cards right above where dr price is sitting. He said, I didn't know that, let me see one. I handed him the card, told him how it works & he kept at his work station. then Butrans quick detail. Reviewed pain reduction scores, opioid naive trial. Butrans is a good CII option, with 1 x week patch. He will keep in mind. Intermezzo, for MOTN insomnia. Please read this piece I'm leaving behind (FPI with indications check list on cover)
PPLPMDL0020000001	Tallmadge	OH	44278	7/11/2013	Saw dr at front counter and handed him the Butrans slide guide conversion guide. I asked him to keep that with him to help him remember to initiate patients uncontrolled on tramadol. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	7/11/2013	MSL phone call to Ms. Kreischer to inquire about OTR activities and BUP study status. Ms. Kreischer is planning to meet with her manager to discuss both trials and possible OTR initiatives and outreach.
PPLPMDL0020000001	South Euclid	OH	44121	7/11/2013	Dr Flagg not available to come up front, met with med asst Jen. Reviewed OxyContin verbatim indication, START principles, q 12. H dosing, new formulary grid, managed care piece. Butrans & intermezzo indication, availability of trial & savings. Butrans formulary grid left.
PPLPMDL0020000001	Tallmadge	OH	44278	7/11/2013	Dr told me he prescribed Butrans last week for a patient taking 25mg of vicoden a day. Dr said that it was a Medicare patients and it was not covered. Dr said it went up as a PA and has not heard back yet. I asked which Medicare plan and he couldn't remember. I told dr that 4 or his five top commercial plans are covered on 2nd tier. Dr said that's good but isn't sure if hes going to try again. I told dr that he doesn't now yet if the PA will go through so there is hope. Gave dr the conversion slide guide and told him to keep it with him in his lab coat. Dr agreed.
PPLPMDL0020000001	Akron	OH	44305	7/11/2013	I asked r if he likes refilling tramadol or vicoden month after month? Dr said he does not but if patients pain level is not high and it works as well as being cost effective en he continues therapy. I asked him what pain level makes him think about an ER product being initiated? Dr said 6 and over mostly but its not an exact science. Dr said many factors go into reassessing a patient when they are in for follow up appointments. Dr said he likes Butrans and knows where and when to use it. Dr said his nursing home patients really like it. I asked him which ones he goes to and he told me Copley Health Center. I told dr about dr Paris asking me to do a Butrans inservice there and that Barb and the nursing staff would benefit from it. Dr agreed and said it would also help his patients because of the increased knowledge of the product from the nurses. Gave dr the OxyContin and I recv'd a phone call from Joan Southard asking to schedule the in-service on Pain Management for August. She stated that she had her staff meeting early for the month of July. In-Service scheduled for Tuesday August 13th @ 2:30.
PPLPMDL0020000001	Richmond Heights	OH	44143	7/11/2013	Left intermezzo pharmacy guide & savings card flashcard. Spoke with pharmacy tech & pharmacist briefly. Spent most time speaking with tech Patricia Olbanar. Detailed her on all 3 products. When I got to OxyContin, she mentioned July is a rough month for her, because in July 2010, her sister age 48, overdosed & died, as a result from injecting OxyContin. (adverse event report attached) at end of details, she also stated if we have any speaker programs in future, the pharmacists/ staff would be interested in attending.
PPLPMDL0020000001	Akron	OH	44312	7/11/2013	Attempted to speak with Leslie who does dr Mannings prior authorizations but she was busy. Provided information on new insurances coverages for Butrans with Donna. Discussed the SummaCare Medcjar D coverage along with the other Medicare D plans. I told Donna to pass along to Leslie to hopefully make her job easier. <font color=blue><b>CHUDAKOB's query on 07/21/2013</b></font>Cliff, Who is Donna?<font color=green><b>REICHCL's response on 07/22/2013</b></font>Receptionist-<font color=blue><b>CHUDAKOB added notes on 07/22/2013</b></font>You cannot enter a receptionist as a non-HCP call. Only the nurse, MA or office manager is considered a non-HCP call.
PPLPMDL0020000001	Akron	OH	44312	7/11/2013	Some with dr at window and asked him if he believes Butrans is a good option for his patients uncontrolled on tablet acting opioids? Dr said he does and believes it works but said the times he tried it the patients cost was very expensive. I asked if he remembers the plans? Dr said no but they have a lot of SummaCare. I told dr that SummaCare patients are covered but sometimes employer groups that have those plans can dictate the status of the product under the employees prescription plan. Dr said he understands. I handed him the formulary grid and asked him to please try again.
PPLPMDL0020000001	University Heights	OH	44121	7/11/2013	Dr Price in bad mood very hectic in office, asked for 60 seconds of his time, and presented OxyContin q 12 h dosing & START principles, which he doesn't have time to go through. Well, next time I visit, I'd like to review OxyContin start principles with you, as well as go over a few points in one of our Butrans trials. Intermezzo left re assess your insomnia patients piece, one box savings cards. Left one box Senokot S. met with medical assistants & nurse mgr Irena. Went through new formulary grids, how all trial/ savings should work, left Senokot dosing tear sheets. I suggested they place one in each patient room.
PPLPMDL0020000001	Tallmadge	OH	44278	7/11/2013	Spoke to Adelia a floater pharmacist about products. She said she knows about intermezzo and that patients can't get it because its not covered and patients have to fail too many meds first. I gave her the piece and discussed dosing and limitations of use. Pharmacist said she was familiar with Butrans and OxyContin and just had a patient get OxyContin filled but were not eligible for the copay card because it wasn't commercial. Gave her the dosing guides for each.
PPLPMDL0020000001	Cleveland	OH	44109	7/12/2013	Asked if he has seen any new scripts for Butrans, mainly sees Nickels/Raheja. No OxyContin Savings cards needed, Metro docs are still prescribing OxyContin. Intermezzo indication and dosing along with Trail. Savings cards
PPLPMDL0020000001	Akron	OH	44312	7/12/2013	Dr told me he is continuing to find patients for Butrans and is having success. I asked dr where he has used it and he said most recently for a patient taking vicoden. Dr said he started in the 5mcg but said the patient will most likely need to be put on the 10mcg dose. I discussed with dr the titration of Butrans and steady state. Discussed new NSAID patient profile and asked if he would find patients like her? Dr said he will and knows that Wells did it. Gave him the OxyContin dosing guide and asked for more business and to use the low doses earlier on in the treatment with IR oxycodone. Intermezzo dosing and asked for him to continue trying it on
PPLPMDL0020000001	Euclid	OH	44117	7/12/2013	Upon arrival to complete a Butrans in-service, I was greeted by Charlene Miller in Staff Development, who informed me that her role will no longer include staff development. She introduced me to the new Staff Development Coordinator, Ruth Rossi, RN. An in-service on Butrans was completed for the nursing staff. 4 were in attendance. The Butrans initiation & titration guide was handed out and reviewed with the nurses. Discussion/interaction took place and the appropriate patient type was identified. An example of the Butrans patch was presented along with a demonstration of the Butrans disposal system. A Butrans Clinical Reference Kit was left w/ Ruth Rossi in Staff Development. <font color=blue><b>WOOLFKA added notes on 07/22/2013</b></font>Great call notes utilizing the WIN format
PPLPMDL0020000001	Akron	OH	44312	7/12/2013	Dr told me that he started Butrans for a patient who was on NSAIDs around the clock and said he knew the patient would be in pain for an extended period of time so he went straight to Butrans 5mcg. I told dr that it is great he feels comfortable using Butrans early and told him to continue prescribing. Gave him the OxyContin conversion guide and asked him to use more for his patients on IR oxycodone. Intermezzo dosing and asked for some
PPLPMDL0020000001	Cleveland	OH	44105	7/12/2013	Talked with Hakim, Seeing some Intermezzo from Raheja, reminded of dosing. No new Butrans prescribers, (said to focus on Nickels, Torres, Elaine, Casey) Oxycontin RX's coming from Metro-Harris, he requested Savings/Trial cards for Intermezzo/OxyContin
PPLPMDL0020000001	Akron	OH	44310	7/12/2013	I told dr that he told me once that he avoids using schedule 2 opioids because they should be prescribed by pain management. I showed dr the Scott profile and told him that he can use a schedule 3 Butrans patch before he would move his patients from tramadol to vicoden. His nurse asked about insurance coverage. I showed them both the formulary grid and asked him why based on that he isn't writing? The nurse was impressed and so was dr Goswami. Dr said that he forgot Butrans was covered on Caresource and BWC. Dr said he will write Butrans before he moves to vicoden.
PPLPMDL0020000001	Akron	OH	44319	7/12/2013	Quick OxyContin message at window and asked him if he feels comfortable reevaluating his Percocet patients to see if they are suited for OxyContin Q12h? Dr said he is open to that and knows it makes sense for patients that need to be on an opioid for a long time. Gave dr the conversion and titration guide and told him to use it for reference. Dr said he has a couple that I have left before. Nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	7/12/2013	spoke with both about the material I left earlier in the week. reviewed the indication and limitation of use of intermezzo. reviewed butrans titration. reviewed oxycontin flexible dosing.
PPLPMDL0020000001	Cleveland	OH	44127	7/12/2013	Quickly went over Butrans and Tramadol failures (Scott profile) asked for more new starts, Dr said OK, Referred to Josie as the one to get Caresource approved. OxyContin 7tablet strengths Q12h. and Intermezzo dosing and indication
PPLPMDL0020000001	Cleveland	OH	44113	7/12/2013	Discussed Butrans patient selection, Asked for those LorTab/Tramadol failures. Asked if she had anymore concerns with Butrans since the OH NP board just added Butrans, Nothing so far. Went over Intermezzo dosing and indication along with Trial/Savings Cards
PPLPMDL0020000001	C. Falls	OH	44223	7/12/2013	Good conversation with Denise in the pharmacy. Denise told me about all the PA's she has been doing for Butrans. She said her success has been good but had taken time and creativi to get the product pushed through. I asked which plans have needed approvals? Denise said a lot of Tricare, Medicare D plans and Humana which she said is owned by express scripts. I told her thank you for taking the time to do them. I asked her what the difference is between her and Glenn and she said she does most of the approvals then sends them to Glenn to be processed. I told her about the new Butrans coverages. Denise said she is seeing most from Narouze, sable, and dr Dmitri. Gave her the OxyContin formulary grid and asked about prescriptions for it. Denise said she is always getting prescriptions from all the doctors on a regular basis and typically has no problem except for Buckeye. Discussed intermezzo dosing and limitations of use along with formulary grid. Denise said she has not seen any prescriptions and that coverage is poor at best.
PPLPMDL0020000001	Cleveland	OH	44103	7/12/2013	Quickly reminded of OxyContin flexible 7tablet strengths, Q12h dosing. along with Butrans for those Ultram failures.
PPLPMDL0020000001	Chagrin Falls	OH	44023	7/12/2013	dr requested a visit because he did not receive the samples he signed for on our last visit. I explained that the samples were probably sent to his dea address which he said he had updated during our last visit. I explained that we no longer sample and provided him with vouchers. he asked about the managed care environment and I reviewed the managed care grid. he asked about my other products and discussed Butrans indication and OxyContin. He asked about Butrans for addiction and I explained the indication again and mg vs mcg/hr dosing difference. he asked how intermezzo compared to lunesta and I explained that it did not because intermezzo has an indication for motna/<font color=blue><b>CHUDAKOB added notes on 07/20/2013</b></font>Marcia, when a physicians asks about Butrans for addiction, all you need to do is discuss the indication and explain it is not for addiction. No need to compare mg to mg/hr.
PPLPMDL0020000001	Parma	OH	44129	7/12/2013	quick window call. spoke with dr while I was booking lunch and he said he is using some butrans and I said he probably has more patients that would prefer a patch 4 times a month. reminded him of flexible dosing for oxycontin. stated intermezzo indication and limitation of use

PPLPMDL0020000001	Akron	OH	44312	7/12/2013	Dr told me about two patients he prescribed Butrans for recently. Dr said one patient called in after being on the 5 mcg patch for a week saying that she had a bad rash and didn't want to use Butrans any longer. Dr said he discontinued and started Lyrica. I asked dr if he told her to come in so he could look at the rash and see if he could treat it? Dr said he did not. I asked him to do that next time and he agreed. Dr said another patient went to the Rite Aid in Tallmadge and get Butrans 5 mcg and that the pharmacist scared her from using it because he was taking about the bad side effects from Butrans. I told dr that I was in that pharmacy yesterday and spoke to a pharmacist. I asked dr if he will continue to identify Butrans patients and he said yes. Told dr to continue using OxyContin for his IR oxycodone patients and he agreed to do do. Gave him the intermezzo dosing guide.
PPLPMDL0020000001	Cleveland	OH	44113	7/12/2013	Discussed Butrans patient selection, Asked for those LorTab failures, she agreed started a new patient today, inquired about speaker program date that would work best for her and staff. Reminded of OxyContin 7tablet strengths and reiterated that she isnt prescribing. Went over Intermezzo dosing and indication along with Trial/Savings Cards
PPLPMDL0020000001	Hudson	OH	44236	7/12/2013	Good conversation with dr in his waiting room. I asked dr if he has been switching his IR oxycodone patients to OxyContin like we have discussed on a few occasions? Dr said he actually has and his patients are thanking him. I asked for him to start OxyContin sooner and utilize the 10mg dose. I showed him to one to one conversions in the guide. I showed dr the conversion side guide for Butrans and told him to keep it with him so he will use more Butrans. Dr said he has been thinking about it but needs to get using it. I told him to use early on in treatment like for NSAID or tramadol failures.
PPLPMDL0020000001	Beachwood	OH	44122	7/12/2013	dr said he likes Oxycontin but it has a bad reputation due to street value and I asked him if he thought it was different from other opioids and he said yes because the name is known. I asked him if he feels he needs to be more cautious with OxyContin than with other drugs and he said no. he said he writes OxyContin with the patient needs more than 4 pills a day of ir. I asked about Butrans and he said he wrote a script but the patient could not use the savings card and I asked was it a medicare patient and he said yes and explained that government patients do not qualify. he said he uses butrans for patients who always come up short at the end of the month or they prefer the patch. I asked him to consider the efficacy of Butrans also and discussed pain reduction in the clinical trials. dr said he has had difficulty with intermezzo and I explained that if he has a caesource patient with motna then consider them if they have already tried and failed zolpidem
PPLPMDL0020000001	Parma	OH	44134	7/15/2013	An in-service on Butrans was completed for the nursing staff.6 were in attendance. The Butrans initiation & titration guide was handed out and reviewed with the nurses. Discussion/interaction took place and the appropriate patient type was identified. An example of the Butrans patch was presented along with a demonstration of the Butrans disposal system. The Nurses stated that they were familiar w/ Butrans and are caring for patients in this facility who are currently being treated with Butrans. They voiced no current issues or concerns.I spoke w/ Linda Belford after the in-service about discussing future educational in-service opportunities. She was busy covering staffing and asked if I could e-mail her sometime in the next couple of weeks.
PPLPMDL0020000001	Solon	OH	44139	7/15/2013	Introduced myself to the office and dr was at the window but he did not have time to talk in detail. I booked a lunch explained that I would discuss the start principles of OxyContin and efficacy of butrans at our lunch
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Spoke with Marge, Went over Butrans and OxyContin and overall utilization in hospital. She said anes/pain dept. is slow to prescribe opioids in general unless its for cancer pain.
PPLPMDL0020000001	Warrensville	OH	44122	7/15/2013	Dr said he is using Butrans for some of his current patients. I asked if see were new starts and he said no. I asked dr where he uses butrans and he explained to dr ningeowsky that he uses it after tramadol because patients want something stronger. He said that a patch helps them take their mind off the pain. He said he did not know how to initiate a script at south pointe and carol explained that the staff does the prior authorizations at the office. He said at his other office he had to know what type of insurance patients had in advance. I reminded him that he could write for his BWC patients and he would know who they were by the charts. Reviewed OxyContin start and he said he is not writing OxyContin in this office. Reviewed intermezzo dosing and administration. Reviewed patient experience program for butrans
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Brief intro to Butrans (Schedule III 7day transdermal system & dosage strength)
PPLPMDL0020000001	Beachwood	OH	44122	7/15/2013	Spoke with Laura who said she has no lunches for this year but will put me on the cancellation list. While I was talking to her about next year openings and explaining butrans dr came to the desk because she had a note for him. I told him I was his butrans rep and what this thoughts were on a patch for moderate to severe pain. Dr said he did not have any and read his note and walked away as I tried to discuss OxyContin flexible dosing.
PPLPMDL0020000001	Parma Heights	OH	44130	7/15/2013	I placed a phone call to D.O.N., Katherine Myers to schedule a meeting to introduce Purdue's Nurse Educator program. N/A, I left a msg. on her voice-mail.
PPLPMDL0020000001	Fairlawn	OH	44333	7/15/2013	Quick call at front counter. I gave dr initiation and conversion guide for OxyContin and Butrans. I told dr to continue switching he Percocet patients and to get on board with Butrans early on in treatment. Dr said ok he will. Nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	7/15/2013	I placed a phone call to Kim barber, LPN in Staff Development to get clarification on continuing to use Purdue's Nurse Educator program. N/A, I left a msg on her voice-mail.
PPLPMDL0020000001	Fairlawn	OH	44333	7/15/2013	Spoke to Gilbert and Sue about a patient that went to Rite Aid in Tallmadge and was told by the pharmacist that the adverse events were severe and the patient would not take Butrans. Gilbert said that it is ridiculous. The pharmacist is to simply instruct the patient on how to use or take the product, not to discourage use. Explained the adverse events in the opioid experienced trial over 5% and he told me that it is a big sell point for Butrans, not a discouragement. Discussed intermezzo and OxyContin dosing and prescriptions for the low doses.
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Visited Seidman Cancer ctr.intro. on butrans 7day transdermal system along with OxyContin 7tablet strengths. Left info with Andrea D (RN-OCN) along with Butrans Savings Card.
PPLPMDL0020000001	Beachwood	OH	44122	7/15/2013	Had conversation with Donnie the ma about butrans indication while dr warren stopped by to say hi about his patients. Donnie said the best day would be Fridays at 1:30. Told dr what product I have now.
PPLPMDL0020000001	Tallmadge	OH	44278	7/15/2013	I asked dr what his thoughts are when treating pain and his opinion on treating with ER opioids? Dr said he has no problem treating chronic pain as long as he feels the patients are being honest. Dr said he had used all opioids and thinks ER opioids are a good choice for patients with chronic back pain or spinal problems. I agreed and discussed patient profiles,dosing, titration and approximate conversions. Dr said he has used it but had a problem getting it covered. I explained formulary grid and asked him to continue trying but helped him streamline th product for success through patient identification and insurance. Dr agreed and said he will try again.
PPLPMDL0020000001	Tallmadge	OH	44278	7/15/2013	Discussed intermezzo and OxyContin dosing, indications and patient identification. I asked valarie what her clinical thoughts are on treating pain? Valarie said that she doesn't like treating pain and it should be done at pain management. I asked her at what point she refers? Valerie said that she will not go over 20mg of vicoden. A that point she refers. I asked her why she moves to vicoden from tramadol? She said because of efficacy. I asked her if she treats patients for chronic low back pain or spinal stenosis? Valeria said yes. I showed the Scott profile and asked her if Butrans bake sense for that patient? She said it does and began asking questions about the product including dosing, titration,initiation and copy cards. Explained all information and asked her to write the next time she is confronted with that situation with patient in pain on tramadol. Led paired intermezzo dosing, indication and limitations of use. OxyContin use for patients failing on Percocet. Dr said she does not have any patient on Percocet.
PPLPMDL0020000001	Beachwood	OH	44122	7/15/2013	Explained the butrans patient experience program with barb and carol. Discussed site rotation in patient hand book. Barb asked about supplemental analgesia and titration and I reviewed the detail piece and the need for supplemental analgesia the first 3 days until butrans reaches peak plasm levels. Reviewed the OxyContin start principles and they said they do not use OxyContin anymore. I reviewed intermezzo dosing and administration. They informed me that the hospital was not prescribing ambien anymore and I reviewed the driving study and asked their thoughts. They thought intermezzo was a better choice.
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Brief introduction,new fellow, went over Butrans indication/initiation/titration/ Tramadol failures. along with OxyContin flexible/7 tablet strengths
PPLPMDL0020000001	Copley	OH	44321	7/15/2013	Spoke with the RN manager Barb about doing a Butrans inservice w/ the clinical staff. Discussed how Dr Parisi suggested it be a good idea that the staff is informed on the product. Barb said she wanted to do two sessions of about 15 minutes on August 27th at 2pm. I gave barb a Butrans initiation and titration guide and gave brief explanation of the the product.
PPLPMDL0020000001	Solon	OH	44139	7/15/2013	Spoke with Chris the pharmacist and reviewed intermezzo indication and limitation of use. Reviewed butrans patient information booklet and formulary grid. Gave the OxyContin titration brochure and discussed flexible
PPLPMDL0020000001	Solon	OH	44139	7/15/2013	Spoke with pharmacist and reviewed intermezzo indication and limitation of use. Discussed driving study. Reviewed butrans titration and conversion guide. discussed flexible dosing of OxyContin
PPLPMDL0020000001	Bedford	OH	44146	7/15/2013	Asked dr about OxyContin patients and when does he consider a patient an OxyContin patients. He said he likes OxyContin because it works and said he has not had any problems with formulary. I reviewed the titration schedule in the start principle. Asked dr how he tells patients to use butrans and he had to get back to his patients. Reminded him of intermezzo indication and patient
PPLPMDL0020000001	Warrensville Heights	OH	44122	7/15/2013	Dr said he is comfortable with tramadol and extended releases but has not tried Butrans. He asked how does he dose it, what plans cover it, where should he use it. I reviewed the opioid experienced patient data and the pain reduction to explain why he should use Butrans. Reviewed the titration and conversion chart to show him what doses to use. Reviewed the Scott profile to show the types of patients to use butrans for and reviewed the formulary grid for butrans. Dr said he did not use OxyContin and will not use it at south pointe pain. I reviewed the start principle and explained that he may have patients that come in on OxyContin. Explained intermezzo indication and formulary grid and he asked about the step edits which I explained. Dr said he would keep Butrans in mind
PPLPMDL0020000001	Tallmadge	OH	44278	7/15/2013	I asked dr if he feels confident that Butrans works? Dr said that we have discussed the clinical trials and he finds them compelling. I showed dr the patient profiles and told him he has many options when he is in front of a patient in pain on tramadol around the clock. Titrate the tramadol, move to another IR opioid or choose a schedule 3 controlled release transdermal system. I told dr to choose Butrans for that patient when they meet the indication. Dr said he agrees its an option. I reviewed insurance, copy cards and asked him if he is ready to prescribe? Dr said maybe. I asked where his hesitation lies and he said identifying and patient. I told him that it is an important piece to the success of the product. Quick presentation of OxyContin and intermezzo reviewing dosing and indication.
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Intro. Went over Butrans Scott profile, Ultram failures, Dosing Initiation /Titration. Dr. said he familiar with transdermal system, hasnt prescribed it, I asked why? Feels most of his patients are adequetly controlled, has alot of Medicare patients but will keep in mind. OxyContin 7 tablet strengths/Flexible dosing. Intermezzo indication/dosing
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Visited Pain/Anes Dept. discussed OxyContin/Butrans along with depts. view on opioids. (very reserved in prescribing/managing pain) Left info along with Butrans Savings card with Goldner,Hayek,Al-Amin Khali, Shah,Mcintyre.
PPLPMDL0020000001	Tallmadge	OH	44278	7/15/2013	Visited Seidman Cancer Ctr.dr. Silverman along with clinical nurse Andrea D., left info and Butrans savings cards and OxyContin titration
PPLPMDL0020000001	Tallmadge	OH	44278	7/15/2013	Short discussion over lunch about his algorithm in treating pain. Dr said that he follows a pretty standard pattern of NSAIDs, tramadol, vicoden,ER products. I asked dr if he is typically prescribing his patients first pain medicine? Dr said not always but for some yes. I reviewed all key selling messages and patient profiles. Dr asked about Medicare D plans. Explained plans and asked him if he feels comfortable with the product and believes it works. Dr said I have discussed it w/ him a number of times already and he wants to prescribe it for patients that are older and don't want to take all the pills. Reviewed copy cards reviewed intermezzo and OxyContin dosing, indication, and patient type identification.
PPLPMDL0020000001	Cleveland	OH	44106	7/15/2013	Discussed w/Dr. OxyContin and where he likes to prescribe, he typically RX's for Cancer/palliative pain patient. Went over 7tablet strengths and Dr.said he is a very confident treater and believes OxyContin is a great product. Went over Butrans Once weekly transdermal system,Tramadol failures, Dr. stated the overall philosophy of UHHS-Case pain mgmnt dept. is to manage pain without the use of prescribed Opiods. Believes Butrans is less abusive, which I reiterated that Butrans has the same abuse/Misuse potential as other Schedule III
PPLPMDL0020000001	Westlake	OH	44145	7/15/2013	1. Determine who to provide Drug updates since the Pharmacia/PMG merger as Bob has been unresponsive 2. Determine who handles Prior Auths and would be interested in hearing about formulary changes for Butrans 3. Determine the Lead consultant RPh and share the role of RN educators.
PPLPMDL0020000001	Akron	OH	44313	7/15/2013	Discussion with Jason the pharmacist about products and asked him if he has seen any intermezzo? Jason said he hasn't and said he knows the coverage is poor. I reviewed the coverage And reviewed Butrans clinical results from Bug 3015 and reviewed the AE's for the trial. I asked him if anything stood out which would make him not recommend the product to a patient? Jason said no and said for a narcotic it is one of the cleanest. Jason said he has not seen any or dispensed recently. OxyContin dosing guide and told no I am recommending to drs that they switch their Percocet patients early to the q12h oxycodone.
PPLPMDL0020000001	Cleveland	OH	44113	7/16/2013	Discussed Butrans for those Tramadol/Ultram failures, Initiation/Titration Asked if he would consider starting a patient today and he said he would. Went over OxyContin and 7tablet strenths along Q12h dosing, Intermezzo MOTNA) dosing and Savings/Trial Cards
PPLPMDL0020000001	Cleveland	OH	44113	7/16/2013	Another quick reminder (Justin RPH) on Butrans for those Tramadol failures and OxyContin Q12h dosing for appropriate patients

	Mogadore	OH	44260	7/16/2013	Focused on two things with Butrans. Patient profiles and managed care. Discussed all three patient types NSAIDs, Tramadol and vicoden and showed profiles. I told dr to identify patients like those for Butrans especially when one of those types of patients confronts him in pain around the clock. Dr said that he has used it enough to feel comfortable with it and agrees with all those patient types. Dr agreed that using Butrans early on in treatment is best. Discussed new insurance coverages including Medicare D and Caresource. Dr said he uses OxyContin and likes it for stint on Percocet but said it is becoming difficult to get covered. Dr said that most insurances want patients to be on ER morphine or MS Contin prior. Discussed conversions and intermezzo patient identification.
PPLPMDL0020000001	Cleveland	OH	44113	7/16/2013	Visited Anes/Pain Shen/Daoud,Left Butrans/OxyContin info 6thfloor General Surgery/Ortho/Rheumat.S. Joy, L.Bilfield,J.Stearns,Donley Hollie Recept. 4th floor Bruce Long MD, B Stulberg. Pam said Daoud has Shen manage most of his pain patients, he does procedures
PPLPMDL0020000001	Cleveland	OH	44195	7/16/2013	MSL email communication with Ms. Kreischer for update on study status for OTR and BUP. The site research administrator is planning a meeting with Dr. Appachi and Director of Research, Dr. Spalding, to discuss both trials. Sharon will provide updates as available.
PPLPMDL0020000001	Akron	OH	44310	7/16/2013	Quick message though window and showed him the AE's in opioid experienced patients from the main visaid. I asked him if anything stands out as a reason why he would not prescribe it? Dr looked and said no. I asked dr to use Butrans for patients not tolerating IR opioids for some reason. I asked dr to do his own comparison between the products. I told dr the path of least resistance for insurance and Butrans is for BWC and Medco commercial. I asked dr to prescribe more. Dr said ok. Nothing else learned
PPLPMDL0020000001	Lyndhurst	OH	44124	7/16/2013	Dr Isakov, you missed a great program on July 8 th, I hope you'll be able to make a future program. My hope is that you'll become confident with initiating Butrans. I like Butrans but you just don't have the coverage for my Medicare patients, says dr. he continued: tried to write recently for a Medicare patient dr said, & they couldn't afford Butrans which was going to cost them \$300 per month.Dr Isakov, for your Medicare patients, please focus on Medco Medicare Part D , which just added Butrans as preferred product. Dr had to get into patient room, as he had medical student shadowing him.Note.: Sarah J on vacation this week, back next Monday.
PPLPMDL0020000001	Bedford	OH	44146	7/16/2013	made sure dr had butrans vouchers at his new location. asked if he could do a program aug 21st for the nickles office. he said he will and said there is a need because there are alot of drs who are not treating their patients pain because they do not want to prescribe schedule 2. he said butrans gives drs the opportunity not to use as much vicodin or percocet and still treat chronic pain. he said the caresource authorization just requires a phone call. I reminded dr of flexible dosing of oxycontin. I reminded dr that caresource patients can get approval for intermezzo the same way. dr on vacation next 2 weeks
PPLPMDL0020000001	Cleveland	OH	44113	7/16/2013	Quick discussion on Butrans/Intermezzo, Dr. said he is prescribing along with staff. Discussed possible upcoming program in Aug.
PPLPMDL0020000001	Cleveland	OH	44130	7/16/2013	spoke with staff about drs usage of butrans and oxycontin. they said she does not use that much oxycontin and refers to David Ryan in Pain Management at Metro. Reviewed indications of butrans and intermezzo. got best hours and booked lunch
PPLPMDL0020000001	Cleveland	OH	44102	7/16/2013	Talked with Mikel(pharmacist) no new prescribers for OxyContin,Butans and hasnt seen any intermezzo scripts. Most of his population is medicaid, thus really no need for Savings Cards. Suggested Franklin Plaza Nursing facility as a call point.
PPLPMDL0020000001	Independence	OH	44131	7/16/2013	dr running behind schedule so i only had an opportunity to introduce myself and let him know my products. booked breakfast and asked him to give me his thoughts on scott profile
PPLPMDL0020000001	Parma	OH	44129	7/16/2013	spoke with edwin the pharmacist and explained the coverage of intermezzo. he said coverage changes alot so he doesn't bother getting to know them. he just calls insurance. reminded him of no ab equal. he mentioned a writer of butrans that i was not familiar with and said he sees some but not alot of butrans. showed the flexible dosing of OxyContin and asked him if drs are writing the 15 and 30 mg. he said he has never seen a 15 and i explained the importance of that dose because it allow you to titrate at the recommended 25-50% every 1-2 days and pointed out the start principle in the conversion guide. he said the coupons he has cannot be used because they cannot be used for medicaid or medicaid. I agreed and said he will use them on commercial patients
PPLPMDL0020000001	Solon	OH	44139	7/16/2013	dr said he does not write the 15 because it is new for him and he has to get use to it. I explained that he writes 10 and moving to 15 will allow him to titrate the recommended 25-50%. he said he knows and i will see more 15 as he gets use to it. he said he has tried butrans in opioid naive and experienced patients and they complain that they want their pills and he does not like to prescribe several opioids like what is needed for break through. he said all patients on sleeping pills complain about not sleeping through the night. I said that intermezzo for motna gives him the option of handling their complaint. i mentioned the caresource patients and he said he is not taking caresource anymore. I also mentioned that he has a good amount to medco and showed him the formulary grid that depicts favorable coverage for intermezzo. asked dr to keep the percocet patients needing long acting in mind as potential oxycontin patients
PPLPMDL0020000001	Mogadore	OH	44260	7/16/2013	Spoke with Bob the pharmacist who said he was a floater. Gave bob all key pharmacy messages for products. Discussed indication and dosing for intermezzo. Butrans dosing, initiation, conversions, and titration with steady state. Provided him OxyContin dosing information and conversions from Percocet.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	7/16/2013	Spoke with pharmacy technician Steve about products. Explained intermezzo indication, dosing and limitations of use. He said he knew of it but didn't think they have dispensed any. Gave him Butrans initiation and titration guide and discussed all key selling messages. Steve said they have a handful of patients taking it. OxyContin conversion guide and discussed the conversations I'm having w/ drs about its use.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	7/16/2013	I called to speak w/ D.O.N.,Debbie Bouslough to confirm the in-service for Friday July 19th @ 2pm. I spoke w/ the receptionist, Linda Bergman who informed me that the D.O.N., Debbie Bouslough was still out on medical leave. I spoke w/ Lisa Adams who connected me to the Acting D.O.N., Christina Miterki. She was not aware of the in-service and requested that it be cancelled for this Friday, 7/19. She explained that it was not posted and feared a poor turnout. She informed me that a lot of changes are currently taking place and asked me to call back in 30 days.
PPLPMDL0020000001	Mogadore	OH	44260	7/16/2013	I asked dr what the philosophy is on treating pain? Dr said she wishes she didn't have to treat it all but finds that she has to to some degree. Dr said she does have patients on short acting opioids but said ER products are better suited for most who have chronic pain. I asked her if she feels comfortable using OxyContin? Dr said she does but said that many patients want the short acting so she will send them to pain management to help them get straightened out. I asked dr to use OxyContin for patients wanting more Percocet. Sowed her the conversions and asked for the business. Dr agreed. Spoke with dr about Butrans patient profiles from NSAIDs to vicoden and managed care. I explained all key selling messages and asked her if th three profiles I showed her made sense and if a 7 day schedule 3 transdermal system is something she would use? Dr said she does like the idea and will use it if her patients can afford it. I discussed all managed care plans and asked her if it has good enough coverage for her to feel comfortable using? Dr said yes and that she will try it. Explained copy cards and trial
PPLPMDL0020000001	Parma	OH	44129	7/16/2013	introduced myself to dr while booking lunch. he said he tries to stay away from chronic pain meds. dr mentioned the upcoming changes for prescribing opioids and i gave a copy of the med 80 letter stating that this pertains to patients taking over 80 mg equivalent of morphine and we can review at my next visit where butrans and other opioids fit in. debbie said he is not using oxycontin and is trying to use even less. i mentioned that dr might want to know more about intermezzo for motna and she said he was beginning to become interested in intermezzo
PPLPMDL0020000001	Woodmere	OH	44122	7/16/2013	spoke with taneaia the pharm tech and asked if she has seen any intermezzo prescriptions and she said not lately. i reviewed indication and limitation of use. reviewed flexible dosing of oxycontin. explained how the butrans patch should be applied and warned of exposure to heat.
PPLPMDL0020000001	Cleveland	OH	44130	7/16/2013	spoke with barb and dr. busy day but dr allowed me to introduce myself and i asked him how he was positioning butrans and he did not respond. i asked was he using after tramadol and before vicodin and percocet and he said yes. i asked about oxycontin usage and he said he uses it and he is aware of the dosing. reminded him of intermezzo with indication and limitation of use. told him i booked a lunch and i wanted him to tell me who he considers the butrans patient
PPLPMDL0020000001	Cleveland	OH	44122	7/16/2013	saw dr on his way leaving chagrin highlands and he asked how things were going with intermezzo. i told him i have other products do and have been trying to book a lunch with his office. told him butrans indication and gave an oxycontin reminder. i asked dr if he has written any intermezzo and he said he has not. I gave him the indication and limitation of use and told him to reaccess patients on ambien for motna
PPLPMDL0020000001	Parma	OH	44129	7/16/2013	spoke with jalyenne and discussed best hours and lunch. she said closer to the noon hour. asked them to check their vouchers for expiration and they pulled several from the shelf that were expired. dr walked up and i introduced myself between patients and explained that he shouldn't let the vouchers expire because they are worth \$50 a month and there is a savings card for 100 off the first trial. he said he uses alot of butrans and i explained that was even more of a reason to utolize the copy cards so the patients can get the savings. he said he thought they were only good for one use and i explained that the 100 off is a one time trial use but the savings card is like a debit card that the patients should put in their pocket because they will come 15 out of pocket and then the copy card the take 50 off their copy. reminded him of flexible dosing of OxyContin. quick intermezzo reminder. nurse said she has not seen anyone fail on butrans
PPLPMDL0020000001	Mayfield Hts	OH	44124	7/16/2013	Dr Kim please consider OxyContin q 12 h for your patients on IR opioids whose moderate to severe chronic pain is not controlled. When chronic pain is on more moderate spectrum of pain, Butrans may be appropriate. What could a 1 x week patch mean for your geriatric pain patients? Response: they only have 1 patch to remember. Medco Medicare Part D just added Butrabs to national formulary, so please keep that plan top of mind as well as BWCZ. Intermezzo, MOTN insomnia. PRN, gender dosing, trial, savings.
PPLPMDL0020000001	Mayfield Hts	OH	44124	7/16/2013	Lunch w dr today. Asked him if Mon or Tues of next week better for me ,& Barry to visit! He responded Tuesday around 12:15, 12:30. Also asked if he can introduce me to Gina Zavoca, as i haven't met her yet. She will NOT be in Mon 7/22, but she will be in Tues 7/23. We discussed him checking his schedule for Sept for next speaker program, he says 2nd week Sept best. Last 2 weeks Sept, he has friends coming in from out of country for a few weeks & very busy those last 2 weeks in September. Butrans patient selection discussed, patients failing on IR Tramadol? Please keep Butrans top of mind. Medco Medicare Part D just added Butrans. That's a good accomplishment responded Dr Laham, left more Butrans patient guides, 1 box savings cards. Updated formulary grid. OxyContin, when Butrans not appropriate, OxyContin q 12 h. OxyContin has broad formulary coverage, and over 15 yrs proven efficacy. Intermezzo, MOTN insomnia. Only insomnia agent with prn indication. Peak plasma, gender dosing. Left 1 box trial/ savings cards.
PPLPMDL0020000001	Cleveland	OH	44113	7/16/2013	Quick discussion thru window, Asked if she has had any Tramadol failures, said not recently and really not prescribing any narcotics, but will keep Butrans in mind. Reminded of Intermezzo(MOTNA) and dosing left Savings card. She said, she is leaving by the end of Aug. and going over to Luthern.
PPLPMDL0020000001	Mogadore	OH	44260	7/16/2013	Dr told me he is moving to Tennessee in August. Discussed all products and key selling messages. I explained Butrans in depth and reviewed all patient profiles. I asked dr if he will prescribe more Butrans prior to moving and he agreed to try. OxyContin and intermezzo dosing and patient type selection.. Butrans managed care and copy card and trial offer.
PPLPMDL0020000001	Cleveland	OH	44109	7/17/2013	Talked with Elaine RPH Went over Butrans Initiation/Titration,patient info booklet and savings card. OxyContin Savings card and Intermezzo (MOTNA) and dosing along with Trial/savings card. Had a Caresource for Butrans that needed PA and returned script to patient, didnt have time/remember to look up prescriber. Thinks it was Nickels office
PPLPMDL0020000001	Akron	OH	44313	7/17/2013	Discussed OxyContin and Butrans with Tina drs MA. Explained OxyContin dosing, transitioning from Percocet and Butrans dosing, appropriate patients and formulary. Discussed OxyContin formulary for commercial plans.
PPLPMDL0020000001	Akron	OH	44333	7/17/2013	Told dr about oxycontin conversion and titration guide and asked him to look at materials I left for him and his staff. Dr told me that he had two patients today that he prescribed OxyContin for. Dr said the patients were moved to OxyContin instead of Exalgo because OxyContin was cheaper for the Medicare patients. I asked dr to continue prescribing OxyContin for patients on IR oxycodone. Dr said his Butrans is going well and is finding that most patients need to be on 10mcg because the 5 mcg isn't enough. Dr said one patient is on 5 mcg Butrans and intermezzo 1.75mg and is doing great. Patient told him she is able to move much better at her job as a security guard because of Butrans and the intermezzo is working great.
PPLPMDL0020000001	Cleveland	OH	44113	7/17/2013	Visited Facility, spoke with Julie Thomas-Administrator, obtained info. in regards to Attending Physicians-Bhimani,Pandit,Rosenfield, N.Jethva,Kapoor, Golovan, Tessie Meridosres. and Janelle is Dir. of nursing. Skilled Care Pharmacy. Went over Butrans and OxyContin indication and dosing. left info for Janelle
PPLPMDL0020000001	Mayfield Village	OH	44143	7/17/2013	Asked to see dr. in between patients, he was unavailable. Met with medical assistant Heather, detailed all 3 products. Reviewed formulary coverage for all and left updated formulary grids. Left Intermezzo HCP packet for dr. Krishnan, 1 pack savings cards,1 pack patient guides. told them I'd try back later in the week or early next week.
PPLPMDL0020000001	Akron	OH	44304	7/17/2013	Discussed intermezzo with dr and showed him the dosing guide, dosing discussion and indication. Dr said he has prescribed it. I asked dr to prescribe more for patients with in the middle of the night insomnia. Dr asked what else I had and told him Butrans for moderate to severe chronic pain. Dr said he doesn't write for pain. Nothing else learned

PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/17/2013	Spokewithndr about using OxyContin for his patients on IR oxycodone and Percocet dosing. Dr talked about patients not wanting ER opioids and how they would want products for breakthrough pain. I asked dr if he prescribes ER opiates? Dr said yes and it is most of his business. I told him to use OxyContin as his go to as his ER opioid. Dr said he can't use it exclusively. I told him I didn't expect that but to use it more often than other
PPLPMDL0020000001	Westlake	OH	44145	7/17/2013	An In-Service was completed on Pain Management for the STNA students, 10 were in attendance. The Patient Comfort Assessment Guide and The Wong-Baker Pain Scale was handed out and reviewed with the students. A discussion w/ interaction took place on the barriers that interfere with pain assessment/treatment in the elderly and consequences of unrelieved pain. Patty informed me that she will be starting another class in September.
PPLPMDL0020000001	Bedford	OH	44146	7/17/2013	asked dr if she has had an opportunity to use butrans and she said she does not treat pain and refers out to pain management. asked what she does for patients who come to her on oxycotin. she said she does not do anything. I asked her if she has had an opportunity to prescribe intermezzo and she said no but wanted to sign for samples. I told her I did not have samples but vouchers should take care of her. dr had to go back to patients Dr Reed unable to meet with me. Met with med asst Ebonye. Went through OxyContin START principles, please forward information to Dr. Reed. Butrans, patient guide, 3 doses available, supplemental analgesia due to 72 hr steady state. Medco Medicare Part D for Butrans. Intermezzo, new Facebook page. Trial, savings. MOTN insomnia indication, only insomnia agent with PRN indication, patients used on 62% of evenings in outpatient study.
PPLPMDL0020000001	Cleveland	OH	44109	7/17/2013	Discussed OxyContin Q12h dosing along with 7 Tablet strengths for those percocet patients. Dr. agreed. Reminded of Butrans for those tramadol/ultram failures, when over initiation/titration. Dr. also revealed they have been informed the practice is closing dn at the end of the month.
PPLPMDL0020000001	Cleveland	OH	44102	7/17/2013	Quick call found out practice is closing at the end of the month. Dr. said he hopes to stay in the area. Reminded of Butrans for those Tramadol/Ultram failures. Dosing (Initiation/Titration)
PPLPMDL0020000001	Parma	OH	44129	7/17/2013	spoke to dr before he went in with a patient and briefly reviewed butrans efficacy. mentioned oxycotin titration and conversion from percocet. gave intermezzo indication and limitation of use.
PPLPMDL0020000001	Cleveland	OH	44109	7/17/2013	Visited Pain/Anes Dept. Met with Dr. A.Torres (Residency Program Dir.) discussed Butrans/OxyContin, left savings card/FPI's. Had Sue distribute Butrans Initiation/Titration guides to fellow/residents along with FPI's. Left Butrans info with PMR and Internal medicine
PPLPMDL0020000001	Cleveland	OH	44109	7/17/2013	Met with Dr. Torres (Anes. Residency Program Director.) discussed Butrans (indication, initiation/titration, Positioned for Tramadol/LorTab failures, reiterated that Butrans has the same misuse/abuse potential as other Schedule III opioids. Also went over OxyContin- 7tablet strengths, Q12h dosing. Left Butrans savings card.
PPLPMDL0020000001	Richmond Heights	OH	44143	7/17/2013	Met with medical assistant Heather. Dr. Ashraf not available in between patients. Reviewed my products, indications, limitations. Went over formulary grids, Medco Medicare Part D for Butrans. Left opioid naive Butrans trial for dr. ashraf. Left OTC samples for office, OTC visual aid.
PPLPMDL0020000001	akron	OH	44333	7/17/2013	Good discussion surrounding his patient in a Manor Care nursing home. Dr said that most of his patient there are on either vicoden or Percocet. I asked dr to take those patient on Percocet for an extended period of time and move them to OxyContin. Dr agreed. I discussed his use if zbutrans and he feels those patients are ideally suited for Butrans. I asked dr when he gains more experience with butrans in the nursing home he can transition his experience to his own practice. Dr said he plans to. I discussed tramadol and vicoden patients for Butrans and reviewed the conversion guide. Dr asked about formulary so I reviewed the formulary grid and Med D plans.
PPLPMDL0020000001	Lyndhurst	OH	44121	7/17/2013	No Rx have come in for intermezzo since last visit. Left intermezzo savings flashcard. New Facebook page. Went through patient guide with mgr Michael F. OxyContin, patients on just a few doses, 20 30. & 80 mg, that's it. They've never stocked the 15 mg. HCPS are following a 12 h dosing. Left OxyContin savings flashcard. Butrans, he said Dr Laham just pulled a patient off Butrans, 10 mcg hr, just switched to another pain med. do you know which med they were switched to or why? REMEMBER TO ASK DR LAHAM WHY HE DISCONTINUED BUTRANS FOR THIS PATIENT. WENT through Butrans patient guide with Michael, let him know about formulary win with Medco Medicare Part D which he wrote down.
PPLPMDL0020000001	Westlake	OH	44145	7/17/2013	I made a drop-in visit to speak w/ ADON, Brenda Amburgey and introduce myself and Purdue's NE program. I spoke w/ the receptionist, Sue who informed me that Brenda was in a meeting. I left educational offering materials along w/ my BC.
PPLPMDL0020000001	Cleveland	OH	44143	7/17/2013	Kept lunch previously scheduled, Mandel formerly listed as Butrans target. He reiterated again today at lunch, that he's staying away from writing scheduled pain meds, and refers out to pain management. He is however, willing to write insomnia agents, including intermezzo. I reminded him last time he viewed a patient vignette on the iPad. I showed him the new intermezzo marketing piece with the patient cases. Reviewed patient case, appropriate MOTN insomnia indication discussed, when patients have at least 4 hours sleep remaining. Covered core messaging, prn indication: in outpatient study, patients used intermezzo on 62% of nights. Sublingual, spearmint flavored. Must allow to dissolve, don't swallow whole. Highway drive study. Back to sleep time for men & women (from in lab polysomnography study). Trial, savings card. (left one pack) walked through patient guide with dr., which he likes & says will be helpful in counseling patients.
PPLPMDL0020000001	Bedford	OH	44146	7/17/2013	discussed susan profile on intermezzo vignette. dr said he know about intermezzo and i reminded him that he has plenty of caresource patients but he never asks them if they have motna. he said i was right and would try to start asking more sleep questions. reminded him of flexible dosing of oxycotin. gave butrans indicaton reminder.
PPLPMDL0020000001	Westlake	OH	44145	7/17/2013	I made a drop-in visit to speak w/ D.O.N., Sue William on scheduling an in-service on Pain Management. I spoke w/ receptionist, Debbie, who informed me that Sue was on a phone call, I waited 5 minutes, but she was still on the phone. I left educational offering handouts and my BC.
PPLPMDL0020000001	Parma	OH	44129	7/17/2013	staff responsible for prior authorizations were at the other office today but i reviewed butrans vouchers and patient had book during lunch. spoke with dr about butrans for patients not controlled on tramadol. dr said the coverage is poor. said he would write more if the coverage was better. i reviewed the formulary grid and reminded him that he has workers comp patients and caresource. he seemed surprised by this information and i asked what is it he specifically needed to know in order to write butrans and he mentioned the caresource prior authorization. i reminded him of the pain reduction in the clinical trials and he said he like butrans and would like to write more. i reminded dr of oxycotin flexible dosing. i asked how many of his patients complain about waking in the middle of the night. he said plenty and i asked him to think of the caresource patient when he thinks of intermezzo. i told dr next time we speak i will make sure he knows what the requirements are for caresource for butrans.
PPLPMDL0020000001	Richmond Hts	OH	44143	7/17/2013	Intended to speak with Dr. Gabriel Stanescu (OxyContin core), but he already left for day. His wife, Dr. Roxana, only dr left. the first thing she asked, is "do you have something for me to sign?" I stated no, but i want to introduce myself & my products to you(meeting her for first time) told her i've called on her husband for years. Asked her if she treats/manages chronic pain in her practice, yes she replied. She used to work in both nursing homes and hospice, so she's familiar with prescribing scheduled pain meds. So Dr. Stanescu, you are comfortable with prescribing opioids such as OxyContin q 12 h? Yes. Introduced her to Butrans as CIII 1x week option for chronic pain. Intermezzo, for MOTN insomnia, when patients have at least 4 hrs bedtime remaining. Zolpidem tartrate, sublingual tablet. Looked in OTC sample closet, that's where they put OxyContin, Butrans savings cards. They had intermezzo cards in there too, but pulled out and moved in open clear shelf outside sample closet door. Went to car & put together packet of info on each product for Dr. Roxana.
PPLPMDL0020000001	Lyndhurst	OH	44124	7/17/2013	Karen not available to speak with me directly. Diana checked sample closet to make sure they have enough savings cards for intermezzo, Butrans and OxyContin, which they did. She also checked OTC, good on SlowMag. Met with med asst Ebonye, asked her to please let Karen know Butrans added to national NP formulary. Also, Medco Medicare Part D now paying for Butrans. New formulary grids left. Importance of supplemental analgesia for Butrans discussed, while waiting for steady state, counsel patients on this information. Left new patient tear sheets. Intermezzo, new Facebook page. Patient guides to help counsel MOTN insomnia patients on intermezzo.
PPLPMDL0020000001	Westlake	OH	44145	7/17/2013	I made a drop-in visit to speak w/ the D.O.N., Liz Williams to re-schedule an in-service on Pain Management from December. I spoke w/ the receptionist, Casey who paged Liz, She was in a meeting w/ the Adm., Kelli Meadows. Liz asked if i could call her early next week. I left my BC
PPLPMDL0020000001	Olmsted Falls	OH	44138	7/17/2013	I made a drop-in visit to speak with the head of education and introduce Purdue's Nurse educator Program. I spoke w/ the receptionist, Rose who informed me that education is handled by the D.O.N., Pamela Riter, but she just entered a clinical meeting. I left my BC and PAP handouts.
PPLPMDL0020000001	Brooklyn	OH	44144	7/18/2013	Asked Rhonda if she has seen any Butrans/Intermezzo from Dr. Paul, she said not yet. Does see some OxyContin from Kushnar/across the street.
PPLPMDL0020000001	Akron	OH	44311	7/18/2013	Spoke with Matt the pharmacist about all products. Discussed intermezzo dosing, indication and limitations of use. Matt said he has not filled any. Explained Butrans indication, dosing, titration, conversions, and appropriate patients. Matt said he bows about it but has not dispensed any. OxyContin dosing and asked which doses he fills most. Matt said 20 and 40 mg doses are most often but also sees lots of fentanyl and ER morphine. Told him about the conversion for Percocet and told him what I'm telling drs when it comes to the 1 to 1 conversion
PPLPMDL0020000001	University Heights	OH	44121	7/18/2013	When I walked into lunchroom, Dr Price asked, so what are you going to tell us about Butrans & OxyContin today. Made me feel good he associates me with my 2 lead products! Dr Azar was there at same time. Reviewed appropriate patient selection for OxyContin, conversion titration guide, 7 doses available, START principles. not very excited about START principles. Butrans, when I brought up, he listened but not very engaged, and didn't ask a lot of questions, vs Dr. Azar who did. Intermezzo, reminder for MOTN insomnia, prn indication, gender dosing.
PPLPMDL0020000001	Akron	OH	44308	7/18/2013	MSL email communication with Dr. Friebert to provide study updates.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	7/18/2013	Spoke with Darelene about insurance plans for Medicare D plans. I reviewed the three Medicare D plans and asked about how often she sees them. She said they have a lot of ESI and SummaCare for Medicare and commercial. I explained the newness of the coverage for those plans. Reminded her about Caresource. Darelene said they refilled Butrans just today and had no issues.
PPLPMDL0020000001	Euclid	OH	44117	7/18/2013	In-Service @ 7am, 2:30pm & 3pm was completed on Pain Documentation for the Nursing staff. 19 were in attendance. Discussion and interaction on Key Components of Documentation and Reassessment parameters took place. The Comfort Assessment Journal, was shared with the Nursing Staff with a reminder that relieving pain requires a partnership between the healthcare professional and the resident/patient.
PPLPMDL0020000001	Beachwood	OH	44122	7/18/2013	spoke with diane who gave me the information for metro and booking appointments with Eileen. left brochures for butrans
PPLPMDL0020000001	Richmond Heights	OH	44143	7/18/2013	I met w/ Sheila Harris in Staff Development. I introduced myself and Purdue's Nurse Educator Program. I Confirmed 150 beds, including Skilled, Hospice & LTC. The pain assessment tool used is the Wong-Baker Scale. CPP is Omnicare. According to Sheila the % of residents being treated for pain is a large amount. She stated Percocet, Tramadol, Vicodin and a small amount of Oxycotin are used for pain management. There are 4 NP's on staff, Sheila is interested in scheduling an n-service on pain management, but needs approval from the D.O.N. prior to scheduling. The D.O.N. is currently on vacation. Sheila asked if i could call her next Wednesday, 7/18.
PPLPMDL0020000001	Akron	OH	44312	7/18/2013	Discussed with Sandy the office manager about Butrans and she told us that there was a patient who had been on Butrans and since July can't get it paid for. The plan was UHC commercial with a Optum Rx PBM. Looked up the info in Phoenix and confirmed that on July 1 that patients are now required to show history of a ultram ER or duragesic. Dr said she did place the patient on IR tramadol to see abut tolerability then move to ER if all was good. Discussed NSAID, tramadol and vicoden patient for Butrans and asked dr to place those patients on Butrans who meet the indication. Dr said she would continue to use Butrans because she has had good success.
PPLPMDL0020000001	Cleveland	OH	44144	7/18/2013	Quick call thru window, Dropped Butrans Patient info booklets, asked if she started any new patients yet, Dr. replied no but is searching. Told her to use the Butrans patient booklets to convince patients to accept
PPLPMDL0020000001	Akron	OH	44309	7/18/2013	1. MBK to present 2 FACETS programs for the Case managers.
PPLPMDL0020000001	Akron	OH	44305	7/18/2013	Spoke with dr Vora and Mrs Vora about Medicaid patients not being eligible for copay cards. Mrs Vora said they have a patient with Buckeye who needs a PA for Butrans as an initial script. I expressed Buckeye difficulties and Caresource coverage and PA requirement. Mrs Vora will still send in the PA because she said the patient has been on a high number of different of opioids in the past. I spoke with dr Vora about continuing to identify patients for Butrans like those on tramadol. Showed the Scott profile and asked him to continue searching. Dr told me that Butrans is a good product. Told dr that I will be in Copley health Center for a Butrans inservice at the end of Lunch with Dr. Azar. He recently attended a speaker program on pain management at Hillcrest hospital, where they discussed the benefits of buprenorphine. He stated that both Dr. Dan Leizman and Dr. Englok Yap spoke. He was interested in hearing more about Butrans from me. I told him he missed a good program on Mon July 8th and mentioned Dr. Laham. He said he'd rather hear about my products from someone whom is not paid by our company to speak. That's why he enjoyed the Hillcrest Pain Mgt talk. He had concerns with titrating. And stated, how can i titrate every 72 hrs, if needed, if you are telling me to only have patients put on one patch at a time. That would be expensive. I told him I can only discuss what's contained in Butrans FPI. If he does something different, that's up to him. I reviewed pain score reduction in opioid experienced trial. He was satisfied with pain scores. Went through MOA verbatim in FPI. Contraindications and Black Box Warning. Went over dosing, using dosing slider. Showed him patch demo. After going through dosing slider, he was more comfortable with dosing. I summarized what he said. He stated he can think of a lot of current patients that would benefit from Butrans. I told him I am holding him to that and will follow up next, and expect him to have a few patients initiated on Butrans. OxyContin also as an option for patients with chronic pain who need ATC analgesic for extended period of time. Looked at conversion/titration guide. Intermezzo MOTN ins
PPLPMDL0020000001	Mayfield Village	OH	44143	7/18/2013	

PPLPMDL0020000001	Parma	OH	44134	7/18/2013	Spoke with pharmacist and told them about caresource approval of Intermezzo and he was not aware. I told him no ab equal. Reviewed titration of butrans and discussed proper application sites and site preparation. Discussed the importance of accessing pain as the last part of the start principle.
PPLPMDL0020000001	Parma Heights	OH	44129	7/18/2013	Spoke with pharmacist about intermezzo indication and dosing with dosing card. Reviewed Butrans conversion from tramadol using titration guide. Asked how often she sees patients on short acting opioids for longer than 3 months and she said often. Discussed patient Scott profile for butrans. Discussed flexible dosing of OxyContin
PPLPMDL0020000001	Parma	OH	44129	7/18/2013	Reviewed dosing and administration of intermezzo with pharm tech. Spoke with pharmacist about butrans titration and conversion and peak plasma levels in 3 days. Reviewed flexible dosing of OxyContin and start principle. Pharmacist asked about coverage for butrans and I reviewed formulary grid
PPLPMDL0020000001	Akron	OH	44311	7/18/2013	Dr would not sit to discuss products. Gave abbreviated overview of Butrans. Discussed schedule 3, 7 day transdermal patch, dosing, titration, conversions and patient types. I asked dr if based on his experience with opioids if Butrans is a product he will use? Dr said it seems like it is because dr said it is easy and a transdermal patch. I ex, wined managed care which he asked about and made it specific to his business.
PPLPMDL0020000001	Cleveland	OH	44115	7/18/2013	Saw Dr. dr. dn at St.V.s, patient load has picked up at this location. quick reminder on Butrans for those LorTab failures, initiation/titration. Asked for some intermezzo RX where appropriate, Confirmed Aug 21 program date
PPLPMDL0020000001	Tallmadge	OH	44278	7/18/2013	Followed up from last appointment with dr about his prescription of Butrans and the PA that was required. Dr. said that the PA did go through and the patient will receive Butrans and he could not remember the dosing. I asked dr what signs he will look for to ensure the patient is doing well on the product? Dr said sometimes he uses the pain scale but most of the time he will talk to the patients and ask them how they are doing with their pain and if their activities of daily living are getting better. I told dr to ensure to titrate the dose if necessary and supplemental analgesia are used. I told dr to continue prescribing Butrans.
PPLPMDL0020000001	Beachwood	OH	44122	7/18/2013	asked diane what the procedures were for seeing the physicians and she gave me the information for the main campus and booking appointments to see the physicians. left butrans titration and conversion brochure
PPLPMDL0020000001	Cleveland	OH	44130	7/18/2013	Spoke with Renee about intermezzo indication and limitation of use. Discussed butrans titration and conversion with proper site preparation. Discussed flexible dosing of OxyContin.
PPLPMDL0020000001	Akron	OH	44311	7/18/2013	Discussed all products with Jenna. I asked about her experience with opioids and she said she uses short acting and long acting products however doesn't use much long acting products. I presented Butrans and hit all key selling messages. I explained patient types and asked her if it is a product she would prescribe? Jenna said it is but was interested in efficacy data. Explained efficacy data from Bup 3015, managed care, disposal of Butrans Discussed oxycontin for her patients on IR oxycodone and reviewed doses. Intermezzo indication, dosing, and ,initiations if use.
PPLPMDL0020000001	Akron	OH	44311	7/18/2013	Discussed all products with doctor. Explained Butrans key selling messages and reviewed patient types. I asked dr what the clinical advantage of keeping a patient on a short acting opioid is when they have a chronic pain condition? Dr didn't really answer but said he said he tries to initiate ER opioids earlier on in treatment. I told dr I liked to hear him say that because Butrans should be implemented early on in treatment. I explained Butrans clinical trial Bup 3015 and explained efficacy data and safety. I asked dr if he feels Butrans is a product he believes would fit in his treatment of pain? Dr said it does think its an east product to write because its a schedule 3 and the patch seems like it would fit many patients. Discussed managed care and asked him which commercial plan is most impactfull in his practice? Dr said medical mutual. Explained medical mutual plansamong all others including Caresource.
PPLPMDL0020000001	Brooklyn	OH	44144	7/18/2013	Reminded doc of Butrans for those Tramadol failures, OxyContin Q12h Dosing and Intermezzo for MOTNA/dosing. Said Thank you and will try to remember. Cost/ins. coverage is important to him
PPLPMDL0020000001	Parma	OH	44129	7/18/2013	conducted patient vignette for intermezzo patient profile susan. asked her if she knew the dose for men and she said 1.75. I told her 3.5 and she said she thought I was asking about the profile she just read. she said she is tried to write intermezzo and it was rejected by caresource and I told her that it had to say the patient tried and failed soledipem. I also communicated this to all the staff filling out prior authorization forms. discussed the patient that was having difficulty getting butrans and she said she made note that the patient was having gi problems which was documented in his chart. asked if they had patients on oxycontin and she said no. myra rounds at the nursing home on mon and fri and I asked about inservicing at the home and she said she would like that and would talk to them.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/18/2013	I asked dr what her philosophy about treating pain? Dr said that her philosophy is simple because she doesn't treat chronic pain. Dr said if she has an acute injury that needs a pain median e for a few weeks she's ok with but patients that need continued pain control for persistent pain she will refer to pain management. Dr said she will not even prescribe tramadol. I told dr I was going to explain Butrans anyway. I discussed all key selling messages and patient types. I told dr that she may have a patient come to her with a Butrans patch on and she needs to be familiar with it. Dr agreed.
PPLPMDL0020000001	Parma	OH	44129	7/18/2013	dr said he refers pain patients to dr demogone downstairs. I asked if he had patients on butrans and he siad dyes but he did not put them on it. I asked about oxycontin and he said he will not prescribe that because he has enough to deal with as a cardiologist. reviewed intermezzo indication and limitation of use.
PPLPMDL0020000001	Tallmadge	OH	44278	7/18/2013	Skokie to Ray the pharmacy manager about Butrans AE's and showed him them for opioid experienced patients and asked him if any of them sets off any red flags? Ray looked at them and said no because most are comparable to placebo. I told Ray that I'm asking him that because a patient cam in with a Butrans prescription and was told by the pharmacist that the adverse effects of the product and opioids in general would not be recommended by the pharmacist. ARay said that he knows it wasn't him and that it may have been a floater. Ray said that its unfortunate because he believes in butrans. Ray told Barry and I about the patient on OxyContin 30mg qid and was just refilled it. Barry and I asked about the physician and was told it is Matthew Jones in comprehensive pain management. We spoke to Ray about appropriate Q12h dosing and the inappropriateness of Q6 h dosing. We asked Ray not to fill Q6h scripts going forward.
PPLPMDL0020000001	Parma	OH	44129	7/18/2013	Dr asked me why I had my computer out and I said to discuss a patient, he said he has a patient in the room and he has a computer. We discussed james and went through the vignette for intermezzo. he said so intermezzo is for males with problems sleeping and insurance. I told him the dose for james is 3.5 and reviewed gender specific dosing and limitation of use along with savings cards. dr said he was just thinking of me and I asked if that was because he had a butrans patient he wanted to tell me about and he shook his head no. I asked was it about the flexible dosing of oxycontin and he forgot there was a 15 mg. he said no. I said he was probably thinking that I asked him to take 2 butrans savings cards and let me know the type of patient he gave them to and he knew I would be back to ask and he did not have an answer. he said yes. I told him i will keep coming back and the only thing he can do is give an appropriate patient the savings card and let me know the outcome. he said he will. I told him i will be back in 2 weeks and will be eager to hear who he gave a trial card to
PPLPMDL0020000001	Cleveland	OH	44115	7/18/2013	Met with George(RPH) discussed Butrans for those Tramadol failures along with OxyContin Q12h. Hasnt seen any Butrans from Nickels yet, thus hasnt ordered any in, Informed of Dr. A George has left St. V.s
PPLPMDL0020000001	Akron	OH	44308	7/18/2013	Per request from Summacare, provided a non-accredited educational program to case managers with Summacare. Attendees included case managers, and topics presented were "Pain Care in the Older Adult" and "Primer on Addiction". Handouts of the slides were provided.
PPLPMDL0020000001	Cleveland	OH	44114	7/18/2013	Reminded Elaine of Butrans for those LorTab/Norco failures, she said she will prescribe. Confirmed Aug 21st Moufawad MD program
PPLPMDL0020000001	Akron	OH	44312	7/19/2013	Dr spoke about not having the type of success with Butrans as he has like to have had. Dr said that there are a number of patients who either don't want to pay for it and those that say it just isn't what they want. I discussed efficacy data, selection of appropriate patient types, appropriate starting doses and formulary. I told dr to continue doing what he already knows which is to initiate early and to focus on patients on tramadol, or low dose vicoden. Dr said he will continue to try. Discussed the start principles with OxyContin and asked him what he thinks? Dr said he agrees with it for the most part and understands the product but said he doesn't like prescribing because it gets him too involved in pain management which he doesn't want to do. I asked dr to at least switch his Percocet patients to OxyContin. Reviewed intermezzo indication and doses and asked for Dr said he is not having the success with Butrans as he would have liked and reminded me about the pharmacist that scared the patient off of filling Butrans. I explained to dr wells and Taylor about speaking with Ray the pharmacy manager at Rite aid about the incident and was told it was a floater who may have had that discussion with the patient. Dr said the patient was not naive to opioids and should have understood the risks associated with any opioid. Explained efficacy, appropriate patient selection and starting doses and titration. Dr said he will continue to try and use it to find more success. Explained the start principles for OxyContin and asked for him to use it when patients are on Percocet around the clock. Intermezzo dosing and indication.
PPLPMDL0020000001	Akron	OH	44320	7/19/2013	I showed dr the Scott and nancy profiles. I told him that these are the two patient types where he will have the best chance of success with the product. I reminded him of insurance coverage specific to his practice and asked him to had out the information guides to the patients after he explains it to them.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	7/19/2013	I placed a phone call to Nancy Stauser in Staff Development to see about scheduling an in-service on Pain Management. N/A I left a msg.
PPLPMDL0020000001	Fairlawn	OH	44333	7/19/2013	I Placed a phone call to the D.O.N., Deborah Shaffer to check the status on the new change over and see if she is now able to schedule education. N/A I left her a msg. on her voice mail.
PPLPMDL0020000001	Uniontown	OH	44685	7/19/2013	Reviewed products with barb and asked her if she has seen any intermezzo or Butrans recently. A Barb said no but has been seeing more from CPM in uniontown. Exp,aimed patient types for OxyContin, Butrans and Dr said he needs both Butrans and OxyContin copy cards. I asked dr about where he is using Butrans and OxyContin? Dr said he is using OxyContin primarily for patients on Percocet and Butrans for tramadol, vicoden and low dose Percocet patients. I reminded dr about starting doses for each product.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/19/2013	I reminded dr about starting doses for each product.
PPLPMDL0020000001	Fairlawn	OH	44333	7/19/2013	I Placed a call to Michelle Williams in Staff Development to schedule an in-service on Pain Management. N/A, left a msg. on her voice-mail.
PPLPMDL0020000001	Akron	OH	44319	7/19/2013	Quick stand up call and asked dr to write Butrans. I asked him what is he waiting for? Dr said finding patients. I told him that he told me that he has lots of patients on vicoden. I told dr that he needs to be choosing those patients for Butrans and to dose appropriately. Told dr to begin using intermezzo again for patients with in the middle of the night insomnia.
PPLPMDL0020000001	University Hts	OH	44118	7/19/2013	Spoke with Yesheda(Nurse) Went over Butrans-Dosing/Initiation/Titration, for those Tramadol failures, OxyContin 7tablet strengths Q12h. Intermezzo MOTNA and dosing. along with Trial/Savings Card. Booked appt.
PPLPMDL0020000001	Copley	OH	44321	7/19/2013	Spoke to Sam the technician about intermezzo and Butrans. I reviewed the dosing, patient types and titration for Butrans and intermezzo.
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/19/2013	Discussed with Rola(RPH) Butrans dosing/titration, OxyContin- Savings card along with Intermezzo MOTNA and dosing. Has seen some Butrans(Brietenbach).
PPLPMDL0020000001	Akron	OH	44320	7/19/2013	I told dr to continue prescribing OxyContin for her patients on Percocet and showed her the conversions in the conversion and titration guide. I showed her the nancy profile and asked her to use Butrans for patients she refills each month on vicoden. Dr said ok and she likes Butrans.
PPLPMDL0020000001	Cleveland Heights	OH	44118	7/19/2013	Spoke with Opelila(RPH) on all 3 products (Butrans-Initiation/Titration) OxyContin Q12h and Intermezzo-MOTNA/dosing. Hasnt seen any RX's for Butrans, told her Dr Harris is prescribing, will not stock until she gets RX
PPLPMDL0020000001	Akron	OH	44320	7/19/2013	Dr was filling out a pa form when I began speaking with her. Dr said that it is for a Medicare patient who has been on multiple pain medicines and she wanted to try Butrans 10mgc. Dr faxed the form in and will let me know next week the outcome. I asked dr if she has patients currently on vicoden or tramadol only? Dr said she has many. I told her that those patients are best suited to have success with Butrans and she needs to keep it simple. Dr agreed. Discussed the start principles for OxyContin and asked her for more business. Dr said thanks for the review especially dosing down.
PPLPMDL0020000001	Cleveland	OH	44127	7/19/2013	Reminded Dr. of opportunities to prescribe Butrans (Tramadol failures along with patients that are requiring around the clock pain relief. Intermezzo for MOTNA along with dosing. Dr. said OK
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/19/2013	Brief discussion on Butrans 7day transdermal system, Tramadol failures along with intermezzo Trial/Savings card for MOTNA/Dosing. Dr. said OK/book appt. to further discuss
PPLPMDL0020000001	Cleveland Hts	OH	44118	7/19/2013	Briefly went over OxyContin Q12h, flexible dosing strengths, Butrans for those Tramadol failures and intermezzo for the MOTNA and dosing. Left Trial/Savings card and Dr.suggested a lunch appt. Talked with Renee/Pam was put on cancellation list
PPLPMDL0020000001	Hudson	OH	44236	7/19/2013	Quick OxyContin discussion and asked dr if he is still panning on using it? Dr said he does continue to use it and looked at the doses. Dr said he has success with the 20 and 40 mg and will continue to use. I asked dr to use the 10mg Q12h for patient on 20mg of Percocet a day
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/19/2013	Made a drop-in visit to speak w/ Staff Development Coord., MaryAnne. Spoke w/receptionist, Joan who called "MaryAnne's office. Per Joan, MaryAnne said," is not in her office and I cannot page her." I left my business card
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/19/2013	I placed a phone call to speak w/ D.O.N., Debbie Keller, to introduce my self and Purdue's Nurse Educator Program. N/A, Left msg on her voice-mail.
PPLPMDL0020000001	Glendale	OH	45246	7/22/2013	Spoke with John. He was not familiar with Butrans. Briefly discussed indication and appropriate patients. He wasn't interested in knowing more. Discussed OxyContin and reviewed FPI. He said they don't see many scripts, some for lower doses
PPLPMDL0020000001	Cleveland	OH	44106	7/22/2013	Visited pain center , asked if he has prescribed Butrans yet, he said not yet but is still looking to prescribe in appropriate patients.Reminded for Tramadol failures

	Akron	OH	44313	7/22/2013	Spoke with Natalie the pharmacy technician about intermezzo indication and dosing. Natalie said she has not seen any come through but will keep her eyes open. I presented all of the Butrans patient profiles and told her about the patients types appropriate for the product. Natalie said they have the 5 and 10mg in stock and just filled one late last week for the 5mg. I asked who the physician was and she said she couldn't remember. Gave her the OxyContin conversion guide and reviewed the dosing and conversions.
PLPMDL0020000001	Fairlawn	OH	44333	7/22/2013	I placed a phone call to Training Director, Terri Gildone to schedule an in-service on Constipation for September. I was informed by the receptionist that she was doing an interview. I left a msg.
PLPMDL0020000001	Garfield Hts	Akron	44125	7/22/2013	Left info for Key clinicians-General Surgeons/Ortho(Lopresti,Levine,O'Brien Gemma,Forcier, ElKhari Pantec, Peralta-CCF(Lichenberger,Rapur,Sargento,Nowak, Love, Hauer-Kaiser surgeons) Left cards and info for Nursing Staff/Clinicians
PLPMDL0020000001	Waterford	OH	45786	7/22/2013	I-managed-care, clinical trials and Maria patient profile for Butrans. OxyContin managed-care coverage for West Virginia and Ohio. Intermezzo dosing and administration.W-having a lot of success with Butrans at both the nursing home and in the office. The Medicare part D coverage changes will be helpful.
PLPMDL0020000001	Tallmadge	OH	44278	7/22/2013	Discussed Butrans with dr and discussed all key messages. I reviewed patient profiles and asked him if he will prescribe it? Dr said probably not because his physician group led by Dr Rigby doesn't treat chronic pain and they refer to Western Reserve Pain. I told dr I understand. Nothing else learned.
PLPMDL0020000001	Fairlawn	OH	44333	7/22/2013	Handed dr the Butrans Scott profile and told him to open it up to see where at patient like Scott at 400mg of tramadol would be initiated on Butrans. Dr looked and said it makes sense and that is probably where he would start as well. I asked dr to take an extra minute with a patient like him and evaluate the possiblity of Butrans. Dr said ok and took the profile.
PLPMDL0020000001	Uniontown	OH	44685	7/22/2013	I asked dr what triggered him to begin using Butrans again? Dr said he just had a few patients who he knew he could continue treating them for their pain and asked for other options than pills. I told him that's great and hope they continue on the medicine and have good results. I asked dr to continue thinking about patients who are on ultram around the clock and are still in pain. Dr said he will and thanks.
PLPMDL0020000001	Akron	OH	44333	7/22/2013	Good front desk call. Asked dr if I could get a minute and he let me back. I presented all three patient type profiles for dr and asked him if they all made sense for Butrans? Dr said yes and said that as he told me before, he wants Butrans to be started sooner than later. Dr said tramadol patient will be the place he sees using it most. I reviewed the managed care coverage and asked for him to start using it more frequently. I gave brief overview of the OxyContin start principles and asked him if he agrees. Dr said he does but admitted to not doing down. Dr said rarely will patients want to be titrated down. I asked him for his Percocet patients. Dr said as he gets more and more patients he's sure he will have more opportunity.
PLPMDL0020000001	Akron	OH	44333	7/22/2013	I asked dr to prescribe more OxyContin for his patients he is about ready to refill their Percocet. I showed him the conversion and titration guide with the conversions. I gave him the Butrans slim Jim conversion guide and asked him to initiate Butrans early for his tramadol patients. Dr said he has had some success recently with Butrans for patients on tramadol. I asked him to continue because Butrans and OxyContin can provide solutions early and later on in the treatment of pain.
PLPMDL0020000001	Akron	OH	44333	7/22/2013	Showed dr the Scott profile for Butrans over the front counter. I asked him if he has used Butrans for patients on tramadol? Dr said yes all the time. I told dr that a patient like Scott on 490mg of tramadol should be started on the 10mg dose and asked him if he agreed? Dr said yes. I asked him to prescribe more patients Butrans who are on tramadol around the clock and complaining of pain. Gave Wendy the receptionist the OxyContin conversions and titration guide to hand to dr. Dr said now will look it over.
PLPMDL0020000001	Cleveland	OH	44106	7/22/2013	Visited Pain Center, left dept Butrans Initiation/Titration guides, asked Shah if he has prescribed , said not yet but is looking where appropriate
PLPMDL0020000001	Akron	OH	44333	7/22/2013	I made a drop-in visit to speak w/ Ramona Watson, and present Purdue's Nurse Educator Program. I was informed that she was not available. I left Purdue's educational offering handouts along w/ my BC. I placed a follow-up phone call to D.O.N.,Ramona Watson to set up an appt. to discuss educational in-service opportunities. N/A. Left Msg. on her voice-mail.
PLPMDL0020000001	Cleveland	OH	44106	7/22/2013	Went over OxyContin Q12h DOSING,Butrans for those Tramadol failures And intermezzo MOTNA/dosing. Marge said everything is status quo
PLPMDL0020000001	Munroe Falls	OH	44262	7/22/2013	I asked dr if she has had any experience with Butrans recently? Dr said she has not and any and doesn't know why? I showed dr all three patient profiles and explained each one. I asked dr where she believes she can see her using Butrans most? Dr said probably the tramadol patient because she knows it needs to be used early. I asked dr when she is ready to prescribe a refill for tramadol or to move to vicoden to take a second and ask if the patient is appropriate for the 7 day transdermal patch. Dr said she likes that and admitted that it is easy to just refill the short acting product. Reviewed the start OxyContin piece and asked her to use it more often and to remember the start program. Gave her a review of intermezzo indication and patient profiles. Dr said her patient on intermezzo said they are doing well with it.
PLPMDL0020000001	Waterford	OH	45786	7/22/2013	I-Butrans clinical trials, Maria patient profile, managed-care, dosing, indication, boxed warning and co-pay cards. OxyContin managed-care and co-pay cards for West Virginia and Ohio. Intermezzo dosing and managed care.W
PLPMDL0020000001	Akron	OH	44313	7/22/2013	said that they had trouble with patients who were on Medicare part D and getting Butrans approved in the past.
PLPMDL0020000001	Cleveland	OH	44113	7/23/2013	I completed a constipation in-service for STNA's, there were 7 in attendance. The Senokot laxative protocol was handed out & reviewed w/ the STNA's. Discussion & interaction on the risk factors, signs and symptoms, complications and treatment of constipation took place. Feedback rec'd from the STNA's: They informed me that this in-service was filled with good information and they learned a lot.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Discussed Butrans along with thoughts on who it should be prescribed to, says she likes weekly transdermal delivery system, confident in its efficacy. Struggles with PA, reinforced Melissa's confidence in getting approvals thru. intermezzo MOTNA along with dosing
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	I asked dr where he is prescribing most of his OxyContin? Dr said on floors 2-5 of Summa western reserve. I asked him when he is prescribing OxyContin? Dr said he sees the patients when they are already taking up to 6 pills a day of Percocet. He switches those patients to OxyContin. I discussed the conversions from Percocet and asked him to begin earlier if he can and utilize the 10and 15mg doses. I asked dr why he isn't using more Butrans? Dr said he didn't know but said he should be using it. Dr asked where and when he should use. I discussed appropriate patient types and approximate conversion chart. I asked him to evaluate those tramadol and vicoden patients who are on them around the clock for possible Butrans patients. Dr said he understands and will use more. He asked about insurance coverage. Discussed formulary grid and he was impressed with the coverage. I showed dr the intermezzo dosing guide and asked him to identify appropriate patients.
PLPMDL0020000001	Cuyahoga Falls	OH	44221	7/23/2013	Spoke with Krista a new pharmacist at this location. She came from the canton rd cvs. I asked her if she filled Butrans for Dr Cain? Krista said she did and said he really likes it. I discussed intermezzo indication, dosing and limitations of use. Butrans dosing, appropriate patients, titration, and conversions. Reviewed formulary grid with her. Asked her about OxyContin fill rates. Krista said Amy the head pharmacist does a good job of keeping all doses stocked because she sees a good amount from pain management.
PLPMDL0020000001	Cuyahoga falls	OH	44223	7/23/2013	I asked Kim about her prescribing ability and she said she can prescribe schedule 3 and up starting after 6 months of a probationary period of 6 months which should be in October. I discussed Butrans dosing, titration, conversions and appropriate patients. Kim agreed to begin Butrans early but said she has also seen it be effective for patients failing on low dose fentanyl. I discussed the tramadol and vicoden patients as appropriate and asked her to prescribe when the time is right. I discussed OxyContin dosing, titration and appropriate patients and how intermezzo can fit in for in the middle of the high insomnia patients.
PLPMDL0020000001	Cuyahoga Falls	OH	44221	7/23/2013	Caught dr as she was coming in for the morning. I asked dr if her Caresource patients are getting Butrans? Dr said they are and told me thanks for working with Darlene to ensure patients are able to get it. I told her to continue prescribing for those patients that may be ready for a dose adjustment on a short acting opioid. Dr said ok and thanks.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Spoke to Patrick about products. I asked him if he has seen any intermezzo and discussed indication and dosing? Pat said he has not and said he knows its tough to get and expensive. I asked if he is continuing to see Butrans? Patrick said he is filling it at least once a week and has all doses in stock. Pat said he filled one for Souzandalis last week. I asked about OxyContin filling and reviewed the start principles. Patrick said they have all
PLPMDL0020000001	Olmsted Falls	OH	44138	7/23/2013	I placed a phone call to D.O.N., Pamela Rietra to introduce myself and Purdue's Nurse Educator Program. N/A. I left a message on her voice-mail.
PLPMDL0020000001	Cleveland	OH	44114	7/23/2013	Discussed Butrans and what she likes about it, said the once weekly transdermal system and feels it works well. I asked why she doesnt prescribe more, said she is a work in progress. Reminded of Intermezzo for
PLPMDL0020000001	Akron	OH	44313	7/23/2013	I placed a phone call to Richard Lynch to schedule another in-service on constipation per his request. N/A. I left a msg. on his voice-mail.
PLPMDL0020000001	Stow	OH	44224	7/23/2013	Spoke to the pharmacy technician Maria about intermezzo indication, dosing and patients appropriate. Gave her Butrans initiation and titration guide and reviewed dosing and titration. I asked if she sees cscripts from Summit Pain and she said she does from yang. I Eco.wined dosing and titration of OxyContin and explained the conversions from Percocet.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	I spoke to dr about the start principles in the OxyContin conversion and titration guide. Reviewed the START and asked dr what he thinks and if he agrees? Dr said he does and said he usually does not titrate down unfortunately. I asked why and he said because patients never want less. I asked dr to consider down titration if the patients pain is decreasing or following surgery and physical therapy has proven effective to reduce pain. Dr agreed and said it was good information. Gave him the initiation and titration grid for Butrans and told him to gain clinical experience for patients failing tramadol. Dr said ok. Nothing else learned.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Sort discussion over lunch appointment. I asked dr how he feels about titrating patients from 10mg to 20mg? Dr said he will not maximize any pain medicine. Dr said he believes that if the 10mg doesn't work than why would the 20mg? I told dr about the opioid experienced trial and how patients were force titrated to the 20mg and discussed the efficacy data and AE's. dr said he still believes to not titrate to max dose. I asked dr if a large number of his patients are getting enough analgesia with the 10mcg? Dr said they are and side effects are minimal. Dr said that's why he lies it. I asked dr to continue prescribing which he agreed. I asked dr to evaluate his Percocet patients for OxyContin and showed him the conversion chart. Dr said he tries to and likes the q12h OxyContin.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Discussion about products over lunch. I asked dr where he is finding most of his success? Jake said that it works well for patients earlier than later on in their treatment of pain. Jake said that the tramadol and vicoden patients respond well to Butrans and his older population like it because they can put a patch on for a week and forget about it. I asked Jake what he thinks about titrating to 20mcg? Jake said that he doesn't really have a issue with it but is a little leery about titrating to 29mg in his old frail patients. I told Jake that I understand and asked him what he is telling his taints about Butrans for the first time? Jake said that he tell them how it is more of a controlled release pain medicine and they only need 4 patches in a month. Jake said patients really like that and as a PA he can prescribe it. I asked him when he is able to prescribe schedule 2 medicines? Jake said he will in November. I told him to use OxyContin when patients on IR oxycodone around the clocks are appropriate for the q12h oxycodone.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Quick conversation over lunch and asked him how his patients are doing with Butrans if there is anything I can help with or answer any questions? Dr said he patients are really doing well and finds that titrating to the 20mcg is necessary for his severe patients. I asked d r did the 20mcg is meeting expectations with efficacy? Dr said it is and he really likes how the side effects are low. I asked if application puritus is an issue? Dr said no and finds great success with the 20mcg. I asked dr not continue using Butrans and he agreed. I showed dr the OxyContin conversion and dosing guide and showed him the start principles. Dr said he uses it also with great success. I asked him to use it earlier on in treatment for those patients on 20mg of Percocet and up.
PLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Caught dr at window and gave her the Scott profile. I asked her if she would initiate Butrans for th next patient she has on tramadol around the clock and needs a dose adjustment. Dr said she knows and for some reason hasn't started a patient yet. I asked he if she has any questions about Butrans that may be making her pause? Dr said no and said she will use it. I gave her th formulary grid and told her about Medco and SummaCare Medicare D coverage.
PLPMDL0020000001	Cleveland	OH	44113	7/23/2013	Discussed Butrans for those Tramadol/LorTab failures, She agreed a good patient starting point. No issues in prescribing since OH NP has added to approved formulary. Intermezzo-MOTNA/Dosing
PLPMDL0020000001	Cleveland	OH	44105	7/23/2013	Discussed all three products,Butrans-Tramadol failures, OxyContin Q12h dosing and Intermezzo for MOTNA/dosing ] along with savings/trial cards. Will recommend when appropriate
PLPMDL0020000001	Cleveland	OH	44113	7/23/2013	Discussed OxyContin reformulation, Dr.reiterated he is no longer prescribing CII. Went over Butrans, for those Tramadol/LorTab failures, just participated in a mkt.research on Butrans mktg pieces. Intermezzo MOTNA and dosing<font color=blue>->CHUDAKOB's query on 07/31/2013</font>->f/b>f>

PPLPMDL0020000001	Cleveland	OH	44113	7/23/2013	Discussed the reformulation of OxyContin, Dale now has his C2 prescriptive authorization. He is seeing more of the Ortho. rehab patients. Reinforced Butrans position, agreed, said he started a patient last week. Intermezzo MOTNA/dosing reminder along with Trial/Savings cards<font color=blue><b>CHUDAKOB's query on 07/31/2013</b></font>Mark, can you clarify the specifics of your discussion of the reformulation of OxyContin?<font color=green><b>GUTKOMA's response on 08/02/2013</b></font>We discussed how they reformulated OxyContin tablets to be more difficult to manipulate for misuse or abuse(gel like substance) with the understanding that the OxyContin reformulation still a Schedule II that can be abused<font color=blue><b>CHUDAKOB added notes on 08/07/2013</b></font>ok. Thanks. I addressed this in another call not annotation.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	7/23/2013	Spoke with Glenn the pain management in house pharmacist about Butrans and OxyContin. I asked Glenn about Butrans prescriptions and if he has had any issues approving? Glenn said things have gone smoothly as of late and most PA's go through. I explained the new formulary grid focusing on SummaCare commercial and Medicare D, Medco Medicare D and Caresource and BWC. Discussed oxycontin prescriptions and Glenn said they are not using as much because they like Butrans so much. I discussed with him the appropriate placements of each product in the treatment of pain and how one cannot substitute for the other.
PPLPMDL0020000001	Cleveland	OH	44109	7/23/2013	Briefly went over OxyContin-Q12h dosing, along with Butrans for those Tramadol failures and Intermezzo for MOTNA/dosing. Savings/Trial cards. most patient at pharmacy are govt. sponsored
PPLPMDL0020000001	Akron	OH	44313	7/24/2013	I asked dr what he is doing for his patients on 20mg of Percocet and need a dose adjustment? Dr said he typically takes patients to about 30mg of Percocet before he moves to extended release. I asked why he waits til then? Dr said he wants to give the short acting a chance and most of the time it works well. I showed dr the conversion guide and asked him what the downside is to initiating earlier with ER oxycodone? Dr said nothing other than maybe cost. I explained how well coverage is with OxyContin and asked for the business earlier. Dr said ok. I gave dr the Scott profile for Butrans and asked dr to review and to start using Butrans.
PPLPMDL0020000001	Munroe Falls	OH	44262	7/24/2013	I told dr that after we spoke the other day I was wondering what triggers or things make you think about prescribing an ER opioid? Dr said usually it depends on the patients pain level, what the diagnosis is and if the other medicines aren't giving enough pain relief. I asked dr if she would ask herself these things when she sees her patients on tramadol or vicoden as possible candidates for Butrans? Dr said that is a good idea and knows she can be prescribing it more.
PPLPMDL0020000001	Hudson	OH	44236	7/24/2013	Jackie the office manager allow me to see dr Tosino and dr Seiple. I told dr Seiple that when he is in front of a patient on tramadol around the clock and may need a dose adjustment to initiate Butrans. I gave him the Scott profile and asked him if he will do that? Dr said he has already started a few patients on Butrans from tramadol. I told him about the new formulary grid.
PPLPMDL0020000001	Akron	OH	44313	7/24/2013	I made a drop-in visit to meet w/ Richard Lynch to schedule an in-service on constipation for his day shift nursing staff. I spoke w/ Richard, an in-service was scheduled for Monday August 12th @ 10am.
PPLPMDL0020000001	Akron	OH	44320	7/24/2013	Dr saw me and told me that the patient she put though last week that we spoke about got approved for Butrans! Dr was happy because she said that all three patients that she prescribed Butrans for that needed a PA got approved. Dr said that she started on the 10mcg dose and she will let me know how the patient does. I reminded dr that she can titrate to the 20mcg after 3 days if necessary. I asked dr to continue using Butrans. Gave her the OxyContin conversion guide and asked her to continue using it along with intermezzo and showed her the dosing guide.
PPLPMDL0020000001	Hudson	OH	44236	7/24/2013	Spoke with Mary the pharmacist about intermezzo dosing and limitations of use. Mary said she thinks she has seen one in a year. Gave her the formulary grid. Explained the Butrans dosing and initiation and titration guide.
PPLPMDL0020000001	Stow	OH	44224	7/24/2013	Told Mary about the new formulary grid for OxyContin Medicare D.
PPLPMDL0020000001	Hudson	OH	44236	7/24/2013	I discussed the OxyContin start principles and asked her what her thoughts are? Dr said she agrees with them and said she tries to find the lowest possible dose to produce analgesia and low side effects. I asked dr to use the low doses for patients on 20mg of Percocet and showed her the conversion guide. Dr said ok. Gave her the Butrans initiation and titration guide and asked her to initiate Butrans for a tramadol patient in pain instead of Jackie the office manager allowed me to get a word in with the doctor. I showed dr the start principles and briefly explained each. I asked dr if he agrees? Dr said he does and liked the reminder on the ability to titrate and adjust down in dose. I asked dr to prescribe more for his patients on IR oxycodone. Gave him the Butrans slide conversion guide and asked for business from his tramadol patients.
PPLPMDL0020000001	Fairlawn	OH	44333	7/24/2013	I made a drop-in visit to speak w/ Education Training Director, Terri Gildone. I introduced myself and Purdue's Nurse Educator program. We talked about the facilities educational needs and educational in-service opportunities were discussed, unbranded and branded. The facility is primarily short-term rehab, Terri also stated that they do not have a demelia unit. Terri was excited about Purdue's program. She also voiced interest in and asked if we offered an in-service/education on falls. Accompanied by Joe Hennessy, he explained to Terri that Purdue's primary focus is pain management. Terri understood and scheduled an in-service for Wednesday September 11th @ 2pm on "Pain; a team approach"
PPLPMDL0020000001	Hudson	OH	44236	7/24/2013	Spoke with Beth the pharmacist about products. Beth said she has not seen any intermezzo but said she had her first Butrans prescription come in last week. I asked who the physician was and I didn't recognize the doctor. She said the physician is in Parma. I showed Beth the Butrans AE profile from the opioid experienced trial and asked her if anything stands out that she would not expect? She said no but noticed the incidence of constipation is low. I explained the transdermal patch and how it works. Gave Beth the Medicare D formulary grid for OxyContin and showed her how well it's covered. Beth said they don't have too many issues getting it approved.
PPLPMDL0020000001	Stow	OH	44224	7/24/2013	Sat with dr in his office and discussed Butrans and OxyContin. I asked dr which medicines his patients are on most often when he decides to initiate Butrans and oxycontin? Dr said he has used Butrans for just about every patient type and medicine. Dr said many of them are naive to opioids or on tramadol. I asked dr to continue prescribing Butrans and to not forget his uncontrolled vicoden patients as well and showed him the slide conversion guide. Dr said most of his OxyContin prescriptions come from 40mg of vicoden and Percocet. I told dr that that sounds perfect and to initiate OxyContin early on the 10mg when he can. Dr said ok. Reminded him of the Butrans formulary grid and focused on Medicare D coverage.
PPLPMDL0020000001	Akron	OH	44313	7/24/2013	Allowed back into office by Teresa. I asked dr what the downside is to initiating OxyContin for patients already on IR oxycodone? Dr said he will use OxyContin for those patients needing continued use of an opioid and agrees that oxycodone at q12 may be better for patients needing extended use of the product. I showed dr the conversion chart and asked him to prescribe more often and switch those patients. Gave dr the Scott profile and asked him to review again and to use Butrans.
PPLPMDL0020000001	Copley	OH	44321	7/24/2013	I showed dr the adverse events from the opioid experienced trial and asked him if there is anything about it that would prevent him from using it when he looks at e AE's? Dr looked and said no and he likes treat the incidence of constipation is low. I asked him if he believes it works? Dr said yes on some patients. I told dr to use it for patients like Scott. Dr said ok and walked away.
PPLPMDL0020000001	Fairlawn	OH	44333	7/24/2013	I made a drop-in visit to speak w/ D.O.N. Deborah Shafer and introduce myself and Purdue's Nurse Educator Program. I spoke w/ the receptionist, Dee who informed me that Deborah was in a meeting. I left my BC and will follow up w/ her tomorrow 7/25
PPLPMDL0020000001	Akron	OH	44302	7/24/2013	Told dr at window to use OxyContin earlier in treatment to make use of the 10mcg dose. Dr said he tries to use all doses but has lots of issues getting it approved before MS Contin or ER morphine. I asked dr which plans and he told me to speak to Ronda. Ronda was out for the week.
PPLPMDL0020000001	Fairlawn	OH	44333	7/24/2013	I made a drop-in visit to speak with Michelle Williams to schedule an in-service on Pain management. I spoke w/ Michelle and she apologized for not getting back w/ me and informed me that she has been extremely busy w/teaching an STNA class. She requested that I call her next Wednesday July 31st, to discuss and schedule another in-service on constipation and pain.
PPLPMDL0020000001	Cleveland	OH	44195	7/25/2013	Visited the Walker Bldg, Anes/Pain left Butrans Opiod naive study for fellow along with Butrans Savings card. Also left card and info for Michaela for upcoming display opportunity
PPLPMDL0020000001	Cleveland Hts University Hts	OH	44118	7/25/2013	Went over all 3 products(OxyContin,Butrans, Intermezzo with Rola, no new info gathered. Informed of Dr. Brienbach interest in Butrans, she said will monitor
PPLPMDL0020000001	Cleveland	OH	44118	7/25/2013	Went over OxyContin Q12h,he is a confident treater/believer in OxyContin when appropriate. Butrans for those Tramadol/LorTab failures, he has a female patient that loves the product, I asked for more trial, he said he will try to find additional patient that meet both ins. requirements and want the product. Intermezzo for MOTNA/dosing, he said he has a patient in mind
PPLPMDL0020000001	Cleveland	OH	44195	7/25/2013	Quick reminder on OxyContin Q12h dosing and flexible dosing strengths along with Butrans for those Tramadol failures
PPLPMDL0020000001	Euclid	OH	44117	7/25/2013	Dr Morley on vacation, back Mon. Met with OM Tracy. She says Dr Morley instructs the staff that only she should be interacting with reps, he does not have a nurse or assistant, after some hesitation, his receptionist did get Tracy to come up & talk with me. left Tracy my business card & asked her to call me with any questions, detailed her on Butrans, left patient tear sheets, detailed on OxyContin, recommended dosing q 12 h, steady state 24 to 36 hrs. Intermezzo detailed on all key points, prn, sublingual steady state gender dosing MOTN when patient has at least 4 hrs sleep left. Discussed importance of patient guides, left one pack Intermezzo guides. Left HCP re assess your insomnia patients piece for dr Morley. Let her know Facebook site, Intermezzo.com. Tracy wants to know if BWC will pay for Intermezzo, I told her I'm not sure, but will find out. (Dr Morley targeted as iPad vignette presentation from corporate.)
PPLPMDL0020000001	Cleveland	OH	44113	7/25/2013	Reminded of Intermezzo/MOTNA/Dosing, said he likes product, wish we had samples, Reminded of Trial savings cards. And told him I would check into Speaker opportunities. Butrans for those Tramadol/LorTab failures, said OK, booked lunch appt.
PPLPMDL0020000001	Euclid	OH	44132	7/25/2013	Introduced Butrans to dr, he says he may use, needs to think about, as he refers all chronic pain patients to dr e Mikhail and dr Dave Demangone. He allowed me to detail him, not a lot of excitement. CIII 1 x a week transdermal system did peak his interest. did 10 mcg hr patch demo. dosing slider, patient tear sheets, opioid naive& experienced patient selection. Next, OxyContin, , quick detail on indication, black box warning, dosing, asked him to review updates to section 9.2 of FPI, he had no interest. I knew it was time to move on to Intermezzo. Intermezzo, he can't remember who detailed him, but was detailed 1 x before on Intermezzo. Told him I've prepared a packet on Intermezzo for his review. Went over all core messages for Intermezzo, dosing, prn, peak plasma, highway study data, in lab data, outpatient data. Took packet back up to his office upstairs, did not grab OxyContin or Butrans pieces.
PPLPMDL0020000001	Euclid	OH	44132	7/25/2013	Detailed dr office mgr Nelda as well as all medical assistants. After presenting full Butrans detail, pain reduction scores in 12 week efficacy & safety studies. Needed to submit medical inquiry, which he signed on iPad. Wanted to know if like Fentanyl, you cannot successfully use Butrans on " thin" people or those with low BMI. I told him that's first time I've heard that question, but I will submit medical inquiry, which he said he'd like faxed back to him. After presentation, asked if he would ever use Butrans in his practice, he said it would be RARE. He refers to pain management ( Thomas group typically refers to dr e Mikhail or dr Dave Demangone) next presented OxyContin, updates to section 9.2 of FPI, no interest at all in writing OxyContin, presented quick detail, indication, warnings, q 12 h dosing, steady state, 7 doses. Intermezzo complete detail, covered data from outpatient study, back to sleep data from in lab poly somnography studies, highway drive study. One of the ma's said a male patient called in with MOTN,last week, & they weren't sure what to give him,. I said this would be good option for that patient. Dr Paul says he'll keep Intermezzo in mind for MOTN. they DO ACCEPT CARESOURCE. went over PA CARESource info for both Butrans & Intermezzo. Direct patients to Facebook or Intermezzo.com to print out savings. Dr Paul asked how long can patients take Intermezzo? He says he only writes insomnia agents for one to two weeks, that's it.
PPLPMDL0020000001	Garfield Heights	OH	44125	7/26/2013	Went over OxyContin Q12h and reformulation. Butrans- For those Tramadol failures before they start on the Short acting and Intermezzo for MOTNA/dosing. Went over savings cards for all three products. Asked for any key clinicians they thought I should focus on and they said the biggest practice is the Topalsky/Bogar group over at Maymount
PPLPMDL0020000001	Brooklyn	OH	44144	7/26/2013	OxyContin Q12h dosing/proven efficacy. Ben-RPH(filling in for vacation) said since reformulation that RX volume has gone down. Reminded that Butrans has the same abuse/misuse of any CIII opioid. Went over Butrans Patient info guide, asked if he would hand out to potential appropriate patients, said yes. Intermezzo For MOTNA/dosing, has not seen any RX's at this store or Southland
PPLPMDL0020000001	Brooklyn	OH	44144	7/26/2013	Quick reminder of OxyContin-Q12h dosing along with Butrans for those Tramadol failures along with Intermezzo for the MOTNA. Dr. said thank you and was running behind.
PPLPMDL0020000001	Brooklyn	OH	44144	7/26/2013	Brief reminder as Dr. was leaving for the day. Butrans for those Tramadol failures and OxyContin Q12h dosing, Dr. said no doubt OxyContin works, I asked if he would give Butrans a start, and he reiterated doesnt seem to have patients that complain about present prescribed therapies
PPLPMDL0020000001	Parma	OH	44129	7/29/2013	Introduced myself to office and dr at the window reminding her of appropriate patients for butrans and said I would like to get her thoughts on the opioid naive trial next time. Explained proper titration of OxyContin. Gave indication and limitation of use for intermezzo
PPLPMDL0020000001	Parma	OH	44129	7/29/2013	Introduced myself to dr and he said he has no problems with butrans. He said he just wrote a scrip for butrans. I asked what prompted him to think of butrans and he said the patient did not want surgery. I asked what was the patient taking before and he said his prescribing habits are individual and it depends on the patient. I showed the Scott profile and asked him to keep in mind appropriate patients like Scott, with uncontrolled pain currently. Reviewed dosing of oxycontin
PPLPMDL0020000001	Beachwood	OH	44122	7/29/2013	Spoke with rina about intermezzo dosing and administration. Reviewed OxyContin start principle. Shared butrans Scott profile and asked what she thinks most doctors would prescribe next and she said another short acting.

	North Hampton	OH	45349	7/29/2013	She needed dosing reminders again about butrans. I asked her why she is having difficulty remembering and she said she just gets confused. I asked what I can do to help her remember and she said to continue to come in.
PPLPMDL0020000001					Oxycontin formulary and intermezzo formulary grids
PPLPMDL0020000001	Parma	OH	44134	7/29/2013	Spoke with Erica the pharmacist and gave her the dosing guide for intermezzo. Reviewed proper care of butrans patch on skin as described in patient brochure. Discussed start principle for OxyContin.
PPLPMDL0020000001	Richmond Heights	OH	44143	7/29/2013	I placed a phone call to follow-up w/ Staff Development Coordinator, Sheila Harris to see if she has talked w/ the D.O.N. to get approval to partake and schedule an educational in-service. N/A I left a msg. on her voice-mail.
PPLPMDL0020000001	Cleveland	OH	44113	7/29/2013	Spoke with Justin on Butrans 7day transdermal delivery, along with ExactCare pharmacy opportunity with Aaron RPH. Obtained In-Patient Pharmacy Mike Hoying-Director Located on 1st floor
PPLPMDL0020000001	Cleveland	OH	44113	7/29/2013	Obtained Pharm. Dir. info. Mike Hoying-Dir. and Asst. Dir. Jeff Klopp. Left info and contact
	Cleveland	OH	44109	7/29/2013	Went to Anes. dept. met with Sue the residency program coordinator, left OxyContin and Butrans info. Went to Neurology dept. doesn't see reps. Left Butrans and OxyContin info. Went to PMR left lit. Huang, Greenwood, and Harris. Appt. set up thru Vanessa-Harris and Jodi and Huang.
PPLPMDL0020000001	Cleveland	OH	44122	7/29/2013	I rec'd a phone call from Francine Young in Staff Development, who informed me that she needs to cancel the in-service on Constipation scheduled for tomorrow 7/30 b/c state inspectors arrived today and will be there for the next 2 days. I confirmed the in-service scheduled for 8/6 @ 2pm on Constipation and 8/20 @ 2pm on pain for STNA's.
PPLPMDL0020000001	Cleveland	OH	44113	7/29/2013	Visited Pain/Anes ctr. met with Dr. Shen, Dale PA. discussed OxyContin/Butrans. Went to Ortho offices left OxyContin/Butrans info for Stulberg, Long, Joy and Bilfeld booked lunch appt. Also visited Rheumatology dept. left Butrans/OxyContin FPI and dosing/Titration guides.
PPLPMDL0020000001	Cleveland	OH	44102	7/29/2013	Quick discussion, office is closing at the end of the month. Dr. very unhappy, new location/practice to be determined
PPLPMDL0020000001	Cleveland	OH	44113	7/29/2013	Went over OxyContin reformation, dosing strengths and q12h. He is working more with Ortho on the 5th floor. Discussed Butrans and its place in hospital setting, Dale gave suggestion on e-voucher
PPLPMDL0020000001	Parma	OH	44134	7/29/2013	Spoke with pharm tech Julie and gave indication, limitation of use and doing information. Asked if Butrans patients were aware of the need to keep the patch out of direct exposure to heat and she said no. I reviewed the patient brochure for butrans. Reviewed the start principle for patients on OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	7/29/2013	Discussed reformation of OxyContin q12h dosing. Dr. Stated her overall decline in prescribing opioids, Went over Butrans, Tramadol failures, said she uses in her older patients.
PPLPMDL0020000001	Independence	OH	44131	7/30/2013	Spoke with Steve the ma who allowed me to introduce myself to doctor where I communicate the formulary changes for Butrans and reviewed the formulary grid. She said she only had a few patients on OxyContin. I gave Intermezzo indication and limitation of use and she said I could book an appointment to discuss further.
	Euclid	OH	44119	7/30/2013	lunch w practice, she came in late, gave only a few mts, says she's running over 1 hr behind. Quick detail on all 3 products. She wasn't very interested in OxyContin, left reformation piece, with FPI, asked her to review updated to section 9.2 (but willing to listen re Butrans and Intermezzo). Butrans CII option for chronic pain. She says SHE REFERS OUT TO PAIN MGT FOR CHRONIC PAIN. Left her packet of information on all 3 products. She says she will review. Intermezzo, pm, MOTN, appropriate patient selection, must have at least 4 hrs bedtime remaining.
PPLPMDL0020000001	East Cleveland	OH	44112	7/30/2013	Went over Butrans-with Latoya(RPH), discussed Tramadol failures along Initiation Titration. She agreed to distribute Butrans Patient info guides to appropriate patients. OxyContin flexible dosing/Q12h along with Intermezzo for MOTNA/dosing. Identified Dr. Bateanu, Brown, Nana and Brain NP as key prescribers in the building
PPLPMDL0020000001	Euclid	OH	44117	7/30/2013	Snack for office, Barbara says mostly girls on staff, like chocolate! Dr. Morley says most patients are referred to him for therapy from Dr. Moufawad. What his patients are taking for pain is dictated by what Dr. Moufawad places them on, and he typically doesn't change what Dr. M has put them on. He simply hasn't been using a lot of Butrans, because Moufawad does not. More patients on OxyContin. has no issues with OxyContin efficacy or coverage. Told him to keep Butrans in mind for new patients, patients who can't swallow oral pills or perhaps patients with Caregivers, who can apply patch for them, if patient cannot apply themselves. He will keep in mind. Left OxyContin reformation piece for him, and he will review piece along with updates to section 9.2 of FPI. Intermezzo, he likes product, tried to write recently and Ohio BWC WILL NOT PAY FOR. Since his entire patient base is BWC, he cannot write Intermezzo for any of his patients. (left one pack 12 patient guides)
PPLPMDL0020000001	Solon	OH	44139	7/30/2013	Met with Denny and Chuck to update them on current promotions and to discuss 2014 promotions. For Marc's, do a comparison of accounts for generic vs Colace use. They compare their prices to Walmart. On MULO, they look at Mass and multi-outlet. We will discuss with Marc's on Senokot To Go for regular shelf. We will try to get Slow-Mag in as nutritional bars do well in their stores. We set up another promotion. Denny said DDM may discontinue skus doing less than 50 units per month. We talked about setting up another promotion. Walgreens is their main competition.
PPLPMDL0020000001	Parma	OH	44129	7/30/2013	Asked dr what he would like to know about Butrans in order to feel comfortable prescribing for patients like Scott. Dr said he has not found the right patient and walked away. I mentioned flexible dosing while he was walking away and the Intermezzo indication.
PPLPMDL0020000001	Cleveland	OH	44195	7/30/2013	MSL email communication and phone call to Ms. Kreischer and Ms. Casanno regarding OTR3001 study and scheduling in-person meeting.
PPLPMDL0020000001	Cleveland	OH	44195	7/30/2013	Visited Rheum.dept. left Butrans/OxyContin info for Dr. Calabrese, Chatterjee, Mazanec and fellows/nurses. Met with Pharmacy Dept/ Sabrina S. in regards to E-voucher program to get better clarification on criteria of acceptance of product on CCF site
PPLPMDL0020000001	Euclid	OH	44119	7/30/2013	First lunch with practice. Dr Eckstein says she refers patients with chronic pain over to pain mgt. Did detail her still on Butrans, then OxyContin. She will review all information I left on OxyContin & Butrans, can't promise she'll use either product. Very interested when I transitioned to Intermezzo. Asked for samples. Told her I don't carry samples, but patients can go to Intermezzo.com or Intermezzo Facebook page & print out savings. We have 5-day free trial with script, \$45 each monthly copay thereafter. Left her Intermezzo HCP packet.
PPLPMDL0020000001	Cleveland	OH	44119	7/30/2013	I spoke w/ ADM., Nancy Sugarman and introduced myself and Purdue's Nurse Educator Program. She informed me that they use Hospice of Western Reserve for pain in-services. I shared w/ her the unbranded/branded topics. A meeting date was scheduled for August 6th @ 10:00 w/ Nancy and the D.O.N., to discuss the program further
PPLPMDL0020000001	Parma	OH	44129	7/30/2013	Spoke with Jaylene and asked if the dr was using the butrans vouchers I left last time and she said she has been reminding him. Dr walked up and I reminded him that he has to provide patients taking butrans with vouchers so they can get 50 off their copay after they come out of pocket 15. I left the Scott profile and asked him consider patients like Scott for Butrans. Reminded him of flexible dosing of OxyContin and stated intermezzo indication
PPLPMDL0020000001	Euclid	OH	44119	7/30/2013	Met with his medical assistant Mary at lunch. All 3 products detailed. Dr. Lin does NOT eat lunch, but sometimes comes back. He did not come back today. After everyone back to lunch, was able to visit his office, he was not very engaged. Running way behind he says. told him I was hoping to go over clinical data for Butrans, our CII pain patch for chronic pain. I will leave info. I'm also leaving you doctor, information on OxyContin reformation, and would like you to review updates to section 9.2 of OxyContin FPI. Finally, leaving information regarding Intermezzo, a sublingual tablet for MOTN insomnia. Left complete HCP packet for Intermezzo.
PPLPMDL0020000001	Beachwood	OH	44122	7/30/2013	I placed a phone call to Nurse Educator, Cheryl Grim to schedule an appt. to introduce Purdue's NE program. N/A I left a msg on her voice-mail.
PPLPMDL0020000001	Independence	OH	44131	7/30/2013	Told dr I was interested in knowing how his butrans patients were doing and he said he did not have many so I asked him to review the Scott profile that looks at patients not controlled on tramadol. I asked him to think if butrans for patients like Scott. I told I will be back with senakot for his patients with opioid induced constipation. Reminded him of OxyContin 15 and 30. Told him I was leaving intermezzo information for motna
PPLPMDL0020000001	Euclid	OH	44119	7/30/2013	Lunch with Judy today. She stated she would use Butrans for back pain or acute pain. I told her Butrans not indicated for acute pain, but rather, is indicated for moderate to severe chronic pain. Our 2 studies included patients with chronic low back pain. Left her both studies. Went over pain reduction scores, opioid naive. Went over appropriate positioning of Butrans, as either first opioid, or for patients taking 3 to 4 ir opioids daily, and pain still not controlled. Left her dosing slider. Left her one pack savings cards, which she requested. Steady state and supplemental analgesia discussed. OxyContin, please review reformation piece, and updates to section 9.2 of FPI. q 12 h dosing, 7 doses available. Intermezzo, she had a lot of questions, very interested. Full detail, left HCP packet, dosing flashcard, one pack patient guides. Went over all data from studies. Told her direct patients to Intermezzo.com for further info and to print savings.
PPLPMDL0020000001	Valley View	OH	44125	7/30/2013	Spoke with Aaron RPH-VP of Pharm operations discussed OxyContin Q12h/dosing along with Butrans 7day transdermal, position for Tramadol failures.
PPLPMDL0020000001	Euclid	OH	44119	7/30/2013	Dr Katz not supposed to be in today, was there doing paperwork. Was able to detail her (didn't each lunch, as Kosher required). she remembers being detailed on Butrans downtown by Amy. Discussed reduction in pain scores opioid experienced trial. Core Butrans messages, steady state, supplemental analgesia, 3 doses, proper application. She wanted me to leave savings cards, (left 1 pack). OxyContin, dr katz please review this reformation piece, which includes OxyContin FPI, and updates to section 9.2. OxyContin is q 12 h dosing, steady state 24 to 36 hours, 7 doses to titrate up or down. Intermezzo, PRN, MOTN indication, peak plasma, time back to sleep for men & women, highway drive study: patients much have at least 4 hrs bedtime remaining after taking intermezzo, gender dosing (flashcard left), FPI left. Trial, savings, Caresource PA.
PPLPMDL0020000001	Euclid	OH	44119	7/30/2013	Met with pharmacist Kathleen P, asked her to review new OxyContin guide for pharmacists, and updates to section 9.2 of OxyContin FPI. she thinks the reformation is great idea. We Reviewed ready state, 7 doses to titrate up or down, she noted that she has about 3 bottles of 15 mg that will expire soon. HCPs just don't write ht dose. Butrans, no changes in utilization since my last visit. Reviewed indication, dosing. Intermezzo, no changes in utilization since last visit. Facebook or Intermezzo.com for Customer patient education & savings cards available to print out.
PPLPMDL0020000001	Beachwood	OH	44122	7/30/2013	Placed a phone call and spoke w/ D.O.N., Susan LoDolce. I introduced myself and Purdue's Nurse Educator Program. I was interrupted by Susan who informed me that today is her last day working there. She asked me to call back next week and speak w/ the interim D.O.N., Michelle.
PPLPMDL0020000001	Cleveland	OH	44112	7/30/2013	Briefly discussed Butrans with Lisa- 7day transdermal, Tramadol failures, she requested Savings card. Left card with Dr. asked if I could get appt, she will try, also said to email a request
PPLPMDL0020000001	Cleveland	OH	44195	7/30/2013	Talked with Brian(Rph-mgr) went over OxyContin,Q12h, flexible dosing and Savings Card, Butrans- 7Day transdermal, Tramadol failures, and Ins/Savings card, has 2 patients filling Butrans RX's , Intermezzo for MOTNA/dosing review, requested Trial/Savings Card
PPLPMDL0020000001	Parma	OH	44129	7/30/2013	Gave pain assessment questions. Discussed patients taking butrans and how the heat can effect the patch. Asked what the butrans patient looks like and she said that she likes butrans with Vicodin for breakthrough and she reduces the Vicodin. Still not interested in writing OxyContin. She likes butrans for patients having pain in the night. Gave Intermezzo indication and limitation of use. Asked her to mark calendar of August 21 program. She will be on vacation next week
PPLPMDL0020000001	Parma	OH	44134	7/30/2013	Reminded dr that last time we spoke he said he was moving away from workscorp and I asked if that has impacted patients ability to get Butrans. He confirmed he had given out several vouchers and he quoted the voucher and savings card value. I reviewed the formulary grid with him to let him know his patients should still be able to get butrans. I reminded him of OxyContin q12h dosing. I asked if he had patients with motna and then discussed indication and limitation of use of Intermezzo
PPLPMDL0020000001	Mayfield Heights	OH	44124	7/30/2013	I placed a phone call to speak w/ Staff Development Coord., MaryAnne. I spoke w/receptionist, Theresa who informed me that MaryAnne was in a meeting. No voice mail is available.
PPLPMDL0020000001	East Cleveland	OH	44112	7/30/2013	Intro. Went over Butrans with Brian(NP) discussed 7day transdermal delivery system , Tramadol failures, left Scott profile along with Savings Card per his and Lisa request. OxyContin Q12h dosing, flexible dosing strengths, Said he doesn't prescribe any CII's
PPLPMDL0020000001	Euclid	OH	44119	7/30/2013	met with dr medical assistant, who's also his OM. Kim Moore-Hobbs. Left reformation mktg piece for dr. winner. Reviewed OxyContin core messages, START principles, steady state 24 to 36 hrs, dosing, updated Medicare Part D coverage/grid. Explained to Kim How savings card works. Left one pack \$90 cards. Kim, please call me should you need anything else. Let me know how I can be a resource to your practice.
PPLPMDL0020000001	Cleveland	OH	44106	7/31/2013	Asked Marge where most of the OxyContin is prescribed, she said Seidman(Oncology/Palliative care) Silverman, Weinstein, Butrans for those Tramadol failures, she still hasn't seen any
PPLPMDL0020000001	Oakwood Village	OH	44146	7/31/2013	I arrived at 7:15 for a 7:30 in-service on "Key Terms in Pain Management" Upon arrival the D.O.N., Barb Straemple was not in yet. I was directed to the education room by the MDS nurse, who announced the in-service. After waiting 20 minutes and no attendance, I decided to see if the D.O.N. came in yet. I was approached by one of the ADON's Lynette, who said she just got off the phone w/ the D.O.N., Barb Straemple and she extended her apologies. She forgot to post the in-service and also cancelled the 10:30 & 2:30 in-services that were scheduled for later today. Lynette said, "Barb will call you to reschedule."*** I called to confirm the in-services on 7/29 and left a msg. on the D.O.N.'s voice-mail, which she apparently did not receive.
PPLPMDL0020000001	Cleveland	OH	44106	7/31/2013	MSL email communication with PI about recent OTR pre-screening activity and to follow up on request to meet with pediatric pain team. Dr. speicher plans to follow up with colleagues on the pain team regarding meeting

PPLPMDL0020000001	Cleveland	OH	44106	7/31/2013	Visited Seidman Cancer center Left OxyContin info for Silverman and Weinstein, Left card and Requested appt. Visited Pain/Anes. dept. left Butrans info for fellows, Sehgal and Hayek
PPLPMDL0020000001	Cleveland	OH	44106	7/31/2013	Dr. said he has a few patients on Butrans and doing well, went over Initiation and Titration, He likes delivery system. OxyContin flexible Q12h dosing along with Titration.
PPLPMDL0020000001	Cleveland	OH	44103	7/31/2013	Went over OxyContin Q12h, Savings Card for Butrans and Intermezzo. Hasnt seen any Butrans or Intermezzo, doesnt fill many Commercial ins. scripts
PPLPMDL0020000001	Cleveland	OH	44113	7/31/2013	Reminded of OxyContin flexible dosing Q12h and 7 tablet strengths, Dr. said he likes and is confident prescriber. Also Butrans for those Tramadol failures. Booked breakfast for next week
PPLPMDL0020000001	Cleveland	OH	44103	7/31/2013	Went over OxyContin reformulation, Bell Nurse said medical Dir. is really putting alot of pressure on clinicians to stop prescribing any Narcotics. Discussed Butrans for Tramadol/Ultram failures and Intermezzo for MOTNA/dosing along with Savings/Trial Cards
PPLPMDL0020000001	Bedford	OH	44146	7/31/2013	I made a drop-in visit to speak w/ the head of education. The receptionist was not in yet, but I spoke w/ another office employee. She informed me that the D.O.N. is Jackie Conner, but education is handled through Saber Healthcare's corporate office. I have tried on numerous occasions to contact, Wanda Shaeffer, the head of education at Saber Healthcare and have been unsuccessful.
PPLPMDL0020000001	Cleveland	OH	44115	8/1/2013	Visited with George, suggested Ortho. as a target for OxyContin appropriate prescribers, none from Nickels(pain Mgmt) He reiterated they dont fill from patients outside of hospital, Reminded of Butrans for those LorTab failures. Also not aware of any IM key prescribers
PPLPMDL0020000001	Stow	OH	44224	8/1/2013	Spoke to the pharmacist about all products. Explained Butrans and discussed key messages and patient types. Reviewed formulary insurance and asked him if he fills it? Raymond told me that he does but not much since summit pain added their own pharmacy. He used to see 2-4 a week from them but now only occasionally. Raymond said he has the 10and 20mcg in stock. I asked him if he will order the 5mcg dose and he said he might. Raymond said its tough for them because of summit pain pharmacy and not many people know they are in the medical building. I explained OxyContin dosing and conversions and asked him about intermezzo fills. He said he has not dispensed it and I explained the dosing card.
PPLPMDL0020000001	Cleveland	OH	44195	8/1/2013	MSL email communication with Ms. Kreischer, she will be taking another position and will not be supporting OTR or BUP after August 23. The replacement coordinator has yet to be assigned. PRA was also notified of this
PPLPMDL0020000001	Parma	OH	44134	8/1/2013	Spoke with Jason about proper use of butrans including site rotation. reviewed the start principles of oxycontin. reviewed dosing of intermezzo. asked jason what doctors use as supplemental analgesia and explained why they may want to use supplemental analgesia.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/1/2013	I asked dr where and when is she using OxyContin? Dr told me for when her patients need relief from severe pain either from a surgery or chronic pain. I asked if she has patients on IR oxycodone that she would switch to ER oxycodone? Dr said she does that when she knows the patient will need constant relief. Showed her the conversions and dosing and asked her to write it more. Nothing else learned
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/1/2013	I showed dr the start principles again for OxyContin and asked him how he feels anti adjusting the dose down in certain situations? Dr said he has and will try to keep that in mind as needed. I showed dr the conversions from Percocet to OxyContin and asked him if he will switch patients? Dr said he will because he would rather have more of his patients on ER opioids. I handed him the conversion guide and asked him to reference it when he is switching. Quick reminder of Butrans and its ability to be used in many different patients from NSAIDs to vicoden.
PPLPMDL0020000001	Stow	OH	44224	8/1/2013	Dr has a meeting and only had a coupe of minutes so I asked him to prescribe Butrans and asked him if he had any clinical experience yet? Dr said he has not used it and may not have the ability because he is doing mostly procedures. I told him that many Butrans can be used after he prescribes IR opioids following a procedure and it doesn't provide enough and the patient remains in chronic pain. Dr said that that is a good idea and he can see how that makes sense. I reviewed formulary and asked for business.
PPLPMDL0020000001	Parma	OH	44129	8/1/2013	Spoke with Jennifer about proper application of butrans patch and value of vouchers. asked about relay health and she was not aware of how the process worked but did note that usually evouchers are taken off the price without her doing anything. discussed start principle for oxycontin. discussed intermezzo dosing and administration.
PPLPMDL0020000001	Independence	OH	44131	8/1/2013	Dr remembered me from intermezzo and said he is writing and i said good i want to talk to him about his vicodin patients whose pain is not controlled and they need a change. he said he refers them to pain management. I asked dr what is keeping him from writing butrans and he said when he thinks of patches he thinks of duragesic. he then said he know butrans was schedule III. he said it is difficult for him to change his way of thinking.
PPLPMDL0020000001	Stow	OH	44224	8/1/2013	Spoke to Greg the pharmacist about Butrans and asked him how much he is seeing? Greg said a little more lately and said i must be getting through to them. Greg said he is filling a lot of 5 mcg patches and has plenty of vouchers and copy cards. I discussed the new managed care coverages and discussed Caresource and BWC as well as Med D plans. Greg said he is glad to know about Caresource because he sees a lot as well as BWC. Greg said the patients really seem to like it.
PPLPMDL0020000001	Independence	OH	44131	8/1/2013	dr said he does not write oxycontin anymore. told dr there is butrans to write and after low low dose vicodin. told dr that he can also use after nsaid or tramadol. asked dr how he treats the patients that are still on pain meds in his practice. he said he still treats them. discussed the managed care environment for butrans.
PPLPMDL0020000001	Stow	OH	44224	8/1/2013	Quick call during lunch. I asked her to take a second the next time she is in an exam room with a patient on IR opioids around the clock and is telling you they want more because they are still in pain and ask yourself if they are appropriate for Butrans? I reviewed all patient profiles and asked her to tell me the correct starting dose? Sandra answered them all correctly based on the profile information but said that with Nancy on vicoden she may initiate her on 5 mcg because of her age. I told her that is probably acceptable and told her to titrate as necessary to 20mcg if he necessary. I asked her to continue prescribing and reviewed insurance coverage. Gave her the intermezzo dosing guide and asked for her to gain clinical experience with it.
PPLPMDL0020000001	Stow	OH	44224	8/1/2013	Abby told me she used Butrans recently with good results. I asked her to tell me about it and she said that the patient was on 30mg of vicoden and didn't want to be on pills. Abby said that patient had good insurance and thought that most patients need to fail ER morphine or MS Contin prior to getting Butrans approved. I told her that is just not true. I told her about the insurance coverage and asked her many plans do not dictate a SE or PA. Abby said that she is really glad to know that and will use it more now. Abby said that the patient is doing really well on Butrans and is happy with decreased pain. I showed Abby the patient profiles and asked her to give me the correct starting doses which she knew. I told Abby to continue prescribing and to also remember intermezzo patient types and indication with dosing.
PPLPMDL0020000001	Cleveland	OH	44113	8/1/2013	Reminded of Aug 21st confirmed program with Dr. Moufawad. Butrans for those Tramadol/LorTab failures, she said that she is prescribing more often, and patients seem to like it" Intermezzo for MOTNA and dosing reminder
PPLPMDL0020000001	Cleveland	OH	44115	8/1/2013	Confirmed Aug 21st program with Dr. Moufawad. Said he is looking forward to attending. St. V's location is getting busier. asked if he has prescribed any Butrans here, not yet, doing alot of blocks at this office. Reminded that Butrans is for those Tramadol/LorTab failures, he agreed. Intermezzo for MOTNA
PPLPMDL0020000001	Cleveland	OH	44115	8/1/2013	Visited Pain Center, talked Dr. Nickels, discussed Butrans for those LorTab failures. Stopped in pharmacy asked George RPH, other depts i should be targeting, he suggested Ortho. most OxyContin RX's come from that group. Left OxyContin info with Ortho. Stanley,Perse, also card for appt.
PPLPMDL0020000001	Cleveland	OH	44115	8/1/2013	Visited pharmacy, quick discussion with Dave B Pharm.Dir. He agreed with George that most OxyContin within Institution is coming from Ortho. Butrans is positioned for those outpatient patients that have failed on Tramadol
PPLPMDL0020000001	Cleveland	OH	44113	8/1/2013	Confirmed with Deb Aug 21st program, with Dr. Moufawad, asked her to remind Elaine. She had a new Butrans start this morning, asked if it was a LorTab failure, she said not necessarily but a patient that was needing more pain control along the clock. Intermezzo reminder for MOTNA along with trial card utilization
PPLPMDL0020000001	Stow	OH	44224	8/1/2013	I asked dr what triggers he looks for when prescribing an ER opioid? Dr said that first of all he is trying to get as many of his patients on ER opioids sooner to they have more consistent control of their pain. Dr said that most of the time he assesses the patients pain level, gait, functional mobility and if he feels their pain is legitimate. Dr said once that happens he mostly finds a medicine he believes will provide ER control like Butrans, Opana ER,duragesic. Dr said that most of the time his decisions have to be made on cost. Dr said he doesn't have much trouble with Butrans. I asked him if he is typically the first one prescribing pain medicine? Dr said no and that 95% of the patients that see him are already on opioids. I told dr that he needs to streamline Butrans and use it early for ideal patient types. I reviewed all patient types and asked him where he would use it most? Dr said vicoden and tramadol. I asked dr to continue prescribing Butrans and reviewed insurance coverage. I asked dr to also identify patients for intermezzo and gave him a dosing card.
PPLPMDL0020000001	Garfield Hts	OH	44125	8/2/2013	Went over all 3 products. OxyContin- Q12h/flexible dosing , Butrans-only 7 day transdermal, Tramadol failures and intermezzo for MOTNA/dosing. Trial/Savings cards
PPLPMDL0020000001	Cleveland	OH	44130	8/2/2013	Quick call and introduction. Dr said he tried a few patients on butrans with mixed success. dr said he does not like to write opioids. Got office hours and booked lunch
PPLPMDL0020000001	Brooklyn	OH	44144	8/2/2013	Quick reminder on Butrans 7day transdermal delivery system and savings card for those commercially covered. Dr. said he will remember.
PPLPMDL0020000001	Uniontown	OH	44685	8/2/2013	Gave dr at window the OxyContin conversion guide and reviewed the start principles. I asked dr what his thoughts are and he told me he does follow them for the most part. Dr said not all his patients will need to reduce their dose but agrees how they need to be evaluated each time they come back.m I reviewed the Tom profile and asked him to continue prescribing. I also handed him the Scott profile and asked him to take those ultram patients in pain around the clock and put them on Butrans. Dr agreed and thanked me. Left him with the intermezzo patient profile piece.
PPLPMDL0020000001	Uniontown	OH	44685	8/2/2013	I asked dr how he is presenting the option of Butrans to his patients lately? Dr said he really tries to keep it simple and just tell them that they need more extended release pain medicine because the short acting isn't working. Dr said he tells the, that it a patch that they wear for 7 days and how's them the sites. I asked if he patients have boked at the idea? Dr said not really because he has found that patients are happy. I asked if he is handing out copy cards? Dr said one patient used it but the others were Medicare. Dr said he has not heard back from the patients to he assumes all is good. Gave dr the Scott profile and asked him to continue prescribing.
PPLPMDL0020000001	Garfield Hts	OH	44125	8/2/2013	Reminded of Butrans for those Ultram failures and before they start on the short acting opioids. Said he has 1 patient on Butrans and doing good so far. OxyContin Q12H dosing and intermezzo for MOTNA and dosing reminder
PPLPMDL0020000001	Middleburg Heights	OH	44130	8/2/2013	Dr said he does a lot of nursing homes and patients are using oxycontin. I asked about the patients in his practice and he said he does not like to use much OxyContin and he refers out to pain management. I asked does he refer out for Percocet and he said no. I showed the titration guide and pointed out the 5 mg Percocet equivalent to 2 10mg OxyContin. He said he knows but he does not like to write OxyContin. I asked why and he said the name. I asked if he believed it worked and he said yes but he has to be careful. I asked if they had Orns and he said no. Asked dr his thought on butrans and he said he refers out to pain management and he compared butrans to duragesic. I told him the products can not be compared. I discussed the patient Scott and the opioid naive study and asked where he would position butrans now. He said he understood. I asked him to remember burtrons after tramadol or low dose Vicodin or Percocet. I told him i will remind him of is again. Quick intermezzo indication and limitation of use discussion<font color=blue>-<b>CHUDAKOB added notes on 08/11/2013</font>-<font>Marcia. It looks like you created some good constructive tension here. Perhaps you got the Dr. to think a little. Nice work!
PPLPMDL0020000001	Akron	OH	44319	8/2/2013	I asked Sara the pharmacist about wether she has had any questions from patients about Butrans or intermezzo? Sara said she has not but maybe one of the other pharmacists has. I explained the Butrans dosing and how to approximate start dosing, and patient profiles. Gave her the conversion and titration guide for OxyContin and dosing structure. Discussed intermezzo indication, dosing and limitations of use.
PPLPMDL0020000001	Akron	OH	44319	8/2/2013	Spoke with Vicki the pharmacist about all three products. Discussed Butrans dosing, titration, Scott and nancy profiles and appropriate starting dosing based on IR daily dose. I asked her if she is seeing more Butrans? She said they are and most are from pain management. Discussed new formulary updates and she was impressed with Medco Medicare D coverage. Explained the OxyContin and conversion guide and conversions from IR oxycodone and Percocet. Vicki said she sees lots of TID dosing and said they are not approving them anymore. Vicki said that she recommends to them that they need to dose if q12 . Explained the intermezzo dosing and indication as well as limitations of use.
PPLPMDL0020000001	Brooklyn	OH	44144	8/2/2013	Another reminder of OxyContin flexible dosing strengths along with Q12h. Butrans for those Tramadol failures and Intermezzo 5 day trial offers along with savings card
PPLPMDL0020000001	Cleveland	OH	44130	8/2/2013	Asked dr what dose he usually starts with and he said 20 or 40. I reminded him that he has patients that have been on low dose Percocet for several months and would he consider OxyContin for them he nodded. I mention proper patient for Butrans and he said yes. I gave him indication and limitation of use for intermezzo.

	Akron	OH	44320	8/2/2013	Spoke with dr about using OxyContin for her patients on Percocet around the clock. Dr said there are too many problems getting patients to take less pills and change their routine. I asked dr if she believes ALL her patients fit that outlook? Dr said no not all but most. I told dr she needs to sell to her patients another form of therapy that may be more appropriate. Dr agreed and said she will try. Gave her the OxyContin conversion guide and told her to review it. I asked her to start more patients on Butrans who are on tramadol or vicoden around the clock. I gave dr the intermezzo patient profile guide and asked her to continue trying to identify.<font color=blue><b>CHUDAKOB's query on 08/11/2013</b></font>-Cliff, you may want to clarify with her that we are asking her to move patients who are NOT well controlled. We are not asking her to change the routine of her patients that are well controlled. This may be a case where thinks you are asking for ALL her patients, even if you are not.<font color=green><b>REICHCL's response on 08/12/2013</b></font>I agree, kinda. I typically tell customers to move patients who are appropriate for the q12h oxycodone. With Customer Duppsstadt, things are different. If I ask her to move patients who are uncontrolled on Percocet, it opens a discussion I would rather not get involved in, a vicious circle.<font color=blue><b>CHUDAKOB added notes on 08/13/2013</b></font>I agree kinda. Perhaps phrasing it different will help.
PPLPMDL0020000001	Cleveland	OH	44125	8/2/2013	Talked with Matt RPH, discussed OxyContin Q12h dosing and the reformulation to make less misuse and abuse. Butrans for those Tramadol failures and Intermezzo MOTNA/dosing. Overall he said they dont dispense a whole lot of Pain Meds but does see a ton of generic ambien
PPLPMDL0020000001	Uniontown	OH	44685	8/2/2013	Spoke to Amanda the pharmacy technician about products. Pharmacist was too busy. Explained all three product key selling messages and asked if he sees Butrans and OxyContin prescriptions coming in and who they are from? Amanda said that they see Butrans and OxyContin from Fouad and Lababidi and Jones. Discussed formulary for products and made sure they doses are stocked which they were.
PPLPMDL0020000001	Cleveland	OH	44130	8/2/2013	Quick introduction call. Reminded of flexible dosing for OxyContin. Shared Maria profile for butrans. Gave indication and limitation of use for intermezzo
PPLPMDL0020000001	Akron	OH	44305	8/2/2013	Good discussion on OxyContin and Butrans. I discussed in detail the OxyContin start principles and asked him about his thoughts. Dr said that about 1 in 10 patients he will need to reduce the dose of OxyContin. I asked dr what triggers he uses to determine the need for an ER opioid? Dr said he uses pain scales but relies mostly on his discussion with the patient to assess their functional mobility and pain level. Dr said he really likes OxyContin and has good results. I showed dr the conversion scales and asked him to switch his patients on Percocet and IR oxycodone to OxyContin for q12h dosing. Dr agreed. I asked dr if he believes there is a place for Butrans in his practice? Dr said maybe. I asked dr to think of OxyContin for severe pain and Butrans for more moderate pain. Followed that up with indications for each product. I told dr that a patients like Scott and nancy are candidates for Butrans because they are a little earlier on in their pain treatment. Dr took the nancy profile and studied and dosing and conversions then asked me to review dosing and steady state with him. Finished with formulary and asked for business. Dr said he will try it.
PPLPMDL0020000001	Garfield Hts	OH	44125	8/5/2013	Spoke with Ed,filling in, said OxyContin prescribers include pain group(Abraham, Samuel, some Ortho at Surgery center) Butrans for those Tramadol failures, and Intermezzo for MOTNA/dosing. Alot of generic ambien
PPLPMDL0020000001	Akron	OH	44333	8/5/2013	Quick call I between procedures. Told dr to continue identifying the right patients for Butrans and gave him review of Scott and nancy. Dr said he needed more oxycotin copy cards and said he has found it easy to switch patients from Percocet to OxyContin. I told him to continue to do the same and reminded of managed care with Medicare D. Intermezzo review of patient types. Dr said he is continuing to talk about intermezzo with his Left Info/Cards requested-General Surgeons/Ortho(Lopresti, Levine,O'brien Gemma,Forcier, Elkhari Pantec, Peralta-CCF(Lichenberger,Rapuri,Sergento,Nowak, Love, Hauer=Kaiser surgeons) Left cards and info for Nursing Staff/Clinicians
PPLPMDL0020000001	Garfield Hts	OH	44125	8/5/2013	I received a phone call from Maria Faraci, who was calling for Joan Southard, confirming the in-service on pain documentation for 8/13 @ 2:30
PPLPMDL0020000001	Richmond Heights	OH	44143	8/5/2013	I asked Donna the pharmacist if she has begun seeing more Butrans? Donna said they have a handful of patients on it and all say they are doing well. I told Donna about the dosing and titration as well as supplemental analgesia. I reviewed the formulary coverage for Butrans and Medicare D for OxyContin. Showed Donna the conversion and titration guide and asked her if she is moving the 10mg? Donna said they are filling the 10, 20 and 40 mg the most. Discussed intermezzo indication and asked if she has dispensed any? Donna said she has not but the other pharmacists may have.
PPLPMDL0020000001	Fairlawn	OH	44333	8/5/2013	Spoke with Jessica the pharmacist about the new piece on OxyContin reformulation clinical studies. Jessica said she was glad to get it and that she will review it. I asked her about her OxyContin and Butrans prescriptions and who is writing? Jessica said she sees many patient in for OxyContin refills and that she has been getting a to of refills. I asked about doses she sees the most and she said surprisingly the 10mg is frequent along with 20 and 30mg. Hjessica said she sees lots of prescriptions from pain management in Fairlawn and Cuyahoga falls for OxyContin and Butrans. Explained Butrans patient types and appropriate dosing and titration. Reviewed the intermezzo indication and patient types.
PPLPMDL0020000001	Stow	OH	44224	8/5/2013	Dr told me that he has had good success recently with Butrans. I asked him to tell me about it and he said that he started it for a patient that was taking vicoden and wanted more. Dr said the patient came in for a follow up and was raving about how well it was working. I asked for continued use and discussed all three patient profiles and asked dr based on the doses of the profiled patients which dose he should initiate? Dr knew all correct dosing. Explained steady state, titration and use of supplemental analgesia. Discussed the new OxyContin piece about abuse deterrent studies. I asked asked dr for continued use when patients are appropriate for q12h dosing. Discussed copy cards for OxyContin and Butrans. Intermezzo indication, patient profiles and limitations of use.
PPLPMDL0020000001	Hudson	OH	44236	8/5/2013	Good discussion surrounding appropriate candidates for Butrans. I presented all the case studies and quizzed him on starting doses based on daily doses of the patients current IR therapy. Dr knows where to initiate and said he has also had good success along with dr Russ with Butrans. I asked him where and why he used it. Dr said he uses it when he knows he is treating a chronic condition and the short acting isn't cutting it. Dr said he tells the patients they need a more controlled release medcine instead of taking pills all day. Dr said Butrans gets rarest reviews from the patients on it. I asked dr to use it more often. Discussed the new OxyContin piece on abuse deterrent studies. Dr read it over and liked what he saw and will review it. Dr said he doesn't really use OxyContin unless the patient is failing Percocet or asks for something more long acting. I showed dr the conversion guide and showed him the conversions and titration every 1-3 days. Intermezzo dosing and indication.
PPLPMDL0020000001	Akron	OH	44333	8/5/2013	Quick hello at window and told dr that he can initiate Butrans for any patient on tramadol or vicoden who needs a dose adjustment. I told dr to titrate to 20mcg if the patient needs additional efficacy. I handed him the new OxyContin abuse deterrent studies and told him to review after we discussed it a month ago. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44127	8/5/2013	Reminded of Butrans for those Ultram/Tramadol failures, showed Scott profile. Dr. agreed. Intermezzo for MOTNA/dosing, reminded of Trial/Savings
PPLPMDL0020000001	Cleveland	OH	44125	8/5/2013	Went over OxyContin Q12h dosing, flexible dosing strengths and savings cards. Butrans for those Tramadol failures, before they start on short acting around the clock
PPLPMDL0020000001	Akron	OH	44313	8/5/2013	Quick hello at window and gave him the OxyContin and Butrans conversion guides. I told dr that he needs to be switching up his Percocet patients to OxyContin q12h and Butrans for his NSAID, tramadol and vicoden patients. Gave him OxyContin managed care cards. Dr said he knows he needs to start making some changes for his patients.
PPLPMDL0020000001	Mayfield Heights	OH	44124	8/5/2013	Made a drop-in visit to speak w/ Staff Development Coord., MaryAnne. Spoke w/receptionist, Theresa who said, " MaryAnne is here, but she is not available." I left Purdue educational offerings and my BC
PPLPMDL0020000001	Hudson	OH	44236	8/5/2013	Discussed with dr where he is using OxyContin and if it makes sense to him to have patients on Percocet to be on q12h oxycodone? Dr said he would rather have more of his patients on ER products but finds it difficult because his patients want IR opioids. I told dr that he should be explaining to his patients the differences between what they are taking and OxyContin. I reviewed the start principles and he said he agreed but does not adjust the dose down often. I asked for more business. I asked dr if he is going to prescribe Butrans and what's holding him up? Dr said he considers it but just hasn't written it. I told dr to pull the trigger and asked what the real reason is he hasn't prescribed? Dr pa said because he doesn't want to take the time to explain the product. I showed dr the patient information guide and told him to briefly explain the product then hand them the information guide and tell them to read it. That's it! Dr agreed and said he should be writing it because the short citing isn't good for most people for a long period of time. Explained profiles and asked him to prescribe. Intermezzo dosing and profile discussion and asked him to get some out to his patients who meet the indication.
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	OxyContin Q12h dosing, Butrans for those tramadol failures and Intermezzo for MOTNA, Justin continues to be a resource
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Discussed OxyContin reformulation and its misuse/abuse properties, Dr. agreed and continues to prescribe less overall Opiods. Went over Butrans for those Tramadol failures, and reviewed dosing/titration, Asked for a new start, he continues to seek appropriate patients, struggles with PA, 75% of practice is managed medicalidntermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44310	8/6/2013	Spoke with Char with Phil Cremer about Butrans and OxyContin. I asked char about where the patients are coming from that they treat? Char said most come from within their own organization North Star Orthopedics. Discussed how their own existing patients can fit right well go Butrans. I asked which short acting medicines they see their patients on most and she said vicoden and Percocet. I asked if she sees patients on NSAIDs or tramadol? Char said yes but not as much as the others. I showed her the Butrans profiles and asked her opinion on correct starting doses. I told char that dr Cremer knows Butrans is right up his alley but he just needs to make it happen by identifying the appropriate patient types. Discussed using OxyContin for the Percocet patients instead of referring them to another pain management practice. Char said that dr Cremer does not feel comfortable prescribing OxyContin due to the area they are in an the abuse it may bring. Explained conversions form Percocet 20mg. I left char with patient profiles for drs review
PPLPMDL0020000001	Cleveland	OH	44129	8/6/2013	Spoke with Marko about Butrans proper application. Discussed OxyContin start principle. Shared intermezzo dosing and administration. Discussed relay health and vouchers. Discussed h managed care environment
PPLPMDL0020000001	Akron	OH	44320	8/6/2013	Led with partial insight for managed care and told dr that based on the us census bureau the approximate number of baby boomers will be turning 65 in the next 17 years and getting MedicareD coverage. I asked dr how she will adjust for that? Dr didn't know what to say so I told her that Purdue will be working very hard to ensure appropriate levels of Medicare D will have coverage.I discussed with her about the Butrans PA's she has been able to get pushed through and discussed Caresource coverage as well as BWC. Reviewed all three Butrans patient profiles and reviewed appropriate starting doses. I asked dr to take the time necessary to ensure the patient is on the right medicine and to use more Butrans. Asked dr to use the patient information guide to aid her in the patients knowledge of the product. I asked dr to use OxyContin for her Percocet patients
PPLPMDL0020000001	Akron	OH	44333	8/6/2013	I sent an e-mail to Ramona Watson requesting that she confirm that she recv'd the list of in-service topics, which she requested and to schedule an in-service.
PPLPMDL0020000001	Akron	OH	44320	8/6/2013	I told dr that the last time we spoke we discussed a prescription that he wrote and how it required a PA. I asked him if it got approved and dr said he can't remember. Dr said he refilled Butrans this week and asked him along with Phil Cremer what the patient was on prior to starting Butrans and dr again said he couldn't remember. I asked dr the next time he has a tramadol patient who is on it around the clock and needs a dose adjustment to stop and think about the other options available like Butrans. I asked dr since he had good success previously that it should inspire him to prescribe more often. Dr said it does. Nothing else learned.
PPLPMDL0020000001	Euclid	OH	44117	8/6/2013	I sent an e-mail to D.O.N., Kathy Nemeth requesting to present an in-service on Butran's to her nursing staff.
PPLPMDL0020000001	Parma	OH	44134	8/6/2013	I sent an e-mail to Linda Belford in Staff Development to request a follow-up meeting w/ the NP's on the Butran's in-service I completed on 7/2 A Butrans follow-up luncheon is scheduled w/ the NP's for 9/24 @12noon.
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Visited 5th floor Ortho floor attempting to set-up inservice with nurse staff, Left info/card for Carlos to book in-service
PPLPMDL0020000001	Cleveland	OH	44119	8/6/2013	I recv'd a call from ADM, Nancy Sugarman, Meeting cancelled for today and rescheduled for 8/20 @ 10am to introduce Purdue's NE program.
PPLPMDL0020000001	Chagrin Falls	OH	44022	8/6/2013	I sent an e-mail to ADON, Nancy Virginia requesting a meeting to introduce Purdue's Nurse Educator Program.
PPLPMDL0020000001	Independence	OH	44131	8/6/2013	Spoke with Linda about scheduling time with Roman. She said he is not available today but she would pass information forward. Extended invitation
PPLPMDL0020000001	Independence	OH	44131	8/6/2013	Extended invitation and spoke with Linda about lungc because dr is on vacation for the duration of the week
PPLPMDL0020000001	Westlake	OH	44145	8/6/2013	I Placed a phone call to ADON, Brenda Amburgey to set up an appt, to meet w/ her to introduce Purdue's Nurse Educator program & discuss educational opportunities. N/A , left msg. on her voice-mail
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Visited Pharm. left card and OxyContin/Butrans info
PPLPMDL0020000001	Twinsburg	OH	44087	8/6/2013	Placed a Follow-up phone call to D.O.N., Shawn McMahon, to discuss educational in-service opportunities. I recv'd his voice-mail. N/A, I left msg.
PPLPMDL0020000001	Cleveland	OH	44135	8/6/2013	I placed a phone call to D.O.N., Dan Rivera to discuss educational in-service opportunities and to see if he recv'd an approval to utilize our Nurse Educator Program from the regional office. I was informed by the receptionist that Dan was in a meeting.I left a message on his voice-mail.
PPLPMDL0020000001	Beachwood	OH	44122	8/6/2013	I placed a phone call to Nurse Educator, Merri Bunge to talk w/ her about re-scheduling the pain management in-service. I recv'd her voice-mail. I left a msg.
PPLPMDL0020000001	Fairlawn	OH	44333	8/6/2013	I Placed a phone call to the D.O.N., Deborah Shaffer to re-introduce Purdue's Nurse Educator Program and see if she is now able to schedule education. N/A, I left her a msg. on her voice mail.
PPLPMDL0020000001	Independence	OH	44131	8/6/2013	Spoke with Jill and she let me introduce myself to the doctor and extend an invite to the butrans program. Discussed flexible dosing of OxyContin

	Akron	OH	44312	8/6/2013	I told dr that there are two things I needed to talk with dr about and they are OxyContin and Butrans. Dr said he prescribed an OxyContin prescription today. Dr confirmed with his nurse Theresa that he prescribed today. I asked dr what the patient was on before he prescribed OxyContin. Dr said it was actually a refill for it today. I asked dr to continue identifying patients on Percocet for OxyContin. I told dr that he may very well have a tramadol patient in his next exam room who may be appropriate for Butrans. Dr agreed and said he will remember the product.
PPLPMDL0020000001	Solon	OH	44139	8/6/2013	I placed a phone call to Judith Sawtner to re-schedule the in-service on Pain cancelled on 6/7. I rec'd her voice-mail, I left a msg.
PPLPMDL0020000001	Independence	OH	44131	8/6/2013	Discussed butrans for patients on low dose Vicodin or Percocet and he said he would consider. Discussed flexible dosing of OxyContin only for this patients he feels comfortable treating. Reviewed Intermezzo dosing and administration.
PPLPMDL0020000001	Fairlawn	OH	44333	8/6/2013	I placed a phone call to Michelle Williams in Staff Development to schedule an in-service on Pain management for her nursing Staff. An in-service was scheduled for 9/25 @ 2PM
PPLPMDL0020000001	Beachwood	OH	44122	8/6/2013	Reviewed titration guide with pain management. Discussed the butrans experience program and vouchers. Reminded staff of Percocet patients that are appropriate for OxyContin. Discussed the start program for OxyContin. Shared intermezzo dosing and administration
PPLPMDL0020000001	Warrensville	OH	44122	8/6/2013	Discussed caesurose criteria for butrans. Reviewed flexible dosing of OxyContin. Shared intermezzo indication and limitation of use. Reviewed insurance plans with barb.
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Reminded of Butrans for those LorTab failures, she is finding new patients everyday, invited to upcoming Moufawad program and will be attending. Intermezzo for MOTNA and dosing
PPLPMDL0020000001	Akron	OH	44310	8/6/2013	Called on pharmacy with Phil Cremer. Attempted to speak with pharmacist but was told they were too busy. Spoke with technician Tiffany about all three products and explained what they were. Tiffany was yelled at by pharmacist while we were talking and said that he needs her back to work.
PPLPMDL0020000001	Independence	OH	44131	8/6/2013	Spoke with tech, Angela because pharm it's was busy. Discussed proper application of Butrans and vouchers. Reviewed flexible dosing of OxyContin. Discussed indication and limitation of use for Intermezzo
PPLPMDL0020000001	Lyndhurst	OH	44124	8/6/2013	I placed a call to the Staff Development Office to speak w/ the head of education to introduce purdue's Nurse Educator Program. N/A I left a msg.
PPLPMDL0020000001	North Olmsted	OH	44070	8/6/2013	I placed a call to speak with Nurse Managers, Jo & Danette and introduce Purdue's NE program and discuss educational in-service opportunities. I spoke with the receptionist, Sara who stated, that Jo & Danette are not in their office, she connected me with Jo @ ext. 4023. N/A, I left a msg.
PPLPMDL0020000001	Bedford	OH	44146	8/6/2013	Dr back from vacation and gave him a Butrans reminder for patients on low dose Vicodin or Percocet. Reminded him of OxyContin flexible dosing. Gave intermezzo indication and limitation of use.
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Discussed Butrans for those Tramadol failures, Dr. agreed, likes delivery system. Discussed Intermezzo for MOTNA and Trial cards.
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Reminded of Butrans for those Tramadol/Lortab failures. Dr. agreed, invited to upcoming Moufawad program. Intermezzo for MOTNA and dosing
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/6/2013	Good discussion with dr about Butrans and OxyContin. I asked dr about what triggers him to think Butrans? Dr said that he finds Butrans as a great medicine for his patients that need a controlled release moderate dose opioid. Dr said that uses it for his elderly population who wants to put a patch on and forget about it. Dr said that most of his patients start on the 5mgc and have good success with the 10mgc. Dr said he uses the 20mgc but its not needed very often. Discussed dr using Butrans for his patients on tramadol and discussed dosing. Dr thanked me for the Butrans and OxyContin in services and said his staff got a lot of information from them. Dr said he is looking forward to the managed care in-service. I asked to continue prescribing and he agreed.
PPLPMDL0020000001	Westlake	OH	44145	8/6/2013	I placed a phone call to speak w/ the D.O.N., Liz Williams to schedule an in-service on pain. I spoke with the receptionist Casey, who informed me that as of last Friday 8/2, Liz Williams no longer works there. Casey stated, " Rachel Kelly the ADON is in charge until the new D.O.N starts." Casey was not sure of the D.O.N's name. I left a voice-mail for the ADON, Rachel Kelly
PPLPMDL0020000001	Cleveland	OH	44113	8/6/2013	Reiterated Butrans position for those Tramadol/Lortab failures and Intermezzo for MOTNA/dosing. Deb says she continues to find Butrans patients and PA are getting better at times. Will be attending Moufawad program
PPLPMDL0020000001	Cleveland	OH	44114	8/6/2013	Reviewed Butrans for Tramadol failures, Initiation/dosing, invited to upcoming Moufawad program-she will attend. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44333	8/6/2013	Discussion w/ dr about his use of Butrans and OxyContin. Dr said he has great success with the 10mgc dose of Butrans and finds that his population is mostly his elderly men and women. I used part of the managed care insight about baby boomers reaching age 65 that will be entering Medicare D. I told dr about the new Butrans Medicare D coverage and how he can focus on that patient population. Dr admitted to not using Butrans on too many younger patients but does believe it will work. I asked dr to use OxyContin for his patients on Percocet and that he needs to make the decision to use OxyContin instead of other ER opioids if there is a level playing field on formulary. Dr agreed to do that.
PPLPMDL0020000001	Bedford	OH	44146	8/6/2013	I placed a phone call to speak w/ the D.O.N., Jackie Conner and introduce Purdue's Nurse Educator Program. I was informed by the receptionist that Jackie was rounding. I left a msg. on her voice-mail.
PPLPMDL0020000001	Cleveland	OH	44122	8/6/2013	I received a phone call from Francine Young in Staff Development, stating she needed to cancel the in-service on constipation for today. She said, " we were cited for abuse and we only have until this Friday to complete a plan of correction in writing." The in-service was rescheduled for Tuesday 9/10 @2PM
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/7/2013	Dr asked what was new? We discussed returning from training and what he knew of Purdue. Doctor said he knows very little about the company but said they treat pain. I asked his experience with writing butrans. Dr said very little. I asked him what type of patient came to minds when he just said that. Doctor said those pain patients. I said which pain patients do you have more then one kind? Dr. Shrugged shoulders. Reviewed That Butrans was indicated for the management of mod to sev chronic pain when a continuous around the clock opioid analgesic is needed for an extended period of time. I made mention of the naive FDA approved study. In terms of what they were taking prior to Butrans therapy (non opioids). I asked have you seen patients like that that just need a different course of action in pain relief. He said yes. I said Butrans is a schedule 3 option and it still comes with those warnings and precautions like abuse potential and respiratory depression. However, it's a 7 day transdermal option for those tramadol patients and would schedule a lunch to review the process of getting them into the app dose of Butrans. Dr was interested in intermezzo and wanted to know why managed care would allow intermezzo after a product w the same molecule failed. I said good point, and I would see if I could find out more. Dr said he has many patients that fit intermezzo indication but hasn't written it. Reviewed dosing and savings program. Did let doctor know about side effects. <font color=blue><b>CHUDAKOB added notes on 08/08/2013</b></font>-Lisa, remember that when you mark that you spoke of all three products, our call notes should reflect some information relating to what you discussed about all three product. OxyContin was missing from your call notes.<font color=green><b>BARTOLI's response on 08/08/2013</b></font>-Ok, I understand<font color=blue><b>CHUDAKOB added notes on 08/12/2013</b></font>-Thank you!
PPLPMDL0020000001	Cleveland	OH	44106	8/7/2013	OxyContin reminder, q12h dosing & flexible dosing strengths, Butrans for those Tramadol failures, said he has prescribed for a few patients & doing well. Invited to upcoming Dr. Moufawad program. Booked lunch with Terrah & dept
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/7/2013	I asked dr if she has patients on NSAIDs or tramadol? Dr said she does. I explained Butrans key selling messages focusing on appropriate patient types and dosing of Butrans. I told her that when a patient on tramadol needs a dose adjustment and had chronic pain, what clinical justification is there to titrate or go to another IR opioid? Dr said she can see whe Butrans fits and likes that its a schedule 3. Dr said she will find it useful for her older patients who don't want or can't remember to take their pills. Discussed OxyContin and the need for a q12h oxycodone and asked her to switch Percocet patients to OxyContin. Discussed intermezzo dosing, indication and limitations of use. Dr said she likes the idea but its hard to beat the clock of Ambien. I discussed the formulary and asked for clinical experience.
PPLPMDL0020000001	Akron	OH	44304	8/7/2013	Presented Butrans and OxyContin along with intermezzo. Gave all key selling messages for Butrans and he told me he has heard about it before. Dr said he probably won't use it but asked me if the specialists are using it? I asked him who he refers to and he told me narouzes' group. I told dr to call him and ask him about it. Gave dr OxyContin overview and abuse deterrent studies. Explained appropriate patient type for OxyContin. Discussed intermezzo indication, dosing, and limitations of use.
PPLPMDL0020000001	Cleveland	OH	44104	8/7/2013	Window call, Invited Dr. to upcoming Moufawad Butrans program, said she will check schedule, also she has a patient on Butrans that is doing well. Reminded of Intermezzo for MOTNA.
PPLPMDL0020000001	Valley View	OH	44125	8/7/2013	Followed up with Aaron in regards to key prescribers of OxyContin and Butrans, said he will try to run a list in the next week or so. Also if he/staff had any opportunities to suggest utilization, said at this point opportunity is not presenting itself. Will keep in mind
PPLPMDL0020000001	Parma	OH	44129	8/7/2013	Quick call on dr while I was talking to other physician. Described appropriate butrans patient profile nancy. Reviewed flexible dosing of OxyContin
PPLPMDL0020000001	Westlake	OH	44145	8/7/2013	I rec'd a return phone call from ADON, Brenda Amburgey, who voiced interest in Purdue's Nurse Educator Program. An appt. was set up w/ her for August 16th @ 10AM to discuss her facilities needs and the program further.
PPLPMDL0020000001	Akron	OH	44320	8/7/2013	Pharmacy was packed so I discussed products with the technician Sam. Discussed Butrans dosing, schedule, and patient types along with conversions. Sam said they have been filling it and patients have not told them anything bad about it. OxyContin dosing, indication, and conversions. Sam said he sees it but most are refills.
PPLPMDL0020000001	Cleveland	OH	44106	8/7/2013	Saw Dr. in hallway, said he still hasn't started anyone on Butrans but is looking, invited to upcoming Moufawad program on the 21st
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/7/2013	Saw the nurse thru the window- introduced self and scheduled lunch. Brief discussion on Butrans- she never heard of it. I stated the indication and that it was a transdermal patch. rn talked to dr velez if he wanted any coupons which he said no.
PPLPMDL0020000001	Westlake	OH	44145	8/7/2013	Introduced Purdue to Dr and Val the (ma)- never heard of it before thought it was the chicken company. I explain my role, not as a sample dropper and someone to provide value as you find approp patients for our products. Dr. said- she has little experience writing butrans. I asked how she goes about treaing patients that have around the clock pain and she treats for an extended period of time chronically. Dr said she will manage pain patients like back pain but if she feels they are too severe they get refered out. We discussed her patients in office, dr. said back pain was a biggie. Reviewed with doctor the on the visual aid and asked if she identified with any of these doses that she might have written for her back pain patients. Dr. said yes. I reviewed the appropriate Butrans starting doses. Asked the doctor why she wouldn't choose Butrans 5mgc for the patients discussed. Dr. shook and shrugged shoulders. Revied how to apply/where to apply the patches and that application sight was a commonly reported a/e. Quick review on titration. Oxy didn't get much discussion- dr. said she referred "those patients out. Left leave behind information and will discuss at a lunch with more time. Quick review of intermezzo. Dr. said she heard of it and inquired on managed care. I gave a quick review of the savings program and the Pa's that are required on her plans. Dr was not aware of the use, nor the gender specific dosing, yet did recall it was sublingual. I mentioned that it was prego <font color=blue><b>CHUDAKOB added notes on 08/18/2013</b></font>-Lisa, this was a really good call note! I really felt like I was in the call. I think your next call objective on the efficacy data is right on as well. If she doesn't believe it will work, managed care doesn't Met Nurse (rita)- she said that the doctor doesn't write my products. I said "any" she said not much. I asked if she thought the doctor treated patients that have ongoing back pain or chronic osetoarthritis? She said he does treat that but I have to book a lunch to see him. Left oxycontin slim jim and Butrans patient information booklets for the doctor.<font color=blue><b>CHUDAKOB added notes on 08/18/2013</b></font>-Lisa, This would be considered a non-HCP call since you did not see the physician.
PPLPMDL0020000001	Westlake	OH	44145	8/7/2013	Quick introduction to dr and gave her Butrans titration guide and asked her to think of patients on low doses of Vicodin or Percocet that are in need of a dose adjustment. Explained oxycontin had flexible dosing. Gave intermezzo indication and limitation of use
PPLPMDL0020000001	Parma	OH	44129	8/7/2013	Short call with dr about Butrans. I asked him if it is a fair assumption that he has patients on NSAIDs or tramadol around the clock? Dr said he had both but not many. I showed him the profiles and asked him instead of titrating the IR opioid when a dose adjustment is needed to initiate Butrans. Explained the conversion scale to discuss appropriate starting dose and titration. I asked dr to just try Butrans. Dr said he will keep it in mind, met with Rita (one of the 2 pharmacists)- introduction to self and asked about stocking. They do not stock butrans at this location, but could be ordered she said. She has not seen any scripts come thru for Butrans. She stocks limited doses of Oxycontin, has seen some scripts but couldn't recall who. I provided butrans overview that it was a 7 day transdermal patch with the indication. She was aware. We reviewed when patients could titrate, she did not know when to titrate with Butrans. Also covered the a/e Risks with Butrans (Respiratory Depression and Abuse potential)- she was aware. Talked about education of patients moving from a non opioid analgesia to butrans. Gave pharma the initiation guide. Pharmacist just had a script come thru with CareMark which needed a pa, which got switched back to a 10mg of ambien. She said she faxed the request to the office and they faxed the confirmation to switch back to them. She didn't release the doctors name who wrote the script. We reviewed Id the mg of intermezzo men vs. women, she was unaware. Rita asked if it was the same as ambien. I stated that no head to head studies have been conducted therefore i could't state. However, it is the the first and only for its indication (state). Rita did not know the indication. Rita said intermezzo has horrible formulary coverage and she has yet to fill one script.
PPLPMDL0020000001	North Olmsted	OH	44070	8/7/2013	
PPLPMDL0020000001					

PPLPMDL0020000001	Olmsted Falls	OH	44138	8/7/2013	Spoke to ray (floating pharmacist today)- introduction of self and asked how familiar he was with Butrans. Pharmacist said he has not seen any scripts come thru in a while. When specified...he said months. I asked the pharmacist about who in the area did he see scripts coming from in terms of pain management. Pharmacists mentioned dr. Ludwig but couldn't think of any off hand. Reviewed with the pharmacist the indication of Butrans and showed via the detail aid where patients can apply the transdermal patch. I asked how often he sees patients being moved from a 5 mcg to the ten mcg in any of the regions he works. The pharmacist said he never noticed because he doesn't see much written. I reviewed with the pharmacist that Butrans is a 7 days transdermal and titration can occur by day 3 (72 hours). Also balanced on ae's and even those it is a schedule 3, it still has abuse potential and respiratory depression. OxyContin- pharmacist ray said they stocks very limited amounts of it. Pharmacist did not provided stocking details. When showed the avail mg's on my detail aid, pharmacist asked if OxyContin was going generic. I stated that oxycontin branded patient has been extended and their is no ab rated available. Reviewed the indication and portions of the limitations such as not for patients taking it prn or pain that is acute in nature. Intermezzo- not much time left for big discussion. I did go thru the dosage for men vs. women and its indication for use. Pharmacist nodded.<font color=blue><b>CHUDAKOB added notes on 08/08/2013></b></font>This looked like a very nice call Lisa. One point of clarification is that our branded patent has not been extended. The FDA ruled that any generics to a long-acting opioid have abuse-deterrent Met dr for first time and asked about his theory of prescribing medicine for pain? Dr said he doesn't have a problem with it and mostly prescribes them for his over 65 market who he believes are legitimate and won't abuse the medicine. Dr said he has used fentanyl before and asked me to compare them. I told them that there are no head to head studies but I can't however asked him where in treatment has he used fentanyl? Dr said mostly when patients fail 2 or more IR opioids. I explained where he should be putting Butrans in his treatment algorithm. Discuss patient profiles and conversions. I asked dr if he will use it? Dr said he might because he likes the low dosing and schedule 3 is nice. Discussed OxyContin dosing, indication, titration and formulary. Dr said he is not opposed to it but has to be very selective on who he prescribes it to. Intermezzo discussion, dosing and Discussed all products and asked her a few questions which she was not interested in answering about her prescribing of pain medicine. I explained all key selling messages for Butrans and reviewed all patient profiles. I asked her if Butrans is a product she would use? Dr said possibly but might refer patients needing it to pain management. I asked her if it is common for her to refer patients failing tramadol to pain mg? Dr said it depends. I told her to use it for her tramadol failures prior to a referral. Discussed OxyContin dosing, patient types, titration and managed care along with insurance for Butrans. I discussed Intermezzo and asked her opinion on it? Dr said that it is pretty hard to be generic zolpidem. I told her the indication and dosing is different and to give it another shot for patients with middle of the night awakenings.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/7/2013	Gave dr the new OxyContin piece about abuse deterrent studies at window. I asked him to review and to begin using the lower doses of OxyContin for patients on low dose vicoden or Percocet who need a dose adjustment. I handed him the conversion guide as well. I asked him if he has reviewed the Butrans information I have left him? Dr said its on his desk. I asked if he has any questions about the product or where it should be used? Dr said no. I told him to use it for his patients on tramadol around the clock and to gain some clinical experience with it. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	8/7/2013	I asked dr about his experience to this point with Butrans and his thoughts on the product. Dr said he likes it and said he probably will be prescribing more once he builds up his patient base. I told him about his tramadol patients being good candidates and showed him the conversion slim Jim. I told dr about the new OxyContin abuse deterrent study handout and asked for his continue use of the product for his Percocet patients.
PPLPMDL0020000001	Cleveland	OH	44106	8/7/2013	Talked with Marge discussed OxyContin patient essential kits, said she thinks its a great resource and will distribute to new patients. Butrans for those Tramadol failures before they start on short acting. Intermezzo for
PPLPMDL0020000001	Parma	OH	44134	8/7/2013	Spoke with Rita about butrans proper application from patient booklet. Reviewed start principle for OxyContin. Discussed indication and limitation of use for intermezzo.
PPLPMDL0020000001	Stow	OH	44224	8/7/2013	Short discussion about him using Butrans for his older adults and asked him how he is differentiating Butrans from OxyContin? Dr said that he uses Butrans for his opioid naive and those on low doses of short acting. Dr said he reserves OxyContin for those who have failed two or more opioids. I showed dr the conversion guide and asked him to consider using OxyContin for his patients over 40 mg of vicoden instead of Percocet. Dr said he has done that before but is tough to get through insurance. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	8/7/2013	Spoke to Kathy (Office Manager) briefly about meeting Christine the PA at the office. She informed me that I can see her via lunch and that she is in the office daily. I scheduled lunches and handed out invites to upcoming dinner program. She asked what samples I brought. I specified that my role is different that the reps that sample and because of the nature of my products it requires me to to stay on top of any concerns or questions that doctors have relating to them so figuring out a way to see the doctors would be helpful.
PPLPMDL0020000001	Stow	OH	44224	8/7/2013	I spoke with dr about the new OxyContin abuse deterrent study piece and told her to review it. I asked her if she has ever taken a patient on 30mg of vicoden for example and moved them straight to OxyContin? Dr said she would and has done it in the past. I showed her the conversion guide and explained the 1:1 ratio from Percocet or IR oxycodone to OxyContin. I asked dr to use more OxyContin instead of refilling Percocet. Dr agreed to do that. I told dr that Butrans is ideal for her patients on NSAIDs or tramadol around the clock who may need a dose adjustment. I told dr the c3 7 day transdermal patch can be used early on in treatment when she knows she is treating a chronic condition. I showed her the NSAID and tramadol case studies and asked her to try it. Dr said it makes sense and will do that.
PPLPMDL0020000001	Munroe Falls	OH	44262	8/7/2013	Gave overview of Butrans efficacy and explained the opioid experienced trial. I asked dr if she feels comfortable that Butrans works? Dr said she does because she has had patients do very well with it. I told her I hope that would inspire her to use it more frequently. I asked her to use OxyContin for her pr patients already on Percocet around the clock for q12h delivery. Discussed Intermezzo indication and showed her the patient type piece. Dr said she likes it but is hard to get covered. I told dr to focus on Caresource.
PPLPMDL0020000001	Parma	OH	44134	8/7/2013	Spoke with Tech about butrans proper application from patient booklet. Reviewed start principle for OxyContin. Discussed indication and limitation of use for intermezzo.
PPLPMDL0020000001	Fairlawn	OH	44333	8/7/2013	Dr came to front desk after I asked to speak with him about the inservice. I updated dr on the schedule date for the Copley health center Butrans inservice. Dr told me that Barbara told him already and it is all set up. I asked dr to gain clinical experience with it for those patients on tramadol and low dose vicoden. Dr said he will try to do that. I have him the slim Jim conversion scale.
PPLPMDL0020000001	Parma	OH	44129	8/7/2013	Spoke with Stephanie about proper butrans application and rotation of sites. Reviewed start principle for OxyContin. Discussed indication and limitation of use for intermezzo.
PPLPMDL0020000001	Akron	OH	44312	8/7/2013	I asked dr if his experience with Butrans has changed since we last spoke and if he has received any positive feedback? Dr said he still believes in Butrans and said he just thinks he needs to be even more selective with his patients. I told dr that his it look is spot on and to use it early on in treatment.
PPLPMDL0020000001	Cleveland	OH	44195	8/8/2013	Talked with Brian, asked if he was aware of the clinical RPH over at JNorth that is affiliated with E-voucher, he said not sure(he mentioned Sabrina)also Dr. Dews as a Butrans prescriber and oncology/palliative care for
PPLPMDL0020000001	Mayfield Village	OH	44143	8/8/2013	First time Ive met with dr. k this year, & since he's joined practice. He's comfortable using Butrans. Went through complete detail with him, CNP Jordan and CNP Bernadette at same time. Used new patient profile piece to share appropriate patient selection. Positioned Butrans as either a first opioid, or conversion from a short acting opioid such as Vicodin, Percocet, Tramadol, when pain has become chronic, and patients keep requesting refills. Presented pain reduction scores from opioid experienced trial. The CNPs very engaged, asked several questions. They only come into office about 1x per month, because they do all hospital visits for the practice. Since Dr. Mukkunda is in India until 8/19, and Dr. Ashraf not in today; they are there helping out. Both Jordan and Bernadette thought the Butrans dosing slider/patient guides to be very helpful. I asked dr is he could think of any patients appropriate for Butrans? He replied yes. I asked him if he'd remember to hand out the trial/savings card, he replied yes.left reformulation piece for dr Jordan and bernadette. they reviewed them while we spoke. I directed them to inside back cover as well, where they could find updated FPI. We also discussed the START principles and addition of 15, 30 and 60 mg doses a few years back. they will keep all doses in mind. they stated the conversion/titration guide, very helpful Intermezzo, prn, MOTN, sublingual, peak plasma, patients must have at least 4 hrs sleep left, Caresource Prior Authoriza
PPLPMDL0020000001	Cleveland	OH	44113	8/8/2013	Met with Dale, covering Ortho today, asked for his assistance in setting up OxyContin in-service with floor nurses, said he will meet and discuss with Carlos-Nurse mgr. Also said he/Shen started a new patient on Butrans and doing well.
PPLPMDL0020000001	Cleveland	OH	44195	8/8/2013	Left Butrans info/invite for upcoming Butrans Moufawad program CNP's=Jones,Paczos,Kirchner,Tuthill, Clark and OxyContin info for MD=Long, Chatterjee, Calabrese Moufawad program invite for Fellows-
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/8/2013	Spoke with Jamie the pharmacist and asked her if she has been filling Butrans? Jamie said they have been filling a lot from the western reserve spine and pain in the falls. Jamie said she filled a 5 mcg Butrans for Jake Sisko just this week and fills a lot for Dr Dmitri and Dr.Sable. I exp,aimed the schedule 3 7 day transdermal patch. Discussed OxyContin dosing and asked about prescriptions and Jamie said that they do fill them mostly for pain management. Jamie said that they filled a recent intermezzo for Daniel Laszlo and have both in stock.
PPLPMDL0020000001	Akron	OH	44312	8/8/2013	Spoke with chuck the pharmacist about all products. I asked him if he has been dispensing Butrans recently? Chuck said he has for a couple of drs. Dr Cain and a pain dr which he could not remember the name. I discussed the Butrans product and reviewed dosing, patients types and conversions. OxyContin dosing and indication along with managed care. Chuck said he has been seeing a lot of rejections and pa's from insurance companies on OxyContin. He said many are Med D plans. Intermezzo indication and dosing information. Chuck has not dispensed.
PPLPMDL0020000001	Akron	OH	44312	8/8/2013	Short call at the window for Butrans. I told dr that he can use Butrans for those patients on NSAIDs and gave him the Maria profile. I told him about the tramadol patients and asked him if he will prescribe again? Dr said he will because his patients are doing fine on it.
PPLPMDL0020000001	Cleveland	OH	44113	8/8/2013	Discussed with Holly/ OxyContin patient kits along with Butrans 7 day transdermal patch. Rescheduled appt with Bilfield/Stearns and Donley with be leaving in Sept
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/8/2013	I met D.O.N., Pam Riter at the PharMerica Symposium on 8/7 and introduced myself and Purdue's NE program. She voiced interest in the educational opportunities that I presented to her. I gave her my BC. Today I dropped by to thank her for talking w/ me yesterday. I was informed that she was in a meeting. I left PAP handouts.
PPLPMDL0020000001	Lyndhurst	OH	44124	8/8/2013	Was able to speak with Karen in between patients. Butrans efficacy, pain reduction scores opioid experienced patients. Butrans added to NP national formulary, she says Diana and medical asst DID forward that info to her the last time I visited.. Also updated her on Butrans now preferred Medco Medicare Part D. Please hand out patient guides or tear sheets prior to patients leaving office. OxyContin, update to section 9.2 of FPI. She will review. Reformulation piece left. Very positive of reformulation and abuse deterrent studies.OxyContin has broad formulary coverage, including Medicare Part D, of which I'm leaving you updated formulary grid.
PPLPMDL0020000001	Cleveland	OH	44143	8/8/2013	Met Jordan for first time today at lunch. Detailed him at same time as Dr. Krishnan and Bernadette Knez. Very interested in all 3 products. Asked a lot of questions. He says he only gets to Mayfield office about 1x per month if that, as he and Bernadette do all hospital visits for their group. He also asked for a Butrans dosing slider and OxyContin conversion/titration guide. Went over efficacy/safety Butrans, complete detail, supplemental analgesia, steady state; OxyContin, reformulation piece, updates to section 9.2 of FPI, START principles, q 12 h recommended dosing, 7 doses available.Titration possible in 1-2 days, as steady state is 24 to 36 hrs. Intermezzo, zolpidem tartrate, sublingual, steady state, gender dosing, prn MOTN insomnia when patients have at least 4 hours bedtime remaining. He will keep all products in mind moving forward. Invited him to 8/21 Moufawad/Farenheit
PPLPMDL0020000001	Mayfield Village	OH	44143	8/8/2013	Detailed Bernadette, Jordan Becker and Dr. Krishnan at same time. Bernadette & Jordan state that they only come into the office in Mayfield about 1 x per month, as they visit the group's patients in hospital. They are in today because Dr. Mukkunda is in India, & Dr. Ashraf off. they were happy to get all information, and Bernadette says she can now write CII and CIII products. She asked for a copy of the Butrans dosing slider/OxyContin conversion/titration guide. she really liked START principles and OxyContin reformulation. She much prefers to use a CII over a CII. She is however, comfortable using both Butrans and OxyContin. Invited her to 8/21 Moufawad program/she'll check her schedule. Intermezzo, PRN, MOTN insomnia, sublingual, peak plasma, highway drive study and why patients must have at least 4 hrs. sleep remaining after taking LZ.
PPLPMDL0020000001	Mayfield Village	OH	44143	8/8/2013	Met with Kristy at lunch. She was very engaged, and allowed me to fully detail all three products. Started with OxyContin, reformulation piece, updates to section 9.2 of FPI. She was very pleased with reformulation. She is more comfortable now initiating OxyContin. Dr. Mukkunda would need to write CII for her. She can write CII and CIV on her own. Presented START principles, q 12 h recommended dosing, 7 doses available for 25-50% increase between doses, steady state: availability to titrate 1-2days based on 24-36 hrs. Butrans, CII 1x week pain patch option for patients with moderate to severe chronic pain, needing ATC analgesia. Opioid naive Ropiod tolerant patients discussed. What doses to start at, max dose 20 mcg hr. She thinks Butrans is good option, and comfortable with initiating. Butrans added to NP national formulary Kristy. Intermezzo:PRN, MOTN insomnia, can match to patient sleep pattern, sublingual, peak plasma, gender dosing. Trial/savings, she will look for in sample clock; keep top of mind for MOTN insomnia patients.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/8/2013	Janet at the forint desk allowed me to see dr Ali for a second in between patients. I asked dr if he will begin using more of the dosing flexibility for OxyContin and use the 10mg doses when patients fail vicoden moderate doses? Dr agreed and said he already tried to do that along with switching patients from Percocet to OxyContin in the hospital. I showed him the Scott profile for Butrans and asked him if he will commit to using it for that patient type? Dr said he knows he should be ding that and said he will.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44113	8/8/2013	Invited to upcoming Butrans Moufawad program, she doesnt usually attend many programs anymore, but will keep it in mind. Reiterated that she believes most of her patients are adequately controlled on present therapy and really doesnt treat many pain patients
PPLPMDL0020000001	Mayfield Village	OH	44124	8/8/2013	Brief product discussions; Indications/limitations for Butrans, OxyContin (reformulation/updates section 9.2 of FPI) and Intermezzo. Left 8/21 Moufawad/Fahrenheit invite.(Penny has injury so didn't eat lunch).
PPLPMDL0020000001	Lyndhurst	OH	44124	8/8/2013	Met with medical assistant at front window, left OxyContin patient essentials kit for dr reed importance of handing out to NEW OxyContin patients. START principles, q 12 h recommended dosing. Butrans, steady state 72 hrs, so supplemental analgesia recommended. Patient guides should be handed out to each Butrans patient. Intermezzo, new tear sheet savings, Facebook page, Intermezzo.com for education and printable savings on those sites
PPLPMDL0020000001	Highland Heights	OH	44143	8/8/2013	Spoke to Mary at front, and checked with Michelle if dr needed any OxyContin savings cards, Michelle said they have some left. Updated staff on Butrans Medco Medicare Part D preferred status, Caresource Prior Auth after failure of just one short acting opioid. Left IZ new tear sheet cards, 1 pack IZ patient guides.
PPLPMDL0020000001	Cleveland	OH	44102	8/8/2013	Met with Ed (Pharm Dir.) discussed OxyContin and his utilization in the hospice setting at his ceter. Stated his/staff confidence in dispensing. Went over Butrans dosing conversion guide, said he has alot of Fentanyl use on hospice side, likes once weekly transdermal delivery system. Has 1 patient over in assisted living ctr across street on Butrans 20mcg/hr (Contact-Rick S.nurse)Nouraldin, Sundrajam- key clinicians
PPLPMDL0020000001	Cleveland	OH	44119	8/9/2013	In service Cleveland Clinic, Euclid Hospital Pain Management, 3rd Floor. Dr. Saeed, Paul Gawry PA-C, nursing staff, head nurse Carla Van Pelt. OxyContin, Butrans, and Intermezzo. OTC products: Senokot, Senokot S.
PPLPMDL0020000001	Euclid	OH	44119	8/9/2013	IN service with nursing staff, Carla and Deborah, then Paul. Sat in Paul's office while waiting for Dr. Saeed to come out of a procedure. Detailed Paul first on OxyContin, and used reformulation piece. Next, used OxyContin conversion/titration guide. First discussed conversion from short acting opioids OxyContin q 12 h, then START principles. Paul says the START principles and overall guide will be very helpful to him. then Butrans, as option for more moderate, chronic pain. Reduction pain scores opioid experienced trial, steady state, supplemental analgesia. Patient guides. Intermezzo, can match sleep patterns for MOTN insomnia patients. 5 day trial with script, and \$45 off each month after. Patient guides left.
PPLPMDL0020000001	Euclid	OH	44119	8/9/2013	Dr please review OxyContin FPI updates to section 9.2, with addition of our abuse deterrent studies. I will leave this reformulation piece if you'd like further information. He said he will look over. Also, I'd like to present you with OxyContin START principles which were designed to help with titration and dosing. Also, this guide will help you when converting patients from short acting opioids to OxyContin q 12 h dosing. Butrans: right away he says where is Butrans covered on Medicare? I told him Medco Medicare Part D just added Butrans as preferred product. For the remainder of his Medicare patients, he will need to use OxyContin, as OxyContin has broad formulary coverage, and while showing Medicare pART d GRID for OxyContin, here's coverage and what your patients can expect to pay for OxyContin PRIOR to applying the \$90 off monthly savings. Dr. Ive left you and your staff additional OxyContin, Butrans and Intermezzo savings cards & patient education. Please keep in mind Intermezzo for your Caresource MOTN insomnia patients. I will see you soon & look forward to following up with you.
PPLPMDL0020000001	Westlake	OH	44145	8/12/2013	Saw dr thru window. Dr asked what I was selling. I said I certainly would not be selling opioid analgesia to anyone but that I was here to see what value I can bring to the office for patients appropriate for OxyContin or Butrans. Dr said he doesn't like my products and I wasn't going to change his mind. Left him the Butrans naive study and OxyCotin titration slim Jim.
PPLPMDL0020000001	Cleveland	OH	44102	8/12/2013	Spoke with Mike(RPh) Reviewed OxyContin Q12h flexible dosing along with Butrans for those Tramadol failures. Still hasn't seen any RX's, suggested assisted living centers
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/12/2013	I was in the area and stopped in to talk w/Christina Miterki to check status on the D.O.N. and scheduling. future in-services. I spoke w/ the receptionist Linda Bergman who informed me that Christina was not in. When I asked about the the D.O.N., she stated, " we are still not sure yet if Debbie Blouslough is returning." I left Purdue educational offerings along w/ my RBC.
PPLPMDL0020000001	Akron	OH	44333	8/12/2013	Dr asked me again about Butrans conversions. I asked why and he said because he had a patient this morning who he initiated on Butrans and couldn't remember the dose ranges. I gave him the conversions slim jim and told him to keep it with him. I told him to remember the 5 mg dosing and the rest is 10mcg. Dr said the patient was taking 30mg of vicoden. I told dr he should initiate on the 20mcg. Explained the patient profiles and managed care coverage. I asked for more business. Discussed OxyContin dosing and the start principles. Dr said he agrees with them and tries to get more and more patients on ER opioids including OxyContin. Gave intermezzo patient profiles and dosing.
PPLPMDL0020000001	Mayfield Village	OH	44143	8/12/2013	Left Joan w OxyContin pharmacists guide. Joan I know you stated you don't stock or dispense OxyContin, however, for your information, I am leaving this guide. I also promote Butrans which is a CIII 1 x week option for chronic pain, 5,10,20 mch hr dosing available. Intermezzo, MOTN insomnia patients, if customers inquire about Intermezzo, they can visit Intermezzo.com, and/or Facebook for further education & printable savings. Was in building at lunch appt, courtesy call.
PPLPMDL0020000001	Westlake	OH	44145	8/12/2013	Spoke to nurse-attempt to introduce Butrans. Nurse was far behind and told me she didn't much about the product and didn't think doctor wrote it. Left Butrans patient brochure behind w my card and scheduled a lunch.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/12/2013	I made drop-in visit and spoke w/ Nancy Straussner, in Staff Development. I talked w/ her about scheduling an in-service on pain management. Nancy stated, "I talked w/ the D.O.N. about Purdue's Nurse Educator Program and she was not interested, that's why I haven't called you. Now she no longer works here, so we are back to square one. I don't know what to tell you." It was agreed that I follow-up again the end of October.
PPLPMDL0020000001	Cleveland	OH	44109	8/12/2013	Visited Pain(Abuse. Dept. Sue) Invised residents and attendings to upcoming Moufawad program. Left Butrans Scott profile. Left message with Dr. Torres for possible fellows in-service
PPLPMDL0020000001	Fairlawn	OH	44333	8/12/2013	Spoke with Gilbert the pharmacist and Sue the technician about OxyContin and if they have been seeing any more. Gilbert said he can count the number of OxyContin prescriptions on one or two hands. Gilbert said there are no patients he has over 30mg. I asked who they see them from and he said various drs in pain management. I asked if he is seeing more prescriptions stopped by insurances? Gilbert said no because he doesn't have enough patients on it. Reviewed Butrans patient types and Sue said they continue to get prescriptions mostly for the 5 mcg but most patients move to the 10mcg. Discussed intermezzo but Gilbert said he hasn't filled any in a long
PPLPMDL0020000001	Fairlawn	OH	44333	8/12/2013	Dr saw my Butrans information over lunch and told me he prescribed it last week. I asked him for the details on what the patient was on prior and why he thought of Butrans? Dr said the patient was taking 15mg a day of Percocet and was not getting enough pain control. Dr said he started on the 10mcg and will titrate to the 20mg if necessary. I explained how he should be looking at starting Butrans earlier on in his treatment of pain and discussed all three patient profiles. Dr said he will keep it in mind and said he should be using more. Discussed using OxyContin 10mg and reviewed doses and the start principles. Discussed insurance coverage for both products and reminded dr about Med D, Caresource, and BWC for Butrans.
PPLPMDL0020000001	Uniontown	OH	44685	8/12/2013	I asked dr any his recent experience with OxyContin and Butrans? Dr said he still sticks with his 30mg of Percocet as when he initiates the q12h OxyContin. Dr said a big part of what he has to do is to clean up the mess that many GP's and internists do to treat their patients pain. I asked dr to explain and he said that many patients have been out on way too many different short acting narcotics. Dr said he uses OxyContin for many of the patients that have severe pain. I discussed doses and asked him if he would use the lower doses? Dr said he does but sees patients much high up in dosing of IR opioids. Discussed Butrans patient types, starting doses and titration. Explained patient types and how he can use it earlier in treatment. Dr said he has had good success with it for his vicoden patients. I discussed formulary and to use it more often. Intermezzo dosing and patient
PPLPMDL0020000001	Berea	OH	44017	8/12/2013	Spoke to Jill (dr Ludwig nurse and spoke to Christine dr powers nurse) regarding if they were familiar with the products. Dr Ludwig was on vacation this week. Brief over view of Butrans schedule 3 and fair balance on limitations (not prn or acute for pain). Jill said dr Ludwig wouldn't use the transdermal patch because he is not good with change. New dr in office dr powers, family practice. Left Fpi OxyCotin and titration guide leave behind for dr and the nurse said that dr has written some, but did not remember when or what mg. brief intermezzo discussion. Nurse Christine identified herself with the indication and said dr powers writes ambien. Left her the gender dosing card. Both nurses handle the prior authorizations.
PPLPMDL0020000001	Westlake	OH	44145	8/12/2013	Spoke to Allison (pharmacist)asked her if she was familiar with Butrans and she was not. Reviewed the limitations, titration and indication. Allison said she had no stock cause it's not written but would come in with in 24 hours. Allison the pharmacist does stock limited strengths of OxyCotin but didn't tell which and wouldn't think off hand which doctors she saw scripts come thru. Review of Intermezzo and the dosage for men/women, fair balance that it was a schedule 4 and any persons with hypersensitivity to Zolpidem should not take Intermezzo. Revised Patient Savings program for Butrans and Intermezzo.
PPLPMDL0020000001	Akron	OH	44333	8/12/2013	Told dr that he needs to be using more Butrans for those patients of his who are not getting enough pain relief or not tolerating tramadol. I attempted to show dr the Scott profile and he told me he knows everything about Butrans. I told him to use Butrans more for those patients instead of titrating the IR if the patient is in chronic pain. Gave dr the formulary grid and reminded him of the Caresource PA.
PPLPMDL0020000001	Lyndhurst	OH	44124	8/12/2013	Spoke with medical assistant at front window, wanted to follow up with Karen on OxyContin START principles, conversion titration guide & 7 doses available for titration. and : how Butrans is working for her patients and if she's titrating up to 20 mcg hr, went over 3 doses available currently, and importance of handing out patient education guides, and trial savings cards to every Butrans patient. Was able to say hello to Karen as she opened door to call patient back. She's running behind as well.
PPLPMDL0020000001	Akron	OH	44333	8/12/2013	Keith Stephanie for the first time as she is a new PA in the office of CPM. Stephanie has seen and heard of Butrans from the doctors in the practice but knows nothing about it. I reviewed all key selling messages and profile types, titration, and pharmacokinetics of Butrans along with patch design. Stephanie said it is a product she would use because it is a schedule 3 and said she likes the patch vs pill formulation. Explained OxyContin as she said she has used it before with success in patients with more severe pain that need a longer acting opioid. Discussed intermezzo indication and dosing.
PPLPMDL0020000001	Richmond Heights	OH	44143	8/12/2013	Left note for Dr Ashraf, stating I missed him at lunch last week, and I hope he enjoyed his vacation. Left info with medical assistant Heather for Dr. K. Newest Butrans piece, with patient profiles, Reviewed Butrans as first opioid or switch to Butrans from short acting opioid that is not controlling patients' chronic pain. OxyContin, left reformulation piece, ask Dr. K to please review section 9.2 of FPI for updates. Intermezzo, left newest HCP (match Intermezzo to patient sleep patterns) leave behind.
PPLPMDL0020000001	akron	OH	44333	8/12/2013	Short discussion on all products. Discussed Butrans patient type identification and showed him the Scott profile once again. I stressed that he needs to look for signs that a patient may be an ER opioid. Dr said that he knows when they get up to 4 pills of vicoden and Percocet to move them to an extended release product. I told dr to start Butrans earlier than that and he can use it for patients naive to opioids who meet the indication. Dr said he will continue to look. Discussed OxyContin and dr said he just put a patient on OxyContin from Percocet because the q12 seemed to make more sense. Discussed start principles and dr agreed. Intermezzo indication and dosing. Dr said he would try to find a patient to trial it on.
PPLPMDL0020000001	Mayfield Village	OH	44040	8/12/2013	Left OxyContin & Intermezzo pharmacists guides. Left savings flashcards, all 3 products. Met w pharmacist Tom Z. Reviewed update to section 9.2 of OxyContin FPI & inclusion of abuse deterrent studies. Tom says reformulation was a positive thing. Stressed importance of q 12 h dosing & we have START principles available for our HCPs. Butrans he says is a good option, and I asked him if he would recommend Butrans to patients who keep asking for refills of Tramadol, Vicodin, Percocet, would he recommend Butrans, yes I will, that's a great idea. Went over 3 doses available, OPIOD alive start dose do 5 mcg hr and opioid experienced of 10 mcg hr, max dose 20 mcg hr. why supplemental analgesia used in clinical studies, steady state 72 hrs, so Butrans analgesia may not kick in for 2-3 days. Intermezzo, he says we have in stock. I've got to tell you something, I don't want to be mean, but Intermezzo is a dog product. No one is writing. I went on to tell him core messages, & should patients inquire due to our Facebook page, his customers can access Intermezzo.com and/ or Facebook, for education & First time meeting Kristen (Pharm D), staff pharmacist. OxyContin, updates to FPI section 9.2, asked her to review, which she will. Also left her pharmacists guide/OxyContin. Asked her if area HCPs follow the recommended dosing guideline of q 12 h. She says some do, but she dispenses a lot of q 8 h. I repeated that our dosing guidelines, state q 12 h. Butrans, CIII 1x week transdermal pain patch. She hasn't had any new Butrans rx in a while. they previously had one patient on Butrans. Discussed steady state and recommended supplemental analgesia for patient initiated on Butrans. Left FPI. Intermezzo, MOTN insomnia agent, core messaging, Intermezzo.com/Facebook for patient education, printable savings. No Intermezzo scripts that she's aware of either.
PPLPMDL0020000001	Cleveland	OH	44113	8/12/2013	Discussed OxyContin Flexible Q12h dosing. Dr. likes efficacy of product. Went over Butrans for Tramadol/Ultram failures. Dr. said he likes product, but PA was denied, under staffed and extremely busy thus hasn't prescribed since. Asked who I should talk with in regards to PA, he suggested isa. Intermezzo for MOTNA/dosing along with Trial/Savings cards.
PPLPMDL0020000001	Fairlawn	OH	44333	8/12/2013	Gave the pharmacy technician all key selling messages on OxyContin, Butrans, and intermezzo. I told Steve the technician about some of the patients who are appropriate for Butrans. Steve said he has seen Butrans and OxyContin but has not seen any intermezzo and didn't know about the product.
PPLPMDL0020000001	Mayfield Village	OH	44143	8/12/2013	Followed up with staff from lunch. Let them know of my discussion with Dr. K at lunch, and that I told him I'd bring trial/savings cards. Brought 2 packs Butrans cards; one for sample closet, one for Dr. Krishnan's desk. reminder that first month trial available if copay less than \$100 (free), then \$50 off each month thereafter. Left with medical assistant Melissa. Product indication, limitations, patient guides. Left OxyContin reformulation piece, newest Butrans patient profiles piece, Intermezzo sleep pattern match HCP leave behind for CNP Penny O'Brien/Black, as well as 8.21 Moufawad/Fahrenheit invite.
PPLPMDL0020000001					

PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/12/2013	I made a drop-in visit to speak w/ D.O.N., Debbie Keller and follow-up from meeting her at the PharMerica Symposium on 8/7. At that time, I introduced myself and Purdue's Nurse Educator program. She stated that she had received the information that I left on previous visits along w/ the voicemails, but has been too busy to respond. She did inform me that she would give me a call. I stopped by today to talk w/ her about scheduling an in-service on pain. I spoke w/ the receptionist who informed me that The D.O.N. was not able to see me. I left my BC and Purdue educational offerings.
PPLPMDL0020000001	University Heights	OH	44121	8/12/2013	Lunch with Dr Price. OxyContin, dr price i have this piece i will leave with you, should you need any further information on OxyContin's reformulation. You've told me more than 1x that you only write OxyContin for cancer pain. Why is that? He responded, Because University Hospitals group is pressuring us to not write any scheduled drugs, and rather, refer those patients to pain management. So what if your patient is suffering from chronic pain? What do you write for them? He responded Tramadol, because its a CIV. I want to remind you that during our last lunch, I presented a CII pain patch option, Butrans. Walked through the newest Butrans piece with patient profiles. Went through all 3 profiles. His concern he then communicated was: Does Butrans fall off when the patient takes shower? I'm not aware of patches falling off in the shower, and I don't have any data to prove/disprove. However, we do have post marketing reports that Butrans has loosened around the edges, for some patients, which can be resolved by applying First Aid tape to edges or bicuslusive/tegaderm over entire patch. Have I answered your question satisfactorily? Yes, he replied. Intermezzo I started to detail. He said, that's that MOTN awakening drug right? Yes Dr. Price, Intermezzo is a sublingual tablet indicated for PRN use when a patient has MOTN insomnia, and has at least 4 hrs bedtime left. Left new HCP match Intermezzo to patients' sleep pattern piece. He will keep in mind for MOTN insomnia.
PPLPMDL0020000001	Lyndhurst	OH	44124	8/12/2013	Dr Roda just started last week, asked to meet her, she's behind today, not possible, met with medical assistant and explained what I was leaving for Dr Roda. First OxyContin, updates to section 9.2 of FPI and reformulation piece. They still have savings cards left. Butrans, 1 x week pain patch, steady state 2 hrs, supplemental analgesia recommended until Butrans takes effect. Have trial/ savings cards. Left 3 patient guides. Intermezzo, MOTN insomnia, Caresource, 5- day trial, monthly savings after. Left Dr HCP packet, with new sleep pattern hcp piece. Also left dr Aug 21 Fahrenheit invite. DR REED ON VACATION, BACK WED
PPLPMDL0020000001	Cleveland	OH	44104	8/12/2013	Hakim was on vacation, Spoke with Jonathan(RPH) Went over OxyContin flexible q12h dosing, Patient essential savings card. Butrans for those Tramadol failures along with Intermezzo for MOTNA
PPLPMDL0020000001	Mayfield Heights	OH	44124	8/12/2013	Hallway detail w Dr Stanescu. Very rushed, not engaged. Only was able to get out indication for all products. Reminded him at last lunch we discussed OxyContin START principles, 7 doses available for tiratOn of 25-50 % between doses. OxyContin has broad formulary coverage for Medicare Part D (showed formulary grid) In addition, I'm leaving you this piece so you can refer to it for further information regarding OxyContin's reformulation & abuse deterrent studies. Butrans CIII 1 x week pain patch option for chronic pain when ATC analgesia needed ATC. Intermezzo, MOTN insomnia agent. Left HCP match patients' sleeping pattern to Intermezzo. Spoke to medical assistant about savings cards, and she says she'll take 1 box OxyContin savings cards I left & place them on Dr. STANESCU's desk.
PPLPMDL0020000001	Akron	OH	44333	8/12/2013	Conversation with Dana after her maternity leave. Discussed Butrans and reviewed all key selling messages. Dana said she has a patient who is on Percocet 15mg/day who admitted to her this week that they are not working and wanted something more long acting. Dana said she explained the Butrans patch to the patient and the patient was interested in starting. Dana said she sees the attention back this week and will look to initiate. Explained the conversions and asked for more business early on in treatment. Discussed OxyContin key selling messages and abuse deterrent studies. Introduced Intermezzo and discussed the indication, dosing and limitations of use. Dana said it sounds like a good product and will look to use. Discussed formulary for all products and asked for continued business.
PPLPMDL0020000001	Akron	OH	44313	8/12/2013	Upon arrival, I spoke w/ the receptionist Nicole, who informed me that the Nurse Educator, Richard Lynch was off sick today, but I was to proceed w/ the in-service. I completed an in-service on constipation for the day shift STNA's. 5 were in attendance. The Senokot laxative protocol was handed out & reviewed w/ the STNA's. Discussion & interaction on the risk factors, signs and symptoms, complications and treatment of constipation took
PPLPMDL0020000001	Westlake	OH	44145	8/13/2013	Spoke to Kim (ma and receptionist)- she was unfamiliar with Butrans. Very brief recap of indication, patch technology and warnings of abuse potential. Introduced OxyContin to her and the dosages available to her. Left Butrans invite and ma said he never goes to them, maybe the ma Brian. Left Butrans naive study for dr to read.
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Dr said his go to pain relief medication is tramadol and sometimes patients come to him on Vicodin. We discussed butrans voucher usage and the importance of using them. Dr said he starts with 10 but rarely goes to 20. He said he uses supplemental analgesia for first 3 days. Asked dr to think of appropriate patients in pain and asked what he see the most of and he said back pain and that is what he said he will look for. Reviewed flexible dosing for OxyContin. Discussed dosing, administration and limitation of use for intermezzo including the managed care environment. Invited to program. Discussed use of senakot
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Extended invitation. Reviewed Scott profile for butrans and asked dr if he used the vouchers on his desk since our last visit and he said no. I asked why not and he said he has not seen an appropriate patient. Asked if he prescribed any pain meds since our last visit and he said yes. I reminded him of the appropriate patient. Reviewed titration of OxyContin. Asked about patients with motna and he said he forgot and brought up managed care again. Reviewed the managed care environment
PPLPMDL0020000001	Westlake	OH	44145	8/13/2013	Met with Kelly (nurse) while discussing Butrans doctor call to window. Dr said she was unfamiliar with Butrans but knew it was for pain. I gave her the op naeve study- opened it and reviewed the highlights. Indication, scheduling, warnings (abuse potential) and that it was the only 7 days extended release transdermal option for appropriate patients. Dr and rn asked about coverage. I showed them the savings program and went back to the section in study (pg 8) shows which mcg to start a new to opioid patient onto the Butrans system. Invited the dr to the Butrans program but she said she has small children and does not attend programs. She is opening her lunch books September 1st. Quick OxyCotin- she was familiar with this product and said she didn't write a lot of it. Gave her titration leave behind. Left Intermezzo driving study behind for her to review.
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Window call. Extended invitation to butrans program. Gave oxycontin flexible dosing reminder.
PPLPMDL0020000001	Akron	OH	44305	8/13/2013	Spoke to Matt the pharmacist about all three products. I discussed Butrans dosing and patient types. Matt said he has not seen any prescriptions lately. I discussed the new managed care coverage and Medicare D plans. Matt was glad that there is now med D plan coverage. I explained OxyContin doses and Matt said he continues to see many prescriptions which many come from dr Petrus. I asked who else and he said many of the pain drs in akron. Intermezzo indication and dosing and asked if he has filled any and he said no.
PPLPMDL0020000001	Richmond Heights	OH	44143	8/13/2013	I made a drop-in visit to follow-up w/ Staff Development Coordinator, Sheila Harris to see if she has talked w/ the D.O.N. to get approval to partake and schedule an educational in-service. I was informed by the receptionist Darlene, "today is not a good day, we are having a state inspection." I left my BC and Purdue educational information and will follow-up.
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Extended invitation. Dr said he refers to dr demagon and I recommended that he attend the program to understand more about butrans. I said he can come with dr demagon. Reviewed OxyContin dosing. Gave indication for Intermezzo
PPLPMDL0020000001	Euclid	OH	44117	8/13/2013	I made a drop-in visit to follow-up on w/ Ruth Rossi on the Butrans in-service. I spoke w/ the receptionist, Lynn who called for Ruth and was told that she was not in the office. I left my BC and Purdue educational offerings.
PPLPMDL0020000001	Lakewood	OH	44107	8/13/2013	Spoke to ma and she stated the drs family is in town this week and to return next week. I left the invite for Butrans program and a Butrans naive study for review. The ma did recognize Butrans and OxyCotin but didn't have time to discuss my products because they had a rep still in the office finishing from lunch.
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Dr should be retiring at the end of the month. Extended invitation to program and Shari said he probably will not attend butrans program. Reviewed flexible dosing of OxyContin.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/13/2013	I asked dr if he is still using OxyContin as his go to ER opioid? Dr said he uses many different products. I asked him if he will use OxyContin for his patients uncontrolled on Percocet? Dr said he will try. I reviewed the commercial and Medicare D coverage.
PPLPMDL0020000001	Cleveland	OH	44128	8/13/2013	I placed a phone call to RoseAnne Howell to confirm the in-service on Pain Documentation for 8/14 @ 6am, 6:30am & 2pm. I left a msg. on her voice-mail. I rec'd a phone call back from RoseAnne, who said, "I am going to have to cancel the in-services for tomorrow. I forgot about them and a lot has been going on. You will have to call the acting D.O.N., Sherry to see if she wants to reschedule." RoseAnne informed me that her position is being eliminated due to financial reasons and she will no longer have a job after 2 weeks.
PPLPMDL0020000001	Akron	OH	44313	8/13/2013	I rec'd a phone call from Richard Lynch, thanking me for the constipation in-service for the STNA's earlier this week. He stated that he rec'd a lot of great positive feedback from the in-service. He will look at his education calendar and call me when he will be educating on Pain.A copy of the sign in sheet was scanned to his e-mail address : rlynch@chs-corp.com
PPLPMDL0020000001	Akron	OH	44310	8/13/2013	Good discussion with dr about Butrans and OxyContin. I told dr that I wanted to reinforce the use of Butrans for his patients that are uncontrolled on tramadol or vicodin. I showed him the patient profiles and asked for his existing patients needing a dose adjustment on one of these medicines. Dr said he just prescribed Butrans the other day for a patient taking 3 Percocet a day at 15mg a day. I asked dr why he chose Butrans? Dr said the patient didn't want to continue waking up in the night to take a pill because he is in pain at night. Dr said he started on the 5mcg but figures the patient will need the 10mcg after the first month because he is in severe pain. I reminded him about steady state and titration. Asked for continued business. I reviewed the OxyContin dosing and patient types that he should move to OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	8/13/2013	Spoke to pharmacist and tech Kristen regarding Butrans and Intermezzo today. Both familiar with Butrans. I discussed titration, steady state for Butrans. And what this means for a patient new to opioid therapy getting started. They were not aware the patients could use supplemental analgesia and why. Review of the appropriate Butrans patient and discussed most common side effects including application site rash. They did not check stocking for me cause they said they were swamped. Left them Butrans study for reference and also highlighted the Intermezzo information on indication, dosage for men n women and gave them the driving study to review.
PPLPMDL0020000001	Lakewood	OH	44107	8/13/2013	Spoke to dr- introduction. Dr said he doesn't write much Butrans because of the confusing titration and he does write for OxyContin. I asked the doctor what doses were working for his patients and he said 10,20,30's. I asked him what he thought of the q12h dosing and dr said that's why he picks it. On Butrans- I asked how is Butrans confusing. Dr said how long you have to wait to titration. When asked how long he waits, he couldn't remember. Reviewed the steady state of the product and that titration is after 3 days(72 hours) review of the insight with discontinuation. And asked the doctor why he though the discontinuation was so high. And dr said Butrans takes too long to work. I brought out the naive study and showed him during the open label that patients were able to supplement and re enforced that a patient should have appropriate analgesia on hand until steady-state is reached in case of break through. Doctor agreed. Dr said he uses a fair amount of Tramadol. And I said I hope that helps the patient, but if it doesn't what's plan b? Dr did not comment. Dr asked about managed care cash paying next and said he has an older population of patients. I said so is cost a deciding factor for you? He said its important. So I showed him the Butrans patient saving program. Told the doctor for his commercial insured patients this was a way for them to get month to month savings and asked if his patients would benefit from this and he said yes. Fair balance on abuse potential.
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Myra just came back from vacation and was running behind. I extended an invitation and reminded her of butrans for patients needing a dose adjustment of pain med. told her I was leaving OxyContin titration guide. Gave indication and limit of use for Intermezzo. Let h know that senokot can be used for opioid induced constipation
PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Gave indication and limitation of use for Intermezzo. Reviewed proper application of butrans and disposal. Discussed titration guide for butrans. Discussed start principles for OxyContin.
PPLPMDL0020000001	Euclid	OH	44117	8/13/2013	I made a drop-in visit to speak w/ Kathy Nemeth to schedule an in-service on Butran's. I spoke w/ the receptionist Joe Nathan, who paged Kathy, She did not respond to her page. I left my BC and called and left a msg. on her voice-mail.
PPLPMDL0020000001	Westlake	OH	44145	8/13/2013	Spoke to ma Kim briefly about office procedures. Brian the np is in beechwood on Tuesdays. Discussed Butrans- what it is and who it is not for (limitations). She thought Brian may go to programs but it depended so I left the Butrans invite for him along with the naive study for his reference.
PPLPMDL0020000001	Parma	OH	44134	8/13/2013	Extended invitation. Discussed flexible dosing of OxyContin. Asked if the vouchers were useful for his butrans patients. Dr said he is having success with butrans but is not sure about vouchers but no news may be good news. Gave i indication and limitation of use for Intermezzo
PPLPMDL0020000001	Uniontown	OH	44685	8/13/2013	Told dr about the OxyContin abuse deterrent studies and asked her if she would use OxyContin for patients not responding to Percocet? Dr said she has and doesn't have a problem with it. I showed her the conversions and reviewed the 1:1 conversion. I asked dr about Butrans usage. Dr said she had not used it because she has not found a patient yet. I asked her what that patient would look like? Dr said someone in chronic pain who doesn't want pills. I told dr that it also is ideal for patient on tramadol who need a dose adjustment and meet the indication. Reviewed the conversions and asked her to not wait. Dr said she will try it but said its not an easy sell to the patient. Discussed proper explanation of the product to the patient.<font color=blue><b>CHUDAKOB's query on 09/02/2013</b></font>Perhaps discussing how to sell this to her patients might help!<font color=green><b>REICHL's response on 09/03/2013</b></font>Agreed. I did that before a while ago and she didn't like me telling her what to do. Most of my customers want that but she didn't!<font color=blue><b></b></font>CHUDAKOB added notes on 09/05/2013<b></b></font>OK. I guess she has to be sold first on the efficacy before she will sell it to her patients.

PPLPMDL0020000001	Parma	OH	44129	8/13/2013	Spoke with Edwin about butrans physicians in the area. He mentioned some of the patients in Parma hospital. Reviewed proper application of butrans patch. Reviewed start principles. Explained proper dosing of intermezzo including indication and limitation of use
	Hudson	OH	44236	8/13/2013	Saw dr at window and asked him if he would switch patients uncontrolled on Percocet to OxyContin q12h? Dr said he had done that but said he doesn't write a lot of schedule 2 medicines. Dr said he wants to leave that up to the socialists. I told dr that he can use the schedule 3 Butrans early on in treatment for pain. Showed him the Maria and Scott profiles and asked if he would use it? Dr said he probably will but will wait for the right patient.<font color=blue><b>CHUDAKOB's query on 09/02/2013</b></font>Re-read your call note. The Dr. wants to leave it up to the socialists?<font color=green><b>REICHCL's response on 09/03/2013</b></font>Ha. Autocorrect is going to get people in trouble which is wrong. I have taken the autocorrect off and made more mistakes. Re-reading is a must I guess but lack of time makes it difficult.<font color=blue><b>CHUDAKOB added notes on 09/05/2013</b></font>Still important to do. Thanks!
	Richmond Heights	OH	44143	8/13/2013	I completed an in-service on Pain Documentation for the nursing staff. 10 were in attendance. The importance of documentation r/t continuity of care, reimbursement, and patient safety was discussed. The parameters of reassessment and documentation were also reviewed with the nursing staff. The Comfort assessment journal was also presented.
	Parma	OH	44129	8/14/2013	Extended invitation. Quickly reviewed butrans appropriate patient profile Scott. Asked about OxyContin experience and she said she has not prescribed at this office since she has been here over the last month. Reviewed intermezzo indication and limitation of use
	Parma	OH	44129	8/14/2013	Dr said he has forgotten about butrans and he should use more. I asked what is stopping him and he said he forgets. I asked if he believed Butrans was a good option for pain relief for appropriate patients and he said yes. I reviewed Scott and nancy and explained that these were appropriate patient types. He said he uses OxyContin but not much and I asked if it made sense to prescribe oxycodone 1-2 pills every 4-6 hours. He said not it really did not make much sense for longterm use. I reviewed the start principle for OxyContin. Gave indication and limitation of use for intermezzo
	Cleveland	OH	44103	8/14/2013	Discussed with Amy (RPH) Butrans for those Tramadol/Ultram failures, said its hard to get patients to change current therapies, believes Butrans is a great option, asked her if she would give Butrans patient info booklets to appropriate patients, she agreed. Expressed PA issue with a patient, couldn't remember the details. Reviewed OxyContin Q12h flexible dosing. Along with intermezzo for MOTNA. Majority of RX for patients are managed
	Akron	OH	44320	8/14/2013	Short discussion about Butrans and OxyContin. I asked dr if he will do a prior authorization if he has one for either product? Dr said he will but it depends on the plan and situation. I told dr that dr Adams has done a number of them for Butrans and got all of them approved. I reviewed the patient types appropriate and the insurance plans that are less likely to provide issues. Dr said he will continue to prescribe. I showed dr the conversions for OxyContin from IR oxycodone and asked him if he can think of any patients that are appropriate for OxyContin? Dr said he does. I asked him to switch the patients.
	CLEVELAND	OH	44106	8/14/2013	Spoke with Troy, inquired about OxyContin utilization and Savings Card. Said that most co-pays for patients are under \$25. Once again mentioned Davis/Gutsgell as key clinicians within institution, said that email or leave card for appts. Asked where/if he sees Butrans being utilized? Does not feel in this setting Butrans is appropriate, but will keep in mind when discussing with clinicians as a option
	Cleveland	OH	44195	8/14/2013	Visited both the Dept of Hospice(T. Guttsell) and Palliative/Oncology Medicine. M.Davis) Spoke with Patricia-Front admin.Email for appt.(T.Howard) Invited to upcoming Moufawad program. Pam-nurse.. Left OxyContin/Butrans info along with OxyContin Savings cards
	Cleveland	OH	44195	8/14/2013	MSL email communication with Ms. Kreischer, new coordinator will be taking over OTR and BUP responsibilities and will be trained over the next week. MSL to follow up once training is complete.
	Parma Heights	OH	44130	8/14/2013	I placed a phone call to D.O.N., Katherine Myers to schedule a meeting to introduce Purdue's Nurse Educator program. N/A, I left a msg. on her voice-mail.
	Akron	OH	44333	8/14/2013	Short discussion with dr in between patients. I told him to use more Butrans for patients he sees who are on tramadol around the clock and need a dose adjustment. Dr said he is still building his patient base and will continue to find the right patients. Told dr to use OxyContin as well and told him to use it for his aliens uncontrolled on Percocet.
	Cleveland	OH	44130	8/14/2013	Spoke with Kelly who explained that the drs are only in wed after 5:30. Was told I could leave information and that dr would be interested in vouchers. Reviewed butrans indication and proper use.
	Akron	OH	44312	8/14/2013	I told dr that the other drs in the office told me that he had an issue with Butrans. Dr told me the only issue was that for some reason the patient couldn't understand how to use it correctly. Dr said the patient had some psychological issues and couldn't understand the concept so he kept the patient on vicoden. Dr did say that it had start a new Butrans this week for a patient on tramadol 300mg and he started on the 5mch because the patient was older. I told dr to continue using Butrans early on in treatment and that is where most of the success will come from. Reviewed the Scott profile. Told dr to continue looking to switch uncontrolled Percocet patients to OxyContin and intermezzo for those who meet the indication.
	Cleveland	OH	44130	8/14/2013	Extended invitation but dr said she will be on vacation until the 23rd. Asked her thoughts on Butrans and she said she has had managed care issues. I reviewed formulary grid and asked her to think of butrans for patients needing a dose adjustment of tramadol. Reviewed flexible dosing of OxyContin. Explained that senakot is used for opioid induced constipation.
	Akron	OH	44320	8/14/2013	I asked dr how she decides a patient needs an ER opioid? Dr said she knows when the patients pain isn't being controlled with short acting and they have been on it for more than three months and they are in to complain of their pain. I asked dr to identify those patients that need a dose adjustment in their IR opioid such as tramadol or vicoden. I asked dr to use Butrans earlier on in treatment and reviewed the insurance coverage. Dr said it is always on her mind because I am in every week! I showed dr the OxyContin conversion and titration guide and asked her if she has patient that she refills Percocet for each month? Dr said yes many patients fit that profile. I asked her if she will re-evaluate those patients to see if they are appropriate for the ER oxycodone. Dr said ok. Gave her the dosing guide for intermezzo and to identify patients.
	Copley	OH	44321	8/14/2013	I asked dr how many patients he has continuing on Butrans? Dr said three or four. I asked dr what markers he uses to determine if a patient needs to be titrated? Dr said he didn't understand the question and if a patient tells him they have 10 out of 10 pain he will believe them and make the adjustment. I asked him if that's all he goes on? Dr said yes. Nothing else learned.
	Cleveland	OH	44103	8/14/2013	Went over OxyContin Q12h flexible dosing. Dr. said he is a confident prescriber,Even know medical director/system is putting pressure to stop prescribing. Reviewed Butrans for Tramadol failures along with dosing/titration. PA's are a challenge to practice. Intermezzo for MOTNA
	Parma	OH	44129	8/14/2013	Spoke with Marianne and Jackie about the butrans tear sheets. Gave dr caresource criteria for butrans approval. Told him I was leaving OxyContin titration guide.
	Cleveland	OH	44127	8/14/2013	Reminded of Butrans for those Tramadol failures along with intermezzo for MOTNA/dosing.
	Parma	OH	44129	8/14/2013	Dr said she had a patient that did not like butrans and I asked her if she tried butrans on a patient and had success and she said yes. I explained that she might want to consider patients in need of a dose change on tramadol. She said she will keep it in mind. She also mentioned having insurance problems and I reviewed the formulary grid. Reviewed flexible dosing of OxyContin. Shared intermezzo dosing and limitation of use. Reviewed senakot s for opioid induced constipation. Extended invitation to program
	Cuyahoga Falls	OH	44223	8/14/2013	I led with the managed care insight and asked her how she will adapt to the large influx of patients over 65? Dr didn't know but said she will need to ensure the medicines she uses are covered by Medicare and plans. Told dr that Butrans and OxyContin are two medicines that have that covered. Discussed all key selling messages for Butrans and asked her to pull the trigger and use it for those patients I discussed from the patient profiles. I asked dr if she has any reservations with Butrans and she said no and that she just needs to remember it. I told her to pause before refilling an IR opioid and evaluate if they would be appropriate for Butrans. Explained OxyContin dosing and abuse deterrent properties. I asked dr to switch uncontrolled patients on Percocet to OxyContin and to use intermezzo when a patient complains about in the middle of the night insomnia.
	Cleveland	OH	44103	8/14/2013	Discussed Intermezzo for MOTNA/dosing. Val/Lauren said Dr.Boyd has alot of patients complaining of waking up in the middle of the night" Although they are understaffed for PA's will consider. Said she is not treating/prescribing pain meds. Reviewed Butrans for those Tramadol/Ultram failures, likes delivery system, reiterated to Val that Butrans has the same misuse/abuse potential as any other CIII opioid
	cuyahoga falls	OH	44223	8/14/2013	Good discussion over lunch on all products. Led with managed care insight and asked him how he sees himself adapting? Dr said he has to be more aware that chronic pain will increase as people get older. I agreed and told him that Purdue products will be needed for patients meeting the criteria. Discussed Butrans key selling messages and asked him what his treatment protocol is for treating pain. Dr said he follows standard procedures such as NSAIDs, tramadol, vicoden and Percocet and maybe ER opioids. I told dr that Butrans can be thought of as the schedule 3 controlled release opioid option early on in treatment when he has a patient with a chronic condition. I asked dr if he sometimes just refills a IR opioid because its easy? Dr agreed he has done that. I told dr to pause at that point before refilling and ask yourself if another option my produce analgesia over an extended period? Dr agreed that he has patients that are appropriate for Butrans and will prescribe it. I reviewed patient types and application sites. OxyContin dosing and told him where and when to use in his patient base. Reviewed intermezzo option for patients with in the middle of the night insomnia.
	Solon	OH	44139	8/14/2013	I Placed a phone call to Staff Development Coordinator, Gretta Redus, introduced myself and the NE program & briefly touched on educational in-service opportunities. She informed me that she was busy this week w/ orientation and stated that she would call me the first of next week to get an in-service on the books.
	Copley	OH	44321	8/14/2013	I asked dr if he is familiar with Butrans? D said he is not. I discussed all key selling messages, schedule 3, conversions,patch description and patient types. I asked dr what his experience is in treating pain? Dr said he had not had much but said that Butrans seems like a product that makes sense. I asked dr if he will use it for patient failing their IR opioids? Dr said he will consider it. Left him with insurance grid.
	Akron	OH	44320	8/14/2013	Spoke with Helene the pharmacist abut who is prescribing Butrans and OxyContin. I asked if she has seen prescriptions from Bonyo and Adams? Helene said no but has seen them from summit pain Sandra Sadid and dr Yang. Explained key selling messages and conversions as well as insurance coverage. I asked about oxycontin prescribers. Helene said they see many from Petrus and Fouad. I asked if she has filled any intermezzo and she said no. Discussed indication, dosing and limitations of use and reviewed copay cards.
	Akron	OH	44312	8/14/2013	Dr told me that he prescribed another Butrans for a patient taking vicoden. I asked him for the specifics and he said he couldn't remember the dose but the patient didn't want to have to take so many pills a day. Dr said he has not heard back from the patient and had commercial insurance. I asked if he gave the patient a copay card and he said yes. I asked dr to continue identifying similar patients who may need dose adjustments on their short acting product. I told him to continue switching his patients on Percocet who are uncontrolled or are appropriate for q12h oxycodone. Handed dr the intermezzo dosing and asked for his support.
	Akron	OH	44312	8/14/2013	Dr told me he would keep Butrans in mind. I asked him what that means and he told me that it is always on his mind and is trying to use it more. Dr said again that he is looking for his first great success with Butrans. I reminded the dr that he needed to use it early on in treatment and maybe he needs to speak with one of his pain management drs he refers to to get an idea of her they are using. Dr agreed and said he would maybe do that.
	Solon	OH	44139	8/15/2013	Window call. Asked dr about his butrans usage and he said the office is moving and he will not sign for anything until after the move and he walked away. Mentioned I had OxyContin vouchers also
	Beachwood	OH	44122	8/15/2013	Spoke with barb about butrans tear sheet for patients. Discussed OxyContin titration for low dose Percocet. Discussed senakot s for opioid induced constipation. Reviewed intermezzo indication and limitation of use. Was informed that dr can only be seen by appointment during the lunch hour. Also informed that pain management is moving in nov and I will have to get a badge
	Solon	OH	44139	8/15/2013	Quick window call. Gave reminder for OxyContin dosing. Asked dr to consider butrans for appropriate patients
	Bedford	OH	44146	8/15/2013	Told Trina at the window what products I had and she pointed out the doctor. Extended an invitation to butrans program and briefly gave indication, appropriate patient and managed care environment. Mentioned flexible dosing of OxyContin
	Brooklyn	OH	44144	8/15/2013	Window call. Invited to Moufawad program,will check schedule to see if he can attend. confirmed lunch for Sept. Left Butrans Scott profile<font color=blue><b>CHUDAKOB's query on 08/21/2013</b></font>Mark, this call was entered more than 3 days after the call was made. Entering calls this late is a compliance issue as the accuracy of the calls comes into question. Please make sure that all calls are entered no later than the end of the day on which the call was made. They also must be synced on that day as well if they are entered into the laptop.<font color=green><b>GUTKOMA's response on 08/22/2013</b></font>Understood<font color=blue><b>CHUDAKOB added notes on 08/25/2013</b></font>Thank you!
	South Euclid	OH	44121	8/15/2013	Window call. Asked dr what her experience has been with Intermezzo? Patients love it, but its just a matter of getting it covered. She & medical assistant Tracy said Caresource is going away when I mentioned Caresource Pa for IZ. Dr asked for more IZ savings cards,I eft pack of 10 new tear sheet cards. Butrans think of your Tramadol patients not controlled, like Scott patient profile, she has Butrans savings/ trial cards. Tracy says they use OARRS dr is very selective as to whom she writes opioids for. New MA is Caitlyn, went over Butrans formulary grid, she took notes, their 2 biggest commercial plans: med mutual & anthem. Pointed those out. OxyContin,controlled release, for your geriatric patients, broad Medicare Part D coverage, handed dr med d formulary grid. She says I do use OxyContin.
PPLPMDL0020000001					

PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/15/2013	I told dr to take a minutes before refilling vicoden and Percocet and look to see if the patient would be appropriate for OxyContin. I showed her the conversions again and asked her if she will switch patients? Dr said ok. I handed her the Butrans slide guide conversion chart and asked her to gain some clinical experience.
PPLPMDL0020000001	Cleveland	OH	44109	8/15/2013	Visited PMR-Greenwood, Harris-invited to upcoming Moufawad program, left info, requested appt. Visited Family Med.(Mougais) invited to program left Butrans.OxyContin info. IM dept Harrington-invite, info Oncology-Obrien-invite along with info
PPLPMDL0020000001	Cleveland	OH	44109	8/15/2013	Visited IM/Geriatric Dept. Left info for all Clinicians (Campbell,Dziwis,Mary Jo Slattery etc. Invited to upcoming Moufawad program. Email for appts
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/15/2013	Spoke with Kimase the pharmacist about all products. I asked her if she has been filling more Butrans recently? Kimase said she has three or four patients on it and she has all three doses in stock. I showed her the nancy and Scott profile and explained conversions and proper starting dose based on patient types. I reviewed insurance coverage with her. Kimase was happy to hear about Medicare D plans. Discussed OxyContin and asked her about dispensing. Kimase said that she is doing a lot of refilling of the 10, 20 40 and 60 mg doses most from pain management. I asked her if she has filled any intermezzo and she said no. Discussed indication and dosing.
PPLPMDL0020000001	Akron	OH	44305	8/15/2013	I told dr to look for those patients he is refilling on their IR opioid like tramadol. I showed him the patient profile and asked him to pause before refilling tramadol and asking himself if Butrans is a good option for the patient. Dr said he does have a lot of patients on tramadol. Dr asked about cost for a patient on Medicare and Medicaid plans. I told dr that the copy cards I just left him are for patient with commercial insurance only and do not include any federally funded program. I told him about Caresource again and the PA for it as well as the med D plans. Dr said he will continue to try and find patients for it because he has seen good results. I asked dr to take his patients uncontrolled on Percocet and put them on OxyContin and to try intermezzo for his Caresource patients who meet the indication.
PPLPMDL0020000001	Beachwood	OH	44122	8/15/2013	Presented butrans tear sheets for patient information and Roberta said she had OxyContin denied by Caresource. Vikki asked for vouchers. I reviewed requirements for butrans and OxyContin for caresource. Roberta thought the patient may do better on Butrans because they are currently on mscotin and the dr wants the patient on an extended release. Discussed senakot s for opioid induced constipation. Gave intermezzo indication and limitation of use<font color=blue><b>CHUDAKOB's query on 08/22/2013</b></font>If the patient was on MS Contin, then they already were on an extended-release. Do you know the daily dose of MS Contin the patient was on? They would only be appropriate for Butrans if they were on 80mg of morphine/day or less per the Butrans FPI.<font color=green><b>KKNOMA's response on 08/22/2013</b></font>I do not know the answer to these questions. I will ask more questions on next visit.<font color=blue><b>CHUDAKOB added notes on 08/25/2013</b></font>Ok. I only ask because it sounds like they are either wanting to titrate down or are going to prescribe a dose of Butrans that will not work.
PPLPMDL0020000001	Solon	OH	44139	8/15/2013	Reviewed start principle for OxyContin. Reviewed proper application of butrans using patient brochure. Gave intermezzo indication and limitation of use. She asked about vouchers and I referred her to butrans.com and my intermezzo.com
PPLPMDL0020000001	BEDFORD	OH	44146	8/15/2013	Spoke with float pharmacist. Sherry said she was aware of butrans but did not have many patients on butrans. I used the titration guide to to explain indication and abuse potential. Explained conversion from other pain medications. Reviewed the start principle for OxyContin highlighting the 15 and 30's when titrating 25-50%. Gave intermezzo indication and limitation of use.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/15/2013	Short conversation with dr while speaking with Darlene in the office. I told her that she should evaluate her patients continually taking IR opioids like tramadol and instead of titrating it to consider Butrans. Dr said she has had much better results lately and said she is glad it is working well. I asked her for more prescriptions and reviewed new insurance coverage.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/15/2013	I asked dr how things have been with titrating Butrans and if patients are responding? Dr said they are and that he recently moved a patient from 5 to 10mcg. Dr said he feels that most patients will need the 10mcg dose at some point. I reminded dr that steady state is 72 hrs and he can titrate then if necessary. I showed dr the new insurance grid for Butrans and focused on Medicare D coverage. Dr said he is glad to see more insurances picking it up. I asked dr if he has had any new starts with intermezzo and he said no. He said he attempted twice in the last month and it was too expensive for both patients. I asked dr patients on Caresource and explained the PA.
PPLPMDL0020000001	Bedford	OH	44146	8/15/2013	Spoke dr who directed me to his wife. She asked if my products were on workers comp and I presented butrans I indication and titration guide. Mentioned OxyContin and intermezzo and left information. She said she will have him review the information and let me know.<font color=blue><b>CHUDAKOB's query on 08/22/2013</b></font>I'm a little confused here. She asked a question about coverage and you presented the indication. Did I miss something? It also looks like this should have been a non-HCP call?<font color=green><b>KKNOMA's response on 08/22/2013</b></font>Agreed, this is not a well written call note. I went in the wrong door which is their back office door because this is the door I use to go in years ago. I surprised the doctor and told him who I currently worked for and what products I had. he remembered me and gave me the okay to present information to his wife because he had a room full of patients. She asked about workers comp and I said yes as I showed the titration guide and explained what butrans was.<font color=blue><b>CHUDAKOB added notes on 08/25/2013</b></font>Ok. I am now thinking that unless his wife was a nurse, MA or office manager, this probably should not have been a call. If she was a nurse, AM, or office manager, then this should have been a non-Reminded of Butrans for those Tramadol failures, invited to Moufawad program, said she will attend. OxyContin Q12h dosing along with Intermezzo for MOTNA/dosing<font color=blue><b>CHUDAKOB's query on 08/21/2013</b></font>Mark, did you show her any sales pieces? Did you help her identify specific patients for Butrans? Does she know the starting doses? These are just three questions I can think of. It is hard to know what happened on this call from our call notes. Remember we discussed being more specific about the conversation of the call.<font color=green><b>GUTKOMA's response on 08/22/2013</b></font>On that particular call, Jose told me to come on back with a total disregard for a rep.doing a lunch and another waiting in the hallway. Very chaotic, but under the circumstances I did identify a specific patient (Tramadol failure)for her. We discussed how to RX as she has prescribed in the past and PA concerns.When appropriate,I will continue to work on being more specific.Thanks<font color=blue><b>CHUDAKOB added notes on 08/25/2013</b></font>If that happens again, I might just tell her you will come back at a later time. It might be more productive.
PPLPMDL0020000001	Cleveland	OH	44109	8/15/2013	Butrans for those Tramadol failures before they start on short-acting. Asked to relay to Ray along with other RPH. Left Butrans info booklets for distribution
PPLPMDL0020000001	Cleveland	OH	44109	8/15/2013	OxyContin Q12h, Elaine said hardly fills any OxyContin since reformulation, Butrans for those Tramadol failures, she agreed to pass out Butrans info booklets. Intermezzo for MOTNA/dosing- ins. challenging at this location
PPLPMDL0020000001	Lyndhurst	OH	44124	8/15/2013	Met w pharmacist Steve Greene. OxyContin, left pharmacists guide. Q 12 h dosing, which he says HCP s are following. Butrans he has a few customers on, he has 5&10 mcg hr in stock. Left him one pack cards, one patient guide to show him what we provide for his customers. Asked Steve if he's familiar w IZ, he said he read about it in journal ad. Indication, limitations, trial/ savings flashcard left. One patient guide.
PPLPMDL0020000001	Tallmadge	OH	44278	8/15/2013	Spoke with Jo-Ann who was the floater pharmacist today. I asked her if she was familiar w Butrans and she said yes. I reviewed the dosing, schedule 3, 7 day transdermal patch and conversions. She said they had none in stock. I discussed the doses of OxyContin and conversions from IR oxycodone and Percocet. Se said she tight they had all doses in stock and fill it regularly. Introduced intermezzo indication, dosing and limitations of use due to her not being familiar with it.
PPLPMDL0020000001	Mayfield Hts	OH	44124	8/15/2013	Met w office mgr Ellen Tyransky. Both dr Isakov & Kim out. Left her with invite to Moufawad 8/21 program, she will try to get someone there but unlikely. Left newest Butrans patient profile piece for Drs Kim & Isakov & PA-C Sarah j. Left OxyContin reformulation piece, and Ellen says she will Review updates to section 9.2 of FPI which includes our abuse deterrent studies. She says Diane handles prior authorizations. When Barry & I went over to talk with Diane, she says she's ever completed a prior auth for scheduled medications. The doctors nurses will do that. Left OxyContin medicare d formulary piece and
PPLPMDL0020000001	Bedford	OH	44146	8/15/2013	Discussed opioid induced constipation and senakot s. dr asked if Medicare patients can get senakot s freeif he writes a script. I told him I will check a a pharmacy because I did not know. Asked dr if he would be able to invite some of the offices in chagrin highland to program next week and he said they do not go to programs but I should invite some of the people at Bedford hospital. Reviewed flex dosing of OxyContin and we discussed scheduling of butrans, tramadol and Vicodin.reviewed intermezzo indication and limitation of use
PPLPMDL0020000001	Cleveland	OH	44105	8/15/2013	Quick reminder Butrans for those Tramadol failures, he said he remembers" OxyContin Q12h for those Percocet patients taking Q4-6h. Intermezzo for MOTNA and dosing. Invited to upcoming Moufawad Program<font color=blue><b>CHUDAKOB's query on 08/21/2013</b></font>How do you feel this call progressed?<font color=green><b>GUTKOMA's response on 08/22/2013</b></font>On that particular call, Jose told me to come on back with a total disregard for a rep.doing a lunch and another waiting in the hallway. Very chaotic, I was talking with Dr. Lolita Agra when Dr. Rahkit walked into the room/discussion, hence I was able to give some quick reminders and invite to program. In regards to progress made, probably not very much, but under the circumstances presented that particular day, I will take it. I did learn that he is slowly taking over Dr. Agra's practice. Thnx<font color=blue><b>CHUDAKOB added notes on 08/25/2013</b></font>OK. It would probably be more productive if you spent more time selling him on the primary product and a secondary if you can, rather than giving him three reminders.
PPLPMDL0020000001	Tallmadge	OH	44278	8/15/2013	Quick message at counter and told dr to use Butrans for his patients failing or not tolerating tramadol. I handed him the Scott profile and asked him to review for starting doses. Nothing else learned.
PPLPMDL0020000001	Highland Heights	OH	44143	8/15/2013	Met with Marianne & Amanda first, the medical assistants that complete prior authorizations for dr Salama. When we told them that BWC will pay for Butrans, most of the time, Marianne says she's been having trouble with BWC. When BWC patients visit pharmacy, pharmacy tells patient they need prior auth but then BWC says they are covered without prior auth, so there's a disconnect somewhere between pharmacies & BWC. we told them other offices in having area having good luck consistently with BWC. Also updated on Medco Medicare Part d and Caresource PA. Left. Butrans & OxyContin formulary grids. Dr Salama, have you considered Butrans for your BWC patients, he responded he didn't know they paid for. Is it without PA ? Yes we responded, most should not need PA, except maybe an employer group that may require. Also Caresource with PA, & explained to dr how that would work. Transition to OxyContin, dr said don't talk to me about OxyContin, I know all about the reformulation, I will not start any new patients on OxyContin, I responded I respect that and doctor know you do have a CII option with broad Medicare Part D coverage. Intermezzo, dr asked for samples. We don't have, but have savings cards. Patient s can visit Facebook page or Intermezzo.com for printable savings. Gave Marianne HCP piece & showed 3 questions they should be asking patients. To distinguish between MOTN insomnia & sleep onset insomnia. Caresource pa is failure of one other product containing Zolpidem, Marianne
PPLPMDL0020000001	Beachwood	OH	44122	8/16/2013	Spoke with Donnie about butrans vouchers and discussed appropriate patients with dr. Reviewed OxyContin titration and flexible dosing. Asked dr if he had thoughts about the motna patient and intermezzo. He said he remembered intermezzo but has not prescribed
PPLPMDL0020000001	Warrensville Heights	OH	44122	8/16/2013	Extended invitation for butrans and left titration guide. Followed up on lunch and still no openings
PPLPMDL0020000001	Cleveland	OH	44109	8/16/2013	Talked with Tech. Rph was on phone Went over Butrans for those Tramadol failures, hasn't seen many RX/s. Asked if OxyContin savings cards were needed and went over Intermezzo for MOTNA and dosing, will relay info to
PPLPMDL0020000001	Brooklyn	OH	44144	8/16/2013	Went over OxyContin Q12h dosing along with Butrans for those LorTab/Tramadol failures. No new area prescribers, mentioned Kushnar across the street Med Ctr. INtermezzo for MOTNA/dosing
PPLPMDL0020000001	Beachwood	OH	44122	8/16/2013	Extended invitation to program. Quick window call reviewing Butrans appropriate patient profile Scott. Discussed OxyContin flexible dosing. Confirmed lunch for next week. Dr asked about intermezzo samples and I explained that we no longer sample but she can use the vouchers.
PPLPMDL0020000001	Westlake	OH	44145	8/16/2013	Met with Reggie the nurse today about office practice information and they informed me that dr Adams left and that dr below doesn't use any "of my products". I asked her if she ever heard of Butrans and she said no and that the doctors don't treat pain. They would not schedule me a Lunch cause I wasn't on the list of products commonly used in the office. I left dr below a short note to see if I could come for lunch and gave him fpi and other Butrans and OxyCotin sales materials to be reviewed.
PPLPMDL0020000001	Copley	OH	44321	8/16/2013	I asked Sue the technician what IR opioid they fell the most? She said about all of them but see a lot of vicoden. I asked if they have many patients coming in each month for their refill? She said yes they do and many have been on it for a long time. I told her about Butrans and OxyContin and the patients appropriate for each. Discussed intermezzo and gave her dosing and indication.
PPLPMDL0020000001	Brooklyn	OH	44144	8/16/2013	Invited to upcoming Butrans Moufawad program, Confirmed lunch appt. and reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44312	8/16/2013	I discussed with dr the Maria and Scott patient types for Butrans. Dr told me that she had a patient that could not tolerate Butrans last week and has to discontinue it. I asked what the specifics were and she said the patient had too much nausea and couldn't continue. I asked dr if she will continue prescribing and she said yes. Gave her the new insurance grid. Nothing else learned
PPLPMDL0020000001	Akron	OH	44312	8/16/2013	Saw dr in hallway and told him I want to discuss Butrans with him to see how things have been going. Dr said he's really behind and can't talk but said his patients are doing well on it. Nothing else learned
PPLPMDL0020000001	Westlake	OH	44145	8/16/2013	I met w/ ADON, Brenda Amburgey. I introduced myself and Purdue's Nurse Educator program. Unbranded and Branded in-service topics were disc
PPLPMDL0020000001	Westlake	OH	44145	8/16/2013	I made a drop-in visit to meet w/ D.O.N., Susan William to see if she is still interested in Purdue's Nurse Educator Program. I spoke w/ the receptionist, who informed me that Sue was in a meeting w/ a family and not available at this time. I left Purdue educational offerings and my BC.

PPLPMDL0020000001	Beachwood	OH	44122	8/16/2013	Asked Laura if she heard anything from dr yokel about his attendance at the program and she said he would not be able to attend. Dr came by desk while I was talking to Laura and vikki and confirmed he would not be able to attend Butrans program. I reminded him about OxyContin conversion from Percocet.
	Westlake	OH	44145	8/16/2013	Spoke with Kyle the pharmacist (Rosie and Stacy the techs) we discussed Butrans. She said a dr Nicholas just wrote a Butrans 10mcg for a patient and used a coupon. We reviewed titration, dosing and supplemental pain medicines if need be based on the naive studying was reviewing. Did review schedule 3 opioid and that it still had abuse potential. Also discussed how to remove and discard Butrans if the patient needed titration. Intermezzo-pharmacist seemed knowledgeable- went over the dosage for men and women and the indication. She said she saw a script come thru on that too from a doctor she couldn't remember his name. And she mentioned a patient that came in on Tramadol that she thought could have been a Butrans patient. When I pulled out the David proffier piece she pointed to 400 MSG of Tramadol. I told her the tampering back to the 300 mcg then start on the 10mcg is what's in our fpi. I also pointed out that perhaps that patient would be more a candidate for OxyCotin. And she said oh no not that. When I asked why she said I don't no. I told her that OxyCotin is a q 12h opioid single entity product and with the 7 diff doses available maybe that would manage her pain? Pharmacist said true. Left her savings card leave behind material. And a Butrans naive study.
PPLPMDL0020000001	Orange Village	OH	44122	8/16/2013	Extended invitation for butrans and left titration guide. Followed up on lunch and still no openings
PPLPMDL0020000001	Beachwood	OH	44122	8/16/2013	Extended invitation for butrans and left titration guide. Followed up on lunch and still no openings
PPLPMDL0020000001	Cleveland	OH	44113	8/16/2013	Confirmed her attendance to Moufawad program, asked for those Tramadol/Lortab failures, she had a new start yesterday. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Woodmere	OH	44122	8/16/2013	Spoke with tenashia about Butrans prescriptions and she said she has not seen any. I discussed the patients tear sheet and appropriate application of Butrans and preparation of application site. Reviewed dosing of OxyContin. Gave Intermezzo dosing, indication and limitation of use
PPLPMDL0020000001	Brooklyn	OH	44144	8/16/2013	Invited to upcoming Butrans Moufawad program, doesnt normally have time for programs, but will check schedule. Reminded of Butrans for those Tramadol failures
	Berea	OH	44017	8/16/2013	Spoke to Shirley the nurse regarding what she thought the doctor thought of OxyCotin and Butrans. Shirley has been with doctor for years, shared with me that he doesn't write Butrans and very little OxyCotin. I asked if he treated patients with the kind of pain that requires around the clock pain relief and she said of course. I have her the Butrans indication and asked if dr ever used patch technology and she's aid hardly ever. I asked how receptive she thought he was to trying something new. She said he does a lot of reading on new products but is very price concerned so if its expensive he won't do it. I asked if she thought 15 to 25 dollars sounded expensive and she said not really-depends. Quick review of savings programs for Butrans. Left invite for doctor along with a study.
PPLPMDL0020000001	Akron	OH	44319	8/16/2013	Saw dr at window as he came in for the day. I showed him the oxycontin conversion guide and asked him if he has patients on IR oxycodone around the clock for 3+ months? Dr said he probably does. I asked him if it made sense to switch them to a q12h oxycodone? Dr said that is when he will usually switch them to the extended release. I asked for his continued business and told him about the copay cards. Showed dr the Butrans placebo patch and asked him to use it for his NSAID or tramadol failures. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	8/16/2013	Confirmed attendance to Upcoming Butrans Moufawad program. Asked for those LorTab failures, he said Deb/Rhonda are confident prescribers. Reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44113	8/16/2013	Went over Intermezzo, MOTNA/dosing. Dr. said he is prescribing. Went over Butrans, Dr. Is not prescribing narcotics. Requested to be speaker
PPLPMDL0020000001	Beachwood	OH	44122	8/16/2013	Spoke with pharm tech about butrans appropriate site application preparation. Discussed doses of OxyContin. Reviewed indication and limitation of use of Intermezzo
PPLPMDL0020000001	Cleveland	OH	44113	8/16/2013	Confirmed attendance to upcoming Butrans Moufawad program. Said she is looking forward to hearing Dr. speak. Reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44125	8/19/2013	Asked to recommend Butrans for those appropriate patients (Tramadol Q4-6 or short-acting) Tech would pass along Butrans patient info booklets to distribute. OxyContin Q12h along with no savings cards needed.
PPLPMDL0020000001	Cleveland Hts	OH	44118	8/19/2013	Asked Rph/tech if they would distribute/Recommend Butrans (patient info) to appropriate patients. They agreed. Reminded of Dr. Harris new starts. They said, havent seen any RX's yet, but hope to see soon
PPLPMDL0020000001	Cleveland	OH	44195	8/19/2013	MSL introductory email and phone call to Ms. Donna Lach, new study coordinator taking over responsibilities for OTR3001. Requested in-person meeting with Ms. Lach and Dr. Appachi.
PPLPMDL0020000001	Cleveland	OH	44195	8/19/2013	MSL email communication to Cleveland Clinic Team regarding Pain Awareness Month flyer and to request in-person meeting with site champion to discuss OTR3001. Response pending as of 8/23/13.
PPLPMDL0020000001	Richmond Heights	OH	44143	8/19/2013	I met w/ Sheila Harris, an in-service on constipation was scheduled for Sept. 13th @ 2PM
	Mayfield Heights	OH	44124	8/19/2013	No HCP s available to come to window says Denise. Note: Gina Savoca has been out due to illness. Reviewed core messages OxyContin Butrans. Left one pack Butrans cards. 2 Senokot S which Denise ( OTC, narcotic, branded drugs) coordinator. Denise asked for Senokot S coupons, as she says HCP s like Senokot S but its so expensive for their patients. Gave her HCP order card & told her id bring 2 mre boxes Senokot S next visit. Reviewed formulary updates for OxyContin & Butrans. Left grids with Denise. Left OxyContin reformulation piece for dr yap, dr Laham, dr Dews and CNP Gina s. ( next time include dr Leizman) the group closes promptly at 4!!
PPLPMDL0020000001	Garfield Hts	OH	44125	8/19/2013	Left OxyContin info conversion/titration guides for surgeons Email/leave info/cards suggested for appts or in-services
	Beachwood	OH	44122	8/19/2013	Spoke with staff about butrans titration and supplemental analgesia. Reviewed OxyContin flexible dosing and start principle. Staff said there is not a huge need for sedative hypnotics but I reviewed dosing and administration and reminded them that this is a small segment of the population.
PPLPMDL0020000001	Fairlawn	OH	44333	8/19/2013	Spoke with Gary about all products. Discussed the patient profile Scott and discussed proper initiation dose and titration. Gary said he has seen a couple come through since I was there last. He said he believes the patients started on the 5mcg dose and has the 5 and 10mcg in stock. Discussed the abuse deterrent studies for OxyContin and reviewed dosing. Intermezzo indication and dosing. Gary has not filled any.
	Cleveland Hts	OH	44118	8/19/2013	Dr. opened up with PA's concerns, Said not a easy process' has done about 5-6 in the last 30days, a couple of rejections that he has to resubmit, Thanked him for his persistence. Still waiting for feedback from patients. Reminded of Titration. OxyContin Q12h and Intermezzo for those MOTNA/dosing<font color=blue>-cb>CHUDAKOB's query on 09/02/2013</font>-Mark, did you delve any more into the plans that got rejected? This may have shown him that you are interested in ensuring this doesn't continue.<font color=green>-cb>GUTKOMA's response on 09/03/2013</font>-He said, he figured out what was causing the rejections, so i didnt further pursue. But, i will follow up on next visit. Thanks<font color=blue>-cb>CHUDAKOB added notes on 09/05/2013</font>-OK. That is good news. It appears you are making nice progress with him. Keep up the good work
PPLPMDL0020000001	Akron	OH	44303	8/19/2013	Spoke with rod on all products and asked him if he has had any more Butrans prescriptions since th first one? Rod said that dr Dmitri's patient came back for a refill of Butrans and is still on the 5mcg dose. I asked if the patient gave any feedback and he said the patient did tell him that it is working well. Reviewed the Scott profile and discussed appropriate starting dose, initiation and titration and conversions. Spoke with him about the OxyContin abuse deterrent studies and discussed how much he is filling. Rod said that he typically gets the same patient in each month for their refills and many come from Lababidi. Intermezzo dosing and indication and rod said he has not filled any and if its not on Medicare or Medicaid he probably will not see any. Told him about Caresource PA.
PPLPMDL0020000001	Fairlawn	OH	44333	8/19/2013	Caught dr at front counter and showed him the Butrans initiation and titration guide and told dr that he should use Butrans for his patients failing or not tolerating the IR opioids. Dr said he remembers Butrans but hasn't used it. Dr said he will review the guide. Nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	8/19/2013	Quick window call with dr about flexible dosing of OxyContin and the need to titrate 25-50%. Asked dr to think if butrans for patients like nancy.
PPLPMDL0020000001	Garfield Hts	OH	44125	8/19/2013	Discussed Scott profile, agreed he has patients like profile. Asked for those Tramadol/Ultram failures, went over Initiation/Titration. Said he has a patient in mind that he will try. OxyContin Q12h for those Percocet patients that are Q4-6h. and Intermezzo for MOTNA/dosing
PPLPMDL0020000001	University Hts	OH	44118	8/19/2013	Window call, invited to upcoming Butrans Moufawad program, said he doesnt go to many programs, but will keep it in mind. Asked for those Tramadol/Ultram failures, said present Butrans patient doing well.
PPLPMDL0020000001	Warrensville	OH	44122	8/19/2013	Asked dr about his comfort level with prescribing Butrans since he started with south point. He said he is getting more familiar with the plans but he has not prescribed yet. I extended an invitation to him but he was unsure if he would attend. Reviewed start principle. Asked if he thinks of motna of motna as a treatable problem
PPLPMDL0020000001	Cleveland Hts	OH	44118	8/19/2013	Discussed OxyContin Q12h with Dave RPH. Along with Butrans for those Tramadol failures, saw an RX recently from Dr. Harris and Intermezzo for MOTNA/dosing. Requested Trial/Savings CardsGina-Tech, Shantee-tech
PPLPMDL0020000001	Cleveland Hts	OH	44118	8/19/2013	Quick Butrans reminder (Tramadol/Ultram failures). Dosing. Dr. said to book appt. to further discuss. Secured appt for Nov 21st. Left Butrans/Intermezzo
PPLPMDL0020000001	Akron	OH	44310	8/19/2013	I asked dr what he is typically doing for his patients that need more than what tramadol can offer? Dr said he will either go to vicoden or Butrans. I asked him how he decides on which to prescribe? Dr said. A lot depends on cost. I showed dr the commercial, Caresource and Medicare D plans. I told r rot choose Butrans for those patients and dr said ok and that he forgets how well it covered.
PPLPMDL0020000001	Parma	OH	44129	8/19/2013	Reviewed flexible dosing and start principle of OxyContin. Discussed proper application of butrans and application site preparation. Reviewed motna dosing and limitation of use
PPLPMDL0020000001	Brooklyn	OH	44144	8/19/2013	Talked with nurse Carol, Went over Butrans, Tramadol failures, 7 day transdermal. Intermezzo for MOTNA/Dosing. Invited Dr. To Butrans Moufawad program. Left info
PPLPMDL0020000001	Cleveland Hts	OH	44118	8/19/2013	Butrans reminder for those Tramadol/Ultram failures, along with OxyContin Q12h
	Westlake	OH	44145	8/19/2013	Charting Continued from 8/16/1 met w/ ADON, Brenda Amburgey along w/ the DON, Nancy Hodges. I introduced myself and Purdue's Nurse educator program. Nancy and Brenda were excited to hear about Purdue's program. Nancy said, "pain is part of their advance in excellence goal and explained that the facility quality measures are climbing."This 166 bed facility is made up of LTC,skilled and 15% Hospice. The D.O.N informed me that 26 of their beds were sold." Point Click computer system is used for documenting Pain Assessment every shift. The Wong baker pain scale is used.80% of residents are currently being treated for pain. No standard pain medications are used. Dr. James Wang is the Medical Director and they have NP's on staff as well.The CPP is ICP (institution Care Pharmacy)in Tiffin.In-Services were scheduled for 9/20 on pain, 9/27 on MDS and a Butrans luncheon for NP's
PPLPMDL0020000001	Fairlawn	OH	44333	8/19/2013	Handed dr the OxyContin abuse deterrent information and told him to review. I asked dr if he is having success taking patients uncontrolled on Percocet and moving them to OxyContin? Dr said OxyContin works well for his patients. I showed him the conversions and asked him to continue using the q12h oxycodone.
PPLPMDL0020000001	Akron	OH	44304	8/19/2013	Short discussion at counter about the new abuse deterrent studies for OxyContin and told him to review. I showed him the OxyContin start principles and quickly reviewed. I asked him to continue switching patients from Percocet to OxyContin when they meet the indication. Butrans Scott profile.
PPLPMDL0020000001	Mayfield Heights	OH	44124	8/19/2013	Met w pharmacy mgr Sirisha. First presented OxyContin pharmacists guide. Went over 7 doses available & recommended dosing of q12 h. Most area HCP s are following q 12. Butrans no utilization.she had Butrans on shelf in past, it expired. She's surprised Hillcrest pain management is not writing Butrans. I responded the group with Dr Dews, Yap & Laham, do use Butrans and their patients must not be customers of your pharmacy. Should patients inquire, here's a patient guide & savings flashcard for your information. Intermezzo, she was force shipped a box of each strength when product launched, about ready to expire. Left patient guide, savings flashcard.
PPLPMDL0020000001	Richmond Heights	OH	44143	8/19/2013	I made a drop-in visit to speak w/ Joan Southard and schedule an in-service on Constipation. I spoke with the receptionist, who informed me that she was waiting for an important phone call. I left my BC
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Talked with Marge, followed up with OxyContin patient essential sats, none distributed yet. Told her about discussion in Pain ctr. in regards to Butrans being utilized more, will stock when she sees RX's
PPLPMDL0020000001	East Cleveland	OH	44112	8/20/2013	Intro. Went over Butrans for those Tramadol/Ultram failures. Dr. said not prescribing any narcotics. Intermezzo for the MOTNA/Dosing. Said she will consider, has many patients complaining of MOTNA and sleeping problems
	Parma	OH	44129	8/20/2013	Myra said she is thinking of coming to the program with another pa on vermillion. She said she is having success with butrans and i checked with the staff and they said they do not have any issues in need of resolution. I asked what prompted her to use butrans for her last patient and she said the amount of ir they were using. I confirmed her use in appropriate patients and asked her to think of patients having gi issues on NSAIDs also. She said she will not write OxyContin and I said i understand but i wanted her to know about OxyContin because she will surely see patients in her practice on OxyContin. Myra is having success in both the nursing home and the office with intermezzo but when i confirmed with the office they said they have not seen a script of intermezzo in awhile.
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Fellow Intro- Discussed OxyContin Q12h- he reiterated the strong confidence in efficacy. Went over Butrans for those Tramadol/Ultram failures before they start on short acting, reiterated Dr. Hayek's overall thoughts on narcotics. Believes pain still needs to addressed, asked if he would find appropriate patients, he agreed
PPLPMDL0020000001	Akron	OH	44308	8/20/2013	MSL email communication with Dr. Friebert and Ms. Tonni regarding pain awareness month flyer. Order submitted to PPLP for flyers.
PPLPMDL0020000001	Parma	OH	44129	8/20/2013	Delivered invitation. Office has been in training for a week and says they will note be seeing reps for awhile. Left invitation guide for Butrans
	Parma	OH	44134	8/20/2013	Dr said he would attend program. Dr said he has seen Butrans change people's lives because they are not in pain and they are not thinking about their pain every time they take a pill. Dr said his OxyContin patients are doing well and reminded him of the dosing. He expressed an interest in trying intermezzo but he has to find the right patient type. Dr would like more senakot so his patients will know what to buy at the store.
PPLPMDL0020000001					

PPLPMDL0020000001	Parma	OH	44129	8/20/2013	Confirmed that dr will remain at this location. Cancer center not allowing samples per change in policy. Left OxyContin literature
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Spoke with Lisa ma. Dr Ravi schedules lunches at Ohio medical. Is in westlake 2x a week and middleberg. Left Butrans naive study behind for doctor to read, brief recap with Lisa.
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Dr could not see me today, spoke to the ma about office protocols. They said, "I'm sorry, but I need to cancel the in-service scheduled for today, State and Corporate are back in the building again." I will reschedule when you come for the constipation is-service on 9/10.
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	The ma Pam and Megan said the doctor doesn't come into the center often.
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Had apt. with Anes/Pain dept. Fellows/Attendings (Hayek,Sahgal,Drummond,Zaky,ChanDiscussed OxyContin/Butrans along with Fellow Journal opportunity
PPLPMDL0020000001	Cleveland	OH	44122	8/20/2013	I rec'd a phone call from Francine Young in Staff Development. She said, "I'm sorry, but I need to cancel the in-service scheduled for today, State and Corporate are back in the building again." I will reschedule when you come for the constipation is-service on 9/10.
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Saw Christy the office manager- she informed me that October dr yonan will change his hours. Send back christy with a transdermal demo patch and asked her to see if the doctor knew what it was. She tried but dr was in w a patient for a long time and we decided to try again another day.
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Discussed OxyContin Q12h- Dr. said he likes OxyContin for those patients he can trust, prescribes alot less narcotics overall. Likes Butrans, I reiterated that it can be misused/abused similar to other CII's. Went over importance of titration after 72hrs, said he will keep that in mind
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Discussed Butrans for those Tramadol failures, Initiation/Titration along with supplementing prn with short acting. Dr. likes delivery system, reiterated Butrans has the same misuse/abuse as other CII's. OxyContin Q12h
PPLPMDL0020000001	Stow	OH	44224	8/20/2013	Spoke with Christina the pharmacy manager about all products. Christina said that they have many patients on Butrans and she has all doses in stock. She said they have seen more scripts for the 10mcg than any other. I asked about how long it takes to get a dose in if they are out? Christina said if they get the prescription in by 8pm that day they will have it next day for a schedule 3. Christina said that the schedule 2 medicines take about 48 hours and will need to receive the prescription by Wednesday at 8pm to get it in by Friday. I discussed OxyContin dosing he told her about the conversions and how I educate patients on appropriate dosing and titration. Christina said that is good because she sees many patients getting their Percocet refilled and increased all the time. Discussed copy cards and insurance. Intermezzo dosing and indication which Christina said she had not
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Discussed Butrans for those Tramadol/Ultram failures, He has some experience at Emory. Went over Initiation/Titration said he will look to start some new patients as he becomes more active in treating patients. OxyContin Q12hFellows journal club monthly/mondays
PPLPMDL0020000001	Cleveland	OH	44106	8/20/2013	Discussed OxyContin Q12h, Dr. reiterated his confidence in prescribing OxyContin for those Oncology/palliative care patients. Went over Butrans Initiation/Titration and importance of that 72hr titration period, Dr. said he agrees that he still prescribes alot of Vicodin/Percocet even know long term use of narcotics provides no clinical benefit. He speaks around the world on that topic. Asked him for another evaluation of Butrans and he agreed he would consider looking for more patients because the delivery system does provide benefits. I reiterated Butrans is similar to other CII's and has the same misuse/abuse potential
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Met with office manager, she helped me schedule few apcs. doctor is here everyday till 4ish. Does do detail para and lunches. She new little on Butrans. Explained its indication and showed the titration booklet to show how to start if they were on something else.<font color=blue><b>CHUDAKOB's query on 09/02/2013</b></font>-Lisa, this sentence "Does do detail para and lunches" was in your call note. What does it mean?<font color=green><b>BARTOLI's response on 09/02/2013</b></font>Does do detail appointments and lunches. She knew little on Butrans.<font color=blue><b>CHUDAKOB added notes on 09/03/2013</b></font>-Ok. I didn't understand what that meant. Thanks.
PPLPMDL0020000001	Munroe Falls	OH	44262	8/20/2013	I asked dr if she has had success with Butrans when she used it back in May? Dr said she did have success and the patients are happy. I asked her why she stopped using it? Dr said she doesn't know why and she guesses she just forgot about it. I told dr to focus on two patients. Tramadol or vicodin patients around the clock that are not getting enough pain relief or not tolerating them to use Butrans as the solution. Explained the patient profiles and dr said she will get back into using it. Reviewed the OxyContin start principles discussed them and asked her opinion. Dr said she didn't think about titrating down and agrees with all of it. Dr wanted a copy of it so kept the conversion and titration guide. I asked for her Percocet business.
PPLPMDL0020000001	Parma	OH	44129	8/20/2013	Discussed start principle and dr said that it was not right and she was trained to not do anything for 3 days because that is how long it takes to know the effects. I mentioned the 25-50% titration and she said that was wrong because it depends on how the patient is doing with their current dose. She said she knows more about palliative care than other doctors because of her training in Canada. She her patients are beyond butrans and she verified that by looking at the titration guide. She liked that concept of intermezzo and will keep it in mind. She liked the fact that I provided h with Senokot samples and she said she hates when the pharmacy switches to laxatives or stool softener. She said she will keep using lots of OxyContin because it works and she hates Percocet or ir because patients don't need 2 opioids.
PPLPMDL0020000001	Uniontown	OH	44685	8/20/2013	I told dr to think of herself in an exam room with a patient on tramadol around the clock and the patient needs a dose adjustment. I told her that she has a decision to make which is to titrate tramadol, prescribe another IR opioid or to look at Butrans as a solution. I told dr that when the patient has a condition that is chronic in nature, Butrans is the solution she needs to choose for week long release of burprenorphine. Dr said ok. I told dr to allow Butrans to prove itself clinically. Dr said ok. I gave her the conversion guide for OxyContin and showed her the conversion from IR oxycodone.
PPLPMDL0020000001	Euclid	OH	44117	8/20/2013	I made a drop-in visit to meet w/ Ruth Rossini Education, and schedule an in-service on Oxycontin. I spoke w/ the receptionist, Hilde. Ruth was not available. I left the Oxycontin titration Guide and my BC
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Scheduled breakfast. Ma told me that the hrs between westlake and Lakewood vary and to call first. Asked if she knew Butrans and she did, reviewed how to start a patient from under 300 Tramadol to 5mcg of Butrans. Used 7 day titration visual aid and left it behind.
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Met the pharmacist- review of Butrans. He didn't know much about it, and said he hasn't seen a script in a while. Pointed out starting dose for op naive patient referencing Butrans study, titration a min of 72hours/3days, steady state...and pointed out the graph in the study that shows the percentage of patients in open label that had pain reduction. Referenced the higher mgs on the morphine equiv chart and bridged to OxyContin. Does stock limited doses, but didn't tell me which. Reviewed the q12h and that it was not bid dosing, nor prn dosing, nor for acute pain. Discussed the savings program for both products.<font color=blue><b>CHUDAKOB's query on 09/02/2013</b></font>-Lisa, just a reminder to please not use abbreviations excepts for approved abbreviations like MOTN or Dr. and q12h. Most other things should be written out.Thanks Lisa!<font color=green><b>BARTOLI's response on 09/02/2013</b></font>-Ok<font color=blue><b>CHUDAKOB added notes on 09/03/2013</b></font>-Thank you.
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Spoke to Megan nurse- review on Butrans. How to start and titrate along with showed a sample patch demo no real medicine.
PPLPMDL0020000001	Cleveland	OH	44112	8/20/2013	Went over OxyContin Q12h, Dr. is not prescribing much of anything anymore, semi-retired, Dr.Mariene has taken over practice. Butrans for those Tramadol failures and Intermezzo for MOTNA/dosing.
PPLPMDL0020000001	Euclid	OH	44117	8/20/2013	I made a drop-in visit to speak w/ Kathy Nemeth to schedule an in-service on Butran's. I spoke w/ the receptionist Joe Nathan, who paged Kathy, She did not respond to her page. He said, " I think she is in a meeting." I left my BC and Butran's Material
PPLPMDL0020000001	Parma	OH	44129	8/20/2013	Window call, asked dr if he would be able to attend the program and stressed this would be a good opportunity to learn from a peer and I cited some of the speakers highlights. Dr said probably not and I asked Debbie if she had an opportunity to review the med 80 information she asked about last time. She had briefly reviewed. Reminded her of intermezzo dosing and administration
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Dr. Duncan at a funeral out of town this week. Spoke to kathy and rita the rn. They told me to return to schedule a lunch, too busy. Asked if they knew anything of Butrans the transdermal patch, and she said she heard of it but not much. showed her a sample of the non medication patch- she thought it was very thin. Told her the mcg and apro patient types. Rita asked what happened to Intermezzo and managed Care. I asked if they had a problem recently and what? She said that the doctors stopped writing it cause they can't get it thru. I explained the savings program for commercial insured patients- RN did not know if the patient was caresource. Second- focused on the indication and 3t status on their plans which means usually if they fail generic ambien then intermezzo with the appropriate middle of the night awoken with 4 hours of sleep remaining patient.
PPLPMDL0020000001	Westlake	OH	44145	8/20/2013	Introduction to dr. He asked what's my problem today, I said my problem is that I'm new and I haven't met you. He laughed. He said Purdue, reading name badge. He was unfamiliar with the company. I told him we specialize in treatment options to help patients manage their pain. I held up a Butrans 10mcg demo patch and asked him if he knew what it was. He said ummmm a fentanyl patch? I said doctor I can see I need to spend more time here. I explained what Butrans is and indication which he said he treats those types of patients. I also explained that butrans is not drugesic and there were no head to head studies. He said he never write it cause no one covers it. I said if that was your reason before he should start writing it because...explained the commercial savings program. I told him when he has Tramadol patients that are not being controlled this was a schedule 3 extended release option for their chronic pain that will require analgesia for an extended period of time. Left the opioid study. OxyCotin was quick- but he did know more about it than Butrans.
PPLPMDL0020000001	Cleveland	OH	44119	8/20/2013	I met w/ the Administrator, Nancy Sugarman and D.O.N., Tracy Orsic. I introduced myself and Purdue's Nurse Educator program. Unbranded and branded educational in-service topics were presented. This 100 bed facility is comprised of LTC, Skilled and hospice. The also have assisted and independent living. Tracy said, "we have a fair amount of residents that we treat for pain. Tracy said, we do not use a lot of Oxycontin." When asked what do they use?, she said, "its whatever the Doctor orders." They currently have no computerized system in place for pain documentation. Pain scale used is numeric and wong baker. The medical director is Joseph Karimipil. NP's are also used. CPP is Accuscripts formerly Pharmed Corp. Nancy said, "they just changed 2 wks ago, but the office is the same." Nancy informed me that they work closely w/ hospice of the Western Reserve and also use them for pain management referrals. She did show interest in Purdue's NE program. Nancy and Tracy will talk it over and get back in touch w/ me.PAP handouts and my BC were left w/ them.I stopped by Dr. Karimipil's Office, he would not be in until the afternoon. The recept. informed me that they had info on Butrans from a Rep, who no longer works for Purdue from a long time ago. I left Butrans information and my BC.
PPLPMDL0020000001	Uniontown	OH	44685	8/20/2013	I asked dr if she prescribe IR opioids like tramadol or vicoden? Dr said she does but told me that she told me before that they are only prescribed for acute pain and she will not prescribe ER opioids. I reminded dr that Butrans is a schedule, 7 day controlled release product. Intermezzo indication, dosing and limitations to use. I have her the patient profile packet and asked her to prescribe.
PPLPMDL0020000001	Bedford	OH	44146	8/20/2013	Updated dr on program attendees. Provided Butrans patient tear sheets to other office location and discussed their use. Asked dr if he thinks there are patients on Percocet who might be ready for ER oxycodone. Dr said sure. Reminded him of indication and limitation of use of Intermezzo. Discussed senakot for opioid induced constipation
PPLPMDL0020000001	Parma	OH	44129	8/20/2013	Dr had people in his office and was busy but staff said he would be around wed afternoon even though they don't usually work wed. I asked dr if he would be able to attend the program and he said no. I told him I will follow up tomorrow to find out more about his latest butrans patient
PPLPMDL0020000001	East Cleveland	OH	44112	8/20/2013	Invited Latoya to upcoming Butrans Moufawad program, Hasnt had the opportunity to recommend/distribute any Butrans patient info booklets. OxyContin Q12h- Mentioned Dr. Smith as Key prescriber
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Discussed Butrans in the Assisted Living/elderly setting, likes delivery system along with Ed RPH-St. Augustine but cost/ins. coverage is the major issue. Went over Initiation/Titration. Dr. stated their is a huge treatment gap in treating pain. Asked if he would consider Butrans in filling that gap? and he would consider. OxyContin Q12h, confident treater
PPLPMDL0020000001	Parma	OH	44129	8/21/2013	Asked dr what is keeping him from prescribing butrans and he said he has does not remember. I reminded him that there are patients with gi issues or are on round the clock ir that need a dose adjustment and these are butrans patients. Dr said he knows and will try harder. Reminded him that he has Percocet patients that are not managed and they are candidates for OxyContin. Reviewed dosing options and appropriate patients for intermezzo-<font color=blue><b>CHUDAKOB's query on 09/02/2013</b></font>-Marcia, to focus on patients with GI issues will certainly greatly narrow the patient selection for Butrans. Stay focused on the patient profiles, mostly the tramadol patients but the data should help you determine that. Does he believe the product works? That is the first step.<font color=green><b>KENNOMA's response on 09/03/2013</b></font>-Ok!y I will give him the clinical data and ask about the inclusion criteria<font color=blue><b>CHUDAKOB added notes on 09/05/2013</b></font>-Just trying to not narrow your patient focus. While GI issues are a place for Butrans, we don't want the physician focusing on only those patients.
PPLPMDL0020000001	Akron	OH	44333	8/21/2013	Quick call in Fairlawn. Reviewed patient types they need to look for when it comes to Butrans and asked his opinion about promoting Butrans to orthopedic surgeons like Scott Miller? Dr said that following surgery ORS drs will prescribe 4-6 weeks of an IR opioid and then the patient will come to see a pain dr like him for follow up therapy. Dr said he will not use Butrans because ORS drs are trying to get away from chronic pain therapy because of their speciality and because of 58 93. Dr said OxyContin is more applicable. I asked dr to continue preaching all products including intermezzo and reviewed dosing and indication.
PPLPMDL0020000001					

	Solon	OH	44139	8/21/2013	Extended an invite to dr for butrans program and he said he would not be able to attend. Discussed OxyContin broad formulary coverage with formulary grid and reviewed lower dose conversion of Percocet patients to OxyContin. Provided Butrans reminder with nancy profile piece
PPLPMDL0020000001					Quick hallway call. Asked if dr would be attending the butran program and she said no. Asked her to review the OxyContin dosing and conversion for her Percocet patients.
PPLPMDL0020000001	Parma	OH	44129	8/21/2013	Confirmed Linda attendance at the program. She said she is not familiar with butrans and the practice does not write OxyContin. I reviewed Intermezzo dosing and administration.
PPLPMDL0020000001	Parma	OH	44129	8/21/2013	Caught dr in hallway and showed him the Scott profile for Butrans and the label update for OxyContin. I asked dr to continue prescribing Butrans and to initiate early like in patients like Scott. Dr said he likes and wants to get his patients on long acting opioids as soon as possible. Dr said he will review the label update. I asked him if it makes sense for him to prescribe OxyContin for his patients on Percocet? Dr said yes for sure and said he did two of them this morning.
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Visited Anes/Pain, Ortho 5th floor -attempted to follow up with Dale/Carlos in regards to in-service on floor. Dale was unavailable. left Butrans/OxyContin info for Daoud/Shen. Visited in-patient pharmacy-Left card for Jeff
PPLPMDL0020000001	Cleveland	OH	44195	8/21/2013	Visited CCF W.O Walker bldg. Pain/Anes dept. left OxyContin/Butrans info. for Anne Crawford, Stanton-Hicks, Leizman. Neuro C-25- Left Butrans info Dr.Bamford/Left Butrans FPI's with Michaela- for fellows. Confirmed Dr. Chang's attendance to program
PPLPMDL0020000001	Valley View	OH	44125	8/21/2013	Talked with Aaron in regards to upcoming Butrans Moufawad program, he hopes to attend
PPLPMDL0020000001	Cleveland	OH	44102	8/21/2013	Attended Butrans/Moufawad program
PPLPMDL0020000001	Stow	OH	44224	8/21/2013	Gave dr the Scott profile in the hallway for Butrans and asked him to prescribe more Butrans for patients like Scott. Dr said he had a lot more vicoden patients as referrals and asked about dosing for those patients. I showed him the nancy profile and explained the starting doses and conversions. Dr said thanks and will continue prescribing.
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Visited Pharm. Left card/Butrans/OxyContin info for Jeff,RPH. Mike is mainly at Fairview-does see reps at that location on occasion
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Left info and Card for appt with Jeff/Mike. Tech suggested emailing appt. request. Doesnt really meet with reps unless something is set-up, does look at info
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Attended Butrans/Moufawad program
PPLPMDL0020000001	Cleveland	OH	44109	8/21/2013	Attended Butrans/Moufawad Program
PPLPMDL0020000001	Akron	OH	44320	8/21/2013	I asked dr if she could identify a few patients that she is continuing to refill on tramadol or vicoden and evaluate if they would be candidates for Butrans? Dr said she will and does continue to keep Butrans in mind for patients on short acting pain killers. I reminded her about steady state, titration and conversions. OxyContin new labeling information and asked her to review. Asked dr to continue considering OxyContin for those Percocet patients who are failing or can't tolerate it. Reviewed intermezzo dosing and indication.
PPLPMDL0020000001	Akron	OH	44320	8/21/2013	Reviewed OxyContin labeling change and asked her to review and prescribe OxyContin for patients of hers needing a dose adjustment on Percocet or not tolerating it. Discussed conversions and titration. I asked her to use Butrans for patients needing a dose adjustment on tramadol or low dose vicoden and reminded her of the conversions and copy cards. Dr said ok and she will look for more patients.
PPLPMDL0020000001	Parma	OH	44134	8/21/2013	Spoke with Erica about butrans titration guide and the use of supplemental analgesia. Reviewed the start principles of OxyContin. She had to get back to patients so I was not able to discuss Intermezzo
PPLPMDL0020000001	Parma	OH	44134	8/21/2013	Spoke with pharm tech about butrans prescriptions and Lisa said they had a few but not that many. Reviewed proper disposal of butrans. Discussed titration of OxyContin and start principle. Asked if they filled a lot of sedative hypnotics and she said yes. Discussed Intermezzo indication and limitation of use.
PPLPMDL0020000001	Independence	OH	44131	8/21/2013	Dr recited intermezzo dosing and I told him that was correct and if he had written for a patient with motna and he said they could not get it approved. I told him OxyContin had broad coverage and his Percocet patients needing a dose adjustment could switch to OxyContin if they are now in need of an ER. Asked dr what is keeping him from prescribing butrans and he said memory. I told him the dose titration guide can serve as a reminder and try to remember one patient this week
PPLPMDL0020000001	Independence	OH	44131	8/21/2013	Quick meeting with dr reviewing OxyContin dosing and titration and butrans patient profile nancy. Dr had to go.
PPLPMDL0020000001	Cleveland	OH	44102	8/21/2013	Attended Butrans program. Also discussed OxyContin q12h, tablet strengths
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Reminded of Butrans for those Ultram/Tramadol failures along with dosing. Overall her patients are adequately controlled. Intermezzo for MOTNA/Dosing, requested Trial Cards and said she will consider.
PPLPMDL0020000001	Cleveland	OH	44113	8/21/2013	Discussed Butrans, Tramadol/Ultram failures- she likes delivery system, but feels most patients are adequately controlled, no complaints from patients, but will keep in mind. Intermezzo for MOTNA/dosing.
PPLPMDL0020000001	Chagrin Falls	OH	44022	8/21/2013	I recv'd a phone call from ADON, Nancy Virginia requesting to change the meeting from today to introduce Purdue's Nurse Educator Program at another time. She is busy w/ orientation.
PPLPMDL0020000001	Parma	OH	44129	8/21/2013	Reminded dr that he said he would not be able to attend the program because he had already attended and that he would write a script instead. Dr said he remembered and is writing. Gave dr quick dosing reminder of oxycontin. Shared sleep calendar for intermezzo and reminded him this was for the caresource patient
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Visited Ortho 6th floor (Bliffeld,Joy,Stearns) discussed OxyContin/Butrans. Met with Pain/Anes. Dale N. PA) discussed how Butrans can be utilized for appropriate patients. Visited 1E floor offices Spine/Surgery obtained clinic days, left card and info.
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Discussed OxyContin Q12h, dosing strengths. Dr./Debbie RN said they dont like to prescribe OxyContin, challenged them about Percocet/Vicodin utilization, agreed and would consider. Intro. Butrans, Indication, Initiation/Titration and agreed they see chronic pain patients and like the option but dont want to get into medically managing pain. Agreed to ask Dale N (PA) for assistance. Asked and they agreed to Handout Butrans Patient info booklets to appropriate patients
PPLPMDL0020000001	Cleveland	OH	44114	8/22/2013	Talked with Casey/John, Discussed Butrans indication, dosing, Scott profile. They agreed Butrans is effective/next step when Tramadol/Ultram are not adequately controlling pain. Dr./practice likes coverage w/BWC, because they see alot of those patients. Intermezzo for MOTNA/dosing. Requested Savings/Trial cards for both products. Dr.Celeste/Carson expected to join practice??? TBD
PPLPMDL0020000001	Euclid	OH	44117	8/22/2013	I recv'd a call from D.O.N., Kathy Nemeth to schedule a Butran's in-service for the nursing staff for October 2 @ 7am, 2:30pm & 3:30pm. I also talked t6o her about aranging a Butran's luncheon for her NP. Kathy will talk w/ her and get back w/ me.
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Attended Butrans Moufawad program
PPLPMDL0020000001	Cleveland	OH	44195	8/22/2013	CCF Fellow Attended Butrans program
PPLPMDL0020000001	Cleveland	OH	44130	8/22/2013	Quick window call. Asked dr if he has thought about our lunch conversation where he was going to think about his Percocet patients needing a dose change. I asked him to think about OxyContin for these patients if they have been on ir for more than 3 months. As he walked away I asked him to remember the butrans pain patch.
PPLPMDL0020000001	Lyndhurst	OH	44124	8/22/2013	I made a drop-in visit to meet w/ Diana Howard in Staff Development to introduce myself and Purdue's Nurse Educator Program. I spoke w/ the receptionist who called her office. I was informed that without an appt., Diana is not available. I left Purdue educational offerings and my BC.
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Visited Pharm. talked with tech/ Justin on conf.call. Left Butrans patient info booklet
PPLPMDL0020000001	Cleveland	OH	44109	8/22/2013	Attended Butrans Moufawad program
PPLPMDL0020000001	Fairlawn	OH	44333	8/22/2013	I placed a phone call to the Receptionist Helen to get the name of the new Medical Director. The Medical Director is a father/Son team: Dan Cannone and Sean Cannone
PPLPMDL0020000001	Beachwood	OH	44122	8/22/2013	Was informed that this was doctors last day in the office until after Labor Day. Asked dr if he would think of OxyContin and Butrans patients today.
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Quick Butrans reminder, for those Tramadol/Ultram failures, left info along with OxyContin dosing/Titration guide. Aurora said most pain patients are referred out to Shen-Pain mgmnt
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/22/2013	I asked dr if it is fair to assume that most of analgesics her patients are on around the clock are NSAIDs and tramadol? Dr said she will agree with that. I showed her the Butrans decision tree to show her proper initiation and titration for both naive and experienced patients with opioids. Dr said she liked the piece. I told her when her patients need a dose adjustment on either a non opioid analgesic or opioid to use Butrans instead of titrating or moving to another IR opioid. Dr said ok and that she has been having good success. I told her to remember the Caresource coverage and explained the PA. Dr thanked me for the information.
PPLPMDL0020000001	Mogadore	OH	44260	8/22/2013	Discussion about all products over lunch. I asked dr to provide me specific information about his success with Butrans recently. Dr Cain told me that he likes it because it is a low dose, schedule 3, 7 day patch that gives good efficacy and it is tolerable. Dr told me that his patients really like and have had an improvement in their quality of life. I showed dr the Butrans decision tree and asked him how he decides on when to titrate and if he uses pain scales? Dr said pain scales are useless because they are widely exaggerated by the patient as to how much pain they are in. Dr said he has a conversation with the patient and asks them questions about activities of daily living better, same or worse. I asked for his continued business. OxyContin new label information and asked him to continue prescribing. Intermezzo patient identification and asked for more business.
PPLPMDL0020000001	Akron	OH	44312	8/22/2013	Spoke with Chris the pharmacy manager about all products. I asked Chris how much Butrans he has been seeing lately? Chris said more than the last time I visited which was in June. I asked him who is prescribing and he said more pain management offices than internal medicine except dr Cain who he has filled a few for recently. Chris said he has patients from Summit Pain, western Reserve Hospital pain among others. Chris said he refilled a Butrans 10mcg for a patient who was on 25mg of fentanyl who wasn't getting any relief from it. Chris said the patient told him the Butrans is working much better. Discussed proper initiation and titration and using Butrans for opioid naive patients. Discussed OxyContin label update and abuse deterrent studies which he said he will review. I asked if he has filled any more intermezzo and he said he didn't think so. Gave him copy card
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/22/2013	Quick minute with dr and asked him how his patients are responding to the Butrans? Dr said most have done really well with it. Dr said that because his patients are mostly on tramadol and lower doses of vicoden when he starts Butrans may have something to do with them responding well to it. I agreed with him and asked him to also consider using Butrans for his opioid naive patients. Discussed the initiation and titration piece and Maria profile. Dr said he will continue to prescribe
PPLPMDL0020000001	Cleveland	OH	44130	8/22/2013	Quick call, asked dr if he could get feed back from his patients on butrans would he be interested. He said he did not have time right now to discuss this and I said I would review the butrans patient experience kit on our next visit and oxycontin titration
PPLPMDL0020000001	Mayfield Hts	OH	44124	8/22/2013	At lunch, Dr told me he wrote for Butrans 15 mcg/hr, and it wasn't available yet at pharmacy. I asked, how did you find out about that dose? We haven't announced it yet? He got something for training, since he's a speaker. I told him the FDA just approved this dose and it should be available & start shipping to pharmacies in October. He thinks this dose is good option for titration and will start using immediately post launch. Discussed Medco Med D preferred status/other preferred plans. With OxyContin, please consider those patients you have on short acting oxycodone or percocet,he interrupted, and said, they'd be on same molecule, yes, same molecule, just different delivery, a 12 h dosing. Ok, I will consider he said. And dr. Jaham, we have broad commercial formulary coverage and favorable Medicare Part D coverage for OxyContin controlled release. Intermezzo, he said, I've written it, patients like it, and when I mention it to them again, they state my insurance wouldn't pay for Intermezzo, so he has to write something else. The generics are so much cheaper as well. Went over prn, and patients 30 day script may last longer, as only used on 62% of nights in our outpatient study. I will follow up with you when I get back from Stamford after Sept 2.
PPLPMDL0020000001	Beachwood	OH	44122	8/22/2013	Asked to make an appointment with the dir of nursing and was told her name is Cathy. Spoke with a nurse who walked into the office and explained that that I had butrans, OxyContin and intermezzo and I would like to provide an Inservice. I reviewed the butrans titration guide and asked if she heard of butrans. She was not aware and thought an Inservice would be a good idea and I gave her my card. I showed OxyContin dosing. Described intermezzo indication and limitation of use. She said Intermezzo might not be a good use in the nursing home because they don't want patients waking in the middle of the night.
PPLPMDL0020000001	Tallmadge	OH	44278	8/22/2013	Saw dr in Tallmadge office and had short discussion about OxyContin and Butrans. I showed dr the conversion and titration guide and explained the conversions from IR oxycodone and Percocet. I asked dr if he had any issue with assessing his Percocet patients for OxyContin? Dr said he does and will try to look more often. Told dr about Butrans and gave selling messages. Dr said he can see how it is a good option. I asked for him to try it and let it prove itself.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44130	8/22/2013	Introduced myself to pharmacist and asked about butrans usage. Dawn said she has not seen any usage. Reviewed titration guide for butrans. Discussed start principle of OxyContin. Asked about intermezzo scripts and she said she has not seen any in awhile.
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Discussed OxyContin Q12h/7 tablets strengths, Dr. said he only prescribes for short period time in-hospital and slowly takes them on the pain med. spectrum. Intro. Butrans Indication/Initiation/dosing/Titration. Dr. stated he does not treat much chronic pain but will consider when appropriate. Inquired about in-hospital formulary and stated with indication, it would be tough to add.
PPLPMDL0020000001	Bedford	OH	44146	8/22/2013	Discussed proper disposal of butrans. Asked what they felt was the greatest issue patients have using Butrans. Tiffany said patch application and I asked what that meant. She said that patients sometimes put the patch in the wrong place. I told her the dr requested butrans tear sheet that I think will help with this and hopefully reduce the calls she may get. Discussed titration every 1-2 days if necessary and they said the dr does not adjust doses until he sees patients again. Reviewed intermezzo dosing and administration with sleep calendar.
PPLPMDL0020000001	Akron	OH	44305	8/22/2013	I asked dr when he has a patient who is failing their IR opioid and has chronic pain, what reasons do you have to titrate it instead of moving to an ER product? Dr said its usually cost. I asked if that was the only reason? Dr said there are others such as acute pain but mostly its cost. I told dr that if cost is really one of just a few reasons, to use Butrans when cost is NOT a factor and the patients meets the indication. Dr said ok and agreed. I spoke with El the receptionist and discussed Butrans and the insurance coverage since she completes the prior authorizations. Discussed copy cards with her and dr and Caresource PA. I gave dr the oxycontin conversions guide and discussed the conversions from IR oxycodone and Percocet. I asked dr for more OxyContin prescriptions for those patients who are failing or not tolerating Percocet. Dr agreed. Gave him the dosing guide for this type of titration and most go from the 10 straight to the 20. Reviewed intermezzo dosing and administration.
PPLPMDL0020000001	Bedford	OH	44146	8/22/2013	Spoke with floater pharmacist and asked about butrans stocking. He said they had all strengths. Reviewed titration guide and morphine equivalent dosing. Reviewed start principle of OxyContin and he said he has not seen this type of titration and most go from the 10 straight to the 20. Reviewed intermezzo dosing and administration.
PPLPMDL0020000001	Cleveland	OH	44130	8/22/2013	Asked dr how he re-assess pain once patients are put on long acting opioids to determine if the dose is correct. Dr said yes and walked away. As he was walking away I asked him to write OxyContin for Percocet patients needing a change in medication that were appropriate and think of patients with GI issues from their pain meds and candidates for butrans.
PPLPMDL0020000001	Lyndhurst	OH	44121	8/22/2013	Left OxyContin pharmacists guide, savings flashcards all 3 products, with Akta Patel, OxyContin, q 12 h recommended dosing, reformulation, updates to section 9.2 of FPI discussed. Butrans they get an Rx in every few months, not as steady as OxyContin. 3 doses core messaging, cIII 1 x patch, steady state & supplemental analgesia all discussed. Intermezzo, Akta has never heard of product. Detailed indications limitations, peak plasma gender dosing, prn, sublingual all included in message.
PPLPMDL0020000001	Beachwood	OH	44122	8/22/2013	I made a drop-in visit to meet w/ Nurse Educator, Merri Bunge to talk w/ her about re-scheduling the pain management in-service. I spoke w/ the receptionist April, who informed me that Merri was busy w/ teaching. I left Purdue educational offerings along w/ my BC.
PPLPMDL0020000001	Bedford	OH	44146	8/22/2013	Spoke with dr about the program and asked him if he was not leading a speaker program how would he have answered the question why butrans. Dr said he thinks patients don't think about their pain so much when they are not constantly reminded of it when they take a pill. I asked him how that relates to OxyContin and he said twice a day is still a difference from IR. I asked the dr to think of his Percocet patients in need of a dose change. Also reminded him that he has not written any intermezzo and he said he keeps forgetting it is covered by caresource.
PPLPMDL0020000001	Cleveland	OH	44113	8/22/2013	Met with Dale, Reviewed discussion with Ortho-Efflor Bilfeld/Stearns. Went over OxyContin Q12h and 7 Tablet strengths. Agreed to assist when appropriate. Also Asked if he felt Butrans was an option for some of these chronic pain patients that require around the clock therapy (Ortho patients) and agreed to discuss/consider with Dr. Shen
PPLPMDL0020000001	Cleveland	OH	44145	8/22/2013	1. Determine changes to their business since our contract terminated 2. Determine how health exchanges will impact their business 3. Present OxyContin and Butrans updates
PPLPMDL0020000001	Tallmadge	OH	44278	8/22/2013	Spoke with Brittany the pharmacy technician about all products. Explained Butrans schedule 3, 7 day transdermal system, dosing, conversions and patient types. I asked Brittany who they are seeing prescription from? She said they filled one for Dr Sellers and Vora recently and have also filled for Hodakievic and Dmitri in pain management. I discussed OxyContin new label information and reviewed doses. Brittany said they have a full stock of all OxyContin doses as well as many of the Butrans since they are seeing more. Gave her intermezzo indication and dosing and Brittany said she doesn't believe they have filled.
PPLPMDL0020000001	Cleveland	OH	44102	8/22/2013	Discussed with Ed in regards to Butrans utilization in the assisted living setting. Likes delivery system, only concern along with Dr. Nouraldin Medicare Part D coverage. Does have RPH staff at times do PA's and will consider with Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/22/2013	Spoke to Glenn the pain management staff pharmacist about Butrans and OxyContin. I asked him how smoothly things have been going with getting Butrans pushed through? Glenn said they have not had many issues at all. I reviewed the product and new formulary coverages. Spoke to him about the new label update and abuse deterrent studies for OxyContin and asked him to review.
PPLPMDL0020000001	Tallmadge	OH	44278	8/22/2013	Spoke with dr wells at same time as dr Shanfelt. I showed dr the OxyContin conversion guide and explained the conversions. I asked him to pause before refilling moderate doses of vicoden or Percocet and check if the patient is appropriate for Q12h dosing of OxyContin. Dr said he tries to do that but said some patients he has tried have told him they didn't want OxyContin and would not take it. I gave him the abuse deterrent studies and asked him to review. I reminded him that Percocet and OxyContin are the same except for dosing and ER vs IR. Discussed Butrans key messages and asked if it made sense to him and if he would try it? Dr said he would consider to use earlier than fentanyl and asked about conversions. Discussed conversions from IR opioids. Dr said he would try. Talked about insurance and copy cards.
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	left butrans materials behind for the doctor. discussed what butrans is and the appropriate patients.
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	Dr. said:he doesn't treat patients that need continuous narcotics. I said what types of patients w/pain do you treat? He said treats alot of comorbid depression, diabetic pain, fibermelagia. He said he doesn't like to treat Osteoarthritis and he treats mostly short term pain. I said how long is short term, he said if they are on pain medications over a year he will refer them out. I asked how his patients were doing pain were doing on the Butrans. he said fine. I told him that I wasn't looking for him to place every pain patient on Butrans. We spoke about the appropriate patient type according to the naive study (and the limitations), dr was shaking his head in the no direction. I said so when patients are taking nsais or non opioids for their pain that is for an extended period of time and chronically...if they fail what do you do? He said that's when he will use an extended release product like Butrans because he doesn't want to give them pills to prn self medicate. I re-enforced the decision, reviewed the initiation of butrans onto the lowest dose of 5mcg waiting 72 hours (steady state) to titrate them to 10mcg. Dr. asked coverage and asked about high deductual plans. And that patients won't pay for Butrans if it was too expensive. I said true. But how do you keep track of everyone's pbn? He said "I don't". I said so do you still write for your first choice? He said yes. I re-enforced his decision. Bridge to OxyCotin- dosing review.
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	Started off talking with drs nurse about Butrans- showed the patch, explained what it was for, patient types. She asked about Medicaid patients. I reviewed the commercial savings program to her- dr. said hello to me thru the window. I introduced myself to him and said I was just showing your nurse what this pain medication is and does. He said what is it, I said its called Butrans ever hear of it. He said NO. I went thru the approp patient types and the indication- not for acute or prn. I said have you ever tried a non Opioid for chronic pain? He said yes? I said what if its not working? He said he will move to a schedule 4 or tramadol. I said ok, makes sense. And Dr. if Tramadol ends up not being enough pain relief you have an option of using Butrans 5mcg for that appropriate patients.
PPLPMDL0020000001	Stow	OH	44224	8/23/2013	I asked Abby to come to window to discuss Butrans. I showed Abby the Scott profile and reviewed how she needs to initiate Butrans early in treatment. I asked her if she has any patients that she is currently refilling tramadol or even vicoden each month? She said she has many of them. I asked her to take and extra minute to assess if they would be appropriate for Butrans. Abby said she will do that. I reminded her about the Caresource coverage and PA, BWC, and Medicare D plans.
PPLPMDL0020000001	Cleveland	OH	44114	8/23/2013	Spoke with Office Mgr. Dr. Carson is supposed to join practice soon. Check back in Sept.
PPLPMDL0020000001	Cleveland	OH	44103	8/23/2013	No new prescribers, Most RX filled are managed medicaid, no need for OxyContin/Butrans/Intermezzo savings cards.
PPLPMDL0020000001	Cleveland	OH	44113	8/23/2013	Quick follow up from Butrans program. She thanked me for planning and always enjoys Dr. Moufawad. Asked for any key takeaways.. said it was good Butrans refresher, thanked for her support and asked for a new start today dr did not stay for lunch today, was taking the afternoon off. Asked about butrans experience. He didn't have any patients on the product, I said why not? He said not the right patient yet. I wanted to get into more, but he was walking out the door.
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	Didn't get to see the doctor, lunches are full on waiting list. Asked how the doctor can find out about a new product. she said I can leave items, asked for time...not today she said. Left Butrans study and OxyCotin titration
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	Review of Butrans- pointed out the naive study with the pain reduction of the open label phase. Also discussed titration 3 days with butrans. OxyCotin review of the 7 dosages & titration guide booklet
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	Asked if he knew much about Butrans- shared some key points regarding the naive study (open label:reduction in pain scores). Left Initiation and titration leave behinds on Butrans and OxyCotin.
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	Didn't see dr. spoke to Ma about what is the best way to communicate a new product with the doctor. MA said he doesn't read the material, but I left a Butrans study and OxyCotin titration guide behind anyway
PPLPMDL0020000001	Hudson	OH	44236	8/23/2013	I handed dr the Butrans slide guide conversion guide and told dr to keep it with him to help remind him about using Butrans when a patient needs a dose adjustment on their IR opioid. I told him about the scale and told him steady state is 72 hrs and titration at that point. Dr told me that he tries to keep it in mind and the slide guide will help.
PPLPMDL0020000001	Cleveland	OH	44115	8/23/2013	Visited Medical offices Levy,Stickney,Blades MD along J. Reisman ONC. Ortho-Perse and Stanley. Left OxyContin Dosing/Titration guide. Left Butrans patient info guides with Pain Ctr. for Dr. Nickels.
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	saw doctor, on her way home for the day. Left her the OxyCotin titration guide and a butrans maria patient profile for her to read.
PPLPMDL0020000001	Cleveland	OH	44112	8/23/2013	Butrans reminder for those Ultram/Tramadol failures. Asked Dr. what she does when those are not adequately controlling pain. Said in today's world..not much..not prescribing many opioids/narcotics anymore. Sometimes pain mgmt..but her patients dont follow thru. Intermezzo for MOTNA/dosing along with trial savings cards
PPLPMDL0020000001	Cleveland	OH	44113	8/23/2013	Follow up from Butrans program, enjoyed and found Dr. Moufawad informative. Liked discussion on Helen profile. Asked her to continue to find new patients to start on Butrans- she agreed.. Reminded of all those LorTab failures that are requiring around the clock therapy
PPLPMDL0020000001	Beachwood	OH	44122	8/23/2013	Spoke with pharm tech about butrans movement. She said she was not sure but know what butrans is. Reviewed proper application and tear sheets for butrans. Reviewed start principle for OxyContin. Asked if she knew what intermezzo was and she said no and when I explained then she remembered it was zolpidem. I gave indication and limitation of use of intermezzo
PPLPMDL0020000001	Cleveland	OH	44195	8/23/2013	MSL phone call and email to Ms. Lach, Ms. Cassano, and Dr. Appachi to request OTR3001 meeting with Ms. Lach and Dr. Appachi to discuss additional sub-investigators and potential patient populations. As of 8/28, no response from site.
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/23/2013	Spoke to Mary the floating pharmacist about how to stock the other mcg of Butrans and she said it was by demand. They had a 10mcg on the shelf for a certain customer that get refilled of it every month. Reviewed the naive study and steady state and pain reduction scores in the open label. OxyCotin was the variety of doses, asked about stocking and she said they don't stock many opioids at this store but the Avon commons stores carries
PPLPMDL0020000001	BEACHWOOD	OH	44122	8/23/2013	Spoke with Judy the pharm tech because the pharmacist was busy. She said she has not seen butrans but I would need to speak with the pharmacist. I reviewed start principal of OxyContin. Asked about intermezzo and she said she is only aware of the one script that she worked on a long time ago. Reviewed indication
PPLPMDL0020000001	Westlake	OH	44145	8/23/2013	introduction to NP. Discussed patient types for Butrans and she said he really works with Dr. gerace about which products to select for patients with pain cause she doesn't treat much. I said what do you consider to be an extended period of time? She didn't know...longer than 3 or 6 months she said. We talked about how every patients explains a different level of pain, that no pain is the same. I pulled out the pain scale ruler and said you may score a 5 with a pain and another an 8. So when you run into a situation where a patient isn't getting the pain algesia like you feel they should and they need something for around the clock- for an extended period of time chronically they may be a candidate for Butrans 5mcg. explained the patch design, showed it to her (demo) and how it's supplied. Also reviewed the limitations of NOT for PRN and NOT for acute pain patients. Intermezzo- dosing, indication highlighted but didn't get into time for more on this product since she was trying to work over her lunch with papers.
PPLPMDL0020000001	Cleveland	OH	44115	8/23/2013	Quick call with George RPH, OxyContin Q12H and no new Butrans from Nickels (Pain Ctr.)
PPLPMDL0020000001	Cleveland	OH	44114	8/23/2013	Quick Butrans reminder, Tramadol/LorTab failures. asked her for a new start today, said she will consider

PPLPMDL0020000001	Olmsted Falls	OH	44138	8/26/2013	Met dr. Hr told me that he doesn't treat much pain patients that require around the clock therapy and that he treats mostly prn or acute. We discussed the naive study the patients involved and the pain reduction during open label. And discussed the starting dose. Dr identified with using Tramadol for his pain patients, he was not aware the Butrans was schedule 3 nor that it was for 7 days. We discussed stray state and he asked about site irritation, which we reviewed together as 7 percent. He asked managed care- and asked if patients could go on line and print off coupons. Reviewed the information.
	Olmsted Falls	OH	44138	8/26/2013	Lunch. Dr said he uses Butrans after a short acting (Vicodin) failure. Dr treats some pain in house but will refer others out if patients pain can not be clearly identified. Dr uses lower doses of Tramadol. Dr said he doesn't like to dose with short acting opioids because of the drug plasma levels taper off too fast. Dr asked about Butrans- I showed plasma levels - used the graph. Also reviewed the steady state of the product. Dr w not aware the Butrans was a schedule 3 and the only extended release schedule 3 on the opioid market. Dr asked about savings program in detail. Identifying the patient type was helpful- pain secondary to a known pathology (indication...). Dr said that he would not write Butrans after a NSAID failure. But he might write Butrans after Tramadol failure- which is where we asked him to use the product. Also discussed OxyContin and the variety. Of strengths available. Told dr I would be back to check to see if he has tried Butrans in an appropriate patient type. Left him reading Materials.
PPLPMDL0020000001	Berea	OH	44017	8/26/2013	Asked dr if he knew what the demo patch of Butrans was...and dr said it was a transdermal pain patch but he didn't have time today to discuss anything further. I have a Lunch coming along with the new dr. Powers. Left behind product materials for review.
PPLPMDL0020000001	Westlake	OH	44145	8/26/2013	I placed a call to see if a new D.O.N. has been placed. I was informed by the receptionist, that they do have a D.o.N. and her name is Kelly Rosnagel. Kelly was in a meeting and not available. I left a msg. on her voice-mail.
PPLPMDL0020000001	Bedford	OH	44146	8/26/2013	I placed a phone call to the D.O.N., Jackie Conner. I introduced myself and Purdue's Nurse Educator Program. An appt. was scheduled for Tuesday Sept.10th @ 11:30 to discuss in more detail.
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/26/2013	Met at the pharmacist- discussed stocking the 15mcg of Butrans. He said they usually wait for more scripts but might order the 15mcg cause its new. Discussed Butrans starting dosages and when to titrate and 7 day transdermal patch.
	Akron	OH	44333	8/26/2013	Spoke with dr about prescription plans that will be the path of least resistance for his patients. Discussed BWC , Caremark, medical mutual, and ESI. Explained the average copy's for each and to focus on those pans for success. Discussed his dosing of Butrans. Dr said he is still finding that the 5mcg is not quite enough, titrates to the 10mcg and gets good results however the 20mcg tends to be too much for his older population. I expressed the proper titration period and that patients on Butrans can also take IR opioids for breakthrough if necessary. Dr agreed and said some of his patients on 10mcg need breakthrough. I asked for continued business. Dr told me how much OxyContin he has been using lately. I asked dr where he is using it and whey more now? Dr said that I tell him all the time to use it for his Percocet patients needing more of an ER product and said it has good insurance coverage. I asked for his continued business. Asked dr for intermezzo business and to use it for his Caresource patients.
PPLPMDL0020000001	Akron	OH	44313	8/26/2013	I asked to prescribe OxyContin for his patients on Percocet around the clock who are still in pain or can't tolerate it. I asked him if he would take a second before his refills Percocet and evaluate them for q12h OxyContin. Dr said he would do that. I asked dr if he has prescribed Butrans yet? Dr said no. I asked him why he has not? Dr said he just hasn't found the right patient. I asked dr what that right patient looks like? Dr said the patients on vicoden who are uncontrolled. I showed him the Scott profile and asked him to back it up one medicine to Ultram. Dr said it makes sense. I asked him to use Butrans as early as the uncontrolled NSAID patient.
PPLPMDL0020000001	Akron	OH	44333	8/26/2013	Spoke to Scott one of the staff pharmacy technicians. Found out that they deliver prescriptions for mostly MR/DD homes and facilities and will not deliver Scheduled medicines. Discussed Butrans which he did not know about and hit all key selling messages. I asked who they get most of their prescriptions from? Scott said most facilities have their own staff physicians but other patients just use their own family doctor or specialist.
PPLPMDL0020000001	Fairlawn	OH	44333	8/26/2013	Spoke with dr at counter and asked him what triggers him to move for percocet to ER product? Dr said he will put patients on OxyContin if the patient tells him its not working or they can't tolerate it. I asked him if he always moves to OxyContin from Percocet? Dr said he tries to as long as their insurance covered it. I showed dr the conversion guide and asked him to use OxyContin earlier in treatment with Percocet and spoke to him about the conversion to the 10mg dose. Handed dr the Butrans decision tree piece and asked for him to use it early on in treatment such as patients failing tramadol.
PPLPMDL0020000001	Fairlawn	OH	44333	8/26/2013	Spoke to Cara who is the Rite Aid floater Sue and the student Inna. I asked Cara about her thoughts on Butrans, how often she sees it, conversions and patients types. Cara didn't have too much knowledge in the product so I brought her up to speed with all Butrans key selling messages. Cara said she has seen on a couple of occasions patients coming in to fill Butrans and e rite aid didn't stock it and the patients went somewhere else. I expressed the importance of stocking especially in rite aid pharmacies that see it more regularly. Explained the dosing and conversions. I asked her if she would order it in other pharmacies. Cara said ok. Discussed OxyContin dosing and conversions and asked about fill rates. Cara said that she sees refills it fairly often and sees lots of 10, 20and 40mg doses.
PPLPMDL0020000001	Fairlawn	OH	44333	8/26/2013	Spoke with Dave the pharmacist who is a floater and is typically in the Warren Wal-mart. I asked dr if he is familiar with Butrans? Dave said he is and has filled it at his other stores. I discussed Butrans as the schedule 3, 7 day transdermal patch. Discussed dosing, conversions and patient types. I told Dave about OxyContin dosing, conversions from Percocet and formulary coverage. I introduced intermezzo discussing indication, dosing, and limitations of use. Dave said he knows about it but has not dispensed.
PPLPMDL0020000001	Uniontown	OH	44685	8/27/2013	Spoke with Matt the pharmacist about all products. I told Matt any Butrans dosing and new insurance coverages. I asked Matt how often they have dispensed it and he said he filled one from Dr Everly in Green last week and has filled them for Dr Fouad recently. I spoke about OxyContin dosing and conversions from Percocet. Matt said they have Butrans 5 and 10mcg in stock and all of OxyContin. I discussed intermezzo dosing and indication. Matt said they have not filled.
PPLPMDL0020000001	Oakwood Village	OH	44146	8/27/2013	I placed a phone call to D.O.N., Barb Staemple to reschedule in-service cancelled on 7/31. I recv'd her voice-mail. I left a msg.
PPLPMDL0020000001	Euclid	OH	44117	8/27/2013	I placed a phone call to Ruth Rossi 216-531-7426 to confirm an in-service scheduled for tomorrow 8/28 @ 2:30 PM. I left a msg. on her voice-mail.
PPLPMDL0020000001	C. Falls	OH	44223	8/27/2013	Spoke with Catherine the pharmacist and Denise the tech. I asked about fill rates and stocking of Butrans and OxyContin. Catherine said that the continue to fill Butrans but not as much lately. Denise said they are stocking all doses and have 2 of the 10mcg. Discussed new formulary coverage for Butrans and OxyContin patient types.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/27/2013	Showed dr the conversions from Percocet to OxyContin and asked for more of his business when he prescribes ER opioids. Dr said he likes OxyContin. I asked him to re-evaluate his it opioid patients for OxyContin therapy.
	Uniontown	OH	44685	8/27/2013	Spoke with Kim the pharmacist about Butrans and OxyContin. Discussed Butrans dosing and patient types and asked her if she is continuing to fill? Kim said they have patients on all doses. I asked if she is stocking all doses? She looked and said that the have all doses but the 5mcg. I asked her if she will order the 5 mcg dose? Kim said she will order it when they get a script. I asked her why she will wait if they are filling it? Kim said she will ask about ordering it. OxyContin dosing and patient types. Kim said they have all doses in stock.
PPLPMDL0020000001	Solon	OH	44139	8/27/2013	I placed a phone call to Judith Sawtner to re-schedule the in-service on Pain cancelled on 6/7. I was informed by the receptionist that Judith was in a meeting. I recv'd her voice-mail, I left a msg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/27/2013	Short talk with dr about Butrans and OxyContin. Dr said he is continuing to find great success with Butrans and is wishing there would be a 30mg dose. I asked why and he said because 2 20 mcg patches showed QTC prolongation but said a 30mg probably expound not. I told dr I don't know of any doses coming over the 20mcg patch. I asked to continue prescribing and gave him a formulary update. I asked to continue using OxyContin and discussed patient types.<font color=blue><b>CHUDAKOB added notes on 09/16/2013</b></font>-Cliff, please take an extra minute to review your call notes. There are words in the notes that don't make sense and mg where there should be mcg. Please don't answer yes to "did you review your call notes" until you review your call notes. Thanks Cliff.
PPLPMDL0020000001	Cleveland	OH	44128	8/27/2013	I placed a phone call to acting D.O.N., Sherri Grafnitz from the corporate office to talk w// her about rescheduling the in-service on pain documentation that RoseAnne Howell cancelled on 8/14. I spoke w/ the receptionist, Dominique, who informed me that Sherry was not in the building today. I left a msg. on her voice-mail.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/27/2013	Discussed Butrans dosing, titration and patient types. I asked Jake about his recent success and if the is anything he needs to tell me about his patients on e product? Jake said that he has seen good success with Butrans and feels very comfortable with it. He said he has many patients that are having trouble getting Butrans. I asked for him to explain and he said he patients are not able to find their dose at the pharmacy and don't want to wait a day for it. Jake said that others have said they have been told they need to wait for up to 3 days to get it. I discussed how that may be true if they take it up late in the day on a Thursday but otherwise that shouldn't happen. I asked Jake for pharmacy information and I will check it out. Discussed the highlights of the opioid experienced trial and asked him to titrate to the 20mcg dose. Discussed oxytocin dosing, titration, new labeling information and asked him about his use. Jake said he likes it and it works well and most of his patients can get it without an issue.<font color=blue><b>CHUDAKOB's query on 09/16/2013</b></font>"Discussed oxytocin dosing" Oxytocin is a completely different medication than OxyContin. See what I mean about reviewing your call notes?<font color=green><b>REICHCL's response on 09/17/2013</b></font>Sure<font color=blue><b>CHUDAKOB added notes on 09/19/2013</b></font>-Thanks Cliff.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/27/2013	Dr told me he has been prescribing Butrans more recently and his patients are doing well. Dr also said that he had one patient that did not get covered on Caresource and asked for fentanyl first. I asked dr if he's sure it wasn't a Buckeye patient? Dr said he's not sure. Discussed formulary covarge and new Medicare D plans. Discussed the patient types for Butrans and asked him where he is using it? Dr said for his tramadol and vicoden patients. I told dr the earlier the better with Butrans when they meet the indication. Dr asked if he could use OxyContin for acute pain? I read dr the limitations of use from the FPI and told him no that it is NOT indicated for acute pain. Dr said he is using OxyContin a lot for his hospital patients and uses it for many different patients. I asked to do evaluate his Percocet patients to see if they are appropriate for OxyContin.<font color=blue><b>CHUDAKOB's query on 09/16/2013</b></font>-Cliff, read what you wrote " I told dr the earlier the better with Butrans when they meet the indication." Why is earlier better? Do we have data to support that statement?<font color=green><b>REICHCL's response on 09/17/2013</b></font>-We do not have that.<font color=blue><b>CHUDAKOB added notes on 09/19/2013</b></font>-Ok. Be careful saying something that is comparative that we do not have data to support. Thanks!
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/27/2013	Lunch with dr. Review of Butrans naive study with doctor. Asked dr what were this thoughts on the pain reduction information and the dr said it was good, also shared the graph that demonstrated the 53 percent of patients has a 30 percent reduction of pain. Again dr said that was a good number. Discussed his patients he treats with pain- he said after a NSAID failed he will turn to Vicodin or low Mgs of oxycodone. Discussed how to start patients on the 5mcg of Butrans also the 4 location sites where to apply. -Dr asked about Medicaid coverage (Barry mentioned the Caresource pa information) I covered commercial insured Butrans patients. Asked dr if he would ever write Butrans after an NSAID failure and he said yes. Dr wanted clarification that the patch was for 7 days- reviewed. Dr said that he typically gets the pain patients he refers to pain management back after the pain doctors gives the patient 4 pain injection blocks. Barry reviewed OxyCotin strengths and Percocet molecule conversion.
PPLPMDL0020000001	Cuyahoga falls	OH	44223	8/27/2013	I asked Kim about her experience with Butrans and where she has used it? Kim said that she has prescribed it a couple of times for drs Sable and Ali. Kim said that the patients have been on vicoden or Percocet and has seen good success with Butrans for those patient types. I asked if she sees patients on tramadol a. Kim said she does but a very limited number. Kim said most are farther along in pain therapy and are on vicoden or Percocet but only taking 20mg or so per day. I asked if most doses initiated are the 10mcg and akin said yes. I asked her to continue prescribing. Discussed OxyContin and new label information and asked Kim to read over the clinical trials for the reformulation. I asked her when her license enables her to prescribe schedule 2's to use OxyContin for patients who are being refilled month after month on Percocet.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/27/2013	Provided review of Bup 3015 with all doctors in attendance at lunch. Discussed all aspects of the clinical trial and asked dr Narouze his thoughts. Dr said he understands what the clinical trial says and will continue to believe that the 20mcg will not provide additional efficacy over the 10mcg. I asked what percentage of his patients attain the analgesia he and the patient desire? Dr said most of them do well enough on the 10 and don't need the 20mcg. Dr said at times he is fearful of his old and frail patients being on the 20mcg dose. I told dr as long as his success rate is high at the 10mcg his patients are having good experiences with Butrans. Dr agreed. Discussed formulary coverage for Butrans and OxyContin. Dr told me that he has been having a hard time getting OxyContin covered for his Medicare D patients. Dr said that many of them are being required to fail MS Contin or ER morphine. I discussed conversions and asked him to use OxyContin when his patients fail Percocet.
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/27/2013	I placed a call to speak w/ head of education and introduce Purdue's Nurse educator program. I spoke w/ the receptionist barb, who connected me to the D.O.N., Robert Albu.N/A. I left a msg. on his voice-mail.
PPLPMDL0020000001	Olmsted Falls	OH	44138	8/27/2013	I placed a phone call to follow up w/ D.O.N., Pam Riter, after speaking w/ her at the PharMerica Symposium on 8/7 and introducing myself and Purdue's NE program. I recv'd her voice-mail, N/A. I left a msg.
PPLPMDL0020000001	Richmond Heights	OH	44143	8/27/2013	I placed a phone call to speak w/ Joan Southard and schedule an in-service on Constipation. I spoke with the receptionist, who informed me that Joan has not arrived yet. I left a msg. on her voice-mail.

PPLPMDL0020000001	Akron	OH	44313	8/28/2013	Spoke with Natalie the pharmacy technician about products. I asked her how much Butrans they have been seeing in the month of August? Natalie said she just filled one for dr Sable and the patient had a Medicare D plan which needed a PA. Natalie has her stacks of pa forms and this one for sable was approved fairly quickly and the patient got the 5 mcg dose. Natalie said other times she had had Butrans prescriptions with oa's that had not been completed and approved for 2-3 weeks. Natalie said she will typically call the doctor and ask about the prior auth. I asked about their current stocking and told her about the copy cards for commercial plans. I told her about Butrans.com if the patient does not have a copy card. Discussed OxyContin and intermezzo dosing and patient types selection.
PPLPMDL0020000001	Akron	OH	44308	8/28/2013	MSL email communication with Dr. Friebert to discuss preparations for her presentation to PPLP team on September 10. Dr. Friebert is updating bio for introduction, teleconference technology has been checked and is in place for presentation.
PPLPMDL0020000001	Uniontown	OH	44685	8/28/2013	Dr told me that he just refilled Butrans on three patient this morning. I asked him if he knows what the stints were on prior to Butrans? Dr said he knew one was taking vicoden and the other of the three was taking Percocet. Dr said he couldn't remember the third. I reviewed the patient profiles and asked him how often he sees patients on tramadol? Dr said he knows there are some in the practice and agrees with using Butrans there. Discussed his use of OxyContin and discussed conversions and patient types. Dr said he likes OxyContin because its and easy transition from Percocet. Dr agreed to continue to prescribe. Left dr the intermezzo dosing guide.
PPLPMDL0020000001	akron	OH	44333	8/28/2013	Told dr in hallway about how he needs to identify his tramadol patients who are in need of a dose adjustment or can't tolerate it. Dr said he continues to look and asked about Medicare D coverage. I explained the Medicare D plans and he was glad I reminded him about Medco and SummaCare because he has lots of those prescription plans. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44310	8/28/2013	I showed dr the opioid experienced trial and showed him the inclusion criteria. I told dr about the percentage of patients on hydrocodone medications in the trial. I asked dr to take a closer look at his hydrocodone patients. Dr looked at it and told me most of his patients come in on vicoden. I told him that Butrans is a good option for those patients who are uncontrolled. Dr agreed. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44135	8/28/2013	I cannot get the D.O.N., Dan Rivera to respond to my phone calls or visits.
PPLPMDL0020000001	Akron	OH	44313	8/28/2013	Quick conversation with Natalie the pharmacist about products. I discussed the Scott profile with her and told her that Butrans sold be sued early on in treatment for good results. Discussed insurance coverage and Medicare d plans. I asked about their stocking and future stocking of doses they are out of. Valarie said they can get it next day and I told her that some patients will go somewhere else to get it the same day. Valarie didn't seem to care. Discussed OxyContin and intermezzo indications and dosing. Valarie said she still has not filled any intermezzo. Discussed the Caresource coverage.
PPLPMDL0020000001	Copley	OH	44321	8/28/2013	Conducted Butrans in-service with nursing staff. Reviewed initiation and titration guide, titration, conversions, patch description, copy cards and formulary. Also discussed OxyContin and conversions from IR oxycodone.
PPLPMDL0020000001	Akron	OH	44333	8/28/2013	I asked dr how his patients have been doing on Butrans? Dr said they are all doing well and continues to find a lot of success with his older population who don't want the large number of pills. I asked him about his experience with titration in his Butrans patients? Dr said he likes to also use Butrans for his opioid naive patients and that he typically starts on the 5mcg and then most still need to go on the 10mcg. I asked him what percentage of his Sncg patients need to move to 10mcg? Dr said about 50%. I asked him if he has patients on the 20mcg and he NSAID maybe one or two. Dr said almost all of his patients get e ough with the 10mcg dose. I explained the new insurance coverages and focused on Medicare D since his patients on Butrans are typically over 65 years. I asked him for mor and continued business. I asked him if he is still finding success with OxyContin and he said he uses all doses but continue to find some difficulty with insurance. I asked him to explain and he said that most p, and are now requiring the patient fail MS Contin or ER morphine first. Dr said its commercial and Medicare D plans. Reviewed plans and told him I will check with the staff to figure out where the difficulty is.
PPLPMDL0020000001	Fairlawn	OH	44333	8/28/2013	Followed up with dr after Copley health center Butrans in-service. I told dr that it went very well and barb was pleased. I told dr that Barb wants him to use Butrans because it seems like a great product. Dr thanked me for the in-service and said he is glad it went well. Dr said he still plans on using Butrans but has not yet. I gave him another initiation and titration guide and asked for him to initiate Butrans when his tramadol patients need a dose adjustment or can't tolerate it. I gave him the OxyContin conversion guide and Medicare D insurance grid he requested.
PPLPMDL0020000001	Akron	OH	44313	8/28/2013	Showed dr the OxyContin conversion guide and the Scott profile for Butrans. I asked dr if he has patients on Percocet 20mg a day? Dr said yes. I showed him the conversion to OxyContin and asked him to switch those patients to OxyContin q12h. Dr said ok. I told him he needed to use Butrans because it is a solution for his tramadol patients who continue to be in around the clock pain. Dr looked at the conversion guide and said he has the vicoden patient information on his desk. I told him that BWC is paying for it and the Caresource PA.
PPLPMDL0020000001	Akron	OH	44320	8/28/2013	I asked dr if she has any reservations in using OxyContin? Dr said no other than the name OxyContin. I asked why and she said it has suck a long history of abuse that it carries a stigma. I asked her if that's how her patients feel? Dr said she doesn't want to know widely that she prescribes it. I told her to not be Leary of the name because a lot has changed since those old days. Discussed reformulation and asked her to read the label update. I asked her if it makes sense to prescribe OxyContin for patients failing Percocet? Dr said sometimes...I showed her the Scott patient for tramadol and asked her again to use it more frequently.
PPLPMDL0020000001	Fairlawn	OH	44333	8/28/2013	Quick discussion about Butrans and OxyContin. I asked dr to provide me some patient feedback on Butrans. Dr told me that the patients he has on it really are liking it and many of them have told him that they are sleeping much better! Dr asked me if he can use breakthrough medicines with Butrans? I told him yes he can because it is a partial MU agonist and read him section about the FPI. I asked why he asked? Dr told me about how patients can overdose on buprenorphine. I told him that that is not possible if the dose is kept within what it is indicated as. Dr began taking about buprenex and how those patients can overdose. I explained to him the significant dosing differences between the two. Dr told me he was confused and that he wants to look over the FPI. Asked dr to continue prescribing OxyContin for those patients appropriate for a q12 h oxycodone and handed him a conversion guide.
PPLPMDL0020000001	Euclid	OH	44117	8/28/2013	I Arrived to complete an in-service on Constipation, I spoke w/ Ruth Rossi, in staff development. She said, "I am trying to round up some nurses, but we are extremely busy and no one is able to come. Can we reschedule?"The constipation in-service was rescheduled for 9/23 @ 2:30
PPLPMDL0020000001	Westlake	OH	44145	8/28/2013	1. Understand more about their business since merger with Pharmacia 2. Determine Pain Management Program needs 3. Present Purdue programs & product updates
PPLPMDL0020000001	Akron	OH	44333	8/28/2013	Continued the introduction to Butrans explained the conversions, patient types and copy cards with formulary discussion. I asked Stephanie is she sees Butrans as a product she will eventually use? Stephanie said she will because its a schedule 3 and is low dose to be used early because if she can get a patient on an ER opioid earlier the patients success may be higher. I reviewed the opioid experienced trial and focused on inclusion criteria and efficacy data. Discussed OxyContin and conversions Ali with discussion about intermezzo and how she can identify patients.
PPLPMDL0020000001	Cleveland	OH	44111	8/29/2013	attempt to see the doctor at this metro location, they would not let me back, not even with a vendormate approval. I was able to leave behind some oxycotin coupons and literature. In speaking with the ma upfront she said the doctor is only in on tuesdays for now and might be going main campus full time. I left my card as i shared some butrans information on what it is and appropriate patient types for it. She said if the doctor is interested they can call me for to come in.<font color=blue><b>CHUDAKOB's query on 09/17/2013</b></font>Sounds like this physician should be marked as non-call file. Am I correct?<font color=green><b>BARTOLI's response on 09/19/2013</b></font>Yes! I will make sure it's marked as such.<font color=blue><b>CHUDAKOB closed the query on 09/19/2013</b></font>
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	8/29/2013	Spoke with Jackie the pharmacist about all products and asked her how familiar she is with Butrans? She said that ER have discussed it before and has not filled any prescriptions for it. I discussed schedule 3, 7 day transdermal patch, conversions and patient types. I told her about copy cards and formulary coverage. The pharmacy does not sure toy stock Butrans and it would need to be in by 8pm to get it in the next business day. Asked about OxyContin and stocking. She said they have all doses and fill it regularly. She asked about copy cards and wanted some because she had a patient that was just diagnosed with cancer and needed OxyContin but it cost a lot of \$. I told her about the cards and potential savings.
PPLPMDL0020000001	Stow	OH	44224	8/29/2013	I told dr that he has two different solutions available to him for his patients in moderate to severe pain. I explained the Butrans tramadol patient and asked him to pause before refilling tramadol or moving to vicoden and to ask himself if the patient is appropriate for a schedule 3 controlled release patch. I told him his vicoden patients may be appropriate go Butrans or OxyContin and asked him if he has a dose threshold on vicoden before he makes the decision on what's not and the dr said no. I showed him the conversion scale for Butrans and then showed him the conversions from Percocet to OxyContin and asked him to use each in their own specific place. I showed him the intermezzo dosing and read him the indication. Dr said h has not used but said it would like he would use it. I asked for his business.
PPLPMDL0020000001	Westlake	OH	44145	8/29/2013	spoke with ma she said that galvin is at westlake full time. metrobuilding- left various marketing pieces and coupons.
PPLPMDL0020000001	Berea	OH	44017	8/29/2013	Told the Dr. I was presenting the naive study and asked his thoughts on a few areas of the study. Dr off the bat told me he, doesn't treat chronic pain so he doesn't write Butrans. I said...what's chronic mean to you? He said the cancer patients or severe pain that will need an extended release for. I said dr. i think you might be thinking of a different product because those aren't the patients i was going to discuss with you. We looked at the inclusion criteria of the study- i said do you see these patients. He said yes. I said ok...how do you treat them? He said with Vikodin or Percocet, i said so you let them prn their own pain control? He said sort of but they will never switch to Butrans. I said how about after Tramadol then? He said maybe. He asked if the patch falls off. I said i didn't have a percentage, but showed him the discontinuation rate of the naiveive study.Discussed OxyCotin...I said dr. for those severe patients you are treating with Percocet- have you ever considered writing OxyCotin its a single entity q12h product. He told me i drank the Purdue Cool-aid already with a smile. Left the Butrans 3024 study behind and a OxyCotin
PPLPMDL0020000001	cleveland	OH	44135	8/29/2013	spoke to violet regarding location updates for drs and he is full time at this location. They told me i had to register thru vendormate. We tried to look up Purdue...but nothing came up. Left various information pieces behind for the doctor. Titration guide, 3024 butrans study.
PPLPMDL0020000001	fairview park	OH	44111	8/29/2013	Review of Butrans (captain) Louis Massaad pharmacy manager told me he would stock the 15mcg and asked for the ording information. To get from manager and will return. Reviewed the starting doses and the titration doses. Louis thought the 15mcg would do well as they see a lot of pain patients with the Moll Center down the street and Fairview Hospital. Discussed steady state and titration with Butrans. Also Discussed OxyCotin- the variety of (7) doses offered and the conversion from Percocet to OxyCotin. Discussed the abuse potential for both product.<font color=blue><b>CHUDAKOB's query on 09/17/2013</b></font>Lisa, what does the word in parentheses mean. Also i wanted to point out that the product is OxyCotin, not OxyCotin. Don't forget the "n" in the product name.<font color=green><b>BARTOLI's response on 09/19/2013</b></font>That is his name, which is on his name badge. And thank you for the spelling, I didn't catch the autocorrect.<font color=blue><b>CHUDAKOB added notes on 09/19/2013</b></font>Ohh I see...I think!
PPLPMDL0020000001	Stow	OH	44224	8/29/2013	I told dr that i have two solutions for her patients in moderate to severe pain. I asked her at what point does she make the decision to move her patients to an ER opioid? Dr said if differs for each patient but typically when they are in constant pain around the clock. I showed dr the Tom profile go OxyContin and asked her to choose OxyContin when a patient fits a similar description as Tom. Dr agreed. I told her about how she can use Butrans early on in treatment of pain for her tramadol patients and asked her if she has any? Dr said she does. I told her to pause before refilling it or titrating and think about Butrans as the schedule 3 7 day transdermal patch. Dr said she thinks it a good product and wants to use it but can't remember it. I showed her the slide guide conversion guide and told her to keep it on her station to remind her of Butrans. Dr agreed. I asked if she will use it and she said she would. Left her with the intermezzo dosing guide.
PPLPMDL0020000001	Fairview Park	OH	44126	8/29/2013	spoke to ma upfront and she said dr would only schedule lunch if something new or new product. I told her about the 15mcg and she is checking if that qualifies for a lunch. ma told me that dr uses butrans and oxycotin- i reviewed the commercial savings program with her. We discussed the OxyCotin conversion piece that shows the percocet and the OxyCotin. discussed that OxyCotin was a single entity q 12 hr product that might have a place with drs more moderate to severe pain patients that need around the clock analgesia. left various reading materials, butrans fpi, 3024 Butrans study and OxyCotin titration material
PPLPMDL0020000001	Stow	OH	44224	8/29/2013	I asked dr if he used Butrans because i thought i saw a prescription filled at the pharmacy? Dr said he refilled a prescription for a patient on the 5 mcg. I asked him to use it himself for a patient on tramadol that needs a dose adjustment. Gave him the initiation and titration guide and asked for him to use it. Dr said he is not opposed to it because he told me he could use a schedule 3 ER opioid for his short acting failures. I told him to continue using OxyCotin for his patients that need another ER opioid later on in the treatment of pain. Gave him the conversion and titration guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	8/29/2013	I asked dr what factors influence her decision on how to treat a patient when their IR opioid fails? Dr told me that usually it comes down to cost. Dr said many of her patients don't have much money and they need a treatment that works for little money. I told dr i understand but what about stints where money is not a factor? Dr said she likes to use Butrans as her first opioid because of the low dosing and being a week long patch. I agreed and showed her the formulary grid and explained the coverage. Dr said she forgot about the Medicare D coverage and will remember it.
PPLPMDL0020000001					

PPLPMDL0020000001	Berea	OH	44017	8/29/2013	spoke to jasmín the nurse today about OxyCotin and Butrans. We discussed the various dose strengths of oxycotin and that it was q12h single entity. nurse was hesitant taking the savings cards, but took them for the doc. Showed the scott profile, went over the tramadol patient not controlled with their pain and the pain is around the clock. Described/showed the demo patch and "scott" could be treated with just 4 patches a month. She asked about managed care. I covered commercial savings program. She said she would take the information to the doctor and call me if I can have an apt to see him.
PPLPMDL0020000001	Stow	OH	44224	8/29/2013	I asked Holly the pharmacist if she has seen any Butrans come thigh since my last visit? Holly said she has not and is surprised since Fouad, Lababidi, Jones and a alter are across the street. I discussed with her how they have 5 offices and patients come from all over. I asked her if she has any doses in stock and she said no. I asked if a patient comes in to fill it how long until she gets it in? Holly said 24 hours but if its after 7pm on Thursday, it won't come in until the next Monday. Holly said she will order in the 5mcg dose for me! I asked about OxyContin dispensing and she said they have all doses except the 60 and 80mg. I asked what she sees most from the doctors across the street and holly said a lot of Percocet and some OxyContin. I asked if she has dispensed intermezzo and she said no. Gave her the dosing card.
PPLPMDL0020000001	Cleveland	OH	44126	8/29/2013	spoke to the pharmacist about stocking butrans and they said maybe. Review of Butrans current dosages, that it was not a/b/rated and the only 7 day transdermal schedule 3 pain patch. OxyCotin, he asked if that was still promoted and I said yes. Talked about the different strengths and that it was a single entity opioid he said he had a patient cancer patient that comes in on very high doses and is doing well on it. Reminded that it doesn't have a ceiling/max dose yet it still has the abuse potential.
PPLPMDL0020000001	Tallmadge	OH	44278	8/29/2013	Quick call in lab and asked him to continue identifying patients for Butrans and if he had any patient feedback? Dr said the one that has had a follow up said it is working well with no issues. I reminded dr to use Butrans early for NSAID and tramadol failures. Told dr to not forget his patients with in the middle of the night insomnia and to use intermezzo.
PPLPMDL0020000001	Cleveland	OH	44111	8/29/2013	ma said that the doctor is at this office daily. I left some coupons that they share i'm told. I tried to see the doctor but she told me i could not go past the desk. I asked about vendor mate and she said her location doesn't do that. I showed her the butrans scott profile and asked if i could speak to drs nurse. answer no.
PPLPMDL0020000001	Cleveland	OH	44111	8/29/2013	spoke to the nurse- i have to call my company about being on vendermate w metro. Left various selling materials behind for the doctor- including butrans coupons.
PPLPMDL0020000001	Berea	OH	44017	8/29/2013	Spoke to nurse trying to get an apt with the doctors for Butrans. The nurse new nothing about the product other than it was a scheduled product which she said the doctors don't write schedule drugs. When I asked if all they wrote was tramadol, she paused. Discussed the patient types for Butrans and its place after tramadol fails. Nurse would not get me an apt to see the doctor, i left various education pieces for the drs with my card.
PPLPMDL0020000001	Berea	OH	44017	8/29/2013	I spoke to nurse to try and get face time with doctors about Butrans. However, the nurse said the drs don't write scheduled products and send out to pain management. I said so dr. troy doesn't treat patients with pain-secondary to a known pathology that needs an opioid around the clock? She said no. I said so they only write tramadol and no short acting schedule 3's? She was unsure. I explained That butrans was a 7 day extended release option for her pain patients that meet the criteria. That ideally- if the Tramadol wasn't working for the patient that Butrans might be an option next for that patient. She was going to pass the Butrans information onto the doctor and i gave them my card incase they want me to come discuss with the doctors
PPLPMDL0020000001	Stow	OH	44224	8/30/2013	Asked dr at window if he has found any additional patients for Butrans since we last spoke? Dr said he has refilled a couple of them. I told him to continue searching for those patients needing a dose adjustment on NSAIDs or ultram. Handed him the slide conversion guide.
PPLPMDL0020000001	Hudson	OH	44236	8/30/2013	I asked dr at window if he has patient on NSAIDs around the clock? Dr said he's sure he does. I asked him if he thinks all of them have their pain controlled? Dr said maybe not all and he knows that he can start Butrans for those non responders. I told him that is correct and showed him the Maria profile. Dr said he will look.
PPLPMDL0020000001	Akron	OH	44312	8/30/2013	Dr saw me and said Butrans! I asked him if he has used it anymore? Dr said no. I asked why and he said because it hasn't proved to be effective for his patients. I told him that one or two patients can to prove that it doesn't work. I told him that he needs to carefully identify patients and those need to be early on in treatment for good success that are on ultram around the clock and want more. I told him that low dose vicoden patients are good candidates as well. Dr said ok and he will keep trying. OxyContin conversions and asked for more business.
PPLPMDL0020000001	Akron	OH	44312	8/30/2013	Dr told me that he spoke to dr Midian about getting time for him and Butrans. Dr Midian said that he is still getting settled in his office and told dr Wells that he will get me in for Butrans. I asked dr to continue using Butrans and to get patients early on in treatment. Gave formulary updates.
PPLPMDL0020000001	Uniontown	OH	44685	8/30/2013	I asked dr at window how his patients are doing on Butrans as of late? Dr said he hasn't heard anything back from them so he said he assumes all is good. I reviewed the conversion guide and told him to ensure he titrates when necessary and steady state is 72 hours. Dr said ok and I asked him to continue prescribing.
PPLPMDL0020000001	Akron	OH	44319	8/30/2013	I asked dr Wu if he is ready to initiate Butrans for his patients in pain on around the clock tramadol or vicoden? Dr Wu said he's not sure and that it comes down to cost. I told him that we have discussed the excellent coverage for his patients and showed him the coverage go Aetna, medical mutual, Medco, and Caresource with PA. I told him that Butrans is a solution that his patients will be happy to have. I showed him again how to initiate and titrate th product and stressed that its a schedule 3, 7 day transdermal patch. Dr said ok.
PPLPMDL0020000001	Hudson	OH	44236	8/30/2013	Attempted to speak with Bonnie and she said she was super busy so make it snappy. Gave her the indications and doses for all products and asked about stocking. She said they have almost all the OxyContin and the 5mcg of Butrans. No intermezzo.
PPLPMDL0020000001	Berea	OH	44017	8/30/2013	Note- rewrote the call, twice. didn't save. Spoke to dr. about butrans. he had experience with the 20mcg and he said patients were doing fine. When asked which patient did he select for butrans it was one that failed a few short acting schedule 3 products. We reviewed the naiveive study..asked if he would ever think butrans after a nsaid failure? He did't answer. I said how about after a tramadol failure? He said yes. Went into the study..pain levels, patient types and outcome of the study. Pointed out these were patients never on an opioid before. Dr. agreed to writing butrans after Tramadol. dr. said he won't write oxycotin. I asked why? he said too many doctors getting in trouble for writing it. We did talk about the reformulation and also covered it was still had abuse potential. He said he was aware. I asked him if he was going to stop writing percocet too? He said no. reviewed the conversion, the single entity of OxyCotin and the q 12h. Dr said he still wasn't going to write it.
PPLPMDL0020000001	Munroe Falls	OH	44262	8/30/2013	I told dr that I needed to give her some formulary updates with Butrans and OxyContin. I focused in on her commercial, Caresource and BWC for Butrans and Medicare D for OxyContin. Dr said she is surprised there are so many plans cover aging Butrans and th copay card make a big difference. I asked her to continue prescribing for her tramadol failures. OxyContin Med D plans and asked her to continue switching her Percocet patients. I asked her to please continue to consider intermezzo for patients meeting the indication.
PPLPMDL0020000001	Akron	OH	44333	8/30/2013	Quick message at front counter and asked him if he is still trying to get more of his Percocet patients on the q12h OxyContin? Dr said he is always trying to get his patients on an extended release product. Dr said its been tough getting OxyContin to go through without ER morphine or fentanyl. I asked which plans and he said lots but mostly Med D. I told him I would look into it. I reminded him to us Butrans early on in treatment expecially for his tramadol and low dose vicoden patients. Dr said he is trying. Nothin else learned.
PPLPMDL0020000001	Akron	OH	44319	8/30/2013	Quick message about OxyContin and Butrans at the window. I told him that OxyContin and Butrans can satisfy his patients early on in treatment of pain and later on. I told him that OxyContin is a product that his patients on Percocet around the clock for q12h control and Butrans for his NSAID and tramadol patients who need a dose adjustment and are being treated for chronic pain. Dr said he uses OxyContin and really likes it and has not used Butrans. Dr asked about coverage and I showed him the formulary grid and expressed specific plan coverage to his patients.
PPLPMDL0020000001	Hudson	OH	44236	8/30/2013	I showed dr the Tom profile and asked him to please introduce the ER option of oxycodone when his Percocet patients are failing or can't tolerate it. Dr agreed to do more. I told dr that he needs another ER option for his patients earlier on in treatment like Butrans. I told him to put it in p,ace of vicoden when his patients fail tramadol. Dr said ok and he will try to remember.
PPLPMDL0020000001	Cleveland	OH	44127	9/3/2013	Intro. to Dr., Discussed Butrans 7day transdermal system, along with Scott profile(Tramadol failures). She usually refers out to pain management if they fail(very few patients anymore) She agreed to consider for appropriate patients, 99% managed medicaid- she does PA herself. Reviewed dosing/titration along with Patient info booklet. Also, Intermezzo for MOTNA along with dosing
PPLPMDL0020000001	Solon	OH	44139	9/3/2013	Spoke with pharm tech about butrans clinical trials. Asked who was responsible for ordering product and she indicated the pharmacist Michele. I asked about butrans 20 writers and she said there were a few pain drs I the area but she was it sure which ones. I asked if the turn around for all orders was 24 hours or if it was longer for opioids and she said it was the same. Reviewed dosing and administration of Intermezzo.
PPLPMDL0020000001	Cleveland	OH	44105	9/3/2013	Talked again with Rosalina, requested appt. with staff, left message with Dr. G. El-Khoury- Medical Dir. all requests are directed to him. OxyContin conversion guide along with Butrans Scott profile info
PPLPMDL0020000001	Solon	OH	44139	9/3/2013	Hallway call introducing butrans with clinical trial non opioid experienced patient. Discussed inclusion criteria, open label, 12 double blind and outcomes. Discussed titration tolerance of 53% discussed pain reduction scores from the open label study. Asked her thoughts and she asked me to leave information. Reviewed oxycontin dosing. Gave intermezzo indication and limitation of use.
PPLPMDL0020000001	Cleveland	OH	44127	9/3/2013	Intro/obtained office protocol. OxyContin 7 flexible dosing strengths along with Q12h. for those appropriate percocet Q4-6h patients. Dr. agreed. Discussed Butrans 7 day transdermal system for those tramadol/ultram failures, showed Scott profile, agreed he has some patients like that. Initiation/titration guide.
PPLPMDL0020000001	Cleveland	OH	44109	9/3/2013	Visited Oncology dept. Left OxyContin dosing/titration info. with Michele, forVi (Obrien,Crum, Hergenroder,Snell and Trey along with Fellows M.Treasure,T Gula, Leland Metheny) Ortho/Surgery dept. left info per Cheryl for Feighan,Bafus, Allain, Hoyer, Liu, Nash and Patterson. Requested to leave card for appt.
PPLPMDL0020000001	Cleveland	OH	44127	9/3/2013	Intro. office protocol learned-Talked with Renee- Discussed Butrans for those Tramadol failures, said Dr. RX's alot of Ultram/Tramadol. Dosing/Titration conversion. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Solon	OH	44139	9/3/2013	Quick window call. Quick reminder of OxyContin dosing. Asked dr to give me his thoughts on the butrans clinical non opioid trials the next time I can see him. Clarified intermezzo indication and limitation if use. Explained that there was a formulary win for Medco part d for butrans. Tried to communicate Medco insight but dr looked confused.
PPLPMDL0020000001	Cleveland	OH	44114	9/3/2013	Dr. has officially relocated here. I asked for those Tramadol failures, he will consider.Review BWC coverage along with OxyContin Q12h flexible dosing strengths. Best days to see is Thurs. Muenster,Bernie and Carson overlap for now
PPLPMDL0020000001	Cleveland	OH	44113	9/3/2013	Quick reminder on Butrans for those Tramadol/Lortab failures, she agreed along with intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44105	9/3/2013	Reminded of OxyContin Q12h dosing, they see RX's written all different way. along with Butrans for those Tramadol/Ultram around the clock patients. Intermezzo for MOTNA/dosing.
PPLPMDL0020000001	Akron	OH	44310	9/3/2013	Spoke with dr about his Butrans prescribing. I discussed his last patient he placed on Butrans from Percocet. I showed him the nancy profile and showed him how his vicoden patients and the daily dose they are on converts to specific doses. I told dr that for a patient on three pills a day of vicoden and Percocet a day approximately converts to the 10mcg dose however he has the discretion to initiate as he sees fit. Dr said he usually will follow the scale but he felt this particular patient should start on the 5mcg. I told dr that 62% of patients in the opioid experienced trial were on hydrocodone combinations. I asked for his continued support and showed him and char the new Medco/ESI Medicare D flyer. I asked him to take his Percocet patients that are refilling month after month to be placed on the q12h oxycodone and gave conversion chart. Intermezzo dosing and patient
PPLPMDL0020000001	Solon	OH	44139	9/3/2013	Spoke with Karen the floater about butrans 20 usage and she said in her experience she sees more 20 than 5. I reviewed the clinical trials and she thought the pain score reduction in the open label portion of e study was interesting. She thought this part of the study would be useful for doctors to know. Reviewed start principle 25-50% increase in the dose of OxyContin every 1-2 days. Reviewed intermezzo indication and limitation of use.
PPLPMDL0020000001	Cleveland	OH	44109	9/3/2013	Very busy post holiday weekend, no new info gained. Reminded of Butrans for those Tramadol/Lortab failures taking around the clock. Intermezzo for MOTNA/dosing.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/3/2013	Spoke with bob the pharmacist and Carla the technician about products. I asked about fill rates for Butrans and discussed dosing, conversions and patient selection. Bob said they have one of the 10mcg in stock because they have a regular customer on it. I asked if he would order in the other starting dose at 5mcg? Bob said once they see a prescription they will order it. I told him how many patients want it the day they bring in the prescription and if the pharmacy doesn't. Have it the customer will go somewhere else. Bob said he can't keep it on the shelf if its not moving. I asked about OxyContin doses and he said they have all doses and fill it regularly. Showed conversions and discussed managed care for all products. Intermezzo dosing, limitations of use and Carla said they have not dispensed.

	Cuyahoga Falls	OH	44221	9/3/2013	Spoke with Katie the pharmacy manager and pharmacist. I asked her any her familiarity with Butrans? Katie said she has filled it before but it has been a while. I discussed the dosing, conversions and nancy patient profile. I asked about stocking and she said they will order it when they get a script and it is 24 hours if it is in by 8pm the day before. Discussed OxyContin dosing and which they dispense most. Martinet said she fills mostly the 15, 30, 40, and 60mg doses but has all in stock. I asked about dispense rates and she said they do most fills for tramadol 120 pill count, then Percocet then vicoden. I showed katie the OxyContin conversions and discussed Percocet to OxyContin. Intermezzo dosing and patient profiles and limitations of use. Katie said they have not filled it.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	9/3/2013	Quick Butrans reminder for those LorTab failures along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44102	9/4/2013	Talked with Mike/Alyce-tech, discussed OxyContin Q12h, requested savings card. Mike-Agreed to distribute Butrans patient info booklets to appropriate patients, Intermezzo for MOTNA/dosing
	Parma	OH	44129	9/4/2013	Window call reminding dr of using OxyContin 15 and 30 strengths. Asked dr if he would review the butrans opioid naive study findings so we can review them at our upcoming lunch. Reviewed managed care wins with staff.-b>FROM LAPTOP(WFB2VWP1):</b>-b>window call and dr asked be about new developments with butrans. I told the dr that I have some managed care wins and communicated cigna and medco part d wins. I told the dr that I had new information I learned in training about the clinical trials and he had to leave but I told him I will leave the trials with him an I wanted to specifically discuss his thoughts on what improvement in pain does he consider clinically important. reviewed doses of oxycontin. asked dr if he remembered intermezzo and said that is the first step.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44195	9/4/2013	Left Butrans Patient info booklets for Pharmacy to distribute to appropriate patients
PPLPMDL0020000001	Akron	OH	44313	9/4/2013	Told dr that he needs to use OxyContin for his patients uncontrolled on Percocet or need a dose adjustment. Dr said he is trying to use more ER opioids instead of the short acting. I reminded him about the conversions from Percocet and managed care coverage with OxyContin. I asked if he will take a minute to consider OxyContin before refilling Percocet? Dr said ok.
PPLPMDL0020000001	Uniontown	OH	44685	9/4/2013	I asked dr a alter if it makes sense to use Butrans for a patient that needed a dose adjustment? Dr said it does and reminded me that he tries to get his stints on ER products as soon as possible. I asked him if he would use Butrans today and for those patients uncontrolled on their IR opioid? Dr said he has lots of patients today so he will do his best. Reminded him to use Butrans for his patients that have Caresource and told him about the OA.
	Akron	OH	44320	9/4/2013	Short discussion with dr about her Percocet patients and what she typically does when a patient on Percocet needs more? Dr said it depends on the dose but said that Dr Bonyo said that they will refer to pain management once a patient reaches 40mg of IR opioids. I asked about patients on 20mg of IR oxycodone and showed her the conversion from the guide? Dr said she gets it but that Bonyo doesn't wasn't to prescribe it. I asked her what her thoughts are on that? Dr said its on a case by case basis. I told her to use Butrans early on in treatment and showed the Scott profile. I asked her to continue prescribing especially since she has had good success.
PPLPMDL0020000001					
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Spoke with Nicole about butrans clinical trials and explained what I am currently telling doctors. She asked about what patients should do if the patch falls off and said she told them tegaderm and I said first aid tape around the edge is the first preference. Reviewed OxyContin dosing and start principles. Gave intermezzo indication and showed the demo.
PPLPMDL0020000001					
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Window call. Let dr know answer to his caresource question and also told him I was leaving information on the clinical trials for non opioid patients and I would like to review the findings of the study next time. I asked would he consider a 30% reduction in pain clinically important. Dr said he would look at the information.
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Asked Elaine her thoughts on butrans and she said she did not know why someone would use with an opioid. I clarified if she was asking because of buprenorphine and she said yes. I explained the difference in mcg/hr vs mg using FPI table 5. She asked about receptor binding and I explained partial agonist at the mu receptor similar to a half full glass of water, in that it leaves room for other activity. Discussed appropriate dose and use with ir for breakthrough pain. Asked if this made sense and she said this did help clarify. She said she does not write OxyContin. Reminded her of the intermezzo patient in need of help with motna
PPLPMDL0020000001					
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Dr said he wrote a script of butrans and I asked him what did the patient present with that prompted him to write and he said he did not remember. I reminded him of the patient type and showed him the inclusion criteria in the non opioid clinical trials. I asked if he had patients like these and he said he has osteoarthritis and said those patients are everywhere. I reminded him that he has been in practice 17 years and would he agree at some of his patients have grown older under his care and he does not send them out to pain management. He agreed and I asked him to write butrans instead of tramadol for patients like these with chronic pain. He said he would continue. I reminded him of flexible dosing of OxyContin. Reviewed dosing of intermezzo.
PPLPMDL0020000001					
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Spoke with his nurse about the changes in the office and she confirmed the dr is still with the practice after the UH buyout and I will be allowed to have my October lunch. Reviewed the titration guide for OxyContin and asked if she would pass the information to the doctor in advance of our meeting in October
PPLPMDL0020000001	Akron	OH	44320	9/4/2013	Primary message with Butrans was managed care today. I told dr about the Butrans coverage on commercial prescription plans and how her top 5 plans have Butrans on either 2nd or 3rd tier. I asked her if she has commercial prescription patients on IR opioids? Dr said she dos for sure. I asked her that those patients are the path of least resistance for Butrans and reviewed copy cards and information guides. I asked her if she will use Butrans for that patient population? Dr agreed to start looking. I showed her the conversion and titration scale for OxyContin and asked for more business on those uncontrolled Percocet patients.
PPLPMDL0020000001	Cleveland	OH	44195	9/4/2013	Visited CCF Walker bldg Pain/Anes.Michaeyla had to reschedule fellows appt. Left info Initiation/Titration guide with fellows. Talked with Anne-Butrans and OxyContin Q12h flexible dosing. Left Opioid-Experienced trial along with Initiation/Titration guide for Stanton-Hicks/Leizman. Left Butrans initiation/titration guide with NEURO-C-25 Bamford
PPLPMDL0020000001	Cleveland	OH	44195	9/4/2013	Reminded of OxyContin Q12h flexible dosing along with excellent formulary coverage. (For those percocet patients taking around the clock. She will keep in mind.Reviewed Butrans for those Tramadol failures, said she will keep reminding Dr.'s as well. Left her with Butrans dosing/titration guides to make available to staff
PPLPMDL0020000001	Akron	OH	44313	9/4/2013	Spoke with the technician about Butrans dispensing and stocking. Was told that they have one box of 5 and 10mcg in stock and do have patients on both doses. I discussed the doses and titration with conversions.
PPLPMDL0020000001	Cleveland	OH	44113	9/4/2013	OxyContin doses, conversions and titration. Pharmacy has all doses in stock. I asked about intermezzo dispensing and stocking. Was told they have not filled Andy and have the 1.75mg in stock.
PPLPMDL0020000001	Fairlawn	OH	44333	9/4/2013	Left Card and OxyContin/Butrans Titration/Conversion guides for Jeff
PPLPMDL0020000001					
PPLPMDL0020000001	Fairlawn	OH	44333	9/4/2013	Discussed Butrans dosing, titration, conversions, patients types and copy cards? I asked dr to explain to me how he treats pain and he told me he prescribed Butrans about three weeks ago but the patient could not afford it. I pressed him on the patient information and he told me the patient was cash paying and had no insurance. I spoke to him about focusing on patients with private insurance, Caresource and BWC. Dr said they do not take BWC but said he's impressed about Caresource with the pa. I asked for him to continue using for patients like Scott with private insurance. OxyContin dosing, conversions and patient types.
PPLPMDL0020000001					
PPLPMDL0020000001	Fairlawn	OH	44333	9/4/2013	I asked dr if he is continuing to use oxycontin for his patients uncontrolled on Percocet? Dr said he is trying but many patients are required to use MS Contin first. I asked him if that is for Medicare or Medicaid patients IR which patient population is that for? Dr said he can't remember but he thought that they have been Medicare D patients. I explained commercial coverage and Medicare D coverage and asked for his continued business after explaining the Tom profile. Discussed Butrans patients types, titration, and copy cards. I asked dr to use it more often for his tramadol failures. Dr said ok.
PPLPMDL0020000001					
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Short talk with Gilbert the pharmacist about products. I talked about stocking all products and doses and Butrans and OxyContin titration. Talked about Butrans Medco/ESI Medicare D coverage. Gilbert said he has all doses of each in stock along with intermezzo doses. Gilbert said he has filled intermezzo for Higley.
PPLPMDL0020000001					
PPLPMDL0020000001	Parma	OH	44129	9/4/2013	Window call while talking to mary. Asked dr how she treats chronic pain. Dr said she likes butrans but has not been using much lately because she has not been in the office. She said she will be out of town again next week. I left the OxyContin titration guide and asked her to think of it as a reminder of flexible dosing. Quickly reviewed intermezzo indication and limitation of use.
PPLPMDL0020000001					
PPLPMDL0020000001	Parma Heights	OH	44129	9/4/2013	Quick call, asked dr to review the clinical trial pain score improvements for butrans and let me know her thoughts next time I see her. Reminded her of OxyContin dosing and administration. Sowed her intermezzo demo pack and gave indication and limitation of use.
PPLPMDL0020000001					
PPLPMDL0020000001	Fairlawn	OH	44333	9/4/2013	Spoke with Rajesh the tech about movement of OxyContin and butrans. He said he is seeing more butrans and I asked about strengths. He said he mostly sees the 10. Reviewed what I tell doctors for the butrans opioid naive trials. Discussed the oxycontin start principle. Showed the Intermezzo demo and explained how it to administer-<font color=blue><b>CHUDAKOB's query on 09/19/2013</b></font>-Marcia, this call note is three days late. We discussed this and you stated that your iPad was giving you trouble. Your laptop is a backup for the iPad and the SAFE system is a backup for the laptop. Call notes should never be entered three day late. We have too many backups to ensure this doesn't happen. Please reply to ensure you understand this.<font color=green><b>KENNOMA's response on 09/19/2013</b></font>-I understand the requirement and the backup options.<font color=blue><b>CHUDAKOB added notes on 09/30/2013</b></font>-Thank you!
PPLPMDL0020000001					
PPLPMDL0020000001	Westlake	OH	44145	9/4/2013	Discussed products with dr in office along with dr Balter. Dr told me that he will see about 40 patients today and needed to go. I told him that I'm convinced he will see many of those patients who are appropriate for Butrans. I told him to start it as early as possible in the treatment of pain and told him about the tramadol patient. Dr agreed he likes it and said he knows he could use more. I reminded him about the Caresource coverage and the PA criteria. Dr said he forgot about that and was impressed and said he should be using it a lot more. I asked for him to use it more! Gave him the OxyContin conversion guide and told him to start using the 10mg q12h dose for the 20mg Percocet patients .
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	9/4/2013	Introduction. Dr told me he loves Butrans. I asked what doses have been working for you patients he said 20mcg and he has a patient doing a 5 and 10. I said why don't u just write the 15mcg. He said , there's a 15! He told me about a patient that went from an immediate release product to Butrans and its working so well. We discussed plasma levels of Butrans and the doctor said that was the pain reason he writes it. He wants to get it on formulary at St. John west shore and he said he would help however he can. I said woulda write a letter and he said yes. Also discussed OxyCotin, he said he was very familiar with the product. Reviewed the conversion from Percocet and managed care for both products.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	9/4/2013	Discussed treating pain, and Dr. has discontinued all opioids, refers out to Pain Mgmtm. went over Butrans for those Tramadol/Ultram failures that will be referred to Pain mgmtm, said she would consider. Intermezzo for MOTNA/gender dosing. Trial offer, has alot of patients that complain of MOTNA, will consider
PPLPMDL0020000001	Cleveland	OH	44113	9/4/2013	Dr. Has moved and joined the CCF Lutheran. Hospital. Quick Butrans reminder(Tramadol failures) and Intermezzo for those patients suffering MOTNA . Said she ok, will consider. Stop Back in a week or so to book lunch appt.
PPLPMDL0020000001	Cleveland	OH	44125	9/5/2013	No new prescribers, OK with savings cards
PPLPMDL0020000001	Richmond Heights	OH	44143	9/5/2013	Dr Ashraf What % of patient base is Medicare part d? over 30-40% yes. id say 50% or greater. Managed care insight. says OxyContin too expensive, starting writing oxycodone. Thats shocking & first time ive heard that from an HCP. Discussed commercial & med d coverage left grid & how our \$90 savings card with first \$25 out of pocket can give his patients preferred tier access. He says that sounds reasonable & he will start using cards. Great! Butrans hrs not familiar with.Wants efficacy data & how does Butrans compare to efficacy of Fentanyl which he IS familiar with. Purdue doesn't have any head to head studies with Fentanyl, but I can share with you data from 2 twelve week efficacy & safety trials (I focused on opioid experienced) & appropriate patient selection, dosing, titration, steady state, supplemental analgesia. Left opioid experienced trial. You might want to ask a pain management dr over at Hillcrest for further info & maybe they can help answer a few of your questions. That's a good idea he responded. Intermezzo for MOTN awakening insomnia patients, indicated as needed for MOTN insomnia when patient has at least 4 hours bedtime remaining. Gender dosing, sublingual, spearmint flavor.
PPLPMDL0020000001					
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/5/2013	I asked dr to continue using OxyContin for his patients on Percocet who need a dose adjustment or the patients ask for a change. Dr said he continues to write OxyContin because it works and is well covered. I follow up with him from our last conversation when he told me that a patient on Caresource was rejected on Butrans even though the patient had a history of vicoden. I told dr that I checked with anew choice pharmacy and they got the prescription. The patient had Buckeye and not Caresource and that's why it was not paid for. Dr said that its good to know because he hasn't found issues with Caresource because he somehow remembers Caresource for Butrans. I told him to continue thinking that especially for patients uncontrolled on tramadol. Dr agreed and thanked me for following up.
PPLPMDL0020000001					
PPLPMDL0020000001	Garfield Hts	OH	44125	9/5/2013	Spoke with Deena, Dr. running late. Asked if he has started any new patients on Butrans? She said not sure, thinks he has 1 patient.
PPLPMDL0020000001	Mayfield Village	OH	44143	9/5/2013	Spoke with techs & female pharmacist. while I realize you don't dispense scheduled pain meds such as my 1 x week CII pain patch Butrans, or CII controlled release OxyContin, I wanted to stop by & leave this brochure, because Sept is national pain awareness month. That way if patients or caregivers of patients with pain need educational resources, you can direct them to appropriate website.
PPLPMDL0020000001					
PPLPMDL0020000001	Beachwood	OH	44122	9/5/2013	Spoke with hoosheng the pharmacist who asked about Purdue sponsoring a pharmacist association. I told him to get me more information and I would see. Asked who orders the opioids and he said Dan the head pharmacist. Reviewed clinical trials of butrans non opioid patients. Discussed the start principle for OxyContin. Reviewed dosing and administration of intermezzo. Pharmacy requested vouchers.

PPLPMDL0020000001	Cleveland	OH	44195	9/5/2013	Visited Rheum/Ortho of Atrium bldg Left materials, obtained Dr. NP-A50- L. 	AKRON	OH	44319	9/5/2013	Spoke with Barry the pharmacist and asked him if he is familiar with Butrans? Barry said he is and has filled it in other stores. I asked him if he is a floater or is this his store? Barry said its his store and said that Marc's is not a store that will fill Butrans because it is too expensive for their customers. I asked why and he said because 75% of their business is Medicare D and the other 25% is Medicaid. I told him that Butrans is not too expensive for those patients. I explained the Medicare D plan coverage and asked him if he sees Caresource patients? Barry said yes. I explained the Caresource PA and then copy card. Barry said the coverage I discussed is new to him and thanked me for the info.
PPLPMDL0020000001	Garfield Heights	OH	44125	9/5/2013	Reviewed Butrans/OxyContin savings card, Mostly caresource at this location, no new prescribers in the area
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/5/2013	Showed dr the patient profiles for OxyContin and asked her if it makes sense to initiate OxyContin for those patient types? Dr said it does. I asked her if she has patients like them in her practice? Dr said for sure. I asked her to switch those patients and to use the q12h OxyContin instead of refilling Percocet.
PPLPMDL0020000001	Akron	OH	44308	9/5/2013	Spoke with Jess and Kristen the nurse manager about a possible OxyContin inservice for the fellows and residents. Kristen said there is a possibility but it will be hard to get them all together. I claimed the new label update for OxyContin and gave her a conversion and titration guide along with an updated FPI. Kristen said she will speak with the director about the inservice.<font color=blue><b>CHUDAKOB added notes on 09/16/2013</b></font>Nice work. Stay on top of this one. It could lead to something big.
PPLPMDL0020000001	Mayfield Village	OH	44143	9/5/2013	Dr Azar you have a large Med D population, and I'm sure some of those patients have chronic pain yes? Well, I don't have as many pain patients as Dr Price, he responded well that's fine, Butrans for those with moderate to severe chronic pain, with conditions such as : ( used patient profiles in new titration guide, Butrans the only CIII opioid option on market. How could this 1 x week pain patch benefit your Medicare d patients? No answer. Well think about it, and, Butrans is now preferred on 2 large national med d plans, Medco & Cigna. So your med d patients have access to a 1 x week pain patch for their moderate to severe chronic pain. Dr asked so you can't use for acute pain? No, according to Butrans indication. Currently there are 3 doses & you can titrate as needed, what do you mean hen asked? Steady state is 72 hrs so if patients need more analgesia, you can titrate from 5 to 10 or 10 to 20 within 72 hrs. Ok. ( he was looking at how to write) on back cover. And for those patients with more severe pain, you have OxyContin controlled release as CII option. You have OxyContin? Yes I replied Purdue specializes in pain management, and we also have Intermezzo for your patients suffering from MOTN insomnia. In addition, Purdue manufactures OTC laxatives & a magnesium supplement, Slow Mag. Why don't you leave us samples then? I will, all you have to do is ask. Left 1 box of Senokot S, Colace & Slow Mag. Explained to office staff why I was leaving (OTC products TOP SHELF)
	Cuyahoga Falls	OH	44223	9/5/2013	I asked dr if he has any patients that he refills Percocet for each month? Dr said he has a few. I showed him the conversion guide and asked him if it makes sense instead of refilling the IR if a patient is in pain around the clock to start the ER Oxycontin? Dr said he tries but cost is come times an issue for Medicaid or cash patients. I told dr to focus on the Medicare D and commercial patients. I gave dr the Butrans initiation and titration guide and asked him to use it early on his tramadol nonresponders. Dr said he remembers it but has not used it. I told him that it is a good option for patients failing on NSAIDs or tramadol.
PPLPMDL0020000001	Stow	OH	44224	9/5/2013	Spoke with Holly again about ordering the Butrans 5mg patch. Holly said she will order it today. I explained the doses and steady state at 72 hours for titration and new managed care updates.
PPLPMDL0020000001	Stow	OH	44224	9/5/2013	Dr told me she didn't have time but I told her to use more OxyContin for a patient who had moderate to severe pain and gave her a OxyContin conversion and titration guide. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44312	9/5/2013	I asked dr if she has had the need to titrate any of her patients through the three doses of Butrans? Dr said she has titrated to the 10mg but none on the 20mg. I showed dr the Butrans decision tree and asked her if her patients needed more than the 10mg if she would feel comfortable titrating to the 20mg? Dr said she would but it would depend on the patient. I asked her to not take a limited response to the 10mg as a product failure and to titrate to the 20mg. Dr said she would. I asked her about the UHC patient on Butrans that needed to be on ER tramadol first and if the patient has had a follow up appointment? Dr said thanks for reminding her and the patient has not had a follow up but is due for one. I told her about the new ESI/Medco Medicare D coverage as well as SummaCare and Cigna. Dr said she is glad to know it is being picked up by more plans. I asked for continued use of Butrans for her tramadol patients needing a dose adjustment or can't tolerate it. Dr said ok.
	Cuyahoga Falls	OH	44223	9/5/2013	Caught dr in hallway of his office and showed him the Butrans initiation and titration guide. I asked him if he is still prescribing it and if not, why? Dr said he likes Butrans and said he will try to remember it. I told him to take the guide to help. Dr did so.
PPLPMDL0020000001	Mayfield Village	OH	44143	9/5/2013	Lunch meeting. Kristy writes under Dr Mukunda. If a patient needs a CII & is chronic pain patient, they worry about abuse & refer to Hillcrest pain management. OxyContin presented, q12h dosing resented, 7 doses. Presented START principles which she liked, she now knows steady state is 24/36 hrs, hence titration in 1-2 days possible. Eff conversion/ titration guide. Left reformulation information. She wanted to review section 9.2, of FPI. she may write a refil. But won't initiate new OxyContin Rx. Butrans is new to her. Full detail. Patient selection, Patient profiles used in newest piece. How to write, titration possible after 72 hrs. Why supplemental analgesia used in our 2 clinical. Trials on safety efficacy of Butrans. Pregnancy category C. She can think of a few female patients who'd be appropriate. Next time I'd like to go over pain reduction scores in our clinical trials.
PPLPMDL0020000001	Brooklyn	OH	44144	9/5/2013	Quick reminder on OxyContin,Q12h flexible dosing strengths. Asked for those Tramadol/ Ultram failures that are needing around the clock pain therapy. Intermezzo for MOTNA/dosing. He said thank you and will keep in mind.
PPLPMDL0020000001	Brooklyn	OH	44144	9/5/2013	Discussed OxyContin Q12h flexible dosing strengths, Dr. was not aware of all strengths and new formulation. Discussed Butrans and her pain patients that fail on Tramadol,said she would consider, but most of her pain patients are cash payors and couldn't afford Butrans, followed up with, Do you have at least 1 commercial insured patient or Express Script patient that she is treating for pain? Said she will see what she can do/Intermezzo for Dr Krishnan, since a large part of your patient base is Medicare Part D I'm sure it's difficult for your patients 65+ to get access to branded medications ? Yes. What % of your patient population would you say is Med D age? He replied 30-40%. And the other, a mix of age 30-50's ? Yes, a mix he replied. For those 30-40% that may have chronic pain, how do you manage their pain? I will write scheduled meds Butrans its rare. I will refer out because of the volume & complex nature of each patient, I'm too busy to focus on pain management. who do you refer out to? Hillcrest Pain Management. Dr Saeed, Dr Laham etc. getting back to Med D patients, 2 large Med D plans, Medco/ express Rx & Cigna, now cover Butrans at preferred tiered copay. Think about what this could mean for your Med D patients with moderate to severe chronic pain. You have a CIII option, that you can call in with refills. I want to think about patients on IR Tramadol. And they keep getting refilled month after month. Marketing studies show patients will stay on IR products for over 262 days. So when does a long acting product come into play? After 3 months, after 6 months, after 10 months? I'd just like you to consider a long acting agent, such as Butrans, that patients wear for 7 days. Just 4 patches per month. What do you think ? Sounds good. We've discussed OxyContin in the past. Will you write OxyContin? No. Why not? again, I don't want to manage pain on that scale. If its complicated case, I will refer out.
PPLPMDL0020000001	Mayfield Village	OH	44143	9/5/2013	Dr Mukunda this is the 1 st time I've seen you at lunch since I joined Purdue. Purdue specializes in pain management & my products are controlled release OxyContin, a CII, Butrans a CIII 1 x per week pain patch & Intermezzo, CIV insomnia agent indicated as needed for MOTN akening when patient has at least 4 hrs sleep left. OxyContin is indicated for moderate to severe pain wen an opioid analgesic is needed Around the Clock . Are you familiar with updates to section 9.2 of our FPI? No he responded. Abuse deterrent studies added, here's a piece I can leave you. I've tried to write OxyContin & its not been covered on many plans & too expensive so I've stopped writing, that shocking to me, because we have broad formulary coverage or both your commercial & Med D patients. I will leave you a formulary grid. If we can put that aside, we have savings cards in sample clock. Patient pays first \$25 out of pocket, and up to a total of \$90 off each months co pay. Ok that sounds reasonable, I will try & remember savings cards. Great! For Butrans, you have a CIII 1 x week pain patch indicated for moderate to severe chronic pain when opioid analgesic needed ATC.How does the efficacy compare to Fentanyl, as I'm only familiar w Fentanyl. Do you have any data? No, we have no head to head studies. Here's our dosing guide, went through OPIOID naive & experienced patients, then OPIOID experienced pain reduction data, I would call a peer in pain mgt & they may be able to help.Steady state, supple<font color=blue><b>CHUDAKOB's query on 09/19/2013</b></font>jenny, this was a call that falls into what we discussed on our work session. You have to sell efficacy first. Section 9.2 should be an end of the call discussion, not the beginning. Looks like you had a very captive audience. When you walked out of the call, did you feel he would prescribe your product? Which product was your primary focus?<font color=green><b>BALLIE's response on 09/19/2013</b></font>Butrans would be more likely to be written by Dr Mukunda. I apologize, I got this note mixed up with dr Ashraf response regarding trying to write OxyContin, & it not being covered, etc. this should not have been contained under dr Mukunda notes. Dr Mukunda much more conservative when it comes to pain management. I focused majority of my presentation on Butrans, as dr Mukunda would be more likely to write Butrans over OxyContin. He does not want to write CII for his patients.<font color=blue><b>CHUDAKOB added notes on 09/19/2013</b></font>-Ok. A any rate, the point about section 9.2 still applies. Thank you!
PPLPMDL0020000001	Cleveland	OH	44144	9/5/2013	Discussed Butrans for those Tramadol/ Ultram failures, feels most of her patients are adequately controlled, but will keep in mind. OxyContin Q12h flexible dosing strengths and Intermezzo for MOTNA/dosing - likes molecule and has a few patients that complain of MOTNA- will consider
PPLPMDL0020000001	Lyndhurst	OH	44124	9/5/2013	Met w office coordinator. Begged her to see Dr Reed. Told her the last time I was able to speak with her was April 16 th - which is almost 6 ms! Can she just come up to front window for 60 seconds? She stated I'm sorry, just impossible today. Not a good day. Informed staff of Medco & Cigna wins for Butrans. OxyContin Med D coverage, grids left. She will ask dr reed for permission to display my pain awareness month brochures. LEFT one for each HCP & 1 pack. Forget about new Dr Roda!! BE SURE TO ASK TO MEET HER next time.
PPLPMDL0020000001	Lyndhurst	OH	44124	9/5/2013	Karen was flying by front desk drinking coffee. Was able to get out Butrans now preferred Cigna Med D & Medco Express Rx med d. She had to catch up on several phone calls. Met with Diana. Left orange PAP web k for Karen, Butrans med d flashcard, OxyContin med d grid. Diana September is national pain Arlene's month, can u DISPAY these non branded brochures.? I will ask dr Reed. I forgot about dr Roda. Don't worry says Diana, I will make sure she sees all.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/5/2013	Spoke with Glenn the staff pharmacist in the hospital. I gave him the formulary updates with Butrans and asked him if there have been any issues about getting it covered recently? Glenn said none that he knows about and that things are going pretty well. I reminded Glenn about the OxyContin label update and abuse deterrent studies. Glenn said things are also going well with OxyContin but many patients on Medicare d p, and still need to fail MS Contin prior to OxyContin. I asked him which p, and he couldn't remember. I asked him to keep those plans in mind when there are issues so I can help figure them out.
PPLPMDL0020000001	Cleveland	OH	44106	9/6/2013	Quick Butrans reminder, patient info booklet, no new prescribers said she was swamped Ashleigh-RPH tech called off.
PPLPMDL0020000001	Cleveland	OH	44103	9/6/2013	Went over OxyContin Q12h, Butrans for those Tramadol failures, agreed he would hand out Butrans patient info to appropriate patients. Intermezzo for MOTNA
PPLPMDL0020000001	Cleveland	OH	44195	9/6/2013	Multiple MSI emails with Dr. Henry, Dr. Appachi, Ms. Cassano, and Ms. Lach to plan meetings on 9/9/13.
PPLPMDL0020000001	Akron	OH	44310	9/6/2013	I showed dr the tramadol patient type Scott and reviewed the profile. I asked dr if he will initiate Butrans instead of starting another IR opioid? Dr said he will as long as it doesn't cost too much. I told dr that the odds are with him and not against him when prescribing Butrans for most commercial plans, Caresource, BWC, and discussed Medicare D plans. Dr said he is impressed with the Medicare D plans and will use it.
PPLPMDL0020000001	Parma	OH	44129	9/6/2013	Window call. Asked dr about to remember some of the lower doses for her patients whose pain may not be as severe but it is still chronic. She said she writes OxyContin and would like some more senakot.
PPLPMDL0020000001	Brooklyn	OH	44144	9/6/2013	Went over All three products, no new Butrans or Intermezzo scripts
PPLPMDL0020000001	Cleveland	OH	44113	9/6/2013	Intermezzo reminder, Dosing/MOTNA. Dr. said he is prescribing. Quick Butrans reminder for those Tramadol patients who he sends to Pain mgmnt
PPLPMDL0020000001	Parma	OH	44129	9/6/2013	Asked dr to describe his last butrans patients and what made him think of butrans. Dr said he used the vouchers I put on this desk at my last visit and that reminded him. I asked what did the patients present with and he said he wasn't sure but he needed to change their medication. I reviewed the formulary win for Medco. Reminded dr of OxyContin dosing flexibility. Showed him where his intermezzo vouchers were located and reviewed dosing. Showed the patches and dr said he has not used butrans like he should. I asked if he knew who the butrans patient was and I should the inclusion criteria and open label pain reduction scores. He said he will keep in mind but he has written intermezzo. Dr had to get back to patients but I gave him OxyContin flexible dosing reminder.
PPLPMDL0020000001	Independence	OH	44131	9/6/2013	Told dr that he can use Butrans for his patients that are opioid naive. Dr said he knows and probably won't use it of those patients. I asked why and he told me that he wants to try an opioid like tramadol first to see how they respond. I told him I understand but if a NSAID patient is in enough pain and has a chronic condition, he can use Butrans as an option. Dr agreed. Gave him and Kelly his ma new managed care information.
PPLPMDL0020000001	Uniontown	OH	44685	9/6/2013	

PPLPMDL0020000001	Hudson	OH	44236	9/6/2013	Reviewed patient types for OxyContin and asked him to grow his business when he has patients that are continuing on their IR opioid such as Percocet. Dr said he doesn't have many on Percocet but will continue to think more about using. I explained the copy cards and dr said he doesn't remember seeing them. I placed them in his sample closet based on his recommendation. I asked dr why he isn't using Butrans? Dr said he doesn't know but has a hard time remembering. I told him he continues to tell me that and he should just use it clinically and allow it to prove itself. Discussed NSAID and tramadol patients and conversions.
	Sagamore Hills	OH	44067	9/6/2013	Dr said he does not and will not prescribe scheduled products. I reviewed the studies and asked about osteoarthritis patients and he said he will not prescribe for them either because he has his license from Florida and there his training was that only pain management drs should prescribe. He said he is close to retirement and will not change. I confirmed that this was his feeling about butrans and OxyContin. I reviewed intermezzo and he said he sent these types of patients to psychiatry. I thanked him for his honesty and asked if a patient came from pain management on these drug what would he do and he said he would turn them away.
PPLPMDL0020000001	Hudson	OH	44236	9/6/2013	Dr told me that he prescribed Butrans this morning and OxyContin yesterday. I asked dr for more info and he told me that he has a patient on vicoden and actually told him that he wanted something different. Dr said that he now has gotten to the point where he discusses the Butrans option earlier on in treatment when a patient on IR opioids needs more. Dr said he moved a stint from Percocet to OxyContin and was on high doses of Percocet. Dr said that he started on 40mg of OxyContin q12. I discussed patient types with dr and explained in detail the Maria NSAID profile and Scott. I told him to continue using it early on in treatment. Dr told me that he has found it much easier to convince a patient to use Butrans earlier in treatment. Discussed the formulary coverage and med D plans. Dr was impressed with Medicare D plans especially Medco/ESI. Intermezzo dosing and indication and asked him to prescribe.
	Cleveland	OH	44195	9/6/2013	Left OxyContin/Butrans Initiation/Titration guides info for Davis/Gutgsell
PPLPMDL0020000001	Hudson	OH	44236	9/6/2013	Spoke with Mary the pharmacy technician. I discussed Butrans dosing, titration, steady state, patch description. Mary said they have a couple of patients on Butrans and stock the 5 mcg. Discussed the copy cards and how they work. Discussed OxyContin dosing, titration and conversions. Mary said that they dispense a fair amount of OxyContin and the 20, 49 and 60mg doses are most common.
	Hudson	OH	44236	9/6/2013	Spoke with Galiana the pharmacist about products. Galiana said that she had a patient in recently on Butrans and was complaining about the side effects he was experiencing. I asked the pharmacist about the dose, physician prescribing and any other additional information. Galiana said that he is a patient of Myra Gold, a PA from Parma and was on the 20mcg patch. I asked if the patient had titrated though the doses? Galiana said she doesn't think so unless the patient got other doses filled at other pharmacies. I asked Galiana if the patient comes back in if she would discuss Butrans with him and ask him questions about his previous Butrans use? Galiana said she would and may call the PA. Reviewed Medicare D coverage and Scott profile. OxyContin doses and use in patients on Percocet and intermezzo dosing and filling? Galiana said she had not seen any intermezzo scripts.
PPLPMDL0020000001	Independence	OH	44131	9/6/2013	Met with diedra to discuss arranging a meeting with roman. She let me know that lunches have been cancelled for the remainder of the year due to policy change. She let me know that I can try and see roman after lunch every day but tues. Reviewed OxyContin start principles and discussed butrans titration.
	Cleveland	OH	44113	9/6/2013	Booked Lunch appt. Presented Express Scripts/Medco Butrans Preferred formulary win along with Dosing/Titration guide. Asked if he had a patient in mind.Said he will consider.OxyContin Q12h flexible dosing
PPLPMDL0020000001	Independence	OH	44131	9/6/2013	Told steve that I knew dr was in need of vouchers and I provided them and wanted the dr to know about the butrans managed care win on Medco. I asked he could take a minute to review the clinical trials of butrans and Pass the information to her so I can get her thoughts on the findings and the significance to the pain reduction. I left the oxycontin start principles titration guide.
	Cleveland	OH	44114	9/6/2013	Reviewed Butrans for those Tramadol/LorTab failures, dosing/titration, said she likes Butrans and will keep in mind. Intermezzo for those MOTNA/Dosing
PPLPMDL0020000001	Cleveland	OH	44103	9/6/2013	OxyContin Q12h, not seeing much OxyContin. No Butrans or Intermezzo. Butrans for those Tramadol failures. No savings card needed-majority managed medicaid
	Akron	OH	44305	9/6/2013	Short conversation about his OxyContin patients. I asked dr about the most common dose he prescribes? Dr said typically it is the 20, 40 and has some cancer patients on 80 mg. I showed him the conversions and explained the Percocet 20mg a day to OxyContin 10mg q12h. Dr said he understands and hopes it is covered better. Discussed coverage and asked for starts earlier in treatment. I asked dr to use Butrans for his patients that fit the moderate to severe pain indication and want a change in therapy from tramadol or vicoden.
PPLPMDL0020000001	Stow	OH	44224	9/6/2013	Dr had a student with him today which worked well because I initiated an introductory discussion on Butrans. Discussed the patch design, schedule three 7 day transdermal patch for moderate to severe pain. Discussed conversions and patient types. Dr Russ said that he completely agrees that the best way to start Butrans is earlier on in treatment than letter because it makes it tougher on him to convince a patient to use it. Dr said he really likes Butrans and the patients he had on it has changed their life. Dr said the efficacy is great and is very tolerable. I asked dr to continue prescribing and to use OxyContin of his patients higher up on the pain scale and if Percocet is not working. Intermezzo indication and dosing and asked for more business.
	Parma	OH	44134	9/6/2013	Reviewed butrans trials and dr had questions about allergic reaction with the elderly and I reviewed the adverse reactions from the open label study. Dr had questions about scheduling and I reviewed scheduling of butrans while he looked up the scheduling of Vicodin, tramadol and Percocet. I asked if he was comfortable with the information is was presenting and he said he will consider trying butrans. Dr said he will not initiate OxyContin but I reviewed low dose conversion. Dr said he liked intermezzo and I reviewed dosing. Asked dr to consider patients who were appropriate for butrans.
PPLPMDL0020000001	Cleveland	OH	44113	9/6/2013	Reminded Deb of Butrans for those Tramadol/LorTab failures, said she likes Butrans and continues to RX/find patients. Intermezzo for MOTNA/dosing
	Olmsted Falls	OH	44138	9/9/2013	Follow up with dr. If he had a chance to try Butrans for patients who are not controlled on either the NSAID or Tramadol. Dr. said no...I asked if it was because he was not convinced the product would work? He said no just didn't see anyone. I reminded him of who we talked about last visit. Patients with pain, secondary to a known Pathology who you feel would do well on an extended release opioid. start 5mcg, re-assess at your follow up visit.<font color=blue><b>CHUDAKOB's query on 09/19/2013</b></font>-Lisa, when looking at you next call objective, you may want to try to be a little more specific. What do you mean by appropriate patient type?<font color=green><b>BARTOU's response on 09/19/2013</b></font>-The opioid naive or Tramadol failure patients<font color=blue><b>CHUDAKOB added notes on 09/19/2013</b></font>-Let's discuss this tomorrow. I may be able to provide some guidance here.
PPLPMDL0020000001	Cleveland Hts	OH	44118	9/9/2013	No new prescribers of OxyContin- Reminded Q12h flexible dosing. Butrans hasn't seen, told him Harris has been prescribing and patients are doing well. Said he will look for RX's.
	Akron	OH	44313	9/9/2013	Spoke with Jason the pharmacist about all products. I told him about how I am stressing the importance of appropriate patient types for Butrans and discussed the Scott profile. Jason agreed that it needs to be started early. I reviewed new insurance coverages and Jason said he noticed that Medicare D plans are picking it up. Jason said he has three prescriptions for Butrans 5 mg from Dr Shah. 2 refills and 1 new. I discussed how importance titration is so the hcp doesn't think the patient is experiencing a product failure. OxyContin dosing and stocking which they have all doses. Conversions and start principles. Intermezzo indication, dosing and limitations of use. Mason has not filled any.
PPLPMDL0020000001	Cleveland	OH	44106	9/9/2013	Reviewed OxyContin Q12h flexible dosing along with Butrans for those Tramadol failures. Agreed to recommend Butrans and handout patient info booklets to appropriate patients, but feel her patient population like taking PO and refer to Pain mgmnt. but will see what she can do
	Akron	OH	44333	9/9/2013	Handed dr another copy of the Butrans exercised trial and asked him if he would b happy if his patients got at least a 30% reduction in pain score? Dr said yes he thinks so. I told him that that is what was seen in experienced trial and that 75% of patients were able to make it to the double blind phase of the trial. I told dr to use Butrans more frequently for those patients on tramadol. Reminded him of the copy cards and BWC coverage.
PPLPMDL0020000001	akron	OH	44333	9/9/2013	Dr said he only had a quick minute so I told him to pause the next time he is about to refill tramadol and consider Butrans as a solution. I gave him a copy of the Scott profile then reminded him of new Medicare D coverage. Nothing else learned.
	Berea	OH	44017	9/9/2013	Spoke to Jasmine the RN about Butrans. Jasmine said the doctor may not write a patch for pain. I explained that Butrans was a schedule 3- refill opioid that is extended release. 4 patches a month (28 days). Left various promotional pieces behind for butrans and oxycotin.
PPLPMDL0020000001	Cleveland	OH	44195	9/9/2013	MSL and Dr. Rodenas meeting with John Petrich, OTR study pharmacist. Reviewed enrolled patient profiles and pre-screen data and discussed role of pharmacist in patient identification and pre-screening. Mr. Petrich is willing to assist site team in review of opioid prescribing and will work with study coordinator.
	Akron	OH	44304	9/9/2013	Pharmacy packed today and was only able to get a minute with technician. I asked her if she is familiar with Butrans? She said she was and said they have a couple of patients on it from dr Amanabu and Sarah Adams. I spoke to her about the conversions and patient types as well as copy cards. She said she has seen patients bring them in.
PPLPMDL0020000001	Cleveland	OH	44130	9/9/2013	Showed dr Percocet to OxyContin conversion and explained they were the same. Asked the dr to think of patients currently taking Percocet in need of a dose adjustment. Dr nodded and I mentioned butrans for his patients requiring round the clock medication as he walked away.
	Olmsted Falls	OH	44138	9/9/2013	SAW al the pharmacist. Review of Butran and the 15mcg coming soon. Also about where the patch is positioned. Discussed pain awareness month. And how this could mean re-assessment in many offices of their current pain medications. Left some materials behind for review.
PPLPMDL0020000001	Cleveland	OH	44130	9/9/2013	Dr said he does not write opioids and I asked how he treated pain in patients with other chronic conditions. Dr said he does not like to prescribe my drugs. I asked about intermezzo and he said his patients like sublingual.
	Cleveland	OH	44130	9/9/2013	Gave dr information of flexible dosing of OxyContin
PPLPMDL0020000001	Akron	OH	44333	9/9/2013	Laura the pharmacist said she will not order product in and stated she had one patient on butrans and has a box of the 5 she will have to probably return. I asked prior to that who orders opioids. Reviewed start principle. Gave intermezzo dosing and administration. Told her I will let her know which doctors are writing butrans. Started to discuss rx patrol but she was not interested
	Cleveland	OH	44106	9/9/2013	Saw dr in Fairlawn and he told me he went for an OxyContin copy card and they are out. I told him I will give him more and to continue prescribing OxyContin for those patients on short acting oxycodone around the clock especially the Medicare D patients. Dr said he is doing as much as he can.
PPLPMDL0020000001	Cleveland	OH	44106	9/9/2013	Obtained Rheumatology Dept. Info. (Barb)-Nurse. Alteis-Admin. Left Butrans FPI
	Cleveland	OH	44106	9/9/2013	Visited Anes./Pain Butrans info to fellows, again requested appt. with Fellows and Dr. Hayek/Sahgal thru Admin. Terrah. Visited Rheumatology/IM- Warren/Medof MD's Nurses Donnie and Barb. Admin Altes. Family Med. no lunch inservices. Tom-Resident Coordinator
PPLPMDL0020000001	Akron	OH	44333	9/9/2013	Quick hello in office as she was moving to her next patient. I told her to continue prescribing Butrans for those patients on tramadol who are uncontrolled or can't tolerate it. Dana said she is trying to use it as much as she can. I told her to think Butrans before she refills the IR opioid. She said ok. Left new Medco/ESI 'medicare D flyer.
	Cleveland	OH	44112	9/9/2013	Reviewed Scott profile. Asked Dr. if she has similar patients? said some, doesnt prescribe more than 300mg/day 50mg Q4-6h. Asked for those Tramadol failures, said she will consider. Also review Initiation/Titration guide.
PPLPMDL0020000001	Cleveland	OH	44130	9/9/2013	OxyContin Q12h flexible dosing strengths. Intermezzo for MOTNA/dosing- had a patient in mind
	Cleveland Hts	OH	44118	9/9/2013	Pharmacist Dave, was the only one on duty and there were no techs so Dave asked if I could come back. I told him when I return I will discuss butrans titration and ordering practice, OxyContin rx patrol and intermezzo.
PPLPMDL0020000001	Akron	OH	44304	9/9/2013	Reviewed Preferred Status of Butrans on Express Scripts/Medco Medicare Part D plans, said that was good to hear. Reminded of Titration, had a patient in today and was doing fine on the 10mcg, but will keep in mind.
	Akron	OH	44304	9/9/2013	OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001					Discussed OxyContin and start principles. Started by reviewing indication, dosing and patient type discussion. Reviewed start principles and asked him his thoughts. Dr said he pretty much follows that and reassesses his patients and does not use pain scales. Dr said he basically has the conversation with his patients about their pain level, activities of daily living. I discussed how he can use the Wong Baker pain scale and how to use it. Dr said he wanted some because it can help get a baseline understanding of pain. I explained the conversion and titration guide and asked him to prescribe OxyContin for his patients requiring an ER opioid for moderate to severe pain and to focus first on his patients uncontrolled or intolerance to IR oxycodone. Dr agreed. Discussed Butrans key selling points and focused on the opioid naive trial. Reviewed key highlights of trial and then reviewed results. Dr said he remembers Butrans and asked about opioid exposed patients. Discussed the experienced trial. Reviewed conversion scale, patch location and description and insurance and copy cards. Dr said he will try Butrans early after tramadol.

PPLPMDL0020000001	Cleveland	OH	44130	9/9/2013	Rescheduled wed lunch and dr was walking in the door. I mentioned I wanted to discuss pain management with her and she did not have time. I said I would leave her information but I wanted I know her thoughts on 30% pain reduction and if she thought 2 points was clinically important. She said yes and she will talk to me at lunch. Left trials and OxyContin start principle titration guide.
	Fairlawn	OH	44333	9/9/2013	Spoke To to Jerry the pharmacist and mostly discussed products to his technicians. I asked if she was familiar with Butrans? She said she is and has had patients on it. I asked if she currently had any and she said that the last patient was on Butrans 5 mcg from dr shah and has not refilled. I talked with her ant appropriate starting dose and importance of titration. Conversions and copy cards. She didn't know about them do I explained them and she said she will get it on line if needed because currently they do not stock any doses. Discussed OxyContin dosing, titration and copy cards as well as intermezzo key selling messages.
PPLPMDL0020000001	Akron	OH	44333	9/9/2013	Quick hello in Fairlawn office. Told Stephanie to continue to consider Butrans anytime a patient tells her they need more short acting opioid. I gave her the conversion scale and told her she can titrate every 7302 hours. Left her with the new Medco/ESI piece.
PPLPMDL0020000001	Cleveland	OH	44104	9/9/2013	MSL and Dr. Eduardo Rodenas met with Dr. Henry, reviewed study updates, enrolled patient profiles, and prescreen data. Dr. Henry's potential patient population is significantly limited, and he is willing to consider turning the study over to the main Cleveland Clinic Children's hospital for a larger potential population. MSL and Dr. Rodenas to follow up with site study team to identify additional investigators.
PPLPMDL0020000001	Cleveland	OH	44195	9/9/2013	MSL brief phone call and email communication with Dr. Appachi, who was not available to meet in person. Dr. Appachi has a very limited potential patient population and may not be participating in the study much longer.
PPLPMDL0020000001	Cleveland	OH	44195	9/9/2013	Dr. Appachi committed to call MSL on 9/10/13 to discuss in further detail.
PPLPMDL0020000001	Cleveland	OH	44195	9/9/2013	MSL and Dr. Rodenas met with Ms. Cassano and Ms. Lach to discuss OTR3001. Reviewed enrolled patient profiles, pre-screen data, and patient identification strategies, including partnership with pharmacy and review of inpatient admissions for opioid use. Site study team plans to work with Dr. Dell, Research Director, to identify additional investigators for OTR, and will review patient population with study pharmacist.
PPLPMDL0020000001	Berea	OH	44017	9/9/2013	Spoke to pharmacist about Butrans- he hasn't seen much and knew little. I explained the patch technology, where it goes and where we are positioning it with drs in the area. Highlighted the 15mcg and how we could get it ordered. Have to return to talk to the pharmacist manager. Left various selling pieces also gave the pain awareness brochures out- time to Re-asses.
PPLPMDL0020000001	Cleveland Hts	OH	44118	9/9/2013	Caught Dr.as she was leaving for the day. Reminded of Butrans for those Ultram/Tramadol failures, said she likes Transdermal delivery systems. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Middleburg Heights	OH	44130	9/9/2013	Saw dr while waiting in the hall for dr diab. Aske dr if he gave more thought to allowing his oxycodone patients to taking their medication twice a day. He said he prescribes q6 and told him I was referring to OxyContin and he said he did not prescribe much and I told him they were both oxycodone. He shook his head yes. As he walked away I reminded him of butrans 7 day patch for pain and schedule 3.
PPLPMDL0020000001	Berea	OH	44017	9/9/2013	lunch with dr. ludwig and dr v. powers. Dr- remembered Butrans but said he hasn't found the right patient yet. I said that's why i'm here. I started with his current patients he see's, that have pain, pain- secondary to a known pathology. Dr. said yes he has them. Then I said how many of them are on NSAIDs for an extended period of time...or Tramadol. He said not as much Tramadol but NSAIDs. Dr. Powers also said her too. I told the doctors that id like them to think of Butrans after a NSAID failure yet before a PRN schedule 3 product and this is why. Pulled out the naive study. Efficacy and safely study- dr. liked the open table information of the study but when it came to the end point of the study and the reduction of pain scores, dr. said he felt the data was weak. After explaining Baseline ocf- dr seemed ok with the information.I asked how he felt about getting over 50% of his patients to have a 30% pain reduction score? He was not sure he thought the 30% was still low. Dr. Powers- asked about how the drug was excreted (bowels), how long the patch stays on...if it falls off and the discontinuatiun rate due to rash. Dr. ludwig said that he wasn't convinced his patients even those on tramadol would be open for the patch technology. I said how do you know- you never even offered it to them not to mention there hasn't been a schedule three extended release option before. He agreed. I asked them how many patients are you comfortable starting next week. He said 2.
PPLPMDL0020000001	Cleveland	OH	44130	9/9/2013	Spoke with Lawrence the pharmacist and he said the pharmacy just got in some booklets which he showed me. The pharmacy received a shipment of patient brochures for butrans. Asked about OxyContin quantity limits and he had not heard of any and he is a floater. I discussed rx patrol and left the twitter brochure. There were not intermezzo scripts but gave indication and limitation of use
PPLPMDL0020000001	Brooklyn	OH	44144	9/9/2013	Quick Butrans reminder for those Ultram/Tramadol failures along with OxyContin Q12h flexible dosing strengths. Said Thank You
PPLPMDL0020000001	Berea	OH	44017	9/9/2013	Dr was not familiar with Butrans. Explained the product and she said it might have a spot after her. NSAID failures. Dr. said she did not like writing PRN opioids of any kind. She said she liked the fact it was extended release and it was for 7 days. She said it was a long time. We discussed 4 patches gives patients 28 days of therapy. We reviewed pain levels...and she asked questions about where to place the patch, what happens if it falls of. We reviewed the steady state and when move patients from a tramadol to Butrans where to start (mcg). Her patients were about 50mg 3x a day.She said she does not go higher than this because she feels it increases the side effects and the product should be changed. Review of intermezzo- dr. said she would not write a product because of the managed care position.
PPLPMDL0020000001	Cleveland Heights	OH	44118	9/9/2013	No Butrans from Harris yet, reminded for Tramadol failures, OxyContin-Q12h flexible dosing strengths and Intermezzo for MOTNA.
PPLPMDL0020000001	Akron	OH	44305	9/9/2013	Gave quick review of opioid experienced trial explaining patient types with the inclusion and exclusion data, efficacy and safety, and patient types. Dr said he knows it is a good product because he has seen how well it works clinically. I asked if he would like more of his patients getting at least a 30% reduction in pain score? Dr said for sure. I asked him to prescribe it more often for his tramadol patients. Dr agreed. OxyContin start principles and patients types. Intermezzo patient types, doses and limitations of use. Reminded dr of Butrans Caresource coverage and PA.
PPLPMDL0020000001	Akron	OH	44308	9/10/2013	MSL meeting with Dr. Frieber, who provided pediatric palliative care presentation via video to PPLP study team.
PPLPMDL0020000001	Cleveland	OH	44122	9/10/2013	Upon arriving to complete an in-service on Constipation, I was informed by Francine Young that she was going to have to cancel for the third time. She said, " I'm so sorry, nobody knows what I'm going through." Francine rescheduled two in-services for 10/8 @ 2pm on Pain for the STNA's and on 10/15 at 1:30 & 2pm on constipation for the Nurses and the STNA's.
PPLPMDL0020000001	Oakwood Village	OH	44146	9/10/2013	I made a drop-in visit to meet w/ D.O.N., Barb Staemple to reschedule in-service cancelled on 7/31. I spoke w/ the receptionist, Sarah who called barb's office, she was busy w/ writing a corrective action, but told Sarah to schedule for the first week in October. I then talked w/ the ADON who was passing by and informed her of the rescheduling of the in-service. She scheduled an in-service onPain Documentation for October 1 @ 7:30, 10:30 & 2:30 as said that she would let Barb Know.
PPLPMDL0020000001	Bedford	OH	44146	9/10/2013	Upon arrival to meet w/D.O.N., Jackie Conner to introduce Purdue's Nurse Educator Program, I was informed by the receptionist that Jackie was held up w/ an issue and asked me to call her next Monday to re-schedule.
PPLPMDL0020000001	Westlake	OH	44145	9/11/2013	I made a drop-in visit to meet D.O.N., Kelly Rosnagel, I was informed by the receptionist, that Kelly went into a meeting @ 2:00 and is not available. I left PAP materials , September Pain Month Pamphlets and my BC.
PPLPMDL0020000001	Fairlawn	OH	44333	9/11/2013	Will driving to complete an in -service on pain, I recv'd a phone call from Terri Gildone cancelling the in-service for 2PM today, after I previously confirmed. She said, "I am busy w/ orientation on Wednesdays, I nwill call you tomorrow morning to re-schedule."
PPLPMDL0020000001	Westlake	OH	44145	9/11/2013	I dropped-in to speak w/ ADON, Brenda Amburgey to remind her of the Pain in-service on 9/20. She was not available. I left September Pain month pamphlets and my BC.
PPLPMDL0020000001	Westlake	OH	44145	9/11/2013	I made a drop-in visit to speak w/ Patty O'Shea to schedule a pain management in-service for the October STNA class. I spoke w/ the receptionist, who informed me that Patty was in class, I left September Pain Month Pamphlets and my BC.
PPLPMDL0020000001	Westlake	OH	44145	9/11/2013	I dropped-in to speak w/ D.O.N., Sue William about scheduling an in-service on pain management. I was informed by the receptionist that she was not able to meet w/me. I left "September Pain Month" pamphlets and my BC.
PPLPMDL0020000001	Cleveland Hts	OH	44118	9/12/2013	Informed pharm. Butrans 15mcg presentation coming in Oct., OxyContin Q12h flexible dosing along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/12/2013	Spoke with Barry the pharmacist about all products. I showed him the Scott profile and explained to him what I am speaking to physicians about and initiating Butrans early on in treatment. Barry told me that it makes sense to start early and that he continues to see Butrans and have all three doses in stock. I introduced the new 15mcg dose to be at wholesalers on Oct 1. Barry said he's not sure if McKesson will drop ship it but they will order it. I asked Barry what time a patient will need to be in the pharmacy get a med filled they need to order for next day and he said 7pm. Barry told me that their store has shipments come in on Saturdays as well. He said if a patient is there by 2pm on Friday, they will have it on Saturday. I told him that that is great information and glad to know they stock all doses. Discussed oxycontin doses, conversions, and appropriate patients. Barry said they also have all the doses and fill it frequently. Intermezzo dosing and indication. Barry said he remembers filling a couple of them and have the 1.75mg in stock.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/12/2013	Hello through window and asked her to continue starting patients on Butrans when they need a dose adjustment on their current IR opioid or are not tolerating it. I told her that in the opioid naive trial, 53% of patients achieved at least a 30% pain score reduction and that she can also experience that in her practice. Dr said she had had good results from Butrans and really likes it. I told her to continue prescribing and to remember the Caresource coverage and PA.
PPLPMDL0020000001	Cleveland	OH	44115	9/12/2013	Informed of Butrans 15mcg/hr presentation, hasnt seen any RX's, Reminded of intermezzo for MOTNA/dosing
PPLPMDL0020000001	Euclid	OH	44119	9/12/2013	Spoke with Sam, the tech. In one day/week (Thursday). Discussed the 15ug with her while waiting for pharmacist. She is a patient advocate and important here. She gave me name of Dr. Karimipil, Morley, and Bertsch and Archaki as physicians who prescribe opioids in the area. Spoke with Kevin the pharmacist. Gained a commitment to stock the 15 ug when available.
PPLPMDL0020000001	C. Falls	OH	44223	9/12/2013	Spoke with Cindy the pharmacist and technicians about the new Butrans 15mcg dose available to wholesalers on October 2. Explained the dose and asked her if she thinks she will get a drop shipment? Cindy said that they use Cardinal and she signed up as part of First Script which means that she will get a shipment of new doses of medics or new medicine when it becomes available and will be able to ship back within 6 months for a full refund if it doesn't move. I asked if all pharmacies heave that and she said she thinks so but they call it come thing else depending on the wholesaler. Cindy said she knows the 15mcg will move at the pharmacy because of pain management clinic in the hospital. Discussed OxyContin and intermezzo quickly as they had a meeting to attend. Left dosing and conversion pieces.
PPLPMDL0020000001	Tallmadge	OH	44278	9/12/2013	Quick hello to dr in hallway. I told him if he has a patient he needs to get into pain management and its going to be a while, he can prescribe Butrans for that patient to avoid prescribing more IR opioids. Dr said its a good thought but his patients typically don't wait long at Western Reserve Pain who he refers all his patients to. Reviewed the intermezzo dosing and specifics of how to dose. Dr said he will keep it in mind.
PPLPMDL0020000001	Euclid	OH	44119	9/12/2013	Met with tech Dana- first, then new pharmacist Natalia Kuchik, will move to Mayfield Rite Aid starting 9/14. Pharmacist Dave committed to ordering a box of 15 mcg Butrans when available.
PPLPMDL0020000001	Westlake	OH	44145	9/12/2013	SAW dr thru the window- told him that tomorrow I was going to discuss pain reduction scales for a very interesting pain product called Butrans. Ever hear of it? he said yes. I said excellent. I'm leaving you a study, review it and lets talk tomorrow.
PPLPMDL0020000001	Bedford	OH	44146	9/12/2013	Quick window call discussing Medco and express scripts formulary win And asked his thoughts on the clinical importance of a 2 point reduction in pain or 30%. Dr did not seem to pay attention. Passed oxycontin titration through the window.
PPLPMDL0020000001	University Heights	OH	44121	9/12/2013	Dr Price what % of your patients are cancer pain patients? About 20%. For those patients you've agreed you will continue to use controlled release OxyContin? Yes he replied. UH doesn't want us to write any opioids. Did you get anything in writing from UH ? No he replied. START principles to help with titration presented. When do you follow up with pain patients? 30 days. If they have breakthrough pain & call & ask for more medication, what happens then? I tell them to wait he responded. Another option Butrans. What do you think? I can see how it would be good in nursing homes. How about patients in your practice? I will consider he responded.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/12/2013	Spoke with Jeff the pharmacist about all products. Discussed the Scott profile and stressed importance of appropriate starting dose and initiating early in a patient like Scott. I introduced the new 15mcg dose to be available in October and asked him his thoughts? Jeff said that they have seen Butrans prescriptions from western reserve pain and has the 5 and 10mcg in stock and said he thinks the 15mcg will move. I asked him if he will order it and said he won't until he sees a prescription. Discussed OxyContin doses and conversions. I asked him which doses of the 7 he dispenses most and he said the 10 and 15mg doses. He said he stocks them all because they move. Intermezzo dosing, indication and limitations of use. Jeff said he doesn't stock and hasn't dispensed any.
PPLPMDL0020000001	Mayfield Village	OH	44143	9/12/2013	Dr Azar asked if he does write Butrans, will it be stocked at CVS for example? I replied pharmacists have told us they can have Butrans in 1 business day. He asked if weight affects efficacy of Butrans. Explain that was not part of the inclusion or exclusion criteria.. Had a lot of questions on application, disposal of used patch. Cost also a concern. When asked how many people he sees daily suffering from pain, he replied about 5 patients daily. Positioned Butrans after Tramadol. Importance of trial & savings cards to patients before they leave office. \$ 15-20 per month for Butrans is reasonable dr Azar stated. OxyContin, controlled release in practice & nursing home, broad formulary coverage. START principles discussed.
PPLPMDL0020000001	University Hts	OH	44118	9/12/2013	Updated Dr./staff on Butrans ESI/Medco 2nd tier formulary status, Butrans for those Tramadol failures. Dr. said OK, booked appt. for more time to discuss.OxyContin Q12h flexible dosing strengths

PPLPMDL0020000001	North Olmsted	OH	44070	9/12/2013	Discussed Butrans. Appropriate patient type- pain score reduction- indication. Explained no a/b rated. Talked about re-assessing patients at patients monthly visits. Discrbed how the 15mcg could be used and when. Asked if they would stock, said no, asked if they could order just one box since it was new and its better to have one then none. Pharmacist wasn't convinced it would move off shelf. discussed OxyCotin...the molecule and asked if he ever say a oxycodone script come thru for q12h? Pharmacist didn't think so. Explained the OxyCotin was branded, not generic. showed the conversion from percocet to OxyCotin. Review on Intermexzo dosing for men and Kathy helped me get an early brunch tomorrow with the doctors. When speaking with the doctor thru the window- discussed the patch technology and pain reduction scores from then naive study. Told the doctor i would be in tomorrow to talk more on the subject. Left him the naive study and some oxycontin literature for review until our meeting
PPLPMDL0020000001	Westlake	OH	44145	9/12/2013	Intro. Discussed Butrans, he likes molecule along with delivery system, Positioned for Tramadol/Ultram failures. Cost is an issue with his patients, Went over Medco/ESI formulary status. Dosing and Morphine conversions.
PPLPMDL0020000001	Cleveland	OH	44195	9/12/2013	OxyContin for Q12h flexible dosing
PPLPMDL0020000001	Akron	OH	44333	9/12/2013	Discussion with dr on all products. I asked dr what most of his patients are taking from a IR opioid standpoint when they come to see him? Dr said many things but mostly Ultram, and Percocet. I told him that Butrans and OxyContin will fit his needs. I discussed with him the Scott profile and told him that he must initiate Butrans early on in treatment for good success. Dr said that he had a patient in that exact position recently and he started Butrans but that patients cost was too high because he was on state Medicaid. I first asked for him to prescribe more Butrans for patients like Scott than reviewed formulary. Dr agreed to look more at his tramadol patients who need a dose adjustment. I showed dr the OxyContin conversion scale and asked him if he knew that Percocet and OxyContin are the same molecule oxycodone? Dr said he thinks so but was very interested in hearing about the conversion and dose regimen. I told him that when a patient is on Percocet and wants more and it is justified to move to OxyContin especially when he knows the patient will need it for an extended period of time. Reminded dr that OxyContin is not for prn pain, acute, or intermittent pain. Dr agreed and said I taught him something because he is scared of OxyContin and now he feels more comfortable with it. Intermexzo indication and
PPLPMDL0020000001	Cleveland	OH	44113	9/12/2013	Discussed Butrans new 15mcg/hr strength , OxyContin Q12h flexible dosing along with Intermexzo for MOTNA/dosing
PPLPMDL0020000001	Bedford	OH	44146	9/12/2013	Asked dr what he thought about a 30% reduction in pain. Dr said a 7.2 is different for different individuals. He said some have a 7.2 and are okay while others are in real pain. I asked if he agreed that a 2 point reduction is is clinically important. And he agreed. Reviewed the start principle in the new visual aid and dr named the doses. Reviewed indication and limitation of use of Intermexzo
PPLPMDL0020000001	Cleveland	OH	44113	9/12/2013	Butrans for those Tramadol failures and OxyContin Q 12h dosing and 7 tablet strengths
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/12/2013	I told dr to prescribe OxyContin today for patients that have been on Percocet for more than three months and need a dose adjustment. I told him that with the choices he has for ER opioids, that he needs to choose OxyContin when has excellent formulary coverage and dosing flexibility he and his patients need. Dr agreed and said he is trying. I told him that he needs to get back to starting patients on tramadol or vicoden that also are in need of a dose adjustment and he is treating a condition that warrants an ER opioid. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/12/2013	Spoke with Kimase the pharmacist about all products. Introduced the new 15mcg dose coming in October to wholesalers. I asked if she would order when e time comes if it is not auto shipped? She said it depends how much she fills but will consider it. I discussed the Scott and nancy profiles and told her what I'm talking to physicians about. She said she understands how it is a good option for patients not wanting oral medication. Explained the managed care coverage for Butrans. Discussed OxyContin dosing and conversions. Kimase said she continues to refill them along with Percocet. I told her how my goal is to get patients on Percocet who are uncontrolled switched to the q12h oxycodone. Kimase said its a tough battle but agrees more patients need moved to ER opioids. Intermexzo dosing and limitations of use. I handed Kimase a Butrans patient information guide and asked if she would give it to a patient that has come back in for a number of months to refill their tramadol? She took it and said she would. Tried to see Dr. He was busy. Spoke with M.A. Left him opioid experienced trial, 1 pain awareness brochure, new orange web key pain mgt kit. Left Marianne & Amanda updated Butrans & OxyContin formulary med d grids. Reminded M.A BWC will pay for Butrans.
PPLPMDL0020000001	Highland Heights	OH	44143	9/12/2013	Visited Anes/Pain Ctr. Nickels Butrans for those LorTab failures, Dr. agreed. Getting referrals from NEOCOM ctrs
PPLPMDL0020000001	Cleveland	OH	44115	9/12/2013	Met dr for first time and introduced an abbreviated version of Butrans. Talked to her about Butrans as a schedule 3, 7 day controlled release patch for moderate to severe pain. Discussed conversion scale and appropriate patients. I asked dr her thoughts? Dr said she has heard about it but never talked to about it. Dr said she doesn't have much issue with treating pain especially a schedule 3 and likes the idea. Dr said we can talk more at a lunch. Left initiation and titration guide.
PPLPMDL0020000001	Fairlawn	OH	44333	9/13/2013	Told dr according to published medical literature in chronic pain, a reduction of pain of 2 points on the 11 point scale was deemed clinically important. That is a 30% reduction in pain. What does that mean for your patients. The dr said a reduction like that would mean his patients would be pleased. I asked to show him some clinical data and showed the opioid naive data. Dr said his patients are on more than NSAIDs once he sees them and I said I understand but he still uses a good amount of tramadol. I asked his thoughts on trying butrans in place of tramadol for the appropriate patients. He asked if he could do this with his BWC patients because he thought they had to fail morphine and MS Contin. I said he was probably confused with an OxyContin plan. I asked if he would try butrans for the tramadol patient. Dr asked if buprenorphine induced withdrawal. I asked if he was asking this because of the addiction medication and he said yes. I explained the conversion using the FPI that 10 mcg/hr for a week was equal to a 10 mg for a week. I explained that the withdrawal may be seen for patients who stop their meds for the first 3 days because butrans takes 3 days to reach study state. Dr asked about the adhesive and I showed him the demo. He said he does not hear of problems with the adhesive. Discussed start principle and noted that he has a lot of Percocet patients. I asked if he could think of patients this week that he prescribed another dose increase instead of a long acting
PPLPMDL0020000001	Euclid	OH	44117	9/13/2013	I made a drop-in visit to see D.O.N., Kathy Nemeth, I spoke w/ Receptionist Joe Nathan who informed me that Kathy had left for the day. I left September Pain Month pamphlets along w/ my BC.
PPLPMDL0020000001	Cleveland	OH	44113	9/13/2013	Visited Anes/Pain Ctr. Nickels Butrans for those LorTab failures, Dr. agreed. Getting referrals from NEOCOM ctrs
PPLPMDL0020000001	Akron	OH	44313	9/13/2013	Reviewed Maggie profile and asked him through each point what total daily dose of Percocet the patient was on. When I finished I asked him what dose of OxyContin the patient should initiate on and he admitted he didn't know. I needed to reintroduce the conversion from IR oxycodone to OxyContin. I asked dr what his thoughts are on the case study and he told me that the patient should not have had 5x in the first place. I asked why and he said that it seems like it caused more persistent pain. I asked dr if he would have introduced OxyContin earlier and he said it makes sense after the fall and pain was increased. I asked dr to use OxyContin in this place and if he would do it? Dr said he will. Discussed Butrans and he said he prescribed his first today for a male patient on multiple short acting medicines and asked for a change in therapy. Dr said the patient called back and said he couldn't find a pharmacy with the 5 mcg in stock. I called rite aid in Fairlawn who has the 5 mcg in stock. Patient was going there to fill it and use his copay card.
PPLPMDL0020000001	Cleveland	OH	44113	9/13/2013	Showed Dr. OxyContin favorable formulary grids, Reminded of Butrans ESI/Medco status and left Butrans patient info guides
PPLPMDL0020000001	Akron	OH	44312	9/13/2013	Saw dr through front window and told him to prescribe Butrans for those patients needing a dose adjustment of tramadol or vicoden. Dr said he is trying and knows those are good candidates for Butrans. I told dr that there are Medicare D plans cover aging Butrans now and reviewed pans and asked for continued business. Gave dr doing guides for OxyContin and Intermexzo.
PPLPMDL0020000001	Beachwood	OH	44122	9/13/2013	Spoke with Karen who has 2 patients on butrans. She said dr mandat is the prescriber at the home and none of her other patiens are on. Current patient on 20 so no need to stock 15 until ordered. She suggested I contact Tom the head pharmacist in the afternoon. Discussed OxyContin start. Left Intermexzo
PPLPMDL0020000001	Akron	OH	44312	9/13/2013	Saw dr as I was coming out of lunch. Spoke with him about using OxyContin for his patients needing a dose adjustment on Percocet. Dr said ok and he will try to do that. I asked him when the last time as he prescribed it and not refilled it? Dr said he didn't know but most are refills. I asked him to take another look at his Percocet patients as candidates for OxyContin. Gave him a Butrans brochure and Intermexzo dosing guide.
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	Spoke to ma, they needed to reschedule and apt I made. Spoke briefly on Butrans- review of commercial insured coupons.
PPLPMDL0020000001	Tallmadge	OH	44278	9/13/2013	Good conversation on all products. I told dr that in the Butrans opioid naive trial, 53% of patients experienced at last a 39% pain score reduction. I asked him if he would be happy getting even close to those results? Dr said he would. I told him if his patients he initiated have found similar results? Dr said he doesn't use pain scales but said one patient that had a follow up is very happy and pain reduction is significant. I showed him the Scott profile again and told him to initiate early with Butrans and reviewed the conversion scale. Dr said its hard to think about using Butrans for a opioid naive patient but admitted that the study shows it works well for the right patient so he will consider it. Told him to switch uncontrolled Percocet patients and Intermexzo for patients meeting the indication and reviewed doses.<font color=
PPLPMDL0020000001	Stow	OH	44224	9/13/2013	09/27/2013</b></font>Cliff, wondering where you came up with the 39% figure?<font color=green><b>REICHL's response on 10/03/2013</b></font>The 9 is right next to the 0 on the keypad. Sorry<font color=blue><b>CHUDAKOB added notes on 10/04/2013</b></font>I figured you might say that and that is what I thought as well. Thanks for the clarification.
PPLPMDL0020000001	Stow	OH	44224	9/13/2013	Spoke with Greg the pharmacist about the new 15mcg dose for Butrans. Explained that it will be at wholesalers on October 2nd and asked him if he will order? Greg said the fill more 10mcg dose than any other and don't see too much 20mcg dose so he feels that the 15mcg dose will be utilized. Greg said he will order it when it becomes available. I reviewed the approximate conversion chart and asked if he needed any more copay cards? Greg says he has plenty but most patients have Caresource or BWC who can't use it.
PPLPMDL0020000001	Beachwood	OH	44122	9/13/2013	Spoke with Donnie about clinical trials of butrans. Quick call when dr came out of the room reminding him of butrans reduction in pain scores in clinical trials. Also reminded him of OxyContin dosing.
PPLPMDL0020000001	Stow	OH	44224	9/13/2013	Told Stephanie that patients on Butrans experienced at least a 30% reduction in pain score in the opioid naive trial. I asked her if she would be happy with a 30% reduction in pain score? Stephanie said she would be very happy with that! She said she wanted a pain scale to use either her patients. Nothing else learned.
PPLPMDL0020000001	Olmsted Falls	OH	44138	9/13/2013	spoke to Ma regarding Butrans- tried to see the doctor but she blocked me and said he was with patients. left him and dr. shemsiah and dr. kelly various marketing pieces for their review.
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	Left Butrans initiation guide and reviewed it was a 7day transdermal patch. Left dr various marketing pieces.
PPLPMDL0020000001	Stow	OH	44224	9/13/2013	Spoke with Corey and chuck the pharmacist about all products. Introduced the new 15mcg dose of Butrans to come to wholesalers on Oct 2. Explained the products again and reviewed the conversion guide and titration. Corey said they see patients from summit pain and have a couple of handful of patients on it and have the 10 and 20 in stock. Discussed OxyContin dosing and conversions. Corey said they don't see much and only have a few doses in stock. Corey said he will order in the new Butrans dose when its available. Intermexzo dosing, indication and limitations of use.
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	Late lunch. Met with dr. he told me he liked butrans but has managed care issues getting it through. I said what plan didn't go thru. he said medicaid. I said yes, it would continue to be a problem, discussed managed care for commercially insured patients and the program. Discussed the patch, dr said he could see the 15mcg being helpful for prim that any care, but he has not problems going from 10 to 20mcg. Dr said the patch was 3 days...I corrected him on the 7 days also the titration. He said I would wait a month before titration. I said why? He said that's when he see's them back. I said that's fine. but known a min of 3 days you can titrate incase you need to do it before the 30 days. Dr told me he was using butrans after vikodin failures. I said...do you ever see tramadolde patients he said yes.//I said how about after that fails but before vikodin. he said maybe but he felt it was better suited for after he tries them all. Dr said the product was good and that he liked it- asked him to write it for one patient next week after tramadol and see if the patient does well. He said yes maybe. Review of the patients with pain ATC that call in the middle at the end of the month o ut of their pills and why they are calling. Drug seekers dr. said. I said lets imagine that these are patients you believe enough to write an opiod and you write it PRN every 4 to 6 hours. If they are taking the medication every 4hrs... wouldn't they mathematically run out of pills by the end of the month. I would point out that these patients might be a candiate for an extended release product. Dr said true. Discussed Butrans 7 day patch technology and steady state. I asked the doctor with steady state at 3 days, how soon should a patient notice the pain analgesia. Dr. said a month. I said I think earlier than that...you can titrate a min of 3 days if you needed to. Dr. asked if patients could use a marker and write the date. I wasn't sure. Dr knew about OxyCotin, although he says he doesn't write much of it. I said how are your patients on it? He said fine. I said what made you think of OxyCotin if you don't write much? He said it was Extended release. I said oh so you value an extended release option. I said why would you PRN Percocet for ATC therapy when you hve extended release options? He said good point but we do. I said that's interesting to me how patients managed their own pain with an opioid, are they pretty compliant taking them 4x a day or is it 6x a day? Dr said they remember to take their pain medication better then antibiotics.
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	

	Westlake	OH	44145	9/13/2013	NP said he liked butrans because it was a second line product to Vikodin failures. I said why wouldn't you consider it after NSAIDs or After Tramadol failures? He said...he would but that's not what he does. I showed him the naive study and explained why i wanted him to use Butrans before he got to Vikodin. NP though butrans was not covered on the majority of plans. I reviewed this with him and the office manager. CNSDr asked if a pain patient who has LUPIS can use Butrans. I said it was not contraindicated and to explain. He said he has a patient on Tramadol, not controlled taking a variety of medications already of which are tramadol PRN. I explained that Butrans is not a combination product, the pathway it takes and the excretion thru the bowels. I asked how long the patient was on pain medications for ATC pain and he said years. We looked at the graph with the dosing conversion and 5mcg was the starting but reviewed steady state and when to titrate (a min of 3 days). Reviewed the titration options (of the 15mcg up to 20Mcg).Dr said when he see's that patient back next month he would
PPLPMDL0020000001	Olmsted Falls	OH	44138	9/13/2013	Follow up from last visit. Dr. said he thinks that Butrans has a fit before going to Vikodin, i agreed. I asked how comfortable was he at this point to write it next week for that patient we discussed. he said, he felt comfortable. I mentioned the information that doctors want information fr the om reps and studies. Dr. agreed. Touched on patient type and pain reduction scores. We discussed why we PRN opioids for ATC treatment for pain. dr. said because doctors aren't educated enough on how to treat it. We discussed how the extended release butrans works- 7 day delivery system, 4 patches a month. Also discussed the possibility of titration from 5 to 10mcg...a min of 3 days for titration. Discussed Oxycotin during the butrans talk, about extended release products. Dr.said he will be writing more extended release products like oxycotin and butrans more- often because of the pressure primary care is under to cut down the number of schedule pills they are writing. Review the molecule of oxycodone. Dr thought that intermezzo had a good nitch, but that he can't get it thru managed care. We discussed to think intermezzo per the indication- when a patient is failing ambien generic. Review of the savings program.
PPLPMDL0020000001	Olmsted Falls	OH	44138	9/13/2013	Left dr a note if i could see him based on my promise at the last meeting that i could follow up with him to see if he has any questions regarding titration. Dr. came to window...he said he hasn't started anyone yet. I reminded him of the after tramadol failure...showed the dose gui phase/initiation. Told him that Butrans showed in the open label phase of their FDA approved study a pain reduction of 7.2 to 2.6 and these patients were previously on NSAIDs. Therefore, quite acceptable that if a patient requires ATC opioid therapy that they may qualify for Butrans 5mcg. He said very good and walked away.
PPLPMDL0020000001	Beachwood	OH	44122	9/13/2013	Dr was walking by as i was speaking with Donnie the rn and i told him about the 7 day transdermal patch and he said he was aware. Left him information if OxyContin.
PPLPMDL0020000001	Parma	OH	44134	9/13/2013	Clarified misconception that Butrans was not approved on BWC. Lynda was under the impression that patients on butrans had to fail mscontin and morphine. Spoken with vikki who thought this was the case. Told lynda and vikki to write butrans and have the patient present the script to the pharmacist and let me know what happens. Vikki took my card incase there is a problem. Reviewed start principle. Reviewed intermezzo indication and limitation of use
PPLPMDL0020000001	Cleveland	OH	44113	9/13/2013	Reviewed Butrans for those LorTab/Tramadol failures, agreed and continue to find new patients, Intermezzo for MOTNA/dosing. Booked appt
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	Floating pharmacist- discussed butrans and the 15mcg product. Discussed what happens if a patient needs it and has to wait over the weekend...that they may go someplace else.
PPLPMDL0020000001	Cleveland	OH	44113	9/13/2013	Quick Butrans reminder, Tramadol/Ultram failures. Intermezzo for MOTNA/dosing. Dr. said OK
PPLPMDL0020000001	Richmond Heights	OH	44143	9/13/2013	I completed an in-service on Constipation. 7 nurses were in attendance. The laxative protocol was handed out and reviewed with the staff. A discussion w/ interaction on the risk factors, disease state, complications and the importance of documentation r/ constipation took place. Positive feedback was received from the nursing staff. I spoke w/ Nurse Educator, Sheila Harris after the in-service, she voiced interest in an in-service on Pain and asked me to contact it in a couple of weeks to schedule.
PPLPMDL0020000001	Euclid	OH	44117	9/13/2013	I made a drop-in visit to speak w/ Ruth Rossi to confirm an in-service scheduled for 9/23 @ 2:30 PM. I spoke w/ the receptionist, Hilde, who informed me that Ruth was busy with orientation. I left September pain month pamphlets along w/ my BC.
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	saw dr- discussed her pain patients that she currently treats (not new patients) that have pain, secondary to known pathology. I asked them how many were on NSAIDs currently? she said alot...i said for a while? She said months or more. I said if a patient were not controlled with their current Nsaid, this is where Butrans 5mcg comes into the picture and where i'd ask you to write it. She asked what schedule it was and i said 3. I showed her the naive study. And told her safety/efficacy data and reviewed the inclusion criteria. Discussed her patient types and that pain reduction during open label. This extended release transdermal pain patch is the only extended release option on the market this is schedule 3. If a patient is calling you up with in a month...running out of their NSAID pills or even TRAMADOL...perhaps an extended release product might work for that patient. Dr is going to think more on Butrans. Intermezzo- dr thought it had a spot...but thought Ambien was still a good product that her patients don't complain it doesn't work. Reviewed dosing and managed care briefly
PPLPMDL0020000001	Westlake	OH	44145	9/13/2013	Met dr. Discussed butrans, which dr is unfamiliar with. Review inclusion criteria for naive study- showed the pain reduction of open label and asked him if he had any doubts that this product would be effective for treating ATC pain. he said no, but how potent is it compared to fentanyl. I stated that nod a head to heads. We talked about re- assessing patients that have ATC pain and he said he see's them back once a month but some less. He said he is too busy to treat pain so he will refer them out to pain management. I said at what point do you call it quits and refer out. He said if they end up needing chronic pain control. Review of Butrans naive study. Told him where i wanted him to think butrans and why. Asked him how he felt about starting a patient like discussed today with Butrans. Then he asked about where to place the patch and managed care. Discussed OxyCotin
PPLPMDL0020000001	Cleveland	OH	44113	9/13/2013	inbetween butrans, the focus was the molecule, single entity...Brief talk on Intermezzo,dose specific for men /women.
PPLPMDL0020000001	CLEVELAND	OH	44109	9/13/2013	Reviewed Butrans for those LorTab/Tramadol failures, agreed and continues to find new patients, Intermezzo for MOTNA/dosing. Booked appt
PPLPMDL0020000001	Richmond Heights	OH	44143	9/13/2013	Went over Butrans- Tramadol failures, 7-day Transdermal, hasn't seen any yet. 15mcg presentation. OxyContin Q12h dosing and Intermezzo for MOTNA/Dosing. Raheja key prescriber in the area.
PPLPMDL0020000001	Akron	OH	44312	9/13/2013	I made a drop-in visit to speak w/ Joan Southard and schedule an in-service on Constipation. I spoke with the receptionist, who informed me that she was not available. I left. September Pain Month pamphlets and my BC
PPLPMDL0020000001	Beachwood	OH	44122	9/13/2013	I told dr that the only way He is going to see success with Butrans is to continue using it in patients like Scott or nancy that are in need of a dose adjustment on their IR opioid or those asking for another alternative for pain. Dr said Cohen is trying but hard to find the patients we have spoken about. I asked why and he said he is realizing that maybe he needs to taper some of his patients down off their IR opioid first. I told him its a good idea to do that anyway especially if its a short acting that has been refilled numbers of times.
PPLPMDL0020000001	Rocky River	OH	44116	9/16/2013	Clarified misconception that Butrans was not approved on BWC. Lynda was under the impression that patients on butrans had to fail mscontin and morphine. Spoken with vikki who thought this was the case. Told lynda and vikki to write butrans and have the patient present the script to the pharmacist and let me know what happens. Vikki took my card incase there is a problem. Reviewed start principle. Reviewed intermezzo indication and limitation of use
PPLPMDL0020000001	Berea	OH	44017	9/16/2013	Lunch. Dr told me that she doesn't write much opioids for chronic pain patients. I asked her who manages her diabetes or osteoarthritis patients and she said she treats that. I said do you treat them for pain with anything currently. She said NSAIDs. I introduced the naive study...and we discussed her current options in schedule 3 opioids. Dr. Said she would think about Butrans.
PPLPMDL0020000001	Berea	OH	44017	9/16/2013	Follow up based on last visit- confirmed with him that the patches do have the mcg information on each patch and that the patient could write the date in the patch. Dr said oh good, that's good for his older patients. He asked how my presentation went, we discussed highlights of the naive study and I learned that on average a 30percent pain reduction represents a clinically important improvement according to published medical literature in chronic pain patients. Dr said the number seems low. Left the Scott profile for him to remind him that we discussed finding the uncontrolled Tramadol patient to try Butrans 5mcg or 10mcg. He said yeah yeah...I no.<font color=blue><b>CHUDAKOB added notes on 09/30/2013</b></font>When he said this seems low, a follow up questions might be "what type of pain reduction do you look for? Or you can rephrase to ask "If your patients pain went from a 7 to a 4.9 (30% reduction) would you be satisfied with that initially?" Sometimes asking the same question in a different way helps to clarify.
PPLPMDL0020000001	akron	OH	44333	9/16/2013	Follow from last visit. Left her Maria profile- highlighted starting butrans 5mcg for a patients not controlled on NSAIDs. 7 day patch technology, single entity buprenorphine. Asked what concerns does she have going to. Butrans from NSAID. She said none.<font color=blue><b>CHUDAKOB's query on 09/30/2013</b></font>Have you worked on efficacy? If so, is she convinced it will work for her patients? Remember, they won't prescribe if they don't believe it works first.<font color=green><b>BARTOLI's response on 09/30/2013</b></font>understood and agree.<font color=blue><b>CHUDAKOB added notes on 09/30/2013</b></font>Great. I know you will
PPLPMDL0020000001	Cleveland	OH	44195	9/16/2013	Office under construction and dr only gave me stand up time. Handed him the opioid naive trial and hit key points while focusing on him identifying patients that are opioid naive who's pain is severe enough for Butrans. Dr said he is trying to use more and told me we could talk more next time. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	9/16/2013	MSL telephone conference with Dr. Eduardo Rodenas, Dr. Spalding, Dr. Dell, and June Cassano to discuss BUP3031. Dr. Spalding has agreed to take over as PI and study start-up procedures will begin again. MSL provided update to PPLP and Quintiles teams.
PPLPMDL0020000001	Cleveland	OH	44195	9/16/2013	Visited Pain/Anes/ Dept. Left Fellows info. Spoke with D.Leizman MD, Visited C25 Neuro Dept. Left info form Bamford, obtained admin.contact info
PPLPMDL0020000001	Lakewood	OH	44107	9/16/2013	Discussed Butrans 15mcg- pharmacist would not stock the 15mcg. Left patient brochure and will return another time to discuss butrans
PPLPMDL0020000001	Cleveland	OH	44114	9/16/2013	Rph. backed up with administering Flu shots, Left Butrans info.
PPLPMDL0020000001	Chagrin Falls	OH	44023	9/16/2013	Spoke with Maria the tech and Ben the pharmacist who told me Mondays were terrible for their store. Reviewed the butrans formulary grid and 15 pharmacy piece. Ben said he had to get back to customers but I spoke with Maria about bringing in the 15. She passed the information on. I reviewed the dosing of OxyContin
PPLPMDL0020000001	Parma	OH	44129	9/16/2013	Spoke with Keith the pharmacist who agreed to bring in the 15 based on the clinical trials data and their current use of the 10 and 20. Reviewed the start principle for butrans. Gained his commitment to not substitute Intermezzo when he sees a script.
PPLPMDL0020000001	Cleveland	OH	44195	9/16/2013	Went over Butrans dosing initiation, requested additional info.. Dr. Ilkes Buprenorphine
PPLPMDL0020000001	Chagrin Falls	OH	44022	9/16/2013	Spoke with ma to about clinical trials for Butrans and formulary coverage. Discussed flexible dosing of OxyContin. Booked lunch
PPLPMDL0020000001	Fairlawn	OH	44333	9/16/2013	Met dr for the first time and discussed both intermezzo and Butrans. Dr started off by saying he doesn't prescribe intermezzo because it is too expensive and he can just have his patients cut the Ambien pill to get the same diapered effect. I asked dr how he knows it is too expensive if he hasn't prescribed it? Dr said he has heard how expensive it is and figures that it isn't covered on insurance. I told dr that the only way he can state fact about a product is from practical experience and he has none. Dr said he will not use . I asked about his use of Butrans and he said he doesn't prescribe pain medicine. I asked if he refills tramadol or vicoden for his patients and he said he refers out immediately however mentioned that he has a suboxone clinic!?!? Dr said he will not prescribe Butrans either.
PPLPMDL0020000001	Cleveland	OH	44104	9/16/2013	Presented new 15mcg/hr Butrans dose, discussed formulary coverage/PA challenges, OxyContin/Intermezzo savings cards
PPLPMDL0020000001	Lakewood	OH	44107	9/16/2013	Saw dr. used the 30% pain reduction insight and asked how he felt that compared with is practice. Dr. said 30% was rather low. Told him about naive study- pain reduction during open label...and the patient not controlled on thir NSAID or tramadol to offer Butrans 5mcg. Dr as ked coverage of medicaid. I addressed, and focused on commercial savings program. Asked him if he would find one patient this week during re-assessment to try Butrans for? dr said...we'll see.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/16/2013	Spoke with Bridgett about al products and introduced the new Butrans dose of 15mcg after discussing key points to the product. Bridgett said she does not see patients to fill it and does not have any in stock. Pharmacist said that she knows western reserve pain uses it but their patients do not go to acme to fill it. I discussed OxyContin dosing, titration and patients appropriate. Bridgett said that she does fill it and has most doses in stock. Intermezzo dosing, and indication and left her with a dosing guide.
PPLPMDL0020000001	Akron	OH	44333	9/16/2013	Spoke with Katie the technician and Donna the pharmacist about all products. Discussed new dose for Butrans and reviewed new pharmacy piece. I asked Donna if she would order Butrans 15mcg when available. Katie looked at current stocking and they have all three doses and Donna said she will need to look at dispensing of Butrans. I told her that patients want their medicine today, not tomorrow. Discussed OxyContin dosing, titration, patient types for the product. Katie said they fill it regularly. Intermezzo discussion around indication and patient types.

PPLPMDL0020000001	Parma	OH	44129	9/16/2013	Delivered 30% pain reduction and asked what that would mean for her patients. She said less break through meds. Discussed trials 7.2-2.6 in open label. Discussed break through meds used in study. Shared over 50% got atleast 30% reduction. She said she has written some since the program. I asked what they were on and she said Vicodin. I asked if this information would make her think about more patients. Asked if she has patients on OxyContin and she said yes but she will not write schedule 2 because it is the rule in the practice so I reviewed the 7 strengths so she knows there are lower strengths. Reviewed intermezzo dosing and she said she has a patient on that pays cash. I reviewed caresource. Discussed managed care with Susan and zoni since they get the calls for refills. Discussed supplemental angelsia with Butrans and the potential for withdrawal during the first 3 days and how to initiate using the titration guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/16/2013	Discussed all key selling messages for Butrans with all drs in attendance. Reviewed both opioid naive and opioid experienced trials focusing on responder rates achieving at least a 30% pain score reduction. I asked dr Higley about his expertise with Butrans and where he has been implementing it into his treatment of pain? Dr said that he is very conservative in treating pain and dos not like prescribing short citing opioids. Dr said that he has used Butrans for patients unresponsive to Ultram and viconden. Dr said that most of his patients respond to it very well from an efficacy and safety standpoint. Dr said that he likes the patch instead of the pill and that it lasts for a week. I asked dr if he has ever used supplemental analgesics with Butrans? Dr said he has and would rather use the NSAIDs for breakthrough. I reviewed all the case studies and examined how to titrate and to do so when patients need more pain relief instead of discontinuing Butrans. Dr agreed and said he has patients on the 20mcg dose and has worked well. Intermezzo discussion and dr said he likes it but it is too expensive and Spoke with candy about the opioid naive trials and was reviewing the strengths when dr came to get patient. He was running behind and said I could see him at other office. I told him I wanted to get his thoughts on an article I read that said a 30% reduction in pain was clinically important, he said he will speak with me later. Left OxyContin titration guide and butrans naive study.
PPLPMDL0020000001	Parma	OH	44129	9/16/2013	Lunch. Dr asked if OxyCotin was generic. I said what do you think, he said I think it is. I said when you write oxycodone, are u thinking ur patient is getting OxyCotin. He said yes. Review of the facts. Review of the molecule of OxyCotin and the different delivery system q12h. Dr said there is a ot of concern with tylenol usage. Dr gave me his thoughts on the damage Tylenol can have on a patient. I reminded him that OxyCotin was a single entity opioid and if that might work better for his patients where he has Tylenol concern and he said yes. We discussed it was still can be abused, has abuse potential or can cause possible respiration depression. Dr said he has many patients that come in every month for their follow up visits regardless if ts a schedule 2 or 3. I asked him how many patients he sees in a week for the atc pain care and he said he will see 6 this week. I asked how he re-asses them at their visit. He says he asks their pain is under control and most say yes to get their script and get out. We discussed Butrans. He asked what's the generic name. He asked about dosages and we talked about the steady state. In regards to his re-assessment I asked him to ask his patients if they were waking up in pain. Dr said I'm sure they are. I said doctor they are a perfect candidate for the extended release Butrans. He said I was right. Then he asked about Medicare part d coverage.<font color=blue><b>CHUDAKOB's query on 09/30/2013</b></font>Lisa, please read the following sentence in your call notes. What data do we have to show OxyContin might work better for his patients?"I reminded him that OxyCotin was a single entity opioid and if that might work better for his patients where he has Tylenol concern and he said yes."In addition, you want to avoid words like "perfect candidate" Is there really a "perfect candidate" for any medication? You might have asked "Do you see where Butrans might be an option?"<font color=green><b>BARTOLI's response on 09/30/2013</b></font>No Study or data to support OxyCotin Works better. DR. Expressed concern with combination Opiod products - I will rework my wording.<font color=blue><b>CHUDAKOB added notes on 09/30/2013</b></font>I know what you are trying to do and being new it can be challenging. Hang in there.
PPLPMDL0020000001	Lakewood	OH	44107	9/16/2013	Spoke to ma trying to speak to doctor. Discussed Butrans, transdermal technology. Left Scott profile behind for dr to read.
PPLPMDL0020000001	Chagrin Falls	OH	44023	9/16/2013	Spoke with Cassie, pharm tech and Jim the store pharmacist about stocking and they said they would pass the information onto Chris bios, the pharmacist in charge. He asked why there was not a 15 before this because he has doctors that don't go to the 20 because they feel it is too big a jump. I gave a clinical trial over view and discussed pain reduction. Reviewed the start principle for OxyContin. Gave indication and limitation of use for
PPLPMDL0020000001	Lakewood	OH	44107	9/16/2013	Discussed the -re-assess start principal with office manager. she said the patients come back monthly for their refills. I asked what questions were asked regarding pain relief? She didn't know. I suggested to ask if they awake up in pain or not. Discussed extended release Butrans and OxyCotin q12h.
PPLPMDL0020000001	Rocky river	OH	44116	9/16/2013	lunch. Met the doctor- she was unfamiliar with Butrans. Discussed the overview of the 7 days opioid schedule 3 pain patch. Discussed Abuse potential and possible Respiratory Depression. She Asked about Rash- and I sighted the AE section of the main visual aid. Review of Opioid naive study and asked her if she ever thought about Using a Schedule 3 opioid that is extended release after a NSAID failure. She said no. When asked why... she said she never knew about Butrans before today. Discussed OxyContin, and she was familiar with that product and so was Dr. Blitz. She asked about managed care...when I asked if she had a patient in mind, she said the older patients and nursing home patients. Did give her dosage adjustment for the elderly with OxyContin (1/3 reduction). Covered the savings program.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/16/2013	Good discussion about Butrans and intermezzo. Discussed all key selling messages for Butrans and focused on the case studies. Reviewed each spaces study and asked dr if he has opioid naive or tramadol patients taking them around the clock? Dr said he has many of both. I told dr that he needs to pause before he refills the short acting opioid or NSAID and ask if the patient is appropriate for a schedule 3, 7 day transdermal patch? Dr said that he knows he should be using it but has been forgetting about it. I gave dr the slide guide for convensions and told him to keep it with him and discussed copy cards. Dr said he wants the cards and will get them from Higley who handles all cards. Dr said he will use it. Intermezzo indication, dosing and limitations of use. Dr said he can't get it covered but wants to use it. I told him to focus on Caresource. Dr said he has lots of buckeye.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/16/2013	Told him it may be difficult but worth a try if the patient had failed zolpidem. Short discussion about Butrans and dr did not recall discussing it in the past with me. Provided all key selling points about Butrans and asked dr if he has patients on tramadol around the clock? D said he does. Discussed the Scott profile and asked him to use Butrans for those patients needing a dose adjustment or can't tolerate it. Dr asked about cost and discussed new insurance grid. I asked dr if he will prescribe after showing placebo patch? Dr said he will and agrees that a schedule 3 is nice and likes the administration route.
PPLPMDL0020000001	Cleveland	OH	44102	9/16/2013	Discussed Butrans for those Tramadol failures, dosing and opportunity to do in-service for nurses
PPLPMDL0020000001	Cleveland	OH	44114	9/17/2013	Presented Butrans 15mcg/hr dose,Reviewed Butrans for those Tramadol failures, RPH Kristin hasnt seen any Butrans or much OxyContin. Intermezzo for MOTNA/dosing.
PPLPMDL0020000001	Cleveland	OH	44113	9/17/2013	Talked with Debbie (RN) discussed Butrans for those Tramadol failures, she agreed its an option for appropriate patients. Ortho/Pain mgmnt is developing an protocol for referring patients to pain mgmnt. Left Butrans Initiation/Titration guides for Dr.
PPLPMDL0020000001	cuyahoga falls	OH	44223	9/17/2013	Told dr at window that he should take an extra minute before adjusting a dose of a tramadol or viconden patient and ask yourself if Butrans is an appropriate option for those in around the clock pain. I handed him the nancy profile. Dr said he doesn't have many patients on viconden but knows he needs to review it with those that need more than the short acting. Dr said because of his sports medicine background he really tries to make sure sus his patients to through physical therapy prior to him implementing any LA opioids. I told dr I understand however if the patient is still in pain during physical therapy he might need to move to An LA opioid? Dr agreed and thanked me for the information.
PPLPMDL0020000001	Cleveland	OH	44109	9/17/2013	Talked with Floater(George)RPH. Presented Butrans 15mcg/hr..Learned that Mary-tech. does all stocking/ordering. Will order in next month
PPLPMDL0020000001	Northfield	OH	44067	9/17/2013	Spoke with see about ordering in a box of the 15. She said she orders a box every other month but did have all the strengths in stock. She said if she orders on a mon she will get on her thurs shipment and was wondering would she get the product in time if she orders now. I told her physician promotion will begin oct so having the product on had will allow me to tell physicians one of three pharmacies they can get the 15. Reviewed clinical trial data. I asked if she stocked all the OxyContin strengths and she said she thought so but she was unaware of the 15. Reviewed intermezzo indication and told her there was no ab equal.
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Quick through the window reminder of butrans managed care formulary win on part d. Reminded dr of flexible dosing for OxyContin.
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Dr reminded he refers out to dr demagone but was happy to listen to what I had to say. I told him I just wanted to give him some information on pain reductions and delivered the pain reduction insight and he said it would not impact his practice because he refers out. No further information gained.
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Asked Edwin to bring in a box of the 15 since he has some writers of the 10 and 20 in this area. He asked if there would be an automatic shipment to the store and I said I did not think so. He asked me to find out and get back to him because he did not want to get in a box when one was automatically coming. Reviewed dosing flexibility of OxyContin. Reviewed intermezzo dosing and administration.
PPLPMDL0020000001	Cleveland	OH	44109	9/17/2013	Talked with RPH, presented Butrans 15mcg/hr. She Has only 1 patient on Butrans. and OxyContin is rarely filled at this location, Main Campus only
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Dr could not stay and talk for lunch so I gave him the pain reduction insight and asked how he that would impact his patients. Dr said he does not like to write long acting narcotics and left for the hospital. I told him I would leave him some interesting information on the butrans clinical trials.
PPLPMDL0020000001	Northfield	OH	44067	9/17/2013	Spoke with Maggie the ma who gave me office hours and said dr is having success with the patch. Reviewed managed care grid to let her know butrans is covered on more that workers comp. asked about drs oxycotin usage and she said very little but occasionally. I reviewed the conversion from Percocet to OxyContin and she was not aware that they were the same.
PPLPMDL0020000001	Cleveland	OH	44102	9/17/2013	I recv'd an email from Cleveland District Sales Manager, Barry Chudakoff, requesting that I contact sales rep, Mark Gutkowski in regards to coordinating and completing a pain in-service to coincide w/ his Butrans in-service. A phone call was placed to Mark to discuss. 216-310-5700
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Linda needed more butrans tear sheets and she said she wrote one yesterday after I left. I asked what did the patient present with and she said low back pain. A reminded her to prescribe supplemental analgesia. Reminded her of intermezzo dosing and administration and caresource
PPLPMDL0020000001	Akron	OH	44310	9/17/2013	Started off using the insight about number of patients turning 65 and into Medicare age. I told him that he will need more and more options that are available for patients pain. Dr agreed and said that it is becoming more difficult to find options that are not generic for pain. Dr said he really likes Butrans and wanted to know the Medicare D plan coverage. I told him about the Medicare D plan coverage and asked him if it makes a difference for his patient population? Dr said it does make a difference. I asked dr if he would like to see at least a 30% reduction in pain score from a pain medicine? Dr said his patient would very much like that. I told him about the clinical studies focusing on the clinical results and safety for Butrans. I asked dr what triggers him to titrate Butrans? Dr said patients fill it a pain rating each time they come back for follow up but he said he flies on functionality and improved lifestyle as signs on what to do next. I asked dr if he has titrated Butrans to 20mcg? Dr said he has and has had good results. Dr said that patients either get really good results from Butrans or they don't like it at all. I told him to focus on the patients with good results and try to find others with similar profiles. Dr agreed and said that's a good point. I asked dr to continue prescribing and he agreed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/17/2013	Spoke to Elizabeth about Butrans dosing, patient types like nancy, titration and conversions. Elizabeth said they have a couple of patients on it. I introduced the 15mcg dose and explained When it will become available. She said that they will probably get it from their wholesaler. Elizabeth said that she was filling viconden for a patient and Butrans came up in the system as a product that may be appropriate for the patient. Elizabeth said that the system does that for them which helps. I asked if she ever recommended it or told a patient filling Vicodin? She said she has not but she may.discussed OxyContin and intermezzo dosing and titration with OxyContin. Elizabeth said they fill OxyContin fairly often but have not seen intermezzo.
PPLPMDL0020000001	Parma	OH	44134	9/17/2013	Discussed drs reduced hours and asked where he is the rest of the week and he said he does various things the rest of the week. I asked him how he access pain and he said experience. He said patients tell him how their meds are working. He just had a patient that was on 30 bid of OxyContin and wanted more. Dr said he would not increase the dose and told the patient you can't trust generics. I reminded him that there is no generic for OxyContin. He asked about pharmacy switches to oxycodone and I told him that if the patient was given an immediate release twice a day he would probably not get pain relief. Reviewed the 7 strengths of OxyContin and the start principle. I stated he was reaccessing pain. Reviewed the titration of butrans. Reviewed intermezzo indication.<font color=blue><b>CHUDAKOB's query on 09/27/2013</b></font>Marcia, you really cannot make the statement that if a patient was given an immediate-release twice-a-day he would probably not get pain relief. you do not know that to be the case, nor do we have any data to support this.<font color=green><b>KENNOMA's response on 09/27/2013</b></font><font color=blue><b>CHUDAKOB added notes on 09/30/2013</b></font>Thank you. If you have questions on this, please let me know.
PPLPMDL0020000001	Cleveland	OH	44109	9/17/2013	Visited Anes/Pain Dept. Spoke with Sue-Resident Program coordinator (21 Residents) Left Butrans dosing and Titration guides for residents. Obtained contact in regards to entire Metro Health System educational coordinator (Marcie Becker)

PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Gave pain reduction insight and asked dr his thoughts on how this might impact his practice. Dr said he put a patient on butrans and she is doing well. I asked what prompted him to write and he said he always liked the product but coverage was an issue I asked if he has written in the past and he said no. I reviewed the formulary grid and told him about the recent formulary wins on med d. I reviewed the clinical trial pain reduction data and he said he will write again. I confirmed that he wanted to write in the past but formulary was stopping him. I asked if the additional data confirming his experience would encourage him to write for more patients. I asked dr if he was familiar with the 7 dosing strengths and he named all but the 15. I reminded him if the 15 and the titration of 25-50%. He asked about coverage because the hospital only gives generic as an option. I told him there was no generic and he called Parma general hospital pharmacy on speaker phone and they verified that they only have oxycodone ER generic. I told him I would go to the pharmacy to investigate because their ems system must have incorrect information. Reminded dr of intermezzo and dr said he has tried to write before and was not able to get it approved. I showed him the savings cards and he said he will try again.
	Cuyahoga Falls	OH	44221	9/17/2013	Spoke to Kristen the pharmacist about all products. Discussed Butrans as the only schedule 3 7 day transdermal patch. Introduced the 15 mcg dose and about shipping across the country. Kristen said she just filled a Butrans 10mcg and are receiving the 5 mcg this morning. Kristen said she would order the 15mcg because they are seeing enough to warrant it especially since they are coming from pain management. I asked who orders and she said usually her technicians order it which I never heard of. Discussed OxyContin dosing and conversions from Percocet and she said it makes sense and she sees way too much Percocet being filled along with vicoden and patients should be on long acting products. Intermezzo dosing and limitations of use which Kristen said she has not filled yet.
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Gave pain reduction insight and dr said he does not use pain scale. Said he asks the spouse how the patient is doing. Asked his thoughts on pain reduction and he said he does not believe in long term use of narcotics and I discussed the inclusion criteria, all of which he said there was surgery for. Asked if he would prescribe for patient with a known pathology, who he trusts to write for and he said no. I asked if he did not want to write or if he truly did not believe in the use of narcotics. He said both and he will leave to pain management but the best doctors know how to get rid of the pain with surgery. I reviewed intermezzo indication and limitation of use and he said this would be perfect for his group home patients who need MRI. I told him this was not a proper use because the patient needed atleast 4 hours of sleep and an MRI is about an hour. He said it would be cheaper and I said again that intermezzo was not studied for that use and that is an improper use of this sedative hypnotic. I asked him to review the intermezzo dosing guide.
PPLPMDL0020000001	Parma	OH	44129	9/17/2013	Spoke with justyna the tech and told her drs in the area have informed me that the hospital ems system has an oxycodone ER generic selection and I was confused because there is no OxyContin generic. She said the pharmacist was in a meeting but she would give my card and have her call me. I reviewed the Percocet conversion and explained that my concern that drs in the area are not sure what patients are getting.
PPLPMDL0020000001	Akron	OH	44333	9/18/2013	Saw dr in hallway in stow office and reviewed the appropriate patients for Butrans and told her about a patient like Scott. Stephanie said she is seeing a lot of it in the office and most are doing very well. I told her to prescribe it for the patient we just discussed. Stephanie said ok. Nothing else learned
PPLPMDL0020000001	Parma	OH	44129	9/18/2013	discussed new script and that she needs to wait 3 days to see how the patient is responding. I refreshed her memory on using supplemental analgesia with butrans. linda discussed another patient she is monitoring to see how they respond to the 20.
PPLPMDL0020000001	Stow	OH	44224	9/18/2013	Quick message in hallway about Butrans and asked him to continue prescribing it for his patients not responding or tolerating IR opioids. Left him with the Scott profile. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	9/18/2013	I told dr about the insight about hydrocodone /APAP. And asked what his thoughts are about the statistics? Dr said he agrees that it has gotten about of control. I asked dr if he sees the need to initiate ER opioids before a patient reaches the 90 days? Dr said there are many factors that play into that but said he tries to do it as early as he can. I told dr that I want him using more Butrans for his patients needing a continued dose adjustment of their tramadol and OxyContin when patients have continued to refill their Percocet month after month. Dr said thanks. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	9/18/2013	you have come up with a good next question. If you can get him to realize the success he has had and the patient type he had it on, you will increase his business. Good thinking!
PPLPMDL0020000001	Brooklyn	OH	44144	9/18/2013	Spoke with Justin, no new info learned has seen some RX's of OxyContin this week, nothing on the Butrans front
PPLPMDL0020000001	Parma	OH	44129	9/18/2013	Floater filling in, no time to discuss, stop back later in the week. Left Butrans 15mcg/hr info
PPLPMDL0020000001	Parma	OH	44129	9/18/2013	spoke with pharmacist about dr was under the impression that patients were getting generic oxycontin. pharmacist clarified that the emr system has a pull down menu that says oxycodone ER but assured me that the patient is getting the branded product because that is all that is in stock
PPLPMDL0020000001	Parma	OH	44129	9/18/2013	communicated with dr the coverage for bwc. dr asked if it was covered now and office staff said no and provided a copy of the denial.
PPLPMDL0020000001	Cleveland	OH	44106	9/18/2013	Visited and booked appt with Terrah for Anes/Pain dept. Left OxyContin Info for Silverman and Oncology
PPLPMDL0020000001	Akron	OH	44333	9/18/2013	Conversation with dr about using Butrans for his patient patients under and over 65. Discussed the opioid experienced study and reviewed the inclusion and exclusion criteria. Dr said he has some patients on Butrans in their 30's and 40's but most are over at least 50. Dr said he will find some more patients for Butrans and knows how well it is covered on Medicare D plans. I discussed OxyContin and reviewed the insight about oxycodone. Dr said he really is liking OxyContin more especially for his patients on Percocet. Dr said its a necessary and easy switch. I told dr to continue handing out copy cards and to use intermezzo more. Dr reminded me how he can't get insurance to pay for it.
PPLPMDL0020000001	Copley	OH	44321	9/18/2013	Told dr Machado and his father Dr Grenville Machado about a patient coming back in for a follow up appointment for their pain on tramadol. I reviewed the Scott profile and told him that he has a decision to make when the patient has had Tramadol refilled for at least 3 months and complains of pain. He can either titrate the Tramadol, or consider what the patient is being treated for like osteoarthritis or low back pain; take a minute to assess the appropriateness of Butrans for that patient. I reviewed the conversions for Butrans and asked him his thoughts? Dr said he sees my point and will consider it because he likes that its an ER opioid that is a schedule 3. I asked him to gain clinical experience. OxyContin dosing schedule and asked him his experience with it. Dr said he has had little to none since he is so new but said he will mostly reserve that for his specialists. Showed him the conversion guide with Percocet and asked him to use the 10mgq12h. Intermezzo indication, dosing and limitations of use.
PPLPMDL0020000001	Cleveland	OH	44113	9/18/2013	Quick Butrans reminder for those Tramadol failures, left dosing/titration guide
PPLPMDL0020000001	Cleveland	OH	44130	9/18/2013	reviewed butrans 15 with ben the pharmacist, discussed the start principle for oxycontin. reviewed intermezzo indication and limitation of use
PPLPMDL0020000001	Copley	OH	44321	9/18/2013	Spoke to dr about the Scott profile and told him to take the extra minute before he refills or titrates tramadol and see if a product like Butrans would be appropriate. I reviewed the case study and asked him if he will do that more frequently? Dr said he already has patients on Butrans who are doing well from tramadol and vicoden. I told dr to evaluate more patients like them for Butrans going forward. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44313	9/18/2013	I told dr that I'm guessing that he has cm,racial prescription insured patients taking 4 5 /325 Percocet a day? Dr said he has some. I showed him the OxyContin conversion scale and told him that if those patients are on it for more than 90 days, a ER opioid may be appropriate and a patient would convert to 10mg OxyContin q12h. Dr looked at it and said many patients on Percocet over 90 days have to because of cost. I told him I want to focus on his patients where cost is not as much of an issue. Dr said ok and he understands. I gave him another Scott profile and told him to reassess his tramadol patients for Butrans. Dr said ok and took the information.
PPLPMDL0020000001	Cleveland	OH	44113	9/18/2013	color=blue>cb>CHUDAKOB's query on 09/30/2013</b></font>What is a "cm,racial prescription"?<font color=green>cb>REICHCL's response on 10/03/2013</b></font>Commercial. Stinking iPad.....<font color=blue>cb>CHUDAKOB added notes on 10/04/2013</b></font>Thanks for the clarification. Please take the time to review. Your notes before submitting them. That will avoid this extra clarification... Thanks Cliff.
PPLPMDL0020000001	Cleveland	OH	44113	9/18/2013	Quick OxyContin reminder Q12h flexible dosing strengths. Left Formulary grid
PPLPMDL0020000001	Cleveland	OH	44106	9/18/2013	Discussed Butrans 15mcg/hr strength, will order if she sees RX's. OxyContin strenths, she believes most DR's are aware of flexible dosing
PPLPMDL0020000001	Stow	OH	44224	9/18/2013	Had enough time to speak with pharmacy technician about Butrans. She said that they see a good amount of it and have all doses in stock. I reminded her it is a schedule 3 and is a 7 day transdermal patch. I introduced the 15 mcg dose and asked if they will stock? She said that the pharmacy manager Krista would know that information and was told she was way to busy to talk. I asked her to tell Krista about the new dose and that it will be available on October 2.
PPLPMDL0020000001	Copley	OH	44321	9/18/2013	Spoke to Matthew the technician about all products. I introduced the new 15mcg dose of Butrans and reviewed all key selling points. Matthew said they filled one a couple of weeks ago for dr Machado. I asked the dose and they said 5mcg. I asked who does the ordering and he said Jenna the pharmacist typically does it. I asked if he thinks she would order the 15mcg dose as long as they continue to see prescriptions. OxyContin discussion with Matthew about doing and patients appropriate for it as well as reviewing the conversions from Percocet. Asked him if he has seen any intermezzo and he said no. Left dosing card for Jenna.
PPLPMDL0020000001	Brooklyn	OH	44144	9/18/2013	Reviewed Butrans for those Tramadol failures, Asked Dr. if a 30% reduction in pain scores was relevant to his patients he is treating for pain? Dr. agreed it was relevant. He believes most patients are adequately controlled with cheaper alternatives, doesn't like to do PA's. Brought to his attention that ESI/Medco have moved Butrans to 2nd tier. He thought that was helpful and would consider in prescribing. OxyContin Q12h flexible dosing strengths along with intermezzo for MOTNA/dosing
PPLPMDL0020000001	Westlake	OH	44145	9/18/2013	Lunch. Discussed where he has been using Butrans and he said in his patients that have failed NSAIDs. He and dr Walsh and np christen said they try not to use hydrocodone for anything longer than acute (4 weeks max) usage and they don't like to pick any opioid that is to an extended release. Initially I started talking about Scott profile,he said he would never go from Tramadol to Butrans. That if lyrica or didn't work then he would use Butrans. Discussed getting Butrans into patients hands. Drs said they rarely remember to use the coupons. We discussed how the program works or the patient can go to Butrans.com and get their own savings print out. Dr said they use very little OxyCotin. I said I don't ne'er stand why not cause you said you R looking for extended release products. He started mentioning the very complicated patient type he doesn't treat. I said what's the purpose of having 7 strengths? He said I no everyone is different. I said I said that not me. But yes. OxyCotin is a single entity product and might help a very sever patient. But who's to say another dose like 10mg wouldn't work for someone else? Everyone's pain is different. Discussed intermezzo. Dr said if he has to pa then it's too much of a hassle. Dr did see the value in gender dosing and he thought the indication was nitched. However dr said he wouldn't be writing it if every time he writes it he has to prior auth it.
PPLPMDL0020000001	Parma	OH	44129	9/18/2013	gave 30% reduction in pain insight. dr said he does not use a scale and he goes by how people say they feel. he could not remember patient he wrote for in the past. dr agreed that he would prefer to write butrans in place for vicodin or percocet and instead of tramadol. dr said the reduction in pain really does not mean anything because it is subjective. we agreed that he would widen his patients for butrans to not include the elderly and when nsaid is not working. he asked about oxycontin and we replied that it is not generic and mentioned all seven doses are branded only.
PPLPMDL0020000001	Akron	OH	44303	9/18/2013	Spoke to Rod the pharmacist about stocking of the new 15mcg dose for Butrans. Told him that he needs to at least stock the 5mcg dose for new patients initiating. Rod said he will stock the 5mcg and will probably order the 15mcg at a later date. Discussed stints appropriate for Butrans and OxyContin. Rod said he's ok on copy cards. Asked about intermezzo prescriptions and rod said he has seen one and said its very expensive. Spoke to him about falling ambien and Caresource.
PPLPMDL0020000001	Westlake	OH	44145	9/18/2013	Spoke to Robyn. Office changed policy to not do luncnes or any product presentations from reps due to sunshine act. Lorain office closed. Most doctors rotate between Lakewood, westlake and Avon offices. Told me to speak to Jessica his office manager regarding any information to be passed to the doctors. Lisa is his office manager to pass information. He is in westlake and Lakewood full time.
PPLPMDL0020000001	Munroe Falls	OH	44262	9/18/2013	Spoke with dr about the hydrocodone/APAP insight and asked her what she thinks about the statistics? Dr said she can't believe its that high but she's not really that surprised. Dr said she knows she needs to get more patients off IR opioids but it is difficult because patients don't want to give them up. I discussed how if she initiates Butrans, patients can still take their IR opioids for supplemental analgesia. Dr said that's a good point and she knows she needs to use it more often. I told her to use it for patients like Scott and nancy. I told her to not forget about OxyContin for her patients uncontrolled on Percocet. Intermezzo use for her patients complaining of in the middle of the night insomnia.
PPLPMDL0020000001					

	Westlake	OH	44145	9/18/2013	Spoke w Claudia and dr thru window about Butrans and OxyCotin. Discussed OxyCotin he said he writes a little. We discussed the variety of doses and what that could mean to a patient? Butrans- dr was unaware of the product. I opened a demo patch and reviewed the study of the naive. Told him who I'd like him to think of Butrans. And pulled out Maria profile and said here an example...went over her case study and then asked have you ever thought about writing an extended release schedule 3 after a NSAID failure? He said maybe Tramadol. I said do you write Tramadol in this example? He said yes. I said that's fine. Opened the initiation guide and asked him where he usually falls and he said under 100, so I reviewed where to start Butrans. Also reviewed placement of the patch. Dr asked if it compared to fentanyl. I stated no head to head and that it was a schedule 2, not a 3 like Butrans. As far as pain scores go, recapped the naive study of the open label. I asked he has any concern this product wouldn't work for his patients. He said no and that he would try it. I said let's just fine one in the next week. He said he will read the materials sent behind. Claudia said he reads alot and if he is interested in the topic he will read the study.
PPLPMDL0020000001	Brooklyn	OH	44144	9/18/2013	Quick Butrans reminder, Tramadol failures, asked for 1 of those commercial insured patients. Informed of formulary with MedCo/ESI. He said that was good to hear, majority of patients, Med D. Still feels patients are doing good on present therapy. Also, OxyContin Q12h flexible dosing strengths and excellent formulary status. Dr. Said OK, will keep in mind!
PPLPMDL0020000001	Cleveland	OH	44113	9/18/2013	Discussed Butrans for those Tramadol and patients requiring around the clock pain therapy. He agreed, talked with him in regards to Debbie, he said he will continue to review. Reminded of OxyContin Q12h flexible dosing
PPLPMDL0020000001	Westlake	OH	44145	9/18/2013	Lunch. Discussed where he has been using Butrans and he said in his patients that have failed NSAIDs. He and dr Walsh and dr christen said they try not to use hydrocodone for anything longer than acute (4 weeks max) usage and they don't like to pick any opioid that is to an extended release. Initially I started talking about Scott profile, he said he would never go from Tramadol to Butrans. That if lyrica or didn't work then he would use Butrans. Discussed getting Butrans into patients hands. Drs said they rarely remember to use the coupons. We discussed how the program works or the patient can go to Butrans.com and get their own savings print out. Dr said they use very little OxyCotin. I said I don't ne'er stand why not cause you said you R looking for extended release products. He started mentioning the very complicated patient type he doesn't treat. I said what's the purpose of having 7 strengths? He said I no everyone is different. I said I said that not me. But yes. OxyCotin is a single entity product and might help a very severe patient. But who's to say another dose like 10mg wouldn't work for someone else? Everyone's pain is different. Discussed intermezzo. Dr said if he has to pa then it's too much of a hassle. Dr did see the value in gender dosing and he thought the indication was nitched. However dr said he wouldn't be writing it if every time he writes it he has to prior auth it.
PPLPMDL0020000001	Cleveland	OH	44103	9/18/2013	Presented Butrans formulary status with ESI/Medco, Dr. said OK, Asked for those Tramadol failures, said he will consider. Reminded of OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Cleveland	OH	44130	9/18/2013	Introduced myself to patty the pharmacist and reviewed the clinical trial data. discussed other departments in the hospital. reviewed the start principle, gave indication and limitation of use
PPLPMDL0020000001	Westlake	OH	44145	9/18/2013	Lunch. Discussed where he has been using Butrans and he said in his patients that have failed NSAIDs. He and dr Walsh and dr christen said they try not to use hydrocodone for anything longer than acute (4 weeks max) usage and they don't like to pick any opioid that is to an extended release. Initially I started talking about Scott profile, he said he would never go from Tramadol to Butrans. That if lyrica or didn't work then he would use Butrans. Discussed getting Butrans into patients hands. Drs said they rarely remember to use the coupons. We discussed how the program works or the patient can go to Butrans.com and get their own savings print out. Dr said they use very little OxyCotin. I said I don't ne'er stand why not cause you said you R looking for extended release products. He started mentioning the very complicated patient type he doesn't treat. I said what's the purpose of having 7 strengths? He said I no everyone is different. I said I said that not me. But yes. OxyCotin is a single entity product and might help a very severe patient. But who's to say another dose like 10mg wouldn't work for someone else? Everyone's pain is different. Discussed intermezzo. Dr said if he has to pa then it's too much of a hassle. Dr did see the value in gender dosing and he thought the indication was nitched. However dr said he wouldn't be writing it if every time he writes it he has to prior auth it.
PPLPMDL0020000001	Westlake	OH	44145	9/19/2013	wouldn't be writing it if every time he writes it he has to prior auth it. Spoke to dr (his wife, a doctor that works in the office) and his daughter (in med school) and the ma staff regarding Butrans. Dr said he was going to write it last week but couldn't remember the dosages, so wrote vikodin instead. I asked him to describe for me who he feels is the appropriate patient type for Butrans. He said chronic patients that fail vikodin. I said why wouldn't u use it after NSAID failed? He said oh no never. He said he will write a month or 2 of vikodin but if the pain is still present he will switch them to Butrans. I said what's e chance patients treated around the clock on pm schedule 3 products that they wake up in pain? He said good chance. I said wouldn't it make sense to give them an extended release option like Butrans instead of vikodin. He said maybe. Discussed start principal of re-assessment. And asked him what questions do you ask the patients? He says he asks if they are in pain and most say their pain is controlled, grab their script and leave. I said...if most are controlled, I'm fine with you writing Butrans for some, doesn't have to be all of them. He switch subject to OxyCotin. Said it was an old drug...I said you must be pretty familiar with the molecule. He said oh yes. I said in the day and age with all the concern with combination products why wouldn't ppl choose single entity products? He said everyone is different. Reviewed the molecule of OxyContin, that it was q12h and that there were 7 diff doses to tailor the product patient.
PPLPMDL0020000001	Stow	OH	44224	9/19/2013	Led with insight about 41% of patients on hydrocodone/APAP combinations. I asked dr if he agrees with the statistic and secondly if he would do anything about helping to change it? Dr said he agrees that too many patients are on the IR opioids for too long. Dr said that he's not crazy about prescribing opioids anyway. I asked him if he agrees that for a patient with around the clock pain for 3+ months a ER opioid may be a good option? Dr agreed but for the right patient. I told him about how Butrans needs to be used and discussed the Scott and nancy profiles. Dr said he gets it and will use it in time. OxyContin discussion around conversions from Percocet and asked for him to use intermezzo.
PPLPMDL0020000001	Westlake	OH	44145	9/19/2013	Saw the office manager and receptionist. Asked to schedule a lunch but are booked for a while and left my card to be out on a cancellation list. Dr doesn't see reps with out an apt. I did leave various reading materials on Butrans and OxyContin (opioid naive, initiation guide, and conversion slim jim for OxyContin).
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/19/2013	Spoke to Lisa the technician about the new 15mcg dose for Butrans. Lisa said they see a lot of butrans from western reserve pain management. I asked if those patients are coming in with copy cards? Lisa said many of them are not and its too expensive. I explained the copy cards and told her I will get some to her because she requested it. I asked based on their usage if they would order the 15mcg dose? She said once they see a Rx because its too expensive. I asked her if they are signed up to get new doses or medicines and if it doesn't move in 6 months they get their \$\$ back? Lisa didn't know but said she will check with pharmacist. Gave her OxyContin and intermezzo dosing guides and she said they fill OxyContin but didn't know about intermezzo.
PPLPMDL0020000001	Akron	OH	44305	9/19/2013	Spoke to Michele and Steve the floater pharmacist. Explained all products and introduced the new 15mcg dose for Butrans. Steve looked to see what they has in stock already and have non. Steve said he saw it come through the other day so he said maybe they had it and was dispensed. Discussed OxyContin and intermezzo dosing and explained copy cards for all products.
PPLPMDL0020000001	Westlake	OH	44145	9/19/2013	Spoke to tech n pharmacist regarding Butrans. Pharmacist has dispensed the ten mcg I asked if she knew who was writing and she wasn't specific. Talked about the 15mcg and stocking it. she said maybe, but wouldn't say yes.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/19/2013	Says dr while talking to Darlene (ma) that handles pt rooming and all insurance issues for patients including PA's. Updated Darlene on all insurance coverage with Butrans and focused on Caresource and Medicare D plans. Dr Hegde overheard me and said she has had good success recently and didn't know so many Med D pans are covering Butrans. I told her that the more prescriptions that are written typically make it easier to insurance complaints to pay for it. I asked her if she could focus on those tramadol patients who need a dose adjustment. Dr said she usually sees more viconden. I told her those are good candidates as well. Nothing else learned.
PPLPMDL0020000001	Bedford	OH	44146	9/19/2013	asked dr how long he keeps a person on a short acting before he moves them to a long acting, he said it depends and patients can be on short acting for 10 years. gave 41% hydrocodone insight and dr said yes. he said if they take 3 some days and 5 some days he will not move. if they are on more than 3 a day consistently then he switches to long acting, he gives short acting to most of his long acting patients.
PPLPMDL0020000001	Westlake	OH	44145	9/19/2013	Updated doctors address. Schedule a lunch.
PPLPMDL0020000001	Westlake	OH	44145	9/19/2013	Spoke to ma (used to work at dr wendts). Dr was n with patients however she told me that the dr wrote both products. We discussed Butrans, showed her the demo and reviewed the savings program for both OxyContin and Butrans.
PPLPMDL0020000001	Westlake	OH	44145	9/19/2013	Spoke to office manager, she told me that the dr does not right my products and I could leave materials behind but he won't read any of it. I said I would take my chances and hope that he does get comfortable with this product out for 3 years now. I left various product materials and the naive study for his review.
PPLPMDL0020000001	Olmsted Falls	OH	44138	9/19/2013	Dr didn't have time today. So I spoke w office manager. Review of Butrans saving program and left various materials on Butrans and OxyContin for the doctors.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	9/19/2013	Saw dr while talking to Darlene about Butrans insurance coverage. I asked her what pain medicine most of her patients are on when she sees them? Dr said she sees all sorts of stuff. Dr said mostly viconden and tramadol and gabapentin. I told her if that is the case, Butrans is an ideal product for those patients who need a dose adjustment on their IR product. Dr agreed and said she is also trying to remember the Caresource coverage. I told her not only Caresource but gave overview of the Medicare D plans. Dr said she is happy to know that. I asked her if she will keep prescribing and dr said yes.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/19/2013	Saw dr at hospital in between patients and showed him the 10mcg patch through the window. Dr said he uses a lot of the 10mcg and things are going well. I asked him if things are going smoothly with insurance coverage and if there is anything he needs? Dr said no and that Glenn and Alissa handle any other the insurance issues. I asked dr to continue prescribing.
PPLPMDL0020000001	Stow	OH	44224	9/19/2013	Discussion with dr about Butrans and reviewed all key selling messages. Reviewed case studies, titration and if he will use it and if it makes sense for patients failing their IR opioids? Dr said he does and will try it. Nothin else learned.
PPLPMDL0020000001	Stow	OH	44224	9/19/2013	Dr started out saying that he remembers me discussing Butrans last time. I asked him if he has used it and he said he has a few weeks after I was there last and it was rejected my the patients Medicare D pan. I explained how far the product coverage since my last visit and reviewed plans. I reviewed all case studies, conversions, appropriate starting dose, titration and patch description. Dr said he's not sure about using it because he refers to Dr Narouze. I told him to call Dr Narouze and ask him about his clinical experience with Butrans. Dr said he may do that. Discussed OxyContin case studies that are new and dr said its makes sense to use if a patient has been on Percocet for 3+ months. Intermezzo dosing and limitations of use.
PPLPMDL0020000001	Beachwood	OH	44122	9/19/2013	dr asked how can butrans compete with duragesic. I told her both are opioids and showed her the titration guide to explain they morphine equivalent for the different strengths of butrans. I reviewed the maria patient profile and she said she likes to use Tylenol with codeine. I explained the titration process and the use of supplemental analgesia. she asked about coverage and I reviewed the savings cards and vouchers and formulary grids. I asked what would keep her from prescribing and she said prior authorizations. reviewed clinical trials. I said if she uses the formulary grid she will have a better idea of what may be required but I understand that there are some carve outs that may need a prior auth. dr said she does not initiate oxycotin except for cancer patients and I reviewed the percocet conversion of the detail piece. discussed intermezzo indication and limitation of use.
PPLPMDL0020000001	Beachwood	OH	44122	9/19/2013	dr asked how can butrans compete with duragesic. I told her both are opioids and showed her the titration guide to explain they morphine equivalent for the different strengths of butrans. I reviewed the maria patient profile and she said she likes to use Tylenol with codeine. I explained the titration process and the use of supplemental analgesia. she asked about coverage and I reviewed the savings cards and vouchers and formulary grids. I asked what would keep her from prescribing and she said prior authorizations. reviewed clinical trials. I said if she uses the formulary grid she will have a better idea of what may be required but I understand that there are some carve outs that may need a prior auth. dr said she does not initiate oxycotin except for cancer patients and I reviewed the percocet conversion of the detail piece. discussed intermezzo indication and limitation of use.
PPLPMDL0020000001	Akron	OH	44313	9/19/2013	Was told be the pharmacist and technician that they only has a couple of seconds because they are so busy. I told tech about the 15mcg dose for Butrans. Left info and gave OxyContin and intermezzo dosing information.
PPLPMDL0020000001	Lakewood	OH	44107	9/19/2013	Spoke to ma. Last week so done was murdered in their parking lot during the day and made the news. Tried to inform ma regarding Butrans and the savings program, however due to the number of patients in the waiting room she did not want engage in discussion this day.
PPLPMDL0020000001	Fairview Park	OH	44126	9/19/2013	Spike w rn and asked her if I could get a lunch to discuss new FDA dosing with Butrans. She checked w dr and he said no and that he would read it n his own. Left being the fpi and a variety of selling materials. Reviewed with the rn the Butrans and what it means for patients to have more options for their analgesia. She agreed. Reviewed the commercial savings program with her, she said they still have coupons and don't need any more. Left OxyContin and intermezzo approved materials for dr to review.
PPLPMDL0020000001	Hudson	OH	44236	9/19/2013	Daw dr in Hudson and he came to window. I told him that he needs to be switching his Percocet patients who are suffering needlessly to OxyContin q12h. Dr said he does that but doesn't have many Percocet patients. Dr told me that he refilled a Butrans prescription and the patient is doing well. I told dr that he again, needs to start his own patients on in who are in pain on a IR opioid like tramadol. Dr said he understands where to use it and will try. Nothing. Else learned.
PPLPMDL0020000001					

PPLPMDL0020000001	Stow	OH	44224	9/19/2013	Discussion over lunch about all products. Discussed all key selling points to Butrans and talked about the insights. Dr said that she would like to have all her patients on ER opioids who have chronic pain but its hard and she refers many if them out. I explained why Butrans is a product she can prescribe as a schedule 3 controlled release opioid and reviewed the dosing. Dr said she likes that its a schedule 3 and the dosing is low. Dr asked about adverse events do I reviewed them and asked her her thoughts. Dr said it is surprisingly clean and will use it. OxyContin review of doses, conversions, and patient type discussion. Intermezzo indication, dosing, and limitations of use. Dr has not used but hears that's its expensive. Discussed managed care.
	Westlake	OH	44145	9/19/2013	Saw the doctor thru window, reviewed Butrans. Discussed what other schedule 3 opioid that could provide a months worth of analgesia with 4 doses? Dr just smiled. We talked about what patient types in her current practice, that she sees month another month coming in for their refills might need an extended release option instead of prn. Quick review of opioid naive study open label pain reduction scores and commercially insured savings program. The nurses asked more questions after dr left e window like where the patches goes on the body (gave patient brochure leave behinds) and asked about constipation vs other opioids. I said I couldn't state cause o head to heads...and showed her the percentage on the adverse reaction of the naive study from core visual aid. Discussed OxyCotin with ma's. tailor of the start principal. 7 doses. Left reading materials for doctor.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/20/2013	Spoke to Lisa in the pharmacy who requested Butrans copy cards. Lisa said she has filled three prescriptions this week. Reminded about ordering the 15mcg Butrans.
	Hudson	OH	44236	9/20/2013	Spoke with Galiana the pharmacist about all products. I introduced the new 15 mcg dose and asked her what she currently has in stock? She said none because they don't see enough. I asked her if she would at least order the 5mcg dose to which she agreed. Gave her the ordering information to the 15mcg. Asked her about OxyContin and she said they do not fill much of it at all. I asked how many patient she fills for and Galiana said maybe 4 patients. She said she only stocks the 10, 20 and 40 mg doses. Asked about intermezzo to which she has filled none.
PPLPMDL0020000001	Westlake	OH	44145	9/20/2013	I completed in-service on Pain Management for the nursing Staff. The Patient Comfort Assessment Guide and The Wong-Baker Pain Scale was handed out and reviewed with the staff. Discussion and interaction took place on the barriers that interfere with pain assessment/treatment in the elderly and consequences of unrelieved pain. 6 were in attendance
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/20/2013	I told dr to prescribe OxyContin as his first choice when patients need a ER opioid especially patients currently on Percocet who may need a on adjustment in dose. Dr said he has to use them all to some degree but said he does like OxyContin. I asked him to use OxyContin 10mg for patients on Percocet 20mg who complain of pain. Nothing else learned.
PPLPMDL0020000001	Uniontown	OH	44685	9/20/2013	I asked dr if he is continuing to find places for Butrans? Dr said he had a few patients a month or so that he found Butrans worked well for. Dr said he is trying to continue to use it. I reminded him to use it for his NSAID and tramadol patients and showed him the conversion guide and told him an opioid naive patient should always be started on the 5 mcg dose.
PPLPMDL0020000001	Akron	OH	44305	9/20/2013	Quick discussion with dr about how he can use Butrans in different populations. I reviewed the inclusion criteria and focused on patients included in the trial. I asked dr to keep the Medicare D patient population in mind who meet the indication and who are uncontrolled on their current IR opioid. Dr said he continues to find p,aces for it and will keep using.
PPLPMDL0020000001	Akron	OH	44319	9/20/2013	I told dr he is missing multiple opportunities to start patients on Butrans who are on tramadol or vicoden around the clock and still in pain. I showed dr the nancy profile and reviewed it. Dr told me that vicoden isn't as cheap as people think and he knows he needs to start changing patients medicine. Dr said he will prescribe and asked about cost. I reviewed the Butrans formulary grid focusing on his plans which include Caresource, Medco, medical mutual, Aetna. Dr said he will write it.
PPLPMDL0020000001	Hudson	OH	44236	9/20/2013	Dr told me that he thinks he may have a patient good for Butrans. I asked him to tell me about it and he said that the patient asked him if the is anything else he can take for pain. Dr said the patient is on vicoden for low back pain and has been for at least 6 months. Dr said the patient works and can't take his pills all day. Dr said that he told the patient over the phone he may have something else. Dr said he sees the patient in the next week or two. I told dr that great and I hope it works out. I reviewed the OxyContin conversion guide with him and asked for more prescriptions for his uncontrolled Percocet patients.
PPLPMDL0020000001	Uniontown	OH	44685	9/20/2013	I told dr I wanted to review the main points of the opioid naive trial since his experience with Butrans has involved those patient types. I told dr I wanted to get his opinion on the trial. Dr said he will review it and we can discuss next time. I told him to continue prescribing Butrans and more frequently for those IR opioid patients needing a dose adjustment. Gave him the OxyContin conversion and titration guide.
PPLPMDL0020000001	BEACHWOOD	OH	44122	9/20/2013	spoke with pharm tech about stocking butrans and she said she will have to ask the pharmacist who was busy at the time. I discussed the 15 and asked about oxycontin stocking and she said they do some but not alot.
PPLPMDL0020000001	Stow	OH	44224	9/20/2013	reviewed dosing titration, gave indication and limitation of use for intermezzo.
PPLPMDL0020000001	Beachwood	OH	44122	9/20/2013	Spoke with Christine the pharmacy technician about all products. She said they are swamped with flu shots and pharmacist will not have time. Told Christine about Butrans which she was not familiar with. Discussed all key selling points. Introduced the 15mcg dose and left initiation and titration guide. Gave her dosing guides for OxyContin and intermezzo.
PPLPMDL0020000001	Mogadore	OH	44260	9/20/2013	spoke with rina about butrans 15 and asked about stocking. she said they don't do much volume of butrans. I asked when the customer comes in how long will it take them to get butrans and she said it usually in 24-48 hours. I reviewed titration of butrans on the 15. discussed the flexible dosing of oxycontin. reviewed dosing and administration of intermezzo and she said she has not seen any scripts for intermezzo.
PPLPMDL0020000001	Uniontown	OH	44685	9/20/2013	Dr came to front desk after being asked if she wants Senokat 5 samples. Dr said she knows of it but hasn't seen it for a long time. I showed her the information on the product. Dr said she would like some. I asked her if she has patients on Percocet around the clock who may be appropriate for q12h dosing? Dr said she probably does. I showed her the conversion for Percocet and talked about Percocet 20mg/day converted to OxyContin 10mg q 12. Dr asked if she could have the conversion guide? I told her yes and to use more OxyContin in that position. Dr agreed and also wanted copy cards of Butrans. I told her that Butrans is ideal for a patient on tramadol who needs a dose adjustment and intermezzo for her patients complaining of in the middle of the night insomnia.
PPLPMDL0020000001	Akron	OH	44319	9/20/2013	Message for OxyContin over front counter. I told him that with OxyContin's dosing it leaves him with lots of options to use it from 10mg to 80 mg. dr agreed and said he uses it a lot but admitted to not using many 10mg dose. I asked why and he said by the time he gets them they are on more than what would be needed above the 10mg. I told him ok but to take the conversion guide. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	9/20/2013	Told dr through window that if he has a patient on Percocet 20mg a day and they are not controlled, he can switch to OxyContin 10mg q12 and showed him the conversion guide. Dr looked at the guide and said thanks he is trying his best to do that. I handed him the nancy profile and told him I'm guessing he has patient on vicoden and tramadol around the clock? Dr said he does. I told him when that patient comes in for a check up and complains of pain on the IR opioid around the clock, the solution may be Butrans and showed him the conversions. Dr said it makes sense and he will try it.
PPLPMDL0020000001	Westlake	OH	44145	9/20/2013	I made a drop-in visit to speak w/ Patty O'Shea to schedule a pain management in-service for the October STNA class. I spoke w/ the receptionist, who informed me that Patty was not available, I left my BC.
PPLPMDL0020000001	Solon	OH	44139	9/20/2013	I dropped-in to speak w/ D.O.N., Sue William about scheduling an in-service on pain management. I was informed by the receptionist that she was on a call and not available. I left my BC.
PPLPMDL0020000001	Beachwood	OH	44122	9/20/2013	spoke with janice and explained that the I was unable to provide the office with vouchers prior to their office move. I reviewed how to use the savings card and vouchers and asked to speak with the person who gives out the vouchers. she said she was not able to do that and the office does not do lunches.
PPLPMDL0020000001	Westlake	OH	44145	9/23/2013	spoke with vikki about bwc coverage and told her not to avoid bwc because there is alot of bwc being approved but she may run into some denials every now and then from some of the carve outs. discussed oxycontin and she said things are progressing well with oxycontin coverage. I asked her to let me know if she runs into a problem with bwc.
PPLPMDL0020000001	Westlake	OH	44145	9/23/2013	Lunch. Discussed what the doctor thought about the single entity opioids such as OxyCotin. Dr. said it was a good product and he writes it. We reviewed a case senerio of a patient who might be currently prescribed a prn schedule 2 opioid for ongoing ATC pain therapy. And what to do if that patient said they were waking up in pain? Dr. Dr said adjust the dose. I said true. But what if the patient just needed a different delivery system, extended release. Dr. said true. Review of the the molecule/dosing q12h and dose options for a tailored approach. Asked dr about where he positions Butrans. Dr. said he loves Butrans because its an extended release option with out the peaks and valley his patients gets with the immediate release products. Dr. Thought that Butrans has very little Urphoria compared to the PRN products. Dr. Called those side effects of the Immediate release Opioids. We reviewed the graph where it shows the 3 applications and the plasma levels. I asked the doctor if he could give me any suggestions to pass along to primary care doctors about how to get their patients to take a patch. Dr said there is nothing, they just do it or they get nothing. If a patient complains about taking a patch the doctor tells the patients the benefits of the extended release and its only 4 patches. We discussed location site were to put the patches based on this is where they've been studied. Dr. asked about managed care, in nparticular medical aid and getting it onto fomulary.<font color=blue><b>CHUDAKOB's query on 10/05/2013</b></font>Lisa, peaks and valleys are a touchy subject. While I know the Dr. said this, we have no data to support better pain control or outcomes due to fewer peaks and valleys. He is implying this by saying Butrans has not fewer peaks and valleys. When a physician discusses peaks and valleys, we should let inform him/her that we have no data relating to peaks, valleys or pain control. I hope this makes sense. If not, please call me and we can discuss it further.<font color=green><b>BARTOLI's response on 10/07/2013</b></font>Yes understood.<font color=blue><b>CHUDAKOB added notes on 10/07/2013</b></font>Thank you Lisa. I appreciate it. Spoke to Kathy and Rosie regarding Butrans, asked to see drs. But they were in with patients and dr. Duncan was about to leave for the day. left information on profile pieces (david) for Dr. Duncan.<font color=blue><b>CHUDAKOB's query on 10/05/2013</b></font>Lisa, your next call objective says access and frequency. this is certainly an objective, but not necessarily a call objective. the next call objective should relate to what you want to accomplish on the call should you get to see the Dr. Plan like you are going to see him. this way you are prepared if you do. Make sense?<font color=green><b>BARTOLI's response on 10/07/2013</b></font>Yes. Therefore- to clarify the appropriate patient type using the inclusion criteria and tie that into the open label section of the naive study showing pain reduction scores.<font color=blue><b>CHUDAKOB added notes on 10/07/2013</b></font>Now that is what I call a next call objective. Now if you just change that to an OxyContin next call objective you would be right on target as he is an
PPLPMDL0020000001	Westlake	OH	44145	9/23/2013	Quick window call with dr and told him that he needs to be prescribing Butrans for his patients needing dose adjustments on their IR opioids like tramadol. Dr said he knows and he will try to find some patients for it. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	9/23/2013	Spoke to Danielle Ma regarding seeing the doctor, she said no. Discussed Butrans, she was a little familiar with it. Discussed 7 day transdermal, schedule 3, it was extended release- discussed managed care.
PPLPMDL0020000001	Stow	OH	44224	9/23/2013	Discussed all products with dr in front of his medical students. Dr said he wishes he could put all his patients on short acting opioids on Butrans because he said he has had great results. I asked him to put the patients uncontrolled on NSAIDs, tramadol and vicoden on it and reviewed case studies. Dr spoke very highly of Butrans to his patients. I told dr about the start principles for OxyContin and dr said he agrees with them and does his best to get his patients off IR opioids. Dr said he also likes intermezzo and tries to find patients who can afford it. Discussed insurance and patient types.
PPLPMDL0020000001	Akron	OH	44333	9/23/2013	Gave brief word on the opioid experienced trial and discussed with him the inclusion and exclusion criteria. I told dr that he needs to assess his patients on hydrocodone combinations for appropriateness for Butrans instead of refilling it. Dr said he knows and has been using it more frequently. I asked where and he said for his vicoden patients. Nothing else learned,
PPLPMDL0020000001	Westlake	OH	44145	9/23/2013	Met NP= discussed Butrans. She said she was worried some of her heavy men sweat alot and was afraid the patch would fall off. We discussed the first aid tape, the percentage of patients in the naive study who failed due to application error. She said it was a small percentage. We spoke regarding managed care, the savings programs. yet more detail was spent on the delivery system of butrans and the 4 patches a month. NP was not familiar writing OxyCotin, but she said she has been getting more experience with schedule 2 products. Review of single entity and the conversion page of OxyCotin with Perkocet. We talked about how long patients can be on products like Tramadol. She said patients can be on that for years. I said controlled? She said sometimes but sometimes doctors will suppliment tramadol with NSAIDS when really they need a different medication. We talked about waiting to long before changing their medications. She said most primary care doctors are treating the other areas and their focus isn't pain.Review of START Principals...tailor and Re-assessing patients in particular. NP agreed to identify one patient this week that would be a butrans candidate and to give out the coupon with a script for the commercially insured patient.<font color=blue><b>CHUDAKOB added notes on 10/05/2013</b></font>Lisa, this looked like a good call. Nice job!
PPLPMDL0020000001	Stow	OH	44224	9/23/2013	Ip in stow office to see dr Seiple to set up inservice for his students and residents. Dr Lefever asked about Butrans and wanted an overview of the product. Gave dr the initiation and titration guide and discussed all key selling points. Dr asked about Butrans compared to fentanyl. I told dr there are no head to head studies so I cannot compare. Focused on telling dr that Butrans is the only schedule 3 controlled release opioid on the market. Discussed the initiation of Butrans and explained the placebo patch. Dr asked about cost. Reviewed the insurance coverage.
PPLPMDL0020000001	Akron	OH	44320	9/23/2013	Quick message about OxyContin with the new patient profile Maria. Dr said she would like to write more but said she needs to be very choosy when using OxyContin. I asked her to explain and she just said the patients in the practice are very difficult to treat. I asked her if the profile makes sense and she said yes. I asked her if she does urine screens and she said yes. Butrans Nancy profile and asked her to prescribe more.
PPLPMDL0020000001	Richmond Heights	OH	44143	9/23/2013	I dropped in to speak w/ Sheila Harris to schedule an in-service on pain as she requested. I was informed by the receptionist, Darlene that Sheila was in a meeting.

PPLPMDL0020000001	Stow	OH	44224	9/23/2013	Met dr for first time and gave short description of Butrans and her key selling messages. Dr said he wants me to do a Butrans inservice for him, his residents and students on Oct 2.
	Euclid	OH	44117	9/23/2013	I completed a second in-service on Constipation for Nurses. 3 nurses were in attendance. The Senokot laxative protocol was handed out and reviewed with the staff. A discussion w/ interaction on the risk factors, disease state, complications and the importance of documentation r/t constipation took place. Positive feedback was rec'd from the nursing staff. I spoke w/ Ruth Rossi in education and she requested an in-service on Pain Documentation. In-Services were scheduled for October 22 & 24th @ 3:30 & 4. She is hoping for better attendance.
PPLPMDL0020000001	Fairlawn	OH	44333	9/23/2013	Spoke to Sue and a floater pharmacist from a store in Rittman. Discussed products with him and reviewed new 15mg dose of Butrans. Pharmacist said that he has seen it in his location and patients seem to really like it. Hit all key selling points and sue said she would make sure they order it. Discussed OxyContin with him and he said he fills it often and looked at conversions from Percocet. Intermezzo dosing and indication and he said he heard about it but never filled. Both doses in stock.
PPLPMDL0020000001	Fairview Park	OH	44126	9/23/2013	Spoke to ma regarding seeing the doctor, but she said no. I passed along a note for the dr to call me if he has any questions regarding the information passed thru the window.<font color=blue><b>CHUDAKOB added notes on 10/05/2013</b></font>-Lisa, we should discuss the passing of notes as this is something we do not condone. Please call me next week.
PPLPMDL0020000001	Richmond Heights	OH	44143	9/23/2013	I was in the area and made a drop-in visit to speak w/ Joan Southard and schedule an in-service on Constipation. I spoke with the receptionist, who informed me that she was not available. I left my BC
PPLPMDL0020000001	Westlake	OH	44145	9/23/2013	Reviewed Butrans with the staff and ma's. She asked questions such as where to place thepatch and asked about managed care. addressed those areas (4 locations- showed via the core visual aid)- reviewed managed care.
PPLPMDL0020000001	Cleveland	OH	44125	9/24/2013	Introduced Butrans 15mcg/hr strength, hasn't filled any Butrans, but will keep in mind. Reviewed Butrans for those Tramadol failures before Short-acting, agreed that would be appropriate position. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Waterford	OH	45786	9/24/2013	I-Butrans dosing. OxyContin dosing. Intermezzo indication.W-interested in Butrans for appropriate patients.
PPLPMDL0020000001	Berea	OH	44017	9/24/2013	Spoke to jasmirn r. I gave her a note to pass to the dr asking for time, but she said dr was busy. I told her about Butrans- key points for. The study (appropriate patient, dose ages, pain reduction scores). Left naive study for dr review
PPLPMDL0020000001	Parma	OH	44134	9/24/2013	I completed a follow-up Butrans luncheon with the nurse practitioners and nurses managers , there were eight in attendance. Talking with the nurse practitioners , they currently have one patient on Butrans. Bonnie Behm, NP, informed me that she put a patient on Butrans and the the insurance Medicaid rejected it . So she put them back on a Fentanyl patch. Bonnie said, " this resident always complains w/ chronic pain constantly, once he was on the Butrans patch, I never heard from him." I reminded her along w/ everyone present that a prior auth is needed. I will follow up in one month.I talked w. staff development coordinator, Linda Belford, she requested another in-service on pain.It was scheduled for 10/17 @ 2:30.
PPLPMDL0020000001	Waterford	OH	45786	9/24/2013	I- Went over Butrans co-pay cards. Went over OxyContin dosing. Went over intermezzo.W-said that she was interested in prescribing Butrans for Medicare part D and needed to know what plans had it on formulary
PPLPMDL0020000001	Parma Heights	OH	44130	9/24/2013	I made a drop-in visit to meet w/ D.O.N., Katherine Myers to introduce Purdue's Nurse Educator Program. I spoke w/ the receptionist, Sherry Majoris, who informed me that to see Katherine, is by appointment only. I left my
PPLPMDL0020000001	Parma	OH	44134	9/24/2013	Asked dr how he feel he has potential to write more Butrans and he said yes based on the new indication. asked him what new indication and he said the indication for acute pain. corrected the doctor and told him the correct patient has moderate to severe chronic pain, not acute. no new information gained.
PPLPMDL0020000001	Cleveland	OH	44109	9/24/2013	Followed up with Marcie. review/decision process is in progress. Left Butrans/OxyContin info with PMR/Oncology
PPLPMDL0020000001	Cleveland	OH	44109	9/24/2013	Visited Ctr Left Butrans FPI for Baker, Campbell,Dhillon, Dzwis, Geho, Gemechu and Mary Jo Slattery. Left contact info for inservice with K. Gallagher for appt.Pain Mgmt Wad
PPLPMDL0020000001	Stow	OH	44224	9/24/2013	Quick message for Butrans in hallway during lunch. Sandra said she is doing well with Butrans and her patients like it. Sandra said some patients are not able to get it which make it tough. It asked her which plans and she said meeting the criteria with Caresource and some commercial plans. I told her there should not be an issue with Caresource and reviewed the criteria. Sandra Asia's she would keep using. Nothing else learned.
PPLPMDL0020000001	Waterford	OH	45786	9/24/2013	I-Butrans managed-care and co-pay cards. OxyContin dosing. Intermezzo indication.W-will use the Butrans co-pay cards.
PPLPMDL0020000001	Stow	OH	44224	9/24/2013	Great conversation with dr about discussing insight #9. Dr said he agrees that patients are kept on IR opioids way too long before an ER opioid is initiated. Dr spoke about the difficulty of just fretting a patient to agree to reduce their pill count by one pill. Dr talked about the psychological aspect to pain management and how patients get upset if he even talks to them about seeing someone for the physiological aspect of pain. I told dr to focus on patients that have been on tramadol or vicoden for 3+ months and are being treated for a chronic pain condition to use Butrans then. Dr agreed and said that he will continue prescribing.
PPLPMDL0020000001	Parma	OH	44129	9/24/2013	asked myra how she identifies a Butrans patient. she said if a patient needs continuous coverage because they are having break through pain then she prescribes Butrans. Myra said she believes the pain and pain relief is sometimes psychological. discussed the clinical trials and and pain reduction and recommended that she share this information with the patient.
PPLPMDL0020000001	Akron	OH	44313	9/24/2013	Spoke with the technician Sam about all products. Sam said the pharmacist was too busy to talk. Told Sam about Butrans key selling points, new 15mcg dose, and titration. Sam said they have the 5mcg dose in stock and have a few patient on it. Discussed OxyContin conversions and dosing from the conversion and titration guide. Intermezzo discussion and Sam did not now about it. Reviewed indication, dosing and limitations of use.
PPLPMDL0020000001	Brooklyn	OH	44144	9/24/2013	Dr. said he familiar with Butrans but hasn't used, struggles with any Branded PA approval process.Presented recent Butrans MedCo/ESI formulary win. Dr. said that will help. Positioned Butrans for those Tramadol/Ultram failures, feels most patients are adequetly controlled, but will consider. Went over Initiation/Titration. OxyContin Q12h flexible dosing
PPLPMDL0020000001	Berea	OH	44017	9/24/2013	Breakfast. Dr was comfortable writing OxyCotin, we reviewed the q12h extended release properties of the product. Also discussed the types of patients that he might consider OxyCotin. We discussed re-assessment when the patient says they are waking up for pain or waking up n pain. I asked the doctor to keep this question in mind during re-assessment because the patient might be appropriate for a different delivery system. Dr agreed. Talked about single entity products, I asked him if he has used Butrans yet, he said no. I said what was his hesitation? He said managed care and remembering. Reviewed dosing, titration, 4 doses a month and managed care. Dr agreement to write Butrans.
PPLPMDL0020000001	Uniontown	OH	44685	9/24/2013	Saw dr behind counter and told him to think of OxyCotin for his patients uncontrolled on Percocet and Butrans for his patients needing a dose adjustment on tramadol. I asked dr if he has patients on tramadol? Dr said he does. I told him instead of titrating the short acting to use Butrans as the ER solution as long as the patients meet the indication. Dr said alright and that he used it and it worked well.
PPLPMDL0020000001	Stow	OH	44224	9/24/2013	Discussed insight 9 with Janet and asked her option. Janet said that she believes it and there is a problem. She said she wants to prescribe more ER optics but it is very difficult because patients often refuse. I asked her if Butrans may be a solution for that ER opioid that is a schedule 3 if it is used in patients on tramadol or low dose vicoden? Janet said most likely and that is whe she has used it. I reviewed the dosing, titration, conversions and patient case studies. Janet said she would keep it all in mind. Nothing else learned.<font color=blue><b>CHUDAKOB's query on 10/05/2013</b></font>-What is insight 9?<font color=green><b>REICHCL's response on 10/07/2013</b></font>-Do I need to write the entire insight in the call note? The insights we received were numbered.....<font color=blue><b>CHUDAKOB added notes on 10/07/2013</b></font>-No, but you need to identify them by more than their number such as "the 30% discontinuation insight" or the hydrocodone insight etc. They were identified by number to help you discern them, not be used as identifiers in call notes. Thanks Cliff!
PPLPMDL0020000001	Garfield Hts	OH	44125	9/24/2013	Informed Dr. of recent preferred formulary status of Butrans on MedCo and ESI. He said that was good news. He said he likes product. Reminded him for those Tramadol/Ultram failures along with Initiation/Titration. Said he will keep in mind. OxyContin Q12h flexible dosing and Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Stow	OH	44224	9/24/2013	Spoke with Greg the pharmacist and Mike the technician about new Butrans 15mcg dose. I asked to make sure they would order it and Greg said he would order. I explained how the dosing flexibility of Butrans with the 15mcg dose and titration. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	9/24/2013	Abby told me that she has been trying to use Butrans more frequently but has had issues with insurance companies denying it. I asked her where and what plans. She told me Caresource and UHC. I discussed Caresource pa and she told me along with Marci in the pharmacy that the criteria is failure on an IR opioid for 90 days instead of 30days. I told Marie to get something in writing from Caresource explaining the criteria which she said she would do. Abby said she knows its covered on BWC and medical mutual so she will prescribe it for those plans only. I told Abby to not do that to other patients that will be covered on Butrans and reviewed the plans. Abby said to continue to check with Marci regularly so she can keep the accurate info to her. I asked for continued prescribing for patients on tramadol or vicoden to which she agreed.
PPLPMDL0020000001	Cleveland	OH	44125	9/24/2013	Talked with Linda, introduced Butrans 15mcg/hr strength. Discussed Dr. Sadowski interest in prescribing, will order. OxyContin Savings card along with Q12h flexible dosing strengths
PPLPMDL0020000001	Stow	OH	44224	9/24/2013	Spoke with dr about insight number 9 and asked him for his thoughts as it relates to when he thinks an ER opioid need to be implemented. Dr said that his philosophy is to get patients moving towards an ER opioid after 3-6 months of IR opioids. Dr spoke about how difficult it is to get patients to reduce their IR opioids because they are most of the time becoming physically dependent after 6 months. I asked dr how he can get a patient to understand how an ER opioid may be a better option for them. Dr said he understands how patients like short acting opioids because after they take a pill they feel better in a short time and can't fault them for that. Dr said he job is to try and get them to understand how ER opioids work and may provide them more steady state control of pain. I asked if he thinks Butrans is a good option for that patient wanting a dose adjustment on tramadol or vicoden? Dr said for sure and has not used but may not because he is always doing injections. I told to use Butrans if a patient continues to be in pain around the clock. Dr agreed.<font color=blue><b>CHUDAKOB's query on 10/05/2013</b></font>-Cliff, read what you wrote. "I asked Dr how he can get a patient to understand how an ER opioid may be a better option for them" What data is there to support that any ER opioid might be a better option than an IR opioid?<font color=green><b>REICHCL's response on 10/07/2013</b></font>-There is none. The key word is might. I did not mention any specific product.<font color=blue><b>CHUDAKOB added notes on 10/07/2013</b></font>-I see. In any event, I would stay away from words like better as they imply superiority. Instead you can say may be a different option or another option.
PPLPMDL0020000001	Brooklyn	OH	44144	9/24/2013	Introduced Butrans 15mcg/hr to RPH-Brittany, said they have 1 patient on Butrans, will stock the 15mcg. Reviewed savings card and Butrans message for those Tramadol failures. Reminded of OxyContin Q12h flexible dosing. Intermezzo for those MOTNA/ along with dosing
PPLPMDL0020000001	Parma	OH	44129	9/24/2013	asked dr about the patient he wrote for and he said she was 26 taking 50 mg Q6 of tramadol so it was 200 mg a day and he said yes. Let him know that was the correct starting dose and told him there are more patients like that. told him parma hospital is dispensing OxyContin and there is no generic so he can be assured that patients are getting OxyContin.
PPLPMDL0020000001	Cleveland	OH	44120	9/25/2013	Left Butrans 15mcg/hr info, stop back at a better time
PPLPMDL0020000001	Cleveland	OH	44103	9/25/2013	Spoke with Hakim Informed of new Butrans 15mcg strength and OxyContin Q12h flexible dosing. Still not seeing any Butrans
PPLPMDL0020000001	Cleveland	OH	44106	9/25/2013	Informed Rona/Ashleigh of new Butrans 15mcg strength and OxyContin Q12h flexible dosing and intermezzo for MOTNA/dosing
PPLPMDL0020000001	Parma	OH	44129	9/25/2013	passed savings cards through the window and discussed the clinical trial pain reduction and asked him if he thinks this mirrors what he sees in his practice. dr said he like butrans and patients do get relief. dr had to leave but i left him with the clinical trials to review prior to our lunch
PPLPMDL0020000001	Cleveland	OH	44104	9/25/2013	Informed Nikki(Nurse) of Butrans MedCo/ESI formulary status, OxyContin flexible dosing strengths
PPLPMDL0020000001	Cleveland	OH	44195	9/25/2013	Inserviced Pain Fellows (Dr Maheshwari-Chief, Yanosik and Sandhu) Left info for Pain Dept along with Neuro-C21
PPLPMDL0020000001	Lyndhurst	OH	44124	9/25/2013	Met w pharmacist Lauren, rushed. Asked her to pre order 1 box Butrans 15 mcg hr, no, because she can get in 1 business day. What if patient gets Rx on Friday, can they get on Sat. No, so patient as to wait until Monday? Yes she replied. OxyContin pharmacists guide left, sept pain awareness brochures left.
PPLPMDL0020000001	South Euclid	OH	44121	9/25/2013	Phar mgr Jill W not in today, floater pharmacist Cheryl in. Spoke with Cheryl about pre ordering a box of Butrans 15 mcg hr. She will leave. NDC brochure for Jill. Also sept pain awareness brochures left, online resources, left OxyContin pharmacists guide & RX patrol brochure.
PPLPMDL0020000001	Westlake	OH	44145	9/25/2013	Spoke to the office manager about seeing Brian but missed him by 20 minutes. She said she had a patient call for an apt to get her Butrans increased from 5mcg. I left some Butrans I formation behind for the doctor.
PPLPMDL0020000001	Parma	OH	44129	9/25/2013	dr said he pain is subjective but he will use butrans. discussed his treatment algorithm and he said it depends. dr could not dec-scribe his last patient. i asked if there was a reason he couldn't prescribe butrans after tramadol more than he is and he said not really
PPLPMDL0020000001	Cleveland	OH	44130	9/25/2013	spoke with dr about flexible dosing of oxycontin and told him i will discuss with him the butrans patient with him next week and left the profile.scheduled lunch

PPLPMDL0020000001	Parma	OH	44129	9/25/2013	Spoke with Katie about OxyContin managed care coverage and gave formulary grid. Reviewed vouchers and savings cards. Asked about any managed care issues that needed to be resolved.
PPLPMDL0020000001	Westlake	OH	44145	9/25/2013	Spoke to Claudia the office manager about seeing the doctor, she went back to ask but the doctor was in a meeting with the np. Discussed the 30 percent insight with her, showed her the naive study and the open label pain reduction results. Left the study behind for the doctor to read.
	Cleveland	OH	44124	9/25/2013	Dr Prada left early, met dr Basil Waldbaum's wife who uses dr Prada office a few times a month on Wednesdays. Mrs Waldbaum also an MD. Met with med asst Amy, discussed Butransvas CIII option for their pain patients. Discussed & left patient guides, 1 box trial, savings cards, how they work. Updated Amy on Butrans med d wins & commercial status. The controlled release OxyContin as CII option. Left Butrans sliding doser & patient initiation guide & Butrans 3024 study for dr Prada.
PPLPMDL0020000001	Westlake Fairlawn	OH	44145	9/25/2013	Tried to get a lunch, books open up dec 1. Left various Butrans materials behind for dr to read.
PPLPMDL0020000001		OH	44333	9/25/2013	I completed a Pain management in-service for the nursing staff. The Patient Comfort Assessment Guide and The Wong-Baker Pain Scale was handed out and reviewed with the staff. Discussion and interaction took place on the barriers that interfere with pain assessment/treatment in the elderly and consequences of unrelieved pain. 9 were in attendance. I talked with Michelle Williams in staff development about scheduling another in-service. She informed me that it will have to be in January sometime. She has CPR training among other in-services to complete before year end and they are currently in their state window.
PPLPMDL0020000001	Parma	OH	44129	9/25/2013	gave 30% reduction insight and dr said that would be good if his patients can achieve. reviewed clinical trials and asked dr about his treatment algorithm. dr moves nsaid, tramadol, vicodin. i told him butrans can be used after nsaid or tramadol. he asked about the indication and i recited. he asked if there was a specific disease state and i told him no put pointed out the inclusion criteria. reviewed how to dose and when to titrate and use supplemental analgesia. reviewed oxycontin conversion from percocet. discussed intermezzo indication.
		OH	44195	9/25/2013	Intro. Reviewed Butrans indication, positioned for Tramadol failures, Initiation/Titration, 30% pain reduction in Opioid Naive trial. Likes delivery system. Review Savings cards and Medco/ESI formulary status. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Cleveland	OH	44112	9/25/2013	Quick Butrans reminder for those Tramadol failures, said she will keep in mind
PPLPMDL0020000001	Cleveland	OH	44124	9/25/2013	Met with ma Gail, asked to see dr c, not in today. Then Nurse Gail, able to quickly say hello in hallway, OxyContin med d & commercial updates communicated & left grids. . Also sept pain rawness month, can we ask to dr to place in waiting room? she will ask him. Left 1 pack brochures, 1 in dr c mailbox. ( one box Senokot S left)
PPLPMDL0020000001	Cleveland	OH	44195	9/25/2013	Quick reminder on OxyContin Q12h flexible dosing and Butrans Medco/ESI formulary status. Thanked and will keep in mind
PPLPMDL0020000001	Cleveland	OH	44103	9/25/2013	Informed of new Butrans 15mcg strength and OxyContin Q12h flexible dosing strengths. Brad RPH Not seeing any Butrans and minimal OxyContin at this location
PPLPMDL0020000001	Lyndhurst	OH	44124	9/25/2013	Dr is opt out. He says he & Sarah have been using Butrans on a few patients. He was most concerned with Med D population & coverage. Addressed his concern with med d preferred on Cigna, Medco/ Express Rx med d. Showed & left formulary grids. Next shared pain reduction insight, tied into Butrans opioid naive study. Set up & Reviewed study, did not get to AE profile, pain reduction 7.2 to 2.6 was very impactful to him. 4.6 reduction score was impactful. He promised to look over study further. OxyContin mention, indication q 12 h dosing, commercial & formulary grids sept pain awareness month, went over online resources left 1 box brochures. PA-C Sarah I had baby girl 9/29/13, back in November. Met with CNP student Mary Jo Wolinski. Email her @ mwolinski@yahoo.com, next time we have Butrans program in Beachwood area.
PPLPMDL0020000001	Lyndhurst	OH	44124	9/25/2013	OxyContin START principles, q 12 h dosing, showed all 7 doses, back of detailer, savings, updated & left Med d & commercial grids. Suggest cancer pain, would like to go over loan profile next visit. Pain reduction insight, tied into Butrans opioid naive clinical trial. The 4.6 pain reduction was impressive to him. Remember to use for our BWC patients! As well as Medco/ express scripts & Cigna med d patients. Left new grids. Left opioid naive trial for his review. He will read over. Will keep Butrans in mind for types of patients we discussed in inclusion criteria of study. Sept pain awareness month, online resources discussed.
		OH	44195	9/25/2013	Intro. Reviewed Butrans indication, positioned for Tramadol failures, Initiation/Titration, 30% pain reduction in Opioid Naive trial. Dr. likes transdermal delivery system. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Cleveland	OH	44121	9/25/2013	2 Roter pharmacists in today, spoke with one: Greg Carroll, he cannot authorize a pre order. Plus they only have 1 patient on Butras 10 mcg hr. left NDC brochure for pharm mgr. Also sept pain Arlene's brochures discussed, & OxyContin START principles, q12 h dosing. OxyContin pharmacists guide
PPLPMDL0020000001	Bedford	OH	44146	9/25/2013	followed up on discussion of 90 day insight and i asked what percent of his immediate release opioid patients eventually move to extended release and he said it varies and is difficult to quantify. we discussed the butrans patient and the profile for scott. discussed flexible dosing of oxycontin. gave intermezzo indication and limitation of use.
PPLPMDL0020000001	Cleveland	OH	44104	9/25/2013	Discussed significance of 30% pain reduction, Dr thought that was significant, positioned Butrans for those Tramadol failures, Dr. said he has struggled with PA's in the past, glad to hear Medco/ESI formulary status. OxyContin for Q12h flexible dosing strengths
PPLPMDL0020000001	Parma	OH	44129	9/25/2013	spoke with monica about butrans 15 coming available in oct. i said there are some butrans writers in the area and i wanted to make sure she was aware of the product. she said she will not order it in but liked the heads up that it was coming out soon. reviewed flexible dosing of oxycontin. gave indication and limitation of use of intermezzo
PPLPMDL0020000001	Cleveland	OH	44104	9/25/2013	Discussed significance of 30% pain reduction, Dr thought that was significant, positioned Butrans for those Tramadol failures, Dr. said he is glad to hear Medco/ESI formulary status. Likes delivery system. OxyContin for Q12h flexible dosing strengths. Prescribes a fair amt. in palliative care setting
PPLPMDL0020000001	Akron	OH	44313	9/25/2013	I made a drop-in visit to speak w/ Richard Lynch about scheduling an in-service on Pain. I was informed by the receptionist, Nicole that Richard no longer is the nurse educator, he now works night shift. The new nurse educator is Kim Kirsky. Nicole phoned Kim and she agreed to meet w/ me briefly. I introduced myself and Purdue's Nurse Educator Program. She said, "I remember you from the constipation in-service." Kim said that she would love to schedule a pain management in-service for October sometime. She will look at her calendar and call me. The CPP was confirmed as Omnicare and staff physicians were also reviewed.
PPLPMDL0020000001	Cleveland	OH	44195	9/25/2013	Intro. Reviewed Butrans indication, positioned for Tramadol failures, Initiation/Titration, 30% pain reduction in Opioid Naive trial. Dr. said he will consider, likes delivery system and a CIII. OxyContin Q12h flexible dosing
PPLPMDL0020000001	Cleveland	OH	44127	9/26/2013	Quick Butrans reminder for those patients that are not being adequately controlled on present therapy. Dr. said OK
PPLPMDL0020000001	Cleveland	OH	44130	9/26/2013	Gave 90 day insight and dr said yes. Showed dr flexible dosing of OxyContin. Told dr about butrans pain reduction. Left clinical trial data for butrans
PPLPMDL0020000001	Cleveland	OH	44130	9/26/2013	Quick call reminding dr of butrans pain reduction 7.2-2.6. Reviewed flexible dosing of OxyContin. No new information learned
PPLPMDL0020000001	Garfield Hts	OH	44125	9/26/2013	Booked lunch appt. and left Butrans formulary grid. Dr. said he will remember
PPLPMDL0020000001	Cleveland	OH	44102	9/26/2013	Coordinating date with Ed for in-service with Cindy Schulte (Purdue).
PPLPMDL0020000001	Solon	OH	44139	9/26/2013	Quick point with OxyContin start principle of titration and conversion at the lower doses. Told him butrans after tramadol. Scheduled lunch
PPLPMDL0020000001	Cleveland	OH	44104	9/26/2013	Quick reminder thru window, Butrans for those Tramadol/Ultam failures. Dr. said OK , booked lunch appt. with Wanda. Left Initiation/Titration guide
PPLPMDL0020000001	Garfield Hts	OH	44125	9/26/2013	Visited outpatient surgery center, left OxyContin and Butrans Initiation/Titration guides
PPLPMDL0020000001	Parma	OH	44129	9/26/2013	Followed up with patient brochures based on our last call. Reminded Myra of appropriate starting doses for butrans using the titration guide
PPLPMDL0020000001	Cleveland	OH	44127	9/26/2013	Presented Scott profile, Dr. agreed she has patients similar, discussed initiation/Titration, left dosing slide card, Reviewed formulary coverage Dr./Renée struggle with PA's but will consider.
PPLPMDL0020000001	Cleveland	OH	44114	9/26/2013	1. Determine next steps for Pain PACT program 2. Present Butrans 15mcg/hr dose 3. Determine if want BU conversion/titration guides for program 4. Determine who CMO for Evercare is and evaluate feedback for Butrans push-up
PPLPMDL0020000001	Cleveland	OH	44127	9/26/2013	Presented Scott profile, Dr. agreed she has patients similar. Reviewed initiation dosing, asked her to keep dosing tool handy, Dr. said OK. Asked Josie about PA's said she can figure" them out. OxyContin Q12h flexible dosing
PPLPMDL0020000001	Cleveland	OH	44114	9/26/2013	Discussed 30% pain reduction and its significance, Dr. said that was important, most patients seem adequately controlled on present therapy. I asked for that 1 patient that isn't or failing on Tramadol/Ultram, he agreed and will consider. Reviewed formulary status of Butrans and Preferred status on MedCo/ESI. Cigna. OxyContin Q12h/flexible dosing strengths. And Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44125	9/26/2013	Reviewed the new Butrans 15mcg/hr dose with Chris(RPH), positioned for (Tramadol failures). Requested OxyContin savings cards
PPLPMDL0020000001	Bedford	OH	44146	9/26/2013	Asked dr what percent of short acting patients move to long acting. He said it depends and some never move to long acting. He said he tries to keep patients off the long acting until it becomes necessary. Discussed if this was different for butrans and he said no. Asked dr to consider the OxyContin patient conversion at lower doses. Reviewed intermezzo indication and limitation of use
PPLPMDL0020000001	Cleveland	OH	44114	9/26/2013	Discussed 30% pain reduction, Dr. said that was significant, Prescribes Butrans in Nursing home/palliative care. I asked for that 1 patient failing on Tramadol/Ultram, he agreed and will consider. Reviewed formulary status of Butrans and Preferred status on MedCo/ESI. Cigna. OxyContin Q12h/flexible dosing strengths. And Intermezzo for MOTNA/dosing
		OH	44122	9/26/2013	Window reminder while I spoke with vikki. Asked dr to remember butrans when he needs to move someone off of tramadol. Asked dr not to forget the 30 mg dose when converting from Percocet. <font color=blue>-<b>CHUDAKOB's query on 10/05/2013</b>-<b>Marcia, Isn't this an OxyContin Super Core? If so, then the next call objective should relate to OxyContin. You can include Butrans as well, but remember, your goal is to increase his OxyContin business first.</font> color=green>-<b>KENNOMA's response on 10/05/2013</b>-<b>font>You are correct in this statement. I lost focus on Yoki as an OxyContin core. My next objective should be to get Yoki to realize how much hydrocodone he has in his practice that has been refilled over 90 days without him realizing.</font color=blue>-<b>CHUDAKOB added notes on 10/07/2013</b>-<b>font>Ok. Thank you!
PPLPMDL0020000001	Cleveland	OH	44127	9/26/2013	While I was visiting Dr. Mobasser, Quick Butrans reminder for those Tramadol failures, said she is not treating pain anymore. Verified data, will no longer visit
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Reviewed with Isa Butrans Medco/ESI Formulary status, Left Scott profile for along with Initiation/Titration guide. Booked appt.
PPLPMDL0020000001	Cleveland	OH	44103	9/27/2013	Introduced Butrans 15mcg/hr dose, Amalia(RPH) hasn't seen any Butrans, Positioned for those Tramadol failures. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Beachwood	OH	44122	9/27/2013	Asked dr if she has found any appropriate patients for butrans since our lunch and reminded her if the pain reduction. We said she remembered but has not prescribed. I asked her if she could identify the right patient and she said after tramadol. I reviewed flexible dosing of OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	OxyContin reminder Q12h flexible dosing strengths, broad formulary coverage. He along with Dr. Shen like using long acting products instead of IR products for those appropriate patients. Discussed Butrans for those Traamaol failures, agreed and continues to look for appropriate patients. Went over formulary status with MedCo/ESI
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Visited Pain/Ortho Dept. Left info (Billfield, Stearns, Kim
PPLPMDL0020000001	Beachwood	OH	44122	9/27/2013	Spoke with pharmacist about bringing the 15 Butrans in stock and hoehsing agreed that it would be beneficial. Discussed OxyContin start principle. Asked about intermezzo movement and he said there was non and he did not have it in stock
PPLPMDL0020000001	Cleveland	OH	44195	9/27/2013	MSL email communication with Ms. Cassano regarding next steps to identify a new PI for OTR3001. Ms. Cassano requested MSL to meet with Dr. Dell, research director to discuss. MSL offered meeting dates, confirmation pending.
PPLPMDL0020000001	Cleveland	OH	44102	9/27/2013	Talked w/ Mark Gutkowski, and an in-service was scheduled for 10/16 @ 12:00. He will arrange the luncheon.
PPLPMDL0020000001	Westlake	OH	44145	9/27/2013	I was in the area and made a drop-in visit to meet D.O.N., Kelly Rosnagel, I was informed by the receptionist, that Kelly went into a meeting and is not available. I left my BC and the Purdue NE pamphlet
PPLPMDL0020000001	Norton	OH	44203	9/27/2013	Missed t he dr but scheduled a lunch. Spoke to Lisa, Lynn the ma and office manager regarding Butrans. They were unfamiliar w Butrans. Reviewed the naive study.
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Quick desk call, Reviewed Butrans Medco/ESI formulary status, Dr./Aurora-Nurse said that was good to hear. Booked lunch appt. , Left Initiation/Titration guide
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Reviewed MedCo/ESI formulary status of Butrans, Dr. said that was good to hear. Asked for those Tramadol failures, she said that Butrans continues to be utilized in her practice. Went over Initiation/titration guide.
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Reminded of Butrans formulary status with Medco/ESI, also for those Tramadol/LorTab failures, agreed will keep in mind. Said really likes product, I asked her to continue to find new patients

PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Quick Butrans reminder for those Tramadol failures along with Intermezzo for MOTNA/dosing. MeCo/ESI formulary status.Dr. said Ok will keep in mind
PPLPMDL0020000001	Westlake	OH	44145	9/27/2013	I completed a lunch in-service for the MDS nurses, D.O.N. and nurse managers on F309 challenges, the slide deck was reviewed. 8 were in attendance. The expressed frustration in that they find it difficult to interpret the MDS form and the rationale behind the questions. They feel that there are too many variables and in-consistencies of pain responses w/ their residents. They are curious to know what factors decide the formulary star rating.
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Quick OxyContin reminder Q12h flexible dosing strengths, broad formulary coverage. Said his schedule varies at St. Augustine, informed of Butrans in-service for nursing staff, said that will be helpful
PPLPMDL0020000001	Independence	OH	44131	9/27/2013	To,d r i have lunch with him Monday and we are going to discuss what a 30% improvement in pain would mean to him and his patients. Let the butrans clinical trials. Left OxyContin conversion guide
PPLPMDL0020000001	Cleveland	OH	44113	9/27/2013	Quick Butrans reminder for those LorTab failures, said she really likes Butrans.Intermezzo for MOTNA/dosing, she said OK, was running behind. Booked Lunch appt.
PPLPMDL0020000001	Cleveland	OH	44113	9/30/2013	Quick Butrans reminder for those Ultram/Tramadol failures, Dr. stated not prescribing any Opioids. Follow up again with those he sends to Pain Mgmt, will consider. Intermezzo for those MOTNA/dosing, said he continues to prescribe. Requested more vouchers/trial cards
PPLPMDL0020000001	Independence	OH	44131	9/30/2013	I asked Dr. is there something that is keeping him from writing Butrans. Doctors that is a good product and ISN where does he think it fits it is practice. Dr. hesitated and didn't answer I asked him if he thought it was a good fit after tramadol or even instead of tramadol. I asked Dr. what were his thoughts on Vicodin and Percocet. Dr. said he would rather put patients on Butrans and Vicodin and Percocet. I asked him why and he said it's hard to get them off after the start. I asked him if this is true how come he doesn't use more Butrans. He said I have a good point and I reviewed the clinical trial and a 30% reduction insight and asked him if he thought that is something He would like to see. Dr. said hi is going to start using Butrans and he's going to use it where I said it's fits. Dr. said he Likes OxyContin but a pain management doctor wrote him a letter and said he would not accept his patient into his practice because he was on OxyContin. I asked Dr. to think about patients are on Percocet around-the-clock and maybe been on for Six months to a year. I asked if he thought that was too long of a time. To be on the short acting and he said yes but he wasn't comfortable putting those patients on OxyContin. Reviewed intermezzo indication appropriate patient type with middle the night awakenings and dosing
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/30/2013	Led with insight about hydrocodone/APAP and asked him about his opinion on the statistic? Dr said that he prescribed Butrans since I was in last. I asked for more information and he told me he started the patient on the 10mcg because the patient was on fentanyl, had spinal surgery, and was stepping down off fentanyl because pain was decreasing. Dr said he started on the 10mcg and patient called back in and said it was \$400. I asked dr for insurance information or more specific info and he couldn't remember but to maybe talk to Jessica the office manager. I reviewed Butrans dosing, titration, appropriate patients and insurance. Dr said he will continue to find patients. Intermezzo dosing, indication and asked if he will prescribe? Dr said no because its too expensive when he tried the first time. Discussed cost and appropriate patients.
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Reviewed new Butrans 15mcg/hr dose. Asked for Butrans patient info booklets to be distributed for appropriate patients. OxyContin Q12h dosing
PPLPMDL0020000001	Akron	OH	44313	9/30/2013	I told dr that he needs to start using the 10mg OxyContin for this patients uncontrolled on Percocet 20mg. I asked dr if he has patients on Percocet 20mg? Dr said yes. I gave him the conversion guide and asked him to review. I told dr he also needs to find a place for Butrans in his practice. I told him that I'm guessing he has patients that he controls his refills on tramadol. Dr said yes. I told him that Butrans is a product that is suited for those patients that are uncontrolled and explained why. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	9/30/2013	Gave her the number 9 insight....Why do prescribers wait so long? She said most primary care doctors aren't up to speed on how to treat pain and they end up referring pain management. I said why After a nSAD isn't working wouldn't you use Butrans as their first opioid? She said unless they don't want to use a patch. I said if they seemed unsure of the patch technology, what counseling would you give them? She said she would go to something else. I pointed out the pain reduction scores during the open label of patients making Butrans their first opioid. If your patients heard the pain reduction scores, do you think they would be more open to trying it? She said maybe. I said well, this week when you are re-assessing those patients you see monthly for ATC pain....think about Butrans 5mcg or 10mcg.
PPLPMDL0020000001	Oakwood Village	OH	44146	9/30/2013	I rec'd a phone call from D.O.N., Barb Straemple requesting to cancel the in-services on Pain Documentation scheduled for tomorrow October 1 @ 7:30, 10:30 & 2:30. Barb stated, "I just came back from vacation and I didn't post it and I want a good turnout." She re-scheduled for October 29th same times.
PPLPMDL0020000001	Munroe Falls	OH	44262	9/30/2013	I told dr that I'm guessing she has patients that she refills tramadol or vicoden for each month? Dr said she does and knows she's guilty of doing that instead of looking at other products that may be better. I reviewed profiles along with insurance pan coverage that suit her practice. Dr said she knows she should be using it more because the patients she has on it are doing well. I told her that the studies show at least a 30% pain score reduction and if she would be happy with that? Dr said for sure. OxyContin and intermezzo dosing and asked for additional use.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/30/2013	Short discussion about dr identifying patients for Butrans. Dr said he has not used it yet. I asked him if he has patients on tramadol or vicoden around the clock who he refills for each monthZ. Dr said yes, too many of them. I told him instead of refilling or adjusting dose, to use Butrans for those patients especially those uncontrolled. Dr said he knows he needs to use and will try. Dr said he still has the Butrans conversion guide on his desk along with copy cards.
PPLPMDL0020000001	Berea	OH	44017	9/30/2013	Dr said he still had I found the right patient for Butrans yet. I asked him what that patient I looked liked and he said a pain patient walked away.
PPLPMDL0020000001	Westlake	OH	44145	9/30/2013	I rec'd an e-mail from Nurse Educator, Brenda Amburgey, canceling the Butran's Luncheon scheduled for this Friday, October 4th, due to a scheduling conflict. I e-mailed Brenda to reschedule.
PPLPMDL0020000001	Cleveland	OH	44113	9/30/2013	Quick Butrans reminder, MeCo/ESI formulary status. Confirmed lunch for tomorrow
PPLPMDL0020000001	Parma	OH	44129	9/30/2013	Told Dr. he has more patients that fit the criteria of Scott then he thinks and that the tramadol patient in need of a dose increase or a change in medication is similar to the patient that he just prescribed Butrans for.
PPLPMDL0020000001					Reviewed Percocet OxyContin conversion a reminder Dr. the patient around-the-clock Percocet for several months might be candidates for OxyContin. Gave intermezzo reminder and Dr. asked about the coverage. I told Dr. that his commercial patient can use the vouchers the similar to his Butrans and OxyContin patients can use vouchers.
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Dr. Salim Hayek- Program Director. Terrah Northern-Admin
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Obtained and contacted Donna Bentley Dept admin in regards to in-service, Dr. Kikano- Dept Chair approves requests if any. Obtained Dr. Kikano admin. Patti at PXW158@case.edu
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Dr. P. Silverman MD assoc. program dir., left info for appt. request, along with Andrea Dracon RN, Silverman's nurse requesting appt. Dr. J. Bokar- Residency/Fellows Program director

PPLPMDL0020000001	Parma	OH	44129	9/30/2013	Ask doctor to consider Butrans for patients that are in need of a dose change from Tramadol. Gave 30% reduction in pain insight and told her about upcoming lunch. Told Dr. she probably has patients in her practice that are similar to the inclusion criteria of the clinical trials. Dr. said yes after I mention osteoarthritis and spinal stenosis. Reminded Dr. Of start principle of titration for OxyContin.
PPLPMDL0020000001	Cleveland	OH	44104	9/30/2013	Quick Butrans Titration reminder, gave Dr., Butrans dosing tool. She said OK and asked to book appt. OxyContin Q12h flexible dosing strengths. Booked lunch appt. for Oct 15th
PPLPMDL0020000001	Cleveland Hts	OH	44118	9/30/2013	Reminded of OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Dr. agreed. He said Butrans is going well, reviewed MeCo/ESI formulary status, along with Titration reminder.
PPLPMDL0020000001	Parma	OH	44129	9/30/2013	Spoke to find tech about ordering Butrans 15 And she looked interystem and said that she doesn't do a lot of the tens or the 20s or the fives. Gave insight and quickly reviewed clinical trials of Butrans with the pain reduction from 7.2 to 2.6. Reviewed start principal for OxyContin concentrating on titration. Gave indication limitation of use and dosing of intermezzo.
PPLPMDL0020000001	Independence	OH	44131	9/30/2013	Window call. Discussed OxyContin start principles.Discuss titration portion of start principal. Discuss formulary when I'm Butrans and gave 30% reduction in pain insight. Handed managed-care formulary win through the window. Reminded Dr. to consider tramadol patients in need of a dose change for initiating Butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/30/2013	Discussed intermezzo and Butrans with dr over lunch appointment. I reviewed the dosing selling piece and discussed the indication and limitations of use. Dr said he has used it and for the coup,e of patients he had on it like it. Dr wanted to know where its covered as his patients pay a fair amount out of pocket. Discussed insurance grid and copy cards with 5 free pills. Dr said ok and he will continue to assess patients for the product.
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Introduced Butrans to dr discussing indication, dosing, titration, conversions and Scott profile. Dr said it sounds limea good product and asked about side effects. Reviewed the adverse events and asked him his thoughts which he said looks good. I asked him to find. Patient like Scott for the product.
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Reviewed OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Discussed 30% pain intensity reduction and the significance in Butrans Opioid naive trial, Dr.stated not much experience with Buprenorphine but will consider
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/30/2013	OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Dr. reiterated his confidence in prescribing OxyContin for those Oncology/palliative care patients. Discussed Butrans Opioid Naive trial and importance of 30% in pain reduction, thought that any reduction in pain is important, but does not believe in any long term use of any narcotics, but will keep in mind
PPLPMDL0020000001	Westlake	OH	44145	9/30/2013	Short conversation with dr about Butrans and intermezzo. Dr asked if intermezzo insurance coverage is better? I reviewed it with him and he said it is not any better. Dr said he really likes it and it works well but cost has been slowing him down.m I asked him to continue prescribing for patients failing Ambien. Dr said he is and it is too much for patients to pay. Dr said that he continues to see great things for patients that can tolerate it. I asked him what he means and he said some patients can't tolerate the nausea, dizziness and tiredness. Dr said more patients than not do very well with it. I reviewed insurance plan coverage, copy cards and patient type selection. Dr said he will continue prescribing.
PPLPMDL0020000001	Euclid	OH	44117	9/30/2013	saw dr- 30 percent pain reduction insight- what do you think about that kind of result? Dr said it was was just ok. I said what results are you looking for? He said at least 40% improvement. I said I was going to leave him with one reason today why to continue to write Butrans...It has been studied and it works. Patients in open label portion of our study where patients never been on an opioid before...went from a 7.2 to a 2.6 pain reduction in 4 weeks. If that isn't a reason to remember Butrans today what is? He smile, said he loves Butrans. Left him the Naive Butrans study.
PPLPMDL0020000001	Parma	OH	44129	9/30/2013	Pain reduction insight, tied into Butrans 3024 & 3015 clinicals, with 4.6 and 3.6 reduction in pain scores. Left both clinicals for dr Morley, asked him to review & then I'd like to follow up on efficacy & safety data next visit. Left dosing slider. Again, he says he just does refills for what dr Moufawad already has patients on that come into his office for therapy. Suggested I talk to dr Moufawad. I responded I know dr Moufawad. & he's in the territory a few days a week, & that I'd be seeing him this week. For controlled release OxyContin, suggested converting patients uncontrolled on IR oxycodone or Percocet, same molecule, different delivery system.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	9/30/2013	Window call asked Dr. his thoughts on a 30% reduction in pain on the pain intensity scale. Dr. was busy so I told them I would leave the clinical trials for us to discuss during lunch and he could give me his thoughts on what he considers clinically important. Asked Dr. to think of patients who were on round-the-clock Percocet for several months and consider them for OxyContin. Left intermezzo dosing card
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	As I was discussing an insight and reviewing Butrans dr told me he prescribed it before. I asked him to talk to be about how the patients are doing? Dr said he had two patients still on it and are doing quite well. I asked dr if he has prescribed it and patients have had success and are still taking it, what reasons are there for not prescribing more? Dr said cost. I asked which plans and he didn't have any specific plans. I went over cost and discussed pans that are specific to his practice. I asked dr if he cleared up any confusion about Butrans being too expensive? Dr said it did. I asked if he is convinced it works clinically by reviewing the studies on the last visit? Dr said he believes in it. I reviewed the Scott and nancy profiles and asked him if he has patients like them? Dr said he does. I asked him to prescribe again. Intermezzo indication, dosing, and insurance coverage. Dr said he has not prescribed and will just cut the dose of Ambien. I told him the indications are far different and read intermezzo indication again. Dr said he understands.
PPLPMDL0020000001	Independence	OH	44131	9/30/2013	OxyContin Q12h flexible dosing strengths, Butrans for those Tramadol failures that are requiring around the clock pain control, he said he doesnt treat much chronic pain. Intermezzo for MOTNA/dosing.Dr. is leaving UH- moving to Columbus in Dec
PPLPMDL0020000001					Asked dr what is keeping him from writing butrans since he sys he knows about the product. I delivered 30% reduction insight and he said that was favorable but he can't remember. I asked him if I could describe the types of patients that might be appropriate for Butrans. Discussed inclusion criteria, use after tramadol when he needs to make a dose adjustment and low-dose Vicodin and Percocet patients. He said this will help him. Reviewed the clinical trials pain scores and Dr. said that was good information. Asked Dr. if he will see a patient like the ones we discussed this week and he said probably. I asked him would he initiate Butrans and he said he would consider it But managed-care is a problem. I reviewed the formulary grid and the Medco express script changes. Asked Dr. how long are patients on Percocet. Gave short acting insight and asked what he thought about the number of days. Dr. said that's not a problem he has people that take a couple of Percocet a day for years. I told Dr. to think about the patient who has chronic pain And needs round-the-clock medication. I told him to consider the Percocet conversions based on the detail piece. Dr. said he does not like to write OxyContin and I asked if he can't write it in the cases We discussed. Discussed intermezzo indication limitation of use and gender specific

PPLPMDL0020000001	Parma	OH	44129	9/30/2013	Spoke with pharmacist about stocking Butrans 15. Pharmacist said they will order Butrans when they see a script. Quickly reviewed clinical trial highlighting pain reduction from 7.2 a 2.6. Reviewed start principal For OxyContin And Also stressed flexible dosing. Gave indication of limitation of use of intermezzo
	Akron	OH	44312	9/30/2013	Quick discussion in hallway about him using more OxyContin and trying Butrans again. Dr told me that his OxyContin use will be limited because he is trying to reserve it for the specialists. I told him I understand and asked him if he's ok switching patients to OxyContin from Percocet when they are still in pain? Dr said its easier to do it that way and will try. Dr said he has not given up on Butrans but will continue to look for patients needing a change on tramadol. I agreed that that is a good candidate for Butrans. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44333	9/30/2013	I gave dr the insight about hydrocodone/APAP combinations and asked him about the statistic. Dr said it actually seems low at 41%. Dr said that he knows that primary care doctors keep their patients on IR opioids way too long and he has to clean up the mess. Dr said he is glad to have so many good ER options for patients needing more steady state control. Dr said he likes the Butrans option and most of his patients really like it. I asked for continued and more business. Discussed his need to prescribe more OxyContin for those patients he sees on Percocet and need a dose adjustment or uncontrolled. Dr agreed to do it. Dr said that he is trying to use more intermezzo but its tough because of cost. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44106	9/30/2013	Reviewed OxyContin Q12h flexible dosing strengths and broad formulary coverage. Discussed Butrans Opioid Naive trial and the 30% in pain intensity, said that was significant and will consider, not initiating any prescriptions presently.
PPLPMDL0020000001	Cleveland	OH	44102	10/1/2013	Introduced Butrans 15mcg/hr dose presentation along with OxyContin Q12h flexible dosing and savings cards to Littlejohn RPH. Intermezzo for MOTNA/dosing. He will let Dennis know up the addition of dose strength
PPLPMDL0020000001	Parma	OH	44129	10/1/2013	Ask Dr. is there a reason why she hasn't prescribed Butrans. She said she has in the past but the patient couldn't afford it. I have to she's tried Butrans on a commercial patient because they're probably a lot of patients and her practice that are on Tramadol that she moves directly to Vicodin. Dr. said yes but she finds that Butrans is it covered and she did have a patient that experience nausea. I reviewed adverse reactions from the open label trials and explained that these are the common adverse reaction. I asked if she thought nausea was expected for patient new to an opioid and she said yes. I asked if she thought that I trial of More than two would be a more fair trial. She said yes and that she would consider trying Butrans again. And what her thoughts were on OxyContin and she said she uses it for her cancer patients and elderly. I asked her thoughts on that patient selection and she said that's what she's comfortable with. I asked if a patient has a Known pathology and has documentation is that enough to make her comfortable writing OxyContin. Gave indication of intermezzo reviewed appropriate patient type with middle of the night insomnia
PPLPMDL0020000001	Parma	OH	44129	10/1/2013	Spoke with Anaya about the 15 and she said that when she tried to order it it said it was not available from the manufacturer. I told her I would get back to her to see what that meant and reviewed OxyContin start principles. Gave intermezzo indication limitation of use an appropriate patient type with middle the night awakenings
PPLPMDL0020000001	Parma	OH	44129	10/1/2013	Myra said she had a patient wi With pain but she was uncomfortable prescribing Butrans because the patient had no documentation. I asked Myra what did she do and she said she ordered Ladson MRIs because the patient didn't have them and after that she'll consider the proper medication. I reviewed appropriate starting dose for the opioid experience patient was 10 and the opioid na rive patient was five. Spoke with Dawn and she said she saw Butrans on The bwc website yesterday and that it was released as approved but today she didn't see anything on their website. I told her I would check in the meantime could you check again for me. Smile if there's ever a time when she would renew a OxyContin prescription or initiate OxyContin and she said no. Gave indication and limitation of use and describe the appropriate patient with middle the night awakening for intermezzo
PPLPMDL0020000001	Cleveland	OH	44103	10/1/2013	Reviewed intermezzo for MOTNA/dosing. Dr will consider even know PA's are a challenge" Discussed Butrans.Said she is not treating/prescribing pain meds per medical director/practice policy. Will discuss with director
PPLPMDL0020000001	Euclid	OH	44117	10/1/2013	I called , DON, Kathy Nemeth to confirm the Butrans in-service scheduled for tomorrow 10/2. n/A, I left a message on her voice-mail.
PPLPMDL0020000001	Parma	OH	44129	10/1/2013	Told Dr. At lunch I didn't get to review much OxyContin and I wanted him to consider the Percocet patient Who has been on around-the-clock therapy for a while is in need of a long-acting. Handed Dr. Butrans tear off sheets to help him explain to his new Butrans patients how they should use the patch appropriately. Left dosing card for intermezzo
PPLPMDL0020000001	Parma	OH	44129	10/1/2013	Spoke with ma and explained that Dr. uses the trial cards for Butrans And I wanted to make sure that he had some. reviewed how to use them. What plans Butrans is on. And pain reduction scores from clinical trials
PPLPMDL0020000001	Cleveland	OH	44114	10/1/2013	Introduced Butrans 15mcg/hr dose presentation along with MedCo/ESI formulary status, she said that will be helpful for patients" as she continues to find new candidates to prescribe. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Bedford	OH	44146	10/1/2013	I received a phone call from D.O.N., Jackie Conner, stating that corporate was requesting that she set up an educational in-service on employee satisfaction. She came across my business card and called me to see if I could in-service her staff on that topic. I informed her that our primary focus is pain management. I talked with her about completing an in-service for her nurses on pain. She felt that that was also a need of the facility and Jackie said she will call me later this month to schedule.
PPLPMDL0020000001	Cleveland	OH	44103	10/1/2013	Review OxyContin Q12h with flexible dosing options and broad formulary coverage.Discussed Butrans for those Tramadol failures and patients requiring around the clock therapy. Showed Opioid Naive trial and the 30% reduction in pain intensity, said that was significant and will consider.
PPLPMDL0020000001	Cleveland	OH	44113	10/1/2013	Reviewed OxyContin Q12h flexible dosing strengths, broad formulary coverage.Introduced Butrans 15mcg/hr dose presentation along with MedCo/ESI formulary status. She said that was good news, adds another dose to titrate with.Discussed PA issues, had Melissa verify success in getting thru. Said that was good to know. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44113	10/1/2013	Introduced Butrans 15mcg/hr dose presentation along with MedCo/ESI formulary status. Discussed those LorTab/Tramadol failures, likes once a week transdermal system said she will consider. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44195	10/1/2013	Introduced Butrans 15mcg/hr dose presentation along with MedCo/ESI formulary status, to Roxan Rph mgr. Has 1 patient, Reviewed OxyContin Q12h flexible dosing strengths along with intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44195	10/1/2013	Left info and request for appt.Dr. Davis/Gutsgill. Spoke with Troy in pharmacy and said he will relay additional Butrans strength when he speaks with Dr. Davis
PPLPMDL0020000001	Parma	OH	44129	10/1/2013	Dr. start out by saying he just spoke with Dr. Salama is next door and Dr. Salama does not write any OxyContin. I told the doctor I don't know everything that Dr. Salama writes but what are his thoughts on OxyContin. Dr. said that doesn't make sense because he writes Percocet. I told the Dr. how come he hasn't considered converting some of his patients out of been on Percocet around-the-clock for extended periods of time. Dr. said I was right and that he needs to consider that. I reviewed the conversion in the visual aid from Percocet OxyContin. Dr. said he needs to write more Butrans and he keeps forgetting. I told Dr. you've written a couple of times in the recent past what made him think of it then And he said I was just in. I told the doctor I see him weekly so that means he should be thinking about Butrans at least once a week. Dr. said that is true so I said let's just concentrate on the tramadol patient like Scott. Reviewed savings cards for intermezzo and gave indication, dosing administration And limitation of use
PPLPMDL0020000001	Parma	OH	44134	10/1/2013	Told Dr. he has some Percocet patients who have probably been on for longer than three months and are candidates to be can Converted to OxyContin. Dr. said that is probably true but a lot of them complain because they're getting the generic OxyContin And it doesn't work as well. I explained to the doctor that there is not a generic of OxyContin and what the patient is getting from the pharmacy is the branded drug. I asked Dr. if he was sure that the patient was getting OxyContin which is extended release or if they were getting the immediate release oxycodone. Dr. said he doesn't think they're getting an immediate release. Dr. said He likes Butrans because patients don't think about their pain. I asked Dr. about his Butrans potential and he said he thinks he has a lot of potential.
PPLPMDL0020000001	Cleveland	OH	44113	10/1/2013	Reviewed OxyContin Q12h flexible dosing. Dr. said Ok. Introduced Butrans 15mcg/hr dose presentation along with MedCo/ESI formulary status. Dr said he was glad to hear of new dose strength and continues to find new patients. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Norton	OH	44203	10/1/2013	met the doctor. Introduced self and the products sold. Dr thought OxyContin was Generic and asked questions regarding abuse deterrent. Highlighted the information and gave him the abuse deterrent leave behind to review. Dr said he chooses his medication based on safety data, especially for Opioids. Provided the insight on OxyCodone and when I asked why anyone would not convert sooner, he said drs trying to treat with short acting products. Reviewed the conversion slim jim- showed him the q12h of OxyContin. Dr. asked about Medicaid coverage.Dr said he does send patients out for drug screening and Lisa their RN does the patient education as well as handles the prior auths in the office. Discussed the 7 doses, even asked him if he could name them all. He was close. He didn't know that OxyContin started at 10mg. Bridged to Butrans Discussion- Dr. never heard of Butrans. Discussed the 7 day transdermal, the schedule 3 of opioids. DR. asked if Butrans could be abused and discussed abuse potential. Dr said he liked that the patch was a 7 day transdermal patch and that he would try it. I discussed the Naive study- open label pain reduction scored. I asked him to think of Butrans after a Cox 2 failure/NSAID. Dr asked if he could add supplemental to Butrans- reviewed the information. Dr. asked if it was not intended for after an Opioid failure. Clarification of the indication...and the variety of studys conducted. Dr. said he would try it in a patient.
PPLPMDL0020000001	Euclid	OH	44117	10/2/2013	I completed 3 in-services @ 7am, 2:30 & 3:30 on Butrans for the nursing staff. The Butrans slide deck was presented, along with a discussion and interaction on the appropriate patient types. A sample patch was presented to the nurses along with a demonstration of the disposal system. 10 nurses were in attendance, including the DON, Kathy Nemeth.Staff physicians and the CPP were updated.
PPLPMDL0020000001	Akron	OH	44313	10/2/2013	Caught dr going to lunch. I gave him yet another OxyContin conversions guide and told him that he needs to use OxyContin for his patients on 20mg of Percocet when they are ready for a dose adjustment or have been on it for 3+ months. Dr said ok. I asked him again if he has patients on tramadol that he refills each month? Dr said yes. I told him that Butrans may be appropriate for those patients and reminded him its a schedule 3. Nothing else learned
PPLPMDL0020000001	Cleveland	OH	44113	10/2/2013	Had appt. with Ortho dept. Dr.Stearns/Bilfield, Reviewed OxyContin/Butrans
PPLPMDL0020000001	Cleveland	OH	44130	10/2/2013	Quick call with hydrocodone insight. As Dr. his thoughts and how long patients are usually on hydrocodone and he said it depends. Discuss use of OxyContin for patients currently on Percocet. Quick reminder the Butrans after tramadol.
PPLPMDL0020000001	Cleveland	OH	44130	10/2/2013	Quick window call reviewed Percocet conversions for OxyContin using start principles in detail piece. Affect her to remember patients on round-the-clock Percocet Who might be candidates for OxyContin. Told Dr. I have lunch scheduled with them and want to get his thoughts on 30% reduction in pain insight. Left leave behind to discuss next week
PPLPMDL0020000001	Cleveland	OH	44130	10/2/2013	Window call, gave 30% reduction in pain insight And ask Dr. her thoughts on Butrans. Discuss Percocet conversions to OxyContin. Left intermezzo dosing card
PPLPMDL0020000001	Akron	OH	44309	10/2/2013	1. Confirm Frederic is still with Summacare since his emails are returning as undeliverable 2. Present Butrans 15mcg/hr launch details & try to re-send PDF
PPLPMDL0020000001	Stow	OH	44224	10/2/2013	Short conversation in stow office. I led with insight and asked her if she has used any ER opioids recently? Stephanie said she uses them every day. I asked if Butrans has been one of them and she said no. She said that she was going to use it the other day but her patient wanted to stay on fentanyl even though he was having a tough time tolerating it. I told her that a fentanyl patient may not be the best candidate for Butrans. I explained the inclusion/exclusion criteria from trials and showed her the conversion scale. I asked her if she has patients on tramadol or vicoden? She said yes but by the time she sees the, they are pretty far into their IR opioid. I told her that those patients may be better candidates for OxyContin and showed her the profiles for the new piece. Stephanie said thanks for the information and it helped her identify the right patients.
PPLPMDL0020000001	Cleveland	OH	44113	10/2/2013	Reviewed OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Discussed Butrans for those patients needing around the clock pain control. Dr. said he will keep in mind, referring patients out
PPLPMDL0020000001	Stow	OH	44224	10/2/2013	I gave dr the insight about hydrocodone /APAP combinations and asked his thoughts? Dr said he gets it and said he knows the numbers are too high of patients being on IR opioids. Dr said he tries every day to start OxyContin but said its really difficult because patients done want to switch and say the branded products are too expensive. I told dr that he needs to start Butrans for those opioid naive patients that he has had success with in the past and those needing an ER opioid on tramadol or vicoden. Dr agreed. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	10/2/2013	Reviewed OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Discussed Butrans for those patients needing around the clock pain control. Dr. said he will keep in mind, tends to refer most patients to pain mgmnt. Asked for that 1 patient, said he will consider
PPLPMDL0020000001	Stow	OH	44224	10/2/2013	Dr said that he wanted to use Butrans for a patient today on vicoden however the urine screen came back showing cocaine. I asked dr what the protocol is for that and he said its an automatic discharge from the practice. I asked dr what his ideal patient for Butrans is and he said one that need an ER opioid before they are titrated up on the IR analgesic. Dr said when he has patients failing vicoden and they are not too high up on it dose wise he will move to Butrans. Dr said if they are over 5 pills a day he will either go to Percocet or OxyContin. I told him that he can use his own clinical judgement but a patient peaking 5 vicoden a day can take Butrans. Dr said he wants more and more patients on ER opioids and he's glad I have two good ones for him. I asked for more business.
PPLPMDL0020000001					

PPLPMDL0020000001	Olmsted Falls	OH	44138	10/2/2013	Discussed Butrans. Follow up from last time introduction, identifying a patient with atc pain uncontrolled and transitioning from NSAID to Butrans 5mcg. Dr said he started a patient on the 5mcg a few weeks ago. I said great how soon are you seeing him back. Dr. said in a month. Pointed out...wait a min of 3 days before titration to the 10mcg. They are allowed supplemental analgesia per our studies. Also...showed the 4 approved sights the patients can place their patch and waiting that 21 days before going back to the same spot. Dr. Asked about managed care. commercially insured patients use the coupon. Discussed caesourse, prior auth and the medco part d information. Review Intermezzo- dosing gender specific.
PPLPMDL0020000001	Alkron	OH	44333	10/2/2013	Dr told me he prescribed three Butrans last week and one this morning. I asked dr to give me specifics on what the patients were taking previously and what dose he initiated? Dr told me that the three last week were two new for older ladies that he was taking off their prn vicoden and started on the 5mcg. Dr said the one this morning was on patient who actually requested a different option because dr said he told him he didn't want to take his vicoden anymore. Dr said he stated on 10mcg dose and figures he will need to titrate all patients. I asked for OxyContin prescriptions for his patients failing Percocet or need a dose adjustment and to start as early as 10mg dose. Dr agreed. Dr asked if the intermezzo insurance has improved because he continues to ask his patients but its just too expensive. I asked for him to find patients failing Ambien who have commercial insurance.
PPLPMDL0020000001	Cleveland	OH	44114	10/2/2013	OxyContin Q12h flexible dosing strengths with broad formulary coverage, Reviewed Butrans MedCo/ESI formulary status for those patients needing around the clock pain control
PPLPMDL0020000001	CLEVELAND	OH	44106	10/2/2013	Discussed OxyContin utilization with Troy, utilizing mostly 60mg/80mg. Reviewed Butrans along with new 15mcg/hr dose, said Davis and Gutsgeil are main prescribers, said he will inform Dr's of new dose.
PPLPMDL0020000001	Fairlwan	OH	44333	10/2/2013	Quick call in hallway and told him that Butrans is a product I want him to use for his patients needing more than what tramadol can offer. I showed him the conversion guide and asked him to start is when patients need that dose adjustments on tramadol. Dr said ok. I told him I wanted him to use OxyContin 10mg for his patients needing a dose adjustment on 20mg of Percocet. Dr said ok. Nothing else learned.<font color=blue><b>CHUDAKOB's query on 10/13/2013</b></font>Cliff, what did you mean you want him to use Butrans "for his patients needing more than tramadol can offer"?<font color=green><b>REICHCL's response on 10/16/2013</b></font>I don't remember. I think dr said something about using Butrans if tramadol doesn't offer enough pain relief.<font color=blue><b>CHUDAKOB's query on 10/17/2013</b></font>I was more concerned about the wording "more than tramadol can offer" This can misinterpreted as a comparative statement. We can certainly say Butrans offers another option, but we cannot say "more than tramadol can offer" Does this make sense?<font color=green><b>REICHCL's response on 10/18/2013</b></font>Got it<font color=blue><b>CHUDAKOB added notes on 10/21/2013</b></font>Think you!
PPLPMDL0020000001	Parma	OH	44129	10/2/2013	Shared with Dr. Butrans clinical trials and asked his thoughts on pain reduction Of 30%. Dr. said he sees more than that sometimes and likes Butrans. I asked his thoughts on using Butrans after NSAIDs And he said he likes to use it after tramadol and not instead of. I asked Dr. if he ever thinks of Butrans with his low-dose Vicodin or Percocet patient and he said he doesn't use very much Percocet and patient come in on Percocet but he doesn't initiate. Asked Dr. what he thinks primary care would need to know about Butrans to help them understand where to use Butrans. Dr. said He see no consistency in how primary care Prescribed opioids. Dr. asked about the 15 and I told him it's not available yet But he will be able to prescribe by the end of the month when pharmacies are completely stock. I reviewed OxyContin conversion and ask Dr. his thoughts on OxyContin and he said he does not initiate any therapy on OxyContin and he only has one cancer patient and he uses methadone instead. I asked why he does not prescribe and he said he is concerned about the addiction potential and that's why he uses methadone. Reviewed indication the limitation of use of intermezzo for patients suffering from middle the night insomnia.
PPLPMDL0020000001	Berea	OH	44017	10/2/2013	Saw dr. he said I still haven't written it yet before I said a word. I said written what? He said Butrans. I said Its ok...you may not have a ton of patients with ATC Pain on a nSAID not working...but when you do Butrans 5mcg. He said I'll keep it in mind and walked down the hall.
PPLPMDL0020000001	Alkron	OH	44309	10/2/2013	1. Determine if there's an issue with her email address because of undeliverable messages 2. Discuss feedback from last July program and thoughts for another program 3. Determine topics of interest for next program and timeline
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/2/2013	Spoke to the office manager about seeing the doctor, but she said no. Reviewed Butrans with the initiation slim jim- what it was (7 day transdermal pain patch) and it was a schedule 3 opioid, which means u it still can be abused however refills can be called in for ituntile OxyContin, which is a schedule 2 q12h product.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/3/2013	Good discussion about the insight 9 and his tights on the statistic? Dr said he understands it as most come from PCPs or internal medicine physicians and he gets how they continue to prescribe the IR opioids. Dr said that their knowledge of ER opioids is low and they don't feel comfortable prescribing because of that and pressure from the government. Dr said that its his job to adjust medicines that may be more appropriate for each individual patient. Dr said that he is continuing to switch patients to OxyContin because he finds great success with it and patients would like to be on and ER opioid even though they might not admit it. I reviewed case study and dr agreed. Dr said he is prescribing more Butrans recently and is really liking the results. Dr said he patients are responding to it from both tramadol and vicoden. I discussed case study profiles and dr said that's good information to know about how he can use it for multiple patient types. Reviewed copy cards and insurance.
PPLPMDL0020000001	Stow	OH	44224	10/3/2013	Led with insight 9 and asked him his thoughts. Dr said he agrees with the statistic mostly but said the 41% is a bit high for his own practice. I told him that I understand not all his hydrocodone/APAP patients are not appropriate for an ER opioid but that he may be missing some opportunities for some to be on an ER opioid. Dr agreed but has a small proportion of patients fitting that profile. Mi told him I will take that small percentage that have commercial insurance. Dr agreed that he can look at that small proportion of patients for ER opioids like Butrans or OxyContin. Reviewed profiles for each product and asked him to prescribe Butrans and OxyContin. Intermezzo indication and dosing.
PPLPMDL0020000001	Cleveland	OH	44195	10/3/2013	Left OxyContin info for Dr Parker-Chair, Ricchetti, Umeda.
PPLPMDL0020000001	Cleveland	OH	44195	10/3/2013	Visited main campus Ortho/Rheum dept<font color=blue><b>CHUDAKOB's query on 10/09/2013</b></font>What happened on this visit. It says you didn't leave any reprints. If all you did was show up and try to see someone, then this should not be recorded as a call. Make sense?<font color=green><b>GUTKOMA's response on 10/10/2013</b></font>FYI-Call notes are under CCF-Ortho/Rheum dept. heading , we can further discuss for more precise call recording. Thanks<font color=blue><b>CHUDAKOB added notes on 10/14/2013</b></font>Yep. You are correct here. My bad. In the main hospital call note, just put a notation as well to see individual
PPLPMDL0020000001	Barberton	OH	44203	10/3/2013	Spoke to Anne the f/o ma and she didn't know anything about Butrans. Went over the initiation guide and gave her the butrans managed care had out for the doctor and self to review. Discussed the commercial insured patients and the inclusion criteria of the naive study.<font color=blue><b>CHUDAKOB's query on 10/12/2013</b></font>What is an f/o ma? Please do not use abbreviations in call notes as some people who will read them will not know what the abbreviations mean.<font color=green><b>BARTOLI's response on 10/14/2013</b></font>Front office ma (medical assistant)<font color=blue><b>CHUDAKOB added notes on 10/15/2013</b></font>Thanks for the clarification. I guess that is why we don't use abbreviations.
PPLPMDL0020000001	Stow	OH	44224	10/3/2013	Reviewed case study for OxyContin in new approved piece and asked if she thought this was appropriate course of change of therapy and if she would do anything different? Dr said that she might actually start OxyContin sooner. I asked why and she said because there is no reason to keep the patient on Percocet for that long. I told dr I was glad to hear that and asked her to do that with any patients she currently had on Percocet that have been on it for 90 days or longer and still in pain. Dr agreed and said ok. I discussed the Scott profile for Butrans and asked her if she had any patients on tramadol around the clock for pain? Dr said a handful. I told her to reassess those patients for ER therapy with Butrans.
PPLPMDL0020000001	Independence	OH	44131	10/3/2013	gave dr the percocet conversion for oxycontin. dr said he uses oxycontin but would consider patients in need of a dose change on percocet. reviewed butrans clinical trial
PPLPMDL0020000001	Independence	OH	44131	10/3/2013	reminded dr of our lurch on monday and his commitment to consider butrans after tramadol. dr said he remembered but appreciated the reminder. showed dr the percocet to oxycontin conversion in the detail aid.
PPLPMDL0020000001	Independence	OH	44131	10/3/2013	gaved dr a reminder of butrans after tramadol and gave hydrocodone insight. dr said some patients are fine on hydrocodone for long periods, reminded the dr of intermezzo for motna
PPLPMDL0020000001	Mayfield Village	OH	44143	10/3/2013	Lunch, pain reduction insight,then BUP 3024, went over each page of trial, kristy says the 4.6 reduction is " big" went over dosing, titration, dosing slider. After data presented today, on efficacy& safety of Butrans, does that increase your comfort level with Butrans, yes, she replied. Next visit I'd like to review in depth this cancer pain profile, Joan. Notice her recommended start dose for controlled release OxyContin is 15 mg. that's 30 mg in 24 hour period. When you use our START principles & titrate there's a 25-50% increase in doses. Ok, sounds good.<font color=blue><b>CHUDAKOB's query on 10/12/2013</b></font>Why the cancer profile. Is she an oncologist nurse practitioner?<font color=green><b>BALLIE's response on 10/13/2013</b></font>She is not an oncologist nurse practitioner, yet the majority of her patients are geriatric. After presenting Joan profile, I planned on finding out if she refills OxyContin for cancer pain. Should the Joan profile be reserved only when detailing oncologists?<font color=blue><b>CHUDAKOB added notes on 10/14/2013</b></font>No, but I am guessing she is probably not treating a lot of cancer. If her patients are elderly, then most probably have osteoarthritis. You may want to ask about cancer patients they treat before spending a lot of time on this disease state.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/3/2013	Short conversation about insight 9 and asked him what his thoughts are? Dr said he knows patients are left on their IR opioids too long and said its the job of the specialist to ensure patients are on th best medicine for their pain. Dr said that he continues to see patients come to him on too high a dose of vicoden and Percocet. I asked what is too high? Dr said it depends on the patients and what they are being treated for. I asked where Butrans and OxyContin fit in? Dr said I know he uses OxyContin and Butrans and likes the both. I discussed the Butrans decision tree and asked what he does after the 10mcg Butrans if he won't titrate to the Butrans 20 mcg. Dr said it depends but will move to another ER opioid like OxyContin. I told him I'm fine with that. Nothing else learned.
PPLPMDL0020000001	Mayfield Village	OH	44143	10/3/2013	Lunch, pain insight, BUP 3024, went through trial, each page, pain reduction of 4.6 he says was good reduction.introduced new 15 mcg hr dose, making it clear the 15 & 20 mcg hr are TITRATION doses & not initiation doses. New dose should be available in a few weeks, started shipping out to wholesalers yesterday, dr, after presenting this safety & efficacy data, does this increase your comfort level with initiating Butrans for pain associated with conditions we discussed? Yes. How to titrate & dose using slider, for patients taking 80 mg more morphine or equivalent, that's your OxyContin patient. Next visit I'd like to discuss Joan cancer pain profile. Notice her suggested OxyContin dose is 15 mg q 12 h. Showed 7 doses on visual aid, START principles to assist you with conversion & titration. Remember the \$90 savings cards for your patients covered on commercial plans.
PPLPMDL0020000001	Cleveland	OH	44118	10/3/2013	Reviewed Butrans for those Tramadol failures requiring around the clock pain therapy with Michael, and Intermezzo for MOTNA/dosing, said he will review with Dr. Left Dosing titration guide
PPLPMDL0020000001	Independence	OH	44131	10/3/2013	showed roman the percot conversion page in the detail piece. passed through the window the butrans titration guide. he said the butrans coverage was bad and he had to leave.
PPLPMDL0020000001	Mayfield Village	OH	44143	10/3/2013	Lunch, pain reduction insight, then BUP 3024 4.6 pain reduction, went through each page clinical trial, focusing on inclusion criteria, and what conditions that may cause their pain. , yes, i've got a few patients on Butrans. That's great, a new 15 mcg hr dose was recently approved by FDA offering greater dosing flexibility. Started shipping to warehouses yesterday, should be available in a few weeks. Please note that the 15 mcg & 20 mcg hr are TITRATION doses, not initiation doses. For patients on greater than 80 mg morphine equivalent, Butrans not appropriate, that would be your controlled release OxyContin patient. Next visit I'd like to go over this cancer pain profile, Joan, & notice based on what she was taking previously, she would be initiated at 15 mg q 12 h. Ok, sounds good.
PPLPMDL0020000001	Lyndhurst	OH	44124	10/3/2013	Met with 2 med assts & office coordinator, let them know what I was leaving for Dr Reed, our START principles for controlled release OxyContin, and new piece for 1 x week pain patch, Butrans. Also new 15 mcg hr dose should be available in a few weeks. Left packet for dr Michelle Roda also: OxyContin formulary grids & PBM piece, conversion, titration guide, new Butrans piece with all 4 doses.<font color=blue><b>CHUDAKOB's query on 10/12/2013</b></font>Jenny, This call was made in quarter 4. Did you ask about reinstating lunches on this call since I already was quarter 4? Remember, asking about reinstating lunches is not a next call objective. A next call objective should be what you want to accomplish should you get in front of the physician.<font color=green><b>BALLIE's response on 10/13/2013</b></font>(you are correct, the first sentence of my next call objective was a reminder to ask about lunches & is not the appropriate next call objective). However, the next sentence states I want to discuss START principles, then pain reduction insight, Butrans with Dr Reed.<font color=blue><b>CHUDAKOB closed the query on 10/15/2013</b></font>
PPLPMDL0020000001	Tallmadge	OH	44278	10/3/2013	Spoke with the pharmacist about all products. Introduced the 15cg dose of Butrans, provided pharmacy fact sheet and NDC number for ordering. I asked him if he will order ad he said he will order it when he sees a prescription. Discussed appropriate starting dose and titration with steady state. OxyContin dosing, titration,and dosing flexibility. Ray said he has not seen any prescriptions recently with anything other than q12h.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/3/2013	Intermezzo indication and dosing. Ray has not seen any prescriptions.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/3/2013	Led with insight 9 and asked him his thoughts? Dr said he understands how patients remain on IR opioids because of cost,the family dr continuing to prescribe them, or being scared to take a medicine like OxyContin. I asked him to continue to prescribe Butrans and OxyContin as his go to ER opioids and to continue to expand their use. I reviewed the new Butrans hydrocodone combination case study and OxyContin case study. Dr said he agrees with them but would have started the Percocet patient on OxyContin much earlier. Reviewed dosing and titration and asked for his continued commitment. Dr agreed.

	Lyndhurst	OH	44124	10/3/2013	Quick window call, Butrans pain reduction opioid naive, 4.6. Dosing, titration, new 15 mcg hr titration dose available, in a few weeks, the 15 & 20 mcg hr are TITRATION doses only. She was walking out of office to have dinner to celebrate her birthday which is Fri 10/4. Left packet for Patrica Moran, CNP, Intermezzo reassessment brochure, Butrans new piece.<font color=blue><b>CHUDAKOB's query on 10/12/2013</b></font>Jenny, your call notes cannot be just words. They should be complete sentences that tell us what happened on the call. They should include words such as "I said" and the Dr. said". Putting things such as she is celebrating her birthday is not part of the sales call. These types of statements are really not necessary in the call notes.<font color=green><b>BALLU's response on 10/13/2013</b></font>I will try to be more complete on future call notes. As far as the birthday mention, while I realize it's not a necessary element of the call note, it's for my knowledge, so I can insert into my calendar, as I keep track of my customers' birthdays.<font color=blue><b>CHUDAKOB added notes on 10/14/2013</b></font>Ok. Thanks. That is a good idea, but still probably should not be included in the call note. The call note should relate to the call. Just put the birthday right in our calendar in the car.
PPLPMDL0020000001	Mayfield Village	OH	44143	10/3/2013	Reminded dr of previous visits & conversation. Pain reduction insight BUP 3024 trial, 4.6 reduction pain. He stated good pain reduction. I have a patient on Butrans said dr. In the nursing home, I asked? Dr A replied. Yes, Butrans in nursing home. how is patient doing? so far so good dr says, i will see them soon. well that's great, but i also want to address patients outside of the nursing home. i will have to think about that says dr azar. left copy both clinical studies, sliding doser. lets further discuss safety & efficacy next visit. (says patient told by nursing home, that they can only be on Butrans temporarily & patient will have to start paying for Butrans & its too expensive) then transitioned to OxyContin. He again, mentioned oxycodone. He says I'm already using oxycodone. That's same molecule as OxyContin However it is not my product, its short acting. I promote branded, controlled release OxyContin q 12 h dosing, showed him 7 doses on visual aid. Next visit I'd like to discuss Joan, cancer pain patient, who is appropriate candidate for OxyContin 15 mg.
PPLPMDL0020000001	University Hts	OH	44118	10/3/2013	Discussed Butrans and the Scott profile, Dr. agreed he sees patients like this and will consider. Reviewed Medco/ESI formulary status . OxyContin Q12h flexible dosing strengths and Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44195	10/3/2013	Visited Dept. spoke with Renee, left Butrans/OxyContin info for Chatterjee,Calabrese,Deal, fellows and nurse education room. Katherine Tuthill CNP, Tiffany Clark, Betsy Kirchner
PPLPMDL0020000001	Parma	OH	44134	10/3/2013	asked rita to order butrans 15 and she said they do not do much volume but she will order when she gets a script. reviewed clinical trials. reviewed oxycontin start principle. discussed intermezzo indicatin and limitation of use
PPLPMDL0020000001	Cleveland Hts	OH	44118	10/3/2013	Reviewed Butrans 15mcg/hr dose with Floater Jenifer, OxyContin Q12h flexible dosing strethens . Intermezzo for MOTNA/Dosing
PPLPMDL0020000001	Mayfield Village	OH	44040	10/3/2013	First met with tech Patricia, then Pharm Steven. Introduced new 15 mcg hr dose. Left NDC PPI booklet, & Butrans pharmacist guide. Steven said he got a new Butrans from dr Laham, too busy to look up dose. They will NOT pre order a box, they will wait until they get their first Rx.
PPLPMDL0020000001	Cleveland Hts	OH	44118	10/3/2013	Review Butrans Medco/ESI formulary status for those Tramadol failures requiring around the clock pain management
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/3/2013	Reintroduced Butrans and asked him what his thoughts are on prescribing a schedule 3 ER opioid? Dr said he remembers Butrans and has not used it. I asked him if he has patient on tramadol around the clock? Dr said he has a few. Reviewed the Scott profile and asked him if it makes sense to use it in a patient like Scott's. dr said it does he just needs to find the patient. I asked him to do that and allow the product speak for itself. I told him that next time I will review some of the efficacy and safety if Butrans.
PPLPMDL0020000001	Cleveland Hts	OH	44118	10/3/2013	Quick OxyContin Q12h flexible dosing strengths with broad formulary coverage. Butrans preferred Cigna formulary status for those Tramadol failures requiring around the clock pain control
PPLPMDL0020000001	Akron	OH	44333	10/3/2013	Dr told me that he is having probers finding patients for Butrans and is having no issues with finding ones for OxyContin. I asked who he believes is appropriate for Butrans? Dr said he's not sure and said he thinks patients talking too much vicođen. I showed dr the Scott and nancy profiles. I explained that when he has a patient on tramadol around the clock who is still in pain and needs a dose adjustment, Butrans would be suitable. I asked if he understands and he said yes. I reviewed the new profile on vicođen and showed how a patient on 20mg of vicođen would approximately initiate on the 10mcg patch. Dr said he understands now. Dr said he has been moving patients from Percocet to OxyContin and patients are happy. intermezzo dosing and indication and asked for him to look for patients.
PPLPMDL0020000001	Barberton	OH	44203	10/3/2013	Spoke to the doctor today Dr cussed OxyContin first: She said oh yes, I've use it. When she asked if there was anything new about it...I showed her the 7 different strengths and stressed the re-assessment and Tailoring aspect of the start principles from the core aid. Dr. shook head. Asked her about her experience with Butrans so far and she said she had not found the right patient yet. I asked who she thought that might be and she replied with a patient needing chronic pain relief after a short acting opioid has failed. I asked her if she would ever consider using the Butrans 5mcg after a NSAID patient failed? She said she never thought about that. I went over the Naive study...used the pain reduction scale as a visual and the open label segment of the study. Discussed the 30% pain reduction insight and she said she was impressed that Butrans was that high. When we discussed the inclusion criteria the doctor said she see's many patients like this. Reviewed- how long to wear the patch, managed care and the Nurse (michelle) asked about rash a/e/s which I opened the core visual aid and showed it to her and she said thats not bad. Nurse asked about Managed Care and went over both oxycontin and Butrans Savings program.
PPLPMDL0020000001	Mayfield Village	OH	44143	10/3/2013	Lunch, pain reduction insight, BUP 3024, went through each page, he thought 4.6 pain reduction was impressive. Only CIII opioid with transdermal delivery system, greater dosing flexibility now with new 15 mcg hr dose, which started shipping to wholesaler's yesterday, & should be available in a few weeks. Left him Maria patient profile, after presenting as opioid naive patient. Then, patient profile Joan. After going through profile, I'd like you to consider for a cancer patient like Joan. Her recommended start dose is 15 mg, and since q 12 h dosing, that would mean 30 mg in 24 hour period. Ok, I will consider, showed all 7 doses on visual aid, then START principles.
PPLPMDL0020000001	Barberton	OH	44203	10/3/2013	Spoke to the office manager today about seeing the Dr. but he was not available. Scheduled a lunch and discussed Butrans. She knew nothing about the product, she also handles the prior auths for the office (of Appl). I reviewed the managed care plan for Butrans and OxyContin. Discussed that Butrans is a 7 days transdermal patch system of buprenorphine. 4 patches for the month. Reviewed it was a product that could be faxed in or hand delivered because it was schedule 3 and could do refills. Discussed abuse potential. Gave David profile to give to dr. Patel and also the conversion guide of OxyContin.<font color=blue><b>CHUDAKOB's query on 10/12/2013</b></font>Your next call objective says "Find out more about practice." What more would you like to find out about the practice that will help you move sales in this office?<font color=green><b>BARTOLI's response on 10/14/2013</b></font>Find out what he does at is practice vs at the hospital. Find out what type of his pain patients he sees in his practice. Find out why he picks Butrans and for which types of patients.<font color=blue><b>CHUDAKOB added notes on 10/15/2013</b></font>I see. That is certainly a little more specific. Thank you!
PPLPMDL0020000001	University Heights	OH	44121	10/3/2013	Dr price says I'm really busy today, understood I will be quick. My main purpose today is to talk about cancer pain, a specific patient profile, Joan, this cancer pain patient should be started on OxyContin 15 mg, & remember, that's 30 mg in 24 hr period. Please individualize the dose for each patient, and consider starting on lower doses. Ok, he responded. For my 1 x week CIII pain patch Butrans, new 15 mcg hr Dose, for further dosing flexibility, should be available at pharmacies in next few weeks. Left dosing slider. He then walked into patient room.
PPLPMDL0020000001	Cleveland Hts	OH	44118	10/3/2013	Reviewed new Butrans 15mcg/hr dose with RPh, saw a RX last week from Dr. Harris PA, OxyContin Q12h and Intermezzof for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44143	10/3/2013	Met with medical assistant, let them know that new 15 mcg hr dose of Butrans started shipping to wholesaler's yesterday, & should be available at pharmacies in a few weeks. Left Dr S new piece & told his staff to have dr call me if he'd like me to come in for an in service on Butrans. Also let them know I have branded, controlled release OxyContin with q 12 h dosing, 7 doses available.
PPLPMDL0020000001	Beachwood	OH	44122	10/3/2013	reviewed oxycontin conversion of percocet in detail piece using the start principle. gave 30% decrease insight and she said that sounds like the kind of results she sees. gave indication and limitation of use for patients with
PPLPMDL0020000001	Beachwood	OH	44122	10/3/2013	dr said he is using oxycontin when he is able to write. he asked has anything changed for managed care and i said no. dr asked about butrans and it's approval on workers comp and i explained that i had a conversation with vicki but the crux of it is there are several workers comp plans and butrans is approved on a lot of the plans but i can not say all of the plans are approved. gave indication and limitation of use for intermezzo
PPLPMDL0020000001	Akron	OH	44305	10/4/2013	Spoke to bob the floater pharmacist about products. Introduced Butrans 15mcg dose and how to initiate and titrate the product. Bob said he had seen a few prescriptions and will order the 15mcg. OxyContin dosing and titration and reviewed appropriate patients.
PPLPMDL0020000001	Cleveland	OH	44113	10/4/2013	Reviewed OxyContin Q12h flexible dosing with Justin, Butrans 15mcg/hr strength, Will recommend if appropriate patient presents
PPLPMDL0020000001	Cleveland	OH	44113	10/4/2013	Reviewed OxyContin Q12h flexible dosing strengths along with Broad formulary coverage, Also Butrans for those patient requiring around the clock pain therapy. Said OK and will keep finding new appropriate patients
PPLPMDL0020000001	Cleveland	OH	44195	10/4/2013	MSL and Dr. Eduardo Rodenas met with Dr. Dell and Ms. Riley to discuss OTR3001. Dr. Dell agreed to meet with potential OTR PIs in pediatric surgery, anesthesia, and hematology/oncology by the end of the year. Site is proceeding with BUP PI change to Dr. Steven Spalding.
PPLPMDL0020000001	Cleveland	OH	44109	10/4/2013	Visited Anes./Pain dept. Sue-Fellows coordinator, left Butrans/OxyContin info for fellows.
PPLPMDL0020000001	Cleveland	OH	44109	10/4/2013	Visited Anes./Pain Dept Sue-Fellows OxyContin/Butrans info
PPLPMDL0020000001	Akron	OH	44312	10/4/2013	Spsr to,d me he is way behind and had time for one point on Butrans. I told dr to start a patient today on it who you see on any IR opioid like tramadol or vicođen who is on it around the clock who need a dose adjustment. I showed him the Scott profile and told him to use it to find the right patient. Dr said ok. I told him to use the copy cards for the commercial patients only. Dr said he will try to use more.
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/4/2013	I made a drop in visit and met with , DON, Pam Riter,I introduced myself and Purdie's nurse educator program. Pam stated ,yes I remember talking with you at the PharMerica conference. " She was not able to sit down with me today ,an appointment was set for Friday, October 11 at 1 PM to discuss educational opportunities
PPLPMDL0020000001	Cleveland	OH	44113	10/4/2013	Presented Scott profile,Dr. agreed he had similar patients, Reviewed Butrans Initiation/Titration guide, MedCo/ESI formulary status. Dr.along with Judy said he will consider. OxyContin Q12h flexible dosing strengths with broad formulary coverage. Intermezzo For MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44312	10/4/2013	Good conversation gate leading with insight 9. Dr said that he agrees that patients are kept on their IR opioids too long. I asked what he thinks needs to be done? Dr said he isn't sure other than stop prescribing IR opioids like vicođen for patients that don't have acute pain. Dr said that he tries to not keep patients on their IR opioid longer than three months. Dr said he will then either refer to pain management or start an ER opioid. I explained,aimed how Butrans can be a solution for his patients that are not acute in nature and are ready for a dose adjustment on their IR opioid. Dr agreed and said he will give it a try. Reviewed all key selling messages.
PPLPMDL0020000001	Akron	OH	44312	10/4/2013	OxyContin dosing, titration and conversions from Percocet. Insurance and copy cards for all products. Intermezzo dosing, indications and asked if he will prescribe? Dr said he will look into using it.
PPLPMDL0020000001	Akron	OH	44312	10/4/2013	Of with insight number 9 and asked dr his thoughts? Dr said there are many different subsets of patients and he said that the acute pain or occasional use of IR opioids is a different situation. Dr said that those patients with chronic conditions are left on their IR opioids way too long and he knows that he is guilty of that. I reviewed all key selling messages for Butrans, patient profiles and initiation and titration guide and asked him if he will prescribe again? Dr said after I told him about Caresource pa that he has already thought of a few patients for Butrans. I told him good and to make sure the Pa form is filled out and faxed. OxyContin disingenuous titration, insurance, conversions and asked for him to convert patients on Percocet needing dose adjustment. Intermezzo indication and dosing.
PPLPMDL0020000001	Akron	OH	44312	10/4/2013	Led with insight 9 and asked his opinion. Dr said that he understands how patios are left on their ir opioid and most is cost. I explained how Butrans may be an option that can be cost effective for patients with commercial insurance and discussed all key selling messages. Dr said he sees how it can fit in his practice and will give it a shot. OxyContin dosing, titration and conversions. Intermezzo indication, dosing and limitations of use.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/4/2013	Controlled release OxyContin,q 12 h dosing, START principles, conversion titration guide. Lunch, dr couldn't figure out what pain threshold Butrans treats. Used dosing slider. Then BUP 3024, pain reduction insight, patient like Maria. I think he's a little more clear. Butrans he was rushed today, & I know there's something holding him back. Also concerned with coverage. Updated him on Med D preferred plans, Med ass t KIM has the commercial formulary grid. Ok he said, started walking out of room.
PPLPMDL0020000001	Richmond Hts	OH	44143	10/4/2013	Lunch. I had mentioned Butrans briefly 1 x before & today she asked if Butrans is new product? I told dr it came out in 2010. Pain reduction insight, BUP 3024, went through each page of trial. She was concerned with cost, & asked if covered on Medicaid. It may require prior auth. is this narcotic? Yes it's controlled CII opioid which can be called in with up to 5 refills. Concern about skin irritation & another patch she used in the patch. We don't have head to head study comparing Butrans to any other patches, so I can only provide you with skin reaction data in our clinical trials. After showing data, she wasn't very concerned about skin irritation. Did share Medicare Part D updates, left flashcard.( next time bring dosing slider) CIII , can be called in with refills. She says she will try. Let her know trial, savings cards in sample cabinet. For controlled real ease OxyContin she uses in nursing home. Showed her START principles & conversion & titration guide. She says, oh, I need this! The conversion from IR oxycodone & Percocet would very helpful to her she says.
PPLPMDL0020000001	Akron	OH	44312	10/4/2013	Took a few minutes to review the new patient Maggie and asked him what his thoughts? Dr said it makes sense to titrate the per cost but said he would have either stated OxyContin or referred to pain management when she reached 40mg of Percocet. I agreed that he should start OxyContin earlier and it would be appropriate. Asked dr to continue using which he agreed. I asked dr if he has anyone he is seeing today that is taking vicođen around the clock? Dr said probably. I asked him before he refills or adjusts the dose to consider Butrans and initiate according to the conversion chart. Dr said ok.
PPLPMDL0020000001					

	Mayfield Heights	OH	44124	10/4/2013	Pain reduction insight, Butrans opioid naive trial, went brought each page, Butrans interrupted me & asked, is it covered. Yes, I will bring you & Kim formulary grids, & your Medco/ express scripts & Cigna Medicare D patients, can access Butrans at preferred tier. Ok, continued. Maria profile, for those patients like Maria & who have conditions causing them pain as discussed in our inclusion criteria, will you consider initiating Butrans? Yes, I've used other transdermal patches previously. Great. Remember the 15 & 20 mcg hr are titration doses, not initiation doses. For patients on 80 mg of morphine or equivalent, that's your controlled release OxyContin patient. What has your experience been with branded OxyContin. I have a few patients on OxyContin. So you're comfortable initiating? Yes, I'd like you to consider for cancer pain patients like Joan here. START principles to assist you with conversion & titration. Please note updates to FPI section 9.2, inclusion of abuse deterrent studies. Had to get back to patients. Went over all the above with medical assistant Kim, told her I'd bring in trial, savings cards. Left her with managed care grid (med d) Butrans need to BRING in COMMERCIAL FORMULARY GRID) also detailed Intermezzo. They have only a handful or less of CARESOURCE patients, so Intermezzo not accessible to majority of Lunch, dr v never comes back, asked her ma if she would ask dr to stop back & she did! Controlled release OxyContin, CII branded with q 12 h dosing, showed her all 7 doses. Consider using in cancer pain patients. She will consider. Butrans is new to her. Pain reduction insight, BUP 3024. Went through each page of study, the 4.6 pain reduction score was impressive to her. Discussed proper patient selection, titration & dosing. Used dosing slider. 15 mcg her new dose should be avail at pharmacies in a few weeks. I'd like you to consider for a patient like Maria. She says she will look over my info & will consider. Next time, I'd like to share efficacy & safety data from our opioid experienced trial. She thanked me for info& had to get back to patients.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/4/2013	Dr told me that he went to prescribe Butrans the other day but couldn't find a copy card. I told him I know where they are and showed him. Dr said he kept the patient on vicoden but decreased the amount of pills per day. Dr said patient will be coming back for follow up appointment in a couple of weeks and will start Butrans. I reviewed the dosing, titration, insurance and patient type profiles. Reviewed the inclusion and exclusion criteria for Butrans and dr said he will continue to find the right patients.
PPLPMDL0020000001	Lyndhurst	OH	44121	10/4/2013	Spoke with tech first, then pharmacists Lisa & Megan. New 15 mcg. Hr dose of Butrans. They have only a few patients on Butrans so Lisa says they'll wait. Stop back in, talk to pharm mgr Mike. Left Butrans pharmacists guide, NDC & FPI brochure. OxyContin, left pharmacists guide, q 12 h recommend dosing, 7 doses.
PPLPMDL0020000001	Cleveland	OH	44113	10/4/2013	Reviewed Butrans MedCo/ESI formulary status for those Tramadol failures requiring around the clock pain therapy, Dr. said he will consider. OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Confirmed appt
PPLPMDL0020000001	Cleveland	OH	44113	10/4/2013	Reviewed OxyContin Q12h flexible dosing strengths along with Broad formulary coverage, Also Butrans Medco/ESI formulary status for those patient requiring around the clock pain therapy. Said OK
PPLPMDL0020000001	Cleveland	OH	44113	10/4/2013	Talked with Dr. VanAukens nurse (Barb) review OxyContin Q12h flexible dosing strengths along with Butrans MedCo/ESI formulary status, said she will relay info and to stop back next week for more time
PPLPMDL0020000001	Fairview Park	OH	44126	10/7/2013	Informed the office manager about the Butrans 7 day transdermal patch and gave her the managed care updates for bithoxycontin and Butrans. Left my card and the opioid naive study behind for the dr to review.
PPLPMDL0020000001	Berea	OH	44017	10/7/2013	One thing to point out today (opener). Showed the Maria patient profile- when I identify a NSAID patient w/ a pain needing a change of medication. This is how you start them...5mcg and u have to wait a min of 3 days before titration to the 10mcg. Asked if he had any questions. answer no. How many butrans savings cards will u be needing this week? Dr said he didn't know and to leave them in the cabinet.
PPLPMDL0020000001	Berea	OH	44017	10/7/2013	Saw dr. One point reminder- with in your current patients...those with atc pain on NSAIDs that need something different for their control, you have Butrans 5mcg. Gave him Maria profiler and said this was a good example of a patient type, and it shows you how they start on the 5mcg. Does this sound reasonable? Reminded him he said he would find 2 patients to get Butrans experience. Dr said got it.
PPLPMDL0020000001	akron	OH	44333	10/7/2013	Told dr that he needs to start using more Butrans, even if they are in Manor Care. Dr said he probably will start using them first. I asked why and he told me that those patients tend to be more chronic and thinks a patch for 1 week would be something they would like. I told dr that he must have patients meeting the Butrans indication in his practice on tramadol around the clock and to trial it there as well. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44195	10/7/2013	Visited Dept. obtained tentative program date with fellows (Ankit/Kathy) Verified new NP Carrie Knaus. Info for fellows and requested appt. with staff clinicians
PPLPMDL0020000001	Cleveland	OH	44195	10/7/2013	Visited Anes./Pain dept
PPLPMDL0020000001	Fairlawn	OH	44333	10/7/2013	Spoke to pharmacists Gilbert and Jessica about McKesson getting Butrans 15mcg in their warehouse? Gilbert looked at their stocking and said they have received qty 20 of the Butrans 15mcg. I asked if he is ordering it to have in stock and he said he went until he sees a Rx and will have it next day. I told him that there will be a demand for it in his area and to order. Gilbert said he is going to wait.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/7/2013	Spoke with Glenn the staff pharmacist for the pain center and discussed the Butrans 15mcg dose. Glenn said he knows they will use it. I told him I have gone to almost all the pharmacies in the area to discuss it with them as well. I asked Glenn about getting Butrans on formulary in the hospital and how I can get that done. Glenn said because it's an ER opioid it wouldn't make sense to have on formulary. Glenn said drs will Rx short acting opioids for in patients. Glenn said that if a dr needs to Rx it for the patient in the hospital they can get it at New Choice pharmacy.
PPLPMDL0020000001	Akron	OH	44308	10/7/2013	Per request from Summacare (and submitted via the Regional Account Executive), emailed a copy of the FACETS modules "Science and Nature of Pain" and "Communicating ..." for review and comment. If approved, MSL will present as a non-accredited program for case managers.
PPLPMDL0020000001	Akron	OH	44308	10/7/2013	Per request from Regional Account Executive, emailed a copy of the Tele-Assessment flyer to Olivia Bitter at Summacare.
PPLPMDL0020000001	Cleveland	OH	44195	10/7/2013	Butrans overview, 7 day transdermal, for around the clock therapy. Co-chief with Ankit- Obtained Nov 12th for program date
PPLPMDL0020000001	Akron	OH	44333	10/7/2013	Quick message over front counter and told her to continue writing Butrans for her patients needing a dose adjustment on tramadol. I asked her if she has patients on tramadol around the clock she refills for? She said yes.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/7/2013	Lots of them. I told her to consider Butrans where appropriate.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/7/2013	Short staffed, couldn't check stocking. Spoke with tech & pharm mgr Shirisha in today. Introduced Butrans 15 mcg hr to them, left Butrans pharmacy guide & NDC FPI brochure.
PPLPMDL0020000001	Cleveland	OH	44122	10/7/2013	I placed a call to staff Development/Cordinator, Francine Young to confirm the pain in service scheduled for the STNA's tomorrow 10/08 at 2 PM. There was no answer, I left a message on her voicemail.
PPLPMDL0020000001	Akron	OH	44333	10/7/2013	Dr asked me if there are oxy on tin copay cards? I told him there are and i have reviewed them with him in the past. Gave dr the cards and reviewed again. I asked him where he is primarily using OxyContin? Dr told me that his goal is to get as many patients on ER products sooner. Dr said he likes ocycontin because it works, hasn't had too many issues with insurance and likes the q12. I showed him the conversions and requested him to use it for patients on lower doses of Percocet. Dr agreed. Butrans review of patient types and titration.
PPLPMDL0020000001	South Euclid	OH	44121	10/7/2013	Met with med asst Tracy. Dr too behind to come up front. Left Intermezzo patient profiles, with Intermezzo you can match MOTN insomnia sleep patterns due to As needed dosing indication. Butrans, 1 x week CIII pain patch, can be called in with refills. New 15 mcg hr titration dose available soon in pharmacy. Left BUP 3024, pain reduction score, would like dr to look over so I can discuss w her next visit. OxyContin, left conversion titration guide.
PPLPMDL0020000001	South Euclid	OH	44121	10/7/2013	Met with Kathy first, went over info I was leaving, all 3 product indications. Dr Flagg too busy to cone up to window. Met next with med asst Jen K. Updated OxyContin med d & commercial access. Conversion/ titration guide, START principles. Butrans, 1 x week CIII pain patch. New titration dose of 15 mcg hr will be avail soon in pharmacies. Will update them when I see them at lunch in Concord. Left dosing slider. Intermezzo, for MOTN insomnia patients, can match sleep patterns due to As needed dosing indication. Left patient profiles piece.
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/7/2013	Follow up from last time- said last time I was in We spoke about those uncontrolled NSAID patients, making Butrans their first opioid w atc pain. Have u had any opportunities to give out the coupons? He said he wrote Butrans...I said how's the patient? He said he will see them in a month. Review the titration and savings program.
PPLPMDL0020000001	University Heights	OH	44121	10/7/2013	Lunch, OxyContin cancer pain patient profile, Joan, focused on Joan being initiated on OxyContin 15 mg q 12 h, consider START principles for cancer pain & non cancer pain patients. Went over START principles & all 7 doses. From FPI Reviewed that average dose of controlled release OxyContin in cancer pain is 105 mg. Consider this. For example dr price if you hypothetically started a cancer pain patient pain at 60 mg, q 12 h, that's 120 mg in a 24 hour period. So you may want to look at lower doses, and as START principles say, continue to re assess & individualize the dose, with a titration possible every 1-2 days based on steady state. I'd like to transition & share some data from recently published medical literature: pain reduction insight. I'm sharing thx because it relates to pain reduction scores I'm going to Share for Butrans. Went over BUP 3024.shared each page of study. Dr agreed the 4.6 reduction was important. After reviewing this data, is there anything holding you back from writing? No. Went over how to write, 1 x week patch ( he didn't remember Butrans is worn for 7 days) 4 patches a month. He says he will initiate in the nursing home, he says patients want their pills. A patch is a hard sell. Well dr price, you must be confident & you must control the patients therapy. Nursing home great place to start, also consider for patients who have trouble swallowing pills or allergic to aspirin, ok, he responded.
PPLPMDL0020000001	South Euclid	OH	44121	10/7/2013	Spoke with both nurses Ann & Rita. Able to match MOTN insomnia patient sleep patterns with Intermezzo. Left newest patient profile booklets for both Drs Tomm & Locke. Let nurses know Butrans has new 15 mcg hr titration dose, which will ship soon to area pharmacist. Left new dosing sliders & initiation titration guide for each dr. OxyContin controlled release, CII, START principles, left conversion titration guide both Drs.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/7/2013	Met with pharm mgr PharmD Jessica Brick. Introduced new Butrans 15 mcg hr. They only have a few customers on Butrans, she cannot justify pre ordering even 1 box. left Butrans pharmacists guide, NDC & FPI. I responded, well when you get your first 15 mcg hr Rx, now you have NDC code readily avail. Left OxyContinpharmacists guide, discussed resources avail such as RX patrol. Q 12 h dosing, 7 doses with 25-50 % increase between doses. Intermezzo, left pharmacists guide. Sublingual tablet, As needed dosing indication, for MOTN awakening insomnia patients.
PPLPMDL0020000001	Cleveland	OH	44195	10/7/2013	Reviewed OxyContin Q12h flexible dosing strengths along with broad ins. coverage, Butrans for those patients requiring around the clock analgesic. Recvd date from Kathy- Co-chief for dinner program. Ankit will finishing up Fellowship in Dec
PPLPMDL0020000001	Rocky River	OH	44116	10/7/2013	Discussed Butrans and the stocking of the 15mcg. Discussed 7 day transdermal patch and abuse potential and dosages. Discussed w the tech where to place patch and how to discard the patch.
PPLPMDL0020000001	Garfield Hts	OH	44125	10/7/2013	Confirmed upcoming appt. Intro. new Butrans 15mcg/hr dose, Reminded of MedCo/ESI formulary status and OxyContin Q12h dosing with Broad Formulary coverage
PPLPMDL0020000001	Garfield Hts	OH	44125	10/7/2013	Reviewed OxyContin Q12h flexible dosing with broad formulary coverage. Butrans- 7 day transdermal, when continuous around the clock opioid analgesic is needed. Dr. said he will consider
PPLPMDL0020000001	Akron	OH	44333	10/7/2013	I asked dr if I can have a minute with him to discuss new information about Butrans. Dr said not really and that he is needing to cancel my lunch scheduled with him this Friday because he will be out of town. I told him I need a minute then since he cancelled my lunch. Dr said he doesn't have time but I told him anyway that he needs to be using more Butrans for those patients he is continuing to refill on tramadol and vicoden when they need a dose adjustment. Dr said he is doing that. I told him there has to be more opportunity! Dr said ok and he promises he will speak with me two weeks from today.
PPLPMDL0020000001	East Cleveland	OH	44112	10/7/2013	Review with Latoya-OxyContin Q12h flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia. said Brain-NP on vacation this week, but will see if I can get appt with him
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/7/2013	Denise Guinto, nurse, office coordinator asked dr yap if he could speak with me, he apologized, he had 2 patients waiting, Mon not good day. Left OxyContin PBM piece & formulary grids. Left new Butrans piece, all 4 doses, new sliding doser. Left same for Dr Dewis ( in Mondays) dr Laham ( day off Mon) dr Leizman, CNP Gina Savoca (WED Sa-12n). Went over Butrans updates Medicare D with Denise. Made her aware of new 15 mcg hr Butrans dose, avail pharmacies soon, a week or so, Denise stated: that's great, that dose is needed. She says also, NO SAMPLING POLICY due to Cleve Clinic, Dr Laham is only HCP in practice that takes OTC samples. Denise says TUES or WED best days to see HCP.
PPLPMDL0020000001	Westlake	OH	44145	10/8/2013	Spoke to rn about Butrans. Review of efficacy data from the naive study and reviewed the 30 percent t I sight asked if she felt that sounded like good results? She said yes. Discussed appropriate patient types like Maria. And how to start and where to apply the patch. Rn asked about coverage. Discussed both products OxyContin and Butrans coverage.
PPLPMDL0020000001	Uniontown	OH	44685	10/8/2013	Spoke with Rachel the receptionist. Found out the dr is now part of the VPA which is visiting physicians association. Dr has no office hours. Left OxyContin and Butrans information.
PPLPMDL0020000001	Uniontown	OH	44685	10/8/2013	Dr is part of the visiting physicians association. Left information with Rachel the receptionist for OxyContin and Butrans.
PPLPMDL0020000001	Westlake	OH	44145	10/8/2013	Hallway discussion. One take away- 30 percent insight. Butrans has shown 7.2 to 2.6 pain reduction. So why wouldn't you use Butrans? He smiled and walked away.
PPLPMDL0020000001	Uniontown	OH	44685	10/8/2013	Quick call with dr because she said she was already behind. Told her about patients appropriate for OxyContin. Reviewed Maggie quickly and asked her if it makes sense? Dr said yes. Reviewed Butrans patient types and how she may have patients appropriate for the product. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	10/8/2013	Spoke to Claudia about Butrans. She remembered some of my talking points from last time...reviewed w her the 7 day patch and it was opioid schedule 3 that could be refilled. Left managed care cards behind.

PPLPMDL0020000001	Beachwood	OH	44122	10/8/2013	I made a drop-in visit to meet w/ Nurse Educator, Merri Bunge to talk w/ her about re-scheduling the pain management in-service. I spoke w/ the receptionist, Caroli, who informed me that an appointment is needed. I left Purdue Nurse educator pamphlet along w/ my BC.
PPLPMDL0020000001	Cleveland	OH	44109	10/8/2013	Visited PMR and Internal Med. Left info and requested appt
	Uniontown	OH	44685	10/8/2013	Spoke with Kim the pharmacist about all products. Introduced the new 15mcg dose and asked her if she would find out if her wholesaler has it in stock. Kim said that they now use Cardinal Health and they do have it. I asked if she would order it and she said no. She said she will wait to see a Rx because they now only have two patients and they are both on the 10mcg. Discussed the OxyContin dosing and asked her how much they see. She said they don't dispense much but she knows that Davies does in north canton. Kim told me about the new OAHRS update where it will show them how much total daily dose of morphing equivalent the patient is taking so prior to filling a narcotic they already how much narcotic the patient is taking. Intermezzo dosing and indication. Kim said she has not seen any.
PPLPMDL0020000001	Independence	OH	44131	10/8/2013	Gave Dr. hallway detail and reminders Butrans after tramadol. Reminder Dr. of OxyContin conversion from Percocet. Discussed patient with middle the night awakenings and Intermezzo.
PPLPMDL0020000001	Westlake	OH	44145	10/8/2013	Spoke to rn about Butrans. Asked her if she new what Butrans was and she said no. Reviewed indication, scheduled and starting dose and asked her if the dr ever writes tramadol? She said yes. I explained that Tramadol is an opioid and can be taken prn for patients that may require atc pain therapy. I said Butrans is schedule 3, refill opioid that is a different delivery system than the other schedule 3's and I explained the 4 patches a month single entity. She asked managed care, and I told her about the commercial savings program.
PPLPMDL0020000001	Westlake	OH	44145	10/8/2013	Spike to the ma and she said dr writes very little opioid for chronic pain. I asked how he treats his osteoarthritis patients? She did not no the answer. Left her Maria profile to review and give to the doctor
PPLPMDL0020000001	Akron	OH	44312	10/8/2013	Good conversation with dr about all products. Led with the insight about hydrocodone and asked him his thoughts on the 41%? Dr said that he doesn't see too much in his practice with that because he said he moves to ER opioids after his patients need more than 2-3 IR opioids. Dr said he can understand though how it happens because its easier to refill the IR and cost is much cheaper. Hit all key selling messages for Butrans and OxyContin. I asked dr to tell me about his patients on Butrans. Dr never gave me any specifics but said that the patients he has used it on Butrans is working great. Dr asked about the incidence of constipation because dr said he hears a lot about that coming from the short acting opioids. I showed him the AE profile from the main visaid and allowed him to read it. Dr said it answered his questions. I asked dr if he will use it more for his tramadol and vicoden patients needing a dose adjustment? Dr agreed he would. Reviewed copy cards and insurance for Butrans and OxyContin. Reviewed OxyContin conversion and titration guide. Intermezzo dosing and indication.
PPLPMDL0020000001	Cleveland	OH	44109	10/8/2013	Visited PMR- Requested appt with Vanessa- Harris-Admin, New doc A. Morton and NP Angela Douglas. Left Butrans Kathy profile, Dosing/Titration
PPLPMDL0020000001	Highland Heights	OH	44143	10/8/2013	Met with office coordinator first. Updated her on MedicareD preferred status for Butrans. Then we went over med & commercial grid for OxyContin. Reminded her commercial pay patients will pay first \$25 out of pocket, with savings card for branded, controlled release OxyContin. Dr Salama, I had to detail across window to hallway: 2 quick things: Start principles in OxyContin conversion titration guide to assist you; Butrans now preferred Medicare Part D Medco, Express Scripts, Cigna. We dose out in a few weeks. He then waved good bye & entered next room.<font color=blue><b>CHUDAKOB's query on 10/17/2013</b></font>jenny, why is he an OxyContin core?<font color=green><b>BALJIE's response on 10/18/2013</b></font>He should not be an OxyContin core. Thanks for pointing that out. Since I share him with Marcia & she already had him marked as a Butrans core, I was trying to fit him in to call list. I swapped him with another HCP, and for now he's marked as Butrans super core. Bottom line is, he doesn't want to discuss OxyContin & has stated he's not starting any new patients on OxyContin, and I'm going o respect his wishes, and focus majority of detailing on Butrans.<font color=blue><b>CHUDAKOB added notes on 10/21/2013</b></font>Good idea.
PPLPMDL0020000001	Cleveland	OH	44114	10/8/2013	Butrans reminder for those patients requiring around the clock analgesia. Initiatory/Titration
PPLPMDL0020000001	Akron	OH	44320	10/8/2013	Some with dr about prescribing Butrans for those patients of hers like nancy who need a dose adjustment with vicoden. I asked dr if she has patients that she refills on vicoden each month? Dr said she does. I asked her to find more opportunities like Nancy's where Butrans would be appropriate? Dr said she will. Discussed OxyContin dosing and conversions from Percocet. I asked her to switch those patients that would be appropriate for the q12h. Intermezzo indication and dosing and asked her to find one patient. T trial on that meets e indication. Spoke about Senokots and reviewed the active ingredients.
PPLPMDL0020000001	Beachwood	OH	44122	10/8/2013	I made a drop in visit to speak with director of nursing Susan LoDolce. I was informed by the receptionist, Lisa that Susan no longer work there. They currently have an acting DON, Michelle from corporate. I left the Purdue nurse educator pamphlet along with my business card
PPLPMDL0020000001	Parma	OH	44129	10/8/2013	Dr. said he knew about OxyContin and he prescribes the generic oxycodone all the time. I explained to him that there wasn't a generic and he said he uses the immediate release and I asked if he meant with Acetaminophen and he said no plain. I told him I understood what he was talking about but that's immediate release oxycodone and that I'm promoting OxyContin for extended release which his patients that are chronic would probably use. Dr. said he uses it Duragesic patch for his chronic patients because he he likes the ease-of-use. I showed the doctor the Butrans demo and asked him if he was familiar with Butrans for his chronic pain patients. He was not familiar and I reviewed the clinical trials the 30% reduction inside the 7.22 2.6 pain reduction in the open label trials and the overall improvement. I explained to him the positioning of Butrans for his opioid experience patients starting at the 10. I discussed using after tramadol and before Vicodin or Percocet or for his low-dose Vicodin or Percocet patients. Dr. was interested and I explained the vouchers and savings cards to he and his staff. Reviewed intermezzo indication and limitation of use and dosing administration.
PPLPMDL0020000001	Parma	OH	44129	10/8/2013	Gave Dr. hydrocodone insight and told Him I did not know his treatment algorithm and he said he has to start people from scratch on pain meds because by the time he sees them they're never on the right treatment. He said he does not use short acting that his patients need long-acting and he uses OxyContin. I review the savings cards for OxyContin also flexible dosing an asset was he aware that there is a 15 and a 30 and he said he thought there was. Dr. expressed interest in Butrans and I reviewed the clinical trials along with how to apply Butrans and the savings cards. Dr. said he could see a place in his practice for Butrans and I Asked him about the pain reduction from the clinical trials and he said that would be a good achievement. Review the intermezzo patient including indication limitation of use and dosing administration.<font color=blue><b>CHUDAKOB added notes on 10/17/2013</b></font>Looks like some progress was made here. Nice job!
PPLPMDL0020000001	Westlake	OH	44145	10/8/2013	Discussed stocking 15mcg. pharmacist was too busy for a full discussion. Gave him the naive study and pointed out some key points such as dosages used and pain scores
PPLPMDL0020000001	Parma	OH	44129	10/8/2013	Spoke with Nadia and she checked the system again and said this time she could order Butrans and she committed to order in one box of the 15. Reviewed with Keith OxyContin flexible dosing. Spoke with the other pharmacist about intermezzo indication limitation of use and dosing administration.
PPLPMDL0020000001	Parma	OH	44134	10/8/2013	Dr. Asked was there a generic for OxyContin and I reminded him again that there is not and he said that was good. I asked was there a particular reason he's asking about a generic for OxyContin. He said that he heard that there was a change and I reviewed the abuse deterrent studies pointing out section 9.2 specifically and handed him the folder. I clarified if this is what he was referring to and he said yes. I reminded Dr. the Butrans patient Profile of Nancy And Dr. said he uses Butrans for all different patients he said he doesn't go above 40 mg of OxyContin and if he needs to go about that then he immediately switches them to Butrans because he feels they Might not be trustworthy. He said he gives Butrans to any of his patients that he thinks might not be Trustworthy.<font color=blue><b>CHUDAKOB's query on 10/17/2013</b></font>Marcia, why do you think he is giving Butrans to patients he feels are not trustworthy?<font color=green><b>KENNOMA's response on 10/18/2013</b></font>He believes Butrans is more difficult to abuse.<font color=blue><b>CHUDAKOB's query on 10/21/2013</b></font>That is what I think as well. This is where you have to clarify with the physician on the abuse potential of Butrans. If he feels it is less abuseable we must correct this every time. Make sense?<font color=green><b>KENNOMA's response on 10/21/2013</b></font>This makes sense and I will clarify next time.<font color=blue><b>CHUDAKOB added notes on 10/28/2013</b></font>Ok. Thanks Marcia!
PPLPMDL0020000001	Parma	OH	44129	10/8/2013	Gave Dr. hydrocodone insight and told Him I did not know his treatment algorithm and he said he has to start people from scratch on pain meds because by the time he sees them they're never on the right treatment. He said he does not use short acting that his patients need long-acting and he uses OxyContin. I review the savings cards for OxyContin also flexible dosing an asset was he aware that there is a 15 and a 30 and he said he thought there was. Dr. expressed interest in Butrans and I reviewed the clinical trials along with how to apply Butrans and the savings cards. Dr. said he could see a place in his practice for Butrans and I Asked him about the pain reduction from the clinical trials and he said that would be a good achievement. Review the intermezzo patient including indication limitation of use and dosing administration.<font color=blue><b>CHUDAKOB's query on 10/17/2013</b></font>Marcia, was your conversation with Dr. Hines EXACTLY the same as Dr. Cowan? please do not cut and paste, but make sure each physician has their own call note. I realize he may have been in on the same conversation, but something must have been different to individualize it?<font color=green><b>KENNOMA's response on 10/18/2013</b></font>This was a large lunch and people were interrupting. I do not make a habit up duplicating call notes but with them being in the room at the same time and me covering the same information I thought it was acceptable. My call note would say that the doctors agreed with each others point because Hines only nodded.<font color=blue><b>CHUDAKOB closed the query on 10/28/2013</b></font>
PPLPMDL0020000001	Cleveland	OH	44113	10/8/2013	Discussed Butrans and the 30% reduction in pain intensity. Dr. said it was significant/meaningful will consider. Asked for that 1 patient requiring around the clock analgesia. OxyContin Q12h with flexible dosing strengths.
PPLPMDL0020000001	Lyndhurst	OH	44124	10/8/2013	Intermezzo for MOTNA/dosing.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/8/2013	I made a drop in visit to speak with Diana Howard in staff development. I spoke with the receptionist who called her office , there was no answer. I left a Purdue nurse educator pamphlet along with my business card... I asked if there were any nurse practitioners on staff that might be available to speak with me, the receptionist informed me that an appointment is necessary.
PPLPMDL0020000001	Akron	OH	44312	10/8/2013	I made a drop in visit to speak with Marianne in staff development. I was informed by the receptionist , Teresa that Marianne no longer is employed there . when I asked who is handling education ? Theresa replied , "I have no idea , I can leave information for our director of nursing Sandra Brown . " A Purdue nurse educator pamphlet and my business card was left behind.
PPLPMDL0020000001	Cleveland	OH	44113	10/8/2013	Good conversation about Butrans and OxyContin. Led with insight about hydrocodone and asked him about the statistic. Dr said he knows that drs must decide earlier who the patients are that need an ER opioid and those that do not. Dr said he decides pretty early on usually after 2-4 pills that they might need an ER opioid. Gave all key selling messages about Butrans and OxyContin. Dr said he will find a patient for Butrans and said he will not prescribe much if any schedule 2 me finches because he believes they are reserved for the specialists.
PPLPMDL0020000001	Cleveland	OH	44113	10/8/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock therapy, and Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Beachwood	OH	44122	10/8/2013	Dr. said he changes hours and he is moving into a new office location In the same building. Dr. is doing a program for Butrans in Cincinnati and I asked Him what does he feels the most important thing he's going to say to get doctors to understand when and how to use Butrans. Dr. mention the clinical trials and we discuss the pain improvement scores. Reviewed flexible dosing of OxyContin and conversion from Percocet OxyContin
PPLPMDL0020000001	Cleveland	OH	44113	10/8/2013	Quick OxyContin reminder, Q12h, flexible dosing along with broad formulary coverage.
PPLPMDL0020000001	Beachwood	OH	44122	10/8/2013	I made a drop in visit to speak with nurse educator, Cheryl Grim, to see about scheduling an in-service on pain management. I spoke with the receptionist, Michelle W. who informed me that Cheryl was not available, but advised me to call tomorrow to try to set up an appointment. I left a Purdue nurse educator pamphlet along with my business card
PPLPMDL0020000001	Cleveland	OH	44109	10/8/2013	Discussed Butrans 15mcg/hr dose presentation, Mana-RPh will stock-mainly forced shipment. OxyContin Q12h and Intermezzo for MOTNA-Dosing, said he sees Rx's from Raheja/Torres
PPLPMDL0020000001	Parma	OH	44129	10/8/2013	Spoke with Dr. about patients like Scott better on tramadol and reminded him that his last patient was a tramadol patient that he needed to change the dose. He said he remembered and I also reiterated that the managed-care situation is improved over what he first thought. Dr. agreed and he also asked about intermezzo managed-care Which I reviewed. Discussed OxyContin flexible dosing and conversion from Percocet to OxyContin
PPLPMDL0020000001	Akron	OH	44312	10/8/2013	Led with insight about hydrocodone and asked her opinion. Janet told me that she doesn't prescribe for too many opioids as a PA but sees how its become a problem getting patients to ER opioids sooner and recognizing patients appropriate for them. Gave all key selling messages for Butrans and OxyContin. I asked Janet if she has patients like Scott for Butrans? She said she does and will look into using it.
PPLPMDL0020000001	Cleveland	OH	44122	10/8/2013	I received a Phone call from Francine Young okaying the pain in-service for today. She stated, "I am not in that position anymore, Heather Gordon is the new staff development coordinator."An in-service on pain management was completed for the STN A's. 9 were in attendance. the barriers of pain assessment and the consequences of unrelieved pain were discussed as well as the STNA role in pain management : the team approach.A tremendous amount of positive feedback was received after the in-service.After the in- service , I was able to speak with Heather and introduce Purdue's Nurse educator program thoroughly. She was excited about about the program and utilizing it for future education. I also talked with her about setting up a Butrans luncheon with the NP's. She agreed to arrange .The constipation in-service for nurses and STN A's was confirmed for next Tuesday, October 15 at 1:30 and 2 PM With Heather.

PPLPMDL0020000001	Akron	OH	44313	10/9/2013	Dr asked me for more information on Butrans? I asked what he needed and he said he knows he needs to use it and wanted the conversion chart I discussed with him before. I showed him the guide from the main visaid and discussed appropriate patient types. Dr asked if patients can abuse it? I told him its an opioid and it can be misused and abused because it is an opioid. Dr asked to see the patch so I showed hi e demo patch and explained its design. Dr said ok and. That he is going to use. I told him that BWC is paying for it and about the Caresource pa. Reviewed insurance with Tina. I asked dr if he will continue finding how to use OxyContin earlier and take advantage of the dosing flexibility? Dr said he will review the conversion and titration guide.
	Parma	OH	44129	10/9/2013	Gave Dr. reminder of Butrans after tramadol since he thinks he needs more reminders. Reminded Dr. of pain reduction in opioid na rive trials from 7.2 to 2.6. Show Dr. the Percocet conversions to OxyContin and reiterated that these are appropriate patients that have been on for three months or longer and have chronic pain. Gave Dr. intermezzo indication and limitation of use and ask him if he thought of patients for intermezzo and he said no. Dr. said he will try to remember Butrans for the next time I come in
PPLPMDL0020000001	Parma	OH	44129	10/9/2013	Quick call while leaving Dr. Giugliano's office reminded Dr. of use of Butrans after tramadol and the good coverage that we have on Butrans and conversion from Percocet OxyContin
PPLPMDL0020000001	Beachwood	OH	44122	10/9/2013	I placed a follow-up phone call to acting DON, Michelle, to introduce Purdue's NE program and discuss educational opportunities. N/A I left a msg. on her voice mail
PPLPMDL0020000001	Euclid	OH	44117	10/9/2013	I placed a call to NP, Lizeal Malbairan at 440-709-6028, I rec'd a generic voice mail. I emailed DON, Kathy Nemenst to confirm
PPLPMDL0020000001	Cleveland	OH	44195	10/9/2013	MSL phone meeting with Donna Lach to provide update after on-site meeting last week with Dr. Dell. MSL informed Mrs. Lach that Dr. Dell will work with various pediatric specialty physicians to identify a PI for OTR3001.
PPLPMDL0020000001	Euclid	OH	44119	10/9/2013	Cardinal Health, has Butrans 15 mcg hr. I told Aaron (floating pharmacist) Kevin committed to pre ordering 1 box. Kevin out or a while, so, I asked Aaron to check availability at Cardinal. aaron ordered box 15 mcg hr while I was there as cardinal says in stock. They will get in 1 day. Kevin out temporarily, so I left Butrans pharmacist guide for Laurel ( pharmacist)
PPLPMDL0020000001	Cleveland	OH	44130	10/9/2013	Gave 30% reduction insight and stress reduction from 7.2 to 2.6 and asked Dr. to think about the clinical trials when he has patients that Need a dose adjustment for their tramadol. Discuss flexible dosing of OxyContin
PPLPMDL0020000001	Parma Heights	OH	44130	10/9/2013	I placed a phone call to D.O.N., Katherine Myers to schedule a meeting to introduce Purdue's Nurse Educator program. N/A I left a msg. on her voice-mail.
PPLPMDL0020000001	Lyndhurst	OH	44124	10/9/2013	I placed a phone call to Diana in the Staff Development to see about setting up an appt. to meet w/ her and introduce Purdue's Nurse Educator Program. N/A , I left a msg. on her voice-mail.
	Munroe Falls	OH	44262	10/9/2013	I asked dr if she would take a closer look at her patients on tramadol and viconden to see if they would be a candidate for Butrans? Dr said she would and knows she should be using it more because she does have many patients that she's sure Butrans could be a good choice. I told dr to do that peace. Told her to also take the extra minute before she refills a Percocet and see if they would be a candidate for oxycontin? Dr said she will. Reminded her about intermezzo dosing and indication.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/9/2013	I placed a call to director of nursing, Sandra Brown at 440-473-0090 to introduce Purdue's nurse educator program and discuss educational in-service opportunities. There was N/A, I left a msg. w/ the recpt. Theresa
	Beachwood	OH	44122	10/9/2013	I placed a phone call to Nurse Educator, Merri Bunge to talk w/ her about re-scheduling the pain management in-service. Meeri stated, " I have all outside in-services on hold until next year. We have taken on a project with 2 large Cleveland Hospitals (UH & CCF) and I have no time available. I asked her for the NP's information; Merri informed me that they have only 1 NP, David Bloch and to call back through the main phone number to be connected to him. I called the facilities main # and spoke w/ the recpt., Carol. she informed me that the NP does not have an office or direct line. She connected me to the medical secretary's office. N/A
PPLPMDL0020000001	Barberton	OH	44203	10/9/2013	Met dr briefly at lunch. Review of Butrans naive study, criteria, open label pain reduction. Scores and dosing. Also reviewed 7 day transdermal schedule 3 pain patch. Dr left to run errands
PPLPMDL0020000001	Fairlawn	OH	44333	10/9/2013	Dr waved to me as he was going into a room. He asked me what's going on with Butrans and I asked him to tell me! Dr said he has not prescribed but heard the in-service at Copley health center went well. I told him it did and we need more time to talk about how he's going to implement Butrans into his practice. I also told him to continue using OxyContin for his patients needing a dose adjustment on Percocet. Dr said ok.
PPLPMDL0020000001	Beachwood	OH	44122	10/9/2013	I placed a phone call to Cheryl Grim to talk w/ her about Purdue's Nurse Educator Program and educational in-service opportunities. N/A, I left a msg. on her voice mail
PPLPMDL0020000001	Euclid	OH	44119	10/9/2013	Met with Dana first. They use McKesson, asked her to check if McKesson has Butrans new 15 mcg hr dose, YES it's available. Pharmacist Dave says new Butrans 5 mcg hr patient in September. Dave will order a box of the 15 mcg hr left Dave pharmacists guide, NDC FPI brochure.
PPLPMDL0020000001	Akron	OH	44320	10/9/2013	Spoke to Jessica about Butrans 15mcg dose and asked if Cardinal has it in stock. She looked and said that it was not. Jessica said they should have it next week and that they just filled a 5mcg dose today. Left OxyContin information and dosing card.
PPLPMDL0020000001	Cleveland	OH	44115	10/9/2013	Visited Neuro Dept. Obtained Dr. Richardson info. Left OxyContin and Butrans Info. main office over at Warrensville
PPLPMDL0020000001	Cleveland	OH	44115	10/9/2013	Visited Spine/Ortho 6th floor ( Dr.Grubb, Collis,Shall, Kim, Blades) Physicians have various office sites, Broadview Hts.Akron. Inquired about appt./inservice opportunity
PPLPMDL0020000001	Cleveland	OH	44115	10/9/2013	Visited Neuro and Spine/Ortho floors, obtained info
PPLPMDL0020000001	Barberton	OH	44203	10/9/2013	Saw the the nurse today, introduced Butrans, she said she heard of it. Showed her the demo patch and reviewed placement with her and the indications. Left the nave study behind for the doctor to review.
PPLPMDL0020000001	Cleveland	OH	44106	10/9/2013	Quick Butrans reminder for those patients requiring around the clock analgesia. MedCo/ESI formulary status
PPLPMDL0020000001	Parma	OH	44129	10/9/2013	Quick window call rescheduling lunch and ask doctor about using Butrans after tramadol and before Vicodin Or Percocet. Rected 30% reduction in pain insight and reinforced pain reduction from clinical na rive trials from 7.2- 2.6. Cited the start principle specifically 25 to 50% increase over 1 to 2 days. Dr. said she initiated some new Butrans patients And I asked what did they present with and she said lower back pain.
	Cleveland	OH	44130	10/9/2013	Dr. said she will not write Percocet Vicodin or OxyContin. When I asked why she said that these are addicting drugs she won't be responsible for the patient and tell them to go see pain management. I reviewed Butrans and the clinical trials with the inclusion criteria And the pain reduction and asked her her thoughts. She said Butrans made sense but it's probably too expensive and I explained the saving cards. I reviewed intermezzo for patients suffering from middle of the night awakening and she said this is much too expensive and she will not write intermezzo. I asked which he uses instead for peace patients with sleep problems and she said Ambien was just fine. When I reviewed the indication and limitation of use she still said she saw no need for intermezzo and her practice. I said doctor what you're to what I hear you saying is that Butrans is the only product that I carry that you can see yourself writing And she said yes. I asked what type of patient with that be in she said a little old lady and I said the osteoarthritis patient or an patient that you know has a known pathology and You are comfortable treating you would initiate Butrans therapy for their chronic pain? She said yes and I said I would follow up to check on her osteoarthritis or spinal stenosis world really patient that might be falling on their around-the-clock location and I told her I just wanted to confirm again. Linda said she is tried to write a prescription of intermezzo And I reviewed the care source criteria for her.
PPLPMDL0020000001	Parma	OH	44129	10/9/2013	Spoke with Linda about Butrans initiation and titration and review the tramadol patient. Linda asked about the Vicodin and Percocet patient and I showed the Nancy profile. Linda said that no OxyContin is written in this location and I told her I just wanted to confirm again. Linda said she is tried to write a prescription of intermezzo And I reviewed the care source criteria for her.
PPLPMDL0020000001	Barberton	OH	44203	10/9/2013	Lunch. Dr had no experience w Butrans and was not familiar with it. Discussed naive study and safety and efficacy data, dr said he can see this being used in the nursing home patients and asked me about coverage. Reviewed the coverage. Dr said he typically uses Tramadol after NSAID failure because he feels its less abusable than other opioids. Review schedule 3 information and if he would be open to writing Butrans after tramadol? Dr said he would try it and we reviewed dosing and dr asked about steady state, which I addressed as 3 days. And also reviewed titration a min if 3 days. Dr asked about irritation of the patch and we viewed the chart if visual aid, dr said it wasn't bad. Dr also asked about where to place e patch, reviewed the 4 spots. Discussed OxyContin, dr said he doesn't write it when asked if he writes Percocet and he said yes, I asked what point would they be an extended release candidate. Dr said he usually sleeps them prn and will supplement for break thru with NSAIDs. Reviewed the conversion. Discussed intermezzo, dr does not write it. Dr saw a fit for the indication but he said he was concerned that his patie ts wouldn't meet the criteria to get it and that managed care would be Coe a problem. Discussed commercial savings program.
PPLPMDL0020000001	Parma	OH	44129	10/9/2013	Window call reminder of Butrans savings cards. Discuss flexible dosing of OxyContin on the titration card
PPLPMDL0020000001	Copley	OH	44321	10/9/2013	I asked dr that I'm guessing he has already seen patients coming in on tramadol or viconden around the clock? Dr said yes he already has and figures many more to come. I told dr that when a dose adjustment is necessary that he needs to consider Butrans. I explained the dosing, titration, conversions and patient profiles. Dr asked about the schedule and I told him its a schedule 3 which he said was good. Dr asked how long the patient keeps on and I told him its the only schedule 3 ER opioid transdermal system on the market. Dr said he will find a patient for it.
PPLPMDL0020000001	Cleveland	OH	44106	10/9/2013	Reviewed OxyContin START principles, (Q12h flexible dosing and formulary coverage) Went over Butrans Initiation/Titration along with Medco/ESI formulary status-<b>color=blue><b>CHUDAKOB's query on 10/17/2013</b></font>Mark, your call note gives a brief description of what you did on the call. Was there a discussion that took place? If so what was it? Did you learn anything on the call? If so what was it? These ate the type of information that should be in a call note in addition to what you presented.<font color=green><b>GUTKOMA's response on 10/19/2013</b></font><b></b></font>Ok.<font color=blue><b>CHUDAKOB's query on 10/21/2013</b></font>Ok.<font color=blue><b>CHUDAKOB added notes on 10/22/2013</b></font>Ok. Thanks
PPLPMDL0020000001	Cleveland	OH	44106	10/9/2013	Reviewed OxyContin Q12h flexible dosing strengths and Butrans 15mcg/hr, will stock when RX is prescribed
PPLPMDL0020000001	Cleveland	OH	44130	10/9/2013	Asked about the stocking of the 15 for Butrans and pharmacist said they will order when it comes then I asked if the text could check the inventory status or if it was available for them to order and they said they would do it a little later and to check back because they were too busy now. Quickly reviewed start principles of OxyContin flexible dosing. Gave intermezzo reminder for patients with middle the night awakenings and ask them to pay attention to dosing administration for gender specific dosing.
PPLPMDL0020000001	Cleveland	OH	44127	10/9/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, Said she will consider<font color=blue><b>CHUDAKOB's query on 10/17/2013</b></font>is this Dr. really an OBG?<font color=green><b>GUTKOMA's response on 10/19/2013</b></font><b></b></font>I believe she was trained as a OB/GYN but presently practices a Family practice clinic<font color=blue><b>CHUDAKOB's query on 10/21/2013</b></font>Ok.<font color=blue><b>CHUDAKOB added notes on 10/22/2013</b></font>Ok. Thanks
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/9/2013	Liz in the office told me that Dr wanted to prescribe OxyContin 20mg for a new patient today who apparently had Aetna Medicare D prescription coverage however the patient was told that she couldn't get it. The patient was told and confirmed by Liz that Aetna would not cover OxyContin and was told that she had to fail 4 other opioids prior to being approved for OxyContin. Liz called Aetna and worked it out that the patient could get OxyContin through 2014 after only having history of 2 of the 4 medicines required. Spoke with dr about it and he was pleased because he did not want to have to prescribe ER morphine. Gave dr and Liz current insurance coverage grids for Medicare D and commercial for OxyContin.
	Barberton	OH	44203	10/9/2013	Discussed oxycontin, dr said he does write that product any more. I asked if he wrote any schedule 2s and dr said yes percocet mostly in his nursing home patients. I said when a patient starts taking say 3 or 4 a day would u then move to a product like OxyContin?. Dr said he may refer out at that point. Dr said he wrote Butrans recently for a patient, I asked what mcg and he said he did not know nor did he remember what doses were available. It was for a nursing home patient he said that failed various opioids and we on Medicare part d. Dr cook asked dr what he thought of it and dr plus koto said its the oky thing that has worked for the patient. He as said the staff was happy about it because it was ny 4patches a day and was easily for the caregivers to give to the patients. Dr cook said that was a great idea and then dr asked me to review the mcg doses. We discussed why does he not write extended release products for patients that need at pain control. And the dr said he didn't have a good answer. We spoke about the Maria patient and I asked him if he saw that...and he said yes. I said how comfortable are u at this point using Butrans here. He said he was. I asked why not be their first opioid for atc pain control? Dr said he had no reason not to use it first, but it was more out of habit that he doesn't we reviewed the Spoke with dr as she was coming into the office for the day. Dr told me that she is having success with Butrans however said she is having itching with some patients while on Butrans. I asked dr if she has discontinued Butrans for those patients and she said no. I asked her what she plans to do and she said she would probably provide something to help manage the itching. I told her to continue focusing on the tramadol and viconden patients who need dose adjustments or ask for an alternative form of analgesia. I reminded dr of the insurance coverage and Caresource pa. Dr said thanks.
PPLPMDL0020000001	Cleveland	OH	44130	10/10/2013	Asked dr his thoughts on the hydrocodone insight and he said yes. Reviewed Butrans reduction in pain from 7.2 to 2.6 and he said yes. Left dr with conversion brochures for OxyContin.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/10/2013	I talked about the insight about hydrocodone which led into a short discussion about the start principles. Dr said he remembers them from before and agrees with it. I asked him if he has patients on Percocet around the clock and have been on it for 3+ months? Dr said he probably does. I showed him the conversion guide in the main visaid and told him to switch those patients. Left him with Butrans information.

	Cuyahoga Falls	OH	44223	10/10/2013	Spoke with Melissa one of the pharmacist about all products. I introduced the new Butrans 15mcg dose and asked if she Wu,d check with her wholesaler McKesson if they have it in stock? She leered and said they have a qty of 4 on hand. She said that they have patients on the 5 and 10mcg doses and they all seem to like it. Told her about the OxyContin dosing and asked if she is seeing filling of new prescriptions? She said yes but maybe on 5% of the fills are new. Rest are refills and sees a lot of the 10, 20 and 40mg doses. Told her about intermezzo and asked if she has filled any recently? She said none recently but has filled them for Higley in the past.
PPLPMDL0020000001	Parma	OH	44129	10/10/2013	Spoke with Myra about adverse event reported below.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	10/10/2013	Dr came to window and I told her about how Butrans would be appropriate for those patients of hers that need a dose adjustment on tramadol. I asked her if she has any patients having that description? Dr said she is sure she does and things have been very good with it lately. I asked dr to continue prescribing. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	Met we the ma, dr is on medical leave until further notice. Dr Debora's is taking over her patients until she returns. Added dr into system to be verified. Dr is in the office twice a week on mon and we'd full days. Also goes to fair hill on the east side she said. Dr is out of office u Tim the 21st of October on vacation.
PPLPMDL0020000001	Beachwood	OH	44122	10/10/2013	Reviewed OxyContin conversion from from Percocet. Discussed Butrans after tramadol leading with insight of 30% reduction in pain. Spoke with vikki about Bwc and she said she has my called me because she has not run a Butrans bwc script. Reviewed vouchers and savings cards
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	During conversation with her 2 ma's regarding Butrans the doctor stepped into the conversation. At first the nurse said the dr just doesn't see patients with that kind of pain to write Butrans enough. I said u said a few good points....the right patient and the number of patients she treats for pain so let me address. I said she doesn't know much about Butrans really right. Ma said yes. I said so perhaps there is a misperception going on about who is the right patient and ma said maybe. I said does she treat patients with back problems due to another illness (disease state), she said yes. I said like what....she named a few. Osteoarthritis,she said diabetes, she said disc disease. I said she probably treats them with a NSAID right? Ma said yes. I said now what if the disease progresses and the NSAID isn't controlling the pain....that's when an Opioid of some kind might be added to the current therapy or switched to an opioid right. Ma said she was t sure...but the dr stepped in and said yes that's what I would do. I said understood. But Saftey is important in your opioid choice at that point right. She said yes. And so is pain control right. She said yes. I told her I'd like her to try Butrans 5mcg for the atc patient because...had the naive study in hand. Showed her Saftey and efficacy was conducted. It's a 7 day transdermal schedule 3. What that means to your patients is 4 doses a month with refills. And as far as efficacy- reviewed open label of study.
PPLPMDL0020000001	Garfield Hts	OH	44125	10/10/2013	Discussed Butrans and the Kathy profile with Dr.and Deena, They agreed they have patients like her, went over Initiation/Titration along with MedCo/ESI formulary status. Said he has patient in mind. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	Discussed Butrans, she said she knew about it. Discussed 7 day transdermal opioid pain patch, scheduled 3. Showed her the Maria profile, mentioned why stocking the 15mcg may be important. Discussed the starting dose- and the titration can occur a min of 3 days.
PPLPMDL0020000001	Akron	OH	44319	10/10/2013	Lunch appointment went well and reviewed all key selling messages for all products. Reviewed new profiles for OxyContin, start principles, dosing,titration. Dr said he typically goes to the ER oxycodone when patients reach the 4 pill a day mark. Dr said he agrees with the start principles and will continue to prescribe and switch his patients from Percocet. Detailed Butrans in depth speaking about dosing, titration, conversions, patient profiles and asked him if he has patients on tramadol or vicodin that may need a dose adjustment? Dr said he does and said he really likes that Butrans is a schedule 3 and lasts 7 days. I asked dr if he will try it and he agreed.
PPLPMDL0020000001	Akron	OH	44305	10/10/2013	Reviewed insurance and copy cards. Intermezzo introduction with dosing, indication, and limitations of use. I asked dr to use and he said he might but doesn't prescribe much for sleep. I asked for dr to provide me some specific information about how his patients are doing on Butrans? Dr said that most are doing well and he thinks it's a great product. I asked about his patients pain scores or what he has seen? Dr said that he has a few patients that continue to tell him how much they like Butrans and that they are thankful for it. I asked him to continue prescribing for those needing dose adjustments on tramadol around the clock. Dr said ok. Left him with the OxyContin conversion and titration guide and asked for him to use it more frequently for those who he feels need an ER opioid while on Percocet.
PPLPMDL0020000001	Cleveland	OH	44127	10/10/2013	Reviewed OxyContin Q12h,flexible dosing. Dr. not prescribing much of the long acting anymore, Ask what 30% pain reduction means do her patients, said that is significant and will keep in mind. Jose will help if PA is needed
PPLPMDL0020000001	Cleveland	OH	44130	10/10/2013	Asked pharmacist to order in 15 and he said he does not have see a lot of butrans. Reviewed pain reduction from clinical trials. Reviewed start principle. Gave indication and limitation of use for intermezzo.
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	Saw dr. He told me just wrote oxycodone for a patient today. I said dr....are u trying to make me smile or frown? He said what do you mean....I said I promote OxyContin for patients that have atc pain....are u saying the patient had atc pain? Dr said he takes Percocet 3 x a day. Showed him the core visual aid page showing Percocet to OxyContin. Reviewed the 7 doses and went over the tailor aspect of the start principal. Said one thing to keep in mind for the next patient you are about to write Percocet for....review the q12h aspect and its single entity still covered many many commercial plans. Dr said ok and walked into a room.
PPLPMDL0020000001	Valley View	OH	44125	10/10/2013	Discussed OxyContin Q12h flexible dosing strengths and broad formulary coverage along with Butrans 15mcg/hr dose presentation
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	Saw dr. He told me that dr blazek from north olmsted joining the practice soon. Asked him if he tried Butrans for a NSAID failure like we discussed last time and he said no.he said the patient that is on Butrans is going well on it. Left him naive study.
PPLPMDL0020000001	Cleveland	OH	44130	10/10/2013	Dr said he will not put new patients on OxyContin anymore. And when I asked why he said pain management can handle them better because there is too much short acting being used. He said I did not get the correlation and after a lengthy discussion he said he does not see a ocase fr oxycotin in his practice and he does not believe in chronic pain. I show him butrans and he said he has no place because everyone is on a short acting and they get it from the emergency room and getting a short acting and then they don't want to take a long acting. I asked if he had patients in his practice that do not go to the emergency room and he is their primary physician. He finally agreed that he would rather put a patient on Butrans than Vicodin or Percocet and I he agreed
PPLPMDL0020000001	Akron	OH	44333	10/10/2013	Quick call I between his appointments. I showed dr the Maggie profile for Butrans and the new one on IR oxycodone for OxyContin. Dr said it was good for him to see the difference in patient types. Dr said he has been having trouble getting OxyContin approved on insurance. I asked him where and he didn't know. He told me to talk to his staff to figure it out. I told him to prescribe more Butrans for those patients I described.
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	Tuesday to dr thru the window and Megan the ma (office manager)- discussed what he does at this location and he said Wednesdays he does injections and will see his patients for follow up at either locations- lakewood on Tuesdays and Thursdays Westlake. I asked about his experience thus far w Butrans and he said he likes it. I asked what made you choose Butrans? He said that the patient he gave it to is his older patients. I asked why? He said that most are not candidates for surgery and have atc pain....and it is easier for them to remember. I asked how he felt about it being someone's first opioid for atc pain? Dr said it depends on the patient but most likely not because he would supplement with short acting opioids first. I said....understood. But if patients were taking pain medications 3 or 4 x a day atc....would that be a Butrans candidate. Dr said maybe. I thanked the dr for his time, told him when I return in a few weeks for lunch. I will review this Tramadol to Butrans profile you. He said very good. Walked away.
PPLPMDL0020000001	Westlake	OH	44145	10/10/2013	Spoke to dr about Butrans. Review what it is, it's indication, managed care. Asked dr how she treats patient t's who are on NSAIDs it controlled and need a Change of medication? Dr said she will write Tramadol along w supplementing w NSAID. I said an opioid w supplemental. I suggested Butrans...and also mentioned based on the naive study, you could use NSAIDs for breakthrough pain. Talked about the age of her patients that she would transition to opioid? She said her older patients, usually and that Tramadol was cheap. She looked it up on her computer and told me it was ten bucks at Walmart compared to 30 dollars at cvs for a 50mg of 180 tabs. Which comes out to be about 6 pills a day. Which means its dosed every 4 to 6 hours. Dr said that was right. When writing an opioid of any kind, what is your biggest reasons for choosing it? Dr said cost. I said not efficacy or Saftey that price was our concern. She said yes those 2 but if her patient can't afford it they want something cheap. I said....when come back for lunch next week we r gonna talk Abu t the Butrans commercial savings plan along with the safety efficacy data of patients never been on Butrans before and the results they had for pain management. She said ok. Spoke to Val about intermezzo....she said the doctor likesit and wrote before. Val remembered all the key points of the product and I asked her if she would be willing to prior auth in order to get the product approved. She rolled her eyes and said like I have time
PPLPMDL0020000001	North Olmsted	OH	44070	10/11/2013	I made a drop in visit to meet with nurse practitioner , Teresa (Terry) Coyne. I spoke with Debi Rodriguez, admissions coordinator, who informed me that Terry left early today. She advised me to call her at 440-779-4037. I left Butrans information along with my business card
PPLPMDL0020000001	Beachwood	OH	44122	10/11/2013	Followed up on Butrans discussion from lunch and asked Dr. if she's had a chance to prescribe. Reminded Dr. of the Scott profile for Butrans after tramadol. Dr. said she hadn't seen any tramadol patients this week and I asked her how many did she typically see in a week and she said not many. I asked her if she had seen the patient she was considering Butrans and she said she might consider it if they needed a dose adjustment. Reviewed OxyContin conversion from Percocet and flexible dosing. Review dosing administration of intermezzo and middle the night awakenings Dr. said she is not sure about intermezzo and I inquired what was puzzling and she said she just thinks that Ambien is cheaper and does the same thing. I explain the dosing in indication to doctor and she said she still thinks it's the same
PPLPMDL0020000001	Barberton	OH	44203	10/11/2013	Asked dr his experience w Butrans and he said he has been using it since it came out and he liked it. I said why did u select it over her other opioid choices and he said because it was easy 4 patches and it was extended release. We went to Butrans.com and watched the video on pharmacokinetics. When finished I asked if he thought it was helpful and he said yes, he asked if it was covered on workers comp. did cover managed care and commercial savings program. I asked the dr when he is treating someone for chronic atc pain what type of medications are they on? He couldn't answer specifically...he said he usually supplements with NSAIDs with short acting or extended release with NSAIDs. I asked if he was aware he could supplement with Butrans and dr said yes. Discussed OxyContin. Dr said he was very familiar w this product and that he writes it. Reviewed the 7 doses and the conversion with Percocet. I asked if after this video and information he felt more confident I writing Butrans 10mcg this week. And he said it was good I formation.
PPLPMDL0020000001	Cleveland	OH	44102	10/11/2013	Confirmed Wed. Inservice with ED and staff
PPLPMDL0020000001	Stow	OH	44224	10/11/2013	Spoke with Greg the pharmacist about talk with dr yang about ordering the Butrans 15mcg and gave him the Butrans pharmacy piece with NDC numbers. Greg said he will not order it until he sees that first prescription and he will talk with dr yang about it.
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/11/2013	Upon arriving for a 1 o'clock meeting to introduce Purdue's Nurse Educator program and discuss educational in-service opportunities with director of nursing, Pam Ritter, I was asked by her, if we could reschedule the 1 o'clock meeting for today. She informed me that she needed to be in attendance at another meeting that was to begin at noon which was running behind and has not began as of yet. She sincerely apologized and another meeting was scheduled for Monday, November 4 at 11 AM.
PPLPMDL0020000001	Stow	OH	44224	10/11/2013	In Joyce's office setting up lunch appointments and dr yang came in. Dr said he spoke with Greg the other day and he told him about the 15mcg Butrans dose. I told dr its available in most pharmacies by now. Dr told me to check with Greg at the summit pain pharmacy to see if he ordered it. I asked dr if he will use it as he titrates? Dr said he plans to.
PPLPMDL0020000001	Cleveland	OH	44113	10/11/2013	Reviewed Butrans for those Lortab failures requiring around the clock analgesia, along with intermezzo for those MOTNA patients. Reminded of dosing. Said OK and will continue to find new patients
PPLPMDL0020000001	Beachwood	OH	44122	10/11/2013	Asked Dr. Warren to consider converting Percocet patient who is been on for more than three months to OxyContin. Gave titration and conversion guide. Dr. said he considers OxyContin and uses it when necessary. Reviewed Butrans dosing administration and reminded Dr. of clinical trial pain reduction of 7.2 to 2.6. Dr. said leave information with Donnie and I discussed the titration of Butrans with Donnie.
PPLPMDL0020000001	Beachwood	OH	44122	10/11/2013	Reviewed 15 Butrans and asked pharmacy if they would bring in a box and they said yes. I discussed the 30% reduction in sight. Review flexible dosing of OxyContin stressing the 15 and 30 mg tablets. Gave indication limitation abuse and dosing and administration of intermezzo. Reviewed managed-care environment for all three products
PPLPMDL0020000001	Garfield Hts	OH	44125	10/11/2013	Talked with Denise. Discussed Butrans for those Tramadol failures requiring around the clock analgesia. Initiation/Titration and Medco/ESI formulary status
PPLPMDL0020000001	Cleveland	OH	44113	10/11/2013	Reviewed Butrans for those Lortab failures requiring around the clock analgesia, along with intermezzo for those MOTNA patients. Said OK, he and staff will continue to find new patients. OxyContin Q12h with broad formulary coverage
PPLPMDL0020000001	Cleveland	OH	44113	10/11/2013	Discussed OxyContin dosing strengths along with Q12h, reviewed Butrans for those patients requiring around the clock analgesia. He along with Dr. Shen will continue to find new patient starts
PPLPMDL0020000001	Beachwood	OH	44122	10/11/2013	Reviewed 15 Butrans and asked pharmacy if they would bring in a box and they said they don't do enough Fiamm to bring in a box and I discussed the 30% reduction in sight. Review flexible dosing of OxyContin stressing the 15 and 30 mg tablets. Gave indication limitation abuse and dosing and administration of intermezzo. Reviewed managed-care environment for all three products

PPLPMDL0020000001	Olmsted Falls	OH	44138	10/11/2013	I made a drop in visit to speak with head of education I was informed by the receptionist, Barb Larsen that Michelle Stepek in staff development handles education for the facility. She called her office, N/A I confirmed the director of nursing as Robert Album, He also was not available. I left a Purdue nurse educator pamphlet along with my business card
PPLPMDL0020000001	Cleveland	OH	44113	10/11/2013	Discussed OxyContin dosing strengths along with Q12h, reviewed Butrans for those patients requiring around the clock analgesia. She likes product and will continue to find new patient starts. Reminded of Medco/ESI formulary status
PPLPMDL0020000001	Cleveland	OH	44113	10/11/2013	Reminded of OxyContin Q12h flexible dosing along with broad formulary coverage Reviewed Butrans for those Lortab failures requiring around the clock analgesia, along with Intermezzo for those MOTNA patients. dosing. Said OK and will continue to find new patients
PPLPMDL0020000001	Hudson	OH	44236	10/11/2013	Gave dr review of the Maggie profile for OxyContin. I asked him what he thinks about the treatment? Dr said he can't believe the patient was taken all the way to 80mg of Percocet. I asked him what he would change and he told me he would start the ER oxycodone earlier. I died when and he said probably would have looked at starting at 30-40mg. I told dr to do that more in his practice. Dr agreed. Handed him the nancy profile for Butrans and asked him to use it.
PPLPMDL0020000001	Westlake	OH	44145	10/14/2013	Saw thru winDow, discussed the appropriate type for Butrans based a lunch dis suasion we had 2 weeks. The np said she didn't remember the mcg of Butrans or how long the patch is to stay on the patie t. Review the naive study, showed appropriate patient type, starting dose and where to apply patches. No said she would try it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	10/14/2013	Led with insight about hydrocodone and asked him his thoughts. Dr said that he doesn't really see that in his practice because he said he switches he's patients to the ER opioids much sooner. I discussed the start principles and then discussed appropriate patients for OxyContin and reviewed the per octet patient needing a dose adjustment. I died for OxyContin for those patients and he said its the one he goes to. Butrans indication,dosing,titration, application sites,schedule 3,7 day transdermal system. I reviewed the AE's, efficacy from opioid experience trial and patient types. Dr said he will give it a try because he likes the idea. Reviewed managed care and Medicare D coverage. Dr said he will use it. Spoke with Brittany in depth about the practice specifics.
PPLPMDL0020000001	Akron	OH	44313	10/14/2013	Followed up with dr about his Butrans prescription the last time I was there at lunch. I asked dr if his patient got Butrans filled after he had a hard time finding the 5mcg dose? Dr said he didn't know for sure but has not heard from the patient. I showed dr the new dose of Butrans and explained the dosing and conversions. I reviewed the nancy profile in that same piece and asked for his continued business. Dr agreed.
PPLPMDL0020000001	Westlake	OH	44145	10/14/2013	Spoke to pharmacist regarding stocking 15mcg. Also discussed placement of the patch
PPLPMDL0020000001	Richmond Heights	OH	44143	10/14/2013	I placed a call to nurse educator, Sheila Harris to discuss the next educational in-service opportunity .I spoke with the receptionist, Darlene who informed me that Sheila was in a clinical meeting , she took a message
PPLPMDL0020000001	Westlake	OH	44145	10/14/2013	Saw dr we discussed the patient he to,d me about that he writes a 10 and 5 mcg to make 15 and told him the 15mcg was now available. I also asked if he was willing to send a fax on his script pad requesting the had any stock the 15 and dr said he would do that. Dr said he writes mostly ten mcg.. I said that was great and asked if he changed their medication. When they came to him or if they were on it before? Dr said he switched and asked why...he said he has good luck w Butrans. <font color=blue><b>-b>-CHUDAKOB's query on 10/25/2013</b></font>-Lia, when a physician tells you that he prescribes a product that is not in line with our FPI we have an obligation to correct him and record that in our call notes. In this call, you should have told him that we have no recommendations for applying two patches on a patient before you explained about the 15ug. Does this make sense?<font color=green><b>-b>-BARTOLI's response on 10/28/2013</b></font>Yes. Will do.<font color=blue><b>-b>-CHUDAKOB added notes on 10/28/2013</b></font>-Thank you!
PPLPMDL0020000001	Berea	OH	44017	10/14/2013	Saw dr talked about who he might feel comfortable giving Butrans? He's aid he just hasn't seen anyone yet. I said maybe is week u will find a NSAID patient not currently controlled that would benefit from a atc extended release patch technology.
PPLPMDL0020000001	Westlake	OH	44145	10/14/2013	Spoke to ma, she said that dr never writes OxyContin and doubts she would. I asked if the dr ever wrote Percocet? She said very rare, I explained the delivery system. And the variety of doses. Gave her to give leave behinds for the dr.
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/14/2013	I placed a phone call to Michelle Stepek in staff development, to follow-up from a visit on Friday 10/11. I spoke with Michelle, she informed me that she was not in charge of education for the facility. Michelle forwarded me to the director of nursing, Robert Albu. I left the message on his voicemail requesting an appointment to talk to him about educational in-service opportunities
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/14/2013	Spike to office manager, they are preparing to get bought out so lunches are frozen for a while. Mentioned Butrans and she remembered, I gave her the highlight, such as the 7 day transdermal patch and the indication.
PPLPMDL0020000001	Akron	OH	44333	10/14/2013	Introduced the 15mcg Butrans dose today and when to use it. Dr said he thinks he prescribed one today. Discussed the need for it when patients need a little more than 10 and maybe not double the dose. Discussed locations in the area that have it in stock or at wholesaler. I asked dr for continued prescribing and said that the protocol for Butrans is working well so far. Dr said that all prescribers in his practice will need to trial Butrans after 3-4 prn medications. He will have a new NP starting at the end of the month.
PPLPMDL0020000001	Fairlawn	OH	44333	10/14/2013	Spoke with Kay the pharmacist technician about Butrans 15mcg. I asked if she could look into the system to see if McKesson has it in stock? Kay said the pharmacist is too busy and said they don't fill it much but they do have the 10mcg dose in stock. Kay said if they see a prescription for it they will order it. I told her about the OxyContin dosing, titration and conversions. Kay said they fill it regularly and the 20 and 40mg doses are most common.
PPLPMDL0020000001	Akron	OH	44333	10/14/2013	I showed her the dosing card for intermezzo and asked if she has seen any? She said no. Nothing else learned. I asked dr if there is a scenario where he would have a patient on low dose Percocet like 20mg and a dose adjustment is necessary to go to OxyContin 10mg q12h? Dr said yes but there aren't many because he takes them up to around 40mg before he switches. I asked him why his threshold is 40mg? Dr said that's just his limit. I told him based on the pathology of the patient there may be a situation where the ER oxycodone may be appropriate? Dr said there is but said he has to balance the medicines prescribed and cost. Dr said many patients will not pay a branded price for pain medicines. I told him to be selective with patients of course and to focus on commercial and Medicare D plans. Dr said ok. Gave him the new Butrans 15mcg dose and asked him if he has experience with the 10mcg dose? Dr said he thinks so. I told him he has another dose to titrate through and to continue prescribing for his patients failing vicoden. Dr said thanks
PPLPMDL0020000001	Garfield Hts	OH	44125	10/14/2013	Reviewed Butrans dosing/titration guide along with reminder of 15mcg/hr dose, OxyContin- Q12h/flexible dosing strengths along with broad formulary coverage
PPLPMDL0020000001	Akron	OH	44333	10/14/2013	I introduced the Butrans 15mcg to Dana. I told her that I'm guessing that she has experience titrating through the Butrans doses? Dana said she does have and has patients on each dose. I asked her if the 15mcg dose would be a good way to continue titrating through the doses? She said yes and is glad to know that they made a step therapy between the 10 and 20mcg dose. I asked where she has been using Butrans? Dana said they have been getting a lot of patients from other pain offices recently who are way up on their total opioid dose. She said that because of that, it has been taking more time until a patient is ready for Butrans follow a reduction of total opioid dose. I told her to continue to look for the patients needing a dose adjustment on tramadol or vicoden. Dana said that's when she uses it most. I asked for continued prescribing. Sowed her the OxyContin conversions from the conversion and titration guide and asked her to converts patients on Percocet who need a dose adjustment. Dana said the doctors have to do that. She doesn't prescribe schedule 2 medicines.
PPLPMDL0020000001	University Hts	OH	44118	10/14/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia. Left MedCo/ESI formulary status
PPLPMDL0020000001	Westlake	OH	44145	10/14/2013	Dr Duncan's nurse came to the window because dr was too busy today. Discussed OxyContin, the savings program as well as Butrans. She was not fami,air with Butrans, gave her a brief overview however she thought it was an opioid that dr Duncan wouldn't use. When I asked why she said he doesn't treat much w opioids. Left behind the fpi and the Maria profile for review.
PPLPMDL0020000001	Westlake	OH	44145	10/14/2013	Spoke np and he said it was a great second line product when a short acting opioid doesn't work.
PPLPMDL0020000001	Cleveland Hts	OH	44118	10/14/2013	Introduced Butrans 15mcg/hr dose presentation, Reviewed MedCo/ESI formulary status, Dr. said he is continuing to find new patients, did have a RX rejection last week, continues to work on PA's. OxyContin Q12h flexible dosing along with broad formulary coverage
PPLPMDL0020000001	Berea	OH	44017	10/14/2013	Hallway- gave dr an updated Butrans fpi. Discussed trying Butrans after Tramadol failure...and reminded him that it was a 7 day transdermal extended release options (refills) for patients with atc pain. Asked him to just try one patient this week to gain some experience with it.
PPLPMDL0020000001	Solon	OH	44139	10/14/2013	I made a drop in visit to speak with Greta Redus . I spoke with Minnie from central supply, at the reception area . She called Greta's office , I was informed that Greta was in a meeting I left a Purdue nurse educator brochure along with my business card
PPLPMDL0020000001	Twinsburg	OH	44087	10/14/2013	I made a drop in visit to speak with director of nursing , Shawn McMahon to introduce Purdue's Nurse Educator program and discuss educational in-service opportunities. The receptionist informed that he was in a clinical meeting. I left Purdue's Nurse Educator brochure along with my business card
PPLPMDL0020000001	Berea	OH	44017	10/14/2013	Spoke to dr regarding patients she currently treats that have pain secondary to a known pathology. She said she has very few and I told her that was fine to focus on those few. She doesn't like to use opioids she said. I asked what happens after NSAID aren't doing e job at c troll their pain. She said short acting opioids for a short period of time. She said a few Tramadol or Vicodin a day supplemental for a month. I asked what happens at that monthly appointment. If the patient still is in pain, she refers them out or continue. I said what was the downside to giving Butrans 5mcg instead of the per opioids she mentioned. If the patients were controlled at the monthly visit they continue therapy. Gave abuse potential information and also reminded it was schedule 3 refill class.
PPLPMDL0020000001	Cleveland Heights	OH	44118	10/14/2013	Reviewed Butrans 15mcg/hr presentation, Along with MedCo/ESI formulary status, believes Dr. Harris in. rejection is resolved. OxyContin q12h flexible dosing strengths along with broad formulary coverage
PPLPMDL0020000001	Solon	OH	44139	10/14/2013	I Made a visit to speak with Dir. of Nursing , Judith Sawnter to reschedule educational in-service on pain management. I was informed by the receptionist that Judith retired and is no longer with the facility. The new director of nursing is Denise Ubienski , she also informed me that they have a new administrator, Vivian Springer. The director of nursing was not available. I spoke with Vivian and introduced myself and Purdue's Nurse Educator Program. Vivian said "I will pass this information along to our director of nursing, if she is interested she will call you"
PPLPMDL0020000001	Solon	OH	44139	10/15/2013	Quick call, Discussed with dr the OxyContin conversion from Percocet and the oxyplain insight. Dr said he uses OxyContin. Dr had to attend to patiens but I reminded him to think about Butrans for patients needing a dose change from tramadol.
PPLPMDL0020000001	Parma	OH	44134	10/15/2013	Gave Dr. the pain reduction insight and he said he doesn't really go by that because he doesn't use the pain intensity rating scale. I asked Dr. about converting patient from Percocet to OxyContin and he said that he likes OxyContin because it works better than the generic and we had another discussion about OxyContin not being Generic.
PPLPMDL0020000001	Cleveland	OH	44102	10/15/2013	I recv'd a phone call from Mark Gutkowski, confirming an in-service for 10/16 @ 12:00, 5th floor education room.
PPLPMDL0020000001	Cleveland	OH	44104	10/15/2013	Reviewed Butrans 15mcg/hr with tech, and OxyContin vouchers. Will review with Hakim
PPLPMDL0020000001	Cleveland	OH	44106	10/15/2013	Obtained Ortho and Infectious Disease depts. left info and contact info
PPLPMDL0020000001	Cleveland	OH	44122	10/15/2013	Upon arrival for a 1:30 in service on constipation, I was greeted by, staff development coordinator, Heather Gordon , she informed me that she forgot to post the in-service for today because a last-minute orientation was scheduled. She asked if we could reschedule the in-service. Heather stated "I'm so sorry but I'm still trying to get used to this new role" The constipation in-service was rescheduled for November 14 at 1:30 and 2 PM for nurses and STNA's. I also talked with Heather again about scheduling a Butrans luncheon for the nurse practitioner. She informed me that there are five on staff and she will get in contact with them to set something up. She will keep me informed. I asked Heather for her email address, she will call and leave it on my voicemail.
PPLPMDL0020000001	Cleveland	OH	44106	10/15/2013	Obtained info, Left OxyContin/Butrans Initiation/Titrations guides. Dr. Gripshower is Medical Dir. Residency Fellowship Dir. Dr. Salata
PPLPMDL0020000001	Cleveland	OH	44106	10/15/2013	Obtained Ortho Dept. info, (Program dir. Dr. P.Getty - Ellen-Admin. Left OxyContin initiation/Titration guides
PPLPMDL0020000001	Cleveland	OH	44104	10/15/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock pain control. OxyContin Q12h with broad formulary coverage with multiple dose strengths
PPLPMDL0020000001	Cleveland	OH	44104	10/15/2013	Reviewed OxyContin Q12h flexible dosing strengths. Presented 30% pain intensity reduction, Dr. said that was significant. Had a PA Caresource rejection yesterday for existing prior patient, Said they are working thru it.
PPLPMDL0020000001					Reviewed MedCo/ESI formulary status. Introduced Butrans 15mcg/hr dose. Intermezzo for MOTNA/dosing and savings card

PPLPMDL0020000001	Cleveland	OH	44119	10/15/2013	I made a drop in visit to speak with administrator , Nancy Sugarman To follow up from our meeting on August 20. I spoke with the receptionist, Erica who informed me that Nancy was currently in a meeting. I left a Purdue Pharma Nurse Educator brochure along with my business card.
PPLPMDL0020000001	Cleveland	OH	44104	10/15/2013	Quick Butrans reminder for those Tramadol failures patients requiring around the clock analgesia, OxyContin Q12h broad formulary coverage
PPLPMDL0020000001	Parma	OH	44129	10/15/2013	Quick call following up on last weeks discussion about tramadol patients like Scott and Dr. said he will keep that in mind. Shoot Dr. the start principles in the detail piece and highlighted the conversion from Percocet to OxyContin. Show Dr. the vouchers for intermezzo and asked him if he's been able to use any for patients suffering from middle of the night awakenings and he said no.
PPLPMDL0020000001	Cleveland	OH	44128	10/15/2013	I made a drop in visit to speak w/ acting D.O.N., Sherri Grafnitz to talk w/ her about rescheduling the in-service on pain documentation that RoseAnne Howell cancelled on 8/14. I spoke w/ the receptionist, Lisa H. who informed me that Sherry just went into a meeting in the chapel. I also confirmed that Roseann Howell was no longer with the facility. I left a Purdue Pharma nurse educator brochure along with my business card.
PPLPMDL0020000001	Westlake	OH	44145	10/16/2013	Saw the doctor thru window, discussed the q12h delivery system and the number of doses available to give patients an option. The appropriate patient type for Butrans using Maria profile. 7 day patch, 4 patches a month. Commercial insured coupons.,
PPLPMDL0020000001	Akron	OH	44320	10/16/2013	I asked dr if it was fair to say that most of her Butrans prescriptions come from patients on vicoden and Percocet? Dr said yes because we have had that discussion. I asked her if it is also fair to say that she has patients on tramadol around the clock? Dr said she does have many of them. I told her that when patients are on that more than 90 days, she may need to consider other options for analgesia. I showed her the Scott profile and reviewed it. I asked her if she would use Butrans for those patients when a dose adjustment is necessary? Dr said it makes sense and will. Introduced new 15mcg dose. OxyContin Maggie discussion and dr said she would have started OxyContin much sooner. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44320	10/16/2013	Sort discussion at counter and told him that Butrans is a product he should be prescribing much more often because he can use the schedule 3 transdermal system for those patients wanting a dose adjustment on products like vicoden. I showed him the nancy profile and introduced the new 15mcg dose. Dr said he agrees with me and that I was right. Dr took the conversion chart and said he was going to keep it with him.
PPLPMDL0020000001	Cleveland	OH	44113	10/16/2013	Visited Ortho (Stearns/Bilfield) left OxyContin/Butrans info. Inquired from (Debbie RN) protocol, Referring patients to 2E floor
PPLPMDL0020000001	Rocky River	OH	44116	10/16/2013	Discussed Butrans stocking, they have the ten I. Stock but not the 15mcg. Discussed placement of the patch. Review of the pain scores from the naive study. Review of OxyContin the delivery system and dosages. Intermezzo, dose specific
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	Discussed conversion from Percocet to OxyContin for those patients who have been on more than 3 months and asked if could think of patients like that in his practice. He said he has a few patients that fit this criteria. I asked why he has not moved them to OxyContin in the past and the dr did not have an answer. Dr said he will try to remember. Reviewed efficacy of Butrans opioid naive trials and 7.2 to 2.6 pain reduction. Dr said he has to remember. I asked the dr to prescribe after tramadol.
PPLPMDL0020000001	Westlake	OH	44145	10/16/2013	Spoke to Megan, left behind the the opioid experienced study and reviewed. The inclusion criteria and the end point of the study. Showed her the demo patch covered managed care.
PPLPMDL0020000001	Fairlawn	OH	44333	10/16/2013	Sue the technician told me today that she had a patient come in of dr Fouads who had a prescription for the Butrans 15mcg. Sue said they didn't have it in the store so the patient went somewhere else to get it because he didn't want to wait a day. I spoke with Gilbert who did not know this. I told him that this was a case that I have been trying to tell him about. Patients do not want to wait a day for their pain medicines! Other disease states maybe but patients need their analgesics! Gilbert agreed and said he was going to order it today.
PPLPMDL0020000001	Cleveland	OH	44102	10/16/2013	I completed a pain management in-service for the nursing staff, 13 were in attendance. Sales Representative, Mark Gutkowski presented Butrans after completion of the pain management in-service. I was introduced to pharmacy consultant, Ed Carter. Director of nursing was confirmed As Colleen Wilson. Mark did inform me that he has this facility on his target list.
PPLPMDL0020000001	Westlake	OH	44145	10/16/2013	Spoke to ma, dropped off the naive study gave her two things to keep in mind: pain score reduction and the patients never been on an opioid but have atc pain.
PPLPMDL0020000001	Cleveland	OH	44102	10/16/2013	Provided In-service for Pharmacy staff and Nursing staff (Cindy Schulte- Purdue RN nurse educator)
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	Asked Dr. if she is doing refills for her Butrans patients. She said she was for some of them and I asked if she has any new patients. I reviewed the Scott profile with tramadol. I reviewed flexible dosing of OxyContin
PPLPMDL0020000001	Westlake	OH	44145	10/16/2013	Spoke to the ma regarding Butrans, reminded about the 7 day patch option. Refills and the commercial saving plan. When saw the doctor, I here was going to leave her two easy reads on why to write Butrans. Pain scores in patients never been on opioids before with the FDA approval study, and a Maria patient profile....that we can talk about And might be a fit for here w ur patients.
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	Spoke with nurse about the patient information tear sheets and if the dr had approached her with any questions about Butrans. She said she would ask and dr walked by us. He joked and said he did remember from our lunch last week but he has not written since I just saw him last. I cited the pain reduction for. I sited the pain reduction from the opioid naive trials 7.2-2.6 and left a titration guide. I also told him I would leave the OxyContin titration guide and showed him the Percocet conversion.
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	Quick window call. Let dr know that Butrans 15 is available and he said he still can not understand why there was never a 15 to start with. I asked if he had patients in mind that he would be prescribing the 15 for and he said a few. I reminded him of proper titration from the 10 to the 15 for opioid experienced patients. Told dr I was leaving the OxyContin start principle titration guide.
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	Told Linda know the 15 was available and she said she had a patient in mind. I asked how long the patient had been on the 5 and she told me they were on the 20 and she wanted to titrate them down. I said I did not have information on how to do this but what was she thinking of doing. I also reviewed proper initiation dose of Butrans for opioid experience patients. Told her I would leave the OxyContin titration guide for her review and she said don't bother because this office has a policy not write OxyContin. Reminded Linda of her care source patients with motna and reviewed intermezzo dosing and administration and limitation of use.
PPLPMDL0020000001	akron	OH	44333	10/16/2013	Dr told me that dr Dahlen in Cuyahoga falls, left the practice with Ross Black and is starting up with UH. Dr said that he will be getting 3,000 new patients of his until he starts back up. I told dr that he will have lots of opportunity to use Butrans. I reviewed patients types like Scott and nancy, reminded of conversions and titration through the 20mg and to use the 15mcg. Dr said he understands and will be on the lookout.
PPLPMDL0020000001	Cleveland	OH	44102	10/16/2013	Attended pain inervice with Cindy, Reviewed Butrans Initiation/Titration guide, Requested OxyContin administering info. sent request to medical services- <font 10="" 2013&lt;="" 25="" 28="" a="" an="" and="" are="" augustine="" b&gt;&lt;="" be="" call="" calls.="" carter="" clarification.&lt;font="" closed="" color="blue&gt;&lt;b&gt;CHUDAKOB" considered="" discussed="" ed="" font&gt;-thanks="" font&gt;<="" font&gt;mark,="" for="" him.&lt;font="" in="" institution="" is="" mcp="" not="" note,="" on="" pharmacist="" put="" query="" response="" st.="" td="" that="" the="" these="" this="" what="" where="" with="" would="" you=""></font>
PPLPMDL0020000001	Cleveland	OH	44113	10/16/2013	Visited Ortho.(Bilfield/Stearns) Left OxyContin/Butrans Initiation/Titration guides
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	Window call reminding dr about using Butrans for the Scott profile patient. Gave titration guide for OxyContin and discussed conversion from Percocet
PPLPMDL0020000001	Parma	OH	44129	10/16/2013	I confirmed with pharm tech that Butrans 15 was now in stock. Reviewed intermezzo indication and limitation of use. Reviewed start principle for OxyContin, stressing titration every 1-2 days, 25-50%.
PPLPMDL0020000001	Cleveland	OH	44102	10/16/2013	Attended pain inervice with Cindy, Reviewed Butrans Initiation/Titration guide, Requested OxyContin administering info. sent request to medical services
PPLPMDL0020000001	Cleveland	OH	44113	10/16/2013	Quick reminder of Butrans for those Tramadol failures requiring around the clock analgesia, Informed of pain in-service conducted at St. Augustine, said thank you and will consider. OxyContin Q12h Initiation/Titration guide<font color=blue><b>CHUDAKOB's query on 10/25/2013</b></font>Mark, if he is an OxyContin Core then this should be the emphasis on the call. It looks like Butrans was the emphasis here.<font color=green><b>GUTKOMMA's response on 10/28/2013</b></font>-Ok<font color=blue><b>CHUDAKOB added notes on 10/28/2013</b></font>-Thanks. Be sure you are placing the product emphasis based on your designation
PPLPMDL0020000001	Cleveland	OH	44103	10/16/2013	Reviewed OxyContin Q12h flexible dosing strengths along with broad formulary coverage. Dr. said OK and is still thinking about Butrans as well. Left Initiation/Titration guide
PPLPMDL0020000001	Independence	OH	44131	10/16/2013	Reminded dr of his decision to consider Butrans after tramadol and he said he had forgotten. I reminded him the the pain reduction from 7.2 to 2.6 and gave him the titration guide. Showed dr the Percocet to OxyContin conversion in the detail piece. Dr asked about intermezzo savings cards and I told him he has some in stock but I would gladly provide him with more.
PPLPMDL0020000001	Akron	OH	44313	10/16/2013	I showed dr the Tom profile for OxyContin and asked him when he knows its time to move to an ER opioid like OxyContin? Dr said usually depends on the patients pain level and how they function throughout the day. I asked if he has threshold of pills to move to an ER opioid? Dr said again it depends on the patient but usually around 4 pills of Percocet. I told dr that is great and that if a patient is taking 20mg of Percocet a day it would convert to 10mg of OxyContin q12. Dr said ok. Dr asked if there are savings cards for Butrans? I told him yes and showed him the card and reviewed it and to, d him they are only good for the commercial patients. I asked dr if he is going to write it and he said he plans to.
PPLPMDL0020000001	Westlake	OH	44145	10/16/2013	OxyContin, talked about when he would use this typically? He said his nursing home patients. Same as Butrans he said. Dis used the delivery system of both products. Dr said less pills is why he writes OxyContin and he said he tried to write Butrans twice but it for rejected. I said Medicaid? He said no Medicare part d. Discussed there we so many plans under that umbrella and discussed not to stop trying and the plans we were covered under also reviewed the com Erica, savings plan. The dr said he thought of Butrans because its less doses a month and less work for the staff. I said that's great, but also discussed naive study....pain scores, how they could supplement w NSAID and he could use it elsewhere. Showed Maria. The age, her illness, and the NSAID she was talking.....why shouldn't Butrans be her first opioid? Dr said he was sold, he just needs to find someone on a commercial plan. I said sounds great. Dr told me he was having a few med students in the office at 2 for lunch. I offered to bring lunch and had a Butrans video that would be s identification for them to learn from. Dr agreed.
PPLPMDL0020000001	Cleveland	OH	44113	10/16/2013	Quick reminder on Butrans, for those Tramadol failures requiring around the clock analgesia. Intermezzo for MOTNA/dosing , Said she will keep in mind.
PPLPMDL0020000001	Richmond Heights	OH	44143	10/16/2013	I dropped in to speak w/ Sheila Harris to schedule an in-service on pain as she requested. I was informed by the receptionist, Darlene that Sheila was not available. I left my business card and followed up with a phone call, N/A, I left a message on her voicemail
PPLPMDL0020000001	Westlake	OH	44145	10/16/2013	Discussed Butrans. Dr was not familiar with this product. In depth over view using 30 percent pain reduction insight, naive study and Maria profile. Dr said for atc pain after NSAID would use Tramadol. I asked why she said it has less abuse potential and less side effects. Reviewed Butrans, discussed abuse potential and not to apply direct heat such as so asking in a tub for example with the patch on. Showed the demo patch and discussed placement. Also showed her the adverse relations from the core visual aid. Told her I had no comparison between other products and Butrans but she could review it. Dr said nothing seemed too high. She asked about dosing, she thought it was a 3 day patch. Discussed 7 day patch, therefore 4 applications a month. Dr started to name a few patients to her ma that might use Butrans. I asked why they came to mind first. And she said one of the patients hates taking pills and this could be an option for him. Dr asked about oxycontin a reformulation and asked if the product was different now. I said it was still oxycodone single entity. Gave her the reformulation leave behind and discussed a few areas. Discussed it still had abuse potential. Review of cost, also about commercial insured patients. Dr said she wrote intermezzo before, but didn't remember why she wrote it. Discussed indication and dosages. Also worked with Val the ma who handles the pa since she would be the point person on e calls. Val was very familiar with intermezzo. And the dr writ
PPLPMDL0020000001	Richmond Heights	OH	44143	10/16/2013	I made a drop in visit to speak with Joan Southard to see about scheduling a future in-service. I was informed by the receptionist, Cheryl that Joan was in a family meeting I left my business card along with Purdue Pharma's nurse educator brochure.
PPLPMDL0020000001	Akron	OH	44333	10/17/2013	Discussion over lunch about all products. I asked Stephanie about her patients and what she is seeing most? She said that she typically doesn't see patients other than those who are already on ER opioids. I asked her if she sees any on IR at all? She said yes, some but the majority are already on OxyContin or Butrans. I asked her if she has had the opportunity to discuss the patients success or failure on Butrans or OxyContin? She said yes and she knows that most are doing fine but leaves the titration up to the doctors. I discussed how she can assess patients that are appropriate for Butrans or OxyContin correct? She said she does and then discusses it with the doctors. I reviewed Butrans dosing, titration, appropriate patients and steady state as well as insurance and copy cards. OxyContin dosing, titration, steady state and tailoring the dose. Finished with intermezzo and asked her to listen for patients tell her that they have trouble getting back to sleep after waking up.
PPLPMDL0020000001	Parma Heights	OH	44130	10/17/2013	I was in the area and made a drop-in visit to meet w/ D.O.N., Katherine Myers to introduce Purdue's Nurse Educator Program. I spoke w/ the receptionist, Sherry Majoris, who informed me that Katherine, was in a meeting. I left my BC and later called to follow up, but I received her voicemail. I left a message that I would like to set up an appointment with her to discuss educational in-service opportunities..

PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/17/2013	Spoke with pat the pharmacist about new Butrans 15mcg. I told him that Barry told me a few weeks ago he would get it in stock. Pat said he doesn't see it in yet but will order for sure. I asked him how much of each dose he has been ordering. Pat said the overwhelming dose ordered is the 20mcg. 10mcg dose next then 5mcg. Pat said he knows the 5mcg will move based on those numbers. Reviewed patient types for Butrans and OxyContin and asked about his stock of copy cards for Butrans and OxyContin? Pat had no OxyContin cards left and outdated ones for Butrans. Reviewed new cards and to make sure he gives them out for commercial patients if they don't have one already.
PPLPMDL0020000001	Akron	OH	44333	10/17/2013	I asked dr what he is currently doing for patients that come in on tramadol or vicoden and complain of pain? Dr said he would like to think about morphing them to an ER opioid. I asked him if there is any hang up with doing so? Dr said a couple which are convincing the patient they need an ER opioid and cost. I told dr that he should tell the patient which therapy may be best suitable for the patient and say with conviction! I told dr that he is the specialist and that he should provide sound reasoning as to why an ER opioid is best. I told dr to think more Butrans when patients are needing a dose adjustment on tramadol and vicoden and OxyContin for patients needing an adjustment on Percocet or not taking the IR oxycodone as he has prescribed. Dr agreed and said he will think more Butrans and said he wanted a review of insurance the next time I visit.
PPLPMDL0020000001	Mayfield	OH	44143	10/17/2013	Intermezzo reminder, savings cards, trial cards. Dr Mandel, while I realize you've told me it would be rare for you to initiate Butrans, I would like you to review this opioid naive trial & discuss further next visit. He says "I don't want to jump into Butrans" right now but I'm happy to look over your info". Fair enough I said. He then asked for my business card. He says he just returned from the annual Rheumatology conference. Their group needs support as well as information about new products. Perhaps Purdue can get involved in some way with exchange of information for fall of 2014 conference. He will have a committee member contact me, then we can connect Purdue with appropriate planning person. E says thus committee was involved in Ohio house Bill 93. Ok dr Mandel sounds good, I will look forward to hearing from you.
PPLPMDL0020000001	Cleveland	OH	44115	10/17/2013	Intro. Butrans 15mcg. George hasn't seen any yet. Reviewed OxyContin dosing strengths
PPLPMDL0020000001	Parma	OH	44129	10/17/2013	Followed up the availability of Butrans 15 and asked if she had some patients she was considering. She said there was a patient who she was considering but he developed a rash. I asked was this the patient she previously mentioned to me that I entered an adverse event for and she said yes. I reviewed Intermezzo indication and she said it is being used in the nursing home. Left OxyContin titration guide said that even though she does not prescribe it there are patients that come to her already on OxyContin and I wanted her to under.
PPLPMDL0020000001	Uniontown	OH	44685	10/17/2013	Good discussion on all products over lunch. I led off with the insight on hydrocodone and asked him his thoughts. Dr told me that it doesn't apply because he said he does whatever he can do to get his patients on extended release opioids as soon as possible. Dr said he doesn't want to mess will the things that are involved in keeping patients on short acting opioids. I asked dr how soon on average does he convert patients to ER opioids from hydrocodone? Dr said he will allow the patient to have no more than 20mg a day of any opioid and if they have been on it for more than 6 months he converts them anyway. I asked dr which ones he moves to? Dr said he has been using a lot of OxyContin and finds it works well and is covered on insurance. I discussed the dosing options and titration. Dr said he likes Butrans a lot but early on had issues with insurance coverage but said over the last month things have gotten better. I discussed dosing and patient type selection. Dr said he wishes more of his patients could use it because it does work well. I asked him why he can't prescribe it more? Dr said he plans to and asked about insurance coverage with BWC and Medicaid. I discussed BWC is still paying for it and discussed the Caresource PA. Dr said he didn't know about BWC and that he will use it more for those two patient populations. Intermezzo indication, dosing and limitations of use.
PPLPMDL0020000001	Cleveland	OH	44113	10/17/2013	Reviewed OxyContin Tablet strengths along with formulary coverage, said he is a confident treater. Referring most chronic/long term patients to PM Discussed 30% pain reduction, 2 point pain reduction, said it was significant, went over Butrans initiation/titration, 15mcg/hr and formulary coverage.
PPLPMDL0020000001	Cleveland	OH	44113	10/17/2013	Reviewed OxyContin Tablet strengths along with formulary coverage, said he is a confident treater. Discussed 30% pain reduction, 2 point pain reduction, said it was significant, went over Butrans initiation/titration, 15mcg/hr and formulary coverage. Concerns with BWC this week.
PPLPMDL0020000001	Cleveland	OH	44114	10/17/2013	Reviewed Butrans for those Tramadol failures for patients requiring around the clock analgesia. OxyContin Q12h, titration and broad formulary coverage
PPLPMDL0020000001	South Euclid	OH	44121	10/17/2013	Lunch. IR oxycodone insight. he will consider converting patients earlier to controlled release OxyContin. dr Flagg says he uses OxyContin on regular basis, likes efficacy of product has no issues with coverage or cost. We review the START principles, they offer you assistance with conversion, titration& act as a reminder to continually re assess your patients. We went through each of the 7 doses, we discussed steady state & ability to titrate every 1-2 days if needed. He will continue to write OxyContin. Let him know of \$90 savings cards he says he hates having to remember savings cards, concern with them expiring. I stated how about asking you ma Jen to and out, he says he doesn't want her to have to worry about them either. I let him know I will speak to Jen about med d & commercial coverage & leave grids @ his primary office. Butrans, used pain reduction insight. Then went through opioid. Naive BUP 3024 page by page. He was impressed by 4.6 reduction in pain score. In the middle of detailing, he asked how much is Butrans for a cash paying patient? I replied its over \$300 per month, so that's why it's critical for patients to have access to trial, savings cards. I told him I leave at pharmacies& many pharmacies use Relay Health, a point of sale savings program. I told him if any patient needs a card, & it is not available at pharmacy, to have Jen call me, give me pharmacy name, & I will drop off @ pharmacy for patient to pick up. He replied, ok, just make sure cards there
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/17/2013	I reviewed the opioid naive trial with dr hitting on inclusion/exclusion criteria, efficacy, titration and safety. I asked dr what he is currently doing when patients on NSAIDs need an adjustment? Dr said he is usually moving them to a short acting opioid. I discussed how Butrans may be a good option for patients that may not be suitable for a short acting opioid. I told dr about conversions, patient types and site applications. Dr said he knows he has room for it but will be very choosy. I told dr that it is a good idea to be choosy about patients appropriate. Showed him the demo patch and asked for his commitment to try it. Dr said ok.
PPLPMDL0020000001	Independence	OH	44131	10/17/2013	Dr was unavailable to speak with me and so was his pa. Reviewed flexible dosing and left OxyContin titration guide. Reviewed opioid naive study with Judy his ma.
PPLPMDL0020000001	Parma	OH	44129	10/17/2013	Dr said she uses 25% of the daily dose of oxycodone for breakthrough pain and she uses OxyContin because she believes morphine is constipating. She was not aware of the flexible dosing and said she will use the titration guide as a reference. She was not aware of the 15 and 80 mg. she said Butrans does not provide her patients with the pain relief they need and I asked who she tried it on in the past. Dr gave Butrans to a younger patient and experienced insurance coverage problems. I reviewed the titration guide.
PPLPMDL0020000001	Cleveland	OH	44113	10/17/2013	Discussed Butrans for those LorTab failures requiring around the clock analgesia. Reviewed 15mcg/hr dosing/Initiation/Titration. Said as always he will keep in mind. OxyContin flexible dosing strengths, Initiation/Titration
PPLPMDL0020000001	Cleveland	OH	44115	10/17/2013	visited Pain mgmnt ctr. Reviewed OxyContin and Butrans Initiation/Titration guides
PPLPMDL0020000001	Stow	OH	44224	10/17/2013	I told dr that I am guessing that he prescribes tramadol and vicoden? Dr said he does. I asked him what the prescription look like when he writes it? Dr said he will write it either 1-2 pills q4 or q6. I asked dr how often he believes his patients follow the plan that he sets for his patients. Dr laughed and said he patients either take the medicine too often or not enough. Dr said he has to take additional time with patients when they come in for follow up appointments because of them not doing what he has said. I asked dr what impact on him and his patients a 7 day transdermal system might have in patients following his plan for analgesia? Dr said that he never thought of it that way and that I made him think which is good. Dr said that he will keep Butrans in mind. I told dr to keep Butrans in mind when he goes to refill a IR opioid. Dr said ok.
PPLPMDL0020000001	Parma	OH	44134	10/17/2013	I completed a pain management in-service for nursing students from Honduras College, who are doing clinical's at this LTC facility. 10 were in attendance. The pain comfort assessment guide was handed out and reviewed with the students. Discussion and interaction took place. Several different types of pain along with barriers that interfere with assessing and managing pain and consequences of unrelieved pain were presented. The nursing instructor, Janine Messer was impressed with the presentation and inquired about other presentations available for her students. She inform me that they will be at this facility for the next 10 weeks and was interested in me presenting an in-service on constipation. I emailed the staff development Coordinator of the facility, Linda Belford and she will arrange the in-service. I also had the opportunity to speak with nurse practitioner, Kathryn Zaback on residence currently being treated with Butrans. Kathryn said "right now I think we have one resident on Butrans but I can't recall the diagnosis"
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/17/2013	Spoke with pharmacist about ordering Butrans 15mcg and was checking back to see if Cardinal had it in stock in their system? Pharmacist said that they do now show the 15mcg and have a qty of 17 in hand. She asked me if she thinks she will get prescriptions for it and I told her for sure they will 100%. She said she will speak with the pharmacy manager to see if they can order it.
PPLPMDL0020000001	Cleveland	OH	44113	10/17/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, MedCo/ESI formulary status. Said OK will consider
PPLPMDL0020000001	Akron	OH	44310	10/17/2013	I led off by asking dr when he has a patient on a short acting opioid like vicoden what the prescription looks like? Dr said it depends on the patient. I asked if he usually prescribes q6? Dr said yes, he will never prescribe more than 4 times a day for a short acting. I asked him how often those patients follow he guidelines and prescribing of that q6 regimen? Dr said not very often and stopped me and said he has a few patients on Butrans. I told dr its good he already knows I have Butrans and asked him what it would mean to his patients to only have to administer one patch a week for a month? Dr said it would make a big difference for many patients. I asked him the next time he goes to fill or refill a patient on their short acting to consider Butrans? Dr said he will.
PPLPMDL0020000001	Stow	OH	44224	10/17/2013	Reviewed the OxyContin Maggie profile for OxyContin and asked her opinion of the therapy. Dr said the patient did need to be put on OxyContin but said she would not have let the patient get to 80mg of Percocet. I agreed and she said she would have put the patient on 20mg of OxyContin q12. I asked her to take patients on 20mg of Percocet who need a dose adjustment and use OxyContin 10q12h. Dr agreed. I showed her the vicoden profile for Butrans and asked her to gain clinical experience when those stints need a dose adjustment.
PPLPMDL0020000001	Cleveland	OH	44114	10/17/2013	Reviewed OxyContin Q12h flexible dosing strength and broad formulary coverage. Butrans 15mcg/hr intro along with MedCo/ESI formulary coverage. Dr said he will keep in mind
PPLPMDL0020000001	Akron	OH	44319	10/18/2013	Followed up with dr from recent lunch and asked him where he is using OxyContin most often and what he is treating. Dr said he usually will not allow a patient to have more than 3 or 4 Percocet a day. Dr said if they get to that level he will convert them to OxyContin. I asked him to also consider the other end of the spectrum in treatment and what he does with his patients on tramadol who need an adjustment? Dr said knows know that Butrans can be used there. I agreed and said I'm glad he remembers our discussion. I told him to use Butrans and gain some clinical experience in that place. Dr said he plans to.
PPLPMDL0020000001	Cleveland	OH	44124	10/18/2013	Receptionist met assed Mary, looked at info I wanted to leave & freaked out when she saw OxyContin materials. Mary then went back to dr Guyuron RN Janine and also to another RN Terri. she says Terri does not want to talk with me at all. They have a total of 8 plastic surgeons there at the surgery Ctr. & the nurses said NONE of the doctors use OxyContin I also left information on Butrans & Intermezzo. I waited 20 mts to talk with RN & they said Wed & Fri are very hectic days. Best to stop other days. Dr is also chairman & professor of department of plastic surgery, case western reserve, Butrans mark g checked & dr g is full time in my territory.
PPLPMDL0020000001	Cleveland	OH	44109	10/18/2013	Followed up with Marcial(hospital nurse educator). Info was forwarded to PMR and IM depts.
PPLPMDL0020000001	Hudson	OH	44236	10/18/2013	Quick hello though window and asked dr if he knew about the 15mcg dose of Butrans? Dr said no and asked for the information. I gave him the piece and asked him if he will use it? Dr said for sure he will and said he knows of a couple patients now that he may need to move to the 15mcg and was hesitant to move them to the 20mcg. Dr said thanks. Nothing else learned.
PPLPMDL0020000001	Tallmadge	OH	44278	10/18/2013	I led off with the insight about hydrocodone and asked him what he sees in his practice? Dr said he doesn't prescribe many vicoden for patients but said he can understand why patients are kept on it. I asked why and he said its because of either cost or it works well. I told him that may be true but to focus on patients with commercial insurance and Caresource. I asked him if he thinks its ok if his patients are on short acting opioids for long periods of time? Dr said no but there is nothing he can do about it. I told him there is which is to prescribe long acting opioids where appropriate. Dr said ok. Gave him OxyContin dosing, conversions and asked for more business. Intermezzo indication and dosing and asked him to identify a few patients and to try it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/18/2013	Followed up with dr about the PA he had w/ the UHC community plan. I explained to dr that the p an is a Medicaid plan and this is their PA criteria. I asked if he did a peer to peer and if he would do it in the future to try to they the medication his wishes to prescribe go through? Dr said thanks for researching however he got it covered. I asked how and he said the practice has a plan in place to get PA's pushed through. I told dr that is great and to continue prescribing to which he agreed and said he loves Butrans. I told him to also continue prescribing OxyContin and to utilize all 7 doses and reviewed the tailoring part of the start principles. Dr said ok.
PPLPMDL0020000001	Beachwood	OH	44122	10/18/2013	Spoke with Roberta recent Butrans patient and what did they present with. She said that was not a patient she initiated but a follow up of dr yokels. I asked if she initiates and she said sometimes and I reviewed the opioid naive study for Butrans. She said she did it off see patients that were opioid naive. Reviewed flexible dosing of OxyContin.
PPLPMDL0020000001	Beachwood	OH	44122	10/18/2013	Discussed Butrans patient Maria and asked dr if she had patients in need of a long acting medication. She said she sends those patients to dr Chang and I asked about her osteoarthritis patients and she said I had a point. I asked her to review the Percocet conversion guide in the titration booklet for OxyContin
PPLPMDL0020000001	Cleveland	OH	44113	10/18/2013	Reviewed Butrans Ohio BWC formulary status with Dr. and Aurora, dr said thanks for the clarification. Also reminded of dosing and titration

	Mayfield Hts	OH	44124	10/18/2013	Since he was out first part of week at conference, he hasn't had chance to write the new 15 mcg titration dose, Butrans he's excited about new dose & will write soon for patients who need further analgesia after the 10 mcg hr. we discussed efficacy & safety of BUP 3024, after pain reduction insight. We also discussed pain reduction for opioid naive patients in BUP 3015. Reminded him he's speaking for me next Wed 10/23. For controlled release OxyContin, for patients taking 80 mg or more of morphine or equivalent, OxyContin is option. START principles to assist you with conversion titration, please remember 7 doses available & you can titrate in 1-2 days as needed, do to steady state of 24-36 hours.
PPLPMDL0020000001	Beachwood	OH	44122	10/18/2013	Tried to book lunch or see nursing staff but calendar was full and not allowed to speak with staff. Left OxyContin and Butrans titration guide.<font color=blue><b>CHUDAKOB added notes on 11/01/2013/</b></font>Marcia, did you see an RN, LPN, MA, or Office Manager. If not then this should not have been recorded as a call. From you call note, it doesn't look like you saw anyone.
PPLPMDL0020000001	BEACHWOOD	OH	44122	10/18/2013	Discussed Butrans 15 strength and how patients should be titrated. Reviewed start principle for OxyContin. Gave indication and limitation of use of intermezzo
PPLPMDL0020000001	Beachwood	OH	44122	10/18/2013	Tried to book a lunch with new doctor but the office said they are full for the year and have not opened the book yet. Gave my card for cancellations and asked to speak with nursing staff and was told no. Left OxyContin and Butrans titration guides
PPLPMDL0020000001	Lyndhurst	OH	44124	10/18/2013	Spoke to ma at front, they were on lunch break. Discussed OxyContin & purpose of START principles, (contained in our conversion titration guide) to assist the HCPS with conversion & titration. left 1 box cards. reminded office of new 15 mcg hr titration dose for Butrans, which is now available @ pharmacies. Left patient access guide for Butrans for dr roda. also Left Intermezzo HCP re assess brochure & 1 pack savings cards.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/18/2013	Met with office coordinator Denise. Waited for almost 30 mts for Gina, she was running late & behind for her first patient, she apologized she couldn't meet with me this afternoon, & scheduled me for appt 1:45 Mon 10/21. & said she would talk with me then. Reviewed Butrans Med D preferred status with Denise. Left a few new butrans FPI & 2 sliding dosers, reflecting new 15 mcg hr titration dose. Let Denise know I will drop her off new patient guides as soon as I receive.
PPLPMDL0020000001	Uniontown	OH	44685	10/18/2013	Dr came to window and I introduced the new Butrans 15mcg dose. I asked him with his last few prescriptions what e need has been to titrate the dose? Dr said that if he remembers correctly most of them he started on the 10mcg patch and doesn't remember moving them from that. I asked him if the need arises for additional analgesia to titrate to the 15mcg dose? Dr said he would because he's not keen on movie to the 20mcg. I asked dr if he will continue to find patients needing a dose adjustment on tramadol or vicoden? Dr agreed and said he would.
PPLPMDL0020000001	Akron	OH	44305	10/18/2013	I led off conversation by asking dr if he currently is prescribing and /or has patients on short acting opioids? Dr said he does. I asked him what the prescription looks like and he told me q6 for vicoden for example. I asked him how often his patients follow the plan he sets when he prescribes vicoden q6? Dr paused and said he guesses that's another reason why he should be using Butrans. I asked him what one patch a week might do for his patients in this situation? Dr agreed and said he likes it and will continue to prescribe. I showed him the OxyContin conversion and titration guide and asked him to continue finding patients needing dose adjustments on Percocet. Intermezzo dosing and indication and asked for him to identify patients.
PPLPMDL0020000001	Beachwood	OH	44122	10/18/2013	Quick call stressing OxyContin conversion from Percocet at the lower doses using the OxyContin titration guide. Left Butrans titration guide.
PPLPMDL0020000001	Cleveland	OH	44112	10/18/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia.along with the new 15mcg/hr dose. said she will keep in mind. Also reminded of OxyContin Q12h flexible and 7 tablet strengths
PPLPMDL0020000001	Beachwood	OH	44122	10/18/2013	Reviewed the Butrans 15 with pharm tech and she said they were discussing ordering in a box. Reviewed the flexible dosing of OxyContin. Gave indication and limitation of use for intermezzo.
PPLPMDL0020000001	Brooklyn	OH	44144	10/18/2013	Quick Butrans reminder on MedCo/ESI formulary status, said that was good to hear, asked if that would help him remember to prescribe? said possibly. Also, reminded of OxyContin broad formulary coverage and Q12h flexible dosing strengths.
PPLPMDL0020000001	Brooklyn	OH	44144	10/18/2013	Window call. Reviewed Butrans MedCo/ESI formulary status along with OxyContin Q12h flexible dosing strengths and broad formulary coverage, said OK and will keep in mind
PPLPMDL0020000001	Munroe Falls	OH	44262	10/18/2013	I asked dr when she prescribes a short acting opioid for pain what it looks like? Dr said she will write it q4 or q6. I told her when she prescribes fir something it is basically a pan for care. Dr agreed. I asked her how often she believes her patients follow that care plan when it comes to pain? Dr laughed and said she knows they don't follow it that well and they either take too much or not enough. I asked her what one patch in a week could me to her and her patients when it comes to pain? Dr agreed and said that its a good way to look at it because she said it can get frustrating when they want their pain medicines too early. Dr said she can see herself using more Butrans and in that way. I asked for her to continue looking at her patients on Percocet and switch them to OxyContin when they are not to their pain goal. I asked her to identify more patients for intermezzo and went over a patient type who is appropriate from the approved piece.
PPLPMDL0020000001	Cleveland	OH	44113	10/18/2013	Reminded of the Butrans 15mcg/hr new dose with Justin, Also OxyContin Q12h along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44109	10/18/2013	Reviewed Butrans 15mcg/hr with tech. hasn't seen a RX yet. OxyContin Q12h dosing and Intermezzo for MOTNA/dosing. Filled a RX yesterday.
PPLPMDL0020000001	Akron	OH	44319	10/18/2013	I showed dr the Butrans conversion chart and pointed to hydrocodone. I asked him when he prescribes it what it looks like? Dr said 1-2 pills q4 or q6. I asked him how often he believes that plan of care and dosing regimen is followed? Dr said he knows that it makes sense to use Butrans and he just needs to find the right patient. I told him he have found many appropriate types of patients to which he agrees he has in his practice. Dr said ok and he will do it.
PPLPMDL0020000001	Akron	OH	44312	10/21/2013	Handed dr the doing guides for OxyContin and Butrans and told him that he needs to reassess some of his artists on IR opioids as possible candidates for OxyContin or Butrans. I told him the appropriate patient for each. Dr said he refills OxyContin and has not used Butrans yet but said he p, and to. I told dr to prescribe it and allow it to speak for itself.
PPLPMDL0020000001	Parma	OH	44129	10/21/2013	Followed u on lunch last week and discussed appropriate patients by using titration guide concentrating or hydrocodone doses and Susan profile. She said she like Butrans and is getting more use to prescribing since she attended the program with dr Moufawald. Reviewed titration of OxyContin. Discussed initiation therapy of intermezzo for patients suffering from motna
PPLPMDL0020000001	Akron	OH	44333	10/21/2013	Good discussion over lunch on all products. Discussed new 15mcg dose with her and explained all dosing, titration, appropriate patient types, initiation doses,patch description. I asked her if she has patients that are a fit for Butrans? Becky said that she mostly sees acute pain but occasionally sees patients with more chronic conditions. She said she will always to to dr Oyakawa to confirm her assessment of the patient but can see how she would use it for those patients. Discussed OxyContin dosing, conversions, use from Percocet and titration. Asked her if she has identified any patients for intermezzo and she said no but admitted that she has not been paying close enough attention to patients complaining of sleep awakening.
PPLPMDL0020000001	Akron	OH	44312	10/21/2013	I asked dr about his patients on Percocet and how often they might be following the dosing plan he sets for them. Dr said he doesn't know. I told him that there must be stints that either take the product too often or not enough. Dr agreed there may be some. I asked him if patients would follow a q12h plan for analgesia? Dr said sure. I asked him to continue to think about that and use more. Butrans dosing and 15mcg dose. Reviewed the appropriate patients and insurance plans. Intermezzo dosing and indication and asked him to identify a patient to trial it on.
PPLPMDL0020000001	cleveland	OH	44135	10/21/2013	Spoke to office manager and they request vendor pass sign up. However I did share the information on OxyContin and Butrans. Left reading materials for the dr.
PPLPMDL0020000001	Cleveland	OH	44109	10/21/2013	Quick Butrans review MedCo/ESI formulary status, said she that will help with coverage, Has a few patients they are filling
PPLPMDL0020000001	Cleveland	OH	44109	10/21/2013	Visited Senior Ctr/PMR floors, Left OxyContin/Butrans info.
PPLPMDL0020000001	Parma	OH	44129	10/21/2013	Gave 30% reduction insight and reviewed opioid naive trials. Dr nodded and we agreed to discuss at next lunch since last week was reschedule. Discussed conversion from Percocet to OxyContin. Asked dr to consider patients in need to pain relief a what a 30% reduction in pain would mean for them.
PPLPMDL0020000001	Westlake	OH	44145	10/21/2013	Spoke to Megan, discussed Butrans being a 7 day transdermal patch and having that coups where he will find it easier.
PPLPMDL0020000001	Fairlawn	OH	44333	10/21/2013	Spoke with sue and Gilbert about all products. I asked Gilbert if he ordered the Butrans 15mcg and he said he did. Gilbert said that he got a denial for OxyContin yesterday for a patient that had his commercial insurance changed to SummaCare and they would not cover the patients OxyContin. Gilbert checked with office and they were going to complete the PA. I discussed intermezzo indication and their stocking which they have both doses
PPLPMDL0020000001	Cleveland	OH	44114	10/21/2013	Discussed 30%, 2 point pain intensity reduction, Dr. thought that was significant, tied in Butran Opiod Naive trial, MedCo/ESI formulary status along with BWC. Said he has struggled with ins.coverage/cost for some patients but will continue to seek approval. Went over OxyContin Q12h, flexible dosing strengths/titration. Intermezzo for MOTNA/Dosing and trial cards
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/21/2013	Met briefly with Gina, as she said office added 4 more patients to her schedule today, pain reduction insight BUP 3024, would like to go over trial in more detail next call. Focus was on 4.6 pain reduction , which she felt was good. Discussed steady state of 72 hours, when titration is possible. New 15 mcg hr titration dose to help tailor the analgesia for your Butrans patients who are appropriate for titration. Left new Butrans FPI. Reviewed Medicare D preferred status on Medco Express Scripts & Cigna. Reminded her that commercial pay patients should leave office with Butrans trial, savings card in hand. Controlled release OxyContin q 12 h when pain is more severe, & after Butrans 20 mcg hr, when patient needs further analgesia, Around the Clock , for extended period of time.
PPLPMDL0020000001	Akron	OH	44333	10/21/2013	Quick hello in hallway and handed him the Maggie profile. I asked him to review and get back to me. Dr said he will look at it now and said the therapy looks appropriate but said he would have started OxyContin when she got to 40mg of IR oxycodone. I agreed and confirmed where his limit is? Dr said it is but its not set in stone, every attention is different. I told dr to again start on patients who may be under the 40 mg of Percocet. Dr said ok.
PPLPMDL0020000001	Westlake	OH	44145	10/21/2013	Discussed Butrans patch and the reminder of the new dose, 15mcg. Explained it was a titration dose and explained where the patches are placed. Discussed coupons available from doctors and what the savings progrAm means for commercial insured patients.
PPLPMDL0020000001	Cleveland	OH	44109	10/21/2013	Visited Ortho Dept. Left OxyContin/Butrans Initiation/Titration guides for Dr. Feighan,Wilber,Patterson, Sontich, Steinmetz, Thompson
PPLPMDL0020000001	Cleveland	OH	44109	10/21/2013	Visited PMR- 2nd floor Dr. Wilson,Forster-Pausen-NP, Mejia, Nemanatis, Cui, and Gantner. Wed.. Left OxyContin/Butrans info (Initiation/Titration
PPLPMDL0020000001	Cleveland	OH	44109	10/21/2013	Visited Ortho/PMR/IM depts. Left OxyContin/Butrans info (Initiation/titration
PPLPMDL0020000001	Fairview Park	OH	44126	10/21/2013	Discussed the fpi dosage update w the 15 and asked if he has at patients currently on 10mcg. He said a few. talked about during their assesment visit....Titration a min of 3 days. Also spoke on toleration based on the naive study....how patients were forced titrated from 5mcg to 10 or 20 with in the first week. And the conclusion of the study showed that 53 percent of patients had at least a 30 percent pain reduction. Dr said and u and returned to his patients.
PPLPMDL0020000001	Westlake	OH	44145	10/21/2013	Came in to see if I can get a unch Wednesday, maybe they are booked right now. Gave the ma the updated fpi and a few updated marketing pieces with the 15mcg on it. Discussed new FDA approved dose and what Butrans is. Ma said to dr there is a new dosage for Butrans. Dr said asked what. Discussed always start a patient on the 5 or perhaps the 10mcg. But titration dose of 15mch. Easy to remember our dosages now....5, 10,15,20. Told her I was trying to get a lunch soon to discuss how the 7 day Butrans patch works.
PPLPMDL0020000001	Westlake	OH	44145	10/21/2013	Asked what he does when patients can fall asleep but have trouble with middle of the night awakening? He said he tries non medications and sleep aids. Discussed his lackof experience with intermezzo. Dr said he would think about it. Talked Butrans, 7 day transdermal patch. Dr doesn't write pain medications.
PPLPMDL0020000001	Fairlawn	OH	44333	10/21/2013	Led off with dr about discussion about patients following a dosing regimen for short acting opioids. Dr said she has had such limited experience that she doesn't know but figures that its a se-saw battle with patients to make sure they are taking their medicines correctly. Followed with insight about hydrocodone and asked her her thoughts? Dr said she thought the 41% is really high but said she still has not had expertise with ER opioids yet. I introduced Butrans and OxyContin. Covered all key selling messages for each and asked her opinion on Butrans? Dr said that she likes that its a patch and a schedule 3. I reviewed the copy cards, efficacy with opioid naive and experienced, safety profile and insurance. Dr said she likes the copy cards and will look to implementing. Dr said she isn't keen on OxyContin but knows that it a good medicine for the right patient. Introduced intermezzo doing, indication and limitations of use. Dr said she will review the information.
PPLPMDL0020000001	akron	OH	44333	10/21/2013	Dr told me that he has a patient in his nursing home he wants to out on Butrans and asked which dose he should start on. Dr said patient is on vicoden 5/325 TID and said he is not sure if he should start on 5 or 10mcg. I told dr the approximate conversion says 10mcg and told him that its up to him to determine which dose to start on. Dr said he thought he should start on the 20 mcg and has Caresource. I explained Caresource PA and dr said he will start.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44333	10/21/2013	I made a Phone call to speak w/ Ramona Watson, and present Purdue's Nurse Educator Program. I was informed that she was not available. I left a Msg. on her voice-mail.
PPLPMDL0020000001	Cleveland	OH	44113	10/21/2013	Quick call saw Dr. in Hospital. Reminded of Butrans for those Tramadol failures that are requiring around the clock analgesia. OxyContin 7tablet strengths. Said he will consider
PPLPMDL0020000001	Cleveland	OH	44113	10/21/2013	Quick OxyContin reminder Q12h, 7 tablet strengths along with broad formulary coverage. Butrans- for those patients requiring around the analgesia. Dr. said he referring patients to Dr. Jerry 2A
	Westlake	OH	44145	10/21/2013	Lunch, in w dr Seikel. Discussed OxyContin, she said she was amazed it wasn't generic. We talked about if she felt the product worked to control pain pretty well and she said yes we talked a out the product bing single entity and why would someone write Percocet 3 or more times a day when they could write OxyContin. She said cost Nd habit. Discussed commercial savings plan and remind her that OxyContin was not to be used in a acute pain patients. Dr never heard of Butrans. Discussed the deliver system, and about the abuse potential. Discussed commercial insured saving plan. Showed dr Seikel and dr cheriyan the Butrans vinyettes, they picked the Tramadol lady and plugged in that it was 5 percent of their patients. Drs also asked about patch location, reminded not to return to the same sight u Tim 21 days, showed the adverse reaction chart and the percent of rash. They asked about how many patients patch fell off and I reviewed the naive study and said 10 percent failed due to application error, he said that was high. I said over 53 percent finished the study though, and she said that's a good point. Discussed if she saw a fit for some patients and they both said yes. Detailed intermezzo, dosage and indication.
PPLPMDL0020000001	Cleveland	OH	44109	10/21/2013	Went over OxyContin Q12h, savings card, with Floater, Butrans 15mcg/hr dose, will order in when RX is presented, next day delivery. Will remind Mary.. Intermezzo for MOTNA/Dosing-Trial cards
PPLPMDL0020000001	Brooklyn	OH	44144	10/21/2013	Quick OxyContin/Butrans window call, reminded of MedCo/ESI Butrans coverage for those Tramadol failures requiring around the clock analgesia along with OxyContin broad formulary coverage. Dr.said thank you and will keep in mind
	Westlake	OH	44145	10/21/2013	Saw dr, reminded him of last weeks OxyContin reminder for patients being reassess this week if they were being doses 3x a day or more on Percocet to move them to OxyContin q12h. Also gave him initiation guide. I said here ya go, keep this cheat sheet buy sou will no when to start patients n 5mcg or the ten mcg of Butrans and do forget u have 2 coupons on ur desk to start someone this week. He said ok.....
PPLPMDL0020000001	Euclid	OH	44117	10/21/2013	I placed a call to staff development coordinator, Ruth Rossi to confirm in-service on pain documentation for tomorrow 10/22. I was informed by the receptionist that Ruth was in orientation she took a message to have Ruth call me back.I received a call from Ruth stating that she will have to cancel the in-service for tomorrow because she failed to put in on her calendar. I reminded her about the in-service on pain documentation for this Thursday October 24 as well . she stated, "I will have to get back with you about the in-service scheduled for this Thursday."
PPLPMDL0020000001	Fairlawn	OH	44333	10/21/2013	Led off with discussion about patients following his dosing regimen of q4-6 of hydrocodone. Followed up with insight on hydrocodone. Dr said that he knows that patients are left on their short acting products. Dr said if a patient is doing well, not complaining and not needing another Rx early then he doesn't have an issue with it. I asked dr what those patients would think of a q12 dosing or a once last week transdermal system? Dr said he understands that he has patients he should probably switch to ER opioids but he thinks that if its not broken, don't fix it. I asked him how he knows if its not broken? I told dr that there is no way his patients tell him everything he needs to know about their pain. Dr agreed and said he needs to get better at asking the right questions. I told him to focus on that and to take an extra second before refilling Percocet or tramadol. Discussed all key selling messages for each and asked him for more business. Reviewed intermezzo key messages.
PPLPMDL0020000001	Westlake	OH	44145	10/21/2013	Lunch. Dr said he hasn't written it because he didn't no anything about it yet. Discussed it was a 7 day patch, buprenorphine, schedule 3 opioid. Discussed his current patients on NSAIDs and what happens when their pain is no longer controlled. Dr said he will use a short acting opioid. I said, this is wherein like u to consider Butrans. Asked how he felt about using an extended release product for a patient like Mary (profile). He said he wasn't opposed. He said it was a lot less pills. I said it was 4 patches a month, each worn for 7 days. We discussed patch placement, not going back to same site for 21 days. I asked if he could think of anyone off hand that he could try the patch to gain experience and showed him the Butrans vignette options to pick. He said he might try at the nursing home first. I reviewed Medco part d coverage and discussed savings plans for all products. Discussed pain score reduction and asked if this information was valuable to k ow and the dr said not really that he would rather hear about Saftey and cost. Discussed abuse potential for all 3 products. Discussed adverse reactions observed in naive study, dr said seemed in line w other opioids. Asked about dosing, starting patients and asked about the elderly. Used the fpi and showed him section 8.5 and pointed out how many patients were 65 and older in the naive tudy, which he thought was low. Discussed avoiding direct heat to the patch and used section 5.13dr said he would write it.
PPLPMDL0020000001	Akron	OH	44312	10/21/2013	Spoke with dr over coffee and asked him to think about the patients he has on short acting opioids who don't follow the dosing plan set for them. Dr said he has many that don't do what he tells them. I asked him if his patients would follow a plan of one patch in a week? Dr said he understands that he knows he should use more Butrans and agrees that the one patch a week is big. I told him that even though he has not seen the results from Butrans he is seeking yet, to stay the course and continue to identify the right patients for the product. I discussed the tramadol and viconden patients. I asked him to continue thinking about using OxyContin for those patients who can't follow e,p an set for Percocet. Intermezzo Caresource coverage and asked him to look for patients to which he agreed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	10/22/2013	Spoke to Carrie the pharmacy technician about offering of the 15mcg dose. She said that they do not have it on the shelf but can order it in next day. She said they have patients on the 5 and 10mcg doses and asked about copay cards. Reviewed copay cards and she said one of the patients could use it. I discussed how drs should be providing them to the patients. Discussed OxyContin and how much they see. She said it is steady and most are refills. I asked about patients titrating doses and she said she doesn't see much. Intermezzo dosing, and indication. Carrie said they have not seen any prescriptions.
PPLPMDL0020000001	cleveland	OH	44135	10/22/2013	Spoke to office manager left coupons and discussed new mcg for Butrans, and how Butrans is dosed and paced.
PPLPMDL0020000001	Euclid	OH	44117	10/22/2013	I placed a call to NP, Lizeel Malibiran at 440-709-6028, I rec'd a non-personalized voice mail. I left a MSG Place a call to NP, Lizeel Mailbiran to set up an appt. to present Butrans
PPLPMDL0020000001	Cleveland	OH	44195	10/22/2013	Visited Anes/Pain dept left Butrans/OxyContin info for Stanton-Hicks,Leizman, Cheng, Crawford,Knaus,Vrooman
PPLPMDL0020000001	Cleveland	OH	44195	10/22/2013	Visited Neuro-C-21 dept. left Butrans/OxyContin info for Bamford,Dobrowski,Baugh. Left message for Kay-Bamford admin
PPLPMDL0020000001	Cleveland	OH	44195	10/22/2013	Visited Anes/Pain and Neuro depts. Left OxyContin and Butrans info
PPLPMDL0020000001	Westlake	OH	44145	10/22/2013	Spoke to office manager, they aren't taking lunches for January until December. Husband and wife team. Building 3 at hospital.
PPLPMDL0020000001	Mayfield Heights	OH	44124	10/22/2013	I made a drop in visit to meet with director of nursing, Saundra Brown and Introduce Purdue's nurse educator program and discuss educational in-service opportunities. I spoke with the receptionist, Teresa who said Saundra was not available. Later, I Placed a call to director of nursing, Saundra Brown at 440-473-0090 and left a message on her voicemail.
PPLPMDL0020000001	Akron	OH	44312	10/22/2013	Told dr in hallway to use Butrans for those patients of his needing a dose adjustment on tramadol. I asked him how many tramadol prescriptions he is refilling each month? Dr said he doesn't know but said its a lot. I told him to think about why he is refilling and about the ER option of Butrans for those patients meeting the indication. Dr said ok.
PPLPMDL0020000001	Lakewood	OH	44107	10/22/2013	Spoke to manager regarding Butrans and the patch technology with the extended release delivery system. Left her various marketing pieces to give to the dr.
PPLPMDL0020000001	Cleveland	OH	44106	10/22/2013	MSL meeting with Dr. Speicher to discuss status of OTR3001. Dr. Speicher noted that it has been impossible to identify a subject for the study and he would like to discontinue participation. Dr. Speicher is interested in future studies with PPLP.
PPLPMDL0020000001	Cleveland	OH	44111	10/22/2013	Spoke w office manager. Tried to see dr but they requested a vendor pass. I informed her of the new Butrans mcg and gave her various information to pass to the dr. I asked if she heard of Butrans and she said yes. Talked about pain score reductions based off the naive study.
PPLPMDL0020000001	Akron	OH	44312	10/22/2013	Discussed the 15mcg dose and asked her if she sees it fitting in as a titratable dose? Dr said she just prescribed a 10mcg Butrans the other day and said she has the feeling the patient will need more based on the chronic low back pain e patient has. Dr said she will go to the 15mcg for sure and then asked about cost. I asked her which plans? She said cash? I asked her if she has a lot of cash patients she is looking to start on Butrans? She said no but wants to know the retail price. I told her to have sandy call pharmacies her patients go to most often to get exact pricing. I told her cash patients can use the copay card to get up to \$50 off. Told her to use OxyContin for those patients on Percocet and want more. Intermezzo indication and dosing and asked her to identify patients. Dr said she probably won't use it.
PPLPMDL0020000001	Akron	OH	44310	10/22/2013	Led by asking dr about his patients on IR opioids and how often he believes his patients follow the pan he sets for them? Dr said they are typically dosed either q4-6 1-2 pills a day and that about 89% of his patients follow his plan. I asked if any of those patients need their prescription early? Dr said not much. I asked him to focus on that 20% that do not follow the plan and asked him what he thinks about the 7 day transdermal patch for those patients? Dr said that is when he has been using it recently. I asked dr to continue to focus on those viconden patients needing a dose adjustment as well. Reviewed OxyContin dosing and titration and asked him how often he needs to titrate? Dr said he does but not often and agrees with the start principles I reviewed. Reminded dr about looking for patients complaining of in the middle of the night insomnia.
PPLPMDL0020000001	Cleveland	OH	44195	10/22/2013	Visited CCF pain/anes. Dept. Left Butrans Initiation/Titration info.with Sue(nurse) along with card to set-up appt with Carrie
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	10/22/2013	Didn't have much time over lunch for discussion as she was way behind for the morning. I spoke with her about identifying patients not following the plan she sets for patients on IR opioids. Dr agreed she has plenty of those! I asked her about her thoughts of a 7 day transdermal option for those patients? Dr said she knows that a week long patch goes a long way with some patients and she really likes Butrans. Dr said she will continue to use it for the tramadol and viconden failures. Told her to think oxycontin for those patients and dr agreed. Reviewed the intermezzo indication, dosing and asked her to think of it when the trigger words are said by patients about waking up and having a hard time returning to sleep.
PPLPMDL0020000001	Lakewood	OH	44107	10/22/2013	Left materials behind when speaking with the ma, she wasn't familiar w Butrans as I explained what it was she asked about rash and about managed care coverage. I provided her with the information .
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	10/22/2013	Some with dr about all products and led off conversation with insight about hydrocodone and managed care. Dr admitted that it is easier to just refill the short acting medicines and believes the statistic. Dr said that she really tries to move patients to ER opioids but said that she really doesn't want to treat too much chronic pain. Dr said she has a patient with lupus who she is considering using Butrans for. Dr said she just will need to be careful and explain Butrans in detail about application sites and incidence of itching. I asked her to use Butrans for those patients needing a dose adjustment on tramadol or viconden and reviewed patient profiles. Discussed OxyContin conversions, patient types and insurance. Intermezzo indication, dosing and asked her if she would identify a patient? Dr said she would and asked about insurance. Discussed insurance and she said its not good.
PPLPMDL0020000001	Rocky River	OH	44116	10/22/2013	Spoke to office manager, dr is part time in this office and no longer goes to the Lorain office. Left various Butrans and OxyContin selling materials.
PPLPMDL0020000001	Lakewood	OH	44107	10/22/2013	Checked with the office manager on policy and access. Gave her limited information on Butrans because she was too busy she said to discuss the product. Se told me to return on a day they were not so busy to schedule a
PPLPMDL0020000001	Stow	OH	44224	10/23/2013	Spoke with dr on all products. Reviewed Butrans and hit all key selling messages. I spoke about identifying the appropriate patient for the appropriate medicine. Reviewed opioid naive trial, Scott and nancy profiles. Dr said he sees how it is a good option but said that he is always concerned about prescribing scheduled medicines. I asked dr if he is sold on the efficacy and safety and where to use it? Dr agreed and said that he may have a nit he for it. Reviewed OxyContin disingenuous titration, patient types. Dr said he will not prescribe for it unless he is refilling or already on Percocet. I told dr that that is a good place to use it. Intermezzo indication, dosing and Discussed all products with dr. Reviewed Butrans key selling messages and application sites, appropriate patients, titration and opioid naive trial. I asked dr if she understands the efficacy and safety as well as who is appropriate for Butrans? Dr said she does understand and said she needs to be careful who she starts on it and said she agrees its right for a tramadol or viconden patient. Discussed OxyContin indication, dosing and titration. Discussed conversions and asked her if she has experience with it? Dr said she does but most recently have been refills. Intermezzo indication, dosing and patient types.
PPLPMDL0020000001	Westlake	OH	44145	10/23/2013	Saw dr thru window. He said need a signature. I said no, I wanted to know what his thoughts are on extended release opioids in the primary care setting. He said ohhhh I refer those patients out and left.
PPLPMDL0020000001	Copley	OH	44321	10/23/2013	Led with hydrocodone insight and asked dr his thoughts? Dr said its because of cost plain and simple. I agreed that maybe cost is one of the reasons but probably a small one. Dr disagreed with me and said that Butrans is just too expensive for some patients. I agreed that is can be expensive for some patients and told him to focus on patients with private prescription insurance. Dr said ok. I handed him the OxyContin conversion guide and told him to review. David ok. I reviewed the intermezzo indication and asked if he has found any additional patients meeting the indication? Dr said no and its also too expensive.
PPLPMDL0020000001	Independence	OH	44131	10/23/2013	dr not located at this location
PPLPMDL0020000001	Cleveland	OH	44115	10/23/2013	Quick window call, Reminded of OxyContin 7tablet strengths, broad formulary coverage along with Butrans for those Tramadol failures requiring around the clock analgesia. Said he will consider. Left Initiation/Titration guides

	Westlake	OH	44145	10/23/2013	Spoke to dr about Butrans thru the window. he said he never heard of it. Asked he if ever treats patients atc w NSAIDs. He said yes....I said when their pain isn't controlled any long with currents treatment option then Butrans becomes an option for a patients with atc pain that an extended release delivery system may help. I explained it was a schedule 3 opioid, Wear it for 7 days, that's 4 applications a month and they can still supplement butans w their NSAID. These NSAID patients would start on 5 mcg and then can be titrated up aft 3 days....to 10, 15, 20. 20 being the max dose. Left him materials to review, naive study and fpi.
PPLPMDL0020000001	Parma	OH	44129	10/23/2013	dr not available until next week. left butrans titration guide and discussed oxycotin conversion from percocet
PPLPMDL0020000001	Akron	OH	44333	10/23/2013	Spoke with dr on all products. I asked him about his patients following the plan he sets for them on IR medications. Dr said he tries not to prescribe for the first time or refill IR opioids if he doesn't have to because a majority of his patients are chronic and the others are more acute or prn. I told him to keep Butrans in mind and died him what a 7 day transdermal patch could mean to those who don't stick to the plan. Dr agreed and said he continues to find new places for Butrans and said he will be looking to titrate a few patients to the 15mcg. I reviewed the inversions of his Percocet patients to Butrans and to remember intermezzo. Dr said he will continue switching Percocet patients to OxyContin instead of other ER opioids. Dr said he likes intermezzo but his patients can't get it covered by insurance and he wants to write more of it. I asked dr to continue trying.
PPLPMDL0020000001	Cleveland	OH	44113	10/23/2013	Reminded of Butrans for those LorTab failures requiring around the clock analgesia, Medco/ESI formulary status. Butrans 15mcg/hr. She said they are always looking to start new patients. Reviewed intermezzo for MOTNA/dosing, and Senokot
PPLPMDL0020000001	Cleveland	OH	44115	10/23/2013	Quick OxyContin inquiry in regards to savings cards, Ron said he is dispensing very little if any narcotics. Reviewed Butrans for those Tramadol failures along with 15mcg/hr dose presentation
PPLPMDL0020000001	Stow	OH	44224	10/23/2013	Reviewed new patient profiles for OxyContin and asked him his opinion on when to move to a product like oxycotin? Dr said he agreed with the profiles but would have wither started OxyContin earlier if he knew it was warranted or refer to pain management. Discussed Butrans and reviewed all key selling messages. I reviewed opioid naive trial and patient profiles. I asked dr if he feels there is a possibility to prescribing it? Dr said for sure but said he is going to be very selective. I told dr that is good to hear because its important. intermezzo dosing and indication and asked for a patient or two.
PPLPMDL0020000001	Copley	OH	44321	10/23/2013	I reviewed the s it and nancy profiles and asked dr what he thinks of the product? Dr said he likes that its a schedule 3, and lasts for 7 days. Dr asked what the cash price is of Butrans? I told dr I didn't know and asked why he wants to know cash price? Dr said it gives him a baseline idea if cost before insurance and copay cards come into play. I told him to have an office person to call the pharmacies his patients go to to get cash prices. Nothing else learned.
PPLPMDL0020000001	Euclid	OH	44117	10/23/2013	I placed a phone call to Ruth Rossi to confirm the in-service on pain documentation for tomorrow at 3:30 and 4. She informed me that she is extremely busy and asked if we could change the time to 2 o'clock and 330, times were agreed upon.
PPLPMDL0020000001	Cleveland	OH	44113	10/23/2013	Reviewed intermezzo for MOTNA/dosing, Trial/Savings cards, Dr said OK, will remember. Reminded of Butrans referrals for those Tramadol failures requiring around the clock analgesia
PPLPMDL0020000001	Stow	OH	44224	10/23/2013	Quick talk about Butrans after reviewing efficacy, safety and patient profiles. Dr said she knows that she should prescribe it but said its a habit for her and many doctors to refill or keep patients on their IR opioids. I told her that she and others may be missing opportunities to get patients on ER opioids that may be more appropriate. Dr agreed and said she will give it a try when she finds the patients I discussed.
PPLPMDL0020000001	Cleveland	OH	44113	10/23/2013	Reminded of Butrans for those LorTab failures requiring around the clock analgesia, Medco/ESI formulary status.15mcg/hr. Said OK, she is always looking to start a new patient.Left patient info booklets
PPLPMDL0020000001	Cleveland	OH	44114	10/23/2013	Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, Medco/ESI formulary status. Said OK, she is always looking to start a new patient.
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	Spoke with crystal the ma and she told me the office does not do lunches but sometimes the other drs will allow me to bring a lunch but not dr azeem but azeem will sign for samples. I spoke with dr while he waited to sign and had the demo in my hand explained that he did have to sign for samples but i did have vouchers for my product. he said he was familiar with the duragesic patch and did not need vouchers. I explained what butrans was, giving the indication, explaining the matrix transdermal system and 7 day use. he raised an eyebrow. i explained positioning after tramadol and before vicodin while he returned to his office. I told him i would leave some oxycotin conversion from percocet information with crystal
PPLPMDL0020000001	Tallmadge	OH	44278	10/24/2013	I asked dr if he has had any opportunities identifying any patients for Butrans? Dr said he doesn't think so. I showed him the Scott profile and told him about the patients and asked him if he has patients like him? Dr said he probably does and took the piece. Nothing else learned.
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	spoke with tracj in the pharmacy and told her about the butrans 15. i explained that dr moufawald would be prescribing. I asked if they would bring in a box and she said she would pass my information to the head
PPLPMDL0020000001	Garfield Hts	OH	44125	10/24/2013	Left info for -General Surgeions/Ortho(Lopresti,Levine,O'brien Gemma,Forcier, Elkharl Pantec, Peralta-CCF(Lichenberger,Rapur),Sargento,Nowak, Love, Hauer=Kaiser surgeons) Left cards and info for Nursing Staff/Clinicians.
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	Dr's dont see reps unless requested
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	spoke with ed about the butrans 15 and asked about stocking. he said he will order when he gets a prescription. reviewed the decision tree for the butrans doses and reminded him that opioid experienced patients should be started on 10. reviewed the oxycotin start principles. left the intermezzo dosing and administration guide.
PPLPMDL0020000001	Waterford	OH	45786	10/24/2013	I-Butrans dosing, managed-care, Maria patient profile and co-pay cards. Butrans box warning. OxyContin dosing and managed-care. intermezzo indication.W-stated that she continues to need managed-care information for Butrans and OxyContin.
PPLPMDL0020000001	Richmond Heights	OH	44143	10/24/2013	I placed a call to Nurse educator, Sheila Harris to discuss scheduling in-service on pain management, there was no answer, I left a message on her voicemail.
PPLPMDL0020000001	Akron	OH	44333	10/24/2013	I told dr today that he needed to get started on prescribing Butrans. Dr said he knows and said that he met with Karen Hodakievic today and told me how much she was talking up Butrans. I asked dr what his hang up is with it? Dr said he just needs to look for the right patients. I showed him the Maria profile and explained it. Dr said ok and that he will start looking a little more closely. Reminded him about OxyContin dosing and where to use that
PPLPMDL0020000001	Waterford	OH	45786	10/24/2013	I-Butrans dosing, clinical trials and managed-care. OxyContin dosing and managed-care. intermezzo indication.W-stated that she has had a patient on Butrans recently and they did well.
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	spoke with dr about butrans for patients needing 7 day therapy and he said he always keeps butrans in mind. reminded dr of oxycotin flexible dosing. asked about patients suffering from motna.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/24/2013	Discussed with Liz And dr Pitt about using OxyContin for his patients going from Percocet. Dr said that's where he always uses it however he does use other long acting opioids. I told dr that i understand and that OxyContin isn't appropriate for everyone but when a patients is already in the oxydone family to not go outside that for a ER opioid. Dr agreed.
	Westlake	OH	44145	10/24/2013	Apt w dr. Discussed Butrans and his experience. Dr said he thinks it works if they will take a patch. I asked what were they on prior to Butrans. They said all sorts. I said do u every use Butrans earlier in their treatment for Atc pain. He said most his patient come to him that have tried a variety of there things. Reviewed the experienced study and the pain results. Discussed OxyContin....he said he uses it, and we reviewed the dosing along with the molecule and delivery system
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/24/2013	Spoke with Glenn about morphine equivalent for Butrans today based on new oarrs system. Giles's said he didn't know and its not that important. Glenn mentioned that he is getting a lot of rejections for Butrans and it is making it difficult on him and the drs because they really like it. I asked which plans and he didn't know but said various plans. I told him to please keep as many pa's as he could so I can help him and the RAE's can look into it or even go to the provider. Glenn said he will contact me once he gets some.
PPLPMDL0020000001	Richmond Heights	OH	44143	10/24/2013	I placed a phone call to Joan Southard to discuss future educational in-service opportunities. Joan said, "I haven't called you because we are under a remodel, and I have no place to set up for in servicing or meetings of any kind." Joan informed me that she has my business card on her desk and she will give me a call as soon as that remodel is completed, hopefully end of November or sometime in December.
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	introduced myself to dr and asked him how he treats pain. he said it depends and he saw that i had oxycotin. he started to end our discussion so i mentioned that i had butrans, a transdermal patch for pain the was a schedul 3 and used for 7 days. dr listed to the titration message and i gave 30% reduction in pain insight. let him know that i was not looking for new oxycotin patients but patients who have been on percocet for several months. I showed the conversion guide
PPLPMDL0020000001	Euclid	OH	44117	10/24/2013	I received a phone call this morning from Ruth Rossi Confirming the in-service for today due to bad winter weather conditions. I informed her that I would be there around 1:45 for the 2 PM in service.An in-service on pain documentation was completed with six nurses in attendance. The importance of documentation was discussed including continuity of care patient, patient safety and reimbursement. Documentation of a pain assessment and reassessment was also covered.I asked to speak with the medical director, Juanita Castaneda to introduce the 15 $\frac{1}{4}$ g Butrans patch. Ruth informed me that she was busy with a resident and not able to talk with me. I left a Butrans initiation and titration guide introducing the 15 $\frac{1}{4}$ g along with my business card.Ruth informed me that there is a hospice resident that would be a good candidate for the Butrans patch. She will consult with the physician on tx. I explained that I would check back with her in approx. two weeks. I offered to present Butrans to the nurses who will be caring for that patient once treatment has been approved and initiated by the
PPLPMDL0020000001	Cleveland	OH	44103	10/24/2013	Reviewed OxyContin Q12h, flexible dosing strengths,, Butrans for those Tramadol failures. Initiation/Titration
PPLPMDL0020000001	Bedford	OH	44146	10/24/2013	reviewed dosing strengths of butrans and explained the titration. spoke about the patient scott and asked if she had patients like scott who were in need of a dose adjustment or change in medication. she said butrans makes sense but the coverage is probably a problem and she refers chronic pain to the pain management dept. I reviewed oxycotin and flexible dosing. explained intermezzo indication and limitation of use
PPLPMDL0020000001	Euclid	OH	44117	10/24/2013	I made a drop in visit to speak with director of nursing, Kathy Nemeth to follow up from the Butrans in-service and see if they have had the opportunity to identify any patients for Butrans. Kathy stated that they have not yet started anyone on the Butrans patch. She asked me if I could do an in-service on intermezzo. The in-service was scheduled for Tuesday, November 19 at 7:30 AM 23:0 and 3:30 PM. I also met with the nurse practitioner, Liezela. A luncheon was scheduled to discuss Butrans for next Thursday, October 31 at 12 noon
PPLPMDL0020000001	Mogadore	OH	44260	10/24/2013	I asked to speak with dr ant Butrans and he came to the front desk. I told him that there is now a 15mcg Butrans dose. Dr said he saw it advertised in one of his medical journals and saw the stuff I left for it. I asked dr if he thinks there is an opportunity for it in his practice and he said he knows some of his patients on 10mcg could use the 15mcg. I told dr great and to continue using Butrans for those patients needing dose adjustments on tramadol. Dr said ok.
PPLPMDL0020000001	BEDFORD	OH	44146	10/24/2013	spoke with cheryl the pharm tech since the pharmacist was busy. asked if she has seen any butrans movement and she said no. i introduced the butrans 15 and asked about stocking. she said she would have to discuss with the pharmacist. i gave her the pharmacy guide for the pharmacist and reviewed the oxycotin conversion from butrans. gave intermezzo indication and limitation of use
PPLPMDL0020000001	Cleveland	OH	44114	10/24/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia
PPLPMDL0020000001	Stow	OH	44224	10/24/2013	Dr dr at front counter that I wanted him to use the lower doses of OxyContin and showed him the conversion from Percocet 20mg to OxyContin 10mg q12. Dr said ok. I reminded him that I am waiting for his first Butrans prescription for his tramadol patients needing a dose adjustment. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/25/2013	Dr said he wanted a refresher because its been a while since he first heard about it. Discussed all key selling messages including efficacy, safety, and insurance coverage. I reminded dr that Butrans is a schedule 3 transdermal patch and discussed appropriate patients. Dr asked about insurance coverage and said he has a lot of medical mutual patients. I discussed tier status of Butrans and reviewed the trial card and copy card. Dr said he had a patient yesterday that he could of used it on in which the patient was on tramadol. I asked dr to gain clinical experience with it and he said he will use it. Discussed intermezzo indication, dosing and, limitations of use. Dr said he likes the idea but knows its tough to get covered. I reviewed the insurance plans.
PPLPMDL0020000001	Akron	OH	44320	10/25/2013	Checked in with dr about her use of Butrans for her patients on tramadol. I showed her th Scott profile and asked her if she has seen or will see patients today on tramadol? Dr said yes to both. I asked dr if he has had or will have patients on tramadol who need a dose adjustment? Dr said she may have one later today and will keep Butrans in mind. I left her with the dosing guide.
PPLPMDL0020000001	Chagrin Falls	OH	44022	10/25/2013	dr came back to get sandwich and said she has tried to prescribe butrans but she cannot get it covered for her medicare patients. i explained that this must not have been recently because butrans is on more formularies than before and cited cigna, express scrips, commercial plans and some workers comp. I reviewed the vouchers and she said she does not like vouchers because they expire after use and i explained the difference between the voucher and trial savings card. she said she would try again and i reviewed the clinical trials. told her i would leave the oxycotin conversion chart and pointed to conversion from percocet.
PPLPMDL0020000001	Bedford	OH	44146	10/25/2013	dr not located in this building.
PPLPMDL0020000001	Cleveland	OH	44102	10/25/2013	Quick Butrans/OxyContin reminders,OxyContin broad formulary coverage and Butrans Medco/ESI formulary status, Dr. was running over to the hospital, said he is usually over at St. Augustine on Thurs. mornings,

	Barberton	OH	44203	10/25/2013	Saw dr thru window. Last time we spoke we discussed the Butrans delivery system 7 days of buprenorphine...4 doses a month. Do u see this as a disadvantage or advantage for for uncontrolled NSAID patients needing the atc pain care. Dr said, he liked Butrans and walked away. Left the naive study and a variety of literature.
PPLPMDL0020000001	Barberton	OH	44203	10/25/2013	Spoke to ma upfront left her information on Butrans and she we discussed finding a way to see the doctor outside of lunch. Left a variety of leave behinds
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/25/2013	I spoke with director of nursing, Pam Ritter. The meeting that was scheduled for November 4 at 11 AM to discuss educational in-service opportunities was changed to November 18 at 11 AM.
	Stow	OH	44224	10/25/2013	I asked dr Yang when he prescribes a IR opioid like vicoden what it looks like? Dr said it depends but typically its 4 to 6 times a day 5 or 10mg. I asked him how often his patients on this dosing regimen follow it? Dr said that some do and some don't. I asked him for those that don't what a 7 day transdermal system would mean to them? Dr said that he does like Butrans and tries to prescribe it more but insurance doesn't always pay for it. I asked dr which plan or plans and he didn't have any specific plans. I asked if he would make a copy of a PA form next time and show it to me. Dr said ok. I asked him to prescribe more Butrans for his vicoden patients.
PPLPMDL0020000001	Beachwood	OH	44122	10/25/2013	spoke with vicki about formulary coverage of oxycontin. shared with dr flexible dosing and conversion from percocet. asked about butrans patients and he said they are doing well and had to return to patients. left the conversion guide for his review
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/25/2013	Dr stopped down for a minute to grab something to eat and go to a meeting. I asked dr to continue identifying the right patients for Butrans and reviewed the dosing and 15mcg dose as one to titrate to if patients need more than the 10mcg. Dr said he continues to have good luck with it and will continue to write. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/25/2013	Dr told me when he saw me that my annoying persistence has paid off because he has prescribed it twice. I told dr that I'm glad he prescribed and asked him what the patients were taking previously? Dr said both were on tramadol and one was taking it 8 times a day. Dr said that both patients have called in to his office saying how great Butrans is and is working very well. Dr said both patients have commercial insurance and used the copay cards. Dr said he need more Butrans copay cards. I told dr to continue identifying the right patients and he told me he started both patients on the 10mcg dose. I discussed titration, steady state, and possible need for the 15mcg dose. Reminded of intermezzo dosing and indication and asked for him to also find patients appropriate.
PPLPMDL0020000001	Cleveland	OH	44113	10/25/2013	Quick OxyContin reminder Q12h broad formulary coverage along with Butrans for those patients requiring around the clock analgesia, Said ok and will keep in mind
PPLPMDL0020000001	Hudson	OH	44236	10/25/2013	Spoke to Beth the pharmacist about all products. I introduced the 15mcg dose and she said she has the NDC for it and cardinal has it in stock. I asked her about any prescriptions and she said she has not ever filled one. Reviewed the dosing, conversions and titration. Asked about OxyContin dispensing and she said they only have a few patients on it. Reviewed dosing and conversions. Intermezzo dosing, indication and asked her to recommend it to patients she hears meet the indication. Beth agreed.
PPLPMDL0020000001	Chagrin Falls	OH	44022	10/25/2013	office was not accessible but i spoke with ma about appointments and discussed oxycontin flexible dosing and reviewed butrans titration. no appointments or lunches but i can leave literature
PPLPMDL0020000001	South Russell	OH	44022	10/25/2013	reviewed clinical trials for opioid naive patients and titration guide. discussed flexible dosing of oxycontin. discussed indication, limitation of use and dosing of intermezzo for patients suffering from motna
PPLPMDL0020000001	Chagrin Falls	OH	44022	10/25/2013	no access but i spoke with the ma about future appointments. reviewed butrans titration guide. gave percocet conversion guide.
	C. Falls	OH	44223	10/25/2013	Spoke to Catherine the pharmacist about all products. I asked her if they ordered the 15mcg dose and she said they do have it all on the shelf. I asked if they have seen a prescription for it and she said she doesn't think so. Explained the conversion chart and titration. I asked about OxyContin dispensing and she told me that they continue to fill it and even get most of the pa's pushed through. I asked about any dispensing of intermezzo and Catherine said she has not.
PPLPMDL0020000001	Chagrin Falls	OH	44022	10/25/2013	gave 30% reduction insight and presented opioid naive clinical trial. dr has patient with "difficult to treat pain" and that patient now feels that 20 is maybe too much but dr did not want to drop to the 10. i introduced the 15. dr asked how to titrate down and i explained that i do not have a recommendation and there are no studies to support a recommendation. i asked if he has what he considers his most difficult patient on butrans and she is seeing results then how come he has not tried some less challenging appropriate patients on butrans since he said he likes to avoid vicoden and percocet. dr said he struggles on what patients to put on a long acting. i reviewed the inclusion criteria and asked him if he thought these patients were appropriate for a long acting and he said yes. i said in a patient like scott who is currently taking tramadol and has been for several months and has a known pathology would he consider scott an appropriate patient. he said yes and i asked him to consider butrans when he needs to make a decision on changing a tramadol patients medication. reviewed percocet to oxycontin conversion. reviewed intermezzo dosing, administration, indication.
PPLPMDL0020000001	Garfield Hts	OH	44125	10/25/2013	Reminded of Butrans for those patients requiring around the clock analgesia, MedCo and ESI formulary status. Initiation/Titration. Said he will keep in mind
PPLPMDL0020000001	Euclid	OH	44119	10/25/2013	No Drs in today. (Note: RN Cheryl out on medical leave) spoke with med asst Donna, made her aware of OxyContin convsion/ titration guide, left for Dr Saeed, Dr Nageeb. let her know of new 15 mcg hr titration dose for Butrans. Left Butrans marketing piece for Drs Saeed, Dr Nageeb & Dr Hsia.
PPLPMDL0020000001	Cleveland	OH	44106	10/25/2013	Left Butrans/OxyContin/Initiation/Titration guides for Dept. Requested appt. with Terrah-Dr. Hayek coordinator
PPLPMDL0020000001	Cleveland	OH	44106	10/25/2013	Visited Anes./Pain dept. Left Butrans/OxyContin Initiation/Titration guides. Confirming lunch appt. with Dept. with Terrah
	Akron	OH	44320	10/25/2013	Quick call in hallway and asked dr if she is going to see any patients on tramadol or vicoden today? Dr said he probably will. I asked him what he is currently doing of those whom still complain of pain on those agents around the clock. Dr said it depends on the patient but said he needs to keep the clock down. I asked him if he sees any commercial or Caresource patients. Dr said yes to both. Explained the insurance for both and copay cards and trial offer for commercial. Dr said ok and he will find the patients.
PPLPMDL0020000001	Chagrin Falls	OH	44023	10/25/2013	spoke with the pharm tech jim and asked if the 15 of butrans was in stock. he said he did not have one in the system or on the shelf. i reviewed oxycontin start principle and asked about oxycontin writers in the area. he said he has some scripts but they are not from doctors that are located near by. reviewed intermezzo indication and limitation of use. he thought intermezzo was the same as ambien and i stressed the indication again, prn, sublingual and for motna when patients have 4 hours before their planned awakening
PPLPMDL0020000001	Chagrin Falls	OH	44023	10/25/2013	spoke with ben about the 14 of butrans and his commitment to bring in a box. he said he would order. i reviewed the pharmacy guide for butrans. reviewed flexible dosing of oxycontin. discussed intermezzo indication and limitation of use
PPLPMDL0020000001	Cleveland	OH	44125	10/25/2013	Reviewed OxyContin Q12h, flexible dosing strengths and savings cards. 15mcg/hr Butrans dose along with Intermezzo for MOTNA/dosing. No savings cards needed
PPLPMDL0020000001	Garfield Hts	OH	44125	10/25/2013	Quick Butrans discussion for those Tramadol failures requiring around the clock analgesia. Said OK and secured a lunch appt with Lisa
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/25/2013	Dr said that he continues to see me about Butrans and said he Ned's to write it. I asked him why he hasn't? Dr said that he just forgets about it somehow and asked for me to give a quick review. Discussed all key selling messages, patient types and insurance. Dr said he will use it. I asked him if he has any patients like Scott? Dr said he does and that's why he knows he will use it. Reminded him of intermezzo and asked him to find patients.
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/28/2013	Spoke to office manager. She said the drs just are not writing those kinds of products much and referring out. I explained what Butrans is...and that it was the only extended release option in schedule 3. Office manager liked it was 4 patches a month. I gave her to read and pass over to dr veleze the naive study and the fpi. I explained it covers appropriate patients like the NSAID patients never on opioids before. How well they tolerated the product and the pain reduction scores they got for taking Butrans duri g the study. I explained it was FDA approved and in our fpi.
PPLPMDL0020000001	Akron	OH	44333	10/28/2013	I asked dr if he has any patients on the 15mcg Butrans yet? Dr said he does not but said he will soon. I discussed the managed care med D plans and told him to continue finding patients over 65 which he has had success with in the past. Discussed OxyContin dosing and patient types. Asked him to continue converting from Percocet. Asked dr to continue identifying patients for intermezzo.
PPLPMDL0020000001	Parma	OH	44134	10/28/2013	I received an email from Hondros college nursing instructor, Janine Messer requesting an in-service on constipation for her nursing students either November 20 or 21st While performing clinicals at Broadview Multi-Care. I spoke with Staff development coordinator, Linda Belford to get approval. An in-service was scheduled for November 20 at 2 PM.
PPLPMDL0020000001	North Olmsted	OH	44070	10/28/2013	Spoke on the new mcg of Butrans. Tried to get stocking commitment. Educated on patch placement and even talked about the open label segment of the naive study. Review of the savings program for all products. Review the intermezzo indication and dosing
PPLPMDL0020000001	Oakwood Village	OH	44146	10/28/2013	I placed a call to Director of Nursing, Barb Straemple to confirm the in-service for October 29 on pain documentation at 7:30 1030 and 2:30 PM. There was N/A, i left a message on her voicemail. I called and spoke with director of nursing, Barb Strumpell and informed her that i needed to cancel the in-service is scheduled for tomorrow I informed her that our program would not be moving forward at this time and I had great pleasure in working with her and her nursing staff.
PPLPMDL0020000001	Fairlawn	OH	44333	10/28/2013	I asked Stacey up front to see the dr and he was in twoen patients a d came to front desk. I asked dr when is he typically moving patients to ER opioids? Dr said usually when patients are taking more than 4 pills a day. I told him that's good to know and to make OxyContin his go to. ER opioid. Dr laughed and said he uses it fairly often. I reminded him to also use Butrans for this patients needing a dose adjustment of ultram. Dr said ok. Nothing else learned
PPLPMDL0020000001	Berea	OH	44017	10/28/2013	Lunch. Dr wrote Butrans in a patient with osteoarthritis who was previously on Percocet with break thru pain. She gave Butrans and the patient is doing great and the woman is over 65 and Medco d covered the script. We talked about the Maria and Scott profiles. Starting sooner, discussed the extended release insight. Dr said she was not surprised. We reviewed pain scores of the open label, she thought the scores were good. Dr said she thinks the dosing of 4 x a month is an advantage and will work for many of her older patients. She said that it we,d make sense starting a extended release sooner for patien t who. Need the atc pain care. We talked aug OxyContin the molecule and the delivery system. Dr said she just does t write it because of its reputation. Discussed intermezzo and the dr said she has many patients that would fit the indication.
PPLPMDL0020000001	Cleveland	OH	44109	10/28/2013	Visited Ctr. left Butrans Initiation/Titration guides for clinicians, requested appt with Mary
PPLPMDL0020000001	Akron	OH	44333	10/28/2013	Introduced to Elise by dr Vucetic. Quick introduction to Butrans dosing, indication, titration and patient types. Left her with conversion and titration guide and patient profiles.
PPLPMDL0020000001	Brooklyn	OH	44144	10/28/2013	Reviewed OxyContin Tablet strengths along with Butrans for those Tramadol failures and patients requiring around the clock analgesia. Said OK, will consider. Booked appt.
PPLPMDL0020000001	Cleveland	OH	44127	10/28/2013	Reminded of OxyContin Q12h flexible dosing strengths and broad formulary coverage, along with Butrans for those Tramadol failures requiring around the clock analgesia. Dr. said he didnt have further time to discuss but will consider, said to stop back next week
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/28/2013	Spoke to dr about his patient on Butrans and he said he is still doing well. We discussed the delivery system of the product and the placement of the patch. I asked why he would ever consider a atc before Butrans which is extended release. Dr said it was habit and that he doesn't like writing any short acting opioids. We discussed abuse potential for all three products and asked if he ever writes Percocet, dr said hardly ever unless at the nursing home. Touched on his thoughts with the intermezzo indication and the dr thought it was a good nitch yet hard to get thru insurance. Gave dr various insurance grids and literature for dr to read on Butrans.
PPLPMDL0020000001	Westlake	OH	44145	10/28/2013	Spike to Kelly about Butrans. Discussed what she knew about and she new it was a transdermal patch for pain. I asked if she had any problems with pa or managed care and she said she hasnt had many calls on it. Left her approved literature on all products for the dr to read.
PPLPMDL0020000001	Berea	OH	44017	10/28/2013	Reminded dr about Butrans, 7 day transdermal patched. And asked if has try it yet. Dr said no not yet. I said so u have written intermezzo that came out at 3 years ago too. He said yes he tried it. Reviewed the bid action and the dosing. Dr said ok thank u and walked away.
PPLPMDL0020000001	Berea	OH	44017	10/28/2013	Lunch. Dr said he hasn't seen patients that would benefit for. Butrans cause he does t see patients with atc or chronic pain. We discussed the delivery system of Butrans. The schedule, and the pain s ores from the Ave study. Told him he may only have one patient a month but that's ok and Suggested that he should get experience. Dr said he will keep a look ur for the right patient. Discussed OxyContin, dr said the reformulation helped. I asked if he uses OxyContin. Over Percocet for patients t with atc pain. He said he likes to give prn cause most of his patients don't take their meds daily. Talked intermezzo. Dr said his patients don't fail ambien or generic ambien. Dr did like the indication And understood the dosing.
PPLPMDL0020000001					

PPLPMDL0020000001	Brooklyn	OH	44144	10/28/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, said OK, and is still looking for that patient, I asked who that patient is and he said the 1 that can afford it! Reminded of Medco/ESI preferred formulary status and savings card.<font color=blue><b>CHUDAKOB added notes on 11/06/2013</b></font>-Mark, this call note is beginning to show improvement. I can get some idea of what happened on the call. Keep working to capture the conversation. Thanks!
PPLPMDL0020000001	Akron	OH	44304	10/28/2013	Short discussion at front counter and asked dr if he is switching patients from Percocet that he believes are appropriate for q12h OxyContin? Dr said he has done it a couple of times but that some patients can't afford OxyContin. I asked him which ones and he said a Medicare and Medicaid patient couldn't afford it. I told him about insurance coverages and copay cards for commercial patients. Reminded about Butrans dosing and patient type Scott. Told him to keep intermezzo in mind when patients complain about in the middle of the night awakening.
PPLPMDL0020000001	Garfield Hts	OH	44125	10/28/2013	Quick OxyContin reminder, Q12h, flexible dosing strengths. Said he really doesn't treat chronic panic conditions but will keep in mind
PPLPMDL0020000001	Cleveland	OH	44104	10/28/2013	OxyContin Savings cards not needed, Reviewed Butrans 15mcg/hr dose, hasn't seen any new RX's, Dr. Bennett/Pandit had PA issue, believes it was resolved
PPLPMDL0020000001	Cleveland	OH	44113	10/29/2013	Discussed Butrans for those LorTab/Ultam failures that are requiring around the clock analgesia. She agreed that those are appropriate patients for Butrans and will continue to find new patients. Reviewed Initiation/Titration along with 15mcg/hr Reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44310	10/29/2013	Quick message at window and handed him the Butrans conversion scale. I told him that on our last visit we discussed the approximately 20% of his patients that don't follow his dosing regimen for IR opioids. Dr said yes. I told dr to keep Butrans in mind as an option for those patients. Dr said ok and he will continue to use.
PPLPMDL0020000001	Parma	OH	44129	10/29/2013	Gave Hydrocodone insight and asked dr if she thought this might pertain to some of her new patients. She said she has patients that come to her after being on for years. I asked her thoughts on stopping this and she said she tries to use Butrans were appropriate. Reminded her of intermezzo patient and she said if patient wakes due to pain she prescribes Butrans. I agreed.
PPLPMDL0020000001	Akron	OH	44310	10/29/2013	Followed up on last conversation and asked dr what would be the downside to prescribing Butrans for patient that meets the indication like one whom he has on tramadol? Dr said clinically not much but said cost is a big difference. I asked him if he thought Butrans is expensive? Dr said it could be for Medicare patients and said he sees a lot. I told him again that Butrans has good Medicare D coverage and reviewed it with him. I asked if he has private prescription patients whom are on pain medicine? Dr said yes. I told him that those patients can pay as little as \$15 for a month supply with the copay card. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Barberton	OH	44203	10/29/2013	Spoke to ma and asked to see the doctor, he had left for the day. Discussed Butrans, she heard of it and gave her naive study and initiation slim Jim to pass to the doctor. I showed her the demo patch and she thought it was very thin like a bandaid. Also discussed managed care coverage.
PPLPMDL0020000001	Barberton	OH	44203	10/29/2013	Thru window. Asked dr if he saw uncontrolled pain patients that he could try Butrans on today. He said not yet. I re indexed min to start dosing and gave initiation leave behinds.
PPLPMDL0020000001	Cleveland	OH	44125	10/29/2013	Left OxyContin info with RN Gay P, Initiation/Titration guide, Ortho surgeons don't typically meet with reps. Leave card and info
PPLPMDL0020000001	Barberton	OH	44203	10/29/2013	Dr said she is cutting back the number of opioids she writes and she said, she thought the state was going to move all narcotics to schedule 2. Dr was aware of the details of OxyContin such as q12h, single entity and the q12h dosing. When I asked when she uses OxyContin she said her severe patients with chronic pain. I mentioned it didn't have a Chronic pain indication and she was aware but said after her Vicodin fails she will write OxyContin but less these days with the new Ohio laws. Dr said she was glad for the reformulation of the product. Discussed Butrans. Se never used it. We reviews the Maria and Scott profile. She said she would move Butrans before tramadol because what if the patient only needs a few pills a day. I asked if she had at hesitations using Butrans after a Tramadol failure she said no. We discussed titration, pain results and also abuse potential. Dr is convinced that Tramadol is not a narcotic and not an opioid. She said she doesn't take many Medicaid or nursing home patients most have commercial insurance. Reviewed the savings program and the dr though the coverage was good and not a reason not to use Butrans. We talked intermezzo and she said too many prior auths and she was not going to waste her time for the office time trying to get it approved when there are other choices.
PPLPMDL0020000001	Uniontown	OH	44685	10/29/2013	Discussed the indication and dosing. Led by reviewing the start principles a d asked for his input. Dr said he agrees with them. I asked about his titration of the product in using the 7 doses. Dr said that he uses most but his threshold of Percocet is any 40mg. I asked why 40mg and he said that he likes to titrate through to ensure its providing the effect he needs. I asked why he couldn't just provide the patient with the q12 hydrocodone earlier? Dr said he has and. Old do that more often. Discussed Butrans key selling messages and asked about his experiences. Dr said he has prescribed it three or four times and said he had had mixed reviews. Dr said a couple of patients just didn't like it and the others are doing ok. I discussed patient types and choosing the right patient for Butrans. Introduced the 15mcg dose and asked for more prescribing to which he said he would and said he is not discouraged by the few that didn't like it because dr said it won't b for everyone. Discussed intermezzo indication, dosing and limitations of use. Dr said he really likes the idea and wanted copay cards.
PPLPMDL0020000001	Uniontown	OH	44685	10/29/2013	Short discussion over lunch about all products. Led with start principles and conversions. I asked dr to start with OxyContin sooner when patients are failing Percocet. Discussed Butrans dosing, indication, patient types, conversions. Discussed intermezzo key selling messages. Dr said he doesn't write much OxyContin anymore but said that he understands that he should for his Percocet patients on it for 6 months or longer. Dr said he likes the check 3 Butrans and will use.
PPLPMDL0020000001	Parma	OH	44134	10/29/2013	Reminded dr that 15 for Butrans was available. Asked dr if he thought new patients to his practice were appropriate for Butrans and he said he puts new or old on Butrans based on what he thinks. He said he likes Butrans for patients he is not comfortable with. I told him Butrans is still a schedule 3 with the same abuse potential as other opioids. Reminded him that OxyContin 7 strengths were not generic
PPLPMDL0020000001	Cleveland	OH	44113	10/29/2013	Discussed Butrans for those LorTab/Ultam failures that are requiring around the clock analgesia. Dr. agreed, said he has started 2 new older patients yesterday. Reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	akron	OH	44307	10/29/2013	Discussion on all products. Led with insight about hydrocodone and asked about how he prescribes hydrocodone? Dr said that he believes the stats and said that he doesn't write much hydrocodone but it would be q6. I asked him how often his taints follow his plan for the pain medicine? Dr said he knows not everyone is going to take it the way he prescribed it. I asked him what a week long patch would mean for this patients? Dr said it would probably be something they might like. I discussed all key selling messages, patient types with Scott and nancy, conversions. Dr said he likes the idea of Butrans and will look to use. OxyContin dosing, conversions and reviewed the start principles. Introduced intermezzo indication, dosing and limitations of use. Dr said he likes the idea and asked about insurance coverage. Discussed copay cards and coverage.
PPLPMDL0020000001	Uniontown	OH	44685	10/29/2013	Met heather for first time and learned that she came from dr Petrus' office. She told me that she couldn't take working in pain management anymore. Introduced Butrans and discussed all key selling messages. Discussed patient types and she said that she has prescribed it before but does not want to prescribe pain medicine anymore. Discussed OxyContin however she said she will never write it. Introduced intermezzo indication, dosing and limitations of use and she said that she is interested in it. She said she wanted copay cards and that she could find some patients for it.
PPLPMDL0020000001	Cleveland	OH	44113	10/29/2013	Discussed Butrans for those LorTab/Ultam failures that are requiring around the clock analgesia. She agreed that for Butrans patients, they she needs to start them early before they are on multiple doses of Short acting opioids. OxyContin Q12h also Reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44114	10/29/2013	Discussed Butrans for those LorTab/Ultam failures that are requiring around the clock analgesia. Elaine said she is always looing for new patients to try Butrans Reminded of Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44320	10/30/2013	Told dr that she needs to prescribe Butrans today for patients needing a dose adjustment on Ultram or vicoden. Dr said to me that she does see many of them each day. I asked how many she adjusts the dose for? She said it depends on the day. I told her if the patient is in prn pain or acute pain Butrans is not the product for them but the patients meeting the indication as I read it are the right candidates. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	10/30/2013	Quick message in his office about Butrans. I told him that Butrans produced at least a 30% pain score reduction in the opioid experienced trial. I asked him if he would like his patients to get a 30% reduction in pain score? Dr said yes he would and likes Butrans. Dr said he would like to use it more and will keep it in mind.
PPLPMDL0020000001	Euclid	OH	44117	10/30/2013	Placed a call to nurse practitioner, Leizel to cancel Butrans lunch scheduled for 10/31 at 12 noon.
PPLPMDL0020000001	Cleveland	OH	44109	10/30/2013	Inquired about Butrans 15mcg/hr- hasn't seen any RX's yet, will order when RX is presented
PPLPMDL0020000001	Akron	OH	44313	10/30/2013	I asked dr what he is typically treating for OxyContin? Dr said most low back pain and spinal stenosis. I told dr that those are ideal candidates for OxyContin and handed him the Maria profile. Dr said he will review it.
PPLPMDL0020000001	South Euclid	OH	44121	10/30/2013	Handed him the Butrans conversion scale and told him to reassess his IR opioid patients for the possible Butrans solution. Dr said ok.
PPLPMDL0020000001	Garfield Hts	OH	44125	10/30/2013	Met with tech & floating pharmacist. They were only 2 back in pharmacy. No time to check stocking. Cheryl is floating pharmacist. Made her aware of Butrans new 15 mcg hr titration dose. Left Butrans pharmacist's guide & FPI NDC Code brochure. They will pass along to pharm mgr.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/30/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Dosing-Initiation/Titration, MedCo/ESI formulary status. OxyContin Q12h flexible dosing strengths- Said she doesn't RX many pain meds but will keep in mind. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	South Euclid	OH	44121	10/30/2013	Discussed all key messages for all products. Dr said she likes that Butrans is a schedule 3 and might find a patient or two but will have a hard time remembering the Butrans patch. I showed her the slide conversion guide and asked her to keep it with her. OxyContin indication, dosing, and titration as well as conversions. Dr said she will not prescribe it. Intermezzo discussion and dr said she likes the idea but said it is costly. Discussed cost and insurance and asked her to try it.
PPLPMDL0020000001	Akron	OH	44320	10/30/2013	Dr DeJoseph said I have a few seconds. Understood. asked what her most recent experience with Intermezzo as been? she says I use it all the time, I really like it. says she's continuing to write Intermezzo as her patients are happy with efficacy. I had one pack Intermezzo of trial, cards on shelf to leave her; she has zero left, & asked if I could leave. 2 nd pack which I did. Left her reassessment slim Jim and her and med assts dosing guides. Let her know of new 15 mcg hr titration dose & stated next visit I'd like to discuss efficacy trial for naive patients. She says she rarely manages pain, Butrans she'll look at info I left.
PPLPMDL0020000001	Akron	OH	44320	10/30/2013	Good conversation on all products. Discussed OxyContin patient profile Maria and asked her what her thoughts are? Dr said she would have either referred the patient to pain management or started OxyContin much earlier. I told dr I was glad to hear the latter. I told dr that starting OxyContin earlier would be a good option for that patient. Dr said they have a lot of a users in the practice and they are working really hard getting them out. I told her patient selection is extremely important. Discussed Butrans patient types and titration. Explained conversions and asked her to please continue to identify the right patients. Dr agreed and said she needs to remember it more. I told her to keep the conversion scale in her lab coat.
PPLPMDL0020000001	Stow	OH	44224	10/30/2013	Reviewed the Maria profile for OxyContin and discussed dosing, titration and start principles. Dr said he really likes OxyContin and said that he continue to prescribe but said he still has some insurance issues. I asked him where and he said he can't remember. I reviewed plans and told him to try and remember a specific plan. Reviewed the Scott and nancy profiles for Butrans asked asked for prescribing for those patients. Nothing else
PPLPMDL0020000001	Lyndhurst	OH	44124	10/30/2013	Dr Isakov says he's tried to write Butrans a few times, not covered. Where not covered? A few Med d patients & another patient can't remember plan. His ma Helen left early, couldn't obtain further details. Dr., Since my last visit, Butrans Med D coverage has improved. In addition to being preferred on Medco /express Scripts med d, Butrans is also preferred on Cigna Med D. And your commercially insured patients can take advantage of Butrans 28-day trial, then \$50 off monthly co pay cards! Also Updated practice mgr Ellen T on Butrans access for patients. In addition, new 15 mcg hr titration dose now available. Next time I visit I want to share efficacy for Butrans in a 12 week clinical trial. I will leave you with the opioid naive trial, & hopefully you will look over before my next call.
PPLPMDL0020000001	Lyndhurst	OH	44124	10/30/2013	Dr Kim id like to Talk with you about a specific group of patients, your Percocet patients IR oxycodone/ apap insight. Dr Kim agreed 265 days is a long time to keep a patient on a short acting to treat a long term pain issue. I would like you to consider converting these patients that are been taking Percocet 90 days & longer, to controlled release OxyContin sooner, does that sound reasonable.? Yes replied dr Kim. I also want to share with you our new 15 mcg hr titration dose for 1 x week pain patch Butrans. Updated practice mgr Ellen T. on Med D preferred status for Butrans.
PPLPMDL0020000001	Garfield Hts	OH	44125	10/30/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia. 7day transdermal, Initiation/Titration, MedCo/ESI. Has a patient in mind this afternoon to start. Reviewed OxyContin Q12h flexible dosing strengths along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Garfield Hts	OH	44125	10/30/2013	Discussed Butrans, 7day transdermal, for those Tramadol failures requiring around the clock analgesia, Initiation/Titration, MedCo/ESI formulary coverage Dr. said he has a few patients in mind. OxyContin-Q12h flexible dosing strengths. Intermezzo for MOTNA/dosing.

PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/30/2013	Led off conversation about hydrocodone and 41%patients. I asked dr her thoughts and she told me she believes it and that's why she doesn't prescribe too many narcotics. Dr told me that she prides herself on the fact that she doesn't accept BWC or Medicaid and always tries to do the right things by her patients. I asked her if she has patients currently on tramadol or vicoden and she said yes. I discussed how the option of Butrans may be suitable for these patients. Heat all key selling messages be dr said she may have use for it in a patient or two. Discussed OxyContin dosing, titration, patient types. Dr said she will not prescribe it. Finished with intermezzo discussion and dr said its too expensive.
PPLPMDL0020000001	Garfield Hts.	OH	44125	10/30/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Dosing-Initiation/Titration. MedCo/ESI formulary status. OxyContin Q12h flexible dosing strengths- Said she doesn't RX many pain meds but will keep in mind. Intermezzo for MOTNA/dosing, OTC
PPLPMDL0020000001	South Euclid	OH	44121	10/30/2013	Both dr Tomm & Locke already gone for day. Met with RN Ann. ( note: LUNCH BOOK FOR 2014 NOW OPEN) left Ann a few intermezzo dosing guides. Reviewed Intermezzo indication & showed re assess Intermezzo piece. Let her know of new 15 mcg hr titration dose for Butrans, our 1 x week pain patch. Left new mktg piece for Butrans with both Drs.
PPLPMDL0020000001	Uniontown	OH	44685	10/30/2013	Told dr that he should look over the conversions for OxyContin and reassess some patient that have been on Percocet for 3+ months as possible candidates for OxyContin. Dr said he will do that and really likes OxyContin. I told him to not forget about Butrans coverage on BWC and the Caresource PA.
PPLPMDL0020000001	Cleveland	OH	44113	10/30/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia. (7day transdermal/4 patches a week) Savings cards/MedCo/ESI and 15mcg/hr dose. OxyContin Q12h flexible dosing strengths.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/30/2013	Led off conversation by asking him if he prescribes tramadol and vicoden? Dr said he does. I asked him what the prescription looks like ? Dr said one pill 4 or 6 Tim's a day. I asked him if he has patients that don't follow the dosing regimen? Dr said most will take too often. I asked him what patients might think of a once a week patch? Dr said he would expect their adherence to the dosing schedule. I discussed all key selling messages, showed patch and application sites. Dr said he can see where he could use it. Dr asked about insurance and I reviewed plans more important to him. Discussed OxyContin and asked him if he would prescribe it and he said very sparingly. Intermezzo dosing, indication and limitations of use.
PPLPMDL0020000001	Stow	OH	44224	10/30/2013	Stephanie told me that she prescribed Butrans for the first time last week. I asked her to tell me about it and she said that the patient was on 2 vicoden a day and when she basked about the pain the patient said it is all day pain. Stephanie said the patient had Caresource and is he remembers me speaking about the Caresource PA. Stephanie said later after checking the patients file that the patient said Butrans would cost her \$180 and dr Balter put the patient on fentanyl. I told Stephanie that there is no way that the PA for was processed and she should look into that because the patient met the criteria.
PPLPMDL0020000001	Stow	OH	44224	10/31/2013	Spoke with Holly about all products. Holly said she dispensed 5mcg Butrans the other day from CPM and Stephanie Whitting. I told her I knew about it and had a discussion with Stephanie about it. Holly said the PA took some doing but needed up being covered for 6 months. Holly was glad she dispensed Butrans only weeks after ordering it for the first time. Discussed dosing, and patient types with conversions. Told her about OxyContin dosing and titration with start principles. Reminded her about intermezzo along with appropriate patients. Holly said she is getting another shipment of Butrans today and is considering ordering the 10mcg.
PPLPMDL0020000001	Akron	OH	44312	10/31/2013	Quick message in hallway of his office about using oxycontin for those patients of his who are already on IR oxycodone. I asked him to switch those patients who he feels are appropriate for the q12 dosing. I also mentioned Butrans for those patients needing a dose adjustment on tramadol. Dr said he hasn't had luck with Butrans yet but will keep trying. I reminded dr to select appropriate patients. Left him. With the intermezzo dosing guide.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/31/2013	Dr asked me how long it takes Butrans to work? I asked him why he asks and he told me that he remembers me talking about some of that stuff and wanted it again. I gave him a FPI and reviewed section 12.3. Dr said ok and he will look at it himself. I told him to continue prescribing Butrans for tramadol patients needing a dose adjustment.
PPLPMDL0020000001	Euclid	OH	44117	10/31/2013	I sent an email to director of nursing, Kathy Nemeth to inform her that Purdue's nurse educator program will not be moving forward. I thanked her for her support and utilizing the program I also canceled the Butrans lunch in service with the NP, Lizeel for today at noon
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	10/31/2013	I told dr that she should be prescribing OxyContin for those patients of hers on Percocet and showed her the conversion guide. I asked her if she has prescribed the 7 day transdermal patch yet for those patients she has on tramadol and need a dose adjustment? Dr said she didn't think so. I told her to do it! Nothing else learned.
PPLPMDL0020000001	Parma	OH	44129	10/31/2013	Told ma that Butrans is now available in a 15. She said she still had the vouchers from before. Asked if dr needed vouchers for OxyContin and she said no. I asked about sharing information with him in person and she said now is not a good time due to emr transition.
PPLPMDL0020000001	Richmond Heights	OH	44143	10/31/2013	I placed a call to nurse educator, Sheila Harris to inform her that the Purdue nurse educator program will not be moving forward and thanked her for her past support.
PPLPMDL0020000001	Stow	OH	44224	10/31/2013	Showed dr the Carl profile and reviewed it with her. I asked her if it makes sense to prescribe OxyContin for that patient? Dr said it does. I asked her if the patient is taking 60mg/day of IR oxycodone what dose would she convert to OxyContin? Dr said 30mg and she tries to convert patients as much as she can if they can afford it. Showed dr the insurance grids and then reviewed the conversion guide for Butrans and told her to reassess her tramadol patients as potential candidates. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Dr did not come back to lunch. Met with her med asst. Discussed all 3 products. Indications, warnings, precautions, black box for OxyContin. & Butrans.
PPLPMDL0020000001	Euclid	OH	44117	10/31/2013	I placed a phone call to Nurse Educator, Ruth Rossi, informing her that the Purdue Nurse Educator program will not be moving forward at this time. I thanked her for supporting and utilizing the program
PPLPMDL0020000001	Olmsted Falls	OH	44138	10/31/2013	I placed a phone call to DON, Pam Ritter to cancel our meeting scheduled for November 4 at 11 AM To present Purdue's nurse educator program. Pam was not available, I left a message on her voicemailReason: Purdue's nurse educator program not moving forward at this time
PPLPMDL0020000001	Fairlawn	OH	44333	10/31/2013	I placed a call to staff development Coordinator, Michelle Williams to inform her that Purdue's nurse educator program will not be moving forward at this time and to thank her for her past support and utilizing the program.
PPLPMDL0020000001	Akron	OH	44305	10/31/2013	Spoke with the secretary L. About any patients she has seen come through for Butrans that may have required a PA. L said that she had one just yesterday that he prescribed Butrans for that had buckeye and is was declined so dr prescribed something else. L said that the patient just switched to Caresource and said she remembered that's its covered with a PA and was going to have dr look at it again for Butrans. Discussed the situation with dr and he said he will most likely prescribe it again for the patient. I made sure to review the PA criteria for Caresource again. Told him to continue prescribing OxyContin for his Percocet patients like carol profile. Dr said ok.
PPLPMDL0020000001	Richmond Heights	OH	44143	10/31/2013	Reminded of intermezzo dosing and indication.
PPLPMDL0020000001	Cleveland	OH	44114	10/31/2013	I sent an email to LPN Joan Southard informing her that Purdue's nurse educator program will not be moving forward at this time. I thanked her for her support and utilizing the program.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia. Initiation/Titration. MedCo/ESI/ BWC coverage. OxyContin Q12h along with formulary
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Dr e is opposed to writing scheduled meds, however she will consider Butrans as option for OPIOID naive, or after Tramadol. Pain reduction insight BUP 3024. Focused on inclusion criteria, patients walking in from pain caused by those conditions. She was impressed with 4.6 pain reduction. Showed her how to write. She asked how does she take someone off Butrans, responded with half life information, that's up to her discretion. Black box warning, precautions, contraindications discussed. Left new marketing piece, discussed new 15 mcg hr titration dose. Left dosing slider. Fr more severe pain, controlled release OxyContin q 12 h may be more appropriate. For your MOTN awakening patients, I have Intermezzo, Zolpidem tartrate sublingual tablets.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	OxyContin, START principles discussed. \$90 savings cards discussed. also left conversion titration guide for Paul & head nurse Carla, showed conversion s from ir oxycodone & Percocet. then Butrans for moderate to severe pain discussed. Paul asked about patient access, savings for Butrans. He Did not recall that we have trial, savings cards. Opened a card to show him how both should work. He stated cards will be very helpful to him in future. Discussed 15 mcg hr titration dose. Updated on Med D preferred plans. Intermezzo, for MOTN awakening insomnia patients. Trial, savings discussed. Left re assess insomnia piece, dosing card.
PPLPMDL0020000001	Cleveland	OH	44115	10/31/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia. Reviewed MedCo/ESI/BWC coverage. 15mcg/hr- Initiation/TitrationBrief reminder of OxyContin Q12h.
PPLPMDL0020000001	Cleveland	OH	44119	10/31/2013	Met with med asst: all Drs leave by 4 typically, none in right now. asked to see pharmacist, staff pharmacist gone as well. Introduced myself, my branded products, and Otc samples, (laxatives, slow mag) Left OxyContin conversion titration guide, PBM brochure, Reformulation piece. Left Intermezzo re assess your insomnia patients piece.
PPLPMDL0020000001	Westlake	OH	44145	10/31/2013	Lunch. Discussed Butrans. Dr asked how it was different from fentanyl. I said no head to head studies. Reviewed it was a 7 day transdermal patch and that it was a matrix system. She was curious how many hours before the patient has pain control. I didn't have the answer. But reviewed steady state and when titration could occur. Dr was not interested in sending an emefr to the company. She asked if it was detected in most urine screens, suggested she check to make sure it was looking for buprenorphine. She said she doesn't like to treat chronic pain, but does with vikodin, Percocet or Tramadol. I asked at what point would she consider an extended release and she said she never new the details of Butrans before now but could see her using it. We talked about if she would ever write OxyContin 10mg after an NSAID failure. She said u can't do that. I said u absolutely can do that but sounds like u wouldn't why. She said the name of OxyContin scares patients. I said would the name Butrans scare people? She said no. Dr and I reviewed the conversion chart...she felt like most of her patients would be starting Butrans at 5mcg. I asked her if Butrans dosing seemed complicated. She said no. I said do u think u may be able to have a good handle managing patients atc pain with Butrans vs prn medications and she said yes. Dr doesn't have nursing home patients, little cash patients and little Medicaid. She was most interested I med part d. Viewed intermezzo And OxyContin.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Lunch. Dr Adamich refers pain patients out if they require C II s. Pain reduction insight, BUP 3024. Focused on inclusion criteria, & types of conditions that her patients are suffering from, causing them chronic pain. She felt 4.6 reduction in pain to be clinically important. The adverse reaction profile was what she would expect, pleasantly surprised constipation not higher. Went over dosing, patient selection, back box, contraindications, how to write, she has a female patient in mind, who as expressed she's tired of pain pills; doesn't want surgery; wants to try something different. Judy feels Butrans good option for patient. Caresource PA discussed, Med D preferred plans, her concern is many people with commercial insurance have really high deductibles; often preventing then from using branded meds. Told her I look forward to following up on that patient next time I visit.
PPLPMDL0020000001	North Olmsted	OH	44070	10/31/2013	Discussed Butrans with the pharmacist floater and the tech today. Review of Butrans and the dosing, also the placement of where to put the patch, rotate the patch so u do t return to the same sight before 21 days and how to discard of the patch after worn. She asked if the cvs had the 15 at the warehouse and said it did stock all mcg doses. Review OxyCotin, the molecule and q12h dosing. She hasn't seen a script of intermezzo in a long time.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Review the indication and that it wasn't ab rated. Left literature.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Lunch. Met with med asst first, discussed indications for all products. found out dr RETIRING, last day Dec 27 th. The practice is actively looking for his replacement. ( mark in Phoenix retire as of 12/27/13. Showed dr new Butrans marketing piece with new 15 mcg hr dose of Butrans. Wanted to touch on a few points in BUP 3024, he didn't have time. Dr for severe pain, I have controlled release OxyContin q 12 h; ad for your MOTN awakening insomnia patients I have Intermezzo.
PPLPMDL0020000001	Parma	OH	44134	10/31/2013	Introduced myself to dr mandat staff and reviewed butrans and greater than 30% reduction in pain. Staff said they only know of one patient on Butrans but thought that was a patient in the nursing home. Reviewed flexible dosing of OxyContin. Gave intermezzo indication and limitation of use
PPLPMDL0020000001	Akron	OH	44312	10/31/2013	Spoke to dr along with his NP student Michelle. I discussed the key points of efficacy and safety on the opioid expericed trial and asked him if he would like his patients to have at least a 30% reduction in pain score? Dr said he would and doesn't even get close to that now with products like tramadol or vicoden. I told him then he needs to write more Butrans and to sell it to his patients that may be reluctant to using a patch. Dr agreed that it is important to explain the concept of a patch correctly. I told him that he should also be using OxyContin for those patients who are on or onset for 3+ months and dr agreed. Reminded him Of using intermezzo for patients meeting the indication.
PPLPMDL0020000001	Euclid	OH	44119	10/31/2013	Dr very opposed to managing scheduled meds, however may write insomnia agents. Discussed OxyContin, controlled release, q 12 h dosing. he commented on what a challenge & how complicated the process to manage opioids, use the Ohio OARRS system ; the new AMA, FDA 80 mg trigger guidelines. Discussed Butrans as option for opioid naive, BUP 3024, pain reduction scores, left BUP 3024 for his review. Black box warning, precautions, contraindications. Also left new marketing piece reflecting all 4 doses. Despite data presented he is not comfortable writing a schedule three either. Concerned with opioid abuse, his wife is pharmacist. Intermezzo, Zolpidem tartrate, sublingual tablet, for MOTN awakening insomnia patients. He will review my information. Then OTC line. Asked if I could leave samples of Slow Mag, none in car, promised next visit.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	10/31/2013	Saw dr at hospital and told him that Butrans in the clinical studies showed at least a 30%pain score reduction and asked him to prescribe it for those patients in p,ace for a dose adjustment on tramadol or vicoden. Jake said he is continuing to write it and its going well. I told him to keep OxyContin in mind for his patients on Percocet over 3 months who are appropriate for the q12 oxycodone.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44113	11/1/2013	Visited Dept. Spoke with Dale(PA) in regards to OxyContin-Q12h flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said he likes both products and will continue to find new appropriate patients
PPLPMDL0020000001	C. Falls	OH	44223	11/1/2013	Spoke with Denise about all products. Denise said she filled a Butrans and OxyContin for dr Ali is week. I asked if they have moved any 15mcg Butrans and she said they have not. I checked copay cards and they were out of OxyContin copay cards. Denise asked if I still have intermezzo and I asked why? She said because they have it on the shelf and have never seen a prescription for it. Denise asked about insurance coverage. I reviewed
PPLPMDL0020000001	Akron	OH	44312	11/1/2013	Spoke with Michele the office manager about my products. Michele said that the office typically refers out for pain patients but said he may be interested in Butrans since its a schedule 3. Explained the product key points. Michele. Said he does 15 minute appointments on Tuesdays and she will ask him if he would like a product review then will contact me.
PPLPMDL0020000001	Cleveland	OH	44130	11/1/2013	Spoke with Doris and she said dr has not used any Butrans since our lunch. Gave dr the hydrocodone insight with 41% using more than 90 days and he said he does not think they should be using a pain medication that long and he would not put a patient on a long acting. He said he would refer anyone like that to pain management. A asked about the Butrans patient and he said he has not seen a need.
PPLPMDL0020000001	Norton Parma	OH	44203 44134	11/1/2013 11/1/2013	Spoke to nurse, discussed managed care and show to apply patch Spoke with pharmacist about Butrans 15 and positioning after tramadol and before hydrocodone. Used pharmacist detail aid. Showed pharmacist OxyContin flexible dosing. Gave intermezzo indication and asked about high sedative hypnotic writs in the area.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/1/2013	Spoke with dr and again one of his nurses about a patient with an insurance plan called Catamaran which is the PBM for the patients supermen PPO plan. Gail told me about how the patient was prefixed Butrans and took the prescription to a Walgreen on Canton rd in mogadore. The patient was told by the pharmacist could not run the I'd numbers for Butrans because the system would not allow them to because of a PA. Discussed the specifics w/ dr and staff and will follow up after sending specific information to the DM.
PPLPMDL0020000001	akron	OH	44333	11/1/2013	Discussion about all products. Led with insight about hydrocodone and asked him about patients he prescribes IR opioids for. I told him about the patients he needs to identify for Butrans. Explained Butrans mechanism of action, steady state, titration and conversions. I asked dr to prescribe. Dr said he needed more OxyContin copay cards. We discussed patient profiles and how to properly individualize the dose and start principles. Left him with information about intermezzo.
PPLPMDL0020000001	Cleveland	OH	44113	11/1/2013	Visited Ortho Dept. (Stearns/Bilfield) OxyContin Initiation/Titration guides
PPLPMDL0020000001	Cleveland	OH	44113	11/1/2013	Visited Ortho, Stearns/Bilfield, Left OxyContin Initiation/Titration guides
PPLPMDL0020000001	Hudson	OH	44236	11/1/2013	Quick hello with dr and discussed OxyContin and showed him the conversion and titration guide and the Tom profile. Dr said he writes it occasionally. I asked dr to use OxyContin for those patients on Percocet for 3 + months. Dr agreed and said he could do that.
PPLPMDL0020000001	Akron	OH	44305	11/1/2013	Good discussion about the carol patient profile. I read it with dr and he agreed that the patient is a good candidate for OxyContin. We discussed proper initiation doses, titration and start principles. I asked dr how often he finds he needs to titrate OxyContin? Dr said there are inpatients that he has titrated within the first week on a dose and outpatient is usually two weeks to a month as necessary. I asked dr to use OxyContin as his go to schedule 2 ER opioid. Reviewed Maria profile for Butrans and discussed conversions and titration.
PPLPMDL0020000001	Cleveland	OH	44130	11/1/2013	Asked dr how long he thinks patients are on short acting before he treats them and gave the hydrocodone insight of 41%. Dr did not reply but nodded his head and made a motion for a signature. I told him I did not have samples and he walked past me towards the patients rooms. I mentioned butrans 7 day transdermal system. Spoke with his ma and she said dr is cutting down on his OxyContin because he does not want to appear on a report. I asked which report and she said pharmacy report.
PPLPMDL0020000001	Parma	OH	44129	11/1/2013	Confirmed with anyla that the 15 is available and has been ordered by doctors in the area. She said she keeps Butrans in stock because it moves. Reviewed flexible dosing of OxyContin and gave 41% over 90 days hydrocodone insight. Reviewed intermezzo indication and limitation of use.
PPLPMDL0020000001	Parma	OH	44134	11/1/2013	Spoke with Cathy about the Butrans 15 being available and the non opioid clinical trial pain reduction from 7.2 to 2.6. Reviewed the start principle for OxyContin. Gave indication and limitation of use for intermezzo. Cathy asked about drs in the area that are writing and I said there are various doctors and there would be more as I give more of them information.
PPLPMDL0020000001	Cleveland	OH	44113	11/1/2013	Discussed Intermezzo for MOTNA/dosing. Dr said he likes the molecule and will continue to prescribe. Reminded of Butrans for those Tramadol failures that he refers out, Said OK, but doesnt RX any narcotics
PPLPMDL0020000001	Cleveland	OH	44102	11/1/2013	Talked with Mike, discussed Butrans 15mcg/hr dose, said he hasnt seen any, but will order in when RXed. OxyContin q12h flexible dosing strengths and Intermezzo for MOTNA/Dosing
PPLPMDL0020000001	Cleveland	OH	44113	11/1/2013	Quick Butrans reminder for those Tramadol failures, said OK and is always looking for possible Butrans patients
PPLPMDL0020000001	Cleveland	OH	44114	11/1/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia. Said OK and as always will keep in mind. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44333	11/4/2013	D spoke with me about the practice brining in a new physician in early December, dr Goldner. Dr Vucetic said that t trained under him. I asked dr Vucetic about his philosophy in treating pain. Dr said that he does primarily interventions and does not have strong beliefs in treating pain with opioids however dr Vucetic said that dr Goldner knows he will need to change his philosophy in their practice. I asked dr Vucetic about using his Butrans copay cards and told him I noticed that he isn't moving the cards. Dr said a large majority of his prescriptions come from Medicare patients. Discussed his use of Butrans, patient types and patient types for OxyContin. Dr said he has been using more OxyContin and likes it because it is covered more than other schedule 2 options. Discussed intermezzo patient types and clinical studies.
PPLPMDL0020000001	Akron	OH	44333	11/4/2013	Some with Jim the pharmacist about all products. Discussed the Kathy profile for Butrans and asked him if it makes sense? Jim said he thinks its a good product but they have not filled many. Jim said they currently have none on the shelf. I asked why and he said they filled a couple and the others went out of date and sent back. I asked about OxyContin dispensing and showed doses? He said they see a fair amount but its the same patients for many years. Gave him intermezzo dosing info and showed him the demo packets.
PPLPMDL0020000001	Westlake	OH	44145	11/4/2013	Discussed Butrans. Brief overview on what Butrans is... 7 day transdermal opioid schedule 3.
PPLPMDL0020000001	Westlake	OH	44145	11/4/2013	Dr has been writing Butrans for his nursing home patients. He has tried Butrans after Vicodin for his patients who pain and meet the indication,he said his patients are doing great and it is a nice product for the patients cause its delivery system and not having to take medications daily. We discussed trying it in a younger commercially insured patient, dr said he has tried to write it but some managed care plans said too expensive. When tried to find out what plans he couldn't remember. Showed the visual aid. Butrans naive study...reviewed pain scores and 30percent pain reduction.
PPLPMDL0020000001	Westlake	OH	44145	11/4/2013	Spoke to Lisa ma upfront about what Butrans is and trying to schedule apt.
PPLPMDL0020000001	Mayfield Village	OH	44143	11/4/2013	Spoke with medical assistant Heather. Dr has no time to come up front. Let her know I represent Butrans as option for moderate to severe chronic pain, in 1 x week transdermal patch. There are now 4 strengths available. Left mkt piece for dr & med asst Melissa.
PPLPMDL0020000001	Garfield Hts	OH	44125	11/4/2013	Spoke with Linda(Tech) reminded of Butrans 15mcg/hr, hasnt seen any RX's yet, will stock when they see 1, OxyContin savings cards along with Intermezzo for MOTNA/dosing and trial cards
PPLPMDL0020000001	Westlake	OH	44145	11/4/2013	Spoke to Paula the ma up front. Other than lunches, she said the dr doesn't see reps. Left a variety of materials. Dis used Butranswith ma.
PPLPMDL0020000001	Westlake	OH	44145	11/4/2013	Adverse reaction reported today. Lunch. Discussed pain scores and insight, dr did not think the results were very high nor did he use The 11 point scale to measure results. Discussed the. Not controlled Tramadol patient and asked him To use Butrans in the chronic pain patient that is not controlled on Tramadol.
PPLPMDL0020000001	Cleveland	OH	44143	11/4/2013	Dr Silverblatt is not a fan of any scheduled products, his practice leaning more & more toward holistic, natural remedies. Discussed Butrans & OxyContin indication, then Intermezzo indication. He's just not willing to write scheduled meds & refers patients out to specialty doctors.
PPLPMDL0020000001	Mayfield Hts	OH	44124	11/4/2013	Dr Laham say she has offered a few Butrans patients the option to titrate to the 15 mcg hr, and those patients stated their pain was controlled on the 10 mcg hr. discussed patient access & Caresource prior auth details. He was happy to have Caresource info. For your Percocet patients, dr Laham, I would suggest conversion to a long acting sooner. Let me tell you why: oxycodone APAP insight. Dr responded, something to think about. Caresource, you've used in past, & liked efficacy, Butrans its not covered anywhere, its a hassle getting it for my patients& hassle for staff with prior auth's needed. I have a solution for access in Caresource, after falling any other agent with Zolpidem, the Caresource patient can get Intermezzo. That's good to know. Please put this dosing card in your pocket to remind you of Caresource for our MOTN awakening insomnia patients. Dr put in his pocket, wrote himself reminder on dosing card.
PPLPMDL0020000001	Akron	OH	44333	11/4/2013	I handed dr the new Butrans titration guide and asked him what his thoughts are on the 15mcg dose use in his practice? Dr said he knows about the 15mcg dose and said he feels much more comfortable using the 15mcg for patients on the 10mcg dose than taking them to the 20mcg. I told dr that's good to hear and asked him to reassess his patients on 10mcg to see if 15mcg is appropriate? Dr said he will. I told him that he should also move his patients on Percocet for more than 3 months to q12 OxyContin.
PPLPMDL0020000001	Westlake	OH	44145	11/4/2013	Thanked the dr for trying Butrans like she said she would, asked how the patient was doing. She said the one just died from cancer (adverse report filled out) and the other patient is doing great. Dr said she is starting to rethink all her vikoden chronic patients and she also liked the fact patients don't know the name Butrans. Reviewed commercially insured coupons and encouraged her to continue to write Butrans where she currently is trying it. Left titration guide.
PPLPMDL0020000001	Garfield Hts	OH	44125	11/4/2013	Visited Pain/Anes. Dept. Abraham/Samuel/Lohesnamdah. OxyContin/Butrans initiation/titration
PPLPMDL0020000001	Cleveland Hts	OH	44118	11/4/2013	Reminded of OxyContin Q12 flexible dosing strengths/titration. Discussed Butrans for those Tramadol failures requiring around the clock analgesia, agreed, said he likes Butrans, and is finding new patients every week,
PPLPMDL0020000001	Garfield Hts	OH	44125	11/4/2013	Reviewed Dosing/Titration
PPLPMDL0020000001	Garfield Hts	OH	44125	11/4/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, Said he has a patient in mind. Reviewed Initiation/Titration and told him i'm looking forward to discussing further. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Fairlawn	OH	44333	11/4/2013	Saw dr at counter and asked him when he sees patients in his office that are on Percocet to assess them as possible candidates for q12 OxyContin. Dr said ok. I gave him the titration and conversion guide. Gave him the Kathy profile and told him to review so he can accurately identify patients for Butrans. Dr said ok. Nothing else learned.
PPLPMDL0020000001	University Hts	OH	44118	11/4/2013	Window call Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia/MedCO/ESI formulary status, said OK stop back later in week to book appt
PPLPMDL0020000001	Mayfield Heights	OH	44124	11/4/2013	Met with Genice, Autumn, Warren. Discussed new 15 mcg hr dose for Butrans. Left pharmacist guide, NDC code / FPI brochure. Since Butrans not on Cleveland Clinic formulary, savings cards are helpful. OxyContin, is branded, controlled release, comes in 7 doses and q12 h recommended dosing. Left OxyContin \$90 cards & OxyContin pharmacist guide. Left RX patrol flashcard, resources discussed. Intermezzo, zolpidem tartrate, is MOTN awakening insomnia agnt. left pharmacists guide, trial, savings cards.
PPLPMDL0020000001	University Heights	OH	44121	11/4/2013	IR oxycodone APAP insight, dr i want to talk with you today about your Percocet patients, who are being refilled much after month. is it possible some of these patients are appropriate to convert to a long acting sooner? What would be the downfall of converting to OxyContin q 12 h? UH doesn't want me writing OxyContin, & I only write new OxyContin for cancer pain. Fair enough doctor, I'd like to make another suggestion, we've talked about Butrans,as an option for moderate to severe pain after Tramadol. When you have patient taking 3-4 or 300-400 mg daily, & pain not controlled please consider a 7- day Butrans patch. As you know, we have 4 doses now available for patients. ( used new Mktg ( now w 4 strengths, Butrans offers greater dosing flexibility) dr says ok, he will consider. Quick MOTN awakening insomnia mention. For your Caresource patients with MOTN insomnia, Intermezzo, Zolpidem tartrate is an option.
PPLPMDL0020000001	Lyndhurst	OH	44124	11/4/2013	All HCPs doing injections, unable to come up front. Spoke with office coordinator, indications all products. Updates OxyContin commercial, med d status. Left Butrans patient access brochures, reminder 4 strengths now available. Intermezzo, left dosing cards, all HCPs, Intermezzo core messaging, left 1 pack trial, savings cards. Dr deed as NOT reinstated lunches/ appointments yet, keep asking.

PPLPMDL0020000001	Mayfield Heights	OH	44124	11/4/2013	Met w RN Chris. Presented al 3 products. She says dr hasn't written OxyContin for about 15 years, and he's moved away from writing long actings. Let her know I have branded, controlled release OxyContin with q 12 h recommended dosing. Dr would never write that now says Chris. Butrans, although. Long acting, is a 7-day pain patch option for moderate to severe chronic pain, with 4 strengths available. Chris says dr has never written Butrans, she did take my information & say head look over, and took savings cards as well. Left patient access brochure & med d flashcard. Does dr treat any insomnia? No, he sticks to his specialt says Chris, concentrating on interventional management & focuses on the SPINE. Discussed Intermezzo indication briefly. (for MTN awakening insomnia)
PPLPMDL0020000001	Garfield Hts	OH	44125	11/4/2013	Quick discussion on Butrans for those patients that are not adequately controlled on Tramadol, requiring around the clock analgesia, said OK and is considering. Reminded of OxyContin Q12h flexible dosing strengths. Confirmed appt
PPLPMDL0020000001	Cleveland	OH	44109	11/5/2013	Visited Pharm. Left Butrans info to be distributed to appropriate patients. OxyContin savings cards
PPLPMDL0020000001	Olmsted Falls	OH	44138	11/5/2013	Spoke to dr, he tried Butrans 5 on an older patient who said it made her feel loopy. He also discussed trying Butrans in the patient Who is over 65 that has been taking Percocet. I showed him the initiation guide to make sure the starting dose is 5 or 10 depending what total dose the patient t was on, dr couldn't remember, but I did review who might not be appropriate for Butrans. We discussed the elderly. He asked about dosing them, reviewed no dose adjustments but caution start low and warned against respiratory depression or if they have severe bronchial asthma. Left the initiation guide and the Scott profile behind. Asked the doctor if he felt Butrans would help their patients manage their own pain better. He said yes. Dr said he will continue to find a spot for butans.
PPLPMDL0020000001	Berea	OH	44017	11/5/2013	Breakfast. Discussed using Butrans after Tramadol, dr said he would try it. But didn't see many chronic patients but did agree to be seeing more since he picked up a other doctors practice. Dr was told how to dose and how many patches a month to write. We discussed patients managing their pain with extended release, dr didn't say much. Left dr literature on intermezzo.
PPLPMDL0020000001	Cleveland	OH	44109	11/5/2013	Visited Senior Health Ctr PMR
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/5/2013	Spoke to dr about conversions to OxyContin from Percocet and asked dr to choose OxyContin as his go to ER opioid. Dr looked at conversion guide and said he uses many ER opioids but OxyContin is probably the one he goes to first. I asked him why and he said that he knows it works and makes sense going from Percocet. I told dr I agreed and to continue prescribing.
PPLPMDL0020000001	Berea	OH	44017	11/5/2013	Spoke to dr, she said she just got done trying to get a patient on Butrans but the patient did want a patch. I repeated pain scores from naive study....and asked her if she thought the pain scores were good, maybe she could tell a patient for a reason for taking the patch. She said the pain dr told her she should refer out after 3 months of being on Butrans, Barry gave the med 80 information. Discussed how patients managed their own pain when taking around the clock or 4 or more times a day. Dr said they do good at it. I asked if 4 patches a month with an extended release delivery system would help make managing their pain easier? Dr said yes. Asked her to keep what she was doing.
PPLPMDL0020000001	Stow	OH	44224	11/5/2013	I told dr I was there to help him keep OxyContin and Butrans in front of his mind when he goes to prescribe an ER opioid. Dr said thanks and said he will keep Butrans in mind. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44305	11/5/2013	Followed up with ma L. And dr about the patient last week that he saw whom he attempted to prescribe Butrans for who was on buckeye and got denied. I asked dr since that patient switched to Caresource prior to him seeing her last week if the patient was still a candidate for Butrans and if he prescribed it? L. Said she couldn't remember but dr said he thinks he did write Butrans again and started on the 5mcg. Dr said he's not sure is the PA was done yet. I asked L. To complete the PA and call me if she has questions. Reviewed the criteria again and she said the patient did meet the criteria.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/5/2013	I asked Cassie the pharmacy tech if she has seen any Butrans 15mcg dispensers? She said she didn't think so but checked their stock and they ordered in the 15mcg dose and have one box on th chf. I discussed the dosing, conversions, and patient type nancy. I asked about OxyContin stocking and they have all 7 doses in stock. I discussed titration and conversions. Finished with intermezzo indication and dosing discussion.
PPLPMDL0020000001	Cleveland	OH	44109	11/5/2013	Left Butrans/OxyContin initiation/Titration guides for both products requested appts
PPLPMDL0020000001	Cleveland	OH	44144	11/5/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Reviewed Opoid Naive trial and at least a 30% decrease in pain intensity. Dr. thought that was significant and important to her patients. Said she has a patient in mind and believes they have MedCo ins. Reminded of Initiation/Titration. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Akron	OH	44310	11/5/2013	Good discussion on all products. Dr spoke about a patient he started on Butrans 10mcg who was previously on Percocet 20mg/day. Dr said the patient came back in after a on the for follow up and complained about the patching giving a rash and the patients didn't want to continue the product. I discussed with dr if he has ever made the decision to treat the rash or puritus before discontinuing it? Dr said he typically would and has but in this situation the patient no longer wanted the Butrans patch. Dr asked what type of adhesive is used with butrans? I told dr I didn't know but I will find it out. I asked why and he wondered if it was latex? I followed up on the last conversation we had about Butrans and patients following his dosing regimen on IR opioids. I reminded dr that he said only about 20% of his patients don't follow his plan. I told dr that we need to discuss the 20% and find out how those patients may be appropriate for Butrans. Dr said he already does that for those patients. I asked dr why for the patient on Percocet if he considered OxyContin? Dr said he doesn't want to mess with OxyContin and the trouble it could bring. I told dr I respect his decision then Discussed patients that may be appropriate. Finished with intermezzo indication, dosing, and patient types.
PPLPMDL0020000001	Brooklyn	OH	44144	11/5/2013	Reviewed OxyContin Q12h flexible dosing strengths, formulary coverage. Discussed Butrans for those Tramadol failures requiring around the clock analgesia. Asked if 30% of pain intensity was significant to her and patients, said it was, feels most pathways are controlled and cant afford branded products. Reviewed MedCo/ESI formulary coverage. Said she will keep it mind, while she is still practicing. Retiring in Dec 2013
PPLPMDL0020000001	Akron	OH	44312	11/5/2013	Discussed all products in a hallway conversation. I told dr I wanted to isolate the patients she is continuing on IR tramadol or hydrocodone. I asked her how she assesses those patients for analgesia when they come in for a follow up appointment? Dr said if those patients on tramadol are doing ok and not complaining of pain, she leaves them alone. I gave her the hydrocodone insight and told her that I don't want her missing potential opportunities for Butrans. Dr said she knows there are a few where Butrans may work. I told her to earmark their charts to. Evaluate them for Butrans. Dr agreed. Dr told me she doesn't believe in writing too much OxyContin but said there are a few that need it because she does have a few cancer patients. I told her that would be a good candidate to OxyContin. Left her with intermezzo indication and dosing no asked her to also listen of patients complaining of in the middle of the night insomnia.
PPLPMDL0020000001	Akron	OH	44320	11/6/2013	Caught dr in his personal office and discussed how Butrans is a really good option for many of his patients on IR opioids for more than 6 months. Dr agreed and said he knows he needs to use more. I showed him the nancy profile again and asked if he will take extra second before refilling vicoden and assess the patient for Butrans. Dr said ok.
PPLPMDL0020000001	Westlake	OH	44145	11/6/2013	Left variat off formation spoke to candy about what Butrans is and how's it's placed.
PPLPMDL0020000001	Westlake	OH	44145	11/6/2013	Spoke to office manager About Butrans and seeing the doctor but today was not a good day. Asked which days were better and she couldn't say.
PPLPMDL0020000001	Copley	OH	44321	11/6/2013	Led off discussion with hydrocodone insight. I showed him the nancy profile and told him about it. I asked him if a patient he continues to refill hydrocodone for if he would take that extra second to assess if the patient would be appropriate for a 7 day controlled release patch? Dr said in that situation it would. I asked if he has patients in that situation and he said if he doesn't now he will soon. I asked him to use Butrans as a possible
PPLPMDL0020000001	Copley	OH	44321	11/6/2013	I asked dr if his use of Butrans at this point has been successful? Dr said mostly yes. I asked if he has had good success why are you not prescribing more of it for other patients? Dr said many cant afford it. I asked him how he knows? Dr said he has a lot of Medicaid and self pay. I told dr that he needs to focus on commercial patients, Caresource and select Medicare D plans. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	11/6/2013	Spike to ma, discussed Butrans dosing and placement. Review savings cards.
PPLPMDL0020000001	Akron	OH	44304	11/6/2013	Saw dr Weeks on the patient floor. Dr said he really didn't have time so I updated him on the Butrans 15mcg and gave him the nancy profile. Dr said he's better reached in his office on mon and tues afternoon. Nothing else learned
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	11/6/2013	Saw dr Weeks on the patient floor. Dr said he really didn't have time so I updated him on the Butrans 15mcg and gave him the nancy profile. Dr said he's better reached in his office on mon and tues afternoon. Nothing else learned
PPLPMDL0020000001	Fairlawn	OH	44333	11/6/2013	Waved hello to dr and he came to front counter and said he may have found a patient for Butrans. I told him that's great and asked about the situation. Dr said the patient is on vicoden and has chronic back pain. I showed him the conversion scale and showed him where the appropriate starting doses would be. I told dr that it sounds like a good candidate for Butrans. Asked dr to continue prescribing OxyContin for patients already on IR oxycodone. Dr said k.
PPLPMDL0020000001	Cleveland	OH	44195	11/6/2013	Visited Dept. Spoke with nurse (Kathy) reviewed OxyContin/Butrans Initiation/Titration guides, requested appts. Distributed info for nurses/fellows lounge. She Said they as whole/dept do not RX many pain meds/ refer to Walker bldg<font color=blue><b>CHUDAKOB added notes on 11/14/2013</b></font>Mark, this is where you have to narrow her down to specific patient types. "Much" is a relative term. they probably do not prescribe "much", but they do prescribe. Help her see where?
PPLPMDL0020000001	Cleveland	OH	44195	11/6/2013	Visited dept. left OxyContin Initiation/Titration guides, requested appts
PPLPMDL0020000001	Cleveland	OH	44195	11/6/2013	Visited Ctr. Requested appts with Davis. Gutsell, Black. Left Butrans/OxyContin Initiation/Titration guides
PPLPMDL0020000001	Cleveland	OH	44195	11/6/2013	Visited Ortho/Rheum depts. info and Butrans savings card distributed along with OxyContin initiation/Titration
PPLPMDL0020000001	Akron	OH	44303	11/6/2013	Rod the pharmacist told me that he has had two more prescriptions for Butrans since I was in last. Rod said one was a 10mcg dose for dr Dmitri and the other was a new 5mcg start for dr Ali. Rod told me it is a Caresource patient but had some sort of Caremark carv out. I explained the Caresource PA. Told rod the insight about hydrocodone and asked him if he refills hydrocodone often? Rod said there are two many to count. I asked him if he would provide patients refilling vicoden a Butrans initiation and titration guide? Rod said he would and that's its a good idea to start talking about hydrocodone now before its rebranded in January. Talked about copy cards for Butrans and OxyContin as well as reminding him about intermezzo.
PPLPMDL0020000001	Munroe Falls	OH	44262	11/6/2013	Judy the receptionist said dr is extremely busy. Dr saw me taking to her and told me she would give me a minute. I showed her the Butrans profile nancy and told her she needs to use Butrans more frequently for patients on vicoden. Dr agreed and said dr knows she needs to do a better job at asking patients the right questions. I showed her the OxyContin conversion and titration guide. I showed her conversions from IR oxycodone 20mg to OxyContin 10q12h. I told dr that OxyContin is the single entity oxycodone. Dr said she is really glad I gave her the information on OxyContin because she has a few patients she will look to convert. Left her with a reminder on intermezzo dosing and patient types.
PPLPMDL0020000001	Cleveland	OH	44112	11/6/2013	Quick OxyContin reminder Q12h flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok will keep in mind
PPLPMDL0020000001	Westlake	OH	44145	11/6/2013	Spoke to the dr about his usage of OxyContin and Percocet. Asked if patients were taking Percocet and were uncontrolled at what point would he consider OxyContin? He said he writes OxyContin, he said it was a good pain med, that he would use Percocet before OxyContin typically. I asked about his atc patients if he would think OxyContin before Percocet in those patients and dr said it depends. Reviewed managed care. Dr said he has written Butrans and they really like it. I asked hi if he ever thought about Butrans after Tramadol? He said no, he think of it after vikodin. I showed Scott profile, and discussed if patient was taking Tramadol q6... And needed that atc coverage, wouldn't Butrans make sense here? He said maybe....cause he usually will supremes vikodin with Tramadol before he gets to q6 Tramadol. I asked if it made any sense to him using Butrans after Tramadol. He said yes....I asked hi. To try be patient in the next week....he said k. Dr said he doesn't have sleep patients and he didn't see himself writing intermezzo or any of them.
PPLPMDL0020000001	CLEVELAND	OH	44195	11/6/2013	Spoke with RPH, no new info learned. OxyContin Q12h, flexible dosing strengths, although they see mainly 60-80mg prescribed. Butrans for those patients requiring around the analgesia
PPLPMDL0020000001	Westlake	OH	44145	11/6/2013	Spoke to the pharmacist about the savings coupons or if they had any problems with getting Butrans thru. She did not recall any problems. Discussed the patch and the scheduling, placement of the patch and how to discard.

	Westlake	OH	44145	11/6/2013	Np said he is finds butrans helpful and writes it. I asked him if he writes it after Tramadol failures. He said yes sometimes. I asked where he prefers to position it...he said its a second line product for him. What does that mean I asked. He said he will try other options before going to Butrans. Usually prn Vicodin along with tramadol...and after Tramadol 3 times a day, a then add with vikodin 2 or three times a day...he will try Butrans. I said regarding pain relief...how to u feel about Butrans. He said he thinks does well... I said if u believe it to work, why wait so long? He said he was hoping that the short acting opioids would do the trick but he ends up adjusting anyway. I said if u feel after Tramadol that the patient would be needing atc pain relief...why not go for Butrans early? Asked him to position Butrans earlier after Tramadol failures for patients w chronic atc pain. Dr said he never sees patie ts with sleep issues. Still gave him intermezzo message. He also hasn't writing much OxyContin because if his license he said. But I filled him in on assessing patients, the q12h and savings coupons.<font color=blue><b>CHUDAKOB's query on 11/14/2013</b></font>-Lisa, after tramadol is a pretty broad and generic next call objective. It looks like the call went well. The next call objective should be the specifics of how you want the call to progress. For example, an objective might be, "gain agreement from Brian that a patient on 3-4 tramadol a day is probably a candidate for Butrans. Use Scott profile as a means to show patient type" Does this make sense?<font color=green><b>BARTOLI's response on 11/15/2013</b></font>-Yes. A more specific objective such as u are suggesting. ok.<font color=blue><b>CHUDAKOB closed the query on 11/15/2013</b></font>
PPLPMDL0020000001	Cleveland	OH	44115	11/7/2013	Reviewed Butrans/OxyContin appropriate patients, along with Butrans 15mcg/hr dose
PPLPMDL0020000001	Cleveland	OH	44114	11/7/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, said Ok and will continue to prescribe for those appropriate patients. OxyContin Q12h flexible dosing strengths along with Intermezzo for MOTNA/dosing
	Westlake	OH	44145	11/7/2013	Spoke to dr regarding where he thinks Butrans fits with in his pain patients. Dr said those that can't take pills or prefer a patch. I asked what dose does he typically start a patient on Butrans and he said ten. I showed the initiation chart. I asked if he ever sees Tramadol patients, I asked if he wouldn't start a Butrans for atc pain rather than a vikodin prn? He said no reason, some prefer pills. Insaid how dou cousin a patient about taking a new med? He said he just tells them to take it, u said that's what's should do w Butrans. Discussed hesitations in selecting OxyContin over another opioid for patients that could use extended release. He said no. Asked him to Reviewed Butrans/OxyContin appropriate patients, along with Butrans 15mcg/hr dose along with MedCo/ESI formulary status said he will continue to prescribe for those appropriate patients. OxyContin Q12h flexible dosing strengths along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44114	11/7/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, 15mcg/hr dose along with MedCo/ESI formulary status said he will continue to prescribe for those appropriate patients. OxyContin Q12h flexible dosing strengths along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/7/2013	Led with insight about hydrocodone and reviewed the nancy and Scott profiles. Jake said that's where he uses it and said that it works. I reviewed the inclusion and exclusion criteria in e opioid experienced trial. Dr said he will continue to write. OxyContin conversion guide and start principle discussion. Jake said that he follows them pretty much. Nothing else learned
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	11/7/2013	Spoke to dr as she came into the office for the day. I reminded her to take an extra second when ready to refill tramadol or vicoden for their likelihood of being a Butrans candidate. Dr said she tries to do it as much as she can. Dr said its not easy to get patients to buy into a patch and cost can be a factor. I told dr to provide e patients w/ product information and to stick to commercial p, and and Caresource as well as state BWC plans. Dr said ok and thanked me for the information.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	11/7/2013	Dr told me through the window that she wrote for Butrans last week. I told her that's great and asked her to tell me about it. Dr said the patient was taking vicoden and was already at 20mg/ day and was complaining of pain. I asked her which dose she started the patient on and she told me 10mcg. I told dr to continue to prescribe Butrans for patients like that and reminded her of the Caresource PA.
PPLPMDL0020000001	Akron	OH	44312	11/7/2013	Saw dr at window and gave quick overview of Butrans. Told him to write it for those patients of his that need a dose adjustment on the IR opioids. I reminded him that it is a schedule 3, 7 day transdermal system and showed him the 5mcg patch. Dr said he remembers it and hasn't found a patient yet. I told him to gain expletive by trying it. Dr said ok.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/7/2013	Spoke with dr about mechanism of action and pharmacokinetics. I told dr I wanted his opinion on using supplemental analgesia with Butrans and using the Butrans 15mcg dose. Dr started by telling me that if patients need more than a 50mg morphine equivalent there is something else wrong and the pathology needs to be revisited. Dr said that he still will not go over 10 mcg dose. I asked him if patients needs more analgesia if he uses it opioids? Dr said he has and said it has helped. Dr said he really likes Butrans and will keep using it. Dr said that the mechanism of action for Butrans is understood and asked where in the FPI it says patients can use supplemental analgesia. I read him the section from the FPI and dr said he's satisfied. I quickly told him to continue prescribing OxyContin where appropriate and asked if he switches patients from IR oxycodone to oxycontin? Dr said that's primarily where he uses it because it makes sense.
PPLPMDL0020000001	Mayfield Village	OH	44143	11/7/2013	Dr in bad mood, yelling etc knew I had just a few seconds. Consider OxyContin for Percocet or Vicodin patients whose pain not controlled on short acting opioids; for Butrans, right after Tramadol, showed him conversion information in sales aid. These patients you can initiate on 10 mcg/hr butrans.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/7/2013	Dr said he cannot stay for lunch and told me that he is continuing to have success with Butrans despite the large number of insurance issues with the product. I told dr that I realize what the situation is and that I appreciate the hard work everyone does in his office to get it approved. Dr thanked me and said that I have helped as well to make sure they have copy cards and to discuss the product and insurance updates. I asked dr to continue prescribing. I showed dr the OxyContin profiles and reviewed one quickly. Dr said he likes OxyContin as well has success.
PPLPMDL0020000001	Cleveland	OH	44195	11/7/2013	Discussed Butrans initiation/titration, 15mcg/hr dose, MedCo/ESI. Dr said he will consider, doesn't treat long term, but likes molecule and transdermal system. Reviewd OxyContin Q12h flexible dosing strengths, broad formulary coverage
PPLPMDL0020000001	Highland Heights	OH	44143	11/7/2013	Dr had several patients in waiting room. I knew I'd have less than 30 seconds. Using new Butrans piece reflecting 15 mcg/hr dose: dr Salama, please consider Butrans after Tramadol& remember BWC will pay for Butrans. He walked into another patient room.
PPLPMDL0020000001	Mayfield Heights	OH	44124	11/7/2013	Met dr c for first time. She has experience with OxyContin, aware of efficacy, no issues with coverage. Told her I'd like to discuss some data next visit, & in meantime I'm leaving her our conversion titration guide, START principles to assist her when converting patients on short acting opioids to Branded, controlled release OxyContin. Butrans, is another option for patients with moderate to severe pain, needing opioid analgesic Around the Clock for extended period of time. She asked I'd that 1 x per week. I replied yes, patients wear system for 7 days. Showed her patch demo, with disposal units. What are doses ? I replied 5 mcg and 10 mcg are initiation doses, 15 and 20 mcg/hr are titration doses, 20 mcg/hr being maximum dose. Intermezzo, she was unaware of. She immediately stated she liked sublingual delivery system & would be good for her elderly patients. Left her Intermezzo packet of info, dosing card. Asked her to consider Intermezzo for Caresource patients with failure of any other Zolpidem product, should cost under \$5 per month. ( scheduled breakfast Wed 11/20/13)
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/7/2013	Asked to see dr Higley and he came to reception window. I gave him the updated Butrans formulary grid and asked if he has any Caresource patients? Dr said he doesn't have many. Dr said he mostly has buckeye and said he knows he can't write Butrans for those patients! I told him that is correct and to stick with commercial, select Medica D plans and the little Caresource he has. I asked dr to continue prescribing and to titrate through the doses using the 15mcg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/7/2013	Quic, message in hallway about Butrans and told him to take the extra second before refilling a tramadol and vicoden to see if. They would be appropriate for a 7 day transdermal patch. Dr said he agrees he just tends to refill and knows that thee may be something else that may be better. I handed dr the initiation and titration guide and asked him to do that and allow the product to speak for itself.
PPLPMDL0020000001	Cleveland	OH	44127	11/7/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, said Ok and will consider for appropriate paient, depends on Josie for PA's OxyContin Q12h flexible dosing strengths along with Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Mayfield Village	OH	44143	11/7/2013	Dr Azar concern with Butrans due to coverage for his high geriatric population with Medicare Part D. I reinstated Butrans preferred coverage on Express Scripts, Medco, Cigna Med D. He says he's using in nursing homes, none of that data shows in Phoenix, he asked how does Butrans compare to Fentanyl patch? I cannot provide a comparison, as we have no head to head studies. Consider after Tramadol. I dont us Tramadol, i dont like it. why not? I asked. Its not efficient & risk of seizures. ok, showed dosing slider, after patients have tried Percocet, Vicodin or Codeine (30-80 morphine equivalent) you can initiate on 10 mcg/hr. Went over Butrans 4 doses. Showed how to write. He said Butrans not covered at area nursing homes such as Altercare in Mayfield Village & Wickliffe Country Place, or their Pharmacy. who is pharmacy? Absolute he responded, im trying to get them to add it. if they would like me to provide in service for nursing homes staff, just let me know. Another option for moderate to severe pain, branded controlled release OxyContin.
PPLPMDL0020000001	Cleveland	OH	44114	11/7/2013	Reviewed Butrans for those Tramadol failures with Nurse-Lauren, 15mcg/hr, MedCo/ESI, BWC formulary status. Said Ok and will remind Dr.
PPLPMDL0020000001	South Euclid	OH	44121	11/7/2013	Hydrocodone APAP insight, 41% of Hydrocodone APAP scripts are associated with length of therapy lasting 90 days or longer. Of those scripts lasting 90 days, average number of days until patient was converted to an extended release opioid was 287. Would you agree that is a long time? Yes he replied. I'm suggesting you re assess those patients & convert sooner to a long acting, since their pain is now long term I'm suggesting controlled release OxyContin. He replied, I guess I would consider, & I would then follow up with patients every 3 months. Well, that's a good place to start. Thank you for considering converting to OxyContin. I also shared last time, another option for moderate to severe pain, a 1 x week transdermal system we Discussed efficacy & pain reduction. We've discussed Butrans after Tramadol. Here's a patch demo. Patients will get 4 patches, 4 disposal units monthly. Ok I gotta run, this is my busiest day ever in Concord.
PPLPMDL0020000001	Cleveland	OH	44115	11/7/2013	Reminded of Butrans for those Tramadol/Lortab failures requiring around the clock analgesia, Said Ok and thinks Butrans is a great product
PPLPMDL0020000001	Cleveland	OH	44115	11/7/2013	Visited Pain ctr. Discussed appropriate Butrans patients with Dr. Nickels, OxyContin Q12h flexible dosing
PPLPMDL0020000001	Lakewood	OH	44107	11/8/2013	G888888
PPLPMDL0020000001	Akron	OH	44310	11/8/2013	Dr said he didn't have time to talk because he was so behind but said I can make one point. I told him to reassess his patients that he is about to refill their tramadol and write Butrans for them! Dr said ok and he does like the schedule 3 aspect of the drug. Told dr to focus on patients with commercial insurance.
PPLPMDL0020000001	Akron	OH	44313	11/8/2013	Dr told me that he saw his first Butrans patient back and said that the patient is happy with it. I asked he to give me more specific information. Dr said that the patient is on 5 mcg and dosing well and was on vicoden. Discussed the Butrans mechanism of action with dr to make sure he understands it and discussed supplemental analgesia. I reviewed patient types and talked about how he needs to identify more patients. Discussed OxyContin dosing, indication, Maggie patient type and start principles. Dr agreed with all and said he will continue to keep them in mind. Closed with intermezzo indication and dosing and asked him if he could also identify patients with in the middle of the night insomnia.
PPLPMDL0020000001	Akron	OH	44312	11/8/2013	Dr was behind front counter when I approached. Dr said hello and said his Butrans patients are doing well. I told him that's good to hear and to review the nancy profile who is a patient uncontrolled on hydrocodone. Dr said he will and thanked me for stopping by.
PPLPMDL0020000001	Uniontown	OH	44685	11/8/2013	I asked dr if he has any patients that don't follow the dosing regimen he sets for them on products like tramadol or vicoden? Dr said yes he does. I asked him what a 7 day patch would mean to those patients? Dr said it could mean a lot if they are open to taking a patch. I agreed and said that he needs to sell the idea to the patient. Dr said he thinks he does a pretty good job of that but some people can't give up their oral medicines. I told dr to continue searching for the right patient as we discussed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/8/2013	Spoke with Glenn about the procedures he and his staff go through to get Butrans covered. Glenn said that about 75% of the Butrans scripts that get written need some sort of documentation or prior authorization. I told him I am amazed at that number and asked what percentage of those they get approved? Glenn said he didn't know but a good number of them get approved. I asked Glenn to continue to think of sending me one that he comes across that he can't get approved and I will look into it. Reviewed insurance pans with him.
PPLPMDL0020000001	Cleveland	OH	44113	11/8/2013	Visited Pain/Anes/ Dept. Discussed Butrans/OxyContin Initiation/Titration
PPLPMDL0020000001	Akron	OH	44312	11/8/2013	Discussed the Maggie profile for OxyContin and asked him if it makes sense to start OxyContin for the patients. Dr said it does and wondered why OxyContin wasn't started sooner? I told him he is right and the patient should be started sooner. Reviewed start principles and discussed titration and conversions. I showed dr the Butrans 5mcg demo patch and told him. That he needs to start a patient on it because he is probably missing opportunities for patients he continues to refill their short acting opioid. Dr said he will keep it in mind... Finished with intermezzo discussion and hit key points.
PPLPMDL0020000001	Cleveland	OH	44113	11/8/2013	Reminded of Butrans for those Tramadol/Lor/Tab failures requiring around the clock analgesia, MedCo/ESI formulary status, Butrans 15mcg/hr Said Ok and is always looking for new starts
PPLPMDL0020000001	Cleveland	OH	44113	11/8/2013	Visited Dept. Novak/Shen discussed Butrans for those Tramadol failures requiring around the clock analgesia, OxyContin Q12h flexible dosing

PPLPMDL0020000001	Cleveland Uniontown	OH OH	44113 44685	11/8/2013 11/8/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, agreed its appropriate for those patients and he/Dr. Shen will continue to find new patients. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001					Dr allowed me to back into his office in between patients. I asked him how he tailors the doses of OxyContin to the patients that need the product? Dr said that he just converts whatever short acting opioid the patient is on to OxyContin. He said sometimes he increases the dose of OxyContin pretty early if he knows they will need more but dr said he usually will start a little lower just to be safe. I told dr that its good to underestimate when its started for the first time in an opioid experienced patient. Dr agreed. I reminded him of Butrans and discussed the difference in patient types from OxyContin. Dr said he will still try it.
PPLPMDL0020000001	Lakewood Garfield Hts	OH OH	44107 44125	11/8/2013 11/8/2013	Saw dr thru the window. Introduced myself and he asked what product I had. I told him and he said he knows them well. I asked him what makes him select OxyContin. He said he knows it well. Remind on q12h
PPLPMDL0020000001					Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, along with OxyContin Q12h flexible dosing strengths and broad formulary coverage. Dr/Deena said Ok and rescheduled lunch for Mon. to further discuss
PPLPMDL0020000001	Cleveland Akron	OH OH	44113 44319	11/8/2013 11/8/2013	Reminded of Butrans for those Tramadol/LorTab failures requiring around the clock analgesia, MedCo/ESI formulary status, Said Ok and is always looking for new starts
PPLPMDL0020000001					Good conversation with dr. I told dr that I'm guessing that he has patients that have the hard time following the dosing plan he sets for them on tramadol or vicoden? Dr said he has many. I told dr that if he is going to use it, the best way to try it is in the patient that's asks for a different option for analgesia. I asked dr if he agrees and he said yes but said he is concerned about cost. I told him that will not be an issue if he sticks with commercially insured patients and Caresource. I told him about the trial offer and copay card and explained the Caresource PA. I told dr he only needs to use it once in the right patient and allow the product to prove itself clinically to him. I asked if he will find a patient like the ones we have discussed? Dr said he will.
PPLPMDL0020000001	Cleveland Cleveland	OH OH	44125 44114	11/11/2013 11/11/2013	Talked with Karen-Rph Reviewed OxyContin-Q12h, Butrans for those Tramadol failures requiring around the clock analgesia and Intermezzo for MOTNA/dosing. No savings cards needed
PPLPMDL0020000001	Stow	OH	44224	11/11/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, said he had a new start last week, asked him for 1 today, said he will consider appropriate patients, Reminded of BWC/MedCo/ESI.
PPLPMDL0020000001	akron	OH	44333	11/11/2013	OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Akron	OH	44333	11/11/2013	Told dr that Butrans is the only schedule 3, 7 day transdermal system on the market and he can use it for any patient uncontrolled on their IR opioid. Dr said he knows and really likes that its a schedule 3. Dr said his patients are doing well on it. I reminded dr of the Caresource PA and Medicare D coverages. Dr said thanks and will continue to use.
PPLPMDL0020000001	Uniontown	OH	44685	11/11/2013	Followed up from appointment from last week. I reviewed the proper patients for Butrans including profiles of Scott and nancy. I asked dr to take an extra second when reassessing patients who are on IR opioids. Dr said he will look more frequently for the correct patients. I also spoke to him about tailoring patients appropriately for OxyContin and discussed the start principles again. Intermezzo review with patient types and dosing.
PPLPMDL0020000001					I told dr that he needs to use Butrans more frequently for his patients that he continues to refill on their IR opioids. Dr said he knows and most of his patients on short acting opioids are controlled. I asked what it might mean for them to only have to apply a patch once a week? Dr said ok...nothing else learned.
PPLPMDL0020000001					I asked dr what he is primarily treating with OxyContin? Dr said lots of things including back pain, cervical and lumbar chronic pain, and stenosis. I showed dr Maggie profile and asked him that he can titrate every one to two days when necessary. Dr said he knows and that he usually will titrate as early as 2 weeks if he thinks they need a follow up that soon. Dr said that he really likes it because it works. I told dr to continue prescribing.
PPLPMDL0020000001	Garfield Hts Uniontown	OH OH	44125 44685	11/11/2013 11/11/2013	color=blue><b>CHUDAKOB's query on 12/02/2013</b></font>Cliff, your presentations say OxyContin in first position and Butrans in the second, yet I only see a call note for OxyContin. Did you present Butrans and if so, what was discussed on the call?</font> color=green><b>REICHEL's response on 12/02/2013</b></font>I don't recall but I'm sure I did. Looks like I missed that part of the call note. This must be a first for me.</font> color=blue><b>CHUDAKOB added notes on 12/02/2013</b></font>Perhaps, Please make sure to include all products presented in the call note. Thanks.
PPLPMDL0020000001					Visited Ortho. Left OxyContin initiation/titration guide for Forcier-Shroyer and Hardacre
PPLPMDL0020000001	Garfield Hts	OH	44125	11/11/2013	Introduced Butrans to Todd the pharmacist. Todd said he thinks he filled one prescription and has one box of 5mcg on the shelf. I discussed Butrans indication, dosing, new 15mcg dose, titration and initiation,application sites and candidates for Butrans. Discussed OxyContin indication and dosing as well as conversions. Todd said he has a number of patients taking OxyContin. Introduced intermezzo discussing indication, dosing and limitations of use. He said he has none in stock and has not filled it.
PPLPMDL0020000001	Garfield Heights	OH	44125	11/11/2013	Discussed Butrans Opiod Naive trial, 30% pain reduction, Dr believes that is clinically significant had patient start on Butrans 10mcg/hr and felt it didn't work, Reviewed dosing/initiation/titration. Will keep in mind, He feels that the small mnr of adequately treated for chronic pain are adequately controlled.OxyContin Q12h flexible dosing strengths and broad formulary coverage. Starting on the 14th Dr will be on medical leave until the end of the
PPLPMDL0020000001	Cleveland Cleveland Hts	OH OH	44125 44118	11/11/2013 11/11/2013	Quick reminder on OxyContin Q12h flexible dosing, formulary coverage and Savings cards with Denise Nurse Mgr/Brittany. Also Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok, will relay the info, said to call later in the week in regards to setting up an appt. with Dalbir PA
PPLPMDL0020000001	Cleveland Hts	OH	44118	11/11/2013	Reviewed Butrans for those Tramadol failures along with OxyContin Q12h, flexible dosing strengths, Requested OxyContin Savings cards. Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Uniontown	OH	44685	11/11/2013	Quick Butrans reminder for those Tramadol failures that are requiring around the clock analgesia, said OK, confirmed appt for the 21st
PPLPMDL0020000001					Reviewed OxyContin Q12h flexible dosing strengths, broad formulary coverage, savings cards. Discussed Butrans for those Tramadol failures requiring around the clock analgesia. Dr. said he continues to find new starts, patients seem to do well on Butrans. Also reminded of MedCo/ESI formulary coverage
PPLPMDL0020000001	Lyndhurst	OH	44124	11/12/2013	Started conversation with insight about hydrocodone and 41% of patients on therapy 90 days or longer. Dr said he can certainly believe it. I asked him what a prescription looks like for hydrocodone? Dr said usually q6 prn or just 1 pill q6. I asked him if he has patients that follow the pan he sets for them? Dr laughed and said yes, way too often. I asked him what it would mean to him and his patients if they would initiate Butrans? Dr said he understands that for some it would be a game changer and they would accept it well. Dr said others are hard to convince of change. Dr said the Medicare patients are the hardest to change from their current therapy even if it isn't working. I told dr how far the Medicare coverage has come on Butrans and explained plans. Dr said he is impressed and he knows he needs to use it more often. Discussed OxyContin and good candidates are those who have been on oxydnone for more than 90 days. Dr agreed but said he likes the schedule 3 of Butrans but doesn't feel comfortable writing schedule 2 medications. Finished with reminder of intermezzo indication, Hallway. First call since back from maternity leave. Reminded her of our last conversation regarding appropriate patient selection, she replied, you know I've tried to use & can't get covered. There is now better access to Butrans on a major plan for you: Medco & Express Scripts, Butrans preferred both commercial plans & med d. And Butrans preferred on Cigna Med d. That's good to know, replied Sarah. Remember also BWC will pay for Butrans. I can think of a workers comp patient right new who has neck & back pain. That's great - why don't you consider a trial on him? You would initiate on 10 mcg hr since he's opioid experienced. You can titrate after 72 hrs. We also have new 15 mcg hr titration dose. 20 mcg hr is still our maximum dose. She was concerned with patch placement, opened page to show her 4 possible sites, & when you flip to other side of body, 8 total sites. Ok she responded, I'm gonna give this a try.
PPLPMDL0020000001	Westlake	OH	44145	11/12/2013	Discussed patients hes writing short acting opioids, with As needed dosing, and asked how likely are those patients to follow the plan you've written out for them? I don't know responded doctor. Just something to think about. Perhaps a long acting might be appropriate for some of those patients who are waking up in middle of night, or waking up in am with pain. Please consider controlled release OxyContin for appropriate patients. For Butrans, we've discussed as first opioid ( initiate on 5 mcg hr) or after Tramadol. That patient taking 3-4 Tramadol daily whose pain not controlled. As reminder 4 strengths now, newest dose is 15 mcg hr titration dose, he asked if he could keep dosing slider, yes of course I replied, he placed in his pocket & entered patient room.
PPLPMDL0020000001	Akron	OH	44310	11/12/2013	Dr said she doesn't write much NSAIDs for her paties and that most of her patients would take schedule 3 opioids for acute reasons. I did tell her that both OxyContin and Butrans were not for acute or prn uses. Dr was aware. Note- calid did not save and retyped.
PPLPMDL0020000001	Westlake	OH	44145	11/12/2013	Talked with dr about his vicoden patients that need dose adjustments. I showed him the point ps of the nancy profile and asked him to follow the appropriate starting doses and conversions. Dr said he will focus more on vicoden patients going forward. I reminded dr of the Caresource PA. Told him to write OxyContin for his Percocet patients and intermezzo for those that meet the indication.
PPLPMDL0020000001	LAKEWOOD	OH	44107	11/12/2013	Saw dr today. Dr said he still hasn't tried Butrans In Someone not in a nursing home. We talked about that it was working nicely for the two patient he has on Butrans. Discussed Scott profile. Dr said he thinks of Butrans after vikodin. When I asked why...he said, he just does. Talked about his usage of OxyContin. Dr said he was very familiar with the product.
PPLPMDL0020000001	Westlake	OH	44145	11/12/2013	Discussed Butrans and stocking. No 15 mcg on stock. Talked about where to place the patch.
PPLPMDL0020000001	Lakewood	OH	44107	11/12/2013	Left a variety of materials for dr. Spoke to nurse she said she would pass the information about the savings programs to the dr,
PPLPMDL0020000001	Cleveland	OH	44124	11/12/2013	Spoke to Shami the ma and asked if she thought Butrans was writes by the docs in the office and she said she thought so. Discussed what butrans is, she was fami,air with the basics of Butrans. Also review OxyContin....she said she would give the docs the information.
PPLPMDL0020000001	Westlake	OH	44145	11/12/2013	Hallway. Let dr know we were across hallway, wanted to stop & say hello. Discussed Butrans for opioid naive or after Tramadol. She responded, I don't have patients on Tramadol, it causes seizures. As far as any scheduled opioids I will not write she says. I refer any pain patients directly to pain management.
PPLPMDL0020000001	Lakewood	OH	44107	11/12/2013	Lunch, dr talked about who was the typeof patient to start on Butrans. We discusses his algorithms of what products he uses first, second and third. He tires vikodin after Tramadol. He also said he doesn't stop the Tramadol and continues to add short acting.
PPLPMDL0020000001	Cleveland	OH	44104	11/12/2013	Spoke to office manager. She said as of this month the dr is having more of an admin role and is getting away from treating pain patients. He will not see reps, I can mail the literature though she said. Dr goes between Lakewood and fairview hospital. Is out patients he sees in suite 4b of the Lakewood hospital. I left a variety of information on all products for the doctor.
PPLPMDL0020000001	Cleveland	OH	44106	11/12/2013	Quick Butrans and OxyContin discussion, no savings cards needed, no new RX's
PPLPMDL0020000001	Cleveland	OH	44104	11/12/2013	Called on Anes/Pain. Left info for dept. Confirming appt with Terrah-Hayek-Admin
PPLPMDL0020000001					Discussed OxyContin Q12h flexible dosing strengths, Titration,conversion and formulary coverage, Dr. said she will consider. Introduced Butrans for those Tramadol failures requiring around the clock analgesia, 30%pain intensity reduction, Dr. thought that was significant, she likes transdermal delivery systems, reiterated Butrans has the same abuse/misuse potential as any other CIII. Said she has a few patients in mind, I asked to follow up in 2weeks, said she is quite busy but I can try and catch her.
PPLPMDL0020000001	Cleveland Lyndhurst	OH OH	44104 44124	11/12/2013 11/12/2013	Window call, reminded of Butrans 15mcg/hr and titration, asked if the PA issues have been resolved, Dr said yes, also reviewed OxyContin Q12h flexible dosing strengths and broad formulary coverage
PPLPMDL0020000001					Hallway call. After asking Dr Isakov what his recent experience has been with Butrans, he immediately said, I can't get it covered. Lets discuss some patient types & plans where we can get access. Your BWC patients - I don't have many, dr Kim has the most in our practice. I responded, thank you, I just discussed BWC with dr Kim. You've mentioned trouble with Medicare D, lets concentrate on one of the largest plans in your practice, Medco/ Express Scripts where Butrans IS preferred, as well as Cigna Med D. Showed him initiation, titration guide, for patients opioid naive, initiate @ 5 mcg hr, for your patients on 3-4 Tramadol daily, with pain not being controlled, consider initiating on 10 mcg hr, our opioid experienced dose. He had to see patient, went into room.
PPLPMDL0020000001	Cleveland Akron	OH OH	44120 44305	11/12/2013 11/12/2013	Left Butrans Initiation/Titration guide along with card requesting appt
PPLPMDL0020000001					Reviewed opioid experienced trial with dr and discussed inclusion criteria, forced titration, responder rates, pain score reductions. Dr said he does titrate Butrans and has used all doses except for the 15mcg. Dr said he put a patient on Butrans with Caresource and they approved it for three months. Dr said they need to submit another PA justifying the use of Butrans. I asked if that's a problem and dr said no because its an easy thing to do. I asked to think about the points in the trial when considering a patient for Butrans. Dr agreed.
PPLPMDL0020000001	Lakewood	OH	44107	11/12/2013	Spoke to Shami dr ma about seeing the doctor, she said he was too busy today. Discussed Butrans, she heard of it. Discussed where to place the patch and who is the appropriate type of patient for Butrans. I left a variety of leave behinds on OxyContin and Butrans for dr to review.

	Cuyahoga Falls	OH	44221	11/12/2013	Spoke with Milad the pharmacist who said he is typically in the Fairlawn store is floating on Howe ave today. Discussed key selling messages with butrans and Milad said they are filling the 5 and 10mcg. Introduced the 15mcg dose to him and he said the pharmacy has not filled any yet. Reviewed nancy profile and steady state with conversions. OxyContin dosing, conversions, and student type selections. Intermezzo review and dosing with limitations of use. Reviewed copy cards for all products.
PPLPMDL0020000001	Cleveland	OH	44120	11/12/2013	Quick Butrans intro for those Tramadol failures requiring around the clock analgesia, Dr. said she is familiar with Butrans, struggles with PA's, particular at Metro Buckeye Ctr and is retiring in mid Dec.
PPLPMDL0020000001	Tallmadge	OH	44278	11/12/2013	Dr asked me if there are any patient coupons for intermezzo? I told dr they are and showed him one and explained the trial off and month to month savings. I asked dr about his use of it and said he has had a few patients that had recently told him about in the middle of the night insomnia and said he prescribed it. I old him to continue and reviewed dosing and limitations of use. Showed him the Butrans doing and conversion guide and asked him to focus on patients he is currently refilling on tramadol. Left him the Scott profile. Told him to use OxyContin for his patients already on IR oxycodone.
PPLPMDL0020000001	Lakewood	OH	44107	11/13/2013	Spoke to the staff regarding Butrans. At first staff said dr wouldn't write Butrans cause its expensive and its a patch. After talking about what Butrans is, the pain results of the naive study, the ma staff seemed more open to talking about it. They r n tested in managed care, they dnt take Medicaid or workers comp but they do take caresource patients. Hardly any cash paying patient. They drug test often and they will discharge patients if they feel they are drug seekers. Talked about abuse potential for all my products. And warned about patients taking opioids if they take benzodiazims or cns depressant products. The ma didn't not now that OxyContin was re formulated , left information behind for the doctor and them to read. They said the doctor writes sleep aids. I told them the indication and the dosing.
PPLPMDL0020000001	Cleveland	OH	44113	11/13/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Dr. agrees and is always looking for new appropriate patients
PPLPMDL0020000001	Akron	OH	44312	11/13/2013	Good discussion with Barry about appropriate patient types for Butrans. Discussed the tramadol and vicoden patient that comes in to see him who is continuing to complain about pain on a daily basis. Dr said that he has many of them but they are typically on multiple opioids or moderate to high doses of vicoden. Barry and I continued to discuss that those are not the patients best suited for Butrans and to use Butrans earlier on in treatment before they get up high on short acting opioids. Dr said ok and he will continue to look but said the nit he in his practice is small. We told him that its ok and to just start with one patient and move on from there.
PPLPMDL0020000001	Stow	OH	44224	11/13/2013	Spoke with Jamie the new pharmacist at this location. She came from the state road cvs. I asked her about Butrans dispensing and said she has seen two 5 mcg starts this week and one 15 mcg dose. Dr said she has seen prescriptions from Narouze, Ali, and Souzdalinski. Jamie said that the 15mcg start was go from Karen Hodakievic. I asked what she is seeing from OxyContin and she said just about all doses but sees mostly the 20 and 40mg doses.
PPLPMDL0020000001	Solon	OH	44139	11/13/2013	met with Denny and Chuck to review business and plan for 2014. Gave them 2014 plans for Slow-Mag and Laxatives. Denny will ask Ron about adding Senokot To Go to trial/travel section at DDM.
PPLPMDL0020000001	Lakewood	OH	44107	11/13/2013	Nurse said dr is hard to catch in this office. I left literature.
PPLPMDL0020000001	Berea	OH	44017	11/13/2013	Hallway. Dr said your back again. I said yep hoping u know why. He said I have tried yet. I said well I'm pretty pleased u remembered Butrans....and ur reminder is to look for that uncontrolled Tramadol patient that needs atc help. Butrans 5mcg if they are under 309 mcg daily of Tramadol. Said can u do this. He said he will try.
PPLPMDL0020000001	Akron	OH	44312	11/13/2013	Quick hallway call with dr and I told him that Butrans is all about proper patient selection. I told him that he needs to find patients that are on tramadol or vicoden who need dose adjustments. Dr said its been difficult finding patients that meet that criteria because so many of them are already on moderate doses of vicoden. I told dr to head than off at the pass and prescribe Butrans before the vicoden dose increases. Dr said ok.
PPLPMDL0020000001	Olmsted Falls	OH	44138	11/13/2013	Dr said he was fasting today. He asked what was new....I said have u heard of Butrans before. He said its a patch for pain. I went over what it was, its scheduling and pain score highlights from the naive study. I said is the reason I haven't tried it because u don't ow much about it? He said yes and that he doesn't treat chronic pain. I said understood. I explained he may on y have one patient this month that qualifies but they still does ever that shot. I explained the tramdol patient type, how to start Butrans at the 5mcg starting dose cause it was under 300 mg daily of Tramadol and explained how often they need to ate their medication. Dr said he thought it was a 3 day patch. I said are u thinking something else. I explained that Butrans is a sing e entity buprenohrine extend release option for those patient w atc pain and that may be able to manage the patch technology taken once a week. Dr asked if they could shower. I said yes. Explained about heat and the patch and explained if the patch technology starts to lift off they could use first aid tape on the edges. I said what Sony think? He said it sounds interesting. I said for his commitment to try it and he said he will see and thanked me.
PPLPMDL0020000001	Olmsted Falls	OH	44138	11/13/2013	Lunch. Dr said he hasn't seen the right patient for Butrans. We discussed how often he sees the patients for refills on pain meds and the dr said some every month some every 3 months. Dr will see scheduled 3 pain patie ts every 3 months. We discussed the tramdole Patient who has uncontrolled pain atc. Dr said he does see these types of patients and. Asked for Butrans business, dr said he would keep it in mind. Discussed OxyContin, dr said he does use this for some patients.reviewed the tailor of the start principle. And reminded him of the 7 doses. Dr said he has written ambien but was not familiar with intermezzo. Review of indication and dosing.
PPLPMDL0020000001	Akron	OH	44333	11/13/2013	Some with dr about how the protocol for Butrans is going with three prn medications and trailing Butrans at that point? Dr said its going really well and said they are cranking it for Butrans because of it. I told dr to get out his Butrans patient experience kits. Dr said most of his patients are over 65 so he doesn't use them much. I told dr then he needs to get Butrans prescribed for his patients under 65. Dr told me not to talk with him about OxyContin because he likes it. I told dr to continue prescribing.
PPLPMDL0020000001	Cleveland	OH	44113	11/13/2013	Window call. Reminded of preferred formulary status (MedCo/ESI/BWC) Initiation/titration. Said OK
PPLPMDL0020000001	Bath	OH	44210	11/13/2013	Spoke with bob the pharmacist about Butrans and OxyContin. Bob said he filled a prescription recently for Butrans 20mcg and ordered more for refills. Dr was out of my territory. I explained the patch technology as I showed him the patch which he had never seen. I discussed the conversions and titration as well as discussing copy cards. I showed him the OxyContin conversions from Percocet and bob said he understands that its crazy how long patients are kept on IR opioids. I told bob I would bring by copy cards on next visit.
PPLPMDL0020000001	Brooklyn	OH	44144	11/13/2013	Quick OxyContin reminder, Q12h-Titration, flexible dosing strengths, broad formulary coverage. Along with Butrans MedCo/ESI formulary status, said thank you and will keep in mind
PPLPMDL0020000001	Brooklyn	OH	44144	11/13/2013	Quick Butrans intro (discussed for Tramadol failures requiring around the clock analgesia) Initiation/Titration. Dr. said OK said to stop back when she has more time to discuss
PPLPMDL0020000001	Cleveland	OH	44109	11/13/2013	Visited IM/Geriatric Dept. Left Butrans/OxyContin Initiation/Titration guides for all Clinicians (Campbell,Dziwis,Mary Jo Slattery etc/.) Requested appt. email
PPLPMDL0020000001	Brooklyn	OH	44144	11/13/2013	Intro. to Butrans and the significance of a 30% decrease in pain intensity. Dr. thought that was significant, reviewed initiation/titration, formulary coverage Said she will consider. Reminded of OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Berea	OH	44017	11/13/2013	Discussed how her patient on Butrans was doing and she said great. I said did u find anyone new, she said not yet but she was going be using Butrans more. I reminded her about titration if she has to move for 5 to 10 to wait a min of 3 days. She was aware. I told her I would get her an Invite to an upcoming mg program in a few weeks.
PPLPMDL0020000001	Akron	OH	44313	11/13/2013	Caught dr at front desk and he saw me and said he was thinking about Butrans recently. I asked him why he was thinking abut it and he said he just knows he needs to use it. I showed him the vicoden profile and showed him how to initiate Butrans with the appropriate starting dose and steady state at 72 hrs. I also gave dr e OxyContin initiation and conversion guide and asked him to look at converting his oxycodone patients to ER oxycodone. Dr
PPLPMDL0020000001	Lakewood	OH	44107	11/13/2013	Dr asked me about the med 80 law. I gave him the company approved letter. Dr said he likes OxyContin cause its q 12h and most insurance pays for it. I asked if he was fam,air with the reformulation and he said yes. I gave him the OxyContin fpi and the leave behind piece. I asked him if he felt more comfortable writing OxyContin with these steps in place and the dr said yes. We reviewed abuse potential with all the products promoted. Dr has not written Butrans because he feels his patients won't take a patch and that he doesn't see the right patient. The nurses asked many questions abut managed care coverage with Medicaid. I addressed the question focused more on caresource and commercial patients. Dr said he does regular drug screenings and asked if Butrans was picked up. I told him he would have to check that buprenorphine was on the list. Dr said he hates refilling vikodin. I told hi. To try so ethng different like Butrans before u get to vikodin. Dr said maybe he should. We discussed intermezzo, dr was unfamiliar but does write generic ambien. Talked dosing and indication
PPLPMDL0020000001	Olmsted	OH	44138	11/13/2013	Saw dr briefly at u ch. staff said he does t normally come back and that he works thru unch. Dr said what is Butrans. I explained what it was, how dosed and why he would want to consider it for patientsWith chronic atc pain. He asked the cost, I said expensive if cash or Medicaid, to focus it on caresource or commercially insured plans. And explained we had many Medicare pt d plans covered but not all. He thanked me and left
PPLPMDL0020000001	Westlake	OH	44145	11/13/2013	Lunch. Discussed Butrans, dr has no experience. Review what it is and where to position Butrans. Dr said he doesn't treat chronic pain and he will refer out. We discussed the steps he takes when a patient moves from NSAID to x for pain. Dr said he will either move to Tramadol or short acting opioids a few times a day. I asked how he writes the script and he said 1 to 2 pills every 4 to 6 hours as needed. I said so how do u know they took once pill every 6 hours and not 2 pills every 4 hours. Dr said he trusts his patients to tell him the truth. We talked about how well his patients are managing their pain. Dr said its hard to say. I asked him if he thought 4 patches a month sounded hard or easy for his patients to manage. Dr asked about the half life of the product. We reviewed the fpi section. I asked him what he was thinking. Dr said it was a long half life, I said its a 7 day patch and its extended release. I asked the dr to try Butrans in a patient where he feels they will be able manage wearing a patch and after Tramadol...before vikodin. Dr said he would think about it. Discussed during the presentation OxyContin. Dr said he writes very little OxyContin. I said dou write any schedule 2 products. Dr said it for chronic. I said dr OxyContin doesn't have chronic pain in its indicatin. And stated the indication....and reviewed the q12h delivery system. Reviewed indication and dosing of intmezzo.
PPLPMDL0020000001	Olmsted Falls	OH	44138	11/13/2013	Lunch. Discussed Butrans Nd the dr said he does not treat chronic pain but after talking with the doctor the doctor say she does treat some but prefers not to. Review of what Butrans is and how it could fit with in his existing patients currently treated for pain with either NSAIDs and Tramadol. Dr said he writes these products. We reviewed the initiation guide and the doctor said he was under 300 mcg daily dose of tramadol, which indicated in the chart he would start a patient on the lowest Butrans dose of 5mcg. We reviewed side effect profile from the naive study and the pain scores. Dr said he does believe the product works for pain. I asked why would he not pick Butrans after Tramadol. He said no reason, just habit. I to,d the doctor to try it after Tramadol failiure for commercial patient. Discussed the savings coupons and encouraged him to get more familiar with the product so meh can better determin if the product is a fit or not. Dr agreed. In between discussin we talked about OxyContin and the reformulation which he was fam,air with. We discussed abuse potential with any opioid. Dr asked about the dosing of OxyContin. Used visual aid and asked if was thinking of so be specifically. Dr said no, soi over back to Butrans close. Dr said he didn't know about intermezzo. Reviewed indication and managed care wAlong
PPLPMDL0020000001	Cleveland	OH	44113	11/14/2013	Quick Butrans reminder for those LorTab failures requiring around the clock analgesia, OxyContin Q12h flexible dosing and Intermezzo for those MOTNA/dosing. Said as always, he will continue to find appropriate patients
PPLPMDL0020000001	Cleveland	OH	44195	11/14/2013	Requested AM breakfast appt. w/fellows, invited to upcoming Desphande program. OxyContin formulary info and Butrans Kathy profile
PPLPMDL0020000001	Lakewood	OH	44107	11/14/2013	Spoke to staff and tried to see dr but they said no. Discusses what Butrans is and managed care...
PPLPMDL0020000001	Cleveland	OH	44195	11/14/2013	Visited CCF- Walker bldg Pain/Anes. Left OxyContin/Butrans Kathy Profile along with OxyContin formulary grids. Invited to upcoming dinner program
PPLPMDL0020000001	LAKEWOOD	OH	44107	11/14/2013	I asked the pharmacist if he ever sees oxycodone re what he would do. Pharmacist said he would fill oxycontin or call the office to make sure he wanted that or something else. Talked about OxyContin having 7 doses and how it was dosed, he was aware. We talked about Butrans being an extended release option in Schdule 3 and asked how he felt about it beig the only one. Pharmacist was in different. Reviewed Butrans, how long they wear the patch and waiting 21 days before going back to the site. Where to lace the patch and how to discard the patch. No 15mcg Butrans in stock yet.
PPLPMDL0020000001	Lakewood	OH	44107	11/14/2013	Left materials behind for ma and dr o review. Discussed managed care today.
PPLPMDL0020000001	Lakewood	OH	44107	11/14/2013	Discussed Butrans with the dr and she said cost was the reason she hasn't tried it because it is a new product. I explained that the product has been out for 3 years and we discussed managed care. We reviewed what Butrans is and what type of patient I was goi g to focus I. Today, the Tramadol Scott profile. We discussed that Butrans was a 7 day transdermal patch of buprenohrine and therefore 4 applications a month. I asked if she thought this might be a fit in her practice and she said yes. She said patients like taking their pills. I said understood. Yet discussed how she felt patients were doing managing their own pain with short acting prn medications for atc pain? She said some do if fine. We talked about the pain s ores of the naive study....and the incision c rite rita and asked her the pain scores was something her patients would be interested in knowing. She said maybe not...I said well those pain score results are important to some patients. We discussed OxyContin in between Butrans. Dr said she likes that OxyContin was a single entity and that it is easier to get thru managed care. I asked dr to try Butrans out in a few patients and see if its a fit for their practice. She said shed try it.
PPLPMDL0020000001					

PPLPMDL0020000001	Fairview Park	OH	44126	11/14/2013	Spoke to nurse regarding Butrans, she didn't need any savings cards. Asked I could see the doctor, answe was no. Asked what was the best time to catch the doctor, she said he doesn't see reps. I left dr a variety of approved literature and the nurse said she would give it to him.
PPLPMDL0020000001	Lakewood	OH	44107	11/14/2013	Dr said he doesn't treat chronic pain. I said I understand u dont treat a lot or maybe even want to refill opioid scripts every month or two right, he said yes. Butrans is an extended release option to ur patients schedule 3. It is 4 doses a month, changed every 7 days and covered under many commercially insured plans. If patients are uncontrolled on tramadol....what's the down side to trying Butrans. He said he will think about it.
PPLPMDL0020000001	Euclid	OH	44117	11/14/2013	Dr DeMiccio is taking over Morleys Euclid practice. Dr Morley in Mon & Thu 1-7& at his other business in Manhattan, Bodylgicmd.com remainder of week. Dr DeMiccio still works @ CC ER on Saturdays as well. Provided pain reduction insight BUP 3024 to dr, then linked to 4.6 point overall pain reduction for naive patients. Discussed new 15 mcg hr titration dose. Was concerned with coverage for Med D & BWC patients. Told him BWC will pay for Butrans & Med D status updated. We then discussed controlled release, branded OxyContin, q 12 h dosing, for Percocet patients, he asked why BWC is NOT covering OxyContin? I'm unsure I stated, I will research & get back to you. Left conversion titration guide, told him next time I'd like to share information designed to help him with conversion from short acting opioids & titration.
PPLPMDL0020000001	Cleveland	OH	44195	11/14/2013	Brief discussion on Butrans Initiation/Titration, Recvd info, informed Deshpande MD Program
PPLPMDL0020000001	Cleveland	OH	44114	11/14/2013	Quick Butrans reminder for those Tramadol failures, BWC patients and invited to upcoming Deshpande program, Said he will try and make it
PPLPMDL0020000001	Lakewood	OH	44107	11/14/2013	Saw dr....reminded him that the holiday is here and not to be surprised if he sees more pain patient ts that normal the next two months due to the holiday stress. When u re-asses.....think about how many pills they are taking
PPLPMDL0020000001	Lakewood	OH	44107	11/14/2013	I. A day and see if maybe OxyContin. Q 12h would be a wise option for them....and if its a Tramadol patient uncontrolled....u can use Butrans. He said okok thank u.
PPLPMDL0020000001	Cleveland	OH	44103	11/14/2013	Lunch. Discussed his thoughts on writing OxyContin and Butrans. Dr said the reason he doesn't write Butrans is that he can't get it thru managed care Nd he does not like to deal w prior auths. I said so u pick medications based on their managed care? Dr said n but if the product he gets rejected or causes too much time to be taken he won't write it. Spent time reviewing managed care. We discussed his reassessing patients. Dr said he doesn't d pill cunts or contracts like some doctors do but he isn't treating over 80mg morphine equi. I asked if he was referring to med 80 and he said yes. I gave him the company letter to review. We talked about how patients are managing their own pain. Dr said not very well. We reviewed the delivery system of Butrans, I said that. Butrans is the only schedule 3 extended release opioid. Dr said he didn't realize that. Reviewed that Butrans could be refilled, dr says he sees his patients on opioids every 3 months for an assessment. What questions do u ask? He said how's ur pain usually. We discussed asking when they wake up if they are in pain, or how soon after they wake up do they take something...or if they wake up in the middle of the night from win and how many times a week. If a patient has atc pain and would be willing to try Butrans....I asked him wouldn't it make sense. Dr said yes and that he would write it but his ingest hesitation is managed care coverage and it of pocket cost for patients. Discussed OxyContin q 12hand Interme
PPLPMDL0020000001	Cleveland	OH	44103	11/14/2013	Reviewed OxyContin. Q12h, flexible dosing, Butrans for those Tramadol failures and Intermezzo for MOTNA/dosing. No savings cards needed or requested. Said Transdermal system is favorable to prescribers/Dispensers- said they have the same abuse/misuse potential as PO delivery<font color=blue><b>CHUDAKOB added notes on 11/21/2013</b></font>-Mark, as a reminder, we cannot provide savings cards to Rite-Aid pharmacies per their corporate directive.
PPLPMDL0020000001	Cleveland	OH	44103	11/14/2013	Reviewed OxyContin Q12h flexible dosing strengths, broad formulary status. Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, said he is "thinking of prescribing" but hasn't yet, asked what is holding him back, said not really sure. but will keep in mind.
PPLPMDL0020000001	Cleveland	OH	44113	11/15/2013	Butrans reminder for those LorTab failures requiring around the clock analgesia, said she likes Butrans and like always will keep in mind for those appropriate patients, Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44113	11/15/2013	Quick Butrans reminder for those LorTab failures requiring around the clock analgesia, said she likes Butrans and like always will keep in mind for those appropriate patients
PPLPMDL0020000001	Akron	OH	44308	11/15/2013	MSL phone meeting with Dr.Friebert to discuss PK waiver and site enrollment potential. Dr. Friebert is hoping to enroll one more patient in QTR3001 by January 2014.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/15/2013	Saw dr at Summa Western Reserve Hospital coming from pharmacy. Dr said he's sorry he couldn't get more time with me when I saw him last. Dr said that he is having really good success with OxyContin in the inpatients at the hospital and Butrans is going really well. I asked dr if he is using more Butrans for outpatients? Dr said he is when he is seeing patients at the locations. Dr said he is using for his vicoden patients that want more pills. I told dr to continue searching for patients even on tramadol before they move to vicoden. Dr agreed but said he sees a lot more vicoden patients. I asked dr to continue prescribing OxyContin and Butrans.
PPLPMDL0020000001	Barberton	OH	44203	11/15/2013	Spoke to Jen the ma and asked if I could do a follow up with dr regarding Butrans. She said no and directed me to a unch for an apt to see the doctor. Left variety of materials for all the doctors to review.
PPLPMDL0020000001	Barberton	OH	44203	11/15/2013	Dr was not in the office, gone for the day. Left a variety of I for action for the office manager to pass thru to the doctor.
PPLPMDL0020000001	Akron	OH	44320	11/15/2013	Dr asked me if Butrans is covered for a commercial SummaCare patient. I told him it is and asked why? Dr said he has a Paris coming Monday that he wants to put on Butrans. I asked why and he said because the parit is on 4mg of Dilaudid and said he needs to get the patient off of. I told dr that he needs to do the morphine equivalent for that to determine the starting dose and that most likely the patient will need to start on the 10mcg. I told dr that he may need to titrate the patient if the patient needs additional analgesia and discussed the 15-20mcg. Dr said ok and he will let me know. I told dr to give the patient the copy card and trial offer.
PPLPMDL0020000001	Cleveland	OH	44113	11/15/2013	Visited Anes./Pain along with Ortho dept Left OxyContin formulary grids and Butrans Initiation/Titration guides
PPLPMDL0020000001	Akron	OH	44320	11/15/2013	While introducing Butrans and oxycontin to one of the medical students dr came up to listen. I reviewed OxyContin indication, dosing and titration with patient types. Discussed Butrans patch description,doing,titration, conversions and patient types. Dr said that she should be using more Butrans and I agreed! I asked her to continue looking for patients on Percocet who would be appropriate for q12 oxycodone.
PPLPMDL0020000001	Akron	OH	44320	11/15/2013	Spoke to dr about all products. I discussed what she is currently doing for her patients who need a dose adjustment on products like tramadol? Dr said its difficult to take every parit in that situation and start Butrans because e of so many other factors. I asked her then what makes for a good Butrans candidate? Dr said one who needs more of an ER product due to a chronic condition and willing to make a change and one who's cost isn't a factor. I asked dr if she has those patient. Dr said she had some. I told her to start there. Dr agreed. I discussed how to choose good candidates for OxyContin and discussed conversions. Intermezzo dosing and limitations of use.
PPLPMDL0020000001	Cleveland	OH	44113	11/15/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Presented Opioid Naive trial and what a 30% reduction in pain intensity means to his patients, said he thought it was significant, but also believes patients like PO dosed products. But, he will consider. Discussed OxyContin Q12h flexible dosing strengths and broad formulary coverage. Intermezzo for MOTNA/dosing and Trial cards
PPLPMDL0020000001	Akron	OH	44312	11/15/2013	I asked dr behind front reception desk if he is continuing to have success with Butrans? Dr said he is and said that as we discussed last time, dr said he is being very selective of the patients he is putting on it. I asked him if he has started patients who have failed tramadol? Dr said he has and said that even those patients he is making sure they are ok with a patch and will use it properly. I told dr that's good to hear and to continue prescribing. Dr
PPLPMDL0020000001	Cleveland	OH	44113	11/15/2013	Spoke with Justin, Butrans- no new info learned. OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Barberton	OH	44203	11/15/2013	Dr said she likes OxyContin of all the Schdule 2 products because of the reformulation. Dr said Purdue was the ny company to do this and more should follow. We dis used abuse potential with opioids. Including OxyContin. We discussed Butrans the dr said she is treating less chronic pain. But she thought Butrans might have a fit for those patients who might like to try a patch. Dr said she would try Butrans given the right patient. Discussed Intermezzo. Dr said she stays away from writing sleep meds. Dr said she would not ever write it, nor any zolpidem product.<font color=blue><b>CHUDAKOB added notes on 10/2/2013</b></font>-Sounds like her mind set might have changed a little. Keep working at it. You are making impact...slow but sure. Nice work!
PPLPMDL0020000001	C. Falls	OH	44223	11/15/2013	Cindy the pharmacist ordered the Butrans 15 mcg dose and ordered two cases which would give her a \$66 discount. She showed me the form to fill out and asked if today is indeed the last day and I told her it is. She said she would fax it in. She said that the have been seeing more Butrans and OxyContin. I asked from who and she said a couple of OxyContin and one or two Butrans from Dr Ali. She said that dr Ali is prescribing more Butrans. I told her to continue filling them and to let me know about any problems getting it through. Finished with reminding them of intermezzo indication and dosing.
PPLPMDL0020000001	Barberton	OH	44203	11/15/2013	Spike to his daughter for a while, who is the office manager of this location and the location at the hospital. She said there was not her pain guy at the hospital location that might learn about Butrans. I was u fami,air with his nArme. We talked about what Butrans is and she to apply. The patch, dr said he has been writing it, he said the patie stare doing fine but he was wondering what other med part d plans were covered cause its expensive. Discussed managed care. Focused in on commercially insured patients using the coupon. I asked him if he liked the extended coverage (control release) over 7 days. He said so far IT was working. Reminded him of OxyContin, another extended release single entity q 12h oxycodone molecule. She said oh yes, been around a long time.
PPLPMDL0020000001	Hudson	OH	44236	11/15/2013	Quick hello to dr in Hudson office. I asked to see him at the window and I told him that an ideal candidate is one who needs a dose adjustment on tramadol and I asked him if he has patients like the one in the Scott profile?
PPLPMDL0020000001	Cleveland	OH	44114	11/15/2013	Dr said he has had success with Butrans from tramadol and vicoden. Dr said he will continue to look for patients. I told dr thank you and to cotact me with any questions he may have.
PPLPMDL0020000001	Berea	OH	44017	11/18/2013	Quick Butrans reminder for those Tramadol/LorTab failures requiring around the clock analgesia, 15mcg/hr. and MedCo/ESI formulary status. Said OK, she will continue to find new patients
PPLPMDL0020000001	Cleveland	OH	44113	11/18/2013	Dr continues to tell me has not seen any uncontrolled pain patients.<font color=blue><b>CHUDAKOB's query on 01/13/2014</b></font>-Lisa, can you please clarify this call note. You have a very limited call note and yet you put down you presented three product presentations?<font color=green><b>BARTOLI's response on 01/13/2014</b></font>-Primary discussion was Butrans. Reviewed the Scott profile, dr said he has not seen anyone who might be appropriate for Butrans yet. OxyContin- dr said he doesn't write much OxyContin, that he was aware it was a q12h and he said I would have better luck getting him to write Butrans over OxyContin. Dr told me to leave coupons of intermezzo.<font color=blue><b>CHUDAKOB added notes on 01/14/2014</b></font>-Lisa, thank you for the clarification. It is very important that accurate call notes are recorded on every product you present. If you did not discuss the product, please do not put it down as presented. If you did discuss a product, then be sure it is recorded in the call notes. Thanks Lisa. If you have further questions on this, please let me know.
PPLPMDL0020000001	Cleveland	OH	44113	11/18/2013	Confirmed Appt with Dr.Shen/Novak, invited to upcoming program
PPLPMDL0020000001	akron	OH	44333	11/18/2013	I gave dr the Scott profile for Butrans and asked him if he thinks he will see a patient similar to him this week? Dr said he probably will. I told dr to make this week a Butrans week by starting Butrans on a patient like Scott. I also showed him the Maria profile for OxyContin and asked for him to continue to use OxyContin instead of refilling IR oxycodone. Finished by telling dr to also look for the criteria that patient meet the intermezzo indication
PPLPMDL0020000001	Westlake	OH	44145	11/18/2013	No lunches anymore she said hospital rules. Talked on Butrans if she found a spot for it and she said not yet. Pulled Scott profile.
PPLPMDL0020000001	Westlake	OH	44145	11/18/2013	Spoke to nurse about any lunch cancellations, left literature for doctors.
PPLPMDL0020000001	Mayfield Village	OH	44143	11/18/2013	Met with med asst Heather. Discussed Butrans as 1 x week transdermal option for moderate to severe chronic pain. Left 12/11 invite for both Drs Krishnan & Ashraf.
PPLPMDL0020000001	Westlake	OH	44145	11/18/2013	Dr out of country visiting his family until after thanksgiving. Nurse said I can catch I'm at window...sometimes does lunches. Left a variety of materials for him to review.
PPLPMDL0020000001	Stow	OH	44224	11/18/2013	Some with Greg the pharmacist and Mike the tech about all products. Greg said they are continuing to fill Butrans and have had good luck recently with getting them through insurance. I told them about the new dose and asked them to order it. OxyContin dosing and conversions and intermezzo indication and what a candidate looks like.
PPLPMDL0020000001	Stow	OH	44224	11/18/2013	Led discussion with insight about hydrocodone and then follow it up with the Kathy profile. I introduced the Butrans 15mcg dose. Dr said that he is happy with the 15mcg and will use it. I asked for continued prescribing early on in the treatment of chronic pain. Dr agreed and said he was double booked and needed to leave.
PPLPMDL0020000001	Akron	OH	44333	11/18/2013	Saw dr up front in Fairlawn office and told him that when he has patients that he is ready to refill their Percocet for to assess them for the q12 oxycodone. Dr said ok and he is trying to do it more and more because he hates refilling Percocet. I told dr to also assess patients that are on tramadol for Butrans. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	11/18/2013	Short conversation with Abby over lunch. I led with the hydrocodone insight and she said she admits that she probably leaves patients on their mediate release opioids too long. I asked her why she thinks that happens? She said she's not quite sure but said that patients want their pills and don't want change and that she said she needs to reevaluate them for an ER opioid sooner. I told her to think of Butrans at that point and explained the dosing and patient profiles. Abby said she knows she also has some Butrans patients that should probably be titrated. I reviewed steady state and titration of doses. Abby said she is finding great success with Butrans for her medical mutual patients. I told her about all the commercial plans covered including Caresource PA which she said she didn't know.... I told her we have discussed it many times before and reviewed the criteria. She said she is glad to know about the plans and will use it for Caresource.
PPLPMDL0020000001	Cleveland	OH	44113	11/18/2013	Visited Dept/ Left OxyContin/Butrans Initiation/Titration guides for Stearns/Bilfield

PPLPMDL0020000001	Akron	OH	44304	11/18/2013	Spoke with pharmacy technician today about all products. I asked her how familiar she is with Butrans? She said that she is and they have the 5 and 10mcg in stock. I asked her if they have copay cards and she said they do have them and have been using it for a few patients recently. I reviewed th dosing, introduced the 15mcg patch and discussed conversions. I discussed OxyContin dosing, titration and conversions. She said they use too much of it. I asked what she means by that and she said some patients are on very high doses. I discussed tailoring the dose and start principles. Intermezzo doing, indication and patient types.
PPLPMDL0020000001	Mayfield	OH	44143	11/18/2013	Met with med asst Terri. Left 12/11 program invite, she will make sure dr & their 2 RNs get invite. Left dr new Butrans dosing slider, discussed indication & new 15 mcg hr titration dose with Terri. Discussed trial, savings for Intermezzo.
PPLPMDL0020000001	Akron	OH	44304	11/18/2013	I discussed the patient that is already on the oxycodone molecule and is in need of a dose adjustment. I showed the. Inversion guide and asked him what the clinical advantage of continuing and/or titrating IR oxycodone? Dr said some patients it works really well on and is low cost. I asked if the 12h oxycodone would be any different? Dr said he has many patients that like to take a pill every 4 or 6 hours. I asked if he has some that would be open to the ER oxycodone? Dr said probably. I told him to start there and move on into the 7 dose flexibility. I gave him he Butrans initiation and titration guide and asked for continued success by looking for patients like Scott and Kathy left him the parent profile guide for intermezzo.
PPLPMDL0020000001	Berea	OH	44017	11/18/2013	Saw dr. Discussed titration of Butrans for the patient she just started on Butrans. Dr said she would have no trouble doing this if patients pain was not controlled. we also talked about breakthrough pain and supplemental use along with their Butrans therapy. Asked dr to keep an eye out today, this week for patients coming to refill their Tramadol. If their pain is progressing to another level- to write Butrans is week and see how well they do managing their pain with 4 patches a month. Reviewed intermezzo....dr wanted to know the difference between Ambien and intermezzo. Instated no head to head. That intermezzo is a sublingual prn medication with middle of the night awakenings within 4 hours of sleep remaining. Dosed differently for men than woman n elderly. Gave her the savings cards that 5 free along with a script.
PPLPMDL0020000001	Mayfield Village	OH	44143	11/18/2013	Dr price is concerned with state of Ohio 80 mg trigger letter, as he has cancer patients who have, chronic, non terminal pain, who are on over 80 mg morphine equivalent. I handed him our OxyContin. Conversion, titration guide, which will assist him with titrating down from 80 mg morphine equivalent or greater. Titration, up. Or down, possible every 1-2 days. He will. Continue using OxyContin in cancer patients. Dr price, we've discussed Butrans many times for opioid naive, & opioid experienced patients, we've discussed safety & efficacy of Butrans, and pain reduction scores in both naive & experienced patients. I've asked that your. patients not controlled on 3-4 Tramadol daily, be converted to 10 mcg hr Butrans. What is holding you back? Cost. You have trial, savings cards for Butrans & Butrans preferred Medco. express scripts, Cigna med d. So can we concentrate on those Tramadol patients with commercial coverage or Med D we just discussed? Yes, replied Dr Price.
PPLPMDL0020000001	Highland Heights	OH	44143	11/18/2013	Met with medical assistant, discussed Butrans, 1 x transdermal patch option for moderate to severe chronic pain. dr has expressed concern regarding patient access/coverage. Reminder BWC will pay, and preferred status Medicare Part D, Med o, Cigna Express Scripts. Left new dosing slider with 15 mcg hr titration dose. Left 12/11 invite.
PPLPMDL0020000001	Cleveland	OH	44113	11/18/2013	Quick OxyContin Q12h flexible dosing strengths reminder, and Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok
PPLPMDL0020000001	Mayfield Village	OH	44040	11/18/2013	Spoke with tech first, then pharm mgr Steven. He has a few patients on Butrans, no 15 mcg hr has come through yet. Discussed our 72 hr steady state & why patients may be on non opioid or short acting opioids for break through pain, & while waiting for Butrans to kick in. When should the patient come off short actings or supp analgesia, after a week? Asked Steven, I replied that's up to their physician. This is a transdermal system worn for 7 days, then another patch is applied to different application site. Patient gets 4 patches per month. Steven had phone call then.
PPLPMDL0020000001	Cleveland	OH	44113	11/18/2013	Quick window call, Butrans reminder for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h flexible dosing strengths. Said Ok, talk to Eissa next for PA's concerns
PPLPMDL0020000001	Cleveland	OH	44113	11/18/2013	Quick Butrans reminder for those Tramadol failures. Said ok, but feels patients are adequately controlled on present therapy. I not refers to pain mgmt, but will keep in mind
PPLPMDL0020000001	Stow	OH	44224	11/18/2013	Started off conversation with dr using the hydrocodone insight. Dr said he agrees that patients are on their short acting narcotics way too long. Dr said they are trying to get their patients to stop their oxycodone. I asked how his practice thinks the but approach to do that is? Dr said they are not sure but are confronted with it each and every day. Dr admitted that their patient population is on way too many short acting products and they just try and streamline them. I told him that they have many ER options available and Butrans is one of them. Dr said that they have had good success with Butrans and are trying to implement it sooner on in prescribing of opioids. I told dr that that is exactly what should be focused on. I spoke to him about th tramadol and viconden patient. Dr agreed and said he will continue to try and start ER opioids sooner when warranted.
PPLPMDL0020000001	Westlake	OH	44145	11/18/2013	Kelly said d n more lunches or any type of food, per the hospital rules. She canceled all lunches on books for all reps. She did not know the reasoning. Saw dr, we spoke about the lunch cancellations. Talked n Butrans. Asked him how come ts not a first line product for him? He said his patients are more severe. We talked about supplementing on Butrans and the pain scores for the Butrans experienced patient type. Dr said he liked the product.
PPLPMDL0020000001	Garfield Heights	OH	44125	11/18/2013	Discussed OxyContin, q12h....also spoke intermezzo. He doesn't treat sleep issues he said.
PPLPMDL0020000001	Cleveland	OH	44102	11/18/2013	Reviewed OxyContin/Butrans savings card program, discussed Butrans with Tech for those Tramadol failures requiring around the clock analgesia. Also reviewed Intermezzo for MOTNA/dosing and Trial/savings card
PPLPMDL0020000001	Cleveland	OH	44102	11/18/2013	Reminded of OxyContin Q12h, flexible dosing strengths, broad formulary coverage, said Ok, Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, said he will keep in mind. Asked about opportunity to meet over at St. Augustine, said he doesn't have a set schedule, but I can try.
PPLPMDL0020000001	Stow	OH	44224	11/18/2013	Led with discussion about insight about hydrocodone. Sandra agreed the numbers are staggering. I asked her when she writes a hydrocodone prescription what it looks like? She said its usually q6 1-2 pills a day. I asked her how often do you believe those patients are following the plan she sets for them. Sandra laughed and said lots of them and the usually take too much. I asked her what a 7 day patch would mean to those patients? Sandra said that I must understand that psychologically and physically many of her patients need to take a pill. She told me that she cannot force another form of therapy on those patients. I told her I understand and asked if ALL of her patients fit that description? She said no. I told her to then focus on the patients more open to change and to at least be willing to try a patch. I adapted her to at least get patients to get on the Butrans trial which could be free for many for 28days. Sandra agreed to do that.
PPLPMDL0020000001	Lakewood	OH	44107	11/19/2013	Oxycontin, dr said he has many patients doing well on the product. we discussed the molecule and the dr said he liked it was twice a day. I did say it was a q12h product. he said agreed. Lunch. Dr said he wrote once for Butrans which was started by dr kabbarra the pain specialist in Westlake. I said what do u know about Butrans. Dr said not much. Reviewed the molecule, how long to wear the patch and how many patches a month. Reviewed initiation doses....he looked at the chart and said mostly he can see his patie ts starting at 5mcg. He asked if he should stop their current medication and then start Butrans. I discussed the steady state of the product being 72 hours and told him that per the studies such that Butrans could be supplement with NSAIDs And suggested that if the patients are currently on an opioids not to abruptly discontinue their medication until Butrans has a chance to work. Dr asked about cost. Dr said he has caressource. Discussed it would most likely need a prior auth and couldn't use the coupon. However reviewed commercial plans....and the coupon. Dr said he would try to
PPLPMDL0020000001	Hudson	OH	44236	11/19/2013	Dr told me that he had a patient recently that was being tapered of Percocet and viconden form pain management and was still in around the clock pain. Dr said he wanted to start Butrans 10mcg and got approval from the patients pain management dr. Dr Seiple said that a few weeks after the patient called and said they could not tolerate it. I asked what the tolerability issues were and he said he's not sure and mentioned maybe nausea. Dr said the patients was discontinued on Butrans. I told dr that it will not work for every patient and asked him to continue finding the appropriate patients and reviewed profiles. Discussed start principles for OxyContin and dosing. Discussed intermezzo patient profiles.
PPLPMDL0020000001	Lakewood	OH	44107	11/19/2013	Spoke to office manager, booked a lunch and she let me talk to dr for a few minutes on Butrans. Dr said he doesn't see many chronic patients. I focused n n the Tramadol patient he refills every month or so. I asked him to pause the next time he goes to write the script to make sure a different delivery system for atc treatment would make more sense. Showing the initiation guide dr said he is usually under 300 total daily dose of Tramadol, therefore we talked on starting at the lowest dose which is 5mcg. I told hi. T try it out this week for a commercially insured patient and get sme experience under his belt with the product. He said ok.
PPLPMDL0020000001	Cleveland	OH	44111	11/19/2013	Spoke to pharmacist, discussed Butrans placement, coupons and placement.
PPLPMDL0020000001	Fairview Park	OH	44126	11/19/2013	Spoke to nurses about Butrans savings cards and intermezzo free trial of the savings cards.
PPLPMDL0020000001	Lakewood	OH	44107	11/19/2013	No see try to get information to the dr but the office manager said today was not a good day. Reviewed savings coupons for Butrans.
PPLPMDL0020000001	Akron	OH	44333	11/19/2013	Discussed OxyContin and Butrans patient types and how and why he decides at what point to prescribe each one. Dr reminded me that he has to set dosing thresholds for IR opioids which he said make all the difference and justification to prescribe ER opioids. I asked what those are? Dr said Ophir oxycodone of about three pills before he prescribes OxyContin. Butrans dr said that he uses it for patients on tramadol and viconden. Dr said viconden patients sometimes go to Percocet if they are under 3 pills and some he move to Butrans based on their diagnosis. Dr said many patients with chronic low back pain, osteoarthritis, and others with most types of chronic pain except for cancer pain are good candidates for Butrans. I told dr that he just explained many patients in the opioid experienced trial. Dr said he likes it and will continue prescribing. I asked dr to continue prescribing OxyContin and explained conversions and start principles. Dr said ok and greed with the information. Finished with intermezzo discussion and asked him to identify patient types meeting the indication.
PPLPMDL0020000001	Cleveland	OH	44112	11/19/2013	OxyContin Reminder- Q12h flexible dosing strengths, formulary coverage. Butrans for those Tramadol failures which require around the clock analgesia, Said she will consider, reviewed initiation/Titration doses.
PPLPMDL0020000001	Cleveland	OH	44127	11/19/2013	Reviewed OxyContin START principles, Q12h flexible dosing strengths. Butrans for those Tramadol failures requiring around the clock analgesia, Dr said OK will consider, but feels patients are adequately controlled and prefer PO delivery. Asked how often he increases dose/frequency, agreed it occurs.
PPLPMDL0020000001	Fairwan	OH	44333	11/19/2013	Good conversation about OxyContin and I asked him what signals or criteria does he use when prescribing OxyContin? Dr said that he typically takes patients til about 40mg of IR oxycodone before he moves to OxyContin. I asked him why he waits until 40mg to make the switch? Dr did to know what to say but said that each patient is different. I showed him the conversions from hydrocodone 20mg to OxyContin 10mg q12. I asked dr if he would find patients for OxyContin 10mg? Dr said maybe. I asked dr to continue prescribing OxyContin dosing and gave quick review of start principles. I asked dr about Butrans doing, titration and patient identification. I asked him who he feels is a good candidate? Dr said he only has a few patient on it and really like it. Dr said some were on viconden and others on percocet. I asked him if he has patients on tramadol or 20mg of hydrocodone? Dr said he probably does. I discussed the Scott and Kathy profiles and asked for more business. Finished with identification of intermezzo patient types.
PPLPMDL0020000001	Stow	OH	44224	11/19/2013	Old discussion on all products with Angela. Angela told me that she is seeing most of the success with Butrans in the elderly population. I asked her why she thinks that is and she said she doesn't know for sure but has had some patients over 65 that have said they really like it because they don't have to remember to take a pill. I told her that's good to hear. Angela said that the patients she sees on it are raving about it and don't want to stop taking it. Discussed doses including the 15mcg, titration, patient types with Scott and Kathy and conversions. Discussed OxyContin and Angela said she does her best to move patients on Percocet to OxyContin because she said it just makes sense. She said she uses most doses and finds that sometimes for patients over 40mg of viconden that prescribing OxyContin works for most patients. I told her that's great to hear and to continue what she's doing. Reviewed intermezzo dosing, limitations of use.
PPLPMDL0020000001	Hudson	OH	44236	11/19/2013	Spoke with dr about all products. Discussed start principles for OxyContin and asked him where he is using it. Dr said the prices are general guidelines and he said he follows them and tries to tailor the dose according to the patients pain level and functional mobility. I reviewed dosing and asked him to titrate when his patients meet his criteria. I asked him what's holding him back from prescribing Butrans? Dr said he doesn't know. I asked him if he currently has patients on tramadol around the clock? Dr said he probably dos and knows he should look to see if they are appropriate for Butrans. I told him he is right and to just do it for one patient and allow product to prove itself in the right patient. Dr agreed. Reviewed copay card and trial offer. Showed dr intermezzo patient profiles and discussed him looking for patients meeting the indication.
PPLPMDL0020000001	Akron	OH	44310	11/19/2013	Followed up with dr after lunch last week concerning his question if Butrans patch contained latex. I was advised by compliance that I am able to discuss that Butrans patch does not contain latex. I spoke with dr about Butrans not containing latex. Dr said thanks for getting back with him. I told dr that after our conversation about Butrans patient types last visit that it important to know that 62% of patients in the opioid experienced trial were taking hydrocodone combinations and then reviewed the Kathy profile. Dr said he will look more at his viconden patients. Dr said he just saw a patient in this morning on Butrans and it is working very well however the patient is getting a rash at the application sites. Dr said the patient is doing very well on the 10mcg patch so the patient wanted to continue it. I asked how long it is taking for the rash to dissipate and dr said about 7-10days. Dr said the patient has been on Butrans for approximately 6 weeks. Dr agreed to continue prescribing.
PPLPMDL0020000001	Brooklyn	OH	44144	11/19/2013	Window call, invited to Desphande program along with Butrans reminder for those Tramadol failures requiring around the clock analgesia. Said Ok, Audrey said she will remind Dr. As program date approaches to confirm attendance

PPLPMDL0020000001	Brooklyn	OH	44144	11/19/2013	Reviewed OxyContin Q12h, flexible dosing strengths, formulary coverage. Said Ok and OxyContin is his go to ER opioid. Asked what is holding him back from prescribing Butrans, said cost/affordability to his predominately elderly patient population is his challenge, also feels most patient are adequately controlled. I reviewed MedCo/ESI formulary status, said he will certainly keep in mind. Invited to upcoming program, Said Wed. nights are good for him and will try to attend. Intermezzo for MOTNA/dosing, savings/trial cards
PPLPMDL0020000001	Lakewood	OH	44107	11/19/2013	Discussed OxyContin, when he selects the q12h? He says it's a good product for pain. I said so when u treat patients that have pain throughout the day n night u think OxyContin only? He said no...he starts with Percocet first. I said why not OxyContin first? We discussed Butrans....4 patches a month and pain control via the naive study.
PPLPMDL0020000001	Lakewood	OH	44107	11/19/2013	Spoke to the dr, told him dr orrs said hello. I asked if he had a chance to try Butrans 5mg out yet. He said no. We discussed who he is to look out for, the Scott profile type of Tramadol failure. Discussed its 4 patches a month, and where the patient can place it. Also reminded hi that it was a prior auth with caresource but covered.
PPLPMDL0020000001	Brooklyn	OH	44144	11/19/2013	Quick OxyContin window call, Q12h flexible dosing strengths, Butrans for those Tramadol failures and invited to upcoming Dr. Desphande program
PPLPMDL0020000001	Brooklyn	OH	44144	11/19/2013	Reviewed OxyContin Q12h, Butrans for those Tramadol failures and Intermezzo for MOTNA/dosing. No Trial/Savings cards needed. No new RX's hence no stocking updates
PPLPMDL0020000001	Lakewood	OH	44107	11/19/2013	No see today. Spoke to staff about abuse potential with Butrans and OxyContin. Discussed the patients coming for reassessments on Tramadol...and sticking Butrans materials and savings cards on their file. Also discussed caresource.
PPLPMDL0020000001	Cleveland	OH	44127	11/20/2013	Reviewed Butrans and Kathy profile with Dr. and Josie, they agreed, she sees patients like that, said they want PO delivery, but will continue to consider for appropriate patients. Reminded of OxyContin Q12h flexible dosing strengths and Intermezzo for MOTNA/dosing and trial cards. Invited to upcoming Desphande program and will try to make it
PPLPMDL0020000001	Cleveland	OH	44127	11/20/2013	Reviewed Butrans and Kathy profile with Dr. and Josie, they agreed, she sees patients like that, said they want PO delivery, but will continue to consider for appropriate patients. Reminded of OxyContin Q12h flexible dosing strengths and Intermezzo for MOTNA/dosing and trial cards. Invited to upcoming Desphande program and will try to make it
PPLPMDL0020000001	Akron	OH	44308	11/20/2013	MSL provided OTR holiday e-greeting to Dr. Friebert and Ms. Tonni.
PPLPMDL0020000001	Cleveland	OH	44113	11/20/2013	Visited had lunch appt with Anes/Pain Dept
PPLPMDL0020000001	Akron	OH	44312	11/20/2013	Some with Gary the pharmacist about all products. Gary said he just filled a Butrans prescription before I cam in for dr Ali. Gary said the patient has ESI prescription insurance And paid \$0 for a months supply. I discussed the importance of the copy cards and asked him if the patient presented a copy card? Gary said no. I explained the trial offer and copy card. Gary said he wanted some to hand out if they do not present them and have commercial insurance. Introduced the new 15mcg dose and conversions from IR opioids. Discussed OxyContin dispensing and dosing. Gary said they fill it regularly and the 10, 20, and 49 are the most common filled. Told him about intermezzo dosing, patient types and indication.
PPLPMDL0020000001	Westlake	OH	44145	11/20/2013	Worked with Kathy and the nurses to get a cancellation for this Friday! The nurses told me the doctors haven't tried it yet but did try Intermezzo.
PPLPMDL0020000001	Mayfield Heights	OH	44124	11/20/2013	Breakfast. Pain reduction insight, linked to BUP 3024. Says she will try Butrans. Shopped how to write, demo patch, disposal unit. Discussed trial, savings.
PPLPMDL0020000001	Westlake	OH	44145	11/20/2013	Saw dr in hallway. He said he was writing more. I thanked him and asked how they were doing. He said good.
PPLPMDL0020000001	Fairlawn	OH	44333	11/20/2013	Spoke to dr Parisi but his philosophy on treating pain. Dr told me that he will usually treat acute pain but said he really doesn't like treating chronic pain. I asked him what his definition of chronic pain is and he said any type of pain where he needs to consider a ER product. I asked him what he does then for those patients? Dr said he refers out to pain management. Dr said he usually sends them to Bina Mehta or dr Vucetic. I told him that I understand his position and asked him if he would ever consider referring a patient on a product like Butrans instead of IR opioids? Dr said its a possibility and would make sense. I gave him the OxyContin conversions guid and asked him to at last switch patients over from IR oxycodone to OxyContin. Dr said ok.
PPLPMDL0020000001	Mayfield Heights	OH	44124	11/20/2013	Hallway call. Reminded Gina of 15 mcg hr dose, you haven't used yet right? No I haven't Gina replied. Since we lost our NP, ive had to follow up with all the other HCP s patients. I haven't had clinic in over 8 ms, so that's why I haven't written Butrans. I want to. It won't be til 2014. New PA-C starting 2014, right out of school. Frank Sorjan ( nip lookup) and Josie Puskus CNP, ( nip lookup) hired to work in procedure room. FAX DEC 11 Invite, She may attend, suggested I send invite to Frank & Josie.
PPLPMDL0020000001	Akron	OH	44333	11/20/2013	Dr told me that he prescribed three new OxyContin today. I asked him to tell me about them and he said one patient was taking 6, 5/325 Percocet a day and dr out the patient on 15mg OxyContin q12 and Percocet for breakthrough. Dr said that the 30mg of Percocet wasn't providing enough relief. Dr said he also has a couple of patients for Butrans this week that he knows will be a good product for them. I told dr to also continue searching for intermezzo patients.
PPLPMDL0020000001	Mogadore	OH	44260	11/20/2013	Quick hello at front counter. Dr told me that he just started a new patient on Butrans coming off of vicoden. I asked him the dose and he said 5mcg because the patient was only taking 2-3 a day. Dr said he thinks he will need to move them to the 10mcg before the he the appointment. I asked him to not forget the 15mcg dose and to titrate patients every 72 hours if necessary. Dr said ok.
PPLPMDL0020000001	Mayfield Heights	OH	44124	11/20/2013	Breakfast. Pain reduction insight, asked what % of pain reduction would you expect? dr said shed expect 30-50% pain reduction, let me share with you data BUP 3024, reduction 4.6 in opioid naive. Dr asked many questions, showed patch demo & disposal unit. Discussed supplemental analgesia. Can I give a Tramadol when titration Butrans ? Yes? Can I call in refill? Yes, it's a CIII. Showed application sites. Discussed proper disposal. Cost a concern. Updated Medicare D preferred coverage, commercial & access with trial & savings cards.
PPLPMDL0020000001	Cleveland	OH	44109	11/20/2013	Visited Dept. Distributed Butrans/OxyContin Initiation/Titration guides, formulary grids and invited to fellows and attendings to upcoming Desphande MD program
PPLPMDL0020000001	Cleveland	OH	44109	11/20/2013	Visited Anes/Pain Dept, OxyContin/Butrans Initiation/Titration guides along with invite to upcoming Desphande program to Fellows/Attendings
PPLPMDL0020000001	Cleveland	OH	44113	11/20/2013	Reviewed Butrans Initiation/Titration, formulary coverage and savings cards. Said he along with Dr. Shen like Butrans and continue to utilize. Invited to Desphande program, said he will attend. Discussed OxyContin Q12h, ER opioid mkt and likes the flexible dosing strengths. Reminded of Patient essential kits/Savings cards and Formulary coverage
PPLPMDL0020000001	Cleveland	OH	44113	11/20/2013	Reviewed Butrans Initiation/Titration, efficacy message, formulary coverage. Dr. said she is always looking for new patients, likes transdermal delivery and will continue to utilize. Reminded of OxyContin Q12h, savings card
PPLPMDL0020000001	Cleveland	OH	44113	11/20/2013	Quick Butrans reminder for those Tramadol failures, requiring around the clock analgesia said Ok, Invited to upcoming Desphande program, said to remind him as the date gets closer.
PPLPMDL0020000001	Cleveland	OH	44113	11/20/2013	Had Lunch appt with Dale and Dr. Shen, discussed OxyContin Q12h and Butrans for those Tramadol failures requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44102	11/20/2013	Saw Dr. in hospital, Reminded of OxyContin Q12h, said he still hasn't spoken with Ed-RPH yet. Reminded of Butrans for those Tramadol failures, said Ok, but still sees biggest obstacle is Ins. coverage, especially over at St. Augustine, asked for patients that he sees in office and said he will keep in mind
PPLPMDL0020000001	Westlake	OH	44145	11/20/2013	Tried to bring in a snack/coffee break today. Dr. said no thank you today is too busy. Left materials for review.
PPLPMDL0020000001	Stow	OH	44224	11/21/2013	Spoke with Holly and staff on all products. Holly said she just got another prescription for Butrans 5mcg this week. Holly the pharmacist said that it was from dr Yang. Holly said the patient had SummaCare commercial insurance with MedImpact and it was \$90. The patient didn't want to pay so holly said the patient was going to try and get it pushed though BWC. I asked holly if the patient used the copy card or trial offer and she said she didn't know. I asked if he would call the patient and ask. Holly said she would. OxyContin use for her patients on Percocet around the clock and discussed conversions and dosing. Intermezzo indication and dosing and
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	11/21/2013	Saw dr as she came in for the day and told her that 62% of patients in the opioid experienced trial were taking hydro one combinations and asked if she has any of those types of patients that may be appropriate for Butrans? Dr said maybe and thanked me for the reminder. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	11/21/2013	Saw dr. Asked if he ever thought about Butrans after Tramadol. He said yes yes he likes Butrans. Asked him to consider if it makes sense during assessments with uncontrolled Tramadol patients to move to Butrans.
PPLPMDL0020000001	Westlake	OH	44145	11/21/2013	Waved to dr in hallway...I said did u use the coupon? He walked over and said which one. I went over the savings program and highlighted the uncontrolled Tramadol patient t that needs atc pain therapy.
PPLPMDL0020000001	Westlake	OH	44145	11/21/2013	Saw dr in hallway. Showed the Butrans patch and reviewed what it is.
PPLPMDL0020000001	Stow	OH	44224	11/21/2013	Dr said she is double booked most of the day and only needed to hear one point. I told dr to take patients on vicoden and Percocet who have been on them for 3+ months and are complaining of pain to start OxyContin. Dr said ok and that was good. Nothing else learned,
PPLPMDL0020000001	Akron	OH	44312	11/21/2013	Dr said she only has a second so I showed her the adverse event incidences from the opioid exercised trial. I asked her if there is anything that would make her have second thoughts about writing Butrans? Dr said no and said she is impressed with the incidence of constipation because she said it is high with patients on vicoden. I asked her what Butrans night mean to those patients? Dr said she will look into that more and thanked me.
PPLPMDL0020000001	Akron	OH	44312	11/21/2013	Dr came to the front window and I asked him if he has had any recent success in finding patients on tramadol who need dose adjustments? Dr said he had one patient last week but had an insurance that would not cover Butrans. I asked if he knew what it was and he said he didn't know but the patient works and dr said he figures it's his company plan. I told dr manning to continue finding the right patient and showed him the appropriate
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	11/21/2013	Dr and Liz told me that they are out of OxyContin copy cards and needed more. I told dr that when he is in a situation when he knows the patient needs an ER opioid to prescribe OxyContin. Especially those patients on Percocet. Dr said he uses them all but makes sense to write OxyContin for patients already on oxycodone.
PPLPMDL0020000001	Westlake	OH	44145	11/21/2013	Saw Megan and dr at window...n. Discussed Butrans savings cards. Saw dr and we reviewed the savings cards along with the inclusion criteria of the naive study.
PPLPMDL0020000001	Lyndhurst	OH	44124	11/21/2013	Met with medical assistant Shannon. Left 12/11 invites for drs reed & road; CNP s Karen Steffey & Patricia Moran. Discussed OxyContin & Butrans as options for patients. No one is available this afternoon, as they are short 2 staff today. I asked Shannon is just Patricia in tomorrow? She replied Karen, Drs Reed & Roda will all be in after 9. I asked if I could bring them breakfast, she replied yes!! They did NOT open lunches for 2014, I will have to inquire w Dr Reed on that.
PPLPMDL0020000001	Cleveland	OH	44115	11/21/2013	Visited Pain Mgmt dept. Invited to upcoming Desphande program
PPLPMDL0020000001	Mayfield Village	OH	44143	11/21/2013	Lunch. Dr Azar you've told me you are comfortable initiating Butrans in nursing home, my objective today is to get you more comfortable in initiating right here in the office. I want to focus on a patient like Scott, age 54. This could be male or female, pain caused from osteoarthritis. After we're done discussing appropriate access, we will discuss access for a commercially covered patient under age 65. What about Medicare? Butrans is preferred, I will get to that later. Discussed after Tramadol, and supplemental analgesia either non opioid or 1-2 short acting opioids ok for break through pain. Got into formulary coverage after. Im confident that What will make you even more comfortable with Butrans, is if you attend our program on Wed 12/11. I have to be in Brookpark that afternoon. That's perfect only about 20 mts away from the venue. He will try his best to attend.
PPLPMDL0020000001	University Heights	OH	44121	11/21/2013	Discussed using START principles to help guide him with conversion & titration of OxyContin, Showed him conversions from ir oxycodone& Percocet. Discussed starting at 10 mg and titration available every 1-2 days if necessary. Then used Scott profile to position Butrans as 1 x weekly transdermal option for patients complaining of conditions causing them pain like osteoarthritis with Scott profile. Also reminded him of inclusion criteria we discussed preciously in BUP 3024.
PPLPMDL0020000001	Cleveland Hts	OH	44118	11/21/2013	Reviewed OxyContin Q12h flexible dosing, broad formulary coverage, Savings card along with Butrans for those Tramadol failures. Said he is prescribing PAs are going thru, patients are somewhat reluctant of Transdermal delivery system but asks them to try it. reminded of Titration dose of 15mcg/hr available. Invited to program but will be out of town, keep him mind for future programs
PPLPMDL0020000001	Stow	OH	44224	11/21/2013	I told dr that I'm not convinced that he's convinced Butrans works. Dr said why? I said because he hasn't used it yet and I just want to make sure he knows it works. I gave quick review of Bup 3015 and hit all main selling points. I asked dr if he had any questions and he said no. I asked if I made him more compelled to find a patient to try it on? Dr said maybe. I told dr I'll take it! Dr said he will try and look for the right patients.
PPLPMDL0020000001	Cleveland	OH	44103	11/21/2013	Reviewed OxyContin Q12h Flexible dosing strengths, Conversion/Titration. Said OK and is prescribing. Reminded of Butrans for those Tramadol failures and patients requiring around the clock analgesia, Said he will keep in mind, Booked lunch appt. Reviewed OTC-Senokot

	Akron	OH	44305	11/21/2013	I asked dr if he has many parents on Butrans with private prescription insurance? Dr said he has a few. I told dr that he has 4 copy cards left and they will expire soon. I asked dr to get them out to patients with insurance who need a dose adjustment on tramadol like Scott. I reviewed the Scott profile again and asked if he would start a few more patients on Butrans that are similar to Scott? Dr said he would and he really likes it. I told him about the OxyContin start principles and reviewed the tailor and titration of the product.
PLPMDL0020000001	Cleveland	OH	44103	11/21/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Dr. once again agreed it was a viable option but Med. Dir. has put restrictions on Prescribing any new Opioids.
PLPMDL0020000001	Cuyahoga Falls	OH	44221	11/21/2013	Dr told me that she wrote for OxyContin this week a couple of times. I told her to give me more information and she told me that both were taking Percocet for a long time and she thought it made sense to give them OxyContin. I told dr that's great to hear. I asked about conversions and she said both went on 20mg q12. I told her to continue using it and discussed the conversions again. Dr said she will keep using. I gave her the Butrans conversion guide and asked her to start the controlled release transdermal system for patients failing tramadol or vicodin. Dr said ok.
PLPMDL0020000001	Cleveland Hts	OH	44118	11/21/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, 30% pain reduction, Dr said that was impactful and will consider. OxyContin Q12h flexible dosing strengths,said she rarely prescribes Oxycodone molecule. Intermezzo for MOTNA/dosing and Trial/Savings Cards
PLPMDL0020000001	Cleveland Hts	OH	44118	11/21/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, discussed 30% pain intensity reduction, said he thought it was significant but not sure patients want Transdermal delivery, but will consider!
PLPMDL0020000001	Cleveland Heights	OH	44118	11/21/2013	Reminded of OxyContin Q12h flexible dosing strengths and formulary coverage
PLPMDL0020000001	Uniontown	OH	44685	11/22/2013	Reviewed Butrans selling message,no new info learned
PLPMDL0020000001	Uniontown	OH	44685	11/22/2013	I asked dr if he has had any patients who he has seen recently who needed a dose adjustment on Percocet? Dr said he has some that are on Percocet but are doing well. I told dr that some of those patients may be appropriate for OxyContin. Dr said that's true and he will keep an eye on them. Nothing else learned.
PLPMDL0020000001	Uniontown	OH	44685	11/22/2013	Told dr that with OxyContin he can tailor the dose specific to his patients needs. I showed him the dosing guide and said I wanted it to continue to be his go to ER opioid. Dr said is basically is and that he really likes it. Nothing else learned.
PLPMDL0020000001	Westlake Akron	OH	44145	11/22/2013	Lunch. Dr had to run to hospital. He told me he likes my products ad left.
PLPMDL0020000001	Westlake Akron	OH	44319	11/22/2013	Handed dr the OxyContin conversions guide to dr through window and asked him if he will continue to switch Percocet patients to OxyContin? Dr said I don't need to remind him about OxyContin because he likes it and uses it often. Dr said I need to remind him about Butrans. I asked him if he has had any clinical experience e with it since I introduced it to him over lunch? Dr said he has not. I told him to reassess his tramadol patients to see if they need a dose adjustment. I told him if they do to consider Butrans if they meet the indication. Dr said ok and thanks for the information.
PLPMDL0020000001	Westlake	OH	44145	11/22/2013	Saw Claudia spoke on managed care and trying to find a time to see the dr.
PLPMDL0020000001	Westlake	OH	44145	11/22/2013	Lunch. Review Butrans. Dr said she doesn't treat chronic pain. I asked her if she has Tramadol patients that come in for refills. She said yes. I asked her to focus in on those for now. We discussed patie ts with uncontrolled pain. I asked where does she go next she said she will bump the dose of tramadol e or add short acting. I said sou would continue the tramdol e, she said yes. I asked her to keep an open mind about choosing Butrans after the Patient needed a change. She asked if she could supplement with Tramadol. I said yes, referred to the naive study. I said, I think pain control is the bigger picture here right. We went thru the naive study, inclusion criteria...pain results of both the open label Nd conclusion of the study. We discussed the pain reduction insight. I asked her if she would be happy with these results. She said yes. I did fairbalance that the results were done in a study and that I couldn't say she would get those exact results. We talked about what measures she goes thru to assess their pain progress. She said she relies on the patient to inform her of their pain. I asked her to pause next time she refills the Tramadol in case they are a candidate for an atc extended release product like Butrans. Dr asked about price, managed care. Dis used intermezzo and OxyContin.
PLPMDL0020000001	Uniontown	OH	44685	11/22/2013	Followed up with dr after the lunch and asked him if what we discussed about Butrans patient types? Dr said he has out some thought into it but said that he just doesn't have a lot of candidates that fit for Butrans. I told dr I understand and reviewed the fact that opioid naive patients can initiate Butrans. Dr said he knows and thanks for the reminders.
PLPMDL0020000001	Cleveland Akron	OH	44106	11/22/2013	Visited Anes/Pain dept. Invited to upcoming Desphande program
PLPMDL0020000001	Cleveland Akron	OH	44312	11/22/2013	Dr told me that he thinks he might have another patient for Butrans. Dr said that the patient has come off Percocet and now on vicodin. The patient had back surgery but is still in pain every day. Dr said he thinks Butrans will be a good option because he said the patient told him he doesn't like taking all the pills. I told dr to remember to initiate on the appropriate dose and reviewed the conversion chart with him. Dr said he will let me know what happens.
PLPMDL0020000001	Green	OH	44232	11/22/2013	New pharmacy in territory. Spoke with Lisa the pharmacist and her tech. Lisa said she came from the cvs in Jackson and she has filled Butrans and OxyContin but has not filled intermezzo. I told her about Butrans dosing, indication,titration, conversions and showed her the demp patch. Lisa said she has never seen it and has only the 10mcg on the shelf. I told her about the copy cards for all products and Lisa said she wanted some. Discussed OxyContin doses and titration and conversions. Introduced intermezzo discussing indication and dosing specifics. Lisa said that she needs copy cards in the Jackson cvs.
PLPMDL0020000001	Lyndhurst	OH	44124	11/22/2013	Late Breakfast. Met with RN Katie. Dr Roda had new patient, I waited 90 mts to meet her. Staff said she apologizes, just can't stop to talk. Nurse Katie feels Butrans and OxyContin should be the very last resort for their migraine patients. She wants patients to try the migraine meds and others preventative meds such as Topamax and anti seizure meds like Depakote. Patients have to have a minimum of 15 migraines every month prior to treatment with prescription meds. Sone symptoms of migraines: slurred speech, numbness in hands. menstrual migraines can be severe. Asked Katie how can her patients might benefit from a 1 x week pain patch? She agreed a 1 x week pain patch may prevent patients from having to get up in MOTN or help with pain upon awakening. Then discussed OxyContin q 12 h. Katie how could your patients benefit from a long acting opioid like controlled release OxyContin. ? Since migraine pain is often long term, could a long acting be more appropriate than a short acting? She says she knows my products work, but her goal is to have as few patients on " Narcotics " as possible. Left 12/11 invite for dr Roda, OxyContin conversion titration guide & Butrans initiation guide. Mentioned 15 mcg hr as newest dose.
PLPMDL0020000001	Cleveland	OH	44106	11/22/2013	Visited Dept. Distributed OxyContin/Butrans Initiation/Titration guides for fellows, invited to Desphande program, Contacted Terrah N. for confirmation of lunch appt date for Dept.
PLPMDL0020000001	Cleveland	OH	44106	11/22/2013	Reviewed OxyContin Q12h, flexible dosing strengths and Butrans for those Tramadol failures, Said they havent seen any new RX's recently, and most OxyContin RX's are coming out of Seidman
PLPMDL0020000001	Cleveland	OH	44114	11/22/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, Said Ok, will consider.Also reviewed OxyContin Q12h flexible dosing strengths
PLPMDL0020000001	Cleveland	OH	44113	11/22/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, 15mcg/hr dose said OK and agreed to find appropriate new patients to try Butrans, Invited to Desphande program. Intermezzo for Breakfast. Told dr reed I'd like to discuss her patients on a few Vicodin or Percocet daily, who are still experiencing breakthrough pain. What would be the downside of converting a few of those patients to a q12 h dosed medication like OxyContin, when a long acting opioid I'd needed around the clock. She tries to use. OxyContin more, but due to bad stigma over past several years patients are terrified to try it. She responds to her patients that OxyContin is just long acting Percocet. A few patients have been more comfortable when she presents it that way. Dr reed feels short acting opioids give the patients " up and down" pain relief & they are sure to experience breakthrough pain. She then told me her concern with Butrans. Adverse event has been reported below. Also had her sign hard copy request to be mailed into medical education dept. Dr says she likes efficacy Butrans provides but more & more patients are complaining lately of skin irritation, redness, burning, cracking, etc. She's instructed patients to " prep " site with corticosteroid and many patients have been applying neosporin to application site after patch removal. Dr reed wants to know if Purdue is planning on improving the adhesive for Butrans, so that patients won't have to incur skin reactions. Further, she says that Butrans causes worse irritation as compared to other Transdermal systems including Flector Patch, Lidoderm & Fentanyl. I responded by having dr sign a medical request form,
PLPMDL0020000001	Lyndhurst	OH	44124	11/22/2013	Breakfast. Karen immediately said, I'm sorry I have only a few seconds. I asked her where Butrans fits into her migraine treatment ladder. She says "middle of the road." She wants her patients to try the migraine agents first, and some patients request Botox injections. If they fail one of those she will introduce Butrans prior to prescribing vicodin or percocet. reminded her of Butrans greater dosing flexibility with the launch of the 15 mcg hr dose. Also Karen for patients on a few oxycodone or Percocet daily, you have the option to convert to a long acting such as OxyContin with q 12 h dosing. Ok thanks have to get back to patients said Karen.
PLPMDL0020000001	Westlake	OH	44145	11/22/2013	Lunch. Dr works with the residents, will try and get them and him to a Butrans dinner program. Did knew of Butrans but didn't know the details. We reviewed the Scott profile. Dr said he does have Tramadol patients. I asked him when they come into the office for an assessment if he would pause and asses them to see if the delivery system they are currently, ones working for them. We reviewed Butrans scheduling and abuse potential. Dr agreed that an extended release might work for some of his patients. He asked about managed care, we reviewed dosing. Dr said he would try it out on a reassessment Tramadol patients as long as the patient is appropriate for Butrans. Discussed the intermezzo, dr was unaware of the product.
PLPMDL0020000001	Cleveland	OH	44113	11/22/2013	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, agreed and continues to find new patients to try Butrans, PA's are getting easier Reminded of 15mcg/hr Invited to Desphande program.OxyContin Q12h and intermezzo for MOTNA/dosing
PLPMDL0020000001	Cleveland	OH	44114	11/22/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, agreed and continues to find new patients to try Butrans, PA's are getting easier but stressed it takes time. Thanked her for persistence., Invited to Desphande program. Intermezzo for MOTNA/dosing
PLPMDL0020000001	Berea	OH	44017	11/25/2013	Dr said he tried Butrans on someone and so far no phone calls. I brought up the Scott profile and the dr said he did not use it after a tramadol failure he used it for someone who thought vikodin was not controlling their pain and who needed atc pain therapy. Told the doctor about savings coupons for all products. Dr said he used the Butrans coupon for the recent patient.
PLPMDL0020000001	Cleveland	OH	44114	11/25/2013	Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, reviewed formulary coverage, said OK, will continue to find appropriate patients. Invited to upcoming Desphande program,
PLPMDL0020000001	Berea	OH	44017	11/25/2013	Dr waved to me across the hall and told me she hasn't forgotten, that she will use Butrans.
PLPMDL0020000001	Olmsted Falls	OH	44138	11/25/2013	Dr said he wrote intermezzo and the free 5 was an option on his drop down menu so it was easy to find. We discussed Medco managed care coverage and the indication along with the dosing for men and women. Told him I'd be back to discuss Butrans and how to start a patient who has never been on an opioid to Butrans 5mcg.
PLPMDL0020000001	Munroe Falls	OH	44262	11/25/2013	I asked dr if its fair to say she has patients taking tramadol around the clock? Dr said she does. I asked her what she is currently doing for those patients when they tell her they are still in pain? Dr said it depends on the patient but she said she usually adjusts the dose or gives them something else. I asked her what the downside is to prescribing Butrans for that patient? Dr said she can't think of one. I told her that the next time she is faced wi that scenario to prescribe Butrans and reviewed the appropriate starting dose. Discussed OxyContin and when she needs to use it as well by discussing Tom case profile. Closed with intermezzo and asked her to find more patients complaining of in the middle of the night insomnia.
PLPMDL0020000001	Akron	OH	44333	11/25/2013	I told dr that To continue thinking of OxyContin as a good product for those patients already on oxycodone but short acting and asked him to use it for those needing a dose adjustment. Dr said thanks. Left him and Judy with formulary information.
PLPMDL0020000001	Berea	OH	44017	11/25/2013	Dr said he hasn't found the right patient for Butrans yet cause he doesn't see much chronic pain. I told the dr even if he sees one patient a month that I wanted them to have a chance to get Butrans if they are appropriate and with in indication. Also discussed managed care...intermezzo and Butrans discussed.
PLPMDL0020000001	Mayfield	OH	44143	11/25/2013	Quick window call. Dr. You've agreed you will consider learning more about Butrans, we are having a program next month, I hope you will consider attending. I'm leaving this clinical for you that like to discuss next visit. BUP 3024. Ok dr responded.

PPLPMDL0020000001	akron	OH	44333	11/25/2013	Good discussion about Butrans and OxyContin. I reviewed the Scott profile and told dr I'm guessing that he has many patients on 2-4 pills a day? Dr said he does have a few of them. I asked him what the clinical advantage is to titrate or move the patient to another IR opioid if they are complaining of pain around the clock? Dr said he doesn't know but said not all tramadol patients are candidates for Butrans. I agreed with dr and told him to focus on the profile we discussed. Dr said ok and will look more. I spoke about OxyContin for those patients also needing a dose adjustment on Percocet. Dr said ok. Discussed copay cards and insurance coverage on both products and closed with intermezzo indication and patient types.<font color=blue><b>CHUDAKOB's query on 12/18/2013</b></font>Cliff, you are getting into that pill discussion and that is one we want to stay away from. Any time we discuss number of pills, there is an implication that we cannot backup. Does this make sense?<font color=green><b>REICHL's response on 12/19/2013</b></font>I was discussing the pill count when reviewing the Butrans conversions. I understand that I he'd to stay with the total daily dose of IR opioids.<font color=blue><b>CHUDAKOB added notes on 12/19/2013</b></font>OK. I am not sure what you said in the last sentence, Spoke with Cindy- Butrans Initiation/Titration guide along with Desphande Invite for Pharm D'<font color=blue><b>CHUDAKOB's query on 12/09/2013</b></font>Who is Cindy? when you speak with someone, please be sure to put their title as well. We do not know if Cindy is a pharmacist or pharmacy tech.<font color=green><b>GUTKOMA's response on 12/13/2013</b></font>Tech<font color=blue><b>CHUDAKOB added notes on 12/18/2013</b></font>OK. In that case perhaps the Initiation/Titration Guide is more for the pharmacist. You might ask the tech about what her specific job is so you can talk in her language.
	Cleveland	OH	44109	11/25/2013	Visited Dept. Left Butrans/OxyContin Initiation/Titration guides along with Formulary grids for Clinicians(Campbell,Dzowis,Baker, Dhillon,Geho, Gemechu
PPLPMDL0020000001	Cleveland	OH	44109	11/25/2013	Spoke to Jessica and Sue about products. Sue said that they just ordered in more Butrans and out one out this morning for dr shah. I explained the dosing and titration as well as copay cards which Jessica said they give out all the time. Asked about OxyContin stocking and Jessica said that Friday last week was a big day for OxyContin. She said they filled for Oyakawa,shah, and Amanabu. Jessica said they continue to have all doses in stock. I reviewed the conversions and titrations. They still had intermezzo on the shelf but Jessica said they have not moved any.<font color=blue><b>CHUDAKOB added notes on 12/18/2013</b></font>Cliff, remember that we cannot leave co-pay cards with Rite Aid pharmacies per their corporate directive.
PPLPMDL0020000001	Akron	OH	44333	11/25/2013	I told dr to assess his patients on vicoden this week who need a dose adjustment for Butrans. Dr said ok. I told him to titrate to the 15mcg and asked what he thinks of it? Dr said he is ok with using the 15mcg dose. I told him he can titrate to it 72 hours after the last dose was started if necessary. Dr said ok and told me he just prescribed Butrans to a new patient this morning. I told dr that's great to hear and asked if he needed more copay cards? Dr told me to ask Marsha. Marsha Fox said they only have one more left.
PPLPMDL0020000001	Akron	OH	44320	11/25/2013	I asked dr if the patient he told me he was going to start Butrans for has come in yet? Dr said the patient has not but he believes is scheduled for tomorrow. I reviewed the initiation guide and conversions. Dr said he will have someone call me if he has any questions. I reviewed the nancy profile and asked for more business.
PPLPMDL0020000001	Brooklyn	OH	44144	11/25/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia,Reviewed Opioid Naive Trial, asked what 30% pain reduction would mean to his patients, said it was significant, feels his patients are adequately controlled on present therapy but will consider. Reviewed OxyContin Q12h flexible dosing strengths and intermezzo for MOTNA/dosing and Trial/Savings cards
PPLPMDL0020000001	Fairlawn	OH	44333	11/25/2013	Asked dr how he assesses his patients for ER opioids if they are already on short acting opioids? Dr said each patient is different but said that if he knows the patient will need long term pain management he will go to an extended release product. I asked him how he decides which product to go to? Dr said it depends on the short acting. Dr said if the patient is on Percocet he will most likely go to OxyContin. I asked him when that is and he said when the patient needs more than 3-4 pills a day is when he switches them. I showed him the conversion guide and showed him the 20mg Percocet to OxyContin 10mg q12. I told dr to remember Butrans when his tramadol patients need dose adjustments and intermezzo for those patients who complain of middle of the night awakenings.
PPLPMDL0020000001	Brooklyn	OH	44144	11/25/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia,Reviewed Opioid Naive Trial, asked what 30% pain reduction would mean to his patients, said he rarely treats pain, feels his patients are adequately controlled on present therapy but will consider if appropriate. Reviewed OxyContin Q12h flexible dosing strengths and intermezzo for MOTNA/dosing and Trial/Savings cards. Invited to Desphande program,
PPLPMDL0020000001	Cleveland	OH	44114	11/26/2013	Butrans reminder for those Tramadol failures,along with Senokot request. Reminded of the upcoming Desphande program, said OK and fax in his confirmation this week
PPLPMDL0020000001	Stow	OH	44224	11/26/2013	Quick hello in stow office and told him to please continue to tailor the dose for his OxyContin patients and to continue switching his IR oxycodone patients needing a dose adjustment. I handed him the 15mcg Initiation and titration guide and told him to evaluate his Butrans patients for titration to the 15mcg dose. Dr said ok and he really likes Butrans.
PPLPMDL0020000001	Fairlawn	OH	44333	11/26/2013	Short discussion about Butrans patch description, dosing, titration, and all other key selling messages. I asked dr what his philosophy is in treating patient pain? Dr said he doesn't like to do it because its for the specialists. Dr said he mostly treats acute pain and will only give 2-3 months of short acting opioids. Dr said he thinks Butrans is a good product and likes that its a schedule 3 and lasts for 4 days. I asked dr if he will try it out? Dr said maybe if he finds a patient that he is willing to treat past 2-3 months.
PPLPMDL0020000001	East Cleveland	OH	44112	11/26/2013	Reviewed OxyContin/Butrans Initiation/Titration, with Michelle, Asked for LoTaya's recommendations for Butrans
PPLPMDL0020000001	Cleveland	OH	44106	11/26/2013	Left OxyContin/Butrans Initiation/Titration guides Weinstein, Silverman program dir.,Bokar left info requesting appt. Residency/Fellows Program director
PPLPMDL0020000001	Cleveland	OH	44114	11/26/2013	Quick Butrans reminder for those Tramadol failures,formulary reminder, invited to upcoming Desphande program, Senokot request . Said OK and will let me know if he can attend
PPLPMDL0020000001	Cleveland	OH	44113	11/26/2013	Reminded of Butrans for those LorTab failures requiring around the clock analgesia and OxyContin Q12h flexible dosing strengths. Reminded of Desphande program
PPLPMDL0020000001	Fairlawn	OH	44333	11/26/2013	Dr wanted to start talking about Butrans and asked to hear more information about th mechanism of action. I asked why and he said he feels like he needs to know more about how it works. Discussed the Moa from the main visaid and explained tho ages about the mu reception and partial agonist response to it. Discussed. Patient types and discussed scenarios where he would consider Butrans. Dr said he feels like referring for pain patients is much better for him because they are the specialists. I agreed and asked him if he sees patios on tramadol who have been on it for 3+ months and need a dose adjustment? Dr said he does have a few but not many. I explained how Butrans would be a good option. Dr said ok. Discussed OxyContin start principles which he mostly agreed with and said he doesn't use it anymore because it causes too many problems. Dr did not want to discuss. Discussed intermezzo and why it is a. Product he should find patios for. Explained patit types and dosing.
PPLPMDL0020000001	Fairlawn	OH	44333	11/26/2013	Discussed all products over lunch with dr Parisi. Discussed his treatment of pain and dr said that he typically will treat acute or prn pain because he fount like treating chronic pain because that's not his job. Dr said he will refer out like dr Parisi after patients hit 3 months of treatment. I asked dr if he would prescribe an ER opioid prior to referring a patient? Dr said he would usually not. Explained Butrans and where it should be used.
PPLPMDL0020000001	Akron	OH	44333	11/26/2013	Discussed all key selling points and asked for him to just try it. Discussed OxyContin dosing, conversions and asked him to write it for his patients already on IR oxycodone. Intermezzo reminders and patient selection. Stephanie said that the patient she got approved for Butrans told her she would not take it. I asked her why and what the patient said and Stephanie said that the patient told her she was concerned taking it because she has COPD and taking Butrans with it concerned her. Stephanie said she told the patient she was already taking an opioid anyway so Butrans is not different. I told Stephanie to keep trying to continue looking for good candidates and ones that are motivated to use a transdermal patch.
PPLPMDL0020000001	Barberton	OH	44203	11/27/2013	Lunch. Dr asked about managed care, steady state of the product. Reviewed the Scott profile and the dr said he didn't see a lot if these types of patients that require opioids for atc treatment. However, he agrees to try Butrans in the appropriate patient type. Discussed the Scott profile. Review of OxyContin, dr said he doesn't have any on schedule 2 products. Reviewed the molecule and delivery system of OxyContin, discussed intermezzo, and managed care.
PPLPMDL0020000001	Cleveland	OH	44113	11/27/2013	Quick Butrans reminder for those Tramadol failures, Said Ok and will try and find the appropriate patient, asked who he thinks is that" patient and he said, hel will consider
PPLPMDL0020000001	Akron	OH	44320	11/27/2013	Spoke. Dr about how she identifies patients that need a change in pain therapy. Dr said its not easy and she doesn't like prescribing ER opioids but said she likes Butrans. Dr said that she has a couple of patients that she is thinking of starting Butrans who are both on vicoden. I told dr that vicoden patients are good candidates and explained the profiles. Discussed with dr to write OxyContin for those patients already on IR oxycodone who need a dose adjustment and explained dosing flexibility and conversions.
PPLPMDL0020000001	Akron	OH	44313	11/27/2013	R came to window and said that he thinks he has a patient for Butrans. I asked him to tell me about it and dr said that the patient is on vicoden and wants more. I asked him what the current dose is and he said he thinks the patient is at 30mg/day. I asked dr if the patient is in chronic pain and dr said yes. I told dr it sounds like a good candidate and that in the clinical trial of experienced patients wi opioids 62% of them were on hydrocodone combinations. I showed him the conversions scale and told him the patient needs to be started on the 10mcg dose. Dr said ok and asked about insurance. Reviewed the formulary grid with him. Discussed OxyContin and asked him to continue prescribing it for his Percocet patients needing a dose adjustment.
PPLPMDL0020000001	Cleveland	OH	44113	11/27/2013	Visited Anes/Pain Dept
PPLPMDL0020000001	Valley View	OH	44125	11/27/2013	OxyContin/Butrans reminder, Butrans 15mcg/hr dosing presentation. Invited to upcoming Desphande program, Said he will check schedule
PPLPMDL0020000001	Barberton	OH	44203	11/27/2013	Saw dr...asked her what her perception of Butrans pain control is. She said its an opioid, so it must be ok. I reviewed the open lable of the pain results of the naive study.
PPLPMDL0020000001	Barberton	OH	44203	11/27/2013	Saw dr thru the window. Dr asked if I could go to this other location inside the hospital and make sure they have coupons of Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	11/27/2013	Quick Butrand reminder, 15mcg/hr, formulary coverage, said Ok
PPLPMDL0020000001	Akron	OH	44312	11/27/2013	Dr said he may have a patient for Butrans. I asked dr for more information and he said he thinks the patient is taking about 30mg of vicoden a day and he doesn't want to give the patient anymore. I showed dr the conversions chart and told him to start the patient. I told him that he can also provide an IR opioid or non opioid analgesic for supplemental analgesia. Dr said he will let me know how it goes. Discussed OxyContin doses and patient types. I asked him to keep writing. Nothing else learned.
PPLPMDL0020000001	Mogadore	OH	44260	11/27/2013	Quick discussion about Butrans as he was behind with patients. Dr said h continue to find good success with Butrans and said he didn't know about the 15mcg dose. I told him we have discussed it and have left literature on it. Dr said he vaguely remembers and is happy with the 15mcg addition because he said a couple of patients may need it. Discussed steady state, decision tree and patient types. Dr said he will continue to prescribe.
PPLPMDL0020000001	Akron	OH	44333	11/27/2013	Dr Vucetic asked me if there have been report of vomiting while on Butrans if a patient has alcohol while on it? I told dr there is nothing in the full prescribing information about that and read to him the section on CNS depressants and alcohol consumption. Dr said a 87 yr old male on 10mcg of Butrans had an alcoholic beverage and had severe vomiting. Dr said the patient removed Butrans and recovered. I asked if this is specific to the 20jcg dose and if it happened on the 5mcg dose. Dr said the patient claims he has never had any alcohol with Butrans prior to this incident. I old dr I was going to report it and he said its a good idea. I told dr to find patients needing 15mcg dose and to titrate accordingly. Asked dr to find patients under 65yrs old who may be candidates and discussed copay cards. Dr said the protocol of Butrans continues to be in place and his new pa Elise is following it and is a fan of Butrans. Dr said he will continue to prescribe OxyContin but said he really like Exalgo because its QD. I explained to dr to use OxyContin for those patients already on oxycodone.
PPLPMDL0020000001	Mogadore	OH	44260	11/27/2013	First time meeting new NP in the practice with dr Cain. Theresa said that dr Cain has been telling her about Butrans and she was going to use it the other day but said she didn't know enough about it to write it. I discussed a all key selling principles for Butrans along with patient types, patch description, application sites, safety, clinical trial inclusion and exclusion data nd conversions. Theresa said that she feels much better about it and will start writing for it when those patients we discussed need an adjustment in analgesia. Talked about OxyContin briefly along with patient types and conversions. Closed with intermezzo indication, dosing and limitations if use.
PPLPMDL0020000001	Barberton	OH	44203	11/27/2013	Reviewed dosing of Butrans and patch placement. No 15mcg of Butrans stocked oxycontin is stocked but limited doses. Reviewed the delivery system and dosing q12h.
PPLPMDL0020000001	Cleveland	OH	44113	11/27/2013	Quick OxyContin reminder, Q12h, flexible dosing strengths, said he is an confident prescriber and also likes Butrans for that Tramadol failure requiring around the clock analgesia
PPLPMDL0020000001	Barberton	OH	44203	11/27/2013	Lunch. Dr didn't want to participate, she said anything new. I said not if I don't know the appropriate person to write Butrans for...she said its a patch right. I said, it a sing,e entity buprenorphine transdermal pain patch schedule 3....which means you can write for refills. She asked when it came out. I told her. Told her the ideal patient is the Scott profile. Dr said she doesn't treat Chronic pain. I said understood. However even if u see one this month I feel they deserve a shot at Butrans, if appropriate. I gave her initiation and Scott profile to review.
PPLPMDL0020000001					

	Barberton	OH	44203	11/27/2013	Lunch. Dr said he was having luck with Butrans in his older patients in the nursing homes that have atc chronic pain. I asked him if he has initiated Butrans from the office and he said no. I said why not. He said he doesn't remember to write it but said he should try harder. We talked about the delivery system of Butrans and the 4 patches a month. Dr said that was Butrans biggest feature. I said I would think it would be the pain control. Dr talked about abuse potential with Butrans and is formed him Butrans still could be abused and tee forced the schedule 3. Dr said he would usually go to Tramadol before Butrans or another schedule 3 product. I said I fun believed the paint is having atc pain for an extended period time what would be the Down side to starting Butrans, dr said nothing but he was inthenhabito going to schedule 3 products after Tramadol. We talked about the Scott profile, reviewed initiation of Butrans and the dr said he would use Butrans when appropriate. Reviewed managed care, coupons. Dr said he writes OxyContin but not as much. I said OxyContin is a single entity oxycodone molecule dosed every q12h. I asked if he was aware we had 7 different strengths. We reviewed the George profile of OxyContin visual aid. Dr said he is less likely to write OxyContin in this patient and he could see himself writing Butrans. We reviewed the initiation guide. Also discussed intermezzo, dosing and indication.
PPLPMDL0020000001	Westlake	OH	44145	12/2/2013	Lunch.discussed all three products. Dr said he wrote Butrans for a patient in the office recently and it went thru insurance fine. Discussed the coupons for all products,dr said he has to remember the coupons. Reviewed the Scott profile and the dr said he will keep it in mind for the appropriate patient.
PPLPMDL0020000001	Westlake	OH	44145	12/2/2013	Dr said what's new? I handed him a sample of the Butrans patch and we discussed how long Butrans has been in the market and I wanted to giving him the appropriate patient type for Butrans. We discussed the Scott profile. How to dose, where to apply the patch. Dr said...ok he will then abut it and walked away.
PPLPMDL0020000001	Cleveland Hts	OH	44118	12/2/2013	Reminded of OxyContin Q12h flexible dosing strengths, showed formulary coverage, said he continues to prescribe accordingly. Reviewed Butrans 15mcg/hr dose presentation, said patients like PO, short acting but will continue to find appropriate patients to try Butrans.
PPLPMDL0020000001	cleveland	OH	44135	12/2/2013	Gave coupons to the nurse to give to the dr. Nurse said access will be hard unless the dr wants to see me directly regarding product.
PPLPMDL0020000001	Cleveland	OH	44195	12/2/2013	Secured appt with Dr. T. Gutsell, Left Butrans/OxyContin with Michelle
PPLPMDL0020000001	CLEVELAND	OH	44195	12/2/2013	Responded back from Email requesting appt. to discuss Butrans/OxyContin Spoke with Michelle Wells (Nurse-Admin) confirmed appt for Dec.11th.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/2/2013	Short discussion about Butrans patient types and what he's seeing in his practice. Dr said he sees Butrans as a no brainer for patients who need more than a short acting opioid. Dr said that he talks to patients of his about Butrans when he doesn't want to give them any more short acting and have a chronic condition. Dr said his patients really like it and said that his patients have proven that it works. I discussed the Kathy profile and asked him to continue identifying the right patients. Discussed intermezzo and dr said that he has written it at least 100times but it's not covered and patients don't want to pay for it. I asked him to continue to look for private
PPLPMDL0020000001	Westlake	OH	44145	12/2/2013	Saw dr thru window...I asked if he had a chance to pass out any Butrans coupons. Dr said nt yet and walked away. Spoke to ma and she said dr hasn't written any Butrans yet.
PPLPMDL0020000001	Westlake	OH	44145	12/2/2013	Spoke to Megan the ma and discussed if dr has tried Butrans yet. She said she didn't now and we talked about managed care. Saw dr thru window, said hello and told him I was here checking on how his Butrans patient are
PPLPMDL0020000001	Akron	OH	44333	12/2/2013	I handed dr the formulary grids for Butrans and OxyContin. I told dr to please remember both Caresource and BWC for Butrans and Medicare D and private prescription insurance for OxyContin. I reminded dr about the Caresource PA. Dr said thanks and I need to keep telling him and Marsha about Caresource. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/2/2013	Dr asked me for a review of Butrans again. I first asked dr what he's currently doing for his patients needing a dose adjustment on tramadol? Dr said that he isn't seeing many yet but said he remembers me talking about Butrans as an option for those patients. I told him that's true and discussed Scott profile, dosing, titration, conversions, and indication. Dr said he likes that's its a schedule 3 and for 7 days. I asked dr if he sees himself using it? Dr said for sure and said he's glad its out there because drs need more ER options and schedule 2 medicines. I asked for him to try it and reviewed insurance and copy cards. Introduced intermezzo, showed him the demo packs, copy cards and patient identification. He said it sounds like a great drug but knows its hard for patients to get. I showed dr the formulary grid and copy cards with 5 free pills.
PPLPMDL0020000001	Akron	OH	44313	12/2/2013	Dr said he refilled his patient on Butrans last week and said the patient is doing well and really likes it. I told dr to take a second to evaluate more patients on IR opioids for the option of Butrans. I showed him the conversions scale and discussed proper starting dose and titration. Dr said he understands and will look. I told him to continue prescribing OxyContin for those patients failing Percocet. Dr said ok.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/2/2013	Good discussion with dr over lunch about Butrans and intermezzo. I discussed the hydrocodone insight and asked him what he's currently doing for patients that are ongoing on hydrocodone? Dr said many don't have good insurance or Medicaid and so sometimes he has no choice but to continue their hydrocodone. Especially if it's working. I told dr I agree if they are controlled and don't need an adjustment to maybe maintain the course. I asked dr what he thinks the price is for his private insured patients? Dr said he didn't know but for that population it will be more reasonable. I told dr that's correct and discussed the insurance coverage, trial offer and copy cards. I also asked him if he has Caresource? He said he does but not much. I discussed the Caresource PA. Dr said he's impressed and will start thinking about Caresource patients. I also reviewed Medicare D coverage. I asked dr to continue writing for the appropriate parity and to titrate and use supplemental analgesia if necessary. Discussed intermezzo indication and dosing and reviewed the patient profile book. Dr said he will keep his
PPLPMDL0020000001	Cleveland	OH	44109	12/2/2013	Visited Dept. Invited Harris,Huang and Malamaki to Desphande program. Dist. Butrans Kathy profile along with OxyContin Initiation/Titration guides. Left message for Vanessa in regards to appt. opportunities
PPLPMDL0020000001	Cleveland	OH	44109	12/2/2013	Visited Metro Depts. PMR,IM and Oncology. Butrans/OxyContin Initiation/Titration guides and invited appropriate HCP's to upcoming Desphande program
PPLPMDL0020000001	Cleveland	OH	44109	12/2/2013	Visited Dept. Invited Dr. Gelehrter, Harrington, Jones and Lindheim to Dr. Desphande program. Dist. Butrans Kathy profile and OxyContin Initiation/Titration guide
PPLPMDL0020000001	Cleveland	OH	44109	12/2/2013	Visited Dept. Invited Obrien and Crum to Desphande program, Dist. OxyContin Initiation/Titration guides
PPLPMDL0020000001	Fairlawn	OH	44333	12/2/2013	Gilbert said that he had a patient in f of Fouads this morning on Butrans 10mcg and said that she thinks she needs more pain control. Gilbert said he recommended that she titrate to the 15mcg dose and called dr Fouads office to get approval. Dr Fouad called in the 15mcg dose and patient walked out this morning with a Butrans 15mcg dose. I told Gilbert that I sincerely appreciate taking the extra step and making this happen. I discussed the Kathy profile with him and the importance of reevaluating hydrocodone patients for Butrans. Gilbert said its an easy sell and he really likes Butrans. Discussed OxyContin and dosing which they have all doses of. Intermezzo indication and dosing. Gilbert said they have both doses but have not dispensed any recently.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/2/2013	Dr told me that I convinced him the last time we spoke to prescribe Butrans. I told dr that its great to hear and asked him for more information. Dr said he has prescribed it 3 times for patients on vicoden. I asked him if the patients complained or he introduced it? Dr said that he brought it up to the patients because vicoden wasn't working well enough and said all three patients had been on it for too long. Dr said that his patients really like it and all have private insurance and used the copy cards and trial offer. I told dr that's great and showed him the Kathy profile and discussed conversions and titrations. Dr said he will continue prescribing. Discussed intermezzo dosing, indication, and patient identification.
PPLPMDL0020000001	Westlake	OH	44145	12/2/2013	Follow up, dr said she just write Butrans 5 united healthcare patient. It needed a prior authorization but went through. The dr asked about patch placement, I reviewed the 4 approved locations and also to wait 21 days before going ba k to the same site. Disk used titration after a min of 3 days. She said the patie t has been on it over a week so far and she will see back in a m th but so far no calls from the patient.
PPLPMDL0020000001	Cleveland Hts	OH	44118	12/2/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h flexible dosing strenths, Said OK will keep in mind
PPLPMDL0020000001	Akron	OH	44312	12/2/2013	Quick hello at front counter and told him when he's confronted with a patient on Percocet and needs a refill to take a minute to determine if they would be appropriate for q12 OxyContin. Dr said ok and sounds good. I also told him to take that extra second with a patient on tramadol to determine if they are suited for the 7 day Butrans patch. Dr said he knows he needs to use it. I told dr to use it and allow it to speak for itself.
PPLPMDL0020000001	Akron	OH	44310	12/3/2013	Told dr to focus on the patients we discussed the last couple of times which is patients currently on hydrocodone combinations and need a dose adjustment. I asked him why in e last has he chosen Butrans for those patients? Dr said because the patients he felt would be ok with a patch instead of a pill and he didn't want to give any more short acting for a chronic pain. I told dr to please continue looking for similar patient criteria he did in the past and had success. Dr said ok he will.
PPLPMDL0020000001	CLEVELAND	OH	44195	12/3/2013	Discussed OxyContin dosing strengths along with Butrans for those patients requiring around the clock analgesia. Troy RPH said they are seeing an increase utilization of the 40mg and 60mg of OxyContin and will continue to remind clinicians of Butrans
PPLPMDL0020000001	Cleveland	OH	44195	12/3/2013	Visited Dept. Verified with Dr. Maheshwari, fellows attendance to upcoming Desphande program. (Guirguis,Dadabayev,Said,Sandhu,Travnicek and Namiranian)
PPLPMDL0020000001	Cleveland	OH	44195	12/3/2013	Visited both Anes/Pain and Tausig cancer center. OxyContin and Butrans info and confirmation of fellows to upcoming Desphande program
PPLPMDL0020000001	Westlake	OH	44145	12/3/2013	Victoria said a discount drug mart pharmacist called and said that the 15mcg didn't exists. she couldn't remember which pharmacist or which location. But i did verify the 15mcg is currently available. Reviewed all the current dosages.
PPLPMDL0020000001	Waterford	OH	45786	12/3/2013	I-Butrans dosing, managed-care and co-pay cards. OxyContin dosing and managed-care. Intermezzo indication. W-said that she has a lot of success with Butrans. Said that the formulary coverage becomes her biggest obstacle.
PPLPMDL0020000001	Westlake	OH	44145	12/3/2013	Reviewed the mcg available with will the pharmacist. He said he has never seen a script of Butrans come thru so he wouldn't stock any. Reviewed the indication and patch placement. Discussed OxyContin and intermezzo. Will said he never heard of intermezzo, we reviewed the dosing for men and women and the indication.
PPLPMDL0020000001	Westlake	OH	44145	12/3/2013	Saw dr. he said you are back again. I said I wanted to make sure your Lakewood office is well stocked with Butrans information and savings cards for your patients. He said thank you.
PPLPMDL0020000001	Lakewood	OH	44107	12/3/2013	Spoke to the katie, she said they havne't tried butrans since my last lunch. We reviewed the savings cards.
PPLPMDL0020000001	Westlake	OH	44145	12/3/2013	Spoke to office manager and tried to schedule an apt to talk with the dr but she said I would have to come back. Told her what products products I promoted and gave her approved materials for the dr to review.
PPLPMDL0020000001	Waterford	OH	45786	12/3/2013	I-Butrans dosing, managed-care and co-pay cards. OxyContin dosing and indication. Intermezzo indication and administration. W-said she will look over the information.
PPLPMDL0020000001	Lakewood	OH	44107	12/3/2013	Saw dr in hallway. I said hello, he said he was just talking about me a few mins ago. I said hope that's a good thing. He said the girls were inside prior authing a butrans script right now. Dr said he was heading out for a late supper but will return in an hour. Dr told me to schedule a lunch.
PPLPMDL0020000001	Lakewood	OH	44107	12/3/2013	Spoke to ma upfront, I said I hear he wrote a scrip. she said she did the p. authorization. I said what plan, she said Caresource but it was easy and it took no time at all. I said that's great to hear and thanked her for taking the time to do that. she said the patient had been on many short acting products prior to Butrans and is scheduled to see the doctor in 30 days. I left Dr. Orra many approved butrans pieces (such as the scott profile/initiation guide)/and managed care grids).
PPLPMDL0020000001	Cleveland	OH	44124	12/3/2013	Spoke with staff & found out dr c also has new west side office where he's at 1-2 days per week. They are moving to a new space (in 2014, after January get address & forward to appropriate rep to add into Phoenix), Spoke with Rinatta. Left conversion titration guide, a tool to assist with conversion from short actings. Left 12/11 invite for dr c. Left urine panel flashcard & OARRS flashcard. Discussed addition of Butrans 15 mcg hr dose, allowing greater flexibility with 4 strengths.
PPLPMDL0020000001	Cleveland	OH	44195	12/3/2013	Visited Tausig Center. Confirmed appt with Gutsell, invited to upcoming Desphande program. Left OxyContin/Butrans initiation/Titration guides and invites to upcoming program for Davis also
PPLPMDL0020000001	Mayfield Heights	OH	44124	12/3/2013	Jesse states hasn't dispensed OxyContin since the re formulation. When product was OC he had several scripts. After re formulation, scripts took a " nose dive." I responded I'm surprised you don't have any customers from pain mgt HCPs over @ Hillcrest. He says I'm surprised as well. I let him know efficacy was not compromised when OxyContin was reformulated. Should you have any future scripts, I will leave you with this these tools to assist you with customer education; left pharmacists guide & Conversion titration guide. Next discussed Butrans now available in four strengths. Left him NDC brochure & FPI. Discussed Butrans pharmacy guide, and tools available to assist patients with proper application & disposal ( med guide) Intermezzo - Facebook & website for patient education. No Intermezzo dispensed. Asked him if they are part of RELAY HEALTH, offering point of sale savings to customers, YES, he responded.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/3/2013	Asked dr to tell me about how some of his patients are finding success with OxyContin. Dr said that its become more and more difficult to get it covered but said that he does use it and asked if I've noticed how he has been using more recently? I told him I know he uses it and I said I hope he is finding success and reminded him to titrate every one to two days if necessary. Reviewed managed care with Liz and asked dr for continued

	South Euclid	OH	44121	12/3/2013	Met with both nurses (RN) Ann & Rita. They were off thurs & fri, so could only given me a few minutes. asked to see either dr, not possible, they are both in physicals. Asked if they need any resources for MOTN insomnia awakening patients. Rita checked sample area, they had a few Intermezzo samples that expired, asked for trial, savings cards. Left re assess your patients brochure for each dr, showed RN s questions drs can ask patients to distinguish MOTN from sleep onset. OxyContin, left conversion, titration guides. Also OARRS resource flashcard. Butrans, left new 4 strengths dosing flexibility brochure. Reminded nurses of Butrans indication, asked if he are aware of drs initiating for pain patients? None that they are aware of. Well we are having speaker come in from Columbus& this program would be a great opportunity to learn more about this transdermal system. I will stop back soon to follow up with the doctors.
PPLPMDL0020000001	Cleveland	OH	44103	12/3/2013	Discussed Butrans for those Tramadol failures requiring around the clock analgesia. Reviewed Kathy Profile, agreed she has patients similar but reiterated she is not prescribing any new RX's per Med. Dir. of Clinic. Reviewed Intermezzo for MOTNA/dosing and Savings card
PPLPMDL0020000001	Cleveland	OH	44195	12/3/2013	Spoke with Roxanne RPH about OxyContin Q12h flexible dosing strengths and Butrans 15mcg/hr dose presentation. Said thank you and will watch for any new utilization of products
PPLPMDL0020000001	Lakewood	OH	44107	12/3/2013	wrote an adverse report- both the ma and the doctor asked if Butrans causes kidney failure. I gave them an fpi to review and told them i write the information to the company. Discussed patch placement, doctor asked if a patient could put it at a site of pain. I explained according to our studies it is only approved in the 4 location as shown on the visual aid. Dr said he understood. Dr asked if someone could take an nsaid along with Butrans. I referred back to the naive study for reference to this. Dr asked what was the max dose. Reviewed all the dosages and reviewed the initiation section of the core visual aid. Dr asked about the tramadol patient not controlled moving to butrans (showed the initiation guide). Dr asked how Butrans compared to Fentanyl. I said no head to head. Reminded the schedule 3 of Butrans also referred back to the initiation guide. Dr said he uses OxyContin only on occasion. Reviewed the indication of Oxycontin and the limitations of OxyContin. Dr was unaware of the reformulation so this information was shared and the approved literature pieces was left bedhead for him as reference. Discussed the managed care with the staff. They asked about workers comp. I didn't know the answer, told them i would return with the answer. discussed intermezzo. dr said he never uses anything like the product. But did review indication and dosing.<font color=blue><b>CHUDAKOB added notes on 12/18/2013</b></font>-Lisa, when you hear an AE please include it in the call note as well. Remember that Butrans can be given ti patient with any type renal issues as it is not eliminated through the kidneys
PPLPMDL0020000001	Olmsted Falls	OH	44138	12/3/2013	Discussed the 15mcg of Butrans. Pharmacist was aware it was available but they are not stocking it but can get it in with in 24hours. Discussed patch placement, per the fpi. Reviewed oxycontin q12h and the 7 doses. Also touched on the dosage for men/women/elderly for Intermezzo along with the indication.
PPLPMDL0020000001	Lyndhurst	OH	44124	12/3/2013	Dr Isakov we've Discussed initiating Butrans after Tramadol. I've provided you with efficacy data & pain reduction scores. You've mentioned you've tried to get Butrans through a few times, but nt covered on patients plan. If we can put access aside, do you feel Butrans is a good option for pain? Yes he replied. This week I'd like you to think about a few patients on Medicare D Express Scripts. Medco or Cigna where Butrans has preferred status. Is that fair? Dr replied yes. I handed him the OARRS flashcard & he says they've been using OARRS for years, he believes they were one of frat office s to use. They use on daily basis. He pulled MA Diane aside & asked her how many OARRS do we pull a day? Diane responded I've pulled 5 so far today. Great,you're doing the right thing. I then presented OxyContin as an option after a patient has been on immediate release Vicodin or Percocet. What triggers you to convert to an extended release? How many pills? Do you have a limit you set for patients? I treat each case differently, if they need extended release for extended time, that's when I refer over to dr salama. That's great I responded. I'd like to discuss next visit what specific opioids your patients are on when you refer out to dr salama. Sound good? Yes replied dr. I then asked which OTC laxative he prefers & mentioned all we have in our OTC portfolio. He says he has younger patients take Metamucil daily, nursing home patients Colace100 mg, others he just started using RX Linzess.
PPLPMDL0020000001	Lyndhurst	OH	44124	12/3/2013	Quick hallway detail. Reminded her of previous conversations. Went over efficacy & pain reduction scores & asked her to initiate as first opioid or after 3-4 Tramadol. Reminded her of her concern for her Med D patients having access to Butrans, Butrans is preferred Medco Express Scripts & Cigna Med D. The next visit, I'd like to share commercial coverage details & show you how Trial, savings works, and patch demo. Sound good? She replied yes. Thanks for the info.
PPLPMDL0020000001	Lyndhurst	OH	44124	12/3/2013	Quick hallway call. Dr Kim we discussed patents on short acting opioids who you write a q 6 h script for. I asked you how likely it is that those patients are following a q 6 h plan. I'm not talking about them taking 4 times a day, I'm talking about them following a q6 h plan, as they would have to set an alarm overnight to take their Percocet or Vicodin, right? Possibly dr Kim replied. And howoften are these same patients waking up with pain & taking a pill right when they wake up? good question he responded. Can you see how an extended release product could benefit his type of patient? The patient. Would take one OxyContin around 8 am and one OxyContin around 8 pm. No need to to set an alarm. I just want you to challenge you to re assess your patients and make a change when necessary. The next time I visit, I'd like to continue this discussion. For your BWC patients, keep Butrans too of mind. For your MOTN awakening insomnia agents, we have Intermezzo, with as needed indication. Ok thank you, he walked into next patient room. ( unlikely he will attend 12/11 program, as he was just @ Lola LAST WED)
PPLPMDL0020000001	Akron	OH	44312	12/3/2013	Dr Isakov can't make 12/11 as he has board mtg
PPLPMDL0020000001					While speaking to Karla, one of dr Lonsdorfs nurses dr came up because he said he heard Butrans. Dr asked me about the QTC prolongation with Butrans and asked me to explain it. I showed dr the FPI and told him that in a clinical trial the QTC was prolonged when 2- 20mcg patches were applied at the same time and that is recommended to not exceed one 20mcg patch. I also told dr it is not recommended to apply more than one patch at a time. I asked dr if he has a patient he's concerned with? Dr said no but said he came across it while looking over some information. I told dr to take the copy of the FPI to refer to and that his question is a valid one. I asked dr to continue writing and he said he is continuing to be very selective but likes Butrans.
PPLPMDL0020000001	Cleveland	OH	44195	12/3/2013	Confirmed CCF Fellows to Desphande program (Dr.Guirguis, Dadabayev, Said, Sandhu, Travnick and Namiranian MD's) Discussed Butrans for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h flexible dosing strengths. Said will keep in mind, he has completed his fellowship and will be leaving CCF and will be leaving CCF and will be leaving practicing over at the VA
PPLPMDL0020000001	Cleveland	OH	44103	12/3/2013	Discussed Butrans and the Kathy profile again, agreed he has patients similar and feels that Butrans would be appropriate to try but feels he doesn't have the time to do PA,or change medications. Asked if Val or Laura could help and he said they cant, but will consider. Reviewed OxyContin Q12h flexible dosing strengths.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Lunch. Dr said after NSAID failure to treat pain he will turn to a cox 2 product , after which he will turn to Tramadol but not that often more likely to use vixen for shorter periods of time. We discussed limitations if Butrans. And reviewed the inclusion criteria and the naive study. Discussed OxyContin,he doesn't wrte much schedule 2 opioids. Dr said he might try intermezzo after review of the materials.
PPLPMDL0020000001	North Olmsted	OH	44070	12/4/2013	Lunch. Discussed Butrans what it is, the strengths, indication. Dr asked if it was a 3 day. Reviewed it was a 7 day patch. Discussed the inclusion criteria and the pain results of the naive study. Dr said he doesn't treat much pain patients but will keep it in mind for the appropriate patient. Dr was familiar w OxyContin and the reformulation. Reviewed intermezzo indication and dosing.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Lunch. Dr said he will consider Butrans after NSAID for appropriate atc pain patients need ing opioid therapy. Reviewed naive study and dosing. OxyContin....q12h dosing and the appropriate patients according the man visual aid. Review of intmezzo.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Left intermezzo approved materials behind. Reminded on dosing for gender.
PPLPMDL0020000001	Cleveland	OH	44125	12/4/2013	Quick Butrans/OxyContin review with Linda/Tech, no savings cards needed
PPLPMDL0020000001	North Olmsted	OH	44070	12/4/2013	Reviewed mcg dosing. Not stocking Butrans 15mcg. Reviewed patch placement and how discard Butrans after use, according the fpi.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Saw dr thru window. Reminded him of the assessment patients with uncontrolled atc pain with Butrans.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Spoke to dr about the 15 mcg. Left him information
PPLPMDL0020000001	Copley	OH	44321	12/4/2013	Quick follow up from out last discussion about patients on hydrocodone combinations. I showed him the Kathy profile and reviewed it. Dr said I already discussed it with him. I told him that it bears repeating because patients similar to the profile he has in his practice and asked him what would be the downside to writing Butrans for those types of patients? Dr said he doesn't know but he will continue to try and find a good patient. I reminded him of the formulary coverage and copay cards.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Spoke to Jen about Butrans, she took my information and we discussed managed care.
PPLPMDL0020000001	Cleveland	OH	44113	12/4/2013	Quick Butrans/OxyContin reminder, confirmed attendance to Dr. Desphande Program. S
PPLPMDL0020000001	Akron	OH	44313	12/4/2013	Dr saw me at the window and asked me how the coverage is for Butrans? I asked dr which plans are most important to him? Dr said he has a lot of Medicaid. I asked if many of them have Caresource and he said yes. I explained the Caresource PA and dr said he's impressed. I showed him the Kathy profile and told him to look for patients similar to her and reviewed the criteria. I asked dr if he will start writing now and he said he will. I gave him the OxyContin conversion and titration guide as well and asked him if he also has patients on Percocet? Dr said yes. I told him it should be appropriate for many of those patients in his practice to be switched to the ER oxycodone if they need a dose adjustment. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Garfield Hts	OH	44125	12/4/2013	Visited Ortho/Surgery/Pain Mgmtm Depts. OxyContin/Butrans Initiation/Titration guides. Invited to upcoming Desphande Program
PPLPMDL0020000001	Cleveland	OH	44113	12/4/2013	Reviewed Butrans formulary status with Eissa, Positioned Butrans for that Tramadol failure, who is requiring around the clock analgesia, Said Ok, will relay info to Dr.
PPLPMDL0020000001	Westlake	OH	44145	12/4/2013	Saw dr he said he will use Butrans when he has an NSAID patient that is uncontrolled and needs atc opioid. He said he doesn't use Tramadol after NSAID that it will either be a short acting vikodin for a few days or an extended release option for patients who are chronic. Discussed OxyContin. Q12h, asked if he would ever s sider oxy to after NSAID and he said n never. When. Asked why, he said perception that its too strong and ts scheduling but he wouldn't. Reviewed the single entity and dosing strengths available. Discussed intermezzo. Dosing and indication.
PPLPMDL0020000001	Stow	OH	44224	12/4/2013	Conducted Butrans inservice for drs and residents in the stow location. Discussed all key selling messages for Butrans, patch description, FPI review,mechanism of action, pharmacokinetics, clinical trials, and insurance and copy information.
PPLPMDL0020000001	Hudson	OH	44236	12/4/2013	Conducted Butrans inservice for drs and residents in the stow location. Discussed all key selling messages for Butrans, patch description, FPI review,mechanism of action, pharmacokinetics, clinical trials, and insurance and copy information.
PPLPMDL0020000001	Hudson	OH	44236	12/4/2013	Conducted Butrans inservice for drs and residents in the stow location. Discussed all key selling messages for Butrans, patch description, FPI review,mechanism of action, pharmacokinetics, clinical trials, and insurance and copy information.
PPLPMDL0020000001	Cleveland	OH	44102	12/4/2013	Reviewed OxyContin Q12h flexible dosing strengths with Ed (RPH), Butrans for those patients requiring around the clock analgesia.Said Ok and is still trying to work with Prescribers. Invited to upcoming Desphande program
PPLPMDL0020000001	Mayfield Village	OH	44143	12/5/2013	Lunch. First time meeting dr sayheg. She just started 3 days ago ( mon dec 2) quick introduction of 3 branded products. Asked her to read BUP 3024 for Butrans so we can discuss next lunch. Left OxyContin slim Jim Butrans mktg piece invite 12/11 program. Intermezzo re assess your insomnia patients brochure. Dr agreed to read over clinical & info left.
PPLPMDL0020000001	Westlake	OH	44145	12/5/2013	Breakfast. Discussed where she currently uses OxyContin. Dr said he only uses it for her more severe chronic pain patients. So must believe it works then, she said its been out a long time. I said great. I asked since she feels its works so well why she wouldn't try a different dose for a moderate pain patient that still requires atc pain q12h. She said she might. Reviewed dosing and delivery system of OxyContin. Wheni asked what her pain algorithm was she said she turns to Tramadol after NSAIDs do the trick. We discussed the appropriate patient type for Butrans using the naive study inclusion criteria and matching it with the Scott profile. Dr said she could see why Butrans would be written by primary care doctors. When I asked her to explain she said Butrans nitch was that its not a pill and its not as abuseable as vikodin. I made sure to tell her Butrans still had abuse potential, it was a schedule 3 opioid. Dr understood. I said what I like to point Out is the pain scores with patients never on a opioid from our study and my goal was that eventually she will feel confident to try and see results for her patients. We talked about the managed care, she asked about med d. Also discussed intermezzo. Reviewed coupons.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/5/2013	Spoke with Cindy and asked her if she sent in her rebate for ordering the 15mcg dose? Cindy said she did send it in in time but hasn't gotten her rebate back yet. I asked how much they have been seeing and she said not much recently and have not moved the 15mcg dose yet. I reviewed formulary coverage and copay cards for all products. I told her to continue stocking all OxyContin doses and reminded about appropriate patients. I also told her an intermezzo dosing and indication. Cindy said she just recently sent back the packs she had.
PPLPMDL0020000001					

PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/5/2013	Saw dr in Cuyahoga falls office and handed him and Jake Sisko the pice on determining the appropriate patient for Butrans piece. I started by telling him the inclusion criteria for opioid experienced patients. D All said he is seeing good success w it and his patients are telling him they love it. I old him that's great to hear and discussed how to decide when to titrate through all 4 doses of Butrans. Dr said he will continue wot write and asked me to remind him of the Caresource coverage which I did. I reviewed the dosing of OxyContin and told him to continue using it for his patients are already on the IR oxycodone molecule. Dr said ok.
	Westlake	OH	44145	12/5/2013	Discussed OxyContin and Butrans delivery system and scheduling. Dr said he liked the twice a day dosing. I clarified it was q12h for OxyContin. I asked why he wouldn't pick OxyContin after an NSAID failure. He said he reserves OxyContin for more sever patients. I said u must believe it really works huh. He said oh yes, it is the best for pain. I asked he was aware it had 7 doses. He said yes...we reviewed the tailoring aspect of the start principal. He said he would go Tramadol before a scheduled product. I asked why. He said safer. We we t over the naive study, pain results and safety. I asked him after all presented what he thought of Butrans so far. He said he is going to use it. I said who is coming to mind. He said his Tramadol patients cause he hates to write vikodin. We reviewed abuse potential for Butrans. We also talked about how patients manage their pain currently. He said they are non compliant. I said are u saying they don't take their medication like u tell them but they still expect the product to work. He said yes. We talked about how medications can work if they don't take it. Dr laughed And said he deals with those issues daily. I referred to Butrans being dosed once a week. 4x a month. I said how would a product like Butrans would fit into his practice for those around the clock pain patients? He said he thinks it will be a fit and agreed to write it this week or upon his next pain assessment patient given the appropriate patient type. Reviewed intermezzo.
PPLPMDL0020000001	Westlake	OH	44145	12/5/2013	Breakfast. Invited to Butrans dinner program. Discussed Butrans aftertramadol and the dr said he would tryt there for the appropriate patient. Discussed the Scott profile and used the naive study to back up pain results. Did seemed ok with the materials presented and was untested in a usability and side affect profile. Discussed both points. Talked abut the abuse potential, Butrans schedule 3 opioid ranking. Also discussed adverse reactions from the naive study. Talked about invitation. He asked how to start a patient from hydrocodone to butrans. Showed the chart. Dr said it made sense. Asked if he could use Butrans in the patient type we discussed and he said yes. Also talked on OxyContin and intermezzo. Intermezzo was more on indicatin and dosing.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	12/5/2013	Saw dr as she was coming in this morning. I asked her if she would look for patients on tramadol or hydrocodone today who need dose adjustments and to think of Butrans as the solution? Dr said she likes Butrans and that's where she typically uses it. I reminded her of Caresource PA. Nothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	12/5/2013	Spoke to Lori the pharma its and bill the tech. They stock the Butrans but didn't tell me which strengths. Re,inded her about the latest 15mcg dose for Butrans. Educated in how to apply and discard. Also informed about the coupons available. Talked about OxyContin...she said theris a lot of percocets written in the area and dosed often, the pharmacist told me it makes nonsense why they wouldn't be on OxyContin. We touched on intermezzo, dosing and indication.
PPLPMDL0020000001	Uniontown	OH	44685	12/5/2013	I led off the conversation with 2 insights. The first was the hydrococone insight and 41% statistic. The other was about the start principles. I asked him what he thinks about the percentage of patients on therapy of 90 days and the 287 days until an ER opioid was introduced. D said he belies it and knows it happens for many reasons. Dr said one that on average IR opioids are cheaper, they can be easier to write and refill and many patients present a lot of pushback moving to ER opioids because they want the " high" of IR opioids. I asked dr when he typically moves to ER opioids? Dr said after 90 days if the patient is being treated for a chronic pain condition, he will move to ER opioids. Dr said its easy to move to Butrans off of tramadol and hydrocodone and typically uses OxyContin for those already on oxycodone. I told dr I completely agree with his assessment and reviewed start principles for OxyContin and conversions. Discussed Kathy profile for Butrans and conversions and appropriate starting doses. Finished with copy card discussion and intermezzo indication and patient identification.
PPLPMDL0020000001	Lakewood	OH	44107	12/5/2013	Lunch. Dr said he wrote 3 scripts of Butrans in the last few weeks after our discussion. One of the patients uses Walgreens. He asked about the conversion from vikodin to Butrans...showed the core visual aid for dosing recommendations. Dr said he would write more Butrans. When leaving he wrote a script for a patient n care-source and Angie was working on the authorization. Also discusses OxyContin...reviewed dosing and strengths.
PPLPMDL0020000001	Lyndhurst	OH	44124	12/5/2013	Quick hello to dr neel @ window. Dr I want to remind you of our discussion @ last breakfast. We discussed patients you have on Percocet who need additional analgesia, around the clock, and converting those patients to OxyContin. You've been supportive of the brand & I want to thank you for supporting OxyContin & agreeing to continue prescribing moving forward. Spoke to RN Katie Hudson @ window invited her to 12/11 program.
PPLPMDL0020000001	Stow	OH	44224	12/5/2013	Dr saw me at the window and told me he's out of Butrans savings cards. I told him I would leave them and told him to continue to use it for patients on tramadol or hydrocodone. I handed him the formulary grid and reminded him of BWC and Caresource coverage. Dr said thanks.
PPLPMDL0020000001	Mayfield Village	OH	44143	12/5/2013	Lunch. All HCPs 2 hrs behind. Quick discussion of each pain product (with Kristy) for moderate to severe pain,OxyContin after 2-4 Percocet or Vicodin being refilled month after month, Butrans after Tramadol. Opioid resources including OARRS, urine screen cd. Intermezzo, zolpidem tartrate sublingual tablet, prn for MOTN awakening insomnia.
PPLPMDL0020000001	Mayfield Village	OH	44143	12/5/2013	Reminded dr ashr of our last few calls & our OxyContin discussions. Reminded him he stated 50% or more of his patients are over 65 (Medicare). You had concerns at that time with patient access. Lets look at the med d preferred status for OxyContin, then commercial. He stated there is more than one plan where they aren't covering OxyContin at all. I asked him to let me know of any specific plans next visit so I can research. I will leave you some \$90 off co pay savings cards today. I asked him how long does he keep patients on ir percocet or vicodin? about 4-6 weeks, 8 weeks tops. he then considers extending release@ that time. We then went over dosing. He was unaware of the 15 mg dose. I told him we added 3 doses including the 15 mg a few years ago. We also have this tool ( conversion titration guide) to help you w converting from ir opioids. Ok great, I will use the 15 mg in future. On to Butrans. Dr admits he hasn't written yet, but he takes care of patients who've been placed on Butrans by pain mgt. How are those patients doing on Butrans, he responded, they are doing well, no complaints. showed patch demo. 4 strengths. Is Butrans something you may consider for moderate to severe pain caused from osteoarthritis? I will consider. Then intermezzo, option for MOTN insomnia patients. Prn sublingual tablet. You can match patient sleep patterns. Ok, thank you. Back to patients.
PPLPMDL0020000001	Akron	OH	44305	12/5/2013	Spoke with Matt the pharmacist about Butrans, OxyContin and intermezzo. I reviewed the Kathy profile and told him why the hydrocodone patient is such a good candidate for Butrans. Introduced him to the 15mcg doses and titration and conversions. I asked him if he has any patient savings cards and he did not. I reviewed the card and trial offer. Matt said he wanted some to put on the shelf. I discussed OxyContin with him and the Percocet patient who continues to get refilled. The product. Discussed conversions and titration. Discussed copy cards as well which he had a couple of. Intermezzo dosing and indication.
PPLPMDL0020000001	Mayfield Village	OH	44143	12/5/2013	Spoke with his ma Melissa. Discussed Butrans indication, patient selection, position after Tramadol. she says dr only writes ir opioids for short period of time. When patient needs titrated or needs long acting, he has pain mgt initiate & manage the long acting. Dr 2 hrs behind & on way to hospital. Had a second to say hello. Left him BUP 3015 & asked him to read, so we can discuss next lunch. Ok he responded. Also met new nurse Denise Famagelitto. Introduced all 3 branded products & OTC line. Discussed product indications, she's never heard of Butrans, is it new she asked? No, product launched 2010. Discussed opioid resources & she asked to keep urine screen flashcard.she thanked me more mre info on Butrans.
PPLPMDL0020000001	Mayfield Village	OH	44143	12/5/2013	I asked dr mukunda if he writes any ir opioids such as Percocet or Vicodin. Yes he replied. What des a typical script look like? 2-4 pills daily. Would any be q6 h? Yes he replied. For a patient to follow a q 6 h dosing plan, they would have to wake up at 2 am & set an alarm for that. What are your thoughts. If a patient needs an increase in pills I don't titrate up, I let pain mgt know what I think is best for that patient & have pain mgt manage any long acting opioids. Ok well thank you for sharing that. Do you refill any extended release? No I have pain mgt do that. If in the future you have any trusted patients you may consider placing on an extended release, we've discussed OxyContin & Butrans as options. We also have several resources to help you such as conversion & titration guides. Went through both for OxyContin & Butrans. Showed him OARRS flashcard & Urine screen flashcard. Last, Intermezzo for your MOTN insomnia patients. Prn sublingual tablet, zolpidem tartrate, here's a piece that includes questions to ask your patients to help determine MOTN from sleep onset. Ok, thank you
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/5/2013	Told jake I wanted him to look at the piece about determining with appropriate dose with Butrans. I started by telling him and dr Ali about the inclusion and exclusion criteria from the opioid experienced trial. I reviewed when to titrate and maintain doses. I asked him how he feels about titrating through the 15mcg to the 20mcg if necessary. Jake said that he doesn't have an issue with it and said he not sure if he has anyone on Butrans 20 mcg mostly because they don't need it. I asked him to use the tool we have discussed in the past about how he determines dose increases which are functional mobility, pain scores, and MRIs if necessary. Reviewed oxycontin dosing and titration.
PPLPMDL0020000001	Uniontown	OH	44685	12/5/2013	Used two different insights on this appointment. Started off with the hydrocodone insights and 287 days until a ER opioid is introduced and the insight using the start principles. I asked dr what he thinks about the hydrocodone statistic and when he introduces an ER opioid. Dr said he doesn't really use a time frame but uses his discussion with patient, what he's treating them for and if he thinks they have legitimate around the clock pain. Dr said if they do,he will start and ER opioid. Dr said he really likes OxyContin and has no problem using it but does get pushback even from patients already on IR oxycodone. I asked why and he said that he has leaned in many cases to not say OxyContin. Dr said that if freaks some patients out even though he said he explains they are already on oxycodone. Dr said he tells them he wants them to switch to an extended form of Percocet. Used the start principles and discussed. Reviewed the Kathy profile for Butrans and asked him to use it more often for not only hydrocodone but for tramadol. Finished with intermezzo indication and patient identification.
PPLPMDL0020000001	Lakewood	OH	44107	12/6/2013	Saw dr talked about the appropriate patient for butrans, dr said he will try it to write Butrans. discussed OxyContin and the q12h delivery system. Spoke to the nurses about managed care Nd savings coupons.
PPLPMDL0020000001	Akron	OH	44320	12/6/2013	Showed dr the opioid exercised trial and told her that there are a few things in the trial that will be compelling to her in order for her to write more Butrans. I reviewed the inclusion criteria, told her about the pain intensity, reduction scores, and side effect profile. I told her that her patient selection for Butrans is vital. I explained the hydrocodone patient and told her to write more. I showed her the OxyContin dosing and conversions and asked to conversions for Percocet. Reminded her about intermezzo.
PPLPMDL0020000001	Akron	OH	44305	12/6/2013	Only had a quick minute to talk as he was leaving early today. I reviewed the patient types for OxyContin and the OxyContin cancer patient profile. I told dr to use it as his go to ER opioid. Dr said ok. I told him that maybe Butrans is an option for him before he would consider OxyContin and the patient has around the clock pain. Dr said he will try it.
PPLPMDL0020000001	Euclid	OH	44119	12/6/2013	Spoke with pharm Kathleen P, let her know what I'm taking to area drs about & what tools & resources are available to HCP s & patients. Discussed RX Patrol as resource for pharmacy. Kathleen says they only have 1 or 2 patients on Butrans. OxyContin a bit more steady than Butrans, no utilization of intermezzo.
PPLPMDL0020000001	Uniontown	OH	44685	12/6/2013	I told dr that in order for him to get back to using Butrans he should review the opioid experience trial. I handed him the trial and reminded him that 62% of the patients in the trial see on hydrocodone medications. Dr said ok and the patients her has on it are doing well. I told him to keep using it and I will follow up next time.
PPLPMDL0020000001	Akron	OH	44312	12/6/2013	Dr told me that he started a Butrans patient this week and he thinks it is a great candidate for it. Dr said that the patient actually told the dr that he didn't want to take 4-5 pills a day for his spinal stenosis. Dr told me that he discussed Butrans with him and the patient was excited for a wee long patch. Dr said he started on the 10mcg dose and the patient has private insurance so he gave him the trial offer and copy card. I told dr it sounds like he has finally chosen a good candidate! Dr said it has not been easy and understands that he needs to start using Butrans more so he doesn't have to keep increasing and refilling short acting products. I told him to continue trying. I told him to also take a look at his patients on Percocet and to start them on OxyContin instead at least the patients he has continued to refill on Percocet. Closed with telling him that he Ned's to use intermezzo for those patients complaining of in the middle of the night insomnia.
PPLPMDL0020000001	Cleveland	OH	44114	12/6/2013	Review Butrans for those Patients requiring around the clock analgesia, reminded of Desphande program, said Ok will continue to find new patients , intermezzo for MOTNA/dosing
PPLPMDL0020000001	Akron	OH	44312	12/6/2013	Dr told me that he started a patient on Butrans this week. I told dr to tell me about it and dr said that the patient was on Norco and only taking 3 a day and said there was still pain. I told dr he did the right thing it wounds like and asked what the patient condition is that's causing the pain and he said he thinks its osteoarthritis. I told dr that those patients were some of the diseases of patients in the clinical trials and asked if he started on the 5 or 10mcg? Dr said he did the 10mcg because the patient s pain was increasing. I asked dr to continue and to take another look at his Percocet patients and switch them to OxyContin when they need a dose adjustment. Closed with asking him to evaluate patients for intermezzo and hit key selling points.
PPLPMDL0020000001	Akron	OH	44320	12/6/2013	Dr told me that she write a Butrans prescription this week and asked me what the coverage is on buckeye? I told dr its going to be difficult and explained what I have seen as their criteria on the PA. I told her that I believe dr Adams has got one or two punched through and to ask her. I asked dr to tell me what the patient was on prior to starting Butrans and she told me 40mg of Percocet. I asked her which dose she started on and she told me 5mcg. I showed her the conversion chart and told her that she should have initiated on the 10mcg dose. I told her if it gets approved she will need to titrate and the patient may need breakthrough medicines. I told her to use OxyContin for her patients on Percocet and showed her the conversions chart. I asked if she would do this and she said ok. Closed for Butrans and OxyContin and reminded her of intermezzo patients candidates.

	Euclid	OH	44119	12/6/2013	Met wit nursing first, left OxyContin conversion & titration guide & Butrans initiation, titration guide. Dr Saeed I'd like to talk with you about re assessing your Percocet patients. What does a typical Percocet prescription look like? Dr says typically q 6 h. Discussed every 6 hrs, patients need to set alarm. For patients waking up in pain, calling back for early refill or breakthrough pain, please consider converting to OxyContin. Ok sounds good he responded. For Butrans, we've discussed after patient fails on 3-4 Tramadol daily. Dr says I've had issues with coverage recently. I asked commercial plans or Med D.? Commercial. He says its ( Butrans) very expensive. Reviewed current commercial coverage, told him I will update he & nursing staff in 2014. In the meantime, remember you have trial, savings cards to bring down to Tier 2 cost. Ok It's a good product, I must know its covered. Intermezzo, PRN MOTN awakening insomnia option.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	12/6/2013	OxyContin Quick reminder, Q12h flexible dosing strengths and broad formulary coverage, Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	12/6/2013	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, and Intermezzo for MOTNA/dosing, said Ok and hopes to attend Desphande program
PPLPMDL0020000001	Cleveland	OH	44113	12/6/2013	Reviewed OxyContin Q12h flexible dosing strengths and Butrans for those patients requiring around the clock analgesia, Dr. agreed and will continue to support utilization
PPLPMDL0020000001	Cleveland	OH	44113	12/6/2013	Visited Billfield/Stearns office, reviewed OxyContin Q12h flexible dosing strengths and Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	12/6/2013	Visited Ortho/Pain Mgmt depts. Reviewed Q12h flexible dosing with Dr. Billfield/Stearns and Shen. Butrans for those Tramadol failures requiring around the clock analgesia
	Euclid	OH	44119	12/6/2013	Same detail as dr Saeed: Paul my goal today is to get you a mire often, re assess any Percocet patients on a q 6 h plan. How likely are they to follow every 6 hr plan & set alarm @ 2 am. Good point, something to consider said Paul. Butrans after patient, who's been on 3-4 Tramadol daily, yet needs more analgesia for extended period of time. Coverage is sometimes an issue says Paul. I will keep he & nursing staff updated on preferred status. Left pain kit web key, discussed resources available to him & his patients. He will continue to write both OxyContin & Butrans moving forward.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44102	12/6/2013	Reviewed OxyContin Q12h flexible dosing strengths and Butrans for those patients requiring around the clock analgesia,Said Ok. Invited again to upcoming Desphande program, said will consider
PPLPMDL0020000001	Cleveland	OH	44102	12/6/2013	Reviewed Butrans w/Mike Rph -Tramadol failures requiring around the clock analgesia, OxyContin Q12h flexible dosing and Intermezzo for MOTNA/dosing. No Savings/Trial cards needed
	Tallmadge	OH	44278	12/6/2013	I asked dr if he believes Butrans works? Dr said sure. I told him I'm not convinced he is. Dr said why and I told him that if he truly did believe it worked then he would be using it more.dr said he doesn't have many patients on short acting opioids but would try to find a few more candidates. I told him that's all I'm asking and told him to try and replicate the same patient types he already has on it.
PPLPMDL0020000001	Fairview Park	OH	44126	12/6/2013	Spoke to office manager, she said she would pass information across to the dr. Gave her a Scott profile and a recap of what Butrans is and where it's appropriate along with the limitations. Left leave behinds that are company approved.n
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	12/6/2013	Reviewed OxyContin Q12h flexible dosing strengths and Butrans for those patients requiring around the clock analgesia, Dr. agreed and will continue to support utilization
	Norton	OH	44203	12/6/2013	Second time putting call note in, didn't save first time it froze. Dr and discussed extended release opioid use for atc pain patients. Dr said he just started using Butrans for patients that met the indication yet weren't satisfied with their vikodin pain control. Reviewed abuse potential and the pai. Results of the opioid experience patient. Dr said he uses OxyContin for his more severe pain patie ts that started off on Percocet and who become chronic pain patients needing more pain coverage but he likes the q12h because he said it helps with compliance.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44109	12/9/2013	Reviewed OxyContin,Butrans and Intermezzo with Mana RPH, no new info learned, seeing some 15mcg/hr from Torres, Intermezzo from Raheja.
	akron	OH	44333	12/9/2013	Discussed all products with doctor today. I told him that we need to be specific with are discussion about Butrans. I told him to focus on his Caresource patients already on an IR opioid. I explained the Caresource PA and the Scott patient. Dr said he Medicaid population is a good population to look at for Butrans because dr said most have chronic pain conditions and it would fit. I told him that's great to hear and use it! Told him to also be specific with OxyContin use and to focus on his patients already on IR oxycodone who need an adjustment or when he is ready to refill a third or fourth prescription. Dr agreed and said he will do it. Told him to also write intermezzo for those patients meeting the indication.
PPLPMDL0020000001					
PPLPMDL0020000001	Akron	OH	44313	12/9/2013	Caught dr as he was walking in for the day. I told dr to make it an OxyContin and Butrans week each with a specific patient type. I told dr to use OxyContin for his patients already on the oxycodone molecule and Butrans for this needing an adjustment on tramadol or vicoden. Dr said ok.
PPLPMDL0020000001					
PPLPMDL0020000001	Akron	OH	44333	12/9/2013	Dr came up to me in fairlawn office and asked me what's new. I told dr that I was hoping he was continuing to find patients already on IR oxycodone and moving them to OxyContin. Dr said he is and said he is writing it for patients that have insurance and Medicare. I told him those are two very good places to focus and gave him the formulary grids.
PPLPMDL0020000001					
PPLPMDL0020000001	Garfield Hts	OH	44125	12/9/2013	Quick Window Butrans reminder for those Patients requiring around the clock analgesia, Said OK, Invited to upcoming Desphande program along with NP's Gwen,Denise etc
	Fairlawn	OH	44333	12/9/2013	Quick hello as dr was coming up front to check a patients chart. I asked dr if he would make these next two weeks devoted to switching Percocet patients to OxyContin and tramadol to Butrans? Dr said thanks for the reminder and said she will look.
PPLPMDL0020000001					
PPLPMDL0020000001	Akron	OH	44304	12/9/2013	Met dr at front counter and told hi that OxyContin is a good option for patients continuing to get refills on IR oxycodone and asked him to reevaluate those patients. I asked hi what his experience has been with Butrans? Dr said he doesn't think he has written for it yet. I told him to continue looking at patients that may need an adjustment on tramadol or vicoden. Dr said he remembers now and will look.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44109	12/9/2013	Left Butrans/OxyContin info for Nancy profile and Initiation/Titration guide,(Campbell,Dhillon,Gemachu,Dziwis,Mary Jo etc Requested apmt with dept
	Akron	OH	44313	12/9/2013	Spoke with Mark the pharmacist about all products. I asked him how familiar he is with Butrans? Mark said that they have a couple of patients on it and order it in for refills. I discussed Butrans as the only schedule 3 indicated for 7 days of burprenorphine release. Discussed the Kathy profile,conversions, use of supplemental analgesia and patch description. Mark asked if patients only exposed to opioids can use it? I told him about both clinical studies and the dose naive patients should initiate on at 5mcg. Discussed OxyContin dosing, conversions and copy cards. Intermezzo dosing, limitations of use and indication.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44127	12/9/2013	Reminded of the upcoming Butrans/Dr Desphande program, reviewed Kathy profile, said Ok and hopes to attend. OxyContin Q12h flexible dosing strengths and Intermezzo for MOTNA/dosing
	Uniontown	OH	44685	12/9/2013	Asked dr when and who is he finding most success with OxyContin? Dr said that as he has told me many times before, he wants to get patients on ER opioids as soon as possible when he knows the are chronic. Dr said that he doesn't understand how patients could and should take a pill 5-6 times a day and it just doesn't make sense. I told dr I'm glad to hear his thoughts and to continue writing. I reminded him about when to write Butrans which is when he knows even patients on tramadol are chronic in nature. Dr agreed and said he can be writing more especially his Caresource patients. I reviewed the PA and asked for continued business.
PPLPMDL0020000001					
PPLPMDL0020000001	Akron	OH	44313	12/9/2013	Spoke with Mark the pharmacy tech and discussed all products as he said the pharmacist was too busy to talk. I asked him how familiar he was with Butrans and he told me he knows about it. Discussed key selling messages to him and discussed conversions and patient types. I told him about copy cards and he said they have seen a couple of patients in the last month for prescriptions for it. Discussed OxyContin dosing and indication as well as parents already on IR oxycodone. Intermezzo dosing and indication and well as limitations of use. Mark said he hasn't seen anything come through for it.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	12/9/2013	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, said OK and is utilizing the 15mcg/hr dose, likes dose option. Also reminded of Intermezzo for MOTNA/dosing
	Barberton	OH	44203	12/10/2013	Lunch. Discussed OxyContin and the appropriate use. Reviewed the q12h and its molecule. Dr said that Medicare was giving her trouble getting it approved and they want her to write Percocet. I asked if this was something new, and she felt it was. Dr said she feels the pharmacists in the area give her a hard time for not writing generic and that she gets letters often asking her to not write branded products. Dr said this was frustrating and takes up time. Dr said she refers out the younger patients with back pain. I asked why. She said if wont take new patients with pain and they happen to be younger. When talking about Butrans we discussed her current Patients and those specifically she believes their pain is real. Used the naive study to support the examples of some patie t types. We reviewed the dosing, steady state and patch placement. I asked her why she was so hesitant to try it for the appropriate patient. She said she hasn't seen the right patient yet. Talked intermezzo. Dr said managed care is too hard and she won't write it.
PPLPMDL0020000001					
	Akron	OH	44310	12/10/2013	Good discussion about all products. Dr told me that after our discussion last time about identifying patients on hydrocodone combinations he has switched three patients to Butrans. Dr said all patients seemed to be very happy about a different option. Discussed with dr about thinking Butrans for his tramadol patients as well. Talked about the Scott profile and asked him what he's doing currently after tramadol? Dr said he doesn't have many patients on tramadol around the clock but he typically moves them to vicoden. I asked what he goes from one IR opioid to another for a chronic pain patient? Dr said he doesn't know other than that's what he's always done. I continued to talk about the tramadol patient and convinced him to try it. Discussed OxyContin and also identifying the appropriate patient for OxyContin as well. Reviewed case studies and dr agreed that he could switch a few patients. Reminded dr of intermezzo patient identification. Dr told me as I was leaving that he has a patient in the waiting room taking 8 tramadol a day and will discuss Butrans with the patient!
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44104	12/10/2013	Reminded of the upcoming program with Desphande MD, Confirmed lunch appt for Thurs and Reviewed Butrans for those patients requiring around the clock analgesia, Said she will keep in mind and hopes to attend
PPLPMDL0020000001	Barberton	OH	44203	12/10/2013	Asked Jen if she thought dr cook tried Butrans yet and she said no. Reviewed some key areas like how many patched in a month and how long they wear the patches.
	Cuyahoga Falls	OH	44223	12/10/2013	Spoke to Linda the pharmacy tech about all products. Asked about their stocking of Butrans and copy cards. Linda said they have all 4 doses ins tick and dispense it regularly. Linda also said they have been having great success with patients getting it on med D plans and Medicaid. I asked if it has been Caresource and she said it is. Explained the PA and other managed care coverages. Discussed OxyContin doses and conversions and she said they also have all doses in stock. Asked her if they have been dispensing intermezzo and she said no but have the 1.75mg on the shelf.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44114	12/10/2013	Butrans reminder for those Tramadol failures requiring around the clock analgesia, OxyContin Q12h flexible dosing strengths. Reminded of Desphande program. Said Ok and will continue to find new Butrans prescribers
PPLPMDL0020000001	Cleveland	OH	44114	12/10/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia. Desphande program, Said OK Was running behind schedule but will keep in mind. OxyContin Q12h flexible dosing strengths
	Euclid	OH	44117	12/10/2013	Let dr know I didn't receive wam welcome @ their Painesville location. He will call gatekeeper Teresa & Office mgr Paul to let them know I. He welcomes my visits 2. Will see me & I can leave literature, savings cards etc Today left OARRS flashcard, urine screen flashcard & reminder for 12/11 program. Asked him now that dr Morley in NYC 90% of time, is he willing to initiate & refill opioids like OxyContin & Butrans. Yes he will, he says he's slowly starting to do that. Met their other partner, dr mike (dc) who is addiction specialist. We Discussed OxyContin after Percocet & Butrans after Tramadol. BWC will pay discussion.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44195	12/10/2013	Quick Butrans reminder for those patients requiring around the clock analgesia, said OK will continue to consider, Confirmed attendance to Desphande program. OxyContin Q12h flexible dosing strengths and broad formulary coverage
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44113	12/10/2013	Quick Butrans reminder for those LorTab failures requiring around the clock analgesia, Reminded of Desphande program, said OK and like his staff always looking for Butrans patients. Intermezzo for MONTNA/dosing and Savings/Trial Cards
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44104	12/10/2013	Talked with Hassan RPH, Discussed OxyContin Q12h Flexible dosing strengths and Butrans for those Tramadol failures requiring around the clock analgesia. Filled RX from Pandit recently. Intermezzo for those MOTNA/dosing,Hassan said they will be opening a 4th location on Puritas. Requested Savings cards
PPLPMDL0020000001					
	Akron	OH	44305	12/10/2013	Dr saw my OxyContin piece and told me that he just saw in an article on line about how OxyContin is the most highly abused narcotic in history. I asked dr the source and he told me aol.com. I asked him if he knows it was reformulated in 2010? Dr said for sure he does and he said it will not stop him from using it because it Erik's great for the right patient. I continued to explain the reformulation of OxyContin and told him I agreed with the correct identification of candidates for it. I discussed the right patients from the profiles and asked for continued business. I told him that Butrans also demands the correct identification of patients. I explained the Scott profile and asked him if he will put more emphasis on using Butrans for those patients needing dose adjustments. Dr agreed. I reviewed copy cards, BWC and Caresource coverages. Reminded him to also look at candidates for intermezzo and discussed doses and limitations of use.
PPLPMDL0020000001					
	Norton	OH	44203	12/10/2013	Spoke to dr about OxyContin and why for atc pain wouldn't u choose OxyContin q12h. Dr said it was a good pick for the right patient type. We discussed all those doses available and the molecule. Also talked about Butrans. He wrote Butrans for his caresource patients and seem to be doing fine. He said he picked Butrans because it was a patch and not a pill. We discussed abuse potential also reviewed managed care. Talked with Lisa the rn about intermezzo.
PPLPMDL0020000001					
PPLPMDL0020000001	CLEVELAND	OH	44195	12/11/2013	Discussed Butrans for those patients requiring around the clock analgesia, Initiation/Titration, formulary coverage,Med D, and Savings cards. Dr. said he likes delivery system and option when managing his patients pain,(elderly), Reinforced Butrans has the same abuse/misuse risk as other opioids.Said he will look to initiate for appropriate patients. Reviewed OxyContin Q12h flexible dosing strengths and broad formulary coverage

PPLPMDL0020000001	Cleveland	OH	44195	12/11/2013	Invited Dr. Bamford to Dr Desphande program
PPLPMDL0020000001	Cleveland	OH	44195	12/11/2013	Met with Dr. Gutsgeil, discussed Butrans and OxyContin
	Westlake	OH	44145	12/11/2013	Asked him if he was attending the program and dr said the weather is getting bad so he told me to get him an invite next time that he is interested in learning about Butrans. Left him Scott profile for butans. Also gave him OxyContin managed care updates.
PPLPMDL0020000001	Munroe Falls	OH	44262	12/11/2013	Quick discussion in her sample room about all products. I told her to start focusing on reevaluating her patients on tramadol and vicoden for Butrans. I told her about the patient types and asked for more business. Dr agreed she will look. I told her to also look at patients that are already on IR oxycodone and switch them to OxyContin. Asked her to remember intermezzo for patients that have in the middle of the night insomnia and left her with information.
PPLPMDL0020000001	Akron	OH	44313	12/11/2013	Quick messages at front window and told him I wanted to know at what point he finds it necessary to titrate OxyContin? Dr said that would take too long and to ask that question next time because he was too busy. I told him he can titrate every one to two days and to use Butrans in his patients needing an adjustment on vicoden. Dr said ok.
	Akron	OH	44333	12/11/2013	Discussed with dr about the Maggie profile for OxyContin and asked him to review it and tell me his thoughts and if he would change anything? Dr read the profile and said he would have done intervention and injections and maintain OxyContin but said it's ridiculous that the patient was taken to 80mg of IR oxycodone. Dr said he would have given her 30mg of OxyContin and 2x 5mg a day of Percocet. I asked dr if and when he titrates OxyContin? Dr said for many patients, even when the dose is increased up and up on ER opioids the pain may still be there. I asked dr when he knows its time to titrate then? Dr said that's a great question and said he's not sure but it's all based on the patients individual needs. I asked him to continue to use OxyContin for those patients needing dose adjustments on IR oxycodone. Asked for more Butrans prescriptions when his parity on tramadol or vicoden need dose adjustments. Showed him the doses and morphine equivalents on approximate conversions guide. Asked dr to also identify patients who have in the middle of the night insomnia and use intermezzo.
PPLPMDL0020000001	Uniontown	OH	44685	12/11/2013	Good discussion with dr on all products. Discussed Maggie profile and asked hi his thoughts. Dr said that he has a real hard time with parents being left on IR opioids for chronic pain. Dr said he can understand in some situations the cost thing and used an analogy that he discusses with his patients. Dr said IR opioids and ER opioids are like filling up your car with gas. Dr Balter said when your car needs gas do you only fill it up to a quarter tank or fill it up to full? Dr said when the tank is filled up all the way, it's like an ER opioid; good for the long trip. Dr said IR opioids are like only filling it up a quarter of the way and it just doesn't make sense. I told dr that's a good analogy and to continue using OxyContin and Butrans. I discussed dosing, Patient types and his success with it even when patients are skeptical. Dr said that sometimes patients just don't want to use a patch. I told him that's what the trial offer is for. I explained it for his private prescription insured patients and use it do patients don't have to spend money in the first month if their copay is under \$100. Closed with intermezzo and asked for his business when patients meet the indication.
PPLPMDL0020000001	Cleveland	OH	44113	12/11/2013	Attended Butrans program,discussed 15mcg/hr dose, OxyContin Q12h, and Intermezzo for MOTNA/dosing
PPLPMDL0020000001	Cleveland	OH	44195	12/11/2013	Discussed OxyContin Q12h flexible dosing strengths and Butrans for those patients requiring around the clock analgesia along with Initiation and Titration with Dr. Gutsgeil
	Cleveland	OH	44195	12/11/2013	Attended program, Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration, Formulary coverage and Savings Cards. Reminded of OxyContin Q12h flexible dosing strengths and formulary coverage. Said he will consider
PPLPMDL0020000001	Cleveland	OH	44113	12/11/2013	Attended Butrans Program, Initiation/Titration, OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Fairlawn	OH	44333	12/11/2013	Dr saw me and said he thinks he may have a patient for Butrans. I told him to tell me about it and he said its a patient on vicoden who is complaining of pain and doesn't want pills anymore. Dr said he will see him next week. I told dr to use the conversion guide to approximate the starting dose. Told him about the titration and doses and ability to use supplemental analgesia. Told dr to also use OxyContin for those patients needing an adjustment on IR oxycodone.
PPLPMDL0020000001	Cleveland	OH	44195	12/11/2013	Visited Dept,Invited to Desphande program left Butrans/OxyContin info for Chatterjee,Calabrese,Deal, fellows and nurse education room. Katherine Tuthill CNP, Tiffany Clark, Betsy Kirchner
	Stow	OH	44224	12/11/2013	First time meeting Daii and introduced products as she said she only knows about them through the other practitioners in the office. Provided her with all key selling messages with Butrans. Discussed conversions, patient types, and discussed her experience in pain management at CCU. Daii wanted copies of the conversions scales and FPI. Discussed OxyContin doses, conversions and patient type discussion. Daii said she has experience with OxyContin and uses it without an issue. She said she is very interested in Butrans because she is intrigued by it being a schedule 3, 7 day patch. Discussed intermezzo dosing, patient types.
PPLPMDL0020000001	Cleveland	OH	44195	12/11/2013	MSL email communication with Dr. Dell in response to her request to withdraw from BUP3031 startup due to limited patient population. Requested phone meeting with Dr. Rodenas to discuss the protocol.
PPLPMDL0020000001	Valley View	OH	44125	12/11/2013	Attended Butrans program, Reviewed OxyContin Q12h and Butrans for those patients requiring around the clock analgesia
	Cleveland	OH	44114	12/11/2013	Attended Butrans program- <b>font color=blue&gt;&lt;b&gt;CHUDAKOB's</b> query on 02/11/2014<b><b>f>ont>Mark, can you please elaborate on what actually occurred on this call? Thanks!<font color=green><b>GUTKOMA's response on 02/15/2014<b><b>f>ont>John attended the Butrans dinner program, Dr. Desphande did not show, hence I discussed Butrans for those Tramadol failures requiring around the clock analgesia, along with dosing.<font color=blue><b>CHUDAKOB added notes on 02/18/2014<b><b>f>ont>Ok. Thanks for clarifying. You do not need to enter a call on an HCP that attends a dinner program.
PPLPMDL0020000001	Akron	OH	44333	12/11/2013	Stephanie said she was going to call me because she has a patient she is considering for Butrans and the patients has an AARP plan. I asked her to tell me about the patient and she said now she is only taking 2 tramadol a day but has either had a reaction to many different opioids including fentanyl. I asked her why Butrans and she said she doesn't have anywhere else to turn. I told her that first the plan the patient has looks like its not covered. Second, Butrans may not be the best medicine because the patient had been on so many medicines before and either have not worked or had a reaction to. Stephanie said Butrans was prescribed about a year ago and the copay was about \$95 and couldn't be afforded. I asked her to look for patients earlier on in their therapy such as ones like Scott and Kathy and discussed me both. Reminded her about OxyContin and the Maggie profile and she said she sees many patients in for follow up appointments on OxyContin. Asked her to remember intermezzo and to identify patients meeting the indication.
PPLPMDL0020000001	Akron	OH	44312	12/12/2013	Good discussion of lunch about all products. Dr Feltrup was in attendance and didn't know much about it so I provided entire overview of the product and hit all key selling points. Discussed appropriate patients and reviewed case studies, conversions, titration, FPI indication and limitations of use, application sites, adverse events review and formulary and copay cards. Dr asked if the goal is by using Butrans to get patients completely off short acting opioids. I told dr how some of his patients would feel not to have to take pills every day? I told dr that some patients may require breakthrough medication and discussed mechanism of action. Dr said he is very specific in who he is choosing and the profiles fit the description as to who he is choosing. I asked for continued business. I asked dr to think of OxyContin as a product he can provide to his patients who are already on the oxycodone combination. Discussed conversions and profiles. Discussed intermezzo including indication, dosing and limitations of use. Dr said he already remembered about the 4 hours before waking up and likes that it is
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/12/2013	I asked dr to prescribe Butrans for two patients a week until the new year and if that is acceptable? Dr laughed and said I know he writes it. I told him I just wanted him to continue using it for patients needing adjustments on short acting opioids. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	12/12/2013	Talked to Darlene about recent Butrans that have come through her desk and she told me dr just write it today. While talking with her about it dr came up to tell me about the prescription. Dr said the patient has been on tramadol and vicoden without pain relief. Dr said she will probably start the patient on 5mcg because the patient is old and frail. Dr said she gave the patient an information guide on Butrans and its a Medicaid patient on the UHC Community plan. I told her it will be a PA. Darlene said she will take care of it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/12/2013	I asked dr what the clinical advantage is to refill an IR opioid for a patient who is in pain around the clock? Dr said it is just easier sometimes to refill it. I said but hat if the patient is still in pain month after month on the pills you refill? Dr said he would send to the specialist. I asked why he would do that if he could manage himself with another option like Butrans? Dr said there are some that it may work on for him. I told him to just try it in a patient on tramadol around the clock and he is considering a dose adjustment. Dr said ok and he will try.
PPLPMDL0020000001	Lakewood	OH	44107	12/12/2013	Spoke to nurse about managed care and how to pace the patch.
	Akron	OH	44312	12/12/2013	I told dr that choosing a patient specific for Butrans is extremely important. I showed dr the Kathy patient profile on hydrocodone combination who is still in pain. Reviewed profile and asked dr if he could identify patients similar? Dr said he has some. I told dr that 62% of patients in the opioid exercised trial were previously on hydrocodone combinations. I asked dr to also focus on patients already on IR oxycodone and to switch them to OxyContin. Left him with intermezzo msg and asked for him to keep his ears open to patients complaining of in the middle of the night insomnia.
PPLPMDL0020000001	Akron	OH	44312	12/12/2013	Saw dr through window and told him that he needs to identify patients for Butrans that need a dose adjustment on tramadol or vicoden. I asked if he has those a oriants that get refilled each month and have around the clock pain? Dr said he's sure he does he just Ned's to find them. I told him to take an extra second before he refills the IR opioid and consider Butrans. Dr said ok he will.
PPLPMDL0020000001	Waterford	OH	45786	12/12/2013	I-Butrans dosing, clinical trials managed-care and boxed warning. OxyContin start principles. Intermezzo dosing.W-has written Butrans recently and has had good success.
	Westlake	OH	44145	12/12/2013	Tried to see dr. But didn't work, left approved materials behind.<font color=blue><b>CHUDAKOB's query on 12/18/2013<b><b>f>ont>Who did you see on this call?<font color=green><b>BARTOLI's response on 12/19/2013<b><b>f>ont>Christy, the office manager. Her and I have been working to get an apt with e doctor this day to discuss Butrans.<font color=blue><b>CHUDAKOB added notes on 12/19/2013<b><b>f>ont>OK. Please include the name of the person you spoke with and their title on all non-HCP calls. Thanks Lisa!
PPLPMDL0020000001	Highland Heights	OH	44143	12/12/2013	Met w med asst @ front window. Asked to see dr for 30-60 seconds @ front window. Told her I'm willing to wait. Did not see her ask, but one of the med assts stated dr cannot come up front. Discussed Butrans application, dosing, with 4 strengths now. OxyContin Q 12 h dosing, strengths. Discussed OARRS usage for all opioid patients, asking for Butrans for urine screen ( left flashcard) left Butrans sliding doser for dr.
PPLPMDL0020000001	Mayfield Village	OH	44143	12/12/2013	Lunch. Dr tried to write Butrans @ nursing home @ it's not on their formulary/ in pharmacy. Lets discuss patients outside of nursing home, those patients who walk in daily with pain. Detailed dr price @ same time, they both have concern with Butrans equivalent to morphine. Discussed Butrans initiation, titration guide. Once they write, they will be able to get morphine equivalent once OARRS is run. Importance of running OARRS on every opioid patient. UH lab does not detect Buprenorphine, so they need to ask for that on screen. Left opioid urine screen flashcard. Asked dr Azar to commit to a few Butrans trials in office, he will consider, and I told him there has to be a few patients in his entire practice, who can benefit from Butrans trial. Pulled out trial, savings card & propped it in front where he answers his phone, & said here's your reminder!
PPLPMDL0020000001	Cleveland	OH	44195	12/12/2013	Visited Anes/Pain, Rheum, Neuro Depts,Oncology, Left OxyContin and Butrans formulary and Initiation/Titration guides
	Mayfield Heights	OH	44124	12/12/2013	My regular contact Denise not I today. Spoke with one of the medical assistants. Discussed Butrans as pain option, induction, 4 strengths, left Butrans sliding doser for dr Dews. Discussed trial & savings. She stated savings cards very go helpful to them, especially for patients on OxyContin with no insurance, since its so expensive. Left conversion/ titration guide for dr. Formulary grids, PBM brochure left as well.
PPLPMDL0020000001	Cleveland	OH	44195	12/12/2013	Attended Butrans program, Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration and Formulary coverage, Said he will consider as he becomes more engaged in prescribing.
PPLPMDL0020000001	Cleveland	OH	44195	12/12/2013	Reviewed OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Lakewood	OH	44107	12/12/2013	Attended Butrans program, Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration and formulary coverage. Said he will consider. Reviewed OxyContin Q12h flexible dosing
					Dr asked about intimating a patient from 80 mg OxyContin to Butrans. I reviewed the initiation guide with the dr and told him it Butrans would not be appropriate for this patient.ndr asked if he could use Butrans as supplemental to OxyContin and other short acting products. I reviewed the naive study of the open label phase where they supplemented with NSAIDs,mi told him that I could not make a recommendation. Dr asked about managed care and cash cost covered this area. Dr was hard to understand due to his accent and I had to ask his nurse a few times what he said. Dr was interested in how soon patients could titrate Butrans. I covered this information, dr asked if the patient should stop current medication before going onto Butrans. I referred back tomfpinwhere it states not to abruptly discontinue. We reviewed steady state of the product. Oxycontin was discussed, q 12h and the Mgs available. Asked him if he feels comfortable titrating his patients who have uncontrolled pain and who are appropriate for OxyContin. Dr said he try's not to write over 40mg of OxyContin. Dr Said he would add Percocet prn 1 to 3 pills a day. We reviewed strengths.<font color=blue><b>CHUDAKOB's query on 12/18/2013<b><b>f>ont>Lisa, what does your next call objective say?<font color=green><b>BARTOLI's response on 12/19/2013<b><b>f>ont>To ensure the doctor understands who the approved ( appropriate )patients Butrans are according to the fpi. And how to Initiate patients onto Butrans using the approved visual aids.<font color=blue><b>CHUDAKOB added notes on 12/19/2013<b><b>f>ont>Thank you for clarifying!
PPLPMDL0020000001					

PPLPMDL0020000001	University Heights	OH	44121	12/12/2013	Lunch. Dr main concern, being with UH, is my products morphine equivalent. If your concerned with that for your OxyContin patients, you have 7 doses to titrate up or down. Don't use the 80 mg if you're uncomfortable, there are 6 other doses to choose from. Another great option, dosed in micrograms is Butrans. Once you write your first Butrans, you will see the morphine equivalent on OARRS, and should then be able to figure all morphine equiv for all 4 strengths. Went through initiation titration guide again, asked him for a few trials for conditions. (Inclusion criteria in trials) causing pain, requiring opioid analgesic around the clock for extended period of time. Reminded him trial savings cards right above his desk. I checked OxyContin cards, & he is remembering to and a few out.
	Mayfield Heights	OH	44124	12/12/2013	Met CNP Josie for first time, she came over from procedure side to talk for a few minutes. Introduced myself, what branded & OTC products Purdue manufacturers & resources available to help her with pain management. Discussed OxyContin indication, doses, conversion/ titration guide.\$ 90 off cards. Discussed Butrans indication, 4 strengths, initiation, titration guide. Discussed Intermezzo core messages, gender dosing. Left urine screen resource flashcard, letting her know depending on lab, she may need to request Buprenorphine on screen. Left pain mgt web key. She thanked me for all. Very responsive & engaged.
PPLPMDL0020000001	Cleveland	OH	44195	12/12/2013	Attended Butrans program, Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration, Savings Cards. Reviewed OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	Cleveland	OH	44135	12/12/2013	Left materials behind-front color-blue->b<-CHUDAKOB's query on 12/18/2013->b></font>-Who did you speak with?-front color-green->b>BARTOLI's response on 12/19/2013->b></font>-I don't remember her name she was at the front desk of the metro building in the pain management department. She wouldn't let me back, but I did talk to her about Butrans and left approved materials. I spoke to her about what it is, how many patches per month, scheduling and patch placement.-front color-blue->b<-CHUDAKOB added notes on 12/19/2013->b></font>-But she was not a nurse, office manager or MA, therefore no call should be entered.
PPLPMDL0020000001	Cleveland	OH	44104	12/12/2013	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h flexible dosing strengths. Said OK and will consider
PPLPMDL0020000001	Cleveland	OH	44104	12/12/2013	Reviewed Butrans for that Tramadol failure requiring around the clock analgesia Formulary coverage/PA and OxyContin Q12h flexible dosing strengths. Said she will consider, struggled in the past with PA
PPLPMDL0020000001	CLEVELAND	OH	44195	12/12/2013	Reviewed Butrans, stocking and Savings Cards along with OxyContin Q12h and dosing strengths and Savings Cards
PPLPMDL0020000001	Cleveland	OH	44195	12/12/2013	Fellows attended Butrans program, Dr Said,Cheng etc) Discussed Butrans for those patients requiring around the clock analgesia and OxyContin Q12h flexible dosing strengths
PPLPMDL0020000001	North Olmsted	OH	44070	12/12/2013	Spoke to bill and Rita the pharmacist. They said they had been filling Butrans lately, the 5 and ten mcg. We talked about patch placement and steady state. He wanted to attend the program but I said I would have to check if a pharmacist could attend the Butrans program. We talked about the 15mcg. They said it would automatically show up in their system all the strengths. Talked intermezzo, he was not familiar with this product. Reviewed indication, dosing.
PPLPMDL0020000001	Akron	OH	44312	12/12/2013	Dr in for lunch Today and wanted to hear about Butrans. Dr said he has some exposure to it from dr Lonsdorf. Discussed all key selling messages for Butrans including patient profiles, dosing, conversions, application sites, patch description, adverse events, efficacy results from clinical trials and insurance. Dr said it seems like a great product and will try to find patients. Discussed OxyContin and asked him if he has patients on IR oxycodone? Dr said he does. Explained conversions and to reevaluate his patients who may need an adjustment on Percocet to go to ER oxycodone. Finished with intermezzo and discussed indication, dosing and limitations of use. Dr asked about what it is and I told him zolpidem. Dr said a sublingual zolpidem for prn use is great and will use it.
PPLPMDL0020000001	Akron	OH	44312	12/12/2013	Discussed all key points for all products. Explained Butrans patient types, conversions, application sites, adverse events and insurance. Dr asked about using Butrans for post operative pain. Discussed from the FPI the limitations of use and dr said he's happy with that. I asked dr if he will write it? Dr said maybe but is retiring soon. Discussed OxyContin for his patients already on oxycodone. Discussed conversions and patient profiles.
PPLPMDL0020000001	Waterford	OH	45786	12/12/2013	Intermezzo discussion about identifying patient types. I-Butrans dosing, administration, co-pay cards, managed-care, boxed warning, warnings and precautions and limitations of use. OxyContin dosing and managed-care. Intermezzo dosing indication.W-she asked about Butrans and diversion and abuse. I replied that Butrans is a schedule III opioid and has a boxed warning with abuse potential, respiratory depression and accidental exposure. I also went over the warnings and precautions. I explained to her that there is risk for abuse with Butrans.
PPLPMDL0020000001	Cleveland	OH	44104	12/12/2013	Reviewed OxyContin Q12h flexible dosing and Butrans for those Tramadol failures requiring around the clock analgesia. Formulary coverage
PPLPMDL0020000001	Cleveland	OH	44104	12/12/2013	Discussed Butrans for that Tramadol failure requiring around the clock analgesia, dosing and Formulary coverage with Reese. Will relay info.
PPLPMDL0020000001	Akron	OH	44312	12/12/2013	Discussed all products over lunch with doctors in the office. Discussed Butrans key selling messages including patient profiles, adverse events, efficacy results from opioid experienced,formulary can copy cards. Janet really didn't offer much so I asked her if she has seen some patients like the ones I discussed? She said she does but usually sees follow up appointments. I told her if that means she doesn't prescribe? She says she does. I asked her to write Butrans for patients appropriate. OxyContin for her Percocet patients and intermezzo for her patients in the middle of the night insomnia.
PPLPMDL0020000001	Hudson	OH	44236	12/12/2013	Caught dr leaving the office and told him I wanted him to use more OxyContin for those patients who are already on IR oxycodone. Dr said he tries to as much as he can but still likes to limit his prescribing on scheduled medicines. I asked dr what he does and he said refers to western reserve pain. I told him to remember the schedule 3 Butrans for his around the clock tramadol patients.
PPLPMDL0020000001	Cleveland	OH	44111	12/12/2013	Left approved materials behind for drs.-front color-blue->b<-CHUDAKOB's query on 12/18/2013->b></font>-Who did you speak with? In order to record a call as a non-HCP you would have had to have a call on a non-HCP. If you did, then you should record who you spoke with and what happened on the call. If you only left material with a receptionist, this should not be recorded as a call.-front color-green->b>BARTOLI's response on 12/19/2013->b></font>-Ok, then this should not have been recorded as a non hcp. I put it down cause they are metro doctors with no see policy and I wanted someone to know I was here.-front color-blue->b<-CHUDAKOB added notes on 12/19/2013->b></font>-Unfortunately, there is no way to record this. I trust you are doing the right thing. It should only be a non-HCP call if you had a product discussion of some sort with a nurse, MA or office manager. Any other non-physician interaction should not be recorded as a call. If you have questions on this, please let me know.
PPLPMDL0020000001	Cleveland	OH	44113	12/13/2013	Reviewed Butrans dosing Initiation/Titration, formulary coverage , said she will continue to find new starts for Butrans, asked for those appropriate patients that fail LorTab and require around the clock analgesia
PPLPMDL0020000001	Akron	OH	44312	12/13/2013	Told dr that over the next couple of weeks until 2014 to focus on patient identification for Butrans. I asked her instead of refilling tramadol patients prescriptions to consider Butrans as an option. Dr said she will try. I asked if her current patients on Butrans are doing well? Dr said they are and I told her than to continue prescribing. I reminded dr to also use OxyContin for those patients already on IR oxycodone and asked if she has anyone? Dr said she has a few. Told dr that she should be assessing patients for intermezzo.
PPLPMDL0020000001	Uniontown	OH	44685	12/13/2013	Said he to dr at front window and told him to keep an eye on patients who come to see him on tramadol. Dr said ok. I told him that instead of refilling it to evaluate for Butrans and they only have to use 4 patches in one month. Dr said ok.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/13/2013	Spoke with Glenn the pain management pharmacist about Butrans and OxyContin insurance covorgae. Told him about the discussion with dr Souzdanitski today and him telling me how expensive it is for his Medicare patients. Discussed the Medicare plans that are covering it. He said they have become more streamlined in getting the prior authorizations and gaining coverage on medicines by having experienced ma's and other staff to spend the time that it takes. I told dr that's great and reviewed the commercial and Medicare coverage for OxyContin
PPLPMDL0020000001	Akron	OH	44333	12/13/2013	Lunch appointment and discussed all products. Gilbert said he takes a lot of pride in ensuring his patients are well taken care in the pharmacy and really likes it when I'm in because I provide valuable information which he can pass along to his patrons. Discussed Butrans stocking,patient types,appropriate starting dose and titration and copy cards. Discussed OxyContin dosing, how many he is seeing each week which he says that it varies per week. Gilbert said he still has intermezzo on the shelf but hasn't moved it.
PPLPMDL0020000001	Fairlawn	OH	44333	12/13/2013	Lunch appointment and discussed all products. Gilbert said he takes a lot of pride in ensuring his patients are well taken care in the pharmacy and really likes it when I'm in because I provide valuable information which he can pass along to his patrons. Discussed Butrans stocking,patient types,appropriate starting dose and titration and copy cards. Discussed OxyContin dosing, how many he is seeing each week which he says that it varies per week. Gilbert said he still has intermezzo on the shelf but hasn't moved it.
PPLPMDL0020000001	Cleveland	OH	44113	12/13/2013	Reviewed Butrans dosing Initiation/Titration, formulary coverage along with OxyContin Q12h flexible dosing strengths, said she will continue to find new starts for Butrans
PPLPMDL0020000001	Cleveland	OH	44106	12/13/2013	Visited Anes/Pain dept left OxyContin Q12h Initiation/Titration guides along with Butrans Patient info sheets. Left Terrah message seeking dept appt
PPLPMDL0020000001	Akron	OH	44308	12/13/2013	Spoke to one of the burn center nurses and asked to see Kristen. Jessica said that she is off today. Spoke with Jessica about what I'm trying to accomplish by having an inservice with the fellows and residents about OxyContin and its background as well as conversions. Jessica said she knows they used to do these fairly often but haven't done them in a while. She said she would speak to the nurse manager about it and would give her my card.
PPLPMDL0020000001	Cleveland	OH	44113	12/13/2013	Quick Butrans reminder for those patients requiring around the clock analgesia and OxyContin Q12h flexible dosing strengths, Said OK and will keep in mind
PPLPMDL0020000001	Cleveland	OH	44106	12/13/2013	Reviewed Butrans and OxyContin selling messages with Marge RPH, no new info learned
PPLPMDL0020000001	Stow	OH	44224	12/13/2013	Quickly told dr in between patients that she needs to be using more OxyContin not only for her patients already on oxycodone but those that have moderate to severe pain and need an ER opioid which is single entity oxycodone. Dr said ok and said she really doesn't get or have many patients who would need a product like OxyContin. I showed her the conversions and told her that even a patient on 20mg of Percocet may be appropriate for OxyContin. Told her it would only be 10mg q12.
PPLPMDL0020000001	Cleveland	OH	44113	12/13/2013	Quick Butrand reminder for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h flexible dosing and broad formulary coverage, Said OK and running behind
PPLPMDL0020000001	Cleveland	OH	44113	12/13/2013	Reviewed Butrans Barb(Nurse)for those Tramadol failures requiring around the clock analgesia. Reminded OxyContin Q12h flexible dosing strengths, agreed she will relay info to Dr. and consider. Asked for staff in-service, will consider for Jan
PPLPMDL0020000001	Akron	OH	44310	12/16/2013	Spoke with Clinton the pharmacist about all products. I asked him if the Butrans dispensing has picked up any and he said it has. I asked hi from who and he said mostly pain management practices in Cuyahoga falls and akron. I reviewed dosing, new 15mcg dose and conversions. I talked to him about OxyContin dosing and conversions as well and discussed patients already on IR oxycodone. 1:1 ratio conversions. Asked him if he has dispensed any intermezzo? Clinton said none that he has done. Reviewed appropriate patients and dosing.
PPLPMDL0020000001	Cleveland Hts Barberton	OH	44118 44203	12/16/2013 12/16/2013	Reviewed OxyContin Q12h,7 dosing strengths along with Butrans for those patients requiring around the clock analgesia who have failed on Tramadol. Said OK and will continue to find new appropriate patients Follow up. Dr said it has been a busy month. We talked about his practice and they types of patients he has been seeing. I asked if he converted any Tramadol patient to Butrans this month. Dr said no, but said he will. Left Scott profile and appropriate patients.
PPLPMDL0020000001	Stow	OH	44224	12/16/2013	Email invitation for conference call sent to Al Barber.
PPLPMDL0020000001	Norton	OH	44203	12/16/2013	Spoke to Jennifer , introduced Butrans to her discussed managed care and patch placement.
PPLPMDL0020000001	Cleveland	OH	44109	12/16/2013	Visited Anes./Pain dept. Sue-Fellows coordinator, left Butrans/OxyContin info for fellows.
PPLPMDL0020000001	Cleveland	OH	44109	12/16/2013	Visited Anes./Pain and Ortho Depts. Left OxyContin/Butrans initiation guides with Dept Admin and requested appts
PPLPMDL0020000001	Akron	OH	44333	12/16/2013	Dr saw me and said he needs more Butrans patient savings cards. I asked him why? Dr said because he has been using it more and have had patients that qualify for them. I told dr that so great to hear and to continue using it for his parishes on tramadol or vicoden who need a dose adjustment. I told dr to also identify patients already on IR oxycodone who need an adjustment and to switch to OxyContin. Dr said ok he will.
PPLPMDL0020000001	Akron	OH	44333	12/16/2013	Dr said he needs more Butrans copy cards in his Wadsworth and medina locations. I told him I will give me to Judy the office manager so she can transport them to the appropriate locations. I told him to continue prescribing and titrating every 72 hours if necessary to ensure e right dose. I also told him to continue prescribing OxyContin and handed him the conversions and titration guide. Dr said ok and thanks. I asked him if his patients are getting the trial offer as well and he said he thinks so yes.
PPLPMDL0020000001	Cleveland	OH	44109	12/16/2013	Visited Dept.Requested appt. Left OxyContin/Butrans Initiation/Titration guides for Dr. Feighan,Wilber,Patterson, Sontich, Steinmetz, Thompson
PPLPMDL0020000001	Hudson	OH	44236	12/16/2013	Got a quick second with dr and asked him what his residents thought of the Butrans inservice? Dr said he thought it was great and really informative for them. He said he thought they also asked some really good questions. I reminded dr to focus on his patients already on IR opioids and he is looking to titrate them. I told him that's a great time to start Butrans. Dr said ok and thanked me for the inservice.

PPLPMDL0020000001	Cleveland	OH	44112	12/16/2013	Reviewed OxyContin Q12, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia who have failed on Tramadol. Said Ok and will keep it in mind
PPLPMDL0020000001	Brooklyn	OH	44144	12/16/2013	Reminded of OxyContin Q12, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia that have failed on Tramadol, Said Ok and thank you for the reminder
PPLPMDL0020000001	Cleveland Hts	OH	44118	12/16/2013	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h, 7 tablet strengths. Said Ok
PPLPMDL0020000001	Brooklyn	OH	44144	12/16/2013	Reminded of OxyContin Q12h, flexible dosing strengths and Butrans for those Tramadol failures. Dr. Said thank you and will be retiring this week.
	Uniontown	OH	44685	12/16/2013	I told dr to be very specific in his patient type selection for typo ducts he uses and asked if he agrees? Dr said yes he does agree. I asked him if there are situations where he prescribes OxyContin for patients failing vicoden? Dr said sometimes but usually goes to Percocet. I asked why he doesn't go straight to an ER opioid? Dr said because that's just what he does. I said ok and to focus then on oerocet patients for OxyContin and vicoden patients needing an adjustment on hydrocodone combinations. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Fairlawn	OH	44333	12/16/2013	Saw dr up front while I was signing up for lunch. I told dr that he needs to focus on more patients for OxyContin. I told him to use it earlier for patients already on percocet. I asked him if he would write OxyContin for patients on 20mg of Percocet if they need a dose adjustment? Dr said its patient specific and if he knows they will be chronic he would write it. I asked him to do it and it would be 10mg q12. Dr said ok.
PPLPMDL0020000001	Westlake	OH	44145	12/17/2013	Spoke to kandy the office manager and asked about managed care concerns with Butrans and discussed patch placement. She didn't have any concerns or questions. S I left a variety of approved materials.
PPLPMDL0020000001	Cleveland	OH	44114	12/17/2013	Reviewed Butrans for those patients requiring around the clock analgesia who are not adequately controlled on Lortab/Tramadol. Said she will continue to find appropriate patients
PPLPMDL0020000001	Cleveland	OH	44135	12/17/2013	Left literature at this metro location. Spoke to office manager, she said the drs might attend a dinner program for Butrans and to leave invite.
	Akron	OH	44310	12/17/2013	Told dr that we have spoken a number of times about Butrans and where and who he can use it for in his practice. I showed him the Bup 3015 and reviewed the inclusion and exclusion criteria. I asked him what he is currently doing for a patient on vicoden and showed him the Kathy profile who is taking 20mg a day? Dr said at that point he refers to pain management. I asked him if all his patients are referred once they need more than 20mg a day? Dr said he doesn't want to treat pain at all and it is a pain treating pain. Dr said just by giving them more doesn't mean they will be in less pain. Dr asked what schedule Butrans is and I told him its a schedule 3. Dr asked if its going to be moved to a schedule 2 be next year like vicoden will be? I told dr I didn't know of any changes. Dr said ok and he just doesn't like treating pain. I asked him if he sees any benefit to implementing a ER opioid instead of moving from on IR to another? Dr said he's not sure. Nothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	12/17/2013	Saw dr reviewed Butrans Initiation chart.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	12/17/2013	I was holding a piece for OxyContin and one for Butrans. Dr saw the Butrans piece and asked me about it. I showed him to Kathy profile and it makes sense to use Butrans for a patient on vicoden? Dr said it does but he can't get his patients to use patches. I asked why and he said he didn't really know. I asked him if he has tried lately and he said no. I told dr to write more OxyContin in his practice and he agreed to.
PPLPMDL0020000001	Akron	OH	44312	12/17/2013	Told dr that I wanted him to reevaluate his patients on IR opioids like Percocet and to take an extra minute in the exam room to decide if the patient is appropriate for ER oxycodone. I told him to focus on his patients that have been on IR oxycodone for at least 6 months. I asked dr when he typically moves to an ER opioid and he said around then. I asked if what I described makes sense and if he would do that more? Dr said ok. I reviewed the Butrans dosing and patient types that he sees in his office like the tramadol patient. I asked him if he prescribes tramadol? Dr said he does. I asked him if it makes sense to move a patient to Butrans if they meet the indication? Dr said it does and said he will try because it seems to be the right thing to do. Finished with a reminder about intermezzo dosing and indication.
PPLPMDL0020000001	Fairview Park	OH	44126	12/17/2013	Spoke to the nurse, she would not let me see the doctor today. Discussed Butrans, she was fami air with the product. Left approved materials behind for the doctor to review.
PPLPMDL0020000001	Lakewood	OH	44107	12/17/2013	Saw the dr. Reviewed Butrans....steady state and titration. Also discussed OxyContin...q12h and identifying the patient that would be appropriate for OxyCotin.
PPLPMDL0020000001	Cleveland	OH	44195	12/17/2013	Visited Anes/Pain/Neuro Depts. Left OxyContin/Butrans initiation/Titration guides, requested appt with fellows
PPLPMDL0020000001	Akron	OH	44310	12/17/2013	Dr told me he didn't need to hear another message about Butrans. I told him ok that I won't tell him about the schedule 3, 7 day transdermal patch Butrans! Dr laughed and said very good. I told him to focus more on outpatients that would be appropriate for OxyContin. Dr said he knows that he should start it in patients on Percocet. I told him exactly. Told him to also not forget about intermezzo for in the middle of the night awakenings.
PPLPMDL0020000001	Lakewood	OH	44107	12/17/2013	Spoke to the nurses about Butrans and the Scott profile. The nurses said that dr writes the product....I asked if they had any calls or stumbles from prior auths that I might address for them and they said no. They see a great deal of care-source and Medicaid. So I reviewed the plans were wer are covered.
PPLPMDL0020000001	Cleveland	OH	44113	12/17/2013	Reminded of Butrans for those patients requiring around the clock analgesia and OxyContin Q12h and 7 tablet strengths. Formulary coverage. Said he will continue to find appropriate new starts
PPLPMDL0020000001	Cleveland	OH	44113	12/17/2013	Reminded of Butrans for those patients requiring around the clock analgesia that have failed on LorTab/Tramadol. Said Ok, always looking for appropriate new starts. OxyContin Q12h, 7 tablet strengths
PPLPMDL0020000001	Olmsted Falls	OH	44138	12/18/2013	Saw dr and discussed Butrans Initiation and Scott profile.
PPLPMDL0020000001	Westlake	OH	44145	12/18/2013	Left a variety of materials approved to the doctor. Spoke to Kelly, they aren't doing lunches so seeing the doctor is harder. Discussed so managed vcare for both products.
PPLPMDL0020000001	Akron	OH	44312	12/18/2013	Asked dr if he started that patient he told me about on Butrans? Dr said he did and hasn't heard anything back so he said he suspects all is good. I told dr I needed to make sure he has a full understanding of the appropriate patient types for Butrans and reviewed the inclusion an exclusion criteria and asked him if he can focus more on those types of patients? Dr said he is trying and will do his best to find the right patient.
PPLPMDL0020000001	Akron	OH	44320	12/18/2013	Reviewed the Butrans inclusion and exclusion criteria and told her its important because it helps to find the most suitable patients for the product. Dr said she agrees that it is very patient specific. I asked dr where she has used it and she said mostly for patients on Percocet. I told dr that's ok because the were a decent amount of those patients studied and told her to focus more on the 62% of the patients on hydrocodone combinations. I told dr that when that patient type presents with pain and she is considering adjusting to start Butrans. Dr agreed and said ok. Discussed patient selection for OxyContin as well and reviewed dosing. Discussed the Maggie profile. Reminded her to search for patients that fit the intermezzo indication.
PPLPMDL0020000001	Akron	OH	44320	12/18/2013	Followed up with dr about the patient he was looking to start on Butrans from my last visit. Dr said he didn't because she is now in the hospital. Dr said she should be released soon. I told him that he needs to start evaluating his patients on vicoden who need a dose adjustment for initiating Butrans. Dr said ok.
PPLPMDL0020000001	CLEVELAND	OH	44195	12/18/2013	Quick OxyContin/Butrans follow up with Troy, no new info learned
PPLPMDL0020000001	Cleveland	OH	44107	12/18/2013	Spoke about the Butrans patch placement, managed care. Asked if he has seen any 15mcg and he said no.
PPLPMDL0020000001	Westlake	OH	44145	12/18/2013	Spoke to Kelly office manager about Butrans. Talked talked about patch placement. And review dosing of Butrans.
PPLPMDL0020000001	Berea	OH	44017	12/18/2013	Spoke to dr about e atc pain patients who are uncontrolled on their current therapy. Asked the doctor to consider Butrans for the patient coming in for their Tramadol refills and assess them if their pain is atc....if so, gave him Scott profile to think about. Dr said he would keep it in mind.
PPLPMDL0020000001	Munroe Falls	OH	44262	12/18/2013	Provided review of Butrans and OxyContin patient types. I told dr that she has told me previously that she does have patients that are on tramadol and those that are on Percocet. I told her each patient has a possible solution. Tramadol for Butrans and Percocet for OxyContin. Dr agreed and said she just needs to get out of the rut of refilling them. I told her that's right she does and that I'm guessing its just easier to do. I told her to focus on what may be a possible solution to every day pain.
PPLPMDL0020000001	Lyndhurst	OH	44124	12/18/2013	Discussed Butrans after Tramadol ( used Scott profile) se has a male patient with chronic low back pain, whom she might consider Butrans for. When I was sitting in Dr Isakov office, she came in a few times when we were talking & just pulled an OARRS on this male patient. She's going to research what plan he's on & if its BWC, consider initiating Butrans. Told her I'd look forward to following up in 2014 on that patient. She & dr Isakov looked @ Butrans initiation & titration guide to determine what recommended max dose of Tramadol is. Sarah echoed dr Isakov concern regarding Medicare patients being unable to afford Butrans. Reminded Sarah of med d plans Butrans preferred on, & asked her to consider for her few BWC patients and commercial patients who can use trial, savings card to get best available price.
PPLPMDL0020000001	Lyndhurst	OH	44124	12/18/2013	Left Butrans sliding doser, dr & Sarah forgot what max dose was for Tramadol. had male patient on Tramadol for low back pain, were going to check insurance & see if Butrans 10 mcg hr is covered. They ran OARRS and patient has seen dr Morley in past BWC. Reminded them BWC will pay ( ask about that patient next time) after discussing Butrans after Tramadol, or as first opioid, dr says I need to repeat that the Medicare patients whom really need Butrans cannot afford. Reminded him where Butrans preferred on Medicare part d& will update him in 2014.
PPLPMDL0020000001	Cleveland	OH	44195	12/18/2013	Followed up with Gutsell, OxyContin Savings cards, Left Butrans Initiation/Titration for Davis
PPLPMDL0020000001	CLEVELAND	OH	44195	12/18/2013	Quick OxyContin reminder Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia. OxyContin Savings cards
PPLPMDL0020000001	Lyndhurst	OH	44124	12/18/2013	Summarized last conversation regarding Percocet patients actually following a q6 h dosing plan, once again I'm going to ask you to re assess those patients & see if they would be more likely to follow a q 12 h dosing plan for atc pain, that's expected to last for extended period of time. Dr responded he will keep in mind. Butrans, now with greater dosing flexibility, 4 strengths to help individualize the dose. Please consider after 3-4 Tramadol daily, conversion to Butrans 10 mcg hr. Ok, sound good? Dr responded yes, had to get to next patient.
PPLPMDL0020000001	Cleveland	OH	44103	12/18/2013	Quick OxyContin reminder Q12h, 7 tablet strengths, said OK, Nothing new learned
PPLPMDL0020000001	Akron	OH	44333	12/18/2013	Dr told me that he just write OxyContin today for a patient taking 4 7.5/325 Percocet a day. I asked what dose he started and dr said he started a little lower than what he otherwise would have because he's giving breakthrough meds as well. Dr said he started on the 20mg OxyContin q12. Dr also said he continues to have great success with Butrans for his elderly population coming off of vicoden and lower dose Percocet. Dr said that he latest success was a lady that presented at a pain rating of 7 and after a month she rated herself at a 1 on the pain scale. I told dr that's amazing and that he needs to report those successes to me more often! I asked dr to continue prescribing and to not forget those on vicoden and reviewed the Kathy profile. I reminded him to also identify patients appropriate for intermezzo.
PPLPMDL0020000001	Akron	OH	44312	12/19/2013	Message to dr about using Butrans for his patients who need that dose adjustment on tramadol and to effectively describe Butrans to the patient as a 7 day controlled release patch for moderate to severe pain. Dr said he has written a couple in the last month and will continue to write.
PPLPMDL0020000001	Akron	OH	44312	12/19/2013	I told dr that patient specificity when starting a pain medicine is very important and asked him if he agreed. Dr said it is important. I told him that with OxyContin, he should be identifying patients who are in pain around the clock and already on the oxycodone molecule. I showed him the initiation and conversions guide and asked him if he would start to reevaluate some patients for OxyContin? Dr said its not easy but said my point is
PPLPMDL0020000001	Akron	OH	44312	12/19/2013	The technician said Gary was too busy to talk so I took the opportunity to discuss all products. Discussed all key messages about Butrans and same for OxyContin. The technician said that they do see Butrans but much more OxyContin. I asked if the Butrans were from dr Cain and he looked and said they have had them from Cain and Buis most recently. I reviewed intermezzo indication and dosing.
PPLPMDL0020000001	Tallmadge	OH	44278	12/19/2013	Saw dr at front counter and asked him if he would consider using the schedule 3,7 day transdermal patch Butrans for a patient that needed an adjustment on tramadol or vicoden? Dr said maybe. I gave him the initiation and titration guide and told him to review because those patients fit the indication and then told him the indication. I showed him an OxyContin copy card and asked him if he knows about them for his private insured patients? Dr said yes he does. I told him that he should use OxyContin when patients are already on oxycodone. Dr said ok. Told him I'm leaving more intermezzo copy cards and to continue his use.
PPLPMDL0020000001	Tallmadge	OH	44278	12/19/2013	I asked dr if he sees patients in with chronic pain conditions who gets refills on IR opioids? Dr said there are many patients presenting with that who gets a referral to pain management. I told dr I understand and asked him if there are those on tramadol who need an adjustment in dose? Dr sad sure. I showed him the initiation and titration guide and asked him if he would prescribe Butrans? Dr said he remembers discussing it and thanked me for the reminder. Dr then went into an exam room and nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	12/19/2013	MSL and Dr. Rodenas conducted telephone meeting with Dr. Dell to discuss BUP3031 participation and identification of principal investigator. Dr. Rodenas asked Dr. Dell to postpone decision regarding BUP3031 participation until January, she agreed and will wait to review upcoming amendment.
PPLPMDL0020000001					

	Cuyahoga Falls	OH	44223	12/19/2013	Dr and I spoke about how patients on Percocet are not able to get approved for OxyContin easily. I told dr I didn't understand how that's possible and dr told me that most patients on Percocet need a PA for p. to get approved for OxyContin and even when they do its too expensive for him and is about \$90. Dr said a copy card to cover that would help a lot. I told dr I can't believe he didn't remember about the \$90 OxyContin copy card for private prescription patients. Dr said ohh and said that helps. I told him that we have discussed these cards on many occasions. I asked if all ER opioids are difficult to get approved from IR opioids? Dr said yes they all are. Told dr then if they are all on a level playing field then to write OxyContin. Dr said he does and will continue to try. I asked him and Liz to ensure all private prescription patients get the copy card.
PPLPMDL0020000001	Alkron	OH	44312	12/19/2013	Walked into office to speak with drs Taylor and month with and dr wells cam up to me and told me he just had a follow up appointment with a patient on Butrans. Dr said the patient is in her second week of Butrans and is really liking it. Dr said the patient was taking 4 Percocet a day and he started her on the 10mcg patch. Dr said that the patient in the first week was taking 2 Percocet for breakthrough and now is only needing one Percocet. I told dr that it is great to hear. I told dr to try and identify patients like that one for more Butrans. I told dr to look into hydrocodone patients as really good candidates. Dr said he will.
PPLPMDL0020000001	Norton	OH	44203	12/19/2013	Talked about Butrans and it is managed with a patch once a week and discussed the Scott profile type patient. The doctor said most his patient prefer a pill to a patch. I asked the doctor what percentage of his atc pain patients have u offered Butrans to? Dr said he was referring to patch technology in general. I said if his patient are satisfied on their current therapy that was great. But during assessments u find they are appropriate for Butrans and they aren't satisfied with their current treatment, maybe if u made the recommendation they would take it. He said maybe they would. We talked about abuse potential with Butrans and OxyContin also the limitations. I gave him the Scott profile and told him to look at it sometime. I started to go into the pain results of the naive study...but he cut me off and said he had a patient waiting for him.
PPLPMDL0020000001	Cleveland	OH	44113	12/20/2013	Reviewed Butrans for those patients requiring around the clock analgesia along with OxyContin Q12h, 7tablet strengths. Said Ok and is always looking for new appropriate patients
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	12/20/2013	Followed up with Darlene about the patient dr Azem started on Butrans when I was in last. I asked what the status of the Community Plan in covering Butrans. Darlene said that she was so impressed because the insurance plan covered it without any issues and the patient even picked up the Butrans from the pharmacy the same day. I told Darlene that is really good to hear and Darlene said that dr Azem was very impressed and will keep
PPLPMDL0020000001	Mogadore	OH	44260	12/20/2013	Dr Buis came up while talking to dr Cain. Dr Buis said she used Butrans as well for a vicoden patient. Talked with her and dr Cain about titration and conversions. I told d Buis to use OxyContin for those patients of hers already on the oxycodone molecule like Percocet. I have her a conversion and titration guide. Nothing else learned.
PPLPMDL0020000001	Mogadore	OH	44260	12/20/2013	I asked to see dr up front and saw him around the corner. Dr came to me and said he prescribed Butrans this week. I told him that's great to hear and asked him to tell me about it. D said the patient was taking vicoden and it wasn't working so he started the patient in 5mcg. I asked what dose of vicoden a he said 2-3 pills a day. I handed him the Butrans decision tree and told him to make sure to titrate if necessary and he can after 72 hours. Dr said thanks and also gave the patient a copy card.
PPLPMDL0020000001	Cleveland	OH	44113	12/20/2013	Visited Pain/Anes. Dept Dr. Shen/Dale reviewed OxyContin Q12h 7tablet strenths along with Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	12/20/2013	Reviewed with Justin RPH OxyContin Q12h, 7 tablet strengths and Butrans for those patients requiring around the clock analgesia, Said Ok,nothing new learned
PPLPMDL0020000001	Cleveland	OH	44102	12/20/2013	Quick OxyContin reminder Q12h, 7tablet strengths along with Butrans for those patients requiring around the clock analgesia. Said Ok, nothing new learned
PPLPMDL0020000001	Cleveland	OH	44113	12/20/2013	Reminded of Butrans for those patients requiring around the clock analgesia along with OxyContin Q12h and 7tablet strengths
PPLPMDL0020000001	Garfield Hts	OH	44125	12/20/2013	Dr. is back from Medical Leave, Reviewed Butrans for those patients requiring around the clock analgesia along with OxyContin Q12h, 7tablet strengths. Said Ok and will continue to look for appropriate Butrans patients
PPLPMDL0020000001	Akron	OH	44319	12/20/2013	I told dr that I want his first experience with Butrans to be a good one. I told dr that one way to increase the likelihood of that is to listen for key words from patients while in an exam room that may lead him to believe they might want or need another option for analgesia. I asked dr if he has heard these requests from his patients? Dr said yes, all the time. I told him that those patients that are on tramadol or vicoden and meet the indication for Butrans are good candidates. I asked dr if he will do that for next year? Dr said he can do that.
PPLPMDL0020000001	Hudson	OH	44236	12/23/2013	Saw dr Russ in the office with dr Tosino. Told dr Russ that over the next week or so he will probably see patients coming in on products like tramadol and Percocet. I told dr that when he has a patient on tramadol who needs a dose adjustment to start Butrans. I reviewed conversions and appropriate starting doses. I asked him if he will continue to write and he said yes. I told him to take a closer look at patients on Percocet to see if they are appropriate for OxyContin. I told him the conversion is a 1:1 ratio and asked if it makes sense? Dr said if he does just doesn't want to write a lot of it. I told him if he's already got patients on Percocet there really isn't much difference other than ER and IR oxycodone. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44333	12/23/2013	I asked dr when he knows a patient needs to be switched to an ER opioid? Dr said when they are taking too much short acting. I said how much is too much? Dr said it depends on the patient and what he is treating them for. I said I understand and said what if you are treating a patient for spinal stenosis who is on vicoden and they need a dose adjustment? Dr said he uses Butrans and knows when to use it. I told him to just use Butrans more often instead of refilling the short acting. Dr laughed and said ok.
PPLPMDL0020000001	Hudson	OH	44236	12/23/2013	Asked Jackie the office manager to see dr Tosino quickly. Got to see dr in his office with dr Russ. Told both of them that over the next week they will most likely see patients already either on IR oxycodone or tramadol and need a therapeutic change. I told dr Tosino to start OxyContin for those patients he said he sees already on oxycodone and those needing a dose adjustment on tramadol to start Butrans. I asked dr if it makes sense to try Butrans at that point? Dr said sure. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44304	12/23/2013	I gave dr the hydrocodone insight and asked him how he will reduce or eliminate that statistic in his office? Dr said it will always be a problem because the struggle between the dr and patient with what the dr wants and what the patient expects. I told him I understand and said that he should be switching to ER opioids when he first realizes the patient is in around the clock pain. Dr said that's the problem though because many parishes don't want to switch off their generic pain medicine. I told dr that OxyContin is very well covered on many insurance plans including Medicare. I asked him to take patients already on oxycodone and move them to OxyContin.
PPLPMDL0020000001	Fairlawn	OH	44333	12/23/2013	I gave dr the Butrans initiation and titration guide and told him it is a good opinion for his tramadol patients needing a dose adjustment. Dr said ok and took the information.
PPLPMDL0020000001	Akron	OH	44305	12/24/2013	Spoke with Sue about Butrans dosing and conversions. I told Sue to keep an eye on patients continuing to get refills on tramadol and vicoden as they are good candidates for Butrans. Sue told me that those are typically the types of patients that move to Butrans. Sue also said that they see a lot of Percocet patients moving to Butrans. I told her that its ok but sometimes those could also be good candidates for OxyContin. Reminded her of intermezzo dosing and limitations of use. Sue said they still have it on the shelf but will need to send it back she thought by March next year.
PPLPMDL0020000001	Akron	OH	44305	12/24/2013	I asked dr what he typically treats with IR opioids? Dr said that he does see patients with acute pain and will use it for that and said that sometimes cost will prohibit patients from moving off of drugs like vicoden. I told dr I understand and to look at patients with private prescription insurance and Caresource with the pa. I told dr how little these patients can pay with the trial offer and copy card. Dr said ok and will continue to use Butrans.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/2/2014	Reminded him when and where to use OxyContin and intermezzo.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/2/2014	Visited Ortho/Surgery Ctr. Requested appt. to discuss OxyContin/Butrans said to email appt physicans
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/2/2014	Spoke to Steve about products and he told me he only had a minute. I asked him how familiar he is with Butrans and he said fairly because they have a couple of patients on it. I reviewed the dosing, indication, conversions and patient types. Steve asked about patient savings. I reviewed the trial offer and copy card. Discussed OxyContin dosing, conversions and insurance coverage along with copy cards. Steve said he has some of each card.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/2/2014	Spoke with Dr Hegde while meeting with Darlene who said they are out of Butrans copy cards. Dr Hegde said she is having better success with Butrans recently. I asked why she thinks she is having better success and dr said that she knows more about it now and is choosing her patients a little closer. I asked what type of patients and dr said patients with insurance or BWC who are on vicoden and need a refill. I told her that's great to hear and to also use Butrans for patients on tramadol in the same situation. Dr said ok but said she sees many more patients on vicoden. I told her to continue prescribing.
PPLPMDL0020000001	Hudson	OH	44236	1/2/2014	Asked dr if it made sense to use OxyContin for patients of his who already are on Percocet and need a dose adjustment? Dr said it does and he likes the pain specialists to make that decision. I asked what if the patient went to pain management and is back to see him as his pcp? Dr said he sends them back for their pain. I told dr I understand and asked if he would use Butrans as a schedule 3 controlled release opioid? Dr said its more likely.
PPLPMDL0020000001	Cleveland	OH	44113	1/2/2014	Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	1/2/2014	Reminded of Butrans for those LorTab failures along with OxyContin Q12h and its 7tablet strengths
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/2/2014	I told dr that Purdue has a couple of ER opioid options for her patients who may need dose adjustments on their short acting opioids. I asked dr how comfortable she is in using OxyContin? Dr said she's comfortable and uses her best judgement on who gets it. I asked who those patients usually are and she said patients typically already on oxycodone like percocet. I told her that is a great place and time to move to OxyContin. I showed her the conversions and asked for more business. I told her the other option is usually before she would move to OxyContin and its for patients needing dose adjustments on products like tramadol and vicoden. I reviewed the Kathy profile, showed her how to initiate and asked her if she will try it for a patient like Kathy? Dr asked how well its covered and I said very well and reviewed some of the plans. Dr said she is surprised. I told her Butrans has been out for 3 years! Dr said she will keep it mind. I asked her to just try it and allow Butrans to speak for itself. Dr said ok.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/2/2014	Met Lauren the pharmacist for the first time. Discussed all products and Butrans key selling messages including patient types and conversions. Told her about the new 15 mcg dose. Explained the copy card and trial offer which she looked at closely. She checked and said she have 5 of them as well as plenty of OxyContin and intermezzo cards. I discussed OxyContin patient types and conversions from oxycodone and dosing flexibility. She said they fill a good amount of it. Told Lauren about intermezzo indication, dosing and limitations of use. Lauren said she didn't know if they have dispensed it.
PPLPMDL0020000001	Cleveland	OH	44115	1/2/2014	Reviewed OxyContin Q12h flexible dosing strengths and Butrans for those LorTab failures requiring around the clock analgesia. Said Ok and rarely prescribes any CII's
PPLPMDL0020000001	Garfield Hts	OH	44125	1/2/2014	Quick OxyContin reminder Q12h, 7tablet strengths along with Butrans for those tramadol failures requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	1/2/2014	Reviewed Butrans for those NorCo/LorTab patients requiring around the clock analgesia, also OxyContin Q12h and 7tablet strengths, Said Ok and is always looking for new Butrans patients, and will not RX any CII's
PPLPMDL0020000001	Akron	OH	44305	1/2/2014	Asked dr if he had patients that are taking NSAIDs around the clock? Dr said he has many of them. I asked when he makes the decision to move to another product? Dr said when the patient says its not working well enough. I told dr what the down side would be to using Butrans 5mcg dose for those types of patients with chronic pain? Dr said he really likes Butrans and doesn't remember using it for a patient not already on a short acting product. I showed him to how initiate a non opioid experienced patient. Dr said it makes sense. I told him about OxyContin dosing flexibility, when to start it and how to convert for a Percocet patient and asked him to use more often. I asked dr to use the copy cards for both products as the expire soon.
PPLPMDL0020000001	Akron	OH	44312	1/3/2014	Dr asked me if I have been seeing his Butrans prescriptions? I told dr that I'm really happy that he has found the right patients for the product. Dr said the last couple of patients really are doing well on Butrans and very happy. I told dr to continue to use it for those patients on vicoden who need a dose adjustment and to use the copy cards and trial cards for those private prescription patients. Dr said he's happy with the fact that he has found success with it. I reviewed with dr how he needs to prescribe OxyContin for those patients already on Percocet. Dr said it makes sense and will do it.
PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Reviewed Butrans Patient experience program. Asked for those appropriate patients requiring around the clock ER analgesia. Said Ok and will continue to find new starts
PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Quick OxyContin reminder (7 tablet strengths, Q12h, Savings Cards along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate patients<font color=blue><b>CHUDAKOB's query on 01/08/2014</b></font>She said OK for OxyContin as well<font color=green><b>GUTKOMA's response on 01/09/2014</b></font>Yes<font color=blue><b>CHUDAKOB added notes on 01/09/2014</b></font>That is interesting. I thought she would never prescribe OxyContin.
PPLPMDL0020000001	Uniontown	OH	44685	1/3/2014	Dr saw me up front and said that he went to give out a Butrans copy card this morning and said there is only one left. I told dr that's great to hear and dr said that the patient had been taking 4-5 vicoden a day and said that Butrans sounded good to the patient. I asked which dose he started on and dr said 10mcg. I told dr that that's great and to also continue using OxyContin for those patients already on IR oxycodone. Dr said he likes it because Percocet being used for an extended period of time just doesn't make sense. I told dr that I'm glad to know he has that philosophy.
PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Reviewed OxyContin and Butrans with Justin-RPH, no new info learned
PPLPMDL0020000001	Uniontown	OH	44685	1/3/2014	Quick hello in lunch room as he had a cancellation. Dr said his patients on Butrans are doing well and he saw one last week after Christmas. I asked him what dose the patient is on and he said he thinks he started on 5mcg then titrated to 20mcg which he thinks is the best dose. Dr said the patient doesn't need to take any more breakthrough medicines. I asked dr if he would continue to identify similar oatient types for future starts and he said

PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Reviewed OxyContin Q12h, 7tablet strengths and savings cards with Shen/Dale. Also reminded of Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Visited Pain/Anes Dept. Reviewed OxyContin Q12h, 7tablet strengths and Savings cards, along with Butrans for those patients requiring around the clock analgesia. with Dale and Shen.
	Akron	OH	44319	1/3/2014	Dr came into office after rounding at hospital and I told dr that I was there to keep OxyContin and Butrans in the front of his mind. I asked him if he would reevaluate his patients already on IR oxycodone for possible conversion to OxyContin? Dr said he has no issue using it and that usually when he writes it. I told him that he wanted me to remind him of Butrans and showed him the Kathy profile. I asked him if it made sense to start Butrans for a patient like her and dr said it does he just need to remember it. I told dr to prescribe it and allow Butrans to speak for himself clinically. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Reviewed OxyContin Q12h, 7tablet strengths and Savings Cards, along with Butrans for those patients requiring around the clock analgesia, Said Ok and is prescribing on the Ortho floor, Also Working with Daoud patients post Injection
PPLPMDL0020000001	Cleveland	OH	44113	1/3/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, said Ok. Booked lunch appt
PPLPMDL0020000001	Akron	OH	44312	1/6/2014	Dr was telling me about his most recent patient his started on Butrans who was taking about 4-5 Percocet a day. Dr said the patient in on her 4th week of Butrans and is doing great. I asked dr if he ever bought of OxyContin for that patient? Dr said no because she didn't like how Percocet was making her feel. I told him I get it and asked him if it makes sense if the patient tolerates IR oxycodone to switch to OxyContin if a dose adjustment is necessary? Dr said it does. I showed him the profile and conversions. I discussed with dr the appropriate patient identification with Butrans and asked for his ultram and vicoden business when those patients need an adjustment. Dr said he just refilled a 10mcg Butrans for a patient this morning who came from vicoden. Closed for both products and asked for his intermezzo business.
PPLPMDL0020000001	Stow	OH	44224	1/6/2014	Spoke to Judy the office manager and Dr Balter about the patient not getting approval from Aetna Med D for his OxyContin that he was on prior to getting Aetna coverage. I had him and Judy explain the situation and I gave them the Aetna piece for commercial which has phone numbers to authorization. I told them the coverage and persuaded them to call Aetna. Dr said the home office is aware and is working on it because the patient dr said OxyContin is providing good relief for the patient and doesn't want to have to switch medicines. I told dr I would help relay information from the pharmacy and even have them call him to help. Dr said thanks and it would
PPLPMDL0020000001	Fairlawn	OH	44333	1/6/2014	Quick hello to dr in hallway and told him to continue prescribing OxyContin for his patients especially for his patients already on oxycodone. Dr said yes he does use a lot of it and said he has had some issues already is year getting it covered. I asked him which plans and he said he doesn't remember but said he thinks one was anthem. I asked commercial or med d and he said he couldn't remember. I told him I would check with Linda the office manager. I told dr to also continue identifying patients needing dose adjustments on Ultram and vicoden and use Butrans for those patients. Dr said he likes Butrans. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	1/6/2014	Requested appt. to discuss Butrans/OxyContin, Dr. said she only had 1 patient on Butrans, and have discontinued along with all opioids.<font color=blue><b>CHUDAKOB's query on 01/15/2014</b></font>Discontinued all opioids for the patient or taking all patients off opioids:<font color=green><b>GUTKOMA's response on 01/15/2014</b></font>"She will probably discontinue Butrans patient and Rarely uses opioid<font color=blue><b>CHUDAKOB's query on 01/16/2014</b></font>What is she going to do with her pain patients?<font color=green><b>GUTKOMA's response on 01/16/2014</b></font>Refer to pain management, in addition, Recent Data supports her decline in prescribing opioids<font color=blue><b>CHUDAKOB added notes on 01/19/2014</b></font>That makes sense. Thanks!
PPLPMDL0020000001	Cleveland	OH	44195	1/6/2014	Visited Anes/Pain, Neuro depts. C-25, Requested appt. with Anne and Dr. Bamford, Reviewed OxyContin/Butrans along with OxyContin savings card for Pain mgmnt. Requested Fellows in-service, Butrans Initiation/Titration
PPLPMDL0020000001	Cleveland	OH	44195	1/6/2014	Visited Anes/Pain, Neuro depts. C-25, C-21 Requested appt. with Anne and Dr. Bamford, Reviewed OxyContin/Butrans along with OxyContin savings card for Pain mgmnt. Requested Fellows in-service, Butrans Initiation/Titration guides
PPLPMDL0020000001	Akron	OH	44312	1/6/2014	R came in late to lunch as he just got back from rounding at akron city. Dr. said that the last patient he started on Butrans was back in for follow up last week and is doing great. Dr said the patient is really liking the pain relief Butrans is providing and wants to stay with Butrans. I told dr that's great and told him to make sure to titrate if necessary and the steady state is 72 hours. I asked dr to think of more patient like this one who may be in a similar place with their current pain medicine. Dr said he will and is happy to see positive results.
PPLPMDL0020000001	Akron	OH	44312	1/6/2014	Reviewed Maggie profile with dr and asked him his thoughts. Dr said he thinks he would have started another product soon. I asked if it makes sense to place the patient on OxyContin and dr said it does. I asked him if he has patient similar to Maggie and dr said he's sure he does. I asked him to find those patients and reviewed conversions and titration with dose flexibility review. Dr said he will keep it in mind. I asked him for another crack at Butrans and if he has patients who hit the profile for moderate to severe chronic pain? Dr said again he probably does and knows he needs to get them sooner than later. I told dr the ultram patient is ideal who needs a dose adjustment. Dr agreed and said he will try. Discussed intermezzo dosing, limitations of use and if he would try it out and he said ok.
PPLPMDL0020000001	akron	OH	44333	1/6/2014	Discussion through front window and dr asked me what's new. I told him about the hydrocodone insight and that he's to help to change that statistic and use more Butrans for patients failing on ultram or vicoden. I told him when he's ready to refill those short acting medicines, take a minute and evaluate if the patient is right for Butrans? Dr said he knows he can use it more and said he will in 2014. I also told him that the path of least resistance with OxyContin is for patients already on Percocet and its a 1:1 conversion. Dr said that's a good reminder. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	1/6/2014	Reminded of OxyContin Q12h, 7tablet strengths along with Butrans for those patients requiring around the clock analgesia, Reviewed OxyContin Patient Essential kits, Said she will share with other clinicians
PPLPMDL0020000001	Cleveland Hts	OH	44118	1/6/2014	Reviewed OxyContin Q12h, 7tablet strengths and savings cards, along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok, nothing new learned
PPLPMDL0020000001	Cleveland	OH	44195	1/6/2014	Quick reminder, OxyContin Q12h, 7tablet strengths. Butrans for those patients requiring around the clock analgesia. Said Ok, will consider
PPLPMDL0020000001	Fairlawn	OH	44333	1/6/2014	Spoke to sue about her dispensing of Butrans and OxyContin. Sue said she just filled a Butrans 10mcg for dr Froud which was a refill and has a OxyContin prescription for a patient of dr Balters who just switched to Aetna Medicare D on January 1 and she will not approve it. Sue said the office is working on it and any help I can provide would be great. I looked and told her that Aetna commercial is covered tier 2 but not seeing coverage on Aetna Medicare. Sue said the issue is that the patients has been on OxyContin for a while and had no problems with the old plan. I told Sue I would look into it.
PPLPMDL0020000001	Akron	OH	44333	1/6/2014	Dana told me that she wrote a Butrans last week for a patient in pain on vicoden. I asked why Butrans and she told me that she didn't want to give more vicoden or move to Percocet and the patient was willing to try a patch. I told her that's great to hear and not to forget about patients also on tramadol that need a dose adjustment. I told her to keep OxyContin in mind as well for those patients already on Percocet. Dana said ok and thanks.
PPLPMDL0020000001	Cleveland	OH	44113	1/7/2014	Reviewed Butrans for those patients requiring around the clock analgesia and OxyContin Q12h, 7 tablet strengths. Said she is always presenting Butrans to her patients, struggles with acceptance but will continue to educate appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	1/7/2014	Reviewed Butrans for those patients requiring around the clock analgesia, who are failing on LorTab/Tramadol, She agreed and said is always looking for appropriate patients. OxyContin Q12h 7tablet strengths and Savings
PPLPMDL0020000001	Cleveland	OH	44113	1/7/2014	Quick OxyContin reminder, Q12h, 7 tablet strengths, savings cards, along with Butrans for those patients requiring around the clock analgesia, Said OK will consider, nothing learned
PPLPMDL0020000001	Cleveland	OH	44113	1/7/2014	Reviewed Butrans for those patients requiring around the clock analgesia who are not adequately controlled on LorTab, said Ok and is always looking for appropriate Butrans starts. OxyContin Q12h, 7tablet strengths, said he will keep in mind but rarely prescribes any CII's
PPLPMDL0020000001	Stow	OH	44224	1/7/2014	Dr had two medical students with him today and I discussed all products with all of them. I spoke with dr about his past experience with Butrans and where he has placed it mostly. Dr said he has had really good experience with it and most of his patients were on vicoden and Percocet. I asked dr if he has patients on tramadol and if he usually moves from ultram to vicoden then to Percocet? Dr said most of the time yes. I asked it makes sense to use after tramadol and what the clinical benefit is from going from one IR to another IR opioid if the patient is most likely in chronic pain? Dr said it makes sense to use for the tramadol patient and dr said that he had found it challenging to get vicoden and Percocet patients to buy into using a patch. I told dr I'm glad to hear that and reviewed the Scott patient type. Discussed OxyContin patient identification and Percocet. Conversions and copy cards. Also discussed intermezzo patient types, insurance plans and limitations of use. Dr said he really likes it but is too expensive so he ends up having to go with options that he believes are not as good for sleep maintenance. I told dr to keep trying.
PPLPMDL0020000001	Stow	OH	44224	1/7/2014	Dr started off by asking about intermezzo. Dr asked if insurance coverage has gotten any better because he likes the product but his patients can't get it covered. I asked him what he likes about it? Dr said its the only medicine for sleep maintenance and Ambien doesn't do the job but said that's what his patients want because its cheap. I explained that Caresource will be an area of least resistance and if he has any? Dr said he does have some and that's good to know. Dr asked if there are still samples and I said no but patios can get 5 free pills plus \$45 savings with copy card. Dr said ok. I discussed OxyContin and attempted to discuss his patients already on IR oxycodone. I asked him if he has any his refills each month? Dr said maybe a few. I told dr to focus on the few who are and may end an adjustment. Discussed conversions and dosing for OxyContin and ER vs IR oxycodone. Dr said it makes sense and will look into it. Discussed patient types for Butrans and specificity for identifying the right patient. I asked dr if he writes tramadol? Dr said he does. I asked him if he has ever adjusted the dose of it or been refilling it for a long time? Dr said yes. I explained the Scott profile and the possible solution with Butrans for those patients. Explained schedule 3, 7 day transdermal patch, efficacy, safety and proper initiation. Dr said he likes the sound of it and said he has refilled one form another dr. I told him he needs to gain his own clinic
PPLPMDL0020000001	Hudson	OH	44236	1/7/2014	Spoke to dr over lunch about OxyContin and asked him if it makes sense to take a patient already on IR oxycodone who is uncontrolled or needs a dose adjustment and place them on q12 oxycodone? Dr said it does. I asked him if he has patients that meet that description? Dr said he does and is trying to not write too many opioids. Dr said the existing patients he has he will look to use more OxyContin if they are not candidates for surgery or referral to pain management. Discussed Butrans and asked him why he hasn't used it? Dr said he doesn't know. I told him to take his Percocet and vicoden patients out of the equation to start and focus on Ultram. Discussed Scott profile and told him to identify a patient and just try it. Dr said ok.
PPLPMDL0020000001	Westlake	OH	44145	1/8/2014	Talked about those patients of his that are currently being treated with short acting oxycodone. Asked if they were come back for a reassessment and meet the OxyContin criteria if he would convert them to OxyContin. Dr said yes, that he doesn't see to many Percocet patients....we discussed but he had some, dr said yes. Reminded him about butrans that It was a 7 day transdermal patch schedule 3.
PPLPMDL0020000001	Lakewood	OH	44107	1/8/2014	Dr left. Spoke to the nurse and office manager. She said she has worked on a few prior auths for butans on caresource and the patient was started on the ten mcg over the holiday. I asked if anyone in the office hands out the coupons and she said they do and that the dr tends to forget. I reviewed the coupons and managed care.
PPLPMDL0020000001	Westlake	OH	44145	1/8/2014	Follow up- mentioned she hasn't tried Butrans yet and asked her what is her hesitation for writing the product? She said she hasn't seen the right typenand mentioned that dr kabbarra is writing it. I gave her the Scott profile. I asked her if she has Tramadol profile, she said some. Reviewed Scott profile. She asked about dosing...reviewed the titration guide and abuse potential. I asked her what would be her biggest concern writing this product and she said managed care. we reviewed coverage. And I went back to how to dose it and the reported side effects from the naive study. I asked her where she felt comfortable trying Butrans for the appropriate patient type. She thought maybe after vikodin. Told her I would follow up next week. Quick OxyContin review on delivery system.
PPLPMDL0020000001	Akron	OH	44320	1/8/2014	I told dr that we were going to discuss weeding out seta in patients who would not be candidates for Butrans. I asked her which IR opioids she sees most in her practice? Dr said about the same amount of vicoden and Percocet. I asked her if she sees patients on fentanyl? Dr said not many. I told her per the opioid experienced trial those patients were part of the exclusion criteria. I told her patients with prn pain, intermittent pain are not good candidates. I told her that her vicoden patients are better suited for Butrans than Percocet because patients already on oxycodone may be better suited for OxyContin than Butrans. I told her to focus on those hydrocodone patients for Butrans who need a dose adjustment or complain about their current therapy. Dr agreed that it makes sense. I told her it seems like there is a lot of opportunity for her to write more Butrans. Dr agreed that she would try. Dr asked about any new insurance coverages. I told her about Aetna commercial, and reviewed plans specific to her practice.
PPLPMDL0020000001	Akron	OH	44313	1/8/2014	Dr told me that he wrote his first Butrans prescription but the patient could not tolerate it. I asked what happened and dr said the patient had bad skin irritation which caused him to discontinue it. I told dr that there is an incidence of it because its a transdermal patch. I told dr how important it is for patients to have proper skin prep. I told dr that the skin needs to just be clean and dr and not to use soaps, lotions or oils and even rubbing alcohol prior to application. I also told him about patients clipping hair on application sites instead of shaving it. Dr said he will keep trying. I asked dr what the patient was on and he said he not sure but thinks it was vicoden. I told dr that ultram and vicoden patients are good candidates. I asked dr to continue using OxyContin for patients already on IR oxycodone and if it makes sense if they need a dose adjustment? Dr said yes and he
PPLPMDL0020000001	Cleveland	OH	44106	1/8/2014	Reviewed OxyContin/Butrans with Marge, nothing new learned

PPLPMDL0020000001	Westlake	OH	44145	1/8/2014	Spoke to the nurses about both products. The nurses asked about how long to wear the patch and 7 days was the answer. Also reviewed patch placement and the managed care and coupons. Dr was not available to meet with today.
	Akron	OH	44320	1/8/2014	Spoke with dr about her history with OxyContin and where she has used it. Dr said she tris not to use it much anymore but when she has its been when patients complain about taking all the pills. I asked her if that is Percocet? Dr said yes. I asked her if she still refills or writes new Percocet? Dr said yes. I told her she is already writing the oxycodone molecule but in a different delivery system than OxyContin but both are oxycodone molecules. Dr said she knows but she tries to follow what the office policy is. I asked her what it is and dr never really told me but said she will try to use it. I asked her if it makes sense? She said it does. I told her I would follow up on that discussion. I reviewed the Butrans dosing and Schudle three discussion. I told her to focus on patients on vicoden and tramadol and reviewed profiles. I asked her if she uses ultram and vicoden which she said she did. I told her that those patients are good candidates for Butrans if they are in pain around the clock and need a dose adjustment. Dr said ok and will try harder.
PPLPMDL0020000001	Rocky river	OH	44116	1/8/2014	Window, discussed what Butrans is and it is a schedule 3. Handed her the Scott profile to look at and asked her if her the patients are uncontrolled with their pain and for the criteria to consider Butrans.
PPLPMDL0020000001	Westlake	OH	44145	1/8/2014	Asked dr to review his current Percocet patients, if they were appropriate for OxyContin and met the criteria to convert them. Left Butrans Scott profile, asked him take a look at the information and I'd review next time with him why butrans might be an option.
	Westlake	OH	44145	1/8/2014	Spoke to dr about assessment appointments and those currently on a short acting OxyCodone molecule. I asked her if it made sense that those patients Currently being dosed atc for an extended period of time to be converted to an extended release delivery system like OxyContin as an option. S e said yes. I asked if she had tried anyone on Butrans lately, she said not. She said she was tired of writing vikoden and would be willing to switch them to Butrans if patients were not satisfied with their current vikodin therapy and met the criteria to be on Butrans. Left her Scott profile and David profile.
PPLPMDL0020000001	Akron	OH	44303	1/8/2014	Spoke to Rod the pharmacist about Butrans and OxyContin. Rod said he has not seen any new Butrans but is keeping the ones he has and is refilling them. I asked him if he if familiar with the insurance coverage? Rod said no so I reviewed all formulary status plans and copay and trial cards. Rod asked about cash patients using cards. I told him they cannot use the trial card but can use the copay card for up to \$50 off. Rod said that's a good thing. Discussed OxyContin dosing and titrations through doses and asked him if he would recommend OxyContin for patients continuing to get Percocet refilled? Rod said he can do that.
	Akron	OH	44320	1/8/2014	I asked dr if he currently has patients on vicoden? Dr said he dos and I asked him what he is currently doing for those patients who need a dose adjustment? Dr said it depends but usually he will titrate them but doesn't like writing it. I told him if he doesn't like writing it then write the schedule 3, 7 day transdermal patch Butrans. I told dr that his patient selection needs to be very specific and when a hydrocodone patients needs an adjustment to start Butrans. Dr said ok he will. I told him to also initiate OxyContin for those patients he continues to refill Percocet for. Dr said ok but will try harder with Butrans.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/8/2014	Quick Butrans reminder for those patients requiring around the clock analgesia,Savings cards, said he has 1 patient on, had to increase dose and waiting to hear back for results. Reviewed OxyContin 7tablet strengths, Q12h
PPLPMDL0020000001	Cleveland	OH	44106	1/8/2014	Visited Anes/Pain and Oncology depts, Left Butrans Initiation/Titration guides along with OxyContin PI, Requested Lunch Anes/Pain appt with Terrah
PPLPMDL0020000001	Cleveland	OH	44104	1/8/2014	Quick OxyContin reminder Q12h, 7 tablet strengths,Dr. said ok will discuss further at confirmed lunch
	Akron	OH	44333	1/8/2014	Spoke with dr Vucetic and Elise Leanne about Butrans and OxyContin. Dr said they tried to prescribe Butrans a number of times today. I asked why he just said that there were three patients and one patient just had too many piou on board and needed to be tapered down before Butrans would be appropriate. Dr said despite his best efforts, the other two patients just didn't want to wear a patch. I told dr he's usually very good at discussing Butrans effectively with his patients and get them to try it. Dr said these two patients were both in their 40's and didn't want to wear a patch at work. I asked him if he was going to use OxyContin for his patients already on Percocet and he said he has been using more of it lately. I asked for continued support.
PPLPMDL0020000001	Cleveland	OH	44104	1/9/2014	Saw Dr. in hallway, reminded of Butrans for those patients requiring around the clock analgesia, Said Ok and will continue to look for new appropriate patients
PPLPMDL0020000001	Cleveland	OH	44104	1/9/2014	Reviewed OxyContin Q12h, 7tablet strengths along with Butrans for those Tramadol failures requiring around the clock, Dr. agreed those are appropriate patients, once they are on the Short Acting to hard to convince to start on Butrans, Dr said she will continue to find appropriate patients
	Cleveland	OH	44104	1/9/2014	Reviewed OxyContin Q12h, 7tablet strengths along with Butrans for those Tramadol failures requiring around the clock, Dr. agreed those are appropriate patients, but practicing Interventional Cardiology she rarely treats pain long term, but will consider if appropriate
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/9/2014	I reviewed the opioid experienced trial with dr. Discussed all key points and asked him his thoughts. Dr said he agrees and its good to hear about patients included in the trial and those excluded. Dr said that he doesn't use fentanyl but has many patients on hydrocodone and ultram. Dr said he has seen good pain score reduction and for the most part his patients are happy with it. Discussed more about patient type selection and reviewed Scott and nancy. Dr said he will continue to prescribe new Butrans and refill as long as patients see results. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/9/2014	Followed up with dr about using OxyContin as his go to ER opioid choice. I explained the dosing flexibility and the reformation by using the approved piece. Told dr about the potential \$90 savings and asked him to use hem more often. Dr said he tries but had lots of patients that aren't eligible. I reminded him about thinking of Butrans as hi schedule 3 ER opioid option for one on vicoden who need a dose adjustment. Dr said he still probably won't use it. I attempted to explain the product to him discussing parity types.
	Akron	OH	44312	1/9/2014	Donna called me this morning to ask about a patient taking a copay card to the pharmacy and the pharmacy not accepting it. I asked her if it was private prescription insurance patient. Donna said it is a Caresource patient. I told Donna about how no federally funded programs like Caresource accept cards. I explained the PA to Donna and she said they would work on it. Went to office and saw Donna and dr McRoberts who prescribed Butrans. Dr said they got it approved and I was very helpful in making sure the patient got the medicine. I asked dr about the patient and why he thought Butrans? Dr said the patient had been on vicoden for a long time and thought it would work well. Dr said he thinks he started the 10mcg. I reminded dr about titration and to make sure to not immediately is notice vicoden. Dr said he's not but will begin to taper the vicoden down. I asked dr for continued support.<font color=blue><b>CHUDAKOB added notes on 01/16/2014</b></font>Nice job Cliff!
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/9/2014	Short conversation as he said he had lots of charts to complete before he starts his afternoon. I told dr that when using Butrans, the patient type selection is vitally important. I reviewed the inclusion and exclusion criteria for Butrans and told him that leaves mostly patients on ultram, hydrocodone and Percocet. Dr said he doesn't have many patients on Percocet. I told dr that's fine and to focus on oatiens needing an adjustment on ultram and hydrocodone. Reviewed appropriate starting doses, titration and insurance overage. Dr said he has had good success and will try to write more because he thinks its a good product.
PPLPMDL0020000001	Euclid	OH	44117	1/9/2014	Dr M not in, Dr Demico already left. Spoke with Jennifer. Discussed & left urine screen panel; when drs write Butrans, depending on lab: they must ask for Buprenorphine results. Left OTC visual aid, Senokot. Left packet of info for dr d & Butrans doser, as he misplaced previous one I gave him. D in FRI 9a-12n. Jennifer says don't leave savings cards for either product as drs don't remember to hand out.
PPLPMDL0020000001	Cleveland	OH	44104	1/9/2014	Discussed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures who require around the clock analgesia. Said he will consider
PPLPMDL0020000001	Norton	OH	44203	1/10/2014	Scheduled a lunch, need to find out why they don't write Butrans and what they think of OxyContin. Spoke to Pam the office manager today. They got a new doctor, will enter him into computer today.
PPLPMDL0020000001	Cleveland	OH	44104	1/10/2014	Reviewed OxyContin/Butrans, with Hakeem, opening up another pharmacy on Payne avenue, no new info learned
PPLPMDL0020000001	Cleveland	OH	44127	1/10/2014	Reviewed OxyContin Q12h, 7tablet strengths along with Butrans for those Tramadol failures requiring around the clock, Dr. agreed those are appropriate patients and will keep in mind
PPLPMDL0020000001	Barberton	OH	44203	1/10/2014	I said be reminder today...focused in the Scott profile. Asked for appropriate patients to cover them to Butrans. I asked if he had any problems doing this and he said no. L
PPLPMDL0020000001	Akron	OH	44308	1/10/2014	MSL email communication with Ms. Tonni to provide study updates and inquire about options for next MSL visit. PRA visit pending in February, MSL may join.
PPLPMDL0020000001	Norton	OH	44203	1/10/2014	Spoke to Rebecca and Julie about Butrans. Left patient profile for np who changed her name when she got married.<font color=blue><b>CHUDAKOB's query on 01/15/2014</b></font>Who are Rebecca and Julie and what did you discuss with them about Butrans?<font color=green><b>BARTOLI's response on 01/15/2014</b></font>They are the nurses that I met. And yes I scheduled a lunch and discuss Butrans with them.<font color=blue><b>CHUDAKOB added notes on 01/16/2014</b></font>OK. Thanks! Your call notes should include not just that you did discuss, but what you discussed on the call.
PPLPMDL0020000001	Norton	OH	44203	1/10/2014	Spoke to Pam the office manager and she told me there is a new dr I lodi. Left Butrans information and coupons.<font color=blue><b>CHUDAKOB's query on 01/15/2014</b></font>Lisa, was there a product discussion? It only looks like you left information, and in the product presented section it says OxyContin? Can you please clarify?<font color=green><b>BARTOLI's response on 01/15/2014</b></font>Yes, I spoke the office manager regarding OxyContin. I got out the product name, dosage and I wanted to talk to the dr about the molecule and ts delivery system. The manager did not want to hear anything further about the product because she said she has no involvement on product decisions and the product discussion stopped.<font color=blue><b>CHUDAKOB added notes on 01/16/2014</b></font>OK. That is at least a better call note. I now know what you discussed and what happened on the call. Thank you!
PPLPMDL0020000001	Akron	OH	44312	1/10/2014	Caught dr in a office meeting and dr told me that she is still thinking of Butrans and may have a patient next week. I told her that she needs to think about it for those patients coming in on tramadol and need a dose adjustment. Dr said ok and to come back on Thursday next week to discuss more in depth.
PPLPMDL0020000001	Akron	OH	44312	1/10/2014	Hello at window and asked him if he has patients that are currently on Percocet? Dr said he dos but not many. I asked him if he has any of those patients that have had multiple refills and still in pain around the clock? Dr said he knows about using OxyContin. Dr asked me about conversions. I told him that Percocet to OxyContin is a 1:1 conversions and showed him the profiles. Dr said ok and will try. Told dr to continue using Butrans for those Patients on ultram who need a dose adjustment.
PPLPMDL0020000001	Tallmadge	OH	44278	1/10/2014	Spoke with Aubrey the pharmacist about Butrans and OxyContin. I told Aubrey about patients who are good candidates for Butrans and asked her if she has seen any of them being switches to Butrans? Aubrey said that they have been filling more Butrans recently and from what she remembers many of them were coming from vicoden or Norco. I told Aubrey that's great and explained the patch make up and application sites. Discussed copay cards and trial offer. I asked her if they are still filling OxyContin? She said they are and have all doses in stock. I reviewed copay cards.
PPLPMDL0020000001	Cleveland	OH	44109	1/10/2014	Reviewed OxyContin/Butrans with Mana RPH, still seeing some Butrans from Torres and Nickels, nothing else learned
PPLPMDL0020000001	Munroe Falls	OH	44262	1/10/2014	Switched dr this quarter to an OxyContin core. I spoke to what we have spoken about as a district about using more of a scientific approach to OxyContin. I discussed OxyContin and IR oxycodone and the delivery systems. Spoke about how OxyContin is a single entity opioid. Discussed OxyContin half life and steady state and the significance of it with titration every 1-2 days. Dr said she was happy for the science lesson and was a good refresher. I asked her to take patients already on IR oxycodone who need an adjustment and move them to the q12 oxycodone. Dr said She will. Reviewed Butrans dosing and patient profiles and told her to use it for her patients who need dose adjustments on ultram.
PPLPMDL0020000001	Cleveland	OH	44109	1/10/2014	Visited PMR/IM depts left Butrans Initiation/Titration guide along with OxyContin PI
PPLPMDL0020000001	Cleveland	OH	44127	1/10/2014	Reviewed Butrans for those patients who have failed on Tramadol and are requiring around the clock analgesia along with OxyContin Q12h and 7tablet strengths, said Ok will consider, Asked Josie for assistance in PA process
PPLPMDL0020000001	Brooklyn	OH	44144	1/10/2014	Quick OxyContin reminder Q12h, 7tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider. Booked lunch appt
	Akron	OH	44310	1/10/2014	Short conversation in his lab and followed up from the last call. I told dr he seemed a little frustrated when it comes to treating patients for pain. Dr said he wasn't frustrated at me for dosing my job and said that he understands, where Butrans should be used. Dr said he just needs to decide who he's keeping and who he is referring. I told dr we need to speak about it and he told me he's way behind and will next time. Nothing else
PPLPMDL0020000001	Brooklyn	OH	44144	1/10/2014	Quick review of OxyContin Q12h, 7tablet strengths along with Butrans for those Tramadol failures who require around the clock analgesia, said Ok but really doesnt treat chronic pain, especially at this location (Urgent Care)
PPLPMDL0020000001	Cleveland	OH	44144	1/10/2014	Reviewed OxyContin Q12h, 7tablet strengths along with Butrans for those Tramadol failures requiring around the clock, Dr. agreed and will consider
PPLPMDL0020000001	Barberton	OH	44203	1/10/2014	Dr wasn't available to speak with. Spoke to nurse about butrans and reviewed the initiation guide. She said she doesn't do any education and that she would pass the information to the doctor. She does not handle the p. authorizations.

	Tallmadge	OH	44278	1/10/2014	I led off conversation with the hydrocodone insight. I asked his thoughts and he said he believes it. I asked him why he thinks that is and he said mostly because its easier to refill a short acting medication. I asked r what he's going to do to help change that statistic? Dr said he had used Butrans and not everyone needs a ER opioid. I told him I completely agree and asked him which ones in his opinion do? Dr said the ones who have a chronic pain condition and have severe pain every day. I told him that's why he needs to use Butrans for those patients and outlined the viconden patient profile. Dr said he gets it and will try to use more in 2014. I told him its in his computer and reminded of copy cards. Told dr to also not forget about OxyContin for those patients of his already on oxycodone who need a dose adjustment. Dr said ok.
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Saw dr thru window, handed him profiler with initiation information. Also reviewed what schedule it was and how long they were the transdermal Butrans patch. Dr asked about cost, which was reviewed.
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Review David profile. Dr agreed it made sense and said he would write it for the appropriate patients. Dr also agreed that writing OxyContin after Percocet made sense for the appropriate patient type.
	Stow	OH	44224	1/13/2014	Caught Abby in back hallway and gave her a Butrans message. I showed her the Scott profile and asked her if she has any patients already on tramadol? Abby said she does but most are on viconden and Percocet. I told her that's ok because she can use Butrans for patients on tramadol or viconden who need a dose adjustment. Abby said thanks for the message and asked about any new insurance coverages. I told her Aetna is now coverages
PPLPMDL0020000001					2nd tier for commercial and told her not remember Caresource and BWC coverage.
PPLPMDL0020000001	LAKEWOOD	OH	44107	1/13/2014	Giant eagle said they are ordering hydrocodone any longer. Discussed OxyContin, they don't have schedule 2 products on shelves. Patients can get Butrans.
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Stand up. I asked dr when he reasses his Percocet patients if they were appropriate for a different delivery system. Asked him if my request to convert those patients on short acting oxycodone to OxyContin if appropriate made any sense to him. He said yes and that's what he already does.
	Lakewood	OH	44107	1/13/2014	Lunch. Dr said she writes most of her oxycontin in the nursing home setting for more severe chronic patients. Dr said she doesn't write much schedule 2 products unless they are severe pain. We reviewed the profiles of the core visual aid. I said George comes to mind them, she said yes. I said that was great and supported the profile if appropriate and showed her the maggie profile. I said if a patient were appropriate why not keep OxyContin as a consideration? She said maybe. I said if someone were already on the oxycodone molecule, short acting like Percocet and them needed atc continuous pain would ten OxyContin make sense. She said yes. Discussed Butrans, she said she hasn't gotten comfortable with the product yet. Basic review of Butrans. Did did not commit to trying the product.
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Discussed OxyContin and Butrans basic indication for Kelly he nurse.
PPLPMDL0020000001	Lakewood	OH	44115	1/13/2014	Quick Butrans/OxyContin inquiry, George Rph was running behind couldnt talk, said to stop back
PPLPMDL0020000001	Cleveland	OH	44224	1/13/2014	Spoke to rick the pharmacy technician about Butrans and asked hi. How much he's seeing? Rick said they continue to see about 3-5 a week. I told him that's great and if they have had any issues with insurance coverage?
PPLPMDL0020000001					Rick said he doesn't know but doesn't think they have had any issues.
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Dr didn't have much time- for those patients on a short acting oxycodone not controlled, would you consider converting them to OxyContin if they need atc continuous pain relief and were appropriate? Dr said yes but it depends. Dr said he doesn't like to treat chronic and that he is not using as much schedule 2's. I asked if he was writing any opioids, he said yes but less and less.
PPLPMDL0020000001	Uniontown	OH	44685	1/13/2014	I told dr to continue prescribing OxyContin and asked him if he has any issues lately that I can help with or an successes? Dr said everything is going pretty smoothly except for a few patients changing insurances who are having trouble getting their medicine. I told dr that there was a patient that switched Medicare D plans in the new year and needed a pa on he new plan to continue OxyContin. Dr said he's glad the patient was able to still take it. Dr said its a very difficult to keep up with the plans and coverages. I told dr I supply his home office with all managed care information when they need to refer to something. Dr said thanks
PPLPMDL0020000001	Fairlawn	OH	44333	1/13/2014	Good discussion surrounding OxyContin and Butrans. Talked about OxyContin pharmacokinetics, patient toys and insurance along with conversions. Dr said she typically goes through the short actings first but likes to get patients on ER opioids once she knows the patient is chronic. I asked when that is and she said anywhere from 3-6 months. I asked her to evaluate her patients for it when they need a dose adjustment on Percocet. Butrans schedule 3,7 day patch for moderate to severe pain. Discussed patient profiles, conversions and initiation with titration. Dr said it sounds like a great product and will look to use it.
PPLPMDL0020000001	Cleveland	OH	44195	1/13/2014	Visited Ortho Dept. Left OxyContin PI along with Butrans Initiation/Titration guides requested appt with Dr. Joyce,Krebs,Rosneck, Sferna and Schneider
PPLPMDL0020000001	Cleveland	OH	44195	1/13/2014	Visited Dept. Left OxyContin PI and Butrans Initiation/Titrations guides requested appts with Targeted clinicians
PPLPMDL0020000001	Cleveland	OH	44195	1/13/2014	Visited Tausig ONC dept. Left OxyContin PI and Butrans Initiation/Titration guides for Dr. Sobechs,Rini,Pelley, Moore,Jersan,Guttsel,Davis,Garcia, Fowler, Faiman. Estfan,Budd and Advani
PPLPMDL0020000001	Cleveland	OH	44195	1/13/2014	Visited Rheum. Dept. Left OxyContin PI and Butrans Initiation/Titration guides requested appt with Dr. Deal,Calabrese and Chatterjee
PPLPMDL0020000001	Cleveland	OH	44195	1/13/2014	Visited Rheum/Ortho Depts Left Butrans Initiation/Titration guide and OxyContin PI and requested appts with Targeted clinicians
PPLPMDL0020000001	Akron	OH	44333	1/13/2014	Becky participated in lunch discussion. Becky said that she is completing her masters degree in nursing and until then she will not see patients for pain or write medicines. I discussed with her the OxyContin pharmacokinetics and mechanism of action. Discussed patient profiles and insurance information. Discussed Butrans dosing, conversions, titration, patient profiles and insurance information. Becky said she has the
PPLPMDL0020000001	Mayfield Village	OH	44143	1/13/2014	Lunch. Discussed OxyContin half life of 4.5 hours. Steady state, ability to titrate every 24-36 hrs if needed. OxyContin is PH independent, & what that means for his patients. Please consider for non cancer pain, if patient on oxycodone or Percocet. & may benefit from an extended or controlled release product as OxyContin. Showed q 12h dosing schedule in visual, no well controlled. Studies existing regarding dosing outside of the recommendation, since most of his patients are geriatric, discussed broad Medicare coverage.dr as you know, Butrans, is another option for pain, we discussed last year. What are your concerns, if any? I'm concerned about cost for my Medicare patients. Discussed coverage & moved on to safety & efficacy. Dosing for naive & experienced he had me go through the dosing slider with him 2x. He states he's getting more comfortable with consideration of a few Butrans trials. Showed Patch & disposal unit demo. He promises to start a few patients on Butrans.
PPLPMDL0020000001	Akron	OH	44320	1/13/2014	Saw dr as she came up front to discharge a patient. She asked me if she needed to sign for samples. I told her no because I have OxyContin and Butrans. Dr asked me if I had anything she can look at for Butrans. I gave her a initiation and titration guide. Dr said she will review and to set up a lunch. Nothing else learned.
PPLPMDL0020000001	CLEVELAND	OH	44195	1/13/2014	Visited Pharm. Spoke with tech. Stacy, Troy was busy, No OxyContin savings cards needed, no new info
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Saw dr. Dis uses OxyContin and his patients that might be appropriate for a continuous atc pain option that q12. Dr said he feels that oxycontin is a good product in the right patient. Discussed his intest in trying Butrans for those moderate pain patients needing atc pain relief. We talked about the patient who is currently in vikodin not controlled and needing a new option. Dr said giant eagle today said they are not carrying any hydrocodone products. And that it was going schedule 2 as of Tuesday. Dr asked if I knew, which I did not but called my manager and he was going to look into it. Dr also said that he got the letter to fill out from medical affairs, he said the patient wasn't returning their calls to collect the information.
PPLPMDL0020000001	Euclid	OH	44117	1/13/2014	Met with Helen & med asst Lori. Asked them if all. Payment s are through BWC OHIO. They responded no, some commercial/ cash/ private. Explained how Butrans & OxyContin cards should work. They also stated they DO NOT hand out OTC samples @ this location.( Chiropractor uses same check in desk, as pain/ rehab patients ) dr said he tried to write a Butrans for a patient on 4 Percocet daily (Male Moufawad patent) patient still in pain, Moufawad would not increase Percocet, patient came to dr d to discuss. Dr d gave him Butrans script but Pharmacist would or fill. Pharmacist says patient must be weaned down on Percocet prior to adding Butrans, I responded to dr d that that is correct. Patient should be on 30-80 mg morphine equivalent when starting Butrans dr stated when patient comes back next month, he will try again & let patient know e can have 1 - 2 Percocet daily only with Butrans. Another option for this patient convert to OxyContin q 12 h. Dr behind, needed to get back into patient room, told him I'd follow up next week in Euclid at lunch.
PPLPMDL0020000001	Lakewood	OH	44107	1/13/2014	Saw dr. Asked him what information I could bring about OxyContin today that would be helpful. He asked about managed care which I covered and also covered Butrans. I brought up the start principal of OxyContin of assessing and tailoring. I asked dr when a patient is currently n a short acting oxycodone yet not controlled, wouldn't it make sense to stick with the same molecule, perhaps tailor the dose and q12h with the extended release delivery system for those appropriate with OxyContin. Dr agreed.
PPLPMDL0020000001	Akron	OH	44313	1/13/2014	Allowed to go back and speak with dr in his lab. I used the patient profile Maggie for OxyContin and asked him if he also has patients that are already on oxycodone and may need a dose adjustment? Dr said he does but said that that not all are going to be good of OxyContin. I told dr I totally agree that an ER opioid is not for everyone. I asked him if he has patients that he has refilled 6 times or more for a IR oxycodone? Dr said he probably does. I told dr that's where he needs to focus. Dr said ok. I talked about conversions for OxyContin and Butrans. I reminded dr that he should focus on his patients on tramadol for Butrans initiation.
PPLPMDL0020000001	Fairlawn	OH	44333	1/13/2014	Good discussion surrounding the OxyContin pharmacokinetics. Steady state, half life and delivery system. I asked dr what he thinks about that information and what the significance of it is. Dr said that OxyContin is an ER opioid because of how it releases oxycodone and said he thinks there are layers in the pill that release over time. I told dr that is exactly correct. I asked dr what his algorithm is for treating pain? Dr said he starts with NSAIDs, then ultram, viconden and Percocet. I asked dr why he goes from one IR opioid to another all the way up to Percocet? Dr said not all patients go through that treatment. I asked him what he does after Percocet? Dr said he will go to OxyContin. I asked dr to evaluate patients for OxyContin sooner while already on IR oxycodone. Discussed Butrans and asked him if he has any issues with the medicine or how it works? Dr said no. Dr said he just forgets about it and its expensive. I asked dr where its expensive? Dr said he thinks Caresource and Medicare. I asked dr how he knows that? Dr said he figures it is. I told dr he perception of insurance coverage for Butrans is off. I asked dr which plans are most important and he said Medco and medical mutual. I discussed coverage along with Caresource PA and reviewed trial off and copy cards. I told dr I'm in here almost each month so he doesn't forget about it and will focus on it with him.<font color=blue><b>CHUDAKOB's query on 02/03/2014</b></font>-Cliff, where did you get the information about our delivery system having layers and releasing over time. I am wondering where you saw this?<font color=green><b>REICHCL's response on 02/06/2014</b></font><b>Don't know. I was just going off what the physician said. I guess I should have told him I don't know.</font><font color=blue><b>CHUDAKOB added notes on 02/10/2014</b></font><b>Please be careful in what you say. We do not have any data to explain what our delivery system looks like or how it releases oxycodone. Perhaps another opportunity for an eMERF if the physicians was that curious.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/13/2014	Quick OxyContin reminder Q12h, Tablet strengths, Savings cards along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, was way behind today, booked lunch appt for next week
PPLPMDL0020000001	Akron	OH	44333	1/13/2014	Dr said he is way behind and didn't have time to talk. I told him we need to speak about OxyContin. He asked me what about OxyContin? I told him I wanted to talk with him about what ha doing with his patients on IR oxycodone and when he sees the need to switch to OxyContin? Dr said that conversation will take some time. I told him to switch those patients to OxyContin when they need a dose adjustment. Dr said ok. I told him to continue finding candidates for Butrans especially patients on ultram and viconden also needing a dose adjustment. Dr said ok and to check copy cards which the didn't need.
PPLPMDL0020000001	Mayfield Heights	OH	44124	1/14/2014	Dr C left early. Spoke with med asst Tesla Left OxyContin slim jim, and Butrans marketing piece for both Dr. C and Dr. E. Discussed both options: one in oral, controlled release tablet; the other, a 1 x week transdermal patch.
PPLPMDL0020000001	Mayfield Heights	OH	44124	1/14/2014	Was able to schedule breakfasts in Feb/March.
PPLPMDL0020000001	Mayfield Heights	OH	44124	1/14/2014	Gina across street at Hillcrest. Left packet of info with Butrans dosing slider. OxyContin slim jim. Met with office coordinator, let her know as soon as new Butrans med guides are printed I will drop off, as dr salama & his med assts requested. Discussed Purdue pain mgt kit & left web key for all HCPs. NOTE DR ENGLUK YAP. LEFT PRACTICE. didn't let anyone know where he was going; don't know if he's still in Ohio either.
PPLPMDL0020000001	Cleveland	OH	44113	1/14/2014	Reminded of Butrans for those LorTab failures, reviewed Butrans experience program again, Said she is working on introducing Butrans to all appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	1/14/2014	Quick reminder on Butrans for those LorTab failures requiring around the clock analgesia, said she is introducing Butrans to the appropriate patients on every visit. Also, OxyContin Q12h
PPLPMDL0020000001	Mayfield Heights	OH	44124	1/14/2014	Spoke with Autumn, as Warren was on phone. Discussed how the Butrans trial/savings and the \$90 off monthly copay for OxyContin are designed to work. Reminded of 4 Butrans strengths. They don't need any savings cards at this time. Nothing new to report since last visit.
PPLPMDL0020000001	Cleveland	OH	44195	1/14/2014	Requested Appt. for OxyContin in-service. Dr. stated he does not prescribe/treat pain
PPLPMDL0020000001	Stow	OH	44224	1/14/2014	Spoke with Mike the pharmacist. I asked him how familiar he is with Butrans? Mike said they see a good amount of it from Western Reserve Pain. I told Mike that's great to hear. I told him about patient types, conversions and copy Cards. I asked him about OxyContin and if they dispense it? Mike said they do not have it in stock. I asked why and he said they don't see prescriptions for it. I asked him if they dispense any schedule 2 medicines and he said not really. Nothing else learned.
PPLPMDL0020000001					

PPLPMDL0020000001	Lyndhurst	OH	44124	1/14/2014	Dr Isakov recently started a BWC patient on Butrans 10 mcg hr. He wanted to know if BWC always requires a prior auth. I told him it would depend on the company the employee is working for. Typically it should not. Discussed ability to titrate after 72 hrs if necessary, also discussed supplemental analgesia (non opioid or short acting opioids) for break through pain, especially the first 72 hours. Dr had 2 medical students. Spent time discussing both products with the students. Another option for pain dr is controlled release OxyContin, which is dosed @ 12 h. Showed detail aid, 8am and 8 pm. Seven doses available, Steady state achieved in 24-35 hours, so titration possible every 1-2 days, dr repeated that he's more likely to use Butrans.
	Mayfield Hts	OH	44124	1/14/2014	Dr Laham asked again about Butrans patient guides to distribute. I told him I'd follow up with Purdue & get back to him. He also wanted to know if I left savings cards, let him know I did. Discussed 15 mcg hr titration dose ( insight) greater dosing flexibility with Butrans. He just hasn't had to titrate to 15 mcg hr yet. OxyContin, ir Percocet insight. If patients actually follow q 6 h dosing schedule, they will have to set alarm @ 2 am each night & take their pain med. A q 12 h controlled release medication, such as OxyContin would be dosed 8 am and 8 pm. So dr, please consider re assessing your Percocet patients & see if they might benefit from conversion to controlled release, long acting product. So moving forward, remember Butrans after 4 Tramadol, when patient needs more analgesia and branded OxyContin controlled release, when short acting or immediate release agent is no longer working.<font color=blue><b>CHUDAKOB's query on 01/31/2014</b></font>Jenny, if a patient is on Percocet, there is no guarantee that they will have to set an alarm at 2AM, or that they wouldn't want to. In addition, 8AM and 8PM dosing of OxyContin is only a suggestion. You have to be very careful that you are not implying that our dosing schedule is "better" in any way shape or form. I know you didn't say better, but the implication is there. Does this make sense?<font color=green><b>BALLIE's response on 02/03/2014</b></font>Got it, makes sense.<font color=blue><b>CHUDAKOB added notes on 02/03/2014</b></font>Thank you Jenny! This is important so please be careful on what you say.
PPLPMDL0020000001	Akron	OH	44312	1/14/2014	Good discussion over lunch about the doctor's experience with Butrans. Dr said that his experience has been positive and said that the patients he has put on it follow exactly what I have been talking about. Dr said he has a number of patients he started on Butrans who were not getting adequate control with tramadol and said that the other have been on vicoden. Dr said that some patients need something for breakthrough and others don't need anything. I reviewed the conversions, titration, and inclusion and exclusion criteria from clinical trials. Asked dr for continued prescriptions of Butrans. Discussed OxyContin indication, dosing, conversions, steady state, titration, and elimination half-life. Discussed Delivery system of OxyContin and asked for his business from patients already on IR oxycodone who need a dose adjustment. I asked dr if he feels comfortable writing OxyContin and he said he has no problem and does when necessary. I asked for more support of the product in the right patients.
PPLPMDL0020000001	Cleveland	OH	44109	1/14/2014	Visited Ctr. Dept. Left OxyContin PI and Butrans Initiation/Titration guides for Dr.'s Baker,Campbell,P.Campbell,Dhillon, Dietz,Corrigan,Geho,Gemechu,Leake Westfall and Zabak
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/14/2014	Dr didn't have much time to talk today and I asked him for more OxyContin prescriptions in those patients already on it oxycodone. I discussed steady state, titration and half life. Dr said we will discuss more next time. Told him not to give up on the option of Butrans for patients on vicoden who need a dose adjustment.
PPLPMDL0020000001	Uniontown	OH	44685	1/14/2014	Spoke with Kim the pharmacist and asked if she is seeing any new patients on Butrans? She said maybe one since the new year but said patients are being titrated that have been on it. I told her that's great to hear and discussed steady state and titration along with appropriate starting dose. I reminded her of the trial offer and copy card. Asked about OxyContin and if patients are also being titrated. Kim said those patients tend to be more steady on a particular dose. Discussed patient profiles and dosing structure. I asked if there are any pending pa's for either product and she said no.
PPLPMDL0020000001	Highland Heights	OH	44143	1/14/2014	Lunch. Pain insight. Pain reduction cores, BUP 3015. Went through dosing for opioid naive & experienced. Discussed Morphine equivalency. Ability to titrate in 72 hrs. Supplemental analgesia Discussed. Dr says he tells patients Butrans analgesia should take effect in 3 days. Dr forgot that we have a 15 mcg hr dose, reminded him max dose still 20 mcg hr. we went through sliding doser, ich he says is very helpful. Asked when savings card expire, I responded I have new ones that don't expire til 3/31/2015. He asked for 2 packs. Transitioned to OxyContin. He has about 5 existing patients on OxyContin; which he will continue. However, he will not write any new. This was in response to me telling him about OxyContin essentials kit.
PPLPMDL0020000001	Akron	OH	44312	1/14/2014	Discussed Butrans with Janet and dr Jonsdorf as well as OxyContin. Discussed Butrans dosing, indication, titration, appropriate starting dose and patient profiles. Reviewed copy cards and insurance coverages. Janet said she has not had any patients for it yet but said she plans to start using this year. Janet said that she sees herself using it for parints on vicoden who are still in pain. I told her that's great and reviewed Scott profile.
PPLPMDL0020000001	Cleveland	OH	44114	1/14/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, along with OxyContin Q12h, 7tablet strengths, Said he had a recent Butrans success, patient was very pleased with the results, said he is always looking for new appropriate Butrans starts.
PPLPMDL0020000001	Akron	OH	44310	1/14/2014	I asked dr if he has had any new Butrans patients in 2014? Dr said he has not but said he went to a pain conference in Columbus recently where the speaking was speaking on opioids and Butrans being one of them. Dr said most information was very positive but said that its too difficult to find a specific morphine equivalent for OARRS. I asked dr if he's concerned with that and he said not really. I told dr to focus on his patients already on vicoden who need a dose adjustment and showed him the Kathy profile. Dr said ok and may have a patient this week.
PPLPMDL0020000001	Richmond Heights	OH	44143	1/14/2014	Too busy to check stocking. Staff pharmacist Mel says they do have Butrans ( no 15 mcg hr dispensed yet); they dispense OxyContin ( no 60, 80 mg ). Discussed product indications, trial & savings both products. Left OxyContin pharmacists guide. Left Butrans NDC code / FPI booklet. Discussed resources available from Purdue including RX patrol.
PPLPMDL0020000001	Brooklyn	OH	44144	1/14/2014	Saw Dr. in hallway. Quick OxyContin reminder, Q12h along with encouraged to use those Savings cards for commercial ins. patients. Said he will keep it in mind
PPLPMDL0020000001	Lyndhurst	OH	44124	1/14/2014	Goal of call was to encourage Dr Kim to utilize OxyContin patient essentials kit. Went through each piece of kit with him. Focused on patient education, and how kit encourages patient to track pain experience and will have specific info written down to share with dr and his nurse. This can save him and his staff time; while also helping the patient. He says he will try to remember to hand them out. Dr can I place these on your desk, so you don't forget? Yes, dr replied. Ok, great, and one more thing. A reminder, you have another option for pain, 1 x week Butrans transdermal system. We've discussed previously that your BWC patients can access Butrans. Ok, I will keep that in mind, dr responded.<font color=blue><b>CHUDAKOB's query on 01/31/2014</b></font>Jenny, Very nice! I really like how you started with the goal. Your next call objective might be a good place to write the "Goal" for the next call. It can be the same goal. For example! GOAL: gain commitment from Dr. to hand out one kit to a patient like Maggie, which we will discuss on the call. One step at a time and you took the first step. I like how you asked to place on his desk. Keep working at it.<font color=green><b>BALLIE's response on 02/03/2014</b></font>Thanks for the advice Barry! I will keep at it!<font color=blue><b>CHUDAKOB closed the query
PPLPMDL0020000001	Cleveland	OH	44144	1/14/2014	Reviewed OxyContin Q12h, 7tablet strengths, Savings cards along with Butrans for those Tramadol failures requiring around the clock analgesia, Said she is treating /seeing more pain patients due to Dr.Hilton's recent retirement, Will consider, struggles with PA's but will keep in mind.
PPLPMDL0020000001	Berea	OH	44017	1/15/2014	Spoke to jasmín the nurse. Reviewed OxyContin and Butrans delivery systems and dosing, she said she would pass the n formation over to the doctor.
PPLPMDL0020000001	Berea	OH	44017	1/15/2014	Saw dr. Asked him what patient type comes to mind when you choose OxyContin? He said usually the older patients that require an extended release product. I said its a q12h remember and that's great. For those patient currently on a short acting OxyCodone molecule that you think it's time to convert them to an extended release option. I'd like to remind you that OxyContin is the same molecule just inthadifferent delivery system. Is this thing that makes sense to you? He said sure. Left him Butrans profile and reminded hi not the strengths available for his new start patients on Butrans.
PPLPMDL0020000001	Cleveland	OH	44112	1/15/2014	Reviewed OxyContin 7Tablet strengths, able to Titrate in 1-2days, Q12h. Also reminded of Butrans for those patients requiring around the clock analgesia, Said She is not treating any new patients, frustrated with pain mgmnt. but will consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44109	1/15/2014	Presented OxyContin Q12h, 7tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said in present position (Stroke rehab etc.PMR) not treating chronic pain, but will keep in mind for future appropriate patients
PPLPMDL0020000001	Stow	OH	44224	1/15/2014	Quick hello in stow office. I told dr to continue prescribing OxyContin for his patients already on IR oxycodone and where most of his OxyContin prescriptions are coming from? Dr said many different places and he is usually treating chronic pain like spinal stenosis. I told dr that's good to know and thanks. I reminded dr that he can use OxyContin 10mg for patients on 20mg Percocet who need a dose adjustment. Dr said ok and thanks.
PPLPMDL0020000001	Akron	OH	44320	1/15/2014	Recapped last conversation about patients types for Butrans. I told her that she told me that most of her patients in pain are one one of two products which are vicoden or Percocet. I reviewed the vicoden profile of Butrans and told her to take that extra minute with those types of patients who may need a dose adjustment and write Butrans. I told her that Percocet patients may be more appropriate for OxyContin. I asked her if she has any issues writing OxyContin? Dr said not really but doesn't like to. I asked her if she writes or refills OxyContin? She said yes. I told her that OxyContin is OxyContin in an ER delivery system for 13 hours. I also told her that OxyContin is a single entity opioid. I asked her if that information makes her feel any better about prescribing it? She said she's getting there. I told her I will continue trying with her.
PPLPMDL0020000001	Akron	OH	44320	1/15/2014	Quick messages for Butrans and OxyContin. I told dr that he needs to gain more clinical experience with Butrans and I know there is a lot of opportunity in his practice. Dr said ok and he will try. I told him to focus on vicoden patients with private insurance, Caesource or BWC. Told him that OxyContin can also be a solution for his patients continuing to be refilled on Percocet and still in pain.
PPLPMDL0020000001	Fairlawn	OH	44333	1/15/2014	Spoke to sue and Gilbert about dr Balters patient on a hold for OxyContin due to insurance change in 2014. Gilbert told me that the patient was approved to get OxyContin after the prior authorization was put though for the second time. Gilbert said most patients will gain approval after switching insurances as long as it was proven to work prior to the change. Told him that's great to hear and asked him if he has seen any new Butrans? Sue to told me she just filled a referral for Butrans for dr Fouad.
PPLPMDL0020000001	Cleveland	OH	44106	1/15/2014	Visited Dept. requested in-service with fellows and attendings. Left OxyContin PI's and Butrans Patient info Booklets
PPLPMDL0020000001	Akron	OH	44308	1/15/2014	Spoke with Mary a nurse in the Akron Burn Center. I asked to speak to the nurse manager Chrisadise and was told she was in a meeting. I left my card and told Mary about doing an OxyContin inservice for residents. Mary said it would be like a good idea and said the residents would appreciate it. I told her to tell her nurse manager about it.
PPLPMDL0020000001	Cleveland	OH	44195	1/15/2014	Requested OxyContin Q12h discussion/appt. Dr. declined
PPLPMDL0020000001	Cleveland	OH	44195	1/15/2014	Requested appt to discuss OxyContin Q12h, Butrans. Dr. declined further discussion
PPLPMDL0020000001	Stow	OH	44224	1/15/2014	Dr told me that him and dr Spittler wanted some intermezzo patient savings cards and wanted samples. I told him that we now have 5 free pills with the copy cards. Dr said that makes sense. Dr said there are some patient who they will be placing on it. I told dr that's great and gave him the cards. Told dr to not forget about OxyContin and Butrans and to identify patients on IR opioids who need dose adjustments. Dr said he has my information on his desk. I told him to gain clinical experience.
PPLPMDL0020000001	Cleveland	OH	44195	1/15/2014	Reviewed OxyContin Q12h, 7tablet strengths along with Butrans for those patients requiring around the clock analgesia, said to book appt. to further discuss
PPLPMDL0020000001	Cleveland	OH	44195	1/15/2014	Contacted Dr. in regards to OxyContin Q12h, 7tablet strengths and savings cards. Dr. is the Palliative Care specialist, refers most prescribing decisions to Dr. Gforth
PPLPMDL0020000001	Akron	OH	44333	1/15/2014	I asked dr when patients come to see him how many prns have they been on? Dr said usually about 3 prns and they are ready for long acting opioids. I told him that's good to hear and the last time we spoke he had a couple of patients that day that did not want Butrans. I asked dr what he does to overcome that and what he gives instead? Dr said he loves Exalgo because its once a day. I asked him if that is usually goes to that and why not. OxyContin? Dr said he will usually go to OxyContin if they are already on oxycodone. I told dr that's good to hear. I told him that OxyContin is ph independent and asked what that means to him? Dr asked if that means it can be dosed once a day and said he was joking. I explained what it means for OxyContin to be ph independent and asked him if that changes anything for him? Dr said not really and he likes OxyContin but does wish it was a QD drug. I asked for more Butrans prescriptions and to choose OxyContin as another ER option.
PPLPMDL0020000001	Westlake	OH	44145	1/16/2014	Saw dr. Asked him who he is the appropriate patient for OxyContin.. He said older and those that need extended release. I said if those were on oxycodone ir and needed more pain control would you convert them to OxyContin. If they were appropriate. Dr said maybe.

PPLPMDL0020000001	Westlake	OH	44145	1/16/2014	Saw dr thru window, said I was just wondering what appropriate patient Coe s to. Nd when you think of OxyContin, he said his chronic patients. We reviewed the molecule and dosing, I asked if it made any sense to convert Percocet to OxyContin if appropriate. Dr said maybe.<font color=blue><b>CHUDAKOB's query on 02/07/2014</b></font>What are you trying to say here? "I was just wondering what appropriate patient Coe s to. Nd when you think of OxyContin<font color=green><b>BARTOLI's response on 02/10/2014</b></font>Comes to mind when you think of<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>Wow. You are good. I never would have guessed that. Thanks!
PPLPMDL0020000001	Lakewood	OH	44107	1/16/2014	Dr orra had a medical student in the office today.i had him rate how well his patients manage their pain. Dr said very poor. I asked why so low, he said they are never satisfied and they a,ways call the office for more medications. I brought the delivery system of bithoxycontin a d Butrans. Sowed core visual aid and asked if it made sense to move to OxyContin after Percocet. Dr said yes. I asked why? He said cause it was the same molecule but long acting. We talked about the delivery system. I asked hi if appropriate patients, which we discussed and reviewed the I initiation guide could manage 4 patches a month? Dr said yes, he thought a 7 day transdermal patch might work for some of his patients. We reviewed the naive study.<font color=blue><b>CHUDAKOB's query on 02/07/2014</b></font>Lisa, a couple of things here: 1) What does this mean "I brought the delivery system of bithoxycontin a d Butrans." 2) You said you talked about the delivery system. What did you discuss regarding the delivery system?<font color=green><b>BARTOLI's response on 02/11/2014</b></font>I brought up the delivery systems of OxyContin And Butrans. That both the opioid products were extended release products for patients currently needing continuous and around the clock pain relief. Showed the OxyContin visual aid asking the doctor if it made sense to convert a Percocet patient to OxyContin if appropriate. Dr agreed that moving from an OxyCodone ir to OxyContin made sense if they met the indication and it was appropriate.<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>I understand perfectly now, Thanks for the clarification.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/16/2014	Dr told me as she was coming into the office today that she has had a lot of Butrans luck recently. I told her I'm glad to hear it and asked her what some of the patients were on prior to starting? Dr said various but said the last one was vicoden about 5 times a day. I asked her to continue prescribing. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44195	1/16/2014	Visited Anes/Pain along with Neuro Depts (See CCF depts notes) OxyContin PI's and Butrans Savings cards
PPLPMDL0020000001	Lakewood	OH	44107	1/16/2014	The nurses asked me about t coverage and dosing, so I addressed it.<font color=blue><b>CHUDAKOB's query on 02/07/2014</b></font>Who were the nurses and what did you address with them? These should be included in your call notes.<font color=green><b>BARTOLI's response on 02/11/2014</b></font>I brought up the delivery systems of OxyContin And Butrans. That both the opioid products were extended release products for patients currently needing continuous and around the clock pain relief. Showed the OxyContin visual aid asking the doctor if it made sense to convert a Percocet patient to OxyContin if appropriate. Dr agreed that moving from an OxyCodone ir to OxyContin made sense if they met the indication and it was appropriate.<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>OK. In the future please include the specifics of what you discussed relating to dosing. This is important to know so you can formulate a better plan for the next call.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/16/2014	Dr said he didn't have any interest in talking about OxyContin after I asked him if he has any patients on IR oxycodone and showed him the OxyContin doses. I told dr if he already has patients on Percocet he would be interested in hearing about the other oxycodone delivery system. Dr did not respond.
PPLPMDL0020000001	Lyndhurst	OH	44124	1/16/2014	First time meeting Dr Roda. Discussion @ nurses station. Introduced my products and asked her how they fit into her treatment ladder. She likes to use "traditional" medications first, and doesn't like prescribing Percocet or Tramadol. (Concern with additions) we responded that all opioids have abuse potential. Discussed OxyContin conversion after Percocet. Discussed recommended dosing: q 12 h. Also discussed steady state & ability to titrate up or down every 1-2 days. 7 doses available. She doesn't like narcotics, but based on the practice she's in, she admits she will have to write opioids when required for headaches/migraines. Introduced Butrans as transdermal option. Reviewed opioid naiv & experienced dosing, application sites, disposal. Left dosing slider.
PPLPMDL0020000001	Cleveland	OH	44195	1/16/2014	Reviewed OxyContin Q12h, 7tablet strengths along with Savings Cards, said she has a IR Oxycodone q4-6hr patient in mind depending on ins. coverage. Discussed Butrans for those patients requiring around the clock analgesia, said as a neuro, specializing in headache, she has very few patients that she treats long term but will consider.
PPLPMDL0020000001	Cleveland	OH	44106	1/16/2014	Quick OxyContin reminder Q12h, 7 Tablet strengths along with Butrans Initiation/Titration, said OK and to book lunch in-service. Booked in-service with Terrah for Feb
PPLPMDL0020000001	Cleveland	OH	44195	1/16/2014	Visited dept reviewed OxyContin Q12h, tablet strengths/ Butrans initiation titration guides and set up appt with chief Pain fellow Dr. K.Travineck, and Grieshaber MD
PPLPMDL0020000001	Cleveland	OH	44195	1/16/2014	Visited dept discussed OxyContin Q12h, 7 tablet strengths, Savings cards along with Butrans for those patients requiring around the clock analgesia with Dr. Mays and Bamford. Left Butrans Initiaion/Titration guides for Dr.Tegger and Stewart Tegper MD
PPLPMDL0020000001	Akron	OH	44319	1/16/2014	Very constructive conversation with dr over lunch about OxyContin and Butrans. I told dr in order for me to give an effective message with OxyContin I need to learn more about his patients. I asked dr of all the IR opioids what is he seeing most? Dr said probably tramadol then vicoden. I asked him when he decides to titrate those patients or switch therapies? Dr talked about his signs of tolerability or efficacy. I asked about Percocet? Dr said he is typically taking patients getting to 4-5 pills a day and moving to OxyContin. I reviewed a patient profile Tom, conversions, titration and pharmacokinetics. Dr said all that is good to know and said most his patients are taking OxyContin 40 and 80mg. I asked why he isn't using 10 or 20mg? Dr said he said he should be switching patients earlier because of the q12 and will do it. Butrans discussion and review of patient profiles Scott and nancy, conversions, titration, dosing, schedule 3, application sites. Dr said he likes the slide guide and wanted one to keep on his desk. Dr said the tramadol patient makes a lot of sense and will use it.
PPLPMDL0020000001	Cleveland	OH	44109	1/16/2014	Visited PMR- 2nd floor Dr. Wilson,Forster-Pausen-NP, Mejia, Nemunatis, Cui, and Gantner. Left OxyContin/Butrans info (Initiation/Titration. Requested appts
PPLPMDL0020000001	Tallmadge	OH	44278	1/16/2014	Good discussion with dr in his lab. I showed dr the Butrans initiation and titration slide guide and told him I want him to use it. Dr said he doesn't remember it. I reviewed schedule 3, 7 day transdermal patch, patient types, conversions. Dr said he didn't remember its a 7 day patch. I told him its the only schedule 3, 7 day patch on the market. Dr asked about insurance coverage. I reviewed commercial,Caresource which he said he has many of and Medicare D coverage. Dr said he's impressed with coverage. I asked dr if he has patients in around the clock pain on tramadol who may need a dose adjustment? Dr said he's sure he does. I asked him to take the extra minute to determine if they are a good candidate for Butrans. Dr said he will.
PPLPMDL0020000001	Cleveland	OH	44106	1/16/2014	Visited Dept. left OxyContin PI and Butrans Initiation/Titration guides for nurses, requested appt. with Dr. Acheson, said she refers all in-service requests to D. Hulizs Pharm D
PPLPMDL0020000001	Cleveland	OH	44106	1/16/2014	Visited Anes./Pain booked lunch appt with Dr. Hayek and Dept. Visited FP dept left OxyContin PI and Butrans Initiation/Titration guides
PPLPMDL0020000001	Akron	OH	44305	1/16/2014	I told dr that in order to tailor a Butrans message to him more effectively and be more precise, I need to learn more about the patients he sees to help them manage their pain. Dr agreed and I asked him if tramadol is one of his most common IR opioids he sees in his office? Dr said yes he has a lot of them. I asked him if he figures there are those that have been on it for an extended period of time? Dr said unfortunately yes but many of those patients are low income and can't afford Butrans. I told him its more affordable than he may think. I told him to out all his focus on his existing tramadol patients who need a dose adjustment. Dr said ok and knows its low cost for a branded medicine. I reviewed the OxyContin dosing, titration, and conversions and to reevaluate his Percocet patients.
PPLPMDL0020000001	Westlake	OH	44145	1/16/2014	Window. I was telling the nurses Kelly and Julie about Butrans dosing and the dr said what's the max dose.I said why do you we'd to titrate someone? She said no, but she wanted to know. I told her. i also said well what you should know is you is the ideal patient and how to start them. I highlighted the Scott profile, showed the initiation guide. And then mentioned OxyContin , q12h and its doses.<font color=blue><b>CHUDAKOB's query on 02/07/2014</b></font>Scott is not the "ideal" patient, he is one type of patient. Ideal is a comparative term. Ideal compared to what?<font color=green><b>BARTOLI's response on 02/10/2014</b></font>Understood. I meant the Scott profile was one I wanted her to focus on...<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>That sounds much better. Thank you!
PPLPMDL0020000001	Cleveland	OH	44106	1/16/2014	Requested appt. to speak with Dr. About Butrans/OxyContin. Dr. Said she doesn't meet with reps, referred me to D.Hulizs UHHS Pharm D
PPLPMDL0020000001	Tallmadge	OH	44278	1/16/2014	Said hello to dr at front counter and asked him if he had a quick second. Dr said not really but what is it I need? I told dr to focus on patients already on oxycodone and when they need a dose adjustment to give them oxycodone in 12 hour dosing. Dr said he uses OxyContin and has no issues in using it. Told dr that's great to hear. Dr left. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44103	1/16/2014	Reminded of Butrans for those Tramadol failures along with OxyContin 7 tablet strengths, Q12h, Said she is not starting any new patients on Opioids, likes Butrans and transdermal system
PPLPMDL0020000001	Stow	OH	44224	1/16/2014	Spoke with holly the pharmacist about Butranss and OxyContin. I asked about any recent activity on Butrans or OxyContin. Holly said they have 2 or 3 patients on Butrans and about 10 on OxyContin. I reviewed the nancy profile for OxyContin and the Tom profile for OxyContin. Discuss dosing, conversions, and insurance and. Okay card information. Holly said OxyContin is by far the most dispensed controlled opioid. Holly said they have one person on Exalgo and two on Opana. I told her to call me if she eve has any questions.
PPLPMDL0020000001	South Euclid	OH	44121	1/16/2014	Dr Flagg over 1 hr behind, so med asst Jen came to window. I quickly summarized my goals for what I hoped to discuss with Dr Flagg today. I showed Jenny how conversion would work from both oxycodone & Percocet, how it's an easy transition; same molecule, different delivery system. For patients with more moderate pain, we've Discussed 1x week Butrans, now with 4 strengths. Dr had a concern last time re Med D patient access to Butrans. I told Jen, Butrans is preferred on 2 major Med D Plans: Express Scripts & Medco. Butrans also preferred Cigna Med D. I will drop off new formulary grids as soon as I get. Also I will call you tomorrow or next week for a date for lunch @ Concord. ( she must get dr Flagg's permission first )
PPLPMDL0020000001	Cleveland	OH	44195	1/16/2014	Quick Butrans reminder for those Tramadol patients requiring around the clock analgesia along with OxyContin 7tablet strengths, Q12h. Left butrans savings cards
PPLPMDL0020000001	Akron	OH	44312	1/16/2014	I told dr that I have to products for 2 different places in the treatment of pain. I asked her if she would agree that when dealing with the management of pain, patient specificity it very important? Dr said she agrees. I reviewed the Scott profile and asked her what her thought are on her current patients on tramadol? Dr said she has started Butrans on patients just like Scott. I asked her if she has had good experience with it in those patients? Dr said she had had good success.mmi asked her to take an extra minute with patients on tramadol to determine if they are appropriate for Butrans? Dr said she will. Dr saw my OxyContin piece and said she will not write it. I asked if she writes Percocet? Dr said she has a few patients on it but said she feels they don't even need that. Dr said she will expand on her thoughts next time. Nothing else learned.
PPLPMDL0020000001	Mayfield	OH	44143	1/16/2014	Lunch. Dr Mandel discussed his membership in a Rheumatology Association, that has annual meeting in Columbus on weekend of Sept 6th. His group would be open to a LELE: Law Enforcement Liaison Education program. He was very candid and stated that based on state of Ohio regulations on prescribing of opioids, he does not want the extra responsibility of managing opioids. He discussed getting rid of patients who want more than a few short acting pills daily; and refers out to about 7 area pain mgt drs including Dr. Dews, Dr. Demangone, Dr Chauhan, ( dr lee, no retired)....
PPLPMDL0020000001	Westlake	OH	44145	1/16/2014	Saw dr thru window, dr said what dou need to know. I said first of all why would even write Butrans? Dr said those that don't like a patch.I said why give them an option if its something you want them to have. I went over the limitations and pointed out the Scott profile. Dr said ok and thank you.<font color=blue><b>CHUDAKOB's query on 02/07/2014</b></font>Lisa, please re-read your call note. I am having a hard time understanding what it says.<font color=green><b>BARTOLI's response on 02/10/2014</b></font>Dr said what do I need to know. I said first of all why would you write Butrans? Dr said for those who like a patch. I said why do you give them an option? Pointed out Scott profile and limitations. Dr said thank you.<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>Thanks for the clarification.
PPLPMDL0020000001	Cleveland	OH	44103	1/16/2014	Reviewed OxyContin 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia and are failing on current therapy, Said OK, nothing new learned
PPLPMDL0020000001	Westlake	OH	44145	1/16/2014	Spoke to Kelly the office manager and ma. I asked if she has gotten any call backa for OxyContin or Butrans and she said no. She said what's Butrans again. I explained what it was and how it was dosed. She asked if you could cal, in refills, and I said heritage was s heddle 3 opioid. I explained oxycontin was schedule 2 but its an extended release optic so dosed q12. Left information behind.<font color=blue><b>CHUDAKOB's query on 02/07/2014</b></font>Lisa, what does this mean "I said heritage was s heddle 3" Please review your call notes for spelling and to ensure that someone who reads them will be able to understand them.<font color=green><b>BARTOLI's response on 02/10/2014</b></font>She asked if you could call in refills and I said to her that I would be able to understand them.<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>Thank
PPLPMDL0020000001	Cleveland	OH	44195	1/16/2014	Reviewed Butrans for Those Tramadol failures requiring around the clock analgesia with Susan-RN, left Butrans savings cards and confirmed appt
PPLPMDL0020000001	Cleveland	OH	44113	1/17/2014	Reminded of Butrans for those Patients requiring around the clock analgesia along with OxyContin Q12h and flexible dosing strengths. Said Ok and is always looking for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	1/17/2014	Reviewed OxyContin Q12h, flexible dosing, 7 tablet strengths. Said he is prescribing on post-op floor & on discharge. Reminded of Butrans for those patients requiring around the clock analgesia. Said Ok and will continue to encourage new starts for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44105	1/17/2014	Reviewed OxyContin Savings cards along with Butrans with Hakim, no new info
PPLPMDL0020000001	Cleveland	OH	44125	1/17/2014	Reviewed OxyContin and Butrans Savings cards with Linda, no cards needed

PPLPMDL0020000001	Akron	OH	44312	1/17/2014	Dr came to window and asked me if he needed to sign for samples. I told him that I promote scheduled medicines and have OxyContin. Dr said he didn't know ere were roes for OxyContin. I told him there has always been someone in his area. I asked him what his thoughts are on OxyContin? Dr said he has some patients on it but is mostly just refilling. I asked him if he has patients on IR oxycodone? Dr said to set up a lunch to discuss that. Nothing else learned.
PPLPMDL0020000001	Garfield Hts Barberton	OH OH	44125 44203	1/17/2014 1/17/2014	Quick reminder on OxyContin flexible dosing strengths, along with Butrans for those patients requiring around the clock analgesia.. Said Butrans patient is doing well so far, will follow on our lunch appt in Feb Reviewed the scheduling for both OxyContin and Butrans. I asked the doctor when choosing someone's pain treatment how relevant is the schedule to you? Dr said not very. Focus on intimidation guide. Under 40 mg total daily dose of hydrocodone molecule is appropriate for Butrans. However over 40mg total daily dose would not be appropriate and if that's a patient who is in need of An atc extended release opioid, could OxyContin be an appropriate choice for a patient and the dr said yes.
PPLPMDL0020000001	Akron	OH	44312	1/17/2014	Quick hello at office window and asked him in the months of January and February to focus on patients already on IR oxycodone for OxyContin and those already on tramadol who need a dose adjustment for Butrans. Dr said ok and thanks.
PPLPMDL0020000001	Barberton	OH	44203	1/17/2014	Dr walked out a patient. On his return in to the office I said excuse me, u asked me to remind you about Butrans last visit cause you said it had a fit with some of your patients, so here I am...coming to remind you. He took my Scott profile and said ok thanks and walked back in behind the door.
PPLPMDL0020000001	Akron	OH	44319	1/17/2014	Spoke with Andy the pharmacist about both products. I asked him how much activity he has had with it recently? He said that starting a round August last year they started to see more but said he hasn't filled a new one since October. He said they have the 5 and 10mcg in stock and have once copy card. I discussed the tramadol patient and how to start dosing, titration, and insurance coverage. I asked about OxyContin dispensing and Andy said they see their regular customers but not many new. Reviewed the dosing, titration and conversions from IR oxycodone. Andy said he sees lots of Percocet and knows they should be on the ER OxyContin. I agreed and asked him if he would mention it for the patient to ask their dr and he said he can do that.
PPLPMDL0020000001	Stow	OH	44224	1/17/2014	I followed up with dr about the inservice I did for the residents in stow. Dr said that he said there was a very positive response on Butrans and how I presented it. I told dr that I want him to continue writing Butrans in the right patient types. I asked him if he currently has any ultram patients that may be ready for a dose adjustment? Dr said he has a good amount of experience with Butrans in that patient type. Dr said most have done really well and he has titrated some of them. Dr said thanks for the visit but said he was too busy to engage in a long conversation. I reminded dr of the Caresource PA and Cigna coverage for commercial. Dr said he sees lots of Caresource patients and liked the reminder.
PPLPMDL0020000001	Stow	OH	44224	1/17/2014	Dr came out to see me in stow to ask me for intermezzo copy cards. Dr said after out last discussion he has a couple of patients he's going to start on intermezzo and wants to get them the 5 free pills. I told him I will get them to him next week as I don't have any with me. Dr said to leave them in Hudson. I told him to please concentrate on patients seeing him already on IR oxycodone and use OxyContin. Handed him the Butrans slide titration guide and asked him to just try it. Dr said ok.
PPLPMDL0020000001	Akron	OH	44319	1/17/2014	Quick message on OxyContin by asking him what the downside is to prescribing a 12hour oxycodone instead of a 4-6 hour one? Dr said he agrees that many of his patients may find it to be good. Dr said that Percocet is cheaper and that's what his patients want. I asked him what he wants for his patients? I asked him if cost is his number one influencer over what he prescribes? Dr said no but his patients won't pay for something that's even \$5-10 cheaper. I told him fine and reviewed insurance plans. I told him its time to prescribe Butrans. Dr said he knows. I told him he just needs to try it in a very specific patient type like Tom. Reviewed profile and discussed starting dose, titration and application sites.
PPLPMDL0020000001	Cleveland Barberton	OH OH	44113 44203	1/17/2014 1/17/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, said Ok, nothing new learned Spoke to dr about the molecule of oxycodone. Discussed the patient currently n Percocet and she felt they were a candidate for atc therapy if OxyContin made any sense for those type of patients, if appropriate and she said yes. Dr said she doesn't have much chronic patients but those that are already on Percocet she wouldn't have a problem converting them to OxyContin if they were appropriate. Discussed Butrans, schedule 3 and 4 patches a
PPLPMDL0020000001	Cleveland	OH	44102	1/17/2014	Reminded of OxyContin flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia, who have failed on present therapy. Said Ok,
PPLPMDL0020000001	Akron	OH	44319	1/17/2014	Dr told me he hasn't see me in a long time. I told him that's right because he wouldn't listen to me! I told him to take an extra minute with a patient on Percocet and assess them for the q12 Oxycodone. Dr said his patients are good with what they are on. I asked hi if all of them are? Dr said yes. I said ok then and to use Butrans for his tramadol patients not controlled. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Norton	OH	44203	1/17/2014	Spoke with Lisa the m Nd educator and the doctor, we discussed how his patients were doing on OxyContin currently. He said ok. We reviewed the molecule and q12h dosing and also the single entity molecule of Butrans. Review of Initiation guide and discussed weekly dosing with Butrans.
PPLPMDL0020000001	Berea	OH	44017	1/20/2014	I asked the doctor if it made any sense to convert a patient from the short acting OxyCodone molecule to OxyContin if the right person need the extended release delivery system for an extended period of time? He said yes. I asked how his patients on Butrans were doing he said fine. I said that was great, reminded him of the titration doses and how many patches a month they get and how long each patch is worn.
PPLPMDL0020000001	Berea	OH	44017	1/20/2014	I asked the doctor what appropriate patient comes to mind when he thinks about writing Butrans. Dr said a pain patient. I pulled the Initiation guide and reviewed the indication. I asked if he has patients n these types of products that refill their medications month after month. Dr said some. I said let's focus on just one today. We reviewed starting dose, managed care and how long they were the patch.
PPLPMDL0020000001	Cleveland	OH	44104	1/20/2014	Reviewed OxyContin Q12h, 7 Tablet strengths, 1-2 day titration. Said Ok doesnt treat alot of pain in office, does some in Nursing Home, Kindred etc. Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, will keep in mind for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44104	1/20/2014	Reviewed OxyContin Q12h, 7 Tablet strengths along with savings cards, Said Ok, will keep in mind. Ins and cost are constant struggles with her patients. Discussed Butrans for those Tramadol failures requiring around the clock analgesia, Said she has 1 patient that she convinced to use and is doing good, asked to expand utilization for appropriate patients, Will consider
PPLPMDL0020000001	Olmsted Falls	OH	44138	1/20/2014	Discussed the appropriate patient with dr about Butrans. Reviewed steady state and also looked at the naive study of pain results. I asked if a product like this has a role in their practice and he said yes but he doesn't treat much chronic pain. I said just start with one patient t to try Butrans if they are appropriate. Dr said ok. During the conversation we talked about OxyContin being single entity and extended release...I asked the doctor what would be the hold up from converting someone from Percocet to OxyContin. If they we appropriate? Dr said nothing just habit.
PPLPMDL0020000001	Berea	OH	44017	1/20/2014	I spoke with jasmín the nurse, she told me that the doctor did not want to meet with me at is time to talk about OxyContin nor Butrans. I gave her the naive study for Butrans reviewed the highlights and asked her to leave it for the doctor. I also pointed out the 7 different strengths of OxyContin and reviewed the coupons available for both products.
PPLPMDL0020000001	Westlake	OH	44145	1/20/2014	I asked the dr if he thought 4 patches a month was a good option for those patients with atc pain? He said yes. Left him Initiation guide.
PPLPMDL0020000001	Berea	OH	44017	1/20/2014	Spoke about oxycontin dosing and delivery system. And talked about Butrans patch placement and indication.
PPLPMDL0020000001	Lakewood	OH	44107	1/20/2014	Discussed OxyContin and its delivery system, reviewed core visual aid on start principals. Talked about tailoring and the doses available with OxyContin. Butrans was reviewed on indication and Scott profile. Patch location and coupons discussed.
PPLPMDL0020000001	Cleveland Hts	OH	44118	1/20/2014	Reviewed OxyContin/Butrans Savings cards with RPH, no new info learned.
PPLPMDL0020000001	Garfield Hts	OH	44125	1/20/2014	Left OxyContin PI and Butrans Initiation/Titration info for -General Surgeons/Ortho(Lopresti,Levine,O'brien Gemma,Forcier, ElKhari Pantec, Peralta-CCF(Lichenberger,Rapuri,Sargento,Nowak, Love, Hauer=Kaiser surgeons) Left cards and info for Nursing Staff/Clinicians. Dr's dont see reps unless appt.requested
PPLPMDL0020000001	Cleveland	OH	44104	1/20/2014	Reviewed OxyContin Q12h, 7Tablet strengths, along with savings cards. Discussed Butrans for those Tramadol failures requiring around the clock analgesia.Said her patients that she inherited are maintaining on present therapy, if not she refers to pain management, Asked her if Butrans could be considered, that was a possibility.
PPLPMDL0020000001	Lakewood	OH	44107	1/20/2014	Dr said he started to refer more severe pain patient out this year. I asked what his goal was for treating pain patient this year and he said treat less of them. I said why would you keep a patient on Percocet atc? Why wouldn't you convert them to OxyContin? Doesn't it make sense. Dr said yes. I. Said dr you still haven't gotten on board with Butrans...4 patches a month for those that are appropriate for a schedule 3 atc opioid. Reviewed Initiation guide and asked hi. To find one of those Tramadol patients or vikodin patients that are appropriate for Butrans. Jamie the nurse told me to keep coming back cause he will forget about Butrans because he is not used to writing
PPLPMDL0020000001	Cleveland Hts	OH	44118	1/20/2014	Quick Butrans reminder for those Tramadol failures requiring around the clock analgesia, Said Ok will keep in mind, Also reminded of Savings cards in sample closet
PPLPMDL0020000001	Cleveland	OH	44104	1/20/2014	Reviewed OxyContin 7 tablet strengths, Q12h and Savings cards,said Ok, Cost is an challenge with his patient population as all branded products. Also discussed Butrans for those Tramadol failures requiring around the clock analgesia, has 2 older patients on Butrans, doing well,, reminded of 15mcg/hr dose, Said he will keep in mind
PPLPMDL0020000001	Berea	OH	44017	1/20/2014	Spoke to the dr about extended release products treating atc refill type patients. The doctor said she likes the concept of Butrans being 4 patches a month. We reviewed Initiation guide also reviewed steady state and half life.
PPLPMDL0020000001	Rocky River	OH	44116	1/21/2014	Dr said she is referring many oxycodone patients out to pain management. I saidwhat is the breaking point for when u decide to refer a patient out. dr said if they are chronic. dr agreed that she still will treat a few appropriate patients in house with a oxycodone molecule. she agreed that coverting someone from Percocet to oxycotin made sense in the appropriate patient. Discussed appropriate patient type for Butrans. And half life of the product. He asked about if this would be a product for his elderly patients with osteoarthritis. We discussed the naive study...the excreting thru the bowels not the urine and no dose adjustment for renal, hepatic nor the elderly. We discussed respiratory depression possibility especially in the elderly. I asked the doctor to try Butrans for the appropriate patient type before they get to vikodin and used Scott profile as an example. Review patch placement. Also reviewed manage care with patients.<font color=blue><b>CHUDAKOB's query on 02/08/2014</b></font>=<b>Lisa, re-read the Butrans FPI on what is says regarding patients with hepatic disease. What does it say?<font color=green><b>BARTOLI's response on 02/10/2014</b></font>=<b>No dose adjustment for patients with renal impairment or mild or moderate hepatic impairment. For patients with severe hepatic impairment consider the use of an alternate analgesic.<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>=<b>Correct. Please make sure when you discuss hepatic disease, you clarify what is says about severe hepatic impairment. This is important. Thank you!
PPLPMDL0020000001	Rocky river	OH	44116	1/21/2014	Dr asked about patch placement of Butrans, I showed core visual aid. We touched on the inclusion criteria and pain results of Butrans. She said she has patients like these, we reviewed the results of the study. I asked her why wouldn't a product like Butrans be chosen if the patient was appropriate? She couldn't answer and said managed care. I covered it and asked her to focus on the Tramadol patient who is coming in to get their refill. If they aren't controlled and appropriate try Butrans. Sowed initiation guide and she said ok.
PPLPMDL0020000001	Westlake	OH	44145	1/21/2014	Julie the office manager told me about Victoria's new hours, basically she goes to the hospital and then back to the office around 4pm. No more lunches or food, but she got me an apt at 4pm in a few weeks. Highlighted some Butrans reminders, managed care and appropriate patient types.
PPLPMDL0020000001	Euclid	OH	44119	1/21/2014	Met dr, wife Susan, for first time. Also met with med asst Ericka. Detailed dr in his office. After presenting OxyContin, indication, dosing, steady state, titration, appropriate patient type; detailed Butrans, as first opioid or after Tramadol, indication, strengths, appropriate patients (inclusion criteria) BUP 3024. I asked him if either of my products might have a place in his practice? He stated he does not write long acting opioids & refers out to pain mgmt. who do you normally refer out to? Dr responded: Euclid. Do you mean Dr Saeed & Dr Nageeb? Yes responded dr Can I leave you this Butrans brochure to review? Yes dr replied.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/21/2014	Caught dr coming into work today. I told her I'm glad she has been having good success with Butrans lately. Dr said she has and especially with insurance coverage. Dr said it makes her that much more comfortable with Butrans when its easy with insurance. I told her that's great and asked her to focus on patients already on ultram who need a dose adjustment. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Euclid	OH	44119	1/21/2014	Spoke with pharm Joel, techs Marian & Paula. Techs both appreciated product information: indication dosing, application, disposal for Butrans, pregnancy category; both products. RX patrol resources discussed. Left OxyContin & Butrans pharmacy guide & Butrans NDC code/ FPI brochure.

PPLPMDL0020000001	Westlake	OH	44145	1/21/2014	Window. I was just curious...for patients requiring continuous atc pain treatment....at what point do you pull the trigger from a short acting OxyCodone to OxyContin? He said it depends. I said with the molecules of Percocet and oxycontin being the same doesn't make any sense to convert the short acting product if the patient was appropriate? He said yes. I said I'll leave a Butrans study...it demonstrates the pain results from patients never on opioids before converted to Butrans. He said ok.
	Euclid	OH	44117	1/21/2014	Lunch. Found out dr Morley only in ONLY MON 10 a - 6 p. in Manhattan @ other business remainder of week. Total office call, med assts & physical therapists. Discussed indications, warnings precautions for both products. Patient access, trial, savings.<font color=blue><b>CHUDAKOB's query on 02/08/2014</b></font>I thought you told me this a while ago about his office days. Wondering why a lunch? He should be a non-call file.<font color=green><b>BALLJ's response on 02/09/2014</b></font>When I went back in recently, I found out from dr DeMicco & his med assts, that dr Morley changed his schedule, again, to Mon & Tues. When I say lunch with Dr Morley group, it will typically be with Dr DeMicco, his partner. The practice & signage states: Tim Morley.<font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>Since your call is under the other Dr., if you are going to say you provided lunch, you can just use the name of the physician you did the lunch for.
PPLPMDL0020000001	Rocky River	OH	44116	1/21/2014	Katie the ma said managed care was 1 portent. Reviewed Butrans with her and managed care. Dr said the state wants him to refer out more and more. I said what's your breaking point when you will do that, he said it all depends. Dr said his older patients are the hardest to treat because they are always in pain. He said he sees all his pain patients once a month regardless of what product they are taking. Dr said OxyContin makes sense cause they don't have to take pills atc. We reviewed q12h dosing and all the doses available. I bridged to Butrans and the initiation guide. Focused on the under 40mg of hydrocodone and under 400 mg total daily dose of Tramadol with atc pain. Dr said he had many patients that were in these levels. Dr said Butrans made sense for his non complaint patients. We reviewed the naive study, pain results, inclusion criteria and also the supplemental segments. Dr said he has a patient in mind and we reviewed the Initiation guide and discussed titration a min of 3 days. Dr said he would try to remember and told me to leave information behind for him to remember.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/21/2014	Appointment to meet with dr for Butrans as he was a target in q4 2013 when appointment was set. Discussed Butrans history of his and dr said he can't remember why he used it or what the patients were on previously. I reviewed Scott profile, dosing, titration, appropriate starting doses and managed care. Dr asked what schedule Butrans is and I told him its a schedule 3, the only schedule 3,7 day transdermal system. I asked dr if he will write it again? Dr said he will. I closed by telling him that it's known that many patients in chronic pain are continued to be treated with short acting opioids. I asked him if he feels the same? Dr said he certainly does and agreed that Butrans is a good option.
PPLPMDL0020000001	Akron	OH	44310	1/21/2014	During lunch appointment dr said last week was a big week for Butrans in his office and was confirmed by Char. I asked dr to tell me about it and he said he had two new starts and two refills. Dr said that both patients were on Percocet. Dr said one patient on Percocet was put on Butrans because the patient complained of being on too many pills. Dr said the other was ready for a dose adjustment and he felt Butrans would be a good option. I told dr that's great to hear and he said most of his patients really like it and are doing much better than staying on their IR opioids. Discussed dosing and titration and using the 15mcg dose. Discussed the Scott and nancy profiles and asked for continued business. Discussed how dr can use OxyContin instead of titrating Percocet or going to another ER opioid. Discussed the steady state, elimination half life significance and conversions. Dr said he knows all that but the name OxyContin continues to carry a stigma of a bad name. I told dr he's going to have to get over that and to tell patients he's going to give them an ER oxycodone instead of adjusting their IR oxycodone. Dr said that's a good idea and will try that.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/21/2014	Spoke with Krista the pharmacist about Butrans and OxyContin. I reviewed the doses of Butrans and the Scott profile. I asked her if she has been dispensing more recently? Krista said she has not been and has refilled for a couple of patients but doesn't know about new patients. I asked her if she has noticed any patients being titrated on Butrans? She said no and that one patient is on 5mcg because she is elderly. I explained that even elderly patients that may be taking over 15mg of vicoden may need to start at 10mcg and there is no dose adjustment necessary. Krista asked about side effects so I reviewed them from the main visaid. Discussed copy cards and trial offer. OxyContin doses and if they fill regularly. Krista said they do and have all doses in stock. Discussed patients types already on IR oxycodone and conversions.
PPLPMDL0020000001	Westlake	OH	44145	1/21/2014	I asked if they were going to stock scheduled products. They said yes. I asked if they stocked the 15mcg of Butrans and he said no. We talked about dosing, the starting doses and the titration dose. We talked more about OxyContin q12h dosing not a bid product. We also talked about the many strengths and single entity.
PPLPMDL0020000001	Cleveland	OH	44109	1/21/2014	Visited FM/IM depts left OxyContin Pl and Butrans Initiation/Titration guides for NG,Magouli,Ricanti and requested appts for in-service
PPLPMDL0020000001	Cleveland	OH	44103	1/21/2014	Quick Reminder of OxyContin Q12h, 7 Tablet strengths along with Butrans for those patients requiring around the clock analgesia. Said she will keep in mind, but reiterated medical facility dir. position on opioids
PPLPMDL0020000001	Euclid	OH	44117	1/21/2014	Lunch. Discussed patients he has on Percocet & oxycodone. Typical q 6 h plan; how likely are the. To follow that dosing plan? not likely, he responded. Conversion to OxyContin discussed. START principles discussed. Asked Dr if he gets any pushback when suggesting OxyContin to patients, yes he replied, due to the stigma: after your re formulation you should have changed the name of the product, he stated. We discussed black box warning, precautions, Pregnancy Category B which he did not remember, chief hazard all opioids is respiratory depression. Perhaps you can let your Percocet patients know they are on short acting Oxycodone[ same molecule as OxyContin ] and tylenol. that's a good idea e responded.The patients already on OxyContin whom he has inherited from other HCPs do well, even on 10 mg he says. No issues with efficacy. He wishes OxyContin was covered by BWC, as he would use a lot more. BWC is recommending / requiring, methadone. Butrans focus on BWC. Full Butrans detail, large visual aid, page by page, lastly showed him ow to write. He liked availability to call Butrans in w refills. How about Caresource asked dr? Filled him in on Caresource PA, which he will keep in mind now. I hope I have increased your comfort level today with. Butrans? Yes he replied. He as a lot of Medicare patients he'd like to put on Butrans. Discussed Butrans preferred plans for med d asked for business end, yes he will write both.
PPLPMDL0020000001	Euclid	OH	44119	1/21/2014	Quick hallway. When you go to refill your next Tramadol script, consider converting patient to Butrans. Remember 15 mcg strength now available. When you go to refill your next oxycodone or Percocet script, please consider conversion to controlled release OxyContin q 12 h.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/21/2014	Dr told me she has been using more Butrans recently and her patients are liking it. I asked dr what the patients have been on prior and she told me the last one she wrote she believes the patient had been on vicoden. I told her I'm glad she has found success with it and keep using for those types of patients already on hydrocodone combinations. Dr said she should be using it more and I told her I agree! Spoke with Darlene about newer Aetna commercial coverage. Darlene said that's good and will make her life easier. I reminded her of all tier 3 commercial coverages. Darlene said that th most difficult plans to gain approval from are anthem BC/BS and Humana. I asked about copy cards and they only had 3 left. Reviewed cards and trial offer.
PPLPMDL0020000001	Cleveland	OH	44113	1/21/2014	OxyContin reminder Q12h, flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia that have failed on present therapy. Said he feels most patients are doing well, but will consider for some of those who are not. Asked if he will see any this week and said perhaps.
PPLPMDL0020000001	Cleveland	OH	44103	1/21/2014	Quick OxyContin Reminder Q12, Flexible 7 Tablet strengths, Said Ok Also, reviewed Butrans for those patients requiring around the clock analgesia who have failed on Tramadol. Said he thinks about prescribing but hasn't yet,
PPLPMDL0020000001	Garfield Hts	OH	44125	1/21/2014	Spoke with Deena, Dr. canceled lunch/office hrs today, will reschedule. Asked Deena to remind Dr. of OxyContin Q12h,flexible 7 Tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok, will do
PPLPMDL0020000001	Euclid	OH	44119	1/21/2014	Dr we Discussed last visit your Percocet patients; I'd like to add oxycodone patients to discussion today. The next time you initiate or go to refill an oxycodone or Percocet script I'd like you to consider controlled release OxyContin with q 12 h dosing plan. The only reason I am not writing more OxyContin is cost, Medicare, Medicaid patients. Dr I am getting formulary updates by the end of this month. As soon as I get, you will be one of the first people I visit. We then discussed OxyContin essentials kit, and the added value for he, his patients, & pain mgt nurses. Butrans BPE kit left. Again dr says many Medicare patients can't afford Butrans. advised dr of Butrans preferred Med D status; reminder, 4 strengths available now, including 15 mcg hr.
PPLPMDL0020000001	Rocky River	OH	44116	1/21/2014	Dr said she didn't know about Butrans. Reviewed: class, how many patches worn, and the indication. Dr asked about managed care and we discussed it. I asked if this seemed like something she would use if appropriate and she said yes. She said she didn't have many pain patients. I told her its not about 100 patients on Butrans, its about finding the right one. Dr agreed. She agreed that during the next Tramadol assesment she would keep Butrans in mind if the patient were appropriate. Discussed OxyContin she said she uses very little oxycodone. I asked her about the Percocet patients and if she had one of them that might be appropriate for OxyContin q12h. She said maybe. I asked her what is the best way to see her outside of lunch and she said she doesn't take apts.I told her that would be following up with her and to call me if she has questions.
PPLPMDL0020000001	Cleveland	OH	44113	1/21/2014	Quick Butrans reminder for those LorTab failures along with OxyContin flexible dosing strengths, Said patients are doing well, requested more Butrans Patient booklets
PPLPMDL0020000001	Westlake	OH	44145	1/22/2014	Thru window. I asked the doctor if she had someone with atc pain...why wouldn't you choose an extended delivery system? She said if they Are chronic she does. I reminded her if she has a patient currenly on Percocet and you feel they might need control atc for an extended period of time could it make sense to convert them to OxyContin? She said yes. I told her I would schedule a lunch to go over Butrans.
PPLPMDL0020000001	Cleveland	OH	44195	1/22/2014	Discussed OxyContin utilization within dept along with Butrans for those appropriate patients. Troy-Pharm. Dir.said most pain protocols are initiated with Palliative/Hospice care team(Goforth,Patel, Legrand, Perala)
PPLPMDL0020000001	Westlake	OH	44145	1/22/2014	Dr said he hardly sees anyone to be ur n an opioid. I told him that I understood and that was fine. Focus was that uncontrolled Tramadol Scott profile...we talked about Butrans being an option for the appropriate patient type and reviewed dosing. Dr said he likes that Butrans is extended release product for patients with chronic pain.
PPLPMDL0020000001	Westlake	OH	44145	1/22/2014	Dr came to window. I asked who he thinks about these days for e appropriate OxyContin patient. The dr said one that needs twice a day pain relief. I re,inded him it was q12h.I asked how he writes a typical script of OxyContin and he said sometime q8, but most times q12. I reminded him of the indication and dosing. I bridged to Butrans with then titanic. Guide. Showing over 40mg of hydrocodone isn't appropriate for Butrans and asked if he has patients under the 40mg of vikodin. He said some. I asked for his Butrans consideration for the appropriate patient type if their current medication isn't working for them.
PPLPMDL0020000001	Cleveland	OH	44113	1/22/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia. Along with OxyContin Q12h, flexible dosing strengths. Said Ok, will consider for appropriate patients
PPLPMDL0020000001	Akron	OH	44313	1/22/2014	Quick hello at front window and told him that I'm guessing he has many patients that are candidates for OxyContin who are already on oxycodone. Dr said ok. I told him that he should be reevaluating his oxycodone patients for possible OxyContin conversions. Dr said he does his best with that and cost for Medicaid makes it difficult. I told him I understand and asked if he has commercial or Medicare D patients on Percocet? Dr said he does. I asked him if he would focus on those patients because its a path of least resistance. Reminded dr about Butrans patient candidates like Scott and Maria.
PPLPMDL0020000001	CLEVELAND	OH	44195	1/22/2014	Discussed with Troy Pharmacy mgr OxyContin and Butrans utilization within bldg
PPLPMDL0020000001	Cleveland	OH	44195	1/22/2014	Discussed With Roxanne RPH dir. OxyContin utilization mainly 10/20mg along with Savings card and Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44195	1/22/2014	MSL provided BUP3031 amendment 6 protocol synopsis to Dr. Dell via Accellion, follow up planned in 1-2 weeks.
PPLPMDL0020000001	Akron	OH	44320	1/22/2014	Quick discussion as she was going into an exam room. I asked her if it makes sense for her to consider a patient for OxyContin if there are a couple of criteria the patient meets such as: patient already on IR oxycodone and needs a dose adjustment covered by insurance and is willing to switch. Dr said she would but most likely the patient won't meet all three. I told dr how will she know if she doesn't ask? Dr said good point.
PPLPMDL0020000001	Stow	OH	44224	1/22/2014	Dr talked about how business is way down even after the new year. Dr said his procedures are down as well and he needs to make adjustments to make things work especially as the dr Geiger legal process is getting worked out. Dr said he is setting a protocol for the office that no patient will be on any more than one IR or one ER opioid at a time. I told him that's a perfect opportunity for Butrans. Dr agreed but said anytime a branded medicine is written over a generic one, there are many hoops to jump through and is much more difficult to get in the hands of the patient for a good price. I asked dr but what if you know the IR opioid isn't working and the only option is a branded medicine like Butrans, wouldn't you be willing to do what's necessary? Dr said yes, at times. I asked dr what is the clinical reasoning to continue to treat chronic pain patients with IR opioids? Dr said we can discuss later because its a great question but he has to get on a conference call. I told dr will continue next time.
PPLPMDL0020000001	Akron	OH	44313	1/22/2014	Spoke to Jason the pharmacist about Butrans dosing and introduced the 15mcg dose. Jason said that's a good addition so patients don't have to double to dose. Jason said he has about 4 patients that continue to get refilled on Butrans and has not seen any new. I discussed the hydrocodone patient profile and copy cards and trial offer. Jason said all his patients are either Medicaid or Medicare. Discussed OxyContin copy cards as well, dosing and conversions. Jason said he fills OxyContin but mostly refills.
PPLPMDL0020000001	Cleveland	OH	44106	1/22/2014	Visited Bolwell Pharm. (Marge Rph-director) obtained KOL's for Seidman ctr.(Demshar,Little,and Alin) Left OxyContin/Butrans info, requested appts.

	Stow	OH	44224	1/22/2014	Good discussion about patient and insurance plan specificity for Butrans. Reviewed hydrocodone patient profile and told him there has got to be many opportunities missed for Butrans based on how many patients he has told me in the past he has on hydrocodone for chronic pain. Dr agreed and said he can write more but isn't always that easy because patients won't use a patch and insurance is difficult. I told him about the plans most important to him and told him to run them through and Marcy who does all the insurance and pA's will get them pushed through. Reviewed opioid experienced trial discussing inclusion criteria, patients products used in trial and efficacy results. Dr said he will use more.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44106	1/22/2014	Reviewed OxyContin Q12h, key prescribers at institution, requested Savings card along with Butrans for those Tramadol failures. Marge Rph gave info on key prescribers
PPLPMDL0020000001	Olmsted Falls	OH	44138	1/22/2014	Talked about Butrans savings cards, dosing and initiation guide. Also OxyContin q12h dosing.
PPLPMDL0020000001	Cleveland Hts	OH	44118	1/22/2014	Reviewed OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures, requiring around the clock analgesia. Said he considers OxyContin for those patients that have exhausted all pain therapy
	Stow	OH	44224	1/22/2014	Good conversation about patient specificity when using Butrans. Reviewed opioid experienced trial, inclusion criteria, efficacy and safety data and discussed her clinical use. Sandra said that she has not had any issues with insurance and has seen good efficacy. Said she was surprised that 21% of patients were on oxycodone medications. I discussed conversions from oxycodone and how those patients fit the profile. I asked her to switch patients like that and hydrocodone who need a dose adjustment or she has continued to refill time after time and the patient is continuing to complain of pain. Reviewed insurance plans specific to her practice and she said she forgot about Caresource PA and BWC. She said she found value in this info and will remember but suggested to give formulary info to Marcy who is the insurance head in the pharmacy. Sandra said she goes to her for
PPLPMDL0020000001	Akron	OH	44333	1/22/2014	Dr said that he has been consistently writing Butrans each week and is seeing good success. Dr said surprisingly the Medicare D patients are able to get it at a fair price. Dr said that his patients continue to refill Butrans which to him means they are doing well. I reminded him about the specificity of the patient type along with insurance plan coverage. Dr said that he is having trouble getting patients approved on Aultcare because many patients of family practices are referring their patients to him. Dr said a patient with Aultcare with a copy card still had an out of pocket cost of \$330. I told dr there is no way that the pharmacy ran the insurance. Dr said they did and Opana was \$50 out of pocket. I told dr I would look into it and asked for pharmacy information.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44118	1/22/2014	Intro. Reviewed OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures, requiring around the clock analgesia. Said Ok will follow up at lunch appt
	Westlake	OH	44145	1/22/2014	I asked her if she had any patients currently on OxyContin. She said yes. I reminded her about the q12h dosing and asked her if she could keep that in mind for the next patient on the short acting oxycodone molecule for the appropriate type of patient. She said ok, she was still getting used to Butrans. We reviewed Initiation guide.
PPLPMDL0020000001	Cleveland	OH	44113	1/23/2014	Visited Anes/Pain Dept. discussed OxyContin/Butrans with Dale PA, Said he is prescribing OxyContin inside hospital and on Ortho floors,(Spine-Orr MD, Bohl MD ) Reminded of Butrans for those appropriate patients requiring around the clock analgesia
PPLPMDL0020000001	Norton	OH	44203	1/23/2014	Spoke to dr about converting short acting oxycodone to OxyContin if patient was appropriate for atc pain relief. Dr said it made sense and told me about some new product like Percocet but long acting. I said u mean OxyContin?we reviewed the molecule and the delivery system of OxyContin. We dis uses Butrans and how to find an appropriate patient. Dr said he was willing to try butrans one appropriate patient type. We,Ed with the Lisa the nurse about managed care and patch positioning.
PPLPMDL0020000001	Cleveland	OH	44114	1/23/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, 15mcg dose. Dr. said he struggles with treating any pain patients,Does treat for cancer patients. typically refers to Pain mgmnt, but will consider for appropriate patients. Also briefly discussed OxyContin Q12h, 7 tablet strengths
PPLPMDL0020000001	Uniontown	OH	44685	1/23/2014	Quick hello in green as her was getting ready to leave to do procedures. I asked him if he will continue to take patients on Percocet and consider them for the a her oxycodone? Dr said yes and always tries to get patients in chronic pain on ER products. I told him that's great and to make Butrans one of those ER opioids as well but for patients on tramadol or vicoden who need a dose adjustment. Dr said ok and heard I'm coming in for lunch which I am and confirmed.
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44106	1/23/2014	Visited Onc. Dept. left OxyContin Saving card/PI's for NP's Alin/Smith, Weinstein, requested appt
	Cuyahoga Falls	OH	44223	1/23/2014	Reviewed opioid experienced trial with dr in depth. Dr asked about patients over 80mg or morphine and if those patients are candidates for Butrans? I told dr that it states that those patients may not be adequate for Butrans. Dr asked if the 5 and 10mcg doses are the only starting doses and I told him yes. Dr said he write a 15mcg dose and the pharmacy didn't have it. I told him that if they don't have it at the time the prescription is presented they would get it next day. I asked dr for continued prescribing and to titrate beyond the 10mcg. Reviewed all key selling points for OxyContin and asked for switches for patients needing an adjustment on
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/23/2014	Led with dr by asking him where he is writing most of his OxyContin in the hospital inpatient side or outpatient side? Dr said the inpatients for sure. Dr said that many of them are put on Percocet by their pcg and he finds out they have been on it for a while. Dr said he puts most of his patients on OxyContin because it just makes more sense to have the 12 hr oxycodone on board. I discussedSteady state, half life and titration as well as conversions. Dr said he hates the IR opioids and not many stay on them and he said he gives his patients no choice. Discussed Butrans opioid experienced trial hitting all key points. Dr said he is really liking it and asked if patients should use a IR opioid with it. I pointed out from the FPI that patients can use opioid analgesics and non opioid analgesics for supplemental analgesia if necessary. Dr said he would rather patient were not taking any IR opioids. I pointed out that patients in 3015 were only permitted to only take APAP or ibuprofen. Dr said that's good info to know.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	1/23/2014	Reviewed Butrans 3015 clinical trial hitting all key selling points. Jake said that he is finding success with Butrans on patients coming off of all the medicines including tramadol which were in the clinical trial inclusion criteria. Jake said most of his patients are on hydrocodone and said he did have one patient that had been on Butrans for at least 6 months and then this month presented with itching and rash at the application sites. Jake said the patient is continuing Butrans because he likes it so much. Reviewed patient profiles and titration. OxyContin dosing, conversions, titration, patient types and insurance for both products with copy cards.
PPLPMDL0020000001	Cleveland	OH	44114	1/23/2014	Discussed Butrans for those Tramadol failures required around the clock analgesia, dosing,BWC coverage. Said Ok will keep in mind. Quick OxyContin reminder Q12h, 7 tablet strengths
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	1/23/2014	I asked dr what she likes about OxyContin and what she is typically treating when she writes it? Dr said she uses it when patients are in severe pain and short acting narcotics aren't working. Dr said she uses it because it works and is generally covered by insurances. I told her that's good to hear and asked her if she is willing to put some time into evaluating her patients on IR oxycodone for OxyContin. I told her if those patients already on oxycodone need a dose adjustment to give them oxycodone for 12 hours. Dr said that's a good way to look at it. I reminded dr to take patients also needing dose adjustments but on tramadol or vicoden and provide them with a possible schedule 3,7 day transdermal patch. Dr said she knows about it but just needs to use it. Is agreed and asked for her to pull the trigger!
PPLPMDL0020000001	Stow	OH	44224	1/23/2014	Short call with dr Holmer because she said she was already an hour behind. I told her that she should be using more OxyContin for those patients needing 12 hour opioid. I told her those patients typically needing an ER opioid are ones who continue to complain about being in pain on their IR opioid and need a dose adjustment. Dr said she understands. I asked for more OxyContin business and reviewed Butrans Scott profile in discussion.
PPLPMDL0020000001	Cuyahoga falls	OH	44223	1/23/2014	Kim said that he has used Butrans a few times and has had great success. Kim said that her patients have come off of vicoden and oxycodone. Kim said that the efficacy has been good and really likes the side effect profile. Kim said she also has used it in a patient who was complaining of constipation with vicoden. Kim said the patient is doing great and is happy. Discussed 3015 trial hitting all key selling points. I asked for continued prescribing and to keep OxyContin in mind for her patients already on moderate doses of oxycodone. Kim said she reserves OxyContin for one patients over 30 mg of oxycodone.
PPLPMDL0020000001	Cleveland	OH	44115	1/23/2014	Discussed OxyContin Q12h, 7 tablet strengths with Kristie RPH and how we can be a resource to the facility along with Fairhill location. Said we can coordinate an in-service with Carol-St. V's and Sabina-Fairhill
PPLPMDL0020000001	Cleveland	OH	44113	1/23/2014	Discussed OxyContin Q12h, flexible dosing strengths, Savings cards along with Butrans for those patients requiring around the clock analgesia. Said He is working with Dr. Daoud more along with Ortho floors, will keep in mind
	Cuyahoga Falls	OH	44223	1/23/2014	Discussed opioid experienced trial in depth with all physicians in attendance. Dr said that its interesting that 62% of patients were taking hydrocodone combinations and 21% on oxycodone. Dr said that's good to know because those are the patients he is starting on Butrans. Dr said that the outcomes he is seeing in his practice are pretty close to the pain score reductions in the trial. Reviewed formulary coverage and fielded many questions about denials and prior authorizations for Butrans. Discussed OxyContin dosing, start state, elimination half life and patients over 65 yrs from FPI. I asked dr to continue to use it for those who are failing IR
PPLPMDL0020000001	Cleveland	OH	44195	1/24/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration along with Savings card, Said Ok and will discuss with attendings. Reminded of OxyContin Q12h and 7 tablet strengths, will consider for appropriate patients,
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2014	Quick Butrans Reminder for those patients requiring around the clock analgesia, 15mcg/hr dose along with OxyContin Q12h, 7 Tablet strengths, Said Ok and will consider for appropriate patients
PPLPMDL0020000001	Barberton	OH	44203	1/24/2014	Spoke to Julie the ma and she said that dr didn't have time to talk today. So I gave her a brief overview of OxyContin and its managed care status.
PPLPMDL0020000001	Barberton	OH	44203	1/24/2014	Dr said he didn't have time to talk and asked what products I promoted. I told him and the dr said he stays away from those. I said for many maybe you should, but I ly wanted to focus the patient being prescribed short acting oxycodone atc to see if just one would be appropriate for OxyContin. He said maybe and walked away.
PPLPMDL0020000001	Uniontown	OH	44685	1/24/2014	Dr said he was 2 hours behind on procedures today and only had a minute. I told dr that's ok because all I want to know is that his OxyContin patients are doing well and that he commits to continued prescribing. Dr said he uses it a lot and his patients do well with it because he likes to switch almost all patients from Percocet to OxyContin once they reach 4 pills a day of Percocet. I asked him if there is a scenario where he will converts a patient to OxyContin when they are on 20mg of Percocet a day? Dr said at times but want to allow Percocet to work a little longer. I told dr to use more Butrans for this who continue to get refills of tramadol or vicoden and showed him the conversion scale. Dr said ok.
PPLPMDL0020000001	Barberton	OH	44203	1/24/2014	Dr. Said she was not going to write any new prescriptions of OxyContin, I asked what if a patient was already on Percocet and was taking it atc or 4 x a day, would that be a reason to convert them to OxyContin if they were appropriate? She said maybe. I reminded her that Butrans is dosed with 4 patches a month schedule 3 for those appropriate Atc patients. I asked her if she had one patient to try it on like the David profile if appropriate. She said maybe.
PPLPMDL0020000001	Uniontown	OH	44685	1/24/2014	Told dr though window that he should look to identify more patients existing in his practice that he has in the past that have been continued to be refilled on tramadol or vicoden. Dr said he knows but it's not as easy as it seems because there are so many other factors in them getting an ER opioid. I told him I get it but to revisit the criteria the past patients have had when he started Butrans. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44312	1/24/2014	Dr headed into doing a physical so only gave me a second to ask him for his conversions from IR oxycodone to OxyContin. Dr said he is trying and is also said he may have someone for Butrans. I asked him why and he said too much vicoden. I told him hydrocodone candidates are good ones.
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2014	Discussed Butrans for those patients requiring around the clock analgesia, Initiation/Titration along with OxyContin Q12h, flexible 7 Tablet strengths. Said he really doesnt prescribe many opioids, refers to Dr. Shen and Dale, but will consider
PPLPMDL0020000001	Akron	OH	44333	1/24/2014	Discussed patient selection specificity for OxyContin and Butrans. Reviewed patient profiles for each. Dr said he agrees totally that its all about patient selection and he agrees with the profiles. Dr said that he sees OxyContin and Butrans to be very effective for the elderly. Dr said they are most able to adapt to change and be compliant. Dr said that his issue in the past has been Medicare willing to pay for OxyContin and Butrans. I told him they have come along way in coverage and explained Medicare D for both products. Reviewed OxyContin steady state, titration, Ph independence and relevance and half life. Dr said its good information to review and really likes both products. Dr said he's been writing more OxyContin because it has great efficacy and dosing flexibility.
PPLPMDL0020000001	Akron	OH	44319	1/24/2014	I recapped something dr said last time at lunch and told him that he said he waits until patients reach 4-5 pills of Percocet then switches them to Percocet. Dr said yes. I asked him why he waits so long? Dr said if the patient is controlled then he doesn't switch. I told him to think about the times that he adjusts or titrates the Percocet dose. I asked him why he can't start for patients at 30mg of oerco et and use the OxyContin 10mg q12? Dr said he remembers discussing that and he is not opposed to using more of the lower OxyContin doses. I told him that's good to hear and to start dosing that for existing patients at or over 20mg. Dr said ok. I reminded him to also use Butrans for patients needing an adjustment on tramadol and showed him the conversion. Dr said he will use it. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44312	1/24/2014	Dr said that he write another Rx for Butrans last week for a patient on vicoden. Dr said that his patients are continuing to see good results with Butrans and said that he is feeling more and more comfortable with it. I
PPLPMDL0020000001					
PPLPMDL0020000001	Cleveland	OH	44115	1/24/2014	Reminded dr to ensure that his patients are titrated and use of IR opioids or non opioids for supplemental. Dr said he will keep writing. Told him to use OxyContin for those existing patients on IR oxycodone and discussed Visited Pain Ctr/Spine along with Kindred Floor, Left OxyContin/Butrans Initiation Titration guide. Requested appt with Kindred Staff CAROI)

	Uniontown	OH	44685	1/24/2014	Good discussion about OxyContin and Butrans. Dr said that his clinical experience with OxyContin has been very good. Dr told me that he really likes OxyContin especially since it was reformulated. Dr said that it can be tough with some patients because they are still scared of the name because either a friend or family member had issues with it before it was reformulated. Dr asked for studies relating to its reformulation. I provided him with the approved studies in the approved piece. Dr said he really didn't understand them and wasn't satisfied with how they were conducted. Dr wanted additional information so I submitted a medical request and obtained a signature so it could be sent via email. Dr said he continues to use it a lot. Discussed Butrans patient type selection and conversions with proper application site preparation and exposure to external heat sources. Dr said he likes it because some patients can't tolerate IR opioids but have proven to tolerate Butrans much better. Reviewed AE's from Bup 3015 and reviewed key points from study.
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2014	Visited Anes/Pain Dr. Shen/Daoud- Discussed OxyContin Q12h flexible dosing and Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2014	Quick OxyContin reminder, Q12h, 7 tablet strengths and savings cards, Said OK, doesn't usually prescribe, book lunch appt with Issa to further discuss
	Munroe Falls	OH	44262	1/24/2014	Followed up from last call about specific patient selection for Butrans and OxyContin. I reviewed what a good candidate is for each product by reviewing profiles and speaking about her patients in her practice. Dr said she has the right patients for Butrans and OxyContin but just needs to identify them to make sure they are taking the best medicine for them. I told her to look for patients similar to the ones I reviewed and she said she would. Finished with managed care coverage.
PPLPMDL0020000001	Cleveland	OH	44195	1/24/2014	Quick reminder on Butrans for those patients requiring around the clock analgesia, savings cards along with OxyContin Q12h and 7 tablets strengths. Said he will consider and to remind him of any upcoming programs
PPLPMDL0020000001	Cleveland	OH	44113	1/24/2014	Reminded of Butrans for those patients requiring around the clock analgesia, 15mcg/hr and Savings cards along with OxyContin Q12h, 7 tablet strengths
	Akron	OH	44333	1/24/2014	Dana talked about how much she likes Butrans and how she uses it for patients she wants off pills that are not working or because they couldn't tolerate the short acting opioids. Dana asked about the AE incidences for Butrans. Reviewed them from Bup 3015 and reviewed major points from trial. Discussed patient specific candidates for trial while reviewing tramadol and vicoden patient types. Dana said she will continue to prescribe. Discussed OxyContin dosing, steady state, half life, and patient profiles. Dana said she likes it and tries to get most patients on some form of a long acting opioid if they have been on a short acting for more than 4 months. Stephanie said she put a patient on Butrans about a month ago from low dose Percocet and is doing really well. Stephanie said that the patient asked for something other than her pills and is said to really like Butrans and doesn't even need any more IR opioid. Discussed with her how important it is to recognize the signs of a patient who is suited for Butrans. Reviewed profiles and hit all major points in the opioid experienced trial. Discussed all key selling points to OxyContin including pharmacokinetics.
PPLPMDL0020000001	Norton	OH	44203	1/24/2014	Lisa the rn called me and wanted me to stop by the office. Lisa, the dr and myself discussed OxyContin. She said that medical mutual wasn't approving OxyContin and asked if Butrans was appropriate for patient. We reviewed the Initiation guide and the patient was at 20mg of oxycodone ir and met the Indication for Butrans 10mcg. She asked if she could place two patches on the arm at the same time and I said no because it was not approved for that type of use. The doctor asked if Butrans would be started at 20mcg if a patient was tapering down from a higher dose of morphine equivalent product. I told him the product is only recommended to initiate at either 5 or 10mcg. I told him I would return in a few weeks to see how his patient s are doing on Butrans.
PPLPMDL0020000001	Mayfield Village	OH	44143	1/31/2014	Lunch. Dr s never comes back to rep lunches. Met with her medical assistant, detailed both Butrans & OxyContin. Discussed dosing guides for both products. Appropriate patient selection. Discussed patient education available from Purdue including pain journals and Butrans patient guides.
PPLPMDL0020000001	Mayfield Village	OH	44143	1/31/2014	Lunch. Goal: consider OxyContin for a patient like George (patient profile); patient like Goerge would be initiated on 10 mg OxyContin. Discussed q 12 h dosing, patient will take 8 am/ 8 pm (used graph, visual aid); START principles, re assessing patients after a week, to make sure patient has appropriate analgesia, or, if they need titrated to 15 mg dose, you can titrate in 1-2 days. START principles, monitor patients (especially elderly, for respiratory depression first, 24-72 hrs. Does starting a patient like George on OxyContin, something you would consider,? Yes responded dr k, I would do that. Dr you have another transdermal option, 1x week Butrans! you've used Butrans! in the past, did those patients. do well? Yes replied dr. Is there any reason why you would not write Butrans for appropriate patients like Scott? No, I just haven't found the right patient. So you don't have any patients on Tramadol? Dr had to go.
PPLPMDL0020000001	Cleveland	OH	44102	1/31/2014	Reviewed OxyContin Q12 dosing, 7 tablet strengths, Broad formulary coverage, Said he prescribing for appropriate patients, Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, dosing reminder. Said Ok will consider
PPLPMDL0020000001	Mayfield Village	OH	44143	1/31/2014	Lunch. Summarized last call. Discussed Goerge profile, consider initiating OxyContin 10 mg for opioid naive patient like George. He will not initiate or refill long acting opioids. Dr we've also discussed an option for patients with pain on more moderate side, 1 weekly Butrans. Dr says some of his patients were placed on Butrans from their pain mgmt drs. Dr in case you need to refill or titrate a Butrans, I will pride you with the tools to do so. Discussed educational aspect of Butrans patient guides, strengths, steady state after 3 days, proper application & disposal.
PPLPMDL0020000001	Cleveland	OH	44127	1/31/2014	Reviewed Butrans/Scott profile, and OxyContin Q12h along with 7 tablet strengths, Said Ok will consider. Asked Josie for assistance-font color=blue><b>CHUDAKOB's query on 02/09/2014</b></font>-Mark, what did you review? What questions did you ask her? How did she respond? This sounds like it was more of a detail than a sales call. Your thoughts?<font color=green><b>GUTKOMA's response on 02/11/2014</b></font>-I agree, Under the circumstances, it was a quick detail, I asked her if she had patients like Scott? She said yes, will consider. I reminded of OxyContin and she referred to her MA(Josie). Future thoughts is to book appt to engage in more robust thought provoking sales call! Thanks-font color=blue><b>CHUDAKOB added notes on 02/13/2014</b></font>-Even in quick calls, asking good questions can get you more time. Once you ask her if she sees patients like Scott (which is a good question) you might follow it with another question like what is. Your next step when the patient is asking for a dose adjustment? This is just an example. Because most of your calls are quick, it is important to make them as productive as possible.
PPLPMDL0020000001	Mayfield Village	OH	44143	1/31/2014	Lunch. Dr not coming in until 1:30/2 pm; I had to leave for orthopedic appt. met with dr med asst & left info for dr. Let his med asst know of his concern with cost of OxyContin for patients. Reviewed savings card with her, Conversion from oxycodone & Percocet; pain journal for patients to track their pain experience. Discussed Butrans as first opioid & conversion for patient like Scott taking 400 mg Tramadol daily. 1 patch per week; 4 patches per month. Trial, savings discussed.
PPLPMDL0020000001	Cleveland	OH	44113	1/31/2014	Butrans Reminder for those Tramadol failures that require around the clock analgesia along with OxyContin Q12h, 7 tablets strengths.. Said Ok, nothing new learned
PPLPMDL0020000001	Cleveland	OH	44113	1/31/2014	Reminded of OxyContin Q12h, 7 tablet strengths, formulary coverage. Dr. said he will consider. Reviewed Butrans for those patients requiring around the clock analgesia, Said Ok, Debbie will review and remind
PPLPMDL0020000001	University Hts	OH	44118	1/31/2014	Quick OxyContin window reminder, Q12h, 7 tablet strengths, Said he will keep in mind. Also reviewed Butrans for those Tramadol failures requiring around the clock analgesia. Jeff MA said he will continue to remind
PPLPMDL0020000001	Cleveland	OH	44113	1/31/2014	Visited Ortho. Floor Bliffled/Steams, Reviewed OxyContin Q12h/ 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/3/2014	OxyContin Q12h reminder, 7 Tablet strengths, asked why not instead of Short acting, he said sometimes cost but will consider. Also reviewed Butrans for those appropriate patients requiring around the clock analgesia
	Westlake	OH	44145	2/3/2014	Dr came to window and said he thinks Butrans when his patients could get it works great. He said he likes that its easy for his patients to remember to use and that it controls their pain. Dr said his biggest concern is managed care and prior authorizations. When I asked what plans was his stumping block, the doctor couldn't think of a specific one. I reviewed caesource coverage. Also discussed the experienced Butrans program with him and he said his patients would like that.
PPLPMDL0020000001	Westlake	OH	44145	2/3/2014	Spoke to Vickie and Jeanette the ma. Talked to Vicki about the appropriate patient type Scott profile and reviewed Initiation guide. She said that the patch is so small and thin, we reviewed the 4 layers and the matrix system. Vickie said her concern was getting managed care approved, so we reviewed caesource and also the Tramadol patient to Butrans. She also asked about the patch falling off and we reviewed first aid tape could be used along all sides if the patch was lifting off, she was aware. We talked about the appropriate patient not putting lotions on the patch, reviewed the naive studynd the ten percent of patient that had application error.
PPLPMDL0020000001	Cleveland	OH	44195	2/3/2014	Reviewed OxyContin Q12h, 7 dosing strengths, OxyContin Savings Cards. Said she will keep in mind when starting those patients on the lower dose IR. Discussed Butrans for those patients requiring around the clock analgesia, said at Taussig Cancer ctr believes OxyContin is better suited but will consider for those appropriate patients,
	Berea	OH	44017	2/3/2014	Talked about the Scott profile. Dr said he though along he might have a few appropriate patients he didn't think they would take a patch. I asked how does he know if he has never once offered it. We talked about what an assessment session looks like. Dr said he will see a patient started on a new opioid with in 2 weeks to a month. I asked what questions he typically asked the patient...he said it varies. I asked if he thought his patients could manage their 4 patches a month. Dr said yes. We talked about OxyContin dr said he saves that for his cancer patients. I said why just your severe patients...he said cause of the dosing and it was single entity. We discussed the 7 doses, the delivery system. We discussed when he goes from Percocet to something else. He said he will usually go to OxyContin next. He said his biggest obstacle is managed care and said Percocet is cheaper.
PPLPMDL0020000001	Cleveland	OH	44195	2/3/2014	Quick Butrans reminder for those patients requiring around the clock analgesia along with OxyContin Q12h, 7 tablet strengths, Said Ok, hasn't seen any appropriate patients recently but will consider
PPLPMDL0020000001	Akron	OH	44308	2/3/2014	MSL email communication with Ms. Tonni regarding upcoming PRA visits and scheduling meeting with Dr. Frieber.
PPLPMDL0020000001	CLEVELAND	OH	44195	2/3/2014	Quick OxyContin review and savings card check with Troy, nothing new learned
PPLPMDL0020000001	Cleveland	OH	44195	2/3/2014	MSL email communication with Dr. Dell regarding BUP3031 Amendment 6, Dr. Dell plans to review the amendment with the research team this week and will follow up by February 10.
PPLPMDL0020000001	Cleveland	OH	44017	2/3/2014	Discussed scheduling and patch placement. Reviewed OxyContin dosage and indication
PPLPMDL0020000001	Olmsted Falls	OH	44138	2/3/2014	Discusses the schedule 3 status, it was a 7 day transdermal patch. And highlighted managed care. Also. Asked. Bout OxyContin and the doses available.
	Westlake	OH	44145	2/3/2014	Spoke to Jenny the ma and Megan the rn about OxyContin and Butrans. Offered to schedule a ten minute Inservice to the nurses regarding OxyContin and Butrans. She said no. She took my information do passed it to the doctor. Reviewed Butrans David profiled the initiation segment. Discussed OxyContin dosing.
PPLPMDL0020000001	Cleveland	OH	44195	2/3/2014	Met with Beth F. NP Oncology, discussed OxyContin Q12h and 7 tablet strengths, Savings cards along with Butrans for those patients requiring around the clock analgesia.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/3/2014	Quick Butrans reminder in hallway/Tramadol failures requiring around the clock analgesia along with OxyContin Q12h. Said Ok
PPLPMDL0020000001	Cleveland	OH	44195	2/3/2014	Reminded of OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia. Said he will continue to discuss with fellows
	Berea	OH	44017	2/3/2014	Dr said she wrote 4 patients for Butrans. We reviewed the initiation guide and she said her patients fall in the 5 mcg starting dose since they were under 15 of hydrocodone. Dr asked about cResource coverGe and she pulled up the I formation on her computer. She said a patient has to fail Tramadol Nd then can get Butrans. We reviewed managed care coupons. We discussed OxyContin and its dosing also the Percocet to OxyContin detail page.
PPLPMDL0020000001	Westlake	OH	44145	2/3/2014	Spoke to Lisa the ma. She told me the doctor works part time in this office. She said they are mostly Medicaid and caesource. I discussed Butrans managed care on caesource wither and explained what the product Butrans is, how dosed its scheduling. Also reviewed OxyContin tins strengths and q12h dosing.
PPLPMDL0020000001	Cleveland Heights	OH	44118	2/3/2014	Reviewed OxyContin Q12h, savings cards along with Butrans for those Tramadol failures with RPH, nothing new learned
	Cleveland	OH	44112	2/4/2014	Reviewed OxyContin Q12h, 7 tablet strengths, Savings Cards, Dr. acknowledged she prescribes IR products in the short term but refers out to PM, but will consider for appropriate patients. Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, wall poster, Savings cards. Said she will keep in mind.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/4/2014	Talked to Lisa and Susan about Butrans and OxyContin. Lisa said that they are seeing OxyContin from dr Pitt and some from Western Reserve Pain management. Lisa said they have all doses of OxyContin and have copy cards. I asked which doses they have of Butrans and Lisa said all of them. She said they have 4- 5 mcg, 2-10mcg and one 15mcg and 20mcg doses and plenty of copy cards. Lisa said she also sees lots of dr Rx's from Higley

	Euclid	OH	44119	2/4/2014	Spoke with tech Dana first, then pharmacist Dave, regarding Dr Emad Mikhail patient, age: 50's, Medical Mutual, came into pharmacy, asked them to help with phone # for Butrans patient experience program, after patient called. Patient couldn't get anyone live; was told someone would call him back to complete a survey first, before he could activate card & get his rx. Dave also tried to call BPE toll free # 4-5 times, never got through to live person, was told to leave his phone # and so end would get back to him. Patient wanted his medication that day, couldn't wait, is he had Dave call dr Mikhail, & dr switched patient to Fentanyl. Dave wanted her to drop Butrans trial/savings cards; I told both him & Dana Rite Aid corporate prohibits us from doing that. In addition, when Dave tried running script through Rite Aid Relay Health point of sale, patient script was going to run \$ 34 per month, patient stated that was too expensive; he only expected to pay first \$15 out of pocket like card said. Followed up with RN Nancy & dr to update them on situation. Told Dave & Dana we gave savings for OxyContin as well, \$90 off co pay each month, \$70 off for pay each month starting April 1.
PPLPMDL0020000001	Cleveland	OH	44195	2/4/2014	Reviewed OxyContin Q12h, Tablet strengths, PI along with Butrans Initiation/Titration Guide, And PI. Dr. said Ok and due to personal reasons not able to schedule appt at this time
PPLPMDL0020000001	Cleveland	OH	44195	2/4/2014	Visited Pain/Mgmt OxyContin/Butrans Initiation/Titration guides, requested fellows appt
PPLPMDL0020000001	Euclid	OH	44117	2/4/2014	Discussed conversion from ir oxycodone and Percocet; START principles. Discussed re assessing patients prior to 30 days, because, if titration is needed, you can titrate every 1-2 days, based on OxyContin half life of 4.5 hours. He asked again about Ohio BWC covering OxyContin in 2104. I told him I should have an update on status in a few weeks. He stated BWC patients who are referred to him, already on OxyContin, and he's trying to figure out how those patients are getting it covered. Butrans he had a concern with withdrawal symptoms if patients on other opioids prior to Butrans. I explained ir pioids were allowed for break through pain in our clinical study. He was satisfied with that response. We went through opioid naive start dose, opioid experienced start dose; titration possible after 72 hours. CIII, can call in with refills. Asked if I had any patient education for Butrans, left/showed Butrans patient guides. Told him it's important he hand out with savings card before patient leaves office.
PPLPMDL0020000001	Brooklyn	OH	44144	2/4/2014	Reminded of OxyContin Q12h, 7 tablet strengths, Savings cards along with Butrans for those patients requiring around the clock analgesia. Said Ok will keep it mind
PPLPMDL0020000001	Cleveland	OH	44144	2/4/2014	Window call, Reviewed Butrans, Asked for that 1 Tramadol failure that is requiring around the clock analgesia along with OxyContin Q12h, 7 tablet strengths, Said Ok is overwhelmed taking over for Dr. Hilton's departure
PPLPMDL0020000001	E Cleveland	OH	44112	2/4/2014	Discussed with Marcia Nurse, Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h. Said she relay the info and will schedule appt when Dr. gets back in town
PPLPMDL0020000001	Rocky river	OH	44116	2/5/2014	Dr said she did a thesis on transdermal patches in college and she didn't care for it. After review she referenced the reservoir system type patches. We discussed the patch technology. We also discussed appropriate patient types Nd indication for Butrans. Reviewed the Tramadol patient who is uncontrolled and appropriate for Butrans. Reviewed OxyContin dosages and dosing.
PPLPMDL0020000001	Westlake	OH	44145	2/5/2014	Dr never heard of Purdue. Reviewed the company and the medications promoted. Reviewed Butrans dosing, indication and appropriate patient type. Review OxyContin dosing and indication
PPLPMDL0020000001	Westlake	OH	44145	2/5/2014	Discussed dosing of OxyContin and the conversion of Percocet to OxyContin if appropriate. Reviewed Butrans which the dr never heard of. Discussed dosing, indication, scheduling and appropriate patient types.
PPLPMDL0020000001	Lakewood	OH	44107	2/5/2014	Dr said he doesn't treat much pain but was aware if OxyContin not Butrans. Reviews the OxyContin strengths and how to dose. Review Butrans I dictation, dosing and appropriate patient type.
PPLPMDL0020000001	Garfield Hts	OH	44125	2/5/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, 7 Tablet strengths and Savings cards. Said he feels his patients are adequately controlled under current therapy but will consider for appropriate patients
PPLPMDL0020000001	Westlake	OH	44145	2/5/2014	No said he writes very little OxyContin, we discussed the Percocet dr to OxyContin conversion I n the appropriate patient type, discussed Butrans. Dosages and after the tramdole patient that has failed and needs a different product to treat pain, per the Butrans indication.
PPLPMDL0020000001	Westlake	OH	44145	2/5/2014	Discussed dose ages of OxyContin and dosing q12h. Reviewed Butrans matrix transdermal patch design, schedule 3, dosing. Dr said he doesn't see much pain patients, discussed focusing on a small appropriate patient size.
PPLPMDL0020000001	Westlake	OH	44011	2/5/2014	Discussed OxyContin dosing, strengths available. Reviewed Butrans, discussed dosing and the indication. Dr stated he didn't have many patient patients, therefore we focused on a small percentage of patients that might be appropriate.
PPLPMDL0020000001	Cleveland	OH	44195	2/5/2014	MSL email communication with Dr. Dell regarding BUP3031 participation. The pediatric oncologists are not interested due to prohibited medications, but Dr. Dell is approaching pediatric surgeons and orthopedic surgeons to assess interest. Follow up planned week of 2/10.
PPLPMDL0020000001	Munroe Falls	OH	44262	2/5/2014	I asked dr what her treatment algorithm is for treating pain? Dr said typically its NSAIDs, then tramadol, then hydrocodone combos, Percocet then ER opioids. I told her that not all patients are appropriate for ER opioids but products like Butrans and OxyContin have specific places in that treatment algorithm. I told her about the Scott profile on tramadol and asked her to use it there and to use OxyContin for patients already on IR oxycodone who need a dose adjustment. Dr said she agrees. I asked her if there is anything else preventing her from using Butrans? Dr said no but she just needs to remember it. I told her that's why I come in to help her keep it front
PPLPMDL0020000001	Garfield Heights	OH	44125	2/5/2014	Reviewed Butrans/OxyContin Savings Cards with Rph-floater, no new info learned
PPLPMDL0020000001	Westlake	OH	44145	2/5/2014	Discussed OxyContin dosing nd indication, also reviewed Percocet conversion to OxyContin. Reviewed Butrans. Indication, dosing, patch technology.
PPLPMDL0020000001	Akron	OH	44333	2/5/2014	Dr that he and Elise Elaine had a patient in earlier today on 15mg of Percocet a day and had UHC Community plan. They wanted to know about coverage. I told them Butrans is covered and with a PA. Dr said he continues to have good luck with getting Butrans approved. I asked him to continue using Butrans for his patients that have historically had the most success. Dr agreed. I discussed using OxyContin for one patients needing an adjustment with Percocet and he said he continues to use it more often because it works.
PPLPMDL0020000001	Stow	OH	44224	2/5/2014	I told Stephanie to continue to reevaluate patients on hydrocodone combos and ultram for possible Butrans patients. Reviewed Maria profile. Stephanie said she still doesn't see too many patients first visits and that most and follow ups. I told her that's a great time to reevaluate and she agreed. Asked her to keep a place for OxyContin in those patients already on IR oxycodone. She said ok.
PPLPMDL0020000001	Stow	OH	44224	2/5/2014	Told dr to continue prescribing OxyContin for those patients on IR opioids like Percocet who need a dose adjustment or ask for a long acting opioid. Dr said he has patients asking for ER products and he said more often than not he goes to OxyContin. Dr said however, he is still seeing issues getting patients covered on it. I asked who and where and dr said its mostly patients with Medicare plans. Dr said they are being asked to either go on ER morphine or fentanyl. I asked dr to keep trying and to let me know of any specific plans denying it or plans that once covered it and now are not and I will investigate. Dr said he will and thanked me for also educating pharmacists. Reminded dr of the Butrans product to be used for his tramadol and viconden patients on it 3+ months and need a dose adjustment. Dr said he likes it and will keep using.
PPLPMDL0020000001	Akron	OH	44313	2/5/2014	Quick hello at window and told him that if a oat it is on 20mg of Percocet and they need a dose adjustment, the patient can be converted to 10mg of OxyContin q12. Dr said he knows and will try to remember the lower doses. Gave him the OxyContin titration and conversion guide and the initiation and titration guide for Butrans.
PPLPMDL0020000001	Garfield Hts	OH	44125	2/5/2014	Visited Ortho/Surgery Ctr. Requested appt. to discuss OxyContin/Butrans, left Initiation/Titration guides
PPLPMDL0020000001	Akron	OH	44333	2/5/2014	Elise asked about Butrans coverage on UHC community plan. Discussed coverages and PA. Elise said she didn't put the patient on it because the patient would not move from his Percocet. I explained how she should discuss he option of Butrans. Elise said she needs to be more direct with her patients and said she come times allows them to tell her what they will take. I told her that she's the medical professional and they are not. Discussed Butrans doing and titration and OxyContin patient type selection.
PPLPMDL0020000001	Fairlawn	OH	44333	2/5/2014	Spoke to Gilbert and Sue about OxyContin conversions, titration and dosing flexibility. Sue said they currently don't have any 20mg tablets and had three patients in today for refills. Sue said 2 of the patients are waiting til tomorrow but the third went somewhere else. Gilbert said they have not seen any patients wit denials or prior authorizations and most patients do very well with it. They have all doses of Butrans on the shelf and Gilbert said he has been dispensing most of the 5mcg and is now seeing just as many 15mcg as 20mcg. Gilbert said I'm doing a good job marketing the 15mcg.
PPLPMDL0020000001	Garfield Hts.	OH	44125	2/5/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration and Savings Cards. OxyContin Q12h, 7 tablet strengths Said she will consider
	Akron	OH	44333	2/5/2014	Followed up with dr Balter about his emerif request for further abuse deterrent studies for OxyContin. Dr said that he did receive information from Puurdue via email and said he found it extremely helpful. Dr said he feels better than ever about OxyContin and how it was reformulated to be more abuse deterrent. I told dr that's great to know and dr said that he sent Puurdue an email back telling them how helpful the information was and how they responded very quickly. I asked to continue prescribing.
PPLPMDL0020000001	Garfield Hts	OH	44125	2/5/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Said patient is doing well on Butrans, Asked for expanded appropriate use, said he will, likes Butrans. Reminded of OxyContin Q12h, 7 tablet strengths along with Savings cards, Said he will keep in mind the Q12h dosing
PPLPMDL0020000001	Westlake	OH	44145	2/5/2014	Spoke to dr about OxyContin and the mole u,e and delivery system. Dr asked if OxyContin was generic and also asked how to write he product. We discussed it was a single entity oxycodone, that he can write OxyContin and it was dosed q 12h. We talked about the patient types he thinks about for OxyContin and he mentioned cancer patients. Discussed the doses and the indication of moderate or severe patient types. Dr said he doesn't treat much pain patients. Focused in on the Percocet patient that might need an extended release option that meet indication. Talked about Butrans. Dr was unfamiliar, air with the product. Reviewed dosing, scheduling and how to start Butrans. Focused on the uncontrolled tramdole patient and asked if he would think of butrNs as an option if appropriate.
PPLPMDL0020000001	Garfield Hts	OH	44125	2/5/2014	Reviewed Butrans for those Tramadol Failures requiring around the clock analgesia, along with OxyContin Q12h, 7 tablet strength and Savings Cards. Said he will consider, has attempted to refer those patients to pain mgmnt. but resulting in patients coming back, Cost is an issue with his patients but will keep in mind.
PPLPMDL0020000001	Norton	OH	44203	2/6/2014	Reviewed Butrans, scheduling, dosing, patch location. Reviewed Maria profile and specifically spoke about the Tramadol patient who is uncontrolled and met the indication. Most of her patients are under 300 mg of Tramadol and we reviewed the Initiation guide. Discussed OxyContin, dosing and her usage of the product in appropriate patient tules but she does not write schedule 2 products and she said she only writes schedule 3.
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Reviewed OxyContin Q12h Flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Reviewed Initiation/Titration, dosing strengths. Savings Cards, Said her focus in mainly on Anes. blocks but will consider for appropriate patients
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/6/2014	Dr saw me at the window and came up. She told me how much success she continues to have with Butrans from both a product sand insurance standpoint. I told her that's great to hear. Dr said she just had a parity come in for a follow up today who she started last month. Dr said the patient is doing great and that she is impressed on how quickly the patient got Butrans. I reminded dr to continue to identify patients on ultram who need a dose adjustment and I'm happy she's having success. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Presented OxyContin and Butrans PI's requested appt. Dr. Responded not at this time
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/6/2014	Spoke to Holly the pharmacist about products. Holly said they have a handful of patient on Butrans and get it refilled each month. She said they have all doses in stock but was not aware of he 15mcg. She said she would order it. I explained the conversions and patient types. I reviewed the trial and copay card. I asked her which doses of OxyContin they have in stock and she looked and said they have all the doses. Holly said the pain clinics need them to have all the doses in stock. Discussed the OxyContin copay cards.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/6/2014	Dr came to window and asked what's new. I gave him the tramadol insight and asked him if his experience with Butrans have involved patients on tramadol? Dr said its good info I have him and that many of his patients on Butrans cam from either tramadol or viconden since he doesn't use schedule 2 medicines. Dr said its his go to controlled release product and it works well. Nothing else learned.
PPLPMDL0020000001	Stow	OH	44224	2/6/2014	Short conversation in hallway and asked her how comfortable she really is evaluating patients on Percocet for OxyContin? Dr said she doesn't have any issues with OxyContin and said that she just Ned's to make sure the patient is right for it. I asked her who is right for it? Dr said many patients on Percocet who are taking it too often. I asked her to reevaluate more Percocet patients for OxyContin. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Presented OxyContin and Butrans PI's, requested appt. Dr denied request
PPLPMDL0020000001	Cleveland	OH	44115	2/6/2014	Visited Pain Ctr. , Discussed Butrans/OxyContin with Dr. Nickels, presented Butrans Posters. Dr.said it was great educational resource

PPLPMDL0020000001	Mogadore	OH	44260	2/6/2014	Used two different insights in this call over lunch. Used insight 13 for OxyContin about the number of patients on ER opioids and family practice. I asked dr when he decides to move to an ER opioid? Dr said he just knows by evaluating the patient and discussing their pain level and reason for pain. Dr said he had no issues using OxyContin and usually uses it for those patients on Percocet. I discussed patient specificity and using OxyContin for patients needing lower doses like the 10mg. Discussed ocycontin pharmacokinetics, half life and 12 hour delivery system. I asked dr to write more. Discussed Butrans parietal specificity and tramadol insight. Dr said he has seen Butrans as a product to use much earlier than OxyContin of course. I told dr to focus on his patients on tramadol and vicoden. Dr said he will continue and uses the copy cards.
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Reviewed OxyContin Q12h Flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Reviewed Initiation/Titration, dosing strengths. Savings Cards, Said he has a few patients in mind
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Reviewed OxyContin Q12h Flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Reviewed Initiation/Titration, dosing strengths. Savings Cards, Said he has a few patients in mind
PPLPMDL0020000001	Cleveland	OH	44113	2/6/2014	Reviewed OxyContin Q12h Flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Reviewed Initiation/Titration, dosing strengths. Savings Cards, Said he has a few patients in mind. Presented Butrans Posters, Said it was a great educational resource
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Reviewed OxyContin Q12h Flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Reviewed Initiation/Titration, dosing strengths. Savings Cards, Said he has a few patients in mind
PPLPMDL0020000001	Mogadore	OH	44260	2/6/2014	Discussed OxyContin patient types and insight 13 about the number of prescriptions coming from family practice. Dr said she doesn't have an issues using OxyContin but said she takes a lot of time evaluating the patient prior to prescribing. I asked her what she does for her evaluations. Dr said there are so many patients looking to abuse products and don't have conditions that warrant OxyContin. Dr said the reports have to show consistency and the radio graphic evidence must show a condition that typically is proven to have pain. I told dr about the Percocet patients and the conversions. Dr agreed she will write it for that type of patient. Spoke about Butrans patient specificity and the Scott profile. Dr said she likes it and needs to use it more. I asked her to for that patient.
PPLPMDL0020000001	Barberton	OH	44203	2/6/2014	Discussed Butrans. Dosing, patch placement, showed him the a/e section of the detail pieces. Also reviewed no dose adjustment for Renal impairment patients and how the product is excreted. Reviewed steady state, dr asked about supplemental which we covered. Discussed OxyContin, doses and its molecule and delivery system. Dr said he would try it, but his concern was price and writing it and having it not approved or too expensive.
PPLPMDL0020000001	Akron	OH	44312	2/6/2014	Reviewed savings coupon. Dr told me that she is glad I came in because she just prescribed Butrans for her last patient. I told her that's great and asked what he patient was on prior? Dr said vicoden. Dr said she is too busy to talk about it in length but said insurance covered it. I told dr to continue to think of patients like Scott on tramadol. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44106	2/6/2014	Visited Pain Aines Dept Hayek, Sharma, Reviewed OxyContin Q12h, 7 flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Berea	OH	44017	2/7/2014	Discussed OxyContin, dr said he writes it and thinks it's a good product for the right patient. We talked about if the Percocet patient might ever turn into a OxyContin candidate? He said yes...we talked about when he moves from short acting to an extended release. Dr said managed care and cost to the patient is the driving reason behind his timing. Dr said Percocet is more affordable so it's easier for him to think of Percocet. However he said when the number of Percocet ets get to many in a day he will convert the. To OxyContin. Dr said he converted a nor I patient to Butrans and started him on 10 mcg. He said the patient is doing fine. We reviewed the initiation guide and also the moderate type of pain patients needing an extended release delivery system and appropriate for Butrans. Review of managed care and coupons. Dr also asked me about intermezzo, he has written for the product and he said it had a good niche for the middle of the night awakening.
PPLPMDL0020000001	Cleveland	OH	44113	2/7/2014	Reviewed Butrans for those LorTab failures, Dosing and Posters, along with OxyContin Q12h, Said she continues to find new appropriate patients
PPLPMDL0020000001	Tallmadge	OH	44278	2/7/2014	Asked dr if he is aware that OxyContin had patient assistance copy cards for private prescription patients? Dr said he is and got them when I left them last time. I told dr that's great and if patients he places on OxyContin have private insurance? Dr said he doesn't know and just uses it. I asked why he uses it? Dr said because it works. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44320	2/7/2014	Dr told me that she recently started a patient on OxyContin and said the pairing came in and told the dr she got physically sick. Dr said she's pretty sure it was the OxyContin but was never confirmed. Dr said she switched from OxyContin to Percocet and the patient is not getting sick anymore. I asked if this has happened before and she said not for her patients. I reviewed when she needs to look at prescribing OxyContin and reviewed dosing. Dr said it is difficult getting patients approved on it especially Medicaid patients. I discussed with her to stick to commercial or Medicare D plans. Dr said ok. Reviewed patient types with Butrans and told her I think she has a great practice for Butrans as well due to many of her patios taking either tramadol or vicoden around the clock. Dr agreed and said she will try to use it.
PPLPMDL0020000001	Uniontown	OH	44685	2/7/2014	Confirmed lunch for next week and dr came to window. I handed him the initiation and conversion guide for OxyContin and asked him to continue reevaluating patients on Percocet for OxyContin. Dr said ok because that's what he does. I told him that's great to know and to also be specific to the patients he chooses for Butrans. I told him to reevaluate his patients on tramadol and vicoden for their appropriateness for Butrans. Dr said ok.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/7/2014	I asked dr to continue to focus on the patients that he continues to have the cost success with Butrans. I told dr those are the patients on tramadol or vicoden who have either been on it for too long and suffering from a pathology that gives chronic pain. Dr said hinges are going well and wants more insurance help. I told him again that he must provide me with specific plan/pharmacy information that is giving him issues that it's hard to help without it. Dr said ok. I asked dr to continue writing.
PPLPMDL0020000001	Akron	OH	44319	2/7/2014	Met pharmacist Michael for the first time. Asked him is he's familiar with Butrans? He said he was. I discussed Butrans key selling points. Michael said that's good information to know and asked about copy cards. Discussed them and trial offer. He said they may have one patient on it. Discussed OxyContin doses, titration and patient types already on oxycodone.
PPLPMDL0020000001	Cleveland	OH	44113	2/7/2014	Quick window call reminded of Butrans for those Tramadol failures along with OxyContin Q12h, 7 tablet strengths, Said Ok and to book lunch appt with LeAnna
PPLPMDL0020000001	Cleveland	OH	44113	2/7/2014	Visited Dept (Bilifield, Stearns, Joy, Long, Paczos) OxyContin/Butrans Initiation/Titration guides, Booked appt
PPLPMDL0020000001	Cleveland	OH	44113	2/7/2014	Visited Ortho dept (Bilifield, Stearns, Long, Paczos) left OxyContin Initiation/Titration guides along with Butrans Initiation guides. Booked appt
PPLPMDL0020000001	Akron	OH	44320	2/7/2014	I asked dr why she stopped writing Butrans? Dr said she knows she should be writing it but said the office policy is becoming very stick in kicking patients out of the office. I asked her what a patient does to get them kicked out? Dr said if they do a UDDS and cocaine or marajuana comes back they are kicked out. Dr said the patients they see on IR opioids are either abusing and they get kicked out or are only taking them once or twice a day PRN. I asked dr if she has any patients at all that continued to get refilled on their tramadol or vicoden and you have confirmed that the patient continues to be in pain? Dr said she does. I told her those are the patients she needs to focus on for Butrans. Dr said ok she will and asked about coverage. I asked her what plans she sees most of? She said Medicaid like Caresource, BWC, and Medicare D tend to be plans that she has most trouble with. I explained coverages and told her she needs to be laser focused on the right patients w/ the right plans. Dr agreed and will write it more. Discussed OxyContin parity types and asked her to transition patients still in pain on
PPLPMDL0020000001	Cleveland	OH	44113	2/7/2014	Quick OxyContin reminder thru window, Q12h, 7 tablet strengths along with Butrans for those tramadol failures, Said Ok will consider
PPLPMDL0020000001	Cleveland	OH	44102	2/7/2014	Quick review of OxyContin Q12h, 7 Tablet strengths also Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok will consider
PPLPMDL0020000001	Cleveland	OH	44113	2/7/2014	Reviewed Butrans for those Tramadol failures, requiring around the clock analgesia. Along with OxyContin q12h, 7 tablet strengths. Said she is continuing to find appropriate new starts- CHUDAKOB's query on 02/14/2014- Mark, thank for recognizing an AE and recording it. This is something you should also record in your call notes as well, so we can see what the adverse event was. GUTKOMA's response on 02/15/2014- Thanks, Patient experienced skin reaction to Butrans(concentrated in the center matrix area of the patch)- CHUDAKOB added notes on 02/18/2014- OK.
PPLPMDL0020000001	Akron	OH	44319	2/7/2014	Thanks for clarifying that. The more information you can gather on an AE, the better. Thanks again! I asked dr what he does with his patients that continue to be refilled on Percocet and still complain of being in pain? Dr said it depends but generics are cheap. I asked him if cheap is always going to be the best method of treatment? Dr said no but he has lots of patients on Medicaid and cash only. I told him I understand but what about taking people on Percocet and switching them to a q12 oxycodone? Dr said he understands it makes sense but not always for his practice. I said that's fine and let's focus on patients that are appropriate and have insurance. Dr said for the most part those aren't the patients who are the problem. I asked him to write OxyContin for patients with insurance or Medicare D. Reminded him to start patients on Butrans who need an adjustment in their tramadol.
PPLPMDL0020000001	Brooklyn	OH	44144	2/10/2014	Talked with Bev-Tech, Discussed Butrans/OxyContin Savings cards, no new info learned
PPLPMDL0020000001	Cleveland	OH	44104	2/10/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, said she will consider, asked if she had a patient this afternoon, said not today but will this week- CHUDAKOB added notes on 02/23/2014- Looks like a good powerful request on this call. Nice job Mark. These type of specific closes are an important step to increasing sales.
PPLPMDL0020000001	Cleveland	OH	44104	2/10/2014	Reviewed OxyContin Q12h, 7 tablet strengths and Savings cards, Also reminded of Butrans for those Tramadol failures requiring around the clock analgesia, Said he will consider, had some success with Butrans but struggled with PA approvals.
PPLPMDL0020000001	Stow	OH	44224	2/10/2014	Short conversation over lunch. Used new visit to detail from GP/family practice for Butrans. Dr said he really likes that it works and is finding its covered on a lot of plans. Discussed Bup 3015 efficacy and safety. Used the inclusion/exclusion criteria to talk about appropriate patients. Dr said he will continue to prescribe. Discussed OxyContin dosing, titration, conversions and asked him about patients he might have in his practice that would be appropriate. Dr said there are a few and said he only uses it when patients he trusts need long acting oxycodone. Dr said typically he will get a patient til about 20-30mg of oxycodone then he'll switch. Discussed using the 10 mg and the conversions and q12 delivery system.
PPLPMDL0020000001	Akron	OH	44313	2/10/2014	Quick hello at the window. I asked him what's stopping him from using OxyContin for a patient that either can't tolerate IR oxycodone or still in pain on it? Dr said he doesn't know but most of his Percocet patients are doing fine. I asked him to just reevaluate them to assess their pain further. Dr said ok.
PPLPMDL0020000001	Akron	OH	44304	2/10/2014	PDF came to front counter. Showed him the Tom patient type and asked him if he had patients like him? Dr said he does. I told him to use OxyContin for those patients on IR oxycodone. Told him OxyContin is a 1:1 ratio with IR oxycodone and its also a single entity opioid. Dr said ok. Nothing else learned.
PPLPMDL0020000001	akron	OH	44333	2/10/2014	Asked dr if he is seeing more patients while he continues with being a UH dr that come in on IR opioids? Dr said he is getting more and more every day. I asked him why he hasn't found more room for Butrans in those patients? Dr said he doesn't know. Dr said he guesses he just forgets to use it. I gave him the Butrans conversion slide guide and asked him to keep it in his main exam room. Dr said he will. Told dr that he also needs to identify patients for OxyContin. Reviewed dosing and conversions and patients already on Percocet.
PPLPMDL0020000001	Cleveland	OH	44104	2/10/2014	Reviewed OxyContin Q12h flexible dosing strengths Savings cards, Along With Butrans for those Tramadol failures requiring around the clock analgesia. Said he will consider, has used in nursing homes/Assisted living facility with success, asked him to take those successes into his daily practice. Said Ok
PPLPMDL0020000001	Cleveland	OH	44104	2/10/2014	Talked with Hakim Rph, Discussed OxyContin Savings cards along with Butrans formulary/PA concerns, No new info learned
PPLPMDL0020000001	Hudson	OH	44236	2/10/2014	Spoke to dr about specificity of patient type selection for OxyContin and Butrans. Dr said he will use OxyContin if he knows the patient is in legitimate pain and not a surgical candidate. Dr said that he will think more about it.
PPLPMDL0020000001	Cleveland	OH	44114	2/11/2014	Asked dr if he has patients on tramadol whom continue to take it and are still in pain? Dr said he has plenty. I told him the option of Butrans is real and should be considered. Dr said he will try to use it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/11/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, BWC coverage along with OxyContin Q12h, 7 tablet strengths. Said he will consider, Asked John to remind him, agreed
PPLPMDL0020000001					Saw dr as I was talking to Glenn this morning. I asked dr if he has had the opportunity to prescribe more OxyContin for his outpatients recently as we discussed on our last visit? Dr said he is trying and said that Butrans is much better suited for many of those patients? I asked why and he said OxyContin is great for inpatients because he is mostly converting from Percocet. Butrans is great for patients that aren't always surgical candidates and seems to work quite well. I told him that's good to know. Nothing else learned.

PPLPMDL0020000001	Cleveland	OH	44195	2/11/2014	MSL email communication with Ms. Riley and Ms. Cassano regarding Master Clinical Trial Agreement. Ms. Riley is now the primary contact for the research office. The Cleveland Clinic legal representative is in contact with vendor INC regarding the agreement. Update provided to PPLP team.
PPLPMDL0020000001	Cleveland	OH	44195	2/11/2014	MSL email communication with Dr. Dell for BUP3031 participation. Both the pediatric surgeons and orthopedic surgeons are interested in the trial, Dr. Dell plans to work with both to identify a PI in the next 1-2 weeks and will notify MSL to begin startup procedures.
PPLPMDL0020000001	Waterford	OH	45786	2/11/2014	I-Butrans dosing, clinical trials and managed-care. OxyContin start principles.W-said that she would use Butrans more if she understood where she could write it for managed-care. Went over all of managed-care including Medicaid.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/11/2014	I asked dr if she has patients who are over 65 and Medicare age who suffer from pain around the clock? Dr said she has many of them. I asked her if she treats this subset of oarients differently from others when it comes to pain? Dr said not really other than dose adjustments on the low end.m I said that's good and if OxyContin has a place for those patients who suffer from moderate to severe pain?m dr said she has prescribed it for them and has no issue with that. I asked her to confirm what the pathology is in those patients and see if it deems necessary for an ER opioid especially those already on IR oxycodone. Dr said ok. I reminded her of Butrans indication, dosing and tramadol patient profile.
PPLPMDL0020000001	Stow	OH	44224	2/11/2014	I lld with the ERO insight and asked her what her protocol is for when a patient needs to be on an ER opioid? Dr said she doesn't have a set plan for that. Dr said during her discussion with the patient she said she gets a good idea where the pain is coming from and its severity. I told her that patient specificity is vital when prescribing OxyContin. I reviewed page 4 and 5 of the main visaid to point out pain conditions, indication, and specific patients appropriate for OxyContin. Dr said its good to see that and she likes OxyContin because it works and is fairly well priced. I asked dr to reevaluate patients who may have conditions and pain levels like we discussed and use OxyContin. Dr said ok. I discussed e copy cards and how important they are for commercial patients. Dr said to leave them with Paula and she will find a place for them. Asked dr to also use Butrans for patients she has on tramadol or vicoden. Discussed Scott profile and asked her if it made sense to use Butrans for a patient like Scott? Dr said it does and she just needs to remember its an option.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/11/2014	Told dr that OxyContin has 7 doses that he can individualize the dose with. I showed him the doses and asked which dose he finds used most in his practice? Dr said probably 60mg and then 80 and does use then40 as well. I asked when the last time he used a 10mg? Dr said he uses it. Asked him to give Butrans another shot in patients like Kathy. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44310	2/11/2014	Dr asked me for more of the Butrans low back spine posters. Discussed wi them and said that dr Tharp really liked them and he wanted some for his exam rooms also. I asked him how his patients have been doing on Butrans? Dr said he has a patient in for a follow up this week and is doing really well. D r said the patient was titrated to the 10mcg and said he thinks its the best dose for the patient who has spinal stenosis. I told him to continue prescribing. Showed him the OxyContin initiation and conversion guide and asked for him to consider OxyContin for his patients on Percocet.
PPLPMDL0020000001	Valley View	OH	44125	2/11/2014	Reviewed OxyContin Q12h, 7tablet strengths, Savings cards along with Butrans for those Patients requiring around the clock analgesia, Initiation/Titration. Said he will relay info to staff and with Clinicians when opportunity presents.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	2/11/2014	Quick call at window. I reminded her to to use butrans in patients like Scott. Showed her the profile and outlined it. Dr said she has used Butrans for patients like Scott and likes it a lot. I told her that's great and asked her if she has needed to titrate though the doses? She said she has used the 10mcg and maybe one or two 20mcg titrations. Told her about OxyContin doses and indication as well as disease states.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/11/2014	Spoke to Pat the pharmacist about both products. Pat said they continue to see new prescriptions from pain management for OxyContin and Butrans. Pat also said he has seen a number from GP as well. I asked which doses of Butrans are moving most and he said 20, 40, and 60mg. Checked copy cards and asked him to keep all doses in stock. Reviewed Butrans information on dosing and titration. Talked to him about all the patients he sees getting refill after refill of IR opioids. Pat said he is going to start talking to patients about the options available. I told him that's great and to continue to stock all doses.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/11/2014	Spoke to dr staff and Sandy one of the nurses at the office about OxyContin and if there is a policy about writing scheduled medicines? Sandy said that they do sprite some but specifically for dr Saunders, she knows he has some patients on OxyContin that they refill for but doesn't think he is writing new ones. Asked dr in hallway who he feels is an appropriate candidate for OxyContin? Dr said he leaves that up to the specialists. I asked him if he treats pain at all anymore? Dr said he does but mostly its acute pain and will prescribe up to 60 days of a pain medicine. I told him that OxyContin isn't for everyone and the patients it is appropriate for have moderate to severe pain and need a 12 hour opioid to help control it. Dr agreed but said he is still not comfortable using it. I asked him if he's comfortable using a product like Butrans which is a schedule 3 controlled release opioid for 7 days? Dr said possibly. Gave him the initiation and titration guide and asked him to try it in a patient who is failing tramadol? Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44115	2/11/2014	Window Call, reminded of Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, Savings Cards, Said Ok, nothing new learned.
PPLPMDL0020000001	Akron	OH	44333	2/11/2014	Dr saw me and said he needed more OxyContin copy cards. Dr said he went to grab one today and they are all gone. I provided him the cards and asked him what his most recent prescription was for? DR said he was taking a patient he acquired from another practice who was on way too many opioids and was condensing. The patient was taking IR oxycodone and was placing the patient on 30mg OxyContin. I told him that's good to hear and provided him cards. Told dr not to forget about Butrans for those patients on tramadol or vicoden who need fose adjustment. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44102	2/11/2014	Reviewed OxyContin Q12h, 7tablet strengths, Savings Cards,along with Butrans for those patients requiring around the clock analgesia. Ed Pharm Dir. Said he will continue to discuss when available with Facility clinicians. Dr. Nouraldin has a new NP (Nancy Capito)
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/11/2014	Spoke to Glenn about the confirmation as a vendor at the pain seminar in the 21st. Glenn said he got the information from Purdue and payment. I told Glenn that I need specific examples of insurance issues with Butrans. I told him that my RAE is back from maternity leave and she can help research any insurance problems for Butrans. Glenn said ok and he will pull a couple of examples. Asked him to also pull some for OxyContin if there have
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/12/2014	Discussed OxyContin Q12h and 7 tablet strengths,Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Said he will consider as long as the patient can afford/tolerate it, he will continue to prescribe for appropriate patients. Reviewed Savings Cards
PPLPMDL0020000001	Cleveland	OH	44118	2/12/2014	Discussed OxyContin Q12h and 7 tablet strengths,Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok. As a NP doesnt prescribe CII's but will consider Butrans for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44127	2/12/2014	Quick Review of OxyContin Q12h along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, nothing new learned
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/12/2014	Reviewed Butrans And OxyContin Savings cards with Bob RPH, no new info learned
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/12/2014	Discussed OxyContin/Butrans savings cards, Said he sees Butrans from Harris, nothing else learned
PPLPMDL0020000001	Mayfield Hts	OH	44124	2/12/2014	Quick hallway. Discussed Butrans patient guides; I will deliver next week. Discussed Butrans 4 strengths for greater dosing flexibility. Discussed new Butrans trial, savings and exp date of 3/31/15.
PPLPMDL0020000001	Uniontown	OH	44685	2/12/2014	Heather can in for the second half of the day as I was packing up from lunch. Short conversation about OxyContin and Butrans. Heather said she will not write OxyContin anymore because of her history in pain management but does think Butrans has a place. Heather said she would use it if she thinks a patient is not responding to oral medication and said that she feels it would be better suited for older patients. I told her about the number of patients in the trials over 65 and that Medicare coverage is pretty good. I asked her to use Butrans for patients on tramadol or vicoden who need dose adjustments.
PPLPMDL0020000001	Uniontown	OH	44685	2/12/2014	Discussed much of the FPI information for OxyContin and Butrans to all drs and heather. Reviewed indication, doses, black box warnings, contraindications, and use in special populations. I asked dr when he typically uses OxyContin and how he figures the initiation dose? Dr said he does conversions and like that its a 1:1 conversion from Percocet. I used pages 4 and 5 of the visaid and asked what he thinks about using OxyContin for patients whom are opioid naive? Dr said he has never done it. I asked why and he told me that there are many other products to use before an ER opioid. Dr said as a GP limitations are coming for the ability to treat pain patients anyway. Dr said he uses OxyContin and will continue to. I told him to use it for oar its with Osteoarthritis, low back pain and cancer pain. Dr said ok. Discussed Butrans patient type selection specificity. Discussed tramadol Scott profile and Kathy. Asked dr if he ou,d take the extra minute to assess what the pathology is that is being treated. If its a condition that causes pain around the clock to use Butrans.
PPLPMDL0020000001	Akron	OH	44313	2/12/2014	I told dr I had two points for OxyContin and one for Butrans. I told dr about the % of patients in e studies over 65 and how coverage for Medicare coverage is good. I asked dr if he has patients that fit this classification? Dr said he does and uses it for that group of patients. I also told him that he should start using the OxyContin 10mg and its a conversion from Percocet 20mg. Dr said he knows and has used it. I asked him if he would use it more instead of continuing to titrate through Percocet? Dr said he sees my point and will do that. Gave dr the Butrans conversions guide and told him to focus on the tramadol patient who needs a dose adjustment.
PPLPMDL0020000001	Akron	OH	44313	2/12/2014	Spoke with pharmacist about both products. Discussed Butrans doses, titration and initiation of the product. I told her about a tramadol or vicoden patient starting on Butrans. I asked her if they have patients on it? She said they do and see a new one about each month or two. Discussed ocycontin doses and conversions from IR oxycodone.
PPLPMDL0020000001	Akron	OH	44302	2/12/2014	Went to give OxyContin copy cards. Caught dr at window and asked him if he needs any OxyContin patient copy cards? Dr said the staff just organized the office and he saw some. I asked him when he knows to titrate OxyContin? Dr said it different for everyone but usually he discusses it with the patient during the assessment. Dr said he also looks for the patients mobility. I thanked him for the information and asked of continued OxyContin business. Left him the Butrans initiation and titration guide.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/12/2014	Discussed Butrans patient selection. Opioid naive like Maria patient profile. Start 5 mcg hr, ability to titrate after 72 hours, 4 strengths for greater dosing flexibility. Formulary status for commercial, med d discussed. Gina will keep opioid naive patients in mind for Butrans. Discussed opioid naive dose for OxyContin of 10 mg. George profile. Gina would be comfortable writing for a patient like George, yet lately she's been getting a lot of denials for OxyContin. Gina states that she recently had 2 patients she tried to place on OxyContin & they were denied. I had her look up the plans. 1. Cleveland Clinic employee, female patient with cancer, on "Mutual Health" which is CC plan. Patient probably also on her husband's insurance says Gina. Her plan will not allow Gina to write an OxyContin 10 or 20 mg. They want her to write a 60 mg and a 20 mg; and give the patient 80 mg. They won't approve smaller doses. The second patient: Another patient on Anthem Medicare Part D and OxyContin denied by HER plan. Using my iPad I let Gina know that OxyContin is not covered on that particular Med D plan, informed her of other Med D plans in area where OxyContin is preferred.
PPLPMDL0020000001	Cleveland	OH	44106	2/12/2014	Visited Anes/Pain Ctr. followed up with Atit Fellow on Butrans patient info booklets along with OxyContin Initiation/Titration guide
PPLPMDL0020000001	University Hts	OH	44118	2/12/2014	Quick OxyContin Q12h, 7Tablet strength reminder along with Butrans for those Tramadol failures, Said he will consider, Nothing new learned, Booked appt
PPLPMDL0020000001	Uniontown	OH	44685	2/12/2014	Reviewed FPI information with OxyContin. Discussed patient type selection and conversions from IR oxycodone and Percocet. I used the insight with ERO use and asked him when he decides to use an ER opioid. Dr said its usually individual decisions but said he moves to an ER opioid when a patient gets to 4 IR opioids in a day. Dr said when a patient needs more than 4 prns a day he said he needs to look more into what is causing the pain and typically will move to an extended release opioid. Reviewed doses and told him that sounds like a good time to move to OxyContin. Dr said he likes it cause it works. Discussed Butrans patient type selection, doses, conversions and limitations of use, use in special populations. Dr said he likes it and should use more.
PPLPMDL0020000001	Stow	OH	44224	2/12/2014	Caught dr in stow who said again that he was out of OxyContin copy cards. Provided cards and asked him what percentage of his patients on OxyContin have private prescription insurance? Dr said he doesn't know exactly but guessed that its probably about 40-50%. I said that's really a high number and I'm glad the cards are useful. I asked dr to continue using OxyContin for patients on Percocet who need dose adjustments and also asked for continued Butrans business for those on tramadol or vicoden who he believes need an ER opioid.
PPLPMDL0020000001	Akron	OH	44333	2/12/2014	Spoke to Elise about Butrans use in special populations and reviewed information in main visaid. Elise said that's good to know because she just finished with a patient who is on Butrans and has renal impairment. She said its mild but had wondered and said she's glad I discussed it. She said she had a patient that she wanted to put on Butrans the other day but the secondary insurance would not pick up what he Medicare did not. She said the patients secondary was a medical mutual plan. I told her it should have picked it up and to send a request for approval. She said she would. I asked her her thoughts on OxyContin and she said she had no issues using it and typically will such patients from oxycodone or Percocet. I asked her what dose she usually goes to and she said it depends on the patient but she is sticking with the 4 prns a day. I told her that's great and to reevaluate her IR oxycodone patients regularly for the q12 oxycodone.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/12/2014	Intro.Shanon/Jenifer-Nurse Reviewed OxyContin Q12h, flexible 7 tablet strengths, Butrans for those patients requiring around the clock analgesia, said Ok asked to schedule appt with Jenifer

	Akron	OH	44333	2/12/2014	Reviewed main visad section for PS and renal and hepatic sections. Dr said that's good information to know. I told him its important because he uses Butrans for many of his patients over 65 who tend to have either renal or hepatic impairment. Dr agreed and is glad he doesn't have to worry much. Dr asked about QTc prolongation and if patients require an ECG prior to using Butrans. I reviewed the section in the FPI about electrophysiology and class antiarrhythmics. Dr said he's ok with that and just didn't know. I told dr I am going to be talking more in depth about OxyContin in the coming months. Dr said he hasn't been using much of any CII opioids recently. I asked why and he said that they like to get patients to 4 prn meds then switch them to ER opioids and just hasn't had patients hitting that mark recently. I told him he should be using the low doses of OxyContin like the 10 and 15mg. I showed him the conversions and asked for more business. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44113	2/13/2014	Reminded of Butrans for those LorTab failures requiring around the clock analgesia along with OxyContin Q12h, flexible dosing strengths. Said Ok will continue to find new appropriate patients for Butrans
PPLPMDL0020000001	Cleveland	OH	44113	2/13/2014	Reminded of Butrans for those LorTab failures requiring around the clock analgesia along with OxyContin Q12h, flexible dosing strengths. Said Ok will continue to find new appropriate patients for Butrans
PPLPMDL0020000001	Cleveland	OH	44113	2/13/2014	Reminded of Butrans for those LorTab failures requiring around the clock analgesia along with OxyContin Q12h, flexible dosing strengths. Said Ok will continue to find new appropriate patients for Butrans
PPLPMDL0020000001	Akron	OH	44308	2/13/2014	MSL email communication with Dr. Friebert with OTR study updates, and inquiry about recruitment efforts and outreach to pharmacy. Dr. Friebert and Ms. Tonni continue to review patient census for potential OTR subjects.
PPLPMDL0020000001	Mayfield Village	OH	44143	2/13/2014	Bad day, first week new EMR system. Pain reduction insight, pain scores BUP 3015. Dr thinks pain reduction is decent. Responded that in most clinical trials on pain, 30% or greater reduction is seen as clinically important. 10 mcg hr start for opioid experienced discussed. Another option in oral form, OxyContin, with 10 mg start dose. Please keep these products in mind when entering next script fir pain in your new EMR system.
PPLPMDL0020000001	Richmond Heights	OH	44143	2/13/2014	Quick window. Focused on opioid naive doses, options for both products.
PPLPMDL0020000001	Cleveland	OH	44113	2/13/2014	Reviewed OxyContin/Butrans savings cards with Justin. No new info learned
PPLPMDL0020000001	Richmond Heights	OH	44143	2/13/2014	Discussed with med asst, Butrans & OxyContin indications. Formulary access. Trial/savings cards for Butrans, patient guides. OxyContin savings. ( set few lunches; dr balaji & dr natesan in opposite days)
PPLPMDL0020000001	University Heights	OH	44121	2/13/2014	Not good day. First week new EMR system. Discussed OxyContin 10 mg opioid naive dose for patients with non cancer pain, showed George profile. Next lunch I'd like to dive deeper into this patient profile. Butrans also available for opioid naive; 5 mcg hr start dose. My goal next call is to get you so comfortable with Butrans that you put pen to paper.
PPLPMDL0020000001	Highland Heights	OH	44143	2/13/2014	Lunch. Goal: get dr to write more Butrans for any opioid naive patients. He gets about 20-25 new patients every week. All doses Butrans discussed, 15 mcg hr insight. Formulary coverage BWC discussed. He appreciates savings card that don't expire until 2015. Goal: get him to consider writing 10 mg OxyContin for opioid naive patients, after summarizing our discussion last visit where he was firm on not initiating any new OxyContin starts. By focusing on patient who failed on NSAIDs, concentrating on diagnosis of osteoarthritis & hip pain, stated this could be a good candidate for 10 mg OxyContin, which dr agreed to! He liked educational aspect of OxyContin essential kits very much. Cost/ patient access key factor in 2014 affecting what long actings he will write.
PPLPMDL0020000001	Akron	OH	44307	2/13/2014	I asked dr how many patients he has that are currently on IR oxycodone and could use a dose adjustment? Dr said a few. I asked him when the time comes to adjust a dose, why wouldn't OxyContin be a possible solution? Dr said it is and he likes it because it works. I reviewed the doses and conversions. I asked him to start with the 10mg q12 for a patient on Percocet 20mg a day and can titrate every one to two days. Dr said ok. Reminded about continuing to use Butrans for those patients needing that adjustment on tramadol. Dr said he really likes it and the patch patients love. I asked for continued use .
PPLPMDL0020000001	Cleveland	OH	44109	2/13/2014	Left OxyContin/Butrans initiation/titration guides for Campbell,Dzwis,Baker,Gelho and Gemechu
PPLPMDL0020000001	Lyndhurst	OH	44124	2/13/2014	Goal: find out age of most patients to tailor formulary coverage/ access @ end of call. Dr says majority patients age:20-50. She sees only a few elderly. Discussed opioid naive dose of 10 mg for OxyContin, which dr is now comfortable with. Ability to titrate to 15 mg if necessary in 1-2 days. Butrans opioid naive dose of 5 mcg hr discussed. Dr said female patient recently came to her on 300 mg Tramadol. Which dose of Butrans is appropriate for that patient? Responded with 10. Mcg/hr; if necessary can titrate after 72 hours. Discussed avoiding external heat sources. She was concerned, if patient. Is in heat all day, even though Butrans is covered with shirt, will patient be at risk? Responded with we have no clinical studies on that specific scenario. She was satisfied with response. Discussed black box warning, both products, respiratory depression.
PPLPMDL0020000001	Euclid	OH	44132	2/13/2014	Met with med asst, scheduled lunches, very appreciative of patient education in OxyContin essential kits. Promised to drop off Butrans patient guides next visit. Left urine screen flashcard, OARRS flashcard. Dosage strengths, indication, scheduling for each product discussed.
PPLPMDL0020000001	Akron	OH	44310	2/13/2014	I asked ER what criteria does he use to determine if he is going to treat a patient for pain or refer them out? Dr said he doesn't want to treat pain in anyone unless its a one time acute pain condition. Dr said it is becoming too difficult to prescribe narcotics to patients anyway with the laws and restrictions. I asked dr if he would keep a patient in the practice if they are on tramadol and need a dose adjustment that is confirmed a verified by you? Dr said maybe but doesn't want to beas then they just need more and more. I told dr what happens if you refer a patient to PM and it takes them 3 months to get in? Dr said the patient can take what they have been taking. Gave dr the Butrans Scott profile and OxyContin conversion guide.
PPLPMDL0020000001	Cleveland	OH	44114	2/13/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. He likes Butrans and its once weekly transdermal delivery system, reiterated that it has the same abuse potential as other CII opioids, Dr. just came back from medical leave and will be seeing patients on Wed/Thurs at this location
PPLPMDL0020000001	Tallmadge	OH	44278	2/13/2014	Dr came to window and said he doesn't have time to talk. I told him I need to speak with him about how he manages pain. Dr said he is trying not to do much but does know about Butrans after seeing my piece. I asked if he has used it and he said no but would rather prescribe a patch than a pill. I told him that's great to hear and told him its the only schedule 3, 7 day transdermal system on he market for moderate to severe pain. Gave dr the OxyContin conversions guide and the Kathy profile for Butrans. Dr took info and left.
PPLPMDL0020000001	Cleveland	OH	44109	2/13/2014	Intro. briefly discussed OxyContin q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, said that They have an Ortho. Dr. Pan agouti that also consults on treating pain. Will review info and consider. Lori- Nurse will call to schedule appt
PPLPMDL0020000001	Cleveland	OH	44103	2/14/2014	Reminded of OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures, Said he continues to prescribe for appropriate patients and will keep Butrans in mind
PPLPMDL0020000001	Stow	OH	44224	2/14/2014	I told dr that he should think if Butrans as a product as his go to every time. Aliens is in pain around the clock and is failing tramadol. Dr said ok but he won't prescribe it to everyone who fails tramadol. I asked him what a patient looks like that he wouldn't prescribe it to? Dr said probably a patient who was still in acute pain after a month or two. I asked him then what he considers chronic? Dr said usually anywhere from 3-6 months. I asked him if he would consider Butrans at 3-6 months? Dr said he would and has. I asked for continued business for that patient type. Reminded him of OxyContin dosages and titration and told him to review the conversion and
PPLPMDL0020000001	Akron	OH	44312	2/14/2014	Quick hello in the hallway and asked him to continue finding good candidates like Scott, and showed him the profile, for Butrans. I also showed him the conversion and titration guide for OxyContin and asked him if it makes sense to convert a patient needing a dose adjustment on Percocet to OxyContin. Dr said he is continuing to look for good patients for Butrans and likes to refer patients failing Percocet to pain management because usually they need injuction or surgery.
PPLPMDL0020000001	Akron	OH	44319	2/14/2014	Led with the ERO insight and asked dr what criteria he uses to determine who is appropriate for an ER opioid? Dr said that for OxyContin, the patient has to be in severe pain like cancer pain. Dr said for Butrans, he is trying to decide who he is going to trial it on. I asked for ER opioids in general what does he look for? Dr said those who are failing their short acting product. I explained to dr that I understand what his criteria is and explained OxyContin q12 delivery, single entity opioid and showed him the conversion and titration guide and the conversions from Percocet. Dr asked what the doses are. Explained the doses, and titration. I asked dr if he will use oxycodone for those failing a 20mg Percocet? Dr said ok. I told him he can use it for any patient with moderate to every pain when a patient needs an opioid analgesic for an extended period of time. Reviewed Butrans Kathy profile and told him to use it for his tramadol and vicoden failures or before he goes to just write another refill. Dr said ok.
PPLPMDL0020000001	Akron	OH	44319	2/14/2014	Handed dr the OxyContin conversion and titration guide and Butrans initiation and titration guide and told him he needs to make sure his patients are on the most appropriate medicine. Dr said surer walked away. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44320	2/14/2014	I asked dr what the downside is to using Butrans for her patients failing tramadol or vicoden? Dr said some things can get in the way like cost, side effects and patients not wanting a patch. I told her that she needs to be specific with her patient type selection. Reviewed cost issues, reviewed adverse events in opioid experienced patients and asked her what stands out? Dr said nothing really other than constipation incidence is low.k. I discussed again how important it is to be specific with insurance plans and patient type selection.k. Dr said ok. Discussed OxyContin doses, specific patient selection and conversions.
PPLPMDL0020000001	Cleveland	OH	44113	2/14/2014	Window call, reminded of Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h 7 tablet strengths. Said ok will consider
PPLPMDL0020000001	Cleveland	OH	44113	2/14/2014	Visited Anes/Pain Dept reviewed OxyContin Q12h, 7 tablet strengths along with/Butrans for those patients requiring around the clock analgesai with Dale PA
PPLPMDL0020000001	Cleveland	OH	44113	2/14/2014	Quick Reminder of OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures, Said Ok referred to Shen/Dale
PPLPMDL0020000001	Fairlawn	OH	44333	2/14/2014	Told the technician about OxyContin and Butrans and she told me they are way too busy to talk. I left materials for Butrans and OxyContin and told the pharmacist Dave if he could look over the information and familiarize himself with it. He took it and said he would when he has a minute.
PPLPMDL0020000001	Akron	OH	44312	2/14/2014	Speaking to receptionist about getting time with dr to discuss OxyContin and Butrans. She told me he only sees reps with new products and had not seen Butrans. I asked if he will see me about it then dr walked up. I asked him if I can get a minute to discuss a few oxycotin and Butrans? Dr said he will look over Butrans and the staff will call me. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	2/14/2014	Reminded of OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures, Said Ok Will help in reminding Daoud/Shen
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/14/2014	Dr told me that he is traveling to Las Vegas Saturday for a pain conference. Dr said he'll be back for their own conference for Friday. I asked dr if he has patients on Butrans that have hepatic or renal impairment? Dr said he does. I told him that I want to make sure he understands the information on these patients. Read the information from the section in the visad about special populations. Dr said and said it certainly doesn't stop him because its one of the only opioids he writes! I told him I appreciate it and to continue. Dr said his patients love it and do very well and dr said its safe for an opioid. I reminded him it can still be abused and misused like any other opioid. I told dr about using OxyContin for his Percocet patients and reviewed conversions. Dr said he doesnt use much but agreed that it works well for the right patient.
PPLPMDL0020000001	Uniontown	OH	44685	2/14/2014	Dr came to window and asked me if patients need ekg's with Butrans? I asked why he asks? Dr said he has a patient who has had some heart trouble and thinks he may be a candidate. I read from the FPI about the electrophysiology and QTc prolongation. I told him that he should error on the side of caution in patients with heart trouble or arrhythmias. Dr said ok. I asked him for continued use of the product and figure that he has a lot of opportunity in his practice to use it more often. Dr said he probably does. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44312	2/14/2014	I asked dr when and why has he used OxyContin recently? Dr said he uses it when he knows a patient is already either already on oxycodone and is taking too many pills or for severe pain like cancer pain. I asked him how many pills it too many? Dr said it depends on the patient and what he's treating them for but usually around 4-5 pills a day. I asked why that many and he said he didn't know and that's just what he does. I showed him the conversion from Percocet 10mg to OxyContin 10mg q12. Dr said he understands and will try. I asked him to think more about his patients failing opioids before they get to Percocet like tramadol or vicoden. Reviewed dosing, conversions and Scott profile. Dr said he will try again. I spoke about how important patient specificity is important with previous medicine, pain conditions, and insurance.
PPLPMDL0020000001	Cleveland	OH	44114	2/18/2014	Reminded John MA, Butrans for those patients requiring around the clock analgesia, BWC and OxyContin Q12h for those appropriate patients, Savings cards, Said Ok Dr. will be back on the 24th
PPLPMDL0020000001	Cleveland	OH	44114	2/18/2014	Dr. is no longer practicing in OH, moving to Indiana. OxyContin/Butrans Core removal
PPLPMDL0020000001	Garfield Hts	OH	44125	2/18/2014	Visited Pain along with Ortho Dept. Left OxyContin/Butrans initiation guides along with Invite to HCP's for upcoming Dr. Laham program
PPLPMDL0020000001	Akron	OH	44312	2/18/2014	Dr said all his patients cancelled and has time to talk. I told dr that if I can stress anything about his patients is that I figure that he has many of them are on IR opioids for around the clock pain. Dr said he does for sure. I showed him the Scott and Kathy profiles and told him that these two patients types are good candidates for the product. Explained that when he knows the patients pain is secondary to a known pathology which is chronic, Butrans is a good option. Dr agreed and said he should be using it. Dr asked about cost. Discussed the plans most important to him like Caresource, medical mutual, SummaCare and coverage. I asked dr to start using and he said ok. Gave him the OxyContin conversion guide and explained the patient type profile.

PPLPMDL0020000001	Akron	OH	44312	2/18/2014	Quick messages to dr through window in between his patients. I told him to focus on patients who need a dose adjustment on IR oxycodone and are in around the clock pain. Showed him the conversion from Percocet.
	Tallmadge	OH	44278	2/18/2014	Shown him the Scott profile and told him the tramadol patient is a good candidaisis for Butrans who needs a dose adjustment. Dr said ok and has had some good luck with Butrans. Dr said he likes it and asked for copay
PPLPMDL0020000001	Akron	OH	44310	2/18/2014	Used the hydrocodone insight to start the call. I asked dr what he is doing when it comes to hydro one and what a normal prescription looks like? Dr said that its usually either one to two pills a day for more acute pain or intermittent pain or 4-5 a day for patients who require analgesia for more chronic pain. Dr said these patients are typically the older adults. Dr said he doesn't like treating chronic pain and will usually refer. Dr said he's usually too lazy to write ER opioids and wants the specialists to do it. I reviewed the Kathy profile and asked him if he would use Butrans like he has in the past. Dr said he will.
PPLPMDL0020000001	Akron	OH	44312	2/18/2014	D asked about a patient he had in complaining about his Butrans coming off in the pool during his hydrotherapy. I asked dr if he's used tagaderm or waterproof medical tape on the edges? Dr said he has not but said the patient is in the room now and said tagaderm is a good idea and gave them to him. Discussed his existing patients using Butrans and when. I told him that in the past he has told me that he is using it for his patients on Percocet who need more. I told him that many of those patients are good candidates but may be better suited for OxyContin. I showed him the Scott and Kathy profiles and discussed looking for triggers prove as good candidates for ER opioids. Discussed his thoughts on titrating and specificity of use. Dr said he will continue writing for those patients and still isn't convinced to use OxyContin because of its tight binding activity.
PPLPMDL0020000001	Akron	OH	44312	2/18/2014	Spoke to Elizabeth the Pharmacist. I told her I just cam from McRoberts office and I know they are using the product. I asked if they have patient on it? She said they have patients on the 5mcg and 10mcg. Reviewed dosing, patient type selection Scott and Kathy and conversions. Elizabeth said that that's good information to know. Reviewed the indication as well. Discussed OxyContin dosing, conversions from IR oxycodone and titration. She said they have all doses in stock and go through it regularly. She said that she tries to also tell patients about the long acting oxycodone and to ask their dr about it. I told her thank you and talked about copay cards for both
	Akron	OH	44312	2/18/2014	Spoke with dr at window about his patients he has recently placed on Butrans. Dr said that he just had a patient in yesterday that he started on Butrans 5 mcg a month ago who said he was doing well but needed more. Dr said he titrated to 10mcg. I reminded dr about steady state and dosing flexibility. I told dr about how important patient specificity is and reviewed Scott and Kathy. Dr said he like to start Butrans if a patient needs more than viconden. Dr said if they don't like Butrans he refers them to pain management. I asked what he has been told by his patients as to why they don't like it? Dr said the cases he has had are that the patients are abusers and he refers them to pain management. I reminded dr that Butrans can be misused and abused. Dr said he knows that but said he feels better about a patch for those patients. Dr said he ended more coupons for Butrans which I left. Gave him to OxyContin conversion and titration guide and asked him to us it for patients needing an adjustment on Percocet.
PPLPMDL0020000001	Akron	OH	44305	2/18/2014	Short lunch appointment due to him getting slammed with patients in the am. Discussed Butrans patient types and what triggers him to prescribe a ER opioid? Dr said that he will discuss the current therapy with the patient, abnormal function and exam, pain scale, MRI, and past use of narcotics. Dr said if the patient is getting inadequate control with the IR opioid and pain is consistent all day and they need more short acting, he said he will write an ER opioid. I asked dr to continue to think about patients on tramadol or viconden that need a dose adjustment. Discussed initiation, titration, use of Butrans in special populations and inclusion and exclusion criteria. I asked dr to continue prescribing. Discussed the use of OxyContin for his Percocet patients and reviewed when he sees the need to use a schedule 2. Dr said most of those patients get referred but will write it for the right patient that may not be a surgical candidate. I asked for his specificity of patient selection in patients like Tom.
PPLPMDL0020000001	Cleveland	OH	44125	2/18/2014	Quick Review of OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok will consider,
PPLPMDL0020000001	Garfield Hts	OH	44125	2/18/2014	Reinforced Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, said Ok and will continue to look for appropriate new patients.
PPLPMDL0020000001	Tallmadge	OH	44278	2/18/2014	I asked dr that in most therapeutic classes and especially in the management of pain, using the lowest therapeutic dose is what is strived for. Dr said he would agree. I asked him when he writes a product like hydrocodone what it looks like? Dr said he has a couple of options for 5, 7.5 and 10/325. Dr said he also has options of 30, 60, or 120 pills wither q4 or q6. I asked him what that does to meet the objective of the lowest therapeutic dose? Dr said well it really doesn't. I showed him the Butrans Kathy profile and reviewed it. Reminded him its a schedule 3, 7 day transdermal patch and if he has some patients he can try it on? Dr said he does and has some patients that he could get off pills. Dr asked about the indication and I read it from the materials. Dr said it really sounds like a product he should use and asked about insurance. Discussed commercial, Medicare D and adequately controlled with present therapy. Asked Deena to assist
PPLPMDL0020000001	Garfield Hts	OH	44125	2/18/2014	Reviewed OxyContin Q12h flexible dosing strengths along with Savings cards, Also reminded of Butrans for those patients requiring around the clock analgesia, said he will consider, once again, feels most patients are
PPLPMDL0020000001	Barberton	OH	44203	2/19/2014	Spoke to Anita his daughter and office manager regarding both products and managed care and savings cards. Reviewed the Percocet to OxyContin conversion chart for visual aid. Dr said hello, Anita asked hi if he write Butrans yet and the dr said yes. I said do u have tramadol patients he said yes. I said those that are ready for a change in medications will I think of Butrans this week if they are appropriate? He said sure. Left Initiation n guide behind for him and showed Anita the starting dose for Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	2/19/2014	Desk call reminded of OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia.Said Ok will consider. Booked lunch appt.Asked Aurora Nurse to help reminding Dr.
PPLPMDL0020000001	Cleveland	OH	44113	2/19/2014	Saw Dr. as he was leaving. Reminded of OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, referred to Issa again on PA's process
PPLPMDL0020000001	Cleveland	OH	44102	2/19/2014	Reviewed OxyContin Q12h, Butrans for those Tramadol failures requiring around the clock analgesia, along with Savings Cards, said OK, Nothing new learned
PPLPMDL0020000001	Cleveland	OH	44113	2/19/2014	Quick Window call, Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, possibly book appt for next Month to further discuss
	Akron	OH	44313	2/19/2014	I asked what triggers him to move to an ER opioid? Dr said when he knows the patient has no other options and the short acting didn't work. I asked him when that typically is and dr said its different based on the patient but usually if a patient needs more than 4 pills a day. I asked him if he follows the lowest therapeutic dose philosophy in treating pain? Dr said he does. I asked him how allowing a patient to take 4 pills a day does that? Dr said that's a good question. Dr said that he sees OxyContin as a product for severe pain like cancer pain. I told him it is indicated for severe pain but also moderate pain. I showed him the conversions from Percocet and how starting with a 10mg dose may be suitable to meet the lowest therapeutic dose philosophy. Told dr to use Butrans for those tramadol patients to also provide an ER option for them as well.
PPLPMDL0020000001	Fairlwan	OH	44333	2/19/2014	Gave quick review of the Maggie profile and asked dr if he would have done anything differently? Dr said he agrees w dr Balter to try and get patients on ER opioids ASAP if they are in severe pain which he said this patient seems to be. Dr said he would either start on 10 or 20mg of OxyContin with maybe a breakthrough medicine to start. I told dr that sounds like a reasonable place to start and that usually the lowest therapeutic dose is usually the method that works best. Dr agreed and said he is always trying to do that with his patients but they always want more. Dr said we can talk more next time.
PPLPMDL0020000001	Barberton	OH	44203	2/19/2014	Spoke to mrs. Kim the office manager and dr Kim's nurse bethanie. I asked about their largest managed care plans and they said Medco and express scripts, also workers comp they see. When I saw the doctor i reenforced Medco being their largest plan and decided to talk about coverage for Butrans and OxyContin for those patients with the savings cards. I asked the doctor if he tried Butrans ever and he said no. I did a quick overview of the product and asked him if he had Tramadol patients. He said some. I said find just one this week who is Not satisfied with their pain control and that you feel meets indication. We reviewed how to dose. As for OxyContin...I said does it make sense since the molecules of Percocet and OxyContin are the same that if your Percocet patient needs atc pain relief for an extended period of time you give them OxyContin? He said yes. Left reading materials such as naive study on Butrans and conversion guide for OxyContin.
PPLPMDL0020000001	Cleveland	OH	44120	2/19/2014	Requested appt with Sabina to conduct OxyContin/Butrans in-service
PPLPMDL0020000001	Norton	OH	44203	2/19/2014	Spoke to Pam the office coordinator. Explained about Butrans and asked if I could get a few minutes to explain the product to the doctor but they said no. I explained the molecule of Butrans and that it was a transdermal patch schedule 3. Left materials for the doctor.
PPLPMDL0020000001	Barberton	OH	44203	2/19/2014	Spoke to Andrea his nurse about the products and getting FaceTime, left my number for the doctor to call me if he wants to learn more about the products. Full review if Butrans to Andrea. Discussed indication, patch dosing, scheduling, where to leave patch, managed care and imitation. Also talked about OxyContin dosing and the start principals "tailoring the dose" . Andrea said she would pass the information over to the doctor. I asked for a breakfast or a 39 second interaction with the doctor. She said she will ask the doctor and call me if he changes his mind.
PPLPMDL0020000001	Akron	OH	44333	2/19/2014	Dr asked me about the conversions in the initiation and titration guide from viconden to Butrans. Dr said its confusing and asked why there is a 30-80mg of morphine range for Butrans 10mcg. I reminded that Butrans is a 7 day controlled release patch. Told dr that it is an approximate conversion and the 5 and 10mcg doses are the only initiation doses anyway. I asked dr if he still feels the same about not seeing much efficacy with the 5mcg? Dr said he doesn't get much analgesia from e 5mcg in most patients. I asked dr what his issue is because he can only start on the 10mcg anyway so the approximate conversion doesn't have much credence in his practice anyway. Dr said ok he gets it after looking more at it. Dr said he still doesn't like to write ER opioids because it's so hard to get them off. I asked him what his other option is for chronic moderate to severe patients is? Dr said that's the problem. There aren't any other options other than spinal implants or surgery. I told him the patients must be held accountable to do whatever they need to do above and beyond pharmaceuticals such as physical therapy etc... Dr agreed and said he will continue prescribing Butrans and OxyContin.
PPLPMDL0020000001	Stow	OH	44224	2/19/2014	Showed dr Bakter and Jones the Maggie profile for OxyContin. Gave abbreviate review of her case and the changes in prescriptions over the timeline. I asked dr Balter what he might do differently? Dr said he has told me numerous times that he tries to get patients on ER opioids as quickly as possible and in this case it didn't happen. Dr said he would of started the patient on probably 20mg of OxyContin q12 much earlier. I told dr i'm glad to continue hearing that and asked for continued business with oxycontin and Butrans for his patients on tramadol or viconden.
PPLPMDL0020000001	Stow	OH	44224	2/19/2014	Jamie said they are continuing to see both Butrans and OxyContin and she has seen titration down and then back up again on Butrans for a number of patients and doesn't really know why. She said the doctors may be trying to taper the patient down and then the patient complains about being in pain. Discussed steady state with Butrans and use of supplemental analgesia. I asked her about OxyContin and said she continues to do refills and some new prescriptions. Jamie said that she has been seeing a. Lot of 20mg OxyContin from a pain dr in Akron. She said she couldn't remember the doctors name. Provided copay cards.
PPLPMDL0020000001	Norton	OH	44203	2/19/2014	Saw Wanda and her nurse at window. I asked her if she had an opportunity to try Butrans after a Tramadol failure yet? She said no. I asked her what concerns did she have initiating Butrans after Tramadol if appropriate, she said none. Reminded her the 5 mcg starting dose, 4 patches a month, it was schedule three w refills and they could supplement. I asked her to keep an eye out during the next few days of assesment visits. She said ok. Left naive study and OxyContin. Materials for dr Stokes and other doctors.
PPLPMDL0020000001	Barberton	OH	44203	2/19/2014	Asked if he was familiar with the molecules in Percocet and OxyContin and he said yes. After review of delivery system we talked about stocking and he said they have limited amounts of OxyContin. We reviewed savings card for both oxycontin and Butrans. Pharmacist knew of Butrans. Discussed patch location and scheduling.
PPLPMDL0020000001	Akron	OH	44333	2/19/2014	Dr said that she has a patient this week on Butrans for about a month that complained about experiencing nausea on about day 5 with the Butrans patch. Dr said the patient said its working really well until about day 5 and said she thinks its wearing off. Dr also said that the patient stated that once the next new patch is applied the nausea goes away. I asked if the patient could be having withdrawal and I told her its unlikely. Dr said the patient is taking the 5 mcg patch and it does provide a lot of relief. I asked dr if the patient is going to continue and she said she is because it works. I discussed patient specific initiation and discussed Scott and Kathy profiles. Discussed OxyContin and reviewed Maggie profile.
PPLPMDL0020000001	Barberton	OH	44203	2/19/2014	Gave stokes nurse (Jennifer, to double check her name) the naive study for Butrans and patient brochures. Also gave her to pass OxyContin conversion slim Jim for doctor to review. I explained the naive study...patients never on opioid therapy yet with a pain condition lasting at least 3 months. Reviewed the starting dose of 5 mcg. Explained the patches are to be worn for a week, 4 patches a month. Reviewed scheduling and supplementation with Butrans.
PPLPMDL0020000001	Cleveland	OH	44103	2/20/2014	Discussed Butrans/OxyContin for appropriate patients, reiterated her Medical facility's directive, will continue to consider.
PPLPMDL0020000001	Cleveland	OH	44103	2/20/2014	Reminded of OxyContin Q12h, 7 tablet strengths along with Savings Cards along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, believes his patients are adequately controlled on present therapy but will consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44112	2/20/2014	Reminded of OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Asked her why not Butrans for those patients she sends to PM? Said no reason but will consider

PPLPMDL0020000001	Cleveland University Hts	OH	44103	2/20/2014	Reviewed w/tech RPH Allen floater OxyContin Q12h and Butrans for those Tramadol failures, hasnt seen any Butrans, nothing new learned
PPLPMDL0020000001		OH	44118	2/20/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia,Savings Cards, BWC said he has some patients to consider, Reminded of OxyContin 7 tablet strengths, Q12h, formulary coverage along with Savings cards, Said Ok believes patients are doing well on present therapy but will consider for appropriate patients
PPLPMDL0020000001	Euclid	OH	44117	2/20/2014	Discussed Tanisia's experience with BWC access for OxyContin patients. She states she's had continued success getting OxyContin through easily on BWC. Butrans, she has no recent experience with BWC patients.
PPLPMDL0020000001	Cleveland Cuyahoga Falls	OH	44109	2/20/2014	Reviewed OxyContin/Butrans Pl, Dr. Said thank you but is leaving Metro, no other info learned
PPLPMDL0020000001		OH	44221	2/20/2014	Dr told me she wants to start a patient on Butrans who is very sensitive to opioids and has tolerability issues. Dr said the patient has been through most opioids without getting enough analgesia. Dr said the patient suffers from chronic constipation and nausea. Discussed Butrans AE profile and retold her about the incidence of constipation and nausea. Dr said to check with Lori about insurance coverage. Lori provided me with everything and past history of opioids. Patient has med D UHC aarp and anthem secondary. Told dr i will look into it and follow up. Left her w/ OxyContin conversion and titration guide
PPLPMDL0020000001	Cleveland Uniontown	OH	44115	2/20/2014	Visited Pharmacy requested appt with Sabina- Fairhill location, Left OxyContin/Butrans Initiation/Titration guides
PPLPMDL0020000001		OH	44685	2/20/2014	Spoke with Todd again and discussed The pharmacy dispensing of Butrans and OxyContin. Todd said that he did order the 10mcg because he got a new patient started on the 10mcg. I asked him if he knew who prescribed it and he said he didn't and didn't seem like he wanted to look. I reminded him of the dosing and titration as well as conversions. Todd said they dispense OxyContin and have kept it mostly to the 10, 20,40 mg doses. He said they don't get scripts for the high doses for come reason. I reviewed dosing and patient types appropriate for he product.
PPLPMDL0020000001	Stow	OH	44224	2/20/2014	Quick hello in hallway while I was meeting with the office manager. Sandra said she sees some good results with Butrans lately and is impressed its getting covered on insurance. I asked her why she's so surprised because coverage is really good. Sandra said she started come one recently from vicoden and was taking about 4-5 pills a day and used the Butrans 10mcg. I told her that's a good starting dose and reminded her about titration through the 15 and 20mcg. Sandra said she forgot about the 15mcg dose. I asked for mor prescribing.
PPLPMDL0020000001	Cleveland Uniontown	OH	44106	2/20/2014	Visited Bolwell Pharm. And Seidman. Left OxyContin/Butrans Initiation/Titration guides, Requested appts
PPLPMDL0020000001		OH	44685	2/20/2014	Saw Abby in uniontown and discussed products at front counter. Abby said she was just discussing Butrans with dr Fouad and the conversions. I asked Abby if she has any questions? Abby asked about morphine equivalents for Butrans. I showed her the conversion slide scale and reviewed it. Abby said ok and that dr Fouad talked about where he is finding most success and its with his elderly population. I asked Abby what she thinks and she said it makes sense because they don't like change much and would like the 7 day patch. I told her that there are many populations that are appropriate for Butrans as long as they meet the indication. I asked if she has discussed OxyContin with any other providers in the office yet? She said a little and said we can discuss at a lunch.
PPLPMDL0020000001	Cleveland Euclid	OH	44106	2/20/2014	Reviewed OxyContin Q12h along with Butrans for those Patients requiring around the clock analgesia, Marge said Ok, recommended Seidman as a focus along with Hayek
PPLPMDL0020000001		OH	44119	2/20/2014	Addressed Paul's concerns regarding patient selection and morphine equivalent dosing for Butrans. Placement after Tramadol, starting patients on 10 mcg hr makes sense to him; he has several patients that he can think of immediately, and will initiate a few patients tomorrow (Friday 2/21/14) Discussed supplemental analgesia and steady state of 72 hours. Opioid naive dose of 10 mg for OxyContin discussed. BWC access for both Butrans and OxyContin. Introduced and left PAP journals.
PPLPMDL0020000001	Akron	OH	44312	2/20/2014	Dr said the patient was taking about 20 mg of vicoden and was still complaining of pain. Dr said she started on the Butrans 10mcg and the patient just was back in for a follow up this week. I asked how the patient is doing and she said very well and it was covered on the patients insurance. I showed her the Scott profile and asked her to continue reassessing her patients on tramadol for Butrans. I asked her if she has patient like Scott and she said a few. I asked her if she has patients on Percocet? Dr said a few why? I asked if it makes sense to keep a patient on oxycodone but use a q12 oxycodone? Dr said she doesn't want to write schedule 2 medicines. Dr told me we can discuss next time and that she may be closing her practice the end of March.
PPLPMDL0020000001	Stow	OH	44224	2/20/2014	I asked dr what type of patient he would treat for moderate to severe pain instead of referring? Dr said he will use products for pain above and beyond acute pain when he knows the patient is not a candidate for surgery and has already had injections. I asked him if he has any of those? Dr said he does and he is currently refilling OxyContin for a few of them. I asked dr to reassess patients already on IR oxycodone and meet his requirements. Dr said ok. I also asked him to continue assessing patients for Butrans like ones on tramadol or vicoden. Reminded him Butrans is a schedule 3,7 day patch.
PPLPMDL0020000001	Barberton	OH	44203	2/21/2014	Dropped off the posted and asked about the George profile for OxyContin. Dr said he sees these types of patients I referenced the Initiation guide of Butrans and asked hi. What made more sense Butrans or OxyContin for appropriate patients he said most his patients are under 40mg of hydrocodone,,I talked how to start the, on Butrans if appropriate.
PPLPMDL0020000001	Cleveland	OH	44113	2/21/2014	Discussed Butrans for those Tramadol failures requiring around the clock analgesia, said he likes Butrans for those appropriate patients Reviewed OxyContin Q12h and 7 tablet strengths, said Ok. sending patients to PM, Asked if would initiate Butrans or OxyContin for appropriate patients when referring to PM, said he will consider
PPLPMDL0020000001	Norton	OH	44203	2/21/2014	Asked the doctor if there were any changes not letti them write scheduled products and the doctor said no. We talked about trigger signs of when he turns to extended release products and the doctor could. I state anything. Focused in the Maggie profile for oxycontin and the dosing, asked hip. if the conversion from Percocet to OxyContin makes sence if they met indication and he said. Dr knew nothing of Butrans reviewed the product and the tramadol Scott profile dr said he would try to write Butrans in appropriate patients.
PPLPMDL0020000001	Norton	OH	44203	2/21/2014	Dr knew nothing of Butrans. Reviewed scheduling, patch placement and initiation guide. Dr said he would try it if he found an appropriate patient. Focused on the Scott profile. Reviews OxyContin dosing and Maggie profile.
PPLPMDL0020000001	Cleveland	OH	44127	2/21/2014	Reviewed OxyContin Q12h and 7 tablet strengths, said Ok. will consider for appropriate patients that are taking IR around the clock Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, Said he will consider
PPLPMDL0020000001	Cleveland Lyndhurst	OH	44113	2/21/2014	Visited Ortho Dept. Bohl, Reviewed OxyContin flexible dosing along with Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001		OH	44124	2/21/2014	Goal: Present patient profile, encourage Dr Kim to consider OxyContin 10 mg initiation for patient like George; ask him to hand out savings card to a patient like George BEFORE he or she leaves the office. Is this a reasonable request? yes replied dr. Transition to another option for opioid naive patients like Maria: Butrans, 5 mcg hr. 1 patch week, 4 patches a month. A good option for BWC patients.Can call in with refills. non branded PAP pain journals presented and left. He will hand out when appropriate, could be of value.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/21/2014	Jake told me about a female patient of his who was on Butrans and was complaining of severe headaches. Jake said that he's not convinced that it was Butrans that was causing the headaches because the patient was also on other medicines that were being delivered systemically. Jake asked about the incidence of headache. I showed him the AE's from the opioid experienced trial and he said the incidence is lower than he expected. I asked how many patients he has seen with headache on Butrans and he said this was the only one. Discussed OxyContin doses, patient profiles and jake said he really likes it for the right patient like Maggie discussed but tries to go to ER opioids ASAP.
PPLPMDL0020000001	Mayfield Heights	OH	44124	2/21/2014	Goal: meet with office coordinator Denise, find out if practice has weekly/monthly staff meetings, where I can present information to "no see" HCP such as Dr. Dews. They have 1x month staff meeting, and have NOT had Feb meeting yet. She will present my information @ staff meeting including: PAP web keys, OARRS, Medical Board, urine screen flashcards. OxyContin conversion/titration guides; Butrans initiation/titration guides. Left packet for Dr. Dews, (as well as CNPs: Gina and Josie, and new PA-C Frank).
PPLPMDL0020000001	Cleveland Lyndhurst	OH	44102	2/21/2014	Quick Review of Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, 7tablet strengths, Said she will consider , left Initiation/Titration guides
PPLPMDL0020000001		OH	44124	2/21/2014	First lunch with Patricia. 1x day with American Migraine center, tues - fri: VA. Used George profile, opioid naive dose of 10 mg Q12 h. Patricia states she does not write any CII's. I then presented Butrans, a CIII option. Can be called in with refills. She asked about a few patients currently on 6 Vicodin daily, either 5 mg or 7.5 mg, q 6h. What would be conversion dose to Butrans? I showed her Butrans initiation & titration guide for starting dose of 10 mcg hr, or, if patient on 30 mg or less of morphine equivalent, she should initiate 5 mcg hr butrans. Ability to titrate in 72 hours. Showed how to write, discussed proper application and disposal, Trial, savings. She will try Butrans on a few patients and let me know how they tolerate.<font color=blue><b>CHUDAKOB's query on 02/26/2014</b></font>Jenny, have you designated Patricia as non-call file?<font color=green><b>BALLIE's response on 02/27/2014</b></font>Yes, just this evening, thanks for reminding me!!<font color=blue><b>CHUDAKOB added notes on 03/02/2014</b></font>She is certainly not someone we want to do a lunch with in the future. I think you would agree?
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/21/2014	Dr looked at the Butrans poster of the lumbar spine and said he wanted me to bring some to the hospital. Dr said he sees the 15mcg dose but said he will not titrate more than a 10mcg dose. I asked him if he titrates any other medicines for pain? Dr said he does but only to specific levels. I reminded him of the opioid exercised trial and the forced titration and tolerability. Showed dr the OxyContin conversion guide and discussed his use of it in his patients already on IR oxycodone.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/21/2014	Lunch. Followed up on patient types for OxyContin and 10 mg opioid naive dose. Steady state, and titration in 1-2 days if needed. Detailed CNP Patricia Moran at same time. Patricia says she does not write any CII's. Transitioned to CIII option, 1x week Butrans. Pain reduction insight, Butrans pain score reduction BUP 3024. Satisfied with pain reduction. Questions regarding side effect profile were addressed and answered to satisfaction. Review of Butrans initiation/titration guide, 5 mcg hr start dose for opioid naive and 10 mcg hr for opioid experienced. Showed how to write, can call in with refills.Updated formulary coverage, Medicaid coverage with prior authorization for both. note: very few Medicaid patients. ALSO; DR DEB REED OUT FEB 24-28. ** for marketing: will Purdue ever have available, a pain diary for Migraine patients?<font color=blue><b>CHUDAKOB's query on 02/26/2014</b></font>Jenny, this looks like you entered a call on Patricia Moran under Dr. Roda. It is very difficult to determine who this call was to and who said what to whom? Can you please clarify?<font color=green><b>BALLIE's response on 02/27/2014</b></font>I'm sorry for confusion. This call was for dr Roda; yet a reminder that I detailed them at same time; and had to tailor parts of my call to to needs of two different HCPs. Dr Roda was the HCP that should have been highlighted in this call note. She was the HCP who also asked if Purdue is planning on offering a PAP journal geared toward migraine patients.<font color=blue><b>CHUDAKOB added notes on 03/02/2014</b></font>OK. Thanks for the clarification
PPLPMDL0020000001	Stow	OH	44224	2/21/2014	Dr spike to be about using NSAIDs and how he proceeds through treatment. Dr said that he believes strongly in trying to use just NSAIDs or tramadol for treatment and for most of his patients they work great along with physical therapy and lifestyle adjustment. Dr said that he finds that Butrans is a great product to go for when patients either don't get a ouch pain relief with non narcotics or can't tolerate them. I asked why he has found this with Butrans. Dr said he believes Butrans is more for moderate pain patients and that the patch delivery makes it more appealing to him and his patients. I told dr that Butrans is also he only schedule 3 , 7 day transdermal system. Dr said the schedule 3 makes it great as well. Dr took the OxyContin conversion and titration guide as well.
PPLPMDL0020000001	Cleveland	OH	44127	2/21/2014	Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, Asked her when patients fail on present therapy what does she do? Said she feels patients are adequately controlled but will consider. Reviewed OxyContin Q12h and 7 tablet strengths, said Ok. Asked again for Josie's help with Butrans PA's
PPLPMDL0020000001	Akron	OH	44310	2/21/2014	Dr spoke to me about how he is trying hard to get patients off OxyContin and other scheduled opioids. I asked what and to explain. Dr said he does use OxyContin for post operative pain and will not go higher than 20mg because patients don't need more than that. Dr said he will write 30 pills of OxyContin and sometimes 60pills then will take them down to Norco to make sure they aren't getting more than they need if an ER opioid. I reminded him of the dosing flexibility of OxyContin and that Butrans transdermal patch which is a schedule 3,7 day transdermal patch. Dr took the information and said he would look it over.
PPLPMDL0020000001	South Euclid	OH	44121	2/21/2014	Dr Flagg still with a few patients that had 2-30 appts. Not a good day. Asked Jen when the best day/time would be for chance to talk with dr. WED just before lunch. Discussed OxyContin as controlled release option, dosed q 12 h, after patient is no longer prn on Percocet or oxycodone.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/21/2014	Hallway. Spoke with med ast Helen. Dr took vacation day, will be back MON 2/24. Discussed Butrans as CIII option, can be called in with refills.1x week patch, 4 patches monthly. Left Butrans patient guides. OxyContin, CII option, q 12 h dosing recommendation.

	Lyndhurst	OH	44124	2/21/2014	Hallway. Sarah had PA student (Edie) shadowing her; should be there another 2 months. Insight # 14, (37% of patients who visit primary care are initiated on long acting opioid as first opioid) This is something Sara would not do. Patient would typically initiated on a few short actings after nsaid, ibuprofen. That's great place to start Butrans. You have two options: opioid naive at 5 mcg hr, or opioid experienced, after Tramadol patient is no longer prn, and needs analgesia around the clock. Discussed her previous comments with Butrans being affordable in Med D population, updated Med D plans. BWC patients another good group for consideration. OxyContin also has opioid naive dose, 10 mg q 12 h. I'd like to discuss this (George) patient profile next visit.
PPLPMDL0020000001	Mayfield Hts	OH	44124	2/21/2014	Discussed Managed Care insight. (10,000 baby boomers will turn 65 over daily, and will continue over next 20 years) Butrans as option for these Med D patients, focusing on Med D plans in his area where Butrans is preferred. Reminder of Butrans after Tramadol prn, when patient needs around the clock, long acting product like Butans. Discussed new Butrans patient guides and left supply had been waiting on. Transitioned to OxyContin. George profile, where should we go next with this patient? Dr responded an opioid trial. Yes, and will you consider OxyContin 10 mg q h for patient who walks into your office like George. Dr responded yes, that makes sense.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/21/2014	Followed up on Mark Gutkowski's (Thurs 3/20/14) Laham speaker program. Dr looked over materials at the pain seminar and spoke about using Butrans for a majority of his patients who ask for something different for their pain. Dr told me that he has used the 15mg dose a few times and thinks it was a good addition to the doses. I asked him when he is typically going to Butrans? Dr said it is his go to ER opioid because he believes it works well, tolerated well and has good do coverage. I told him that's great to know and to continue using.
PPLPMDL0020000001	Stow	OH	44224	2/21/2014	Dr said that he is using more Butrans recently. I told him that's great to know and asked where he has been using it in his treatment plan? Dr said he is only using it when patients are not surgical candidates, he knows they are legitimately in pain and its chronic. Dr said that he has yet to see his recent patients back but is expecting good things. I asked dr to continue prescribing and to continue taking patients already on IR oxycodone and putting them on OxyContin. Dr said that's where he has found results but said that he lets the people at Western Reserve pain deal with the schedule 2 opioids. Dr said they don't even do much and said he knows how much they like Butrans. I asked for continued prescribing.
PPLPMDL0020000001	Lakewood	OH	44107	2/24/2014	Dr said I had been coming too often and that he has told his pa Hanna about Butrans and perhaps she will find someone to start the product on. Dr didn't want to go over the details of Butrans because he felt he remembered from last time. I used words like understood. Dr apologized for being short then explained he had 30 ppl in the hospital and was on call over the weekend. Dr said no one wants to write opioids any more I asked if he has been told he couldn't write schedule 2's. He said no. I said how can I help you today? He said he just needs to wine down cause thus was his only break. I said of course, understood. Gave him OxyContin slim Jim to
PPLPMDL0020000001	Cleveland	OH	44125	2/24/2014	Reviewed OxyContin along with Butrans Savings cards program with Angie-Rph, NO new info learned
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2014	Reviewed OxyContin Q12h and Butrans for those Tramadol failures requiring around the clock analgesia, No new info learned
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with formulary coverage, Said Ok will consider, Presently seeing alot of Orhto Patients. Asked for his help with Dr. Shen and Butrans-reminded for those patients requiring around the clock analgesia, said he will keep reminding
PPLPMDL0020000001	Akron	OH	44333	2/24/2014	Used the oxycodone/APAP insight and 35% of patients 90 days or longer. I asked dr when does he decide that a patient is appropriate for ER oxycodone? Dr said he tries to get patients on something ER as soon as he can but he has a lot of Medicaid patients and Medicare patients who's insurance won't cover many of the ER products. I asked if he has commercially insured patients? Dr said yes. I told dr that he should focus on those patients already on IR oxycodone or Percocet who have been on it for 90+ days and still in pain. I told dr those are the patients that are appropriate for OxyContin and have the best shot at a fair or low price. Dr said ok. I asked dr if I can come in next time and discuss it more? Dr said he doesn't know when he has time. I told him I will continue to try each week to get just a minute or two to discuss OxyContin appropriate patients and those who are also suited for Butrans as a solution. Left him with dosing and conversion guide to OxyContin and Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	2/24/2014	Quick Call in hallway, Reminded of Butrans for those patients requiring around the clock analgesia, Said Ok, likes Butrans, asked Dale for help in reminding her to prescribe for appropriate patients. Inquired about formulary grids for both OxyContin and Butrans
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/24/2014	Followed up with dr Ali from the pain seminar on Friday of last week. Dr said he really liked the Butrans posters and wants some for the inside of the door for his exam rooms. Dr said he wanted at least three but said that other doctors in the practice might want them so he said he will let me know if he needs more. I asked dr besides the hospital, when does he think patients is ready to be put on OxyContin? Dr said his decision doesn't depend on it being an inpatient or outpatient. He will start an ER opioid like OxyContin if they have been on an IR for more than 90 days. Dr said it doesn't make sense to keep them on the IR opioid. D said IR opioids are for short term use only like for post op or acute pain. I told dr that's good to hear and he said OxyContin is his go to and I know that. I told dr thanks for the business and I'm glad he has had so much success. Reviewed patients appropriate for Butrans also and handed him the Kathy profile. I asked him to initiate Butrans for his hydrocodone patients not to goal instead of moving to oxycodone. Dr said ok.
PPLPMDL0020000001	Lakewood	OH	44107	2/24/2014	An extended release opioid isn't for everyone one. For example...showed Initiation guide patients over 40 mg total dose of oxycodone would not be appropriate for Butrans. However....if you had someone on that was on a short acting oxycodone like Percocet and you thought they would be appropriate for an extended release product could you then consider OxyContin?
PPLPMDL0020000001	Fairlawn	OH	44333	2/24/2014	Asked dr what he typically does for patients in pain around the clock that are on Percocet 20mg/day who tell him they are still in pain? Dr said he likes to give Percocet a good enough chance and will usually go to anywhere from 20/49mg of Percocet a day. I told him then that's about right to move a patient to ER oxycodone. Dr said he uses OxyContin and likes it. I told him that's great but that I don't want him to miss any opportunities to get the right patient on the right medicine. Dr said ok. I told dr that the last time we spoke he said that his perception of Butrans was that it wasn't covered well on insurance. I told him the first thing he needs to do is identify the right patient. I told him the ultram patient is a good candidate who needs a dose adjustment. Showed him the conversion scale and asked him to just use it.
PPLPMDL0020000001	Fairlawn	OH	44333	2/24/2014	Spoke with Gilbert and Sue about OxyContin doses in stock and reminded Gilbert that he said last time that they needed to place an order of the 20mg because they had patients needing it. Gilbert said they got them in the next day and have all doses in stock. Gilbert spoke about making sure patients prescriptions are checked and OARRS is used as well as checking IDs for all narcotic prescriptions. Gilbert talked about how in some cases he needs to verify and discrepancies wit the patient first then contacting the office I asked him who he is seeing OxyContin coming from most recently? Gilbert said he is seeing more recently from dr Petrus and just got a new Rx for OxyContin today from him. Discussed Butrans dosing and conversions and importance of patient specificity.
PPLPMDL0020000001	Lakewood	OH	44107	2/24/2014	He said what can u do for u. I said I was here for his patients with osteoarthritis that are requiring an atc extended release opioid...say OxyContin or Butrans. He asked managed care...discussed coverage and coupons. Showed demo patch of Butrans...talked about osteoarthritis from NSAID to Butrans 5mcg. Discussed patch placement and 4 a month. Dr said he would try it.<font color=blue><b>CHUDAKOB added notes on 03/10/2014</b></font>-Lisa, just as a reminder, remember to use pronouns in your call notes so we know who said what. "I showed the demo patch. I discussed patch placement.... You did this in most instances. Just a
PPLPMDL0020000001	Tallmadge	OH	44278	2/24/2014	Continued conversation from last week about Butrans and patients appropriate for it. I told dr that he said last week that he said he knows he has patients where the Butrans patch might work well because they can't tolerate pills or they are not working. Dr said he will be trying it out on a few patients. Discussed the profiles, conversions, how to initiate and titrate and asked for the business. Dr said he will keep me up to date and to let me know if he has questions. Discussed OxyContin and asked about his experience with it? Dr said he has no problem using it as long as its the right patient. I asked what that means to him and dr said after OARRS, a UDS and determining that he patient needs more pain relief he will prescribe it. I asked him if he has ever considered the OxyContin 10mg for a patient uncontrolled on Percocet who meets his other criteria? Dr said for sure as long as its cost effective. I asked him to start using OxyContin for those patients on low dose Percocet who he thinks need an ER opioid.
PPLPMDL0020000001	Highland Heights	OH	44143	2/24/2014	Met wit med assistant @ front window. Left how to protect your practice brochure. Discussed Butrans as option for BWC patients and those patients who are no longer prn on Tramadol. Left dr Butrans initiation titration
PPLPMDL0020000001	Tallmadge	OH	44278	2/24/2014	Led with OxyContin and insight about oxycodone and 35% and 90 days. Explained OxyContin indication, doses, conversions and titrations. Quick review if Maggie profile. Valerie said she needed to get to a meeting and said that she will say that she will write OxyContin for the right patient like I described. Discussed Butrans dosing, indication, conversions and patient types. Valerie was that she has tried it but it got denied by insurance. I asked which plan and she said she thought it was a Medicare patient. Reviewed Caresource PA and other plan coverage. I asked her to just give it a shot in a patient like Scott or Kathy. Valerie said she would give it another shot.
PPLPMDL0020000001	Lakewood	OH	44107	2/24/2014	Gave the extended release insight as to why I was here today. Discussed tailoring with OxyContin...reminded him of the 7 strengths and that if the Percocet patient was doing prn around the clock would it it mke sense to convert them to OxyContin with same oxycodone molecule and savings cards. He said yes. I said another extended release product which is Schedule 3 called Butrans showed him the demo, he said it needed to be titrated. I said what do you mean? He said you have to push the dose often. I focused in on the Tramadol, patient, he agreed he see these types of patients. If they are uncontrolled and you felt they would be appropriate for an extended release product you would start them on 5mcg. Showing the initiation guide. If they needed more pain relief you could increase the dose...but wouldn't you titrate any opioid that was at the lowest strength if pain control was not yet achieved? He said yes. I encouraged a trial this week of the uncontrolled Tramadol patient to Butrans. Left the naive study for his review.
PPLPMDL0020000001	Tallmadge	OH	44278	2/24/2014	Led conversation with drs Bachtel and other drs at table by using the oxycodone insight and 35% on 90 days or longer. I asked dr why he thinks that is and what has led to this problem? Dr said cost is for sure one, unwillingness of the GP to use an ER opioid like OxyContin, and patients not wanting them. Dr said he believes the statistic and said it sounds a little low. Dr said he likes to go to an ER option like OxyContin once the patient had hit the 90 days. Dr said he likes OxyContin because it works but said its just not covered well and that sometimes limits him from using it more. I asked where he has been having trouble and he said for his Medicaid population. I asked him if he has commercially insured patients? Dr said he does. I asked if he has Medicare patients? Dr said he does. I asked him to focus on those two patient populations for best managed care and cost success. Reviewed conversions, single entity opioid and asked if it makes sense to take patients already on oxycodone and convert them to OxyContin? Dr said it does and admitted he should do it more. I asked for more business. Reviewed Butrans key selling messages and patient profiles as well as conversions. I asked him to try it and allow it to prove itself clinically. Dr said he will try.
PPLPMDL0020000001	Cleveland	OH	44114	2/24/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Said he will consider, Reminded Of BWC, said ok.
PPLPMDL0020000001	Lakewood	OH	44107	2/24/2014	Discussed the last he w write OxyContin 10mg q12h? Dr said he doesn't use much of the tens. I asked if it was nice to have the option of 7 strengths for a tailored approach. He said yes. I asked if he had any questions regarding Butrans and his patients over 55? I said I'd be back tomorrow to discuss it. He said ok.
PPLPMDL0020000001	Tallmadge	OH	44278	2/24/2014	Led discussion with oxycodone insight and engaged in discussion about when is the right time to start an ER opioid. Dr said that he tries to start them after 90 days has been met but lots of resistance is given in doing so. Dr said he has no issues with OxyContin but said once they are at a point of maybe being right for it, he would rather the specialist handle it. I asked dr if he has taken a patient to Percocet from hydrocodone? Dr said yes a few? I asked why? Dr said its typically the next step. I asked him if he thinks some of those patients would be appropriate for an ER opioid based on the pathology of the patient and what they are being treated for? Dr said it does depend on what is he treating them for. Dr said he will start a patient on an ER opioid if he knows he feels comfortable treating the pain. I asked dr for OxyContin prescriptions in the right patients like we discussed
PPLPMDL0020000001	Akron	OH	44333	2/24/2014	and reviewed conversions and dosing. His key selling messages for Butrans along with patient types and conversions. I asked for him to just try it again. Quickly read over a Maggie profile with dr in hallway and asked him if he would do anything different? Dr said yes, many things. Dr said the one thing he will say today is that he would have started OxyContin earlier. I asked why and dr said because its obvious the patient needs more than what has a short acting product can provide. Dr said he likes OxyContin and will continue to use it. I reminded him to also use Butrans for those patients who are failing their ultram or vicoden and handed him the conversion guide. Nothing else learned.
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/24/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok. not prescribing. Ask if he would prescribe Butrans for those he sends to pain mgmnt, Said Ok...nothing else learned
PPLPMDL0020000001	Akron	OH	44312	2/24/2014	I asked dr what the downside is to placing a patient. on ER oxycodone from IR oxycodone when the patient is in pain around the clock? Dr said there really isn't one and he likes OxyContin. I asked him where and when he primarily uses it? Dr said by looking at the conversions I showed him he uses it as shown, from Percocet. I asked him if he would use it when a patient is failing 20mg oxycodone and use the OxyContin 19mg q12? D said yes. I asked for more business and then told him that the other option for patients failing their short acting opioid is Butrans. Showed him the Scott profile and asked if he has patients like him? Dr said he has a few. I asked for him to just try it. Dr said ok.
PPLPMDL0020000001					

	Lakewood	OH	44107	2/24/2014	<p>Tramadol insight. Dr didn't have much to say but she listened. Bridged the conversation about extended release opioid products. Dr said she doesn't have a problem writing extended release opioids if they are appropriate. We discussed the Percocet patient and when she would convert a patient. Dr didn't want to talk. I asked her if it made sense to convert them to OxyContin if appropriate for an atc extended release product. She nodded. I asked what patient type came to mind when I said OxyContin? She didn't want to comment. I said a patient like George or Maggie? Showed visual aid. She said George. I talked about why it was appropriate for oxycontin...also reminded the 7 strengths and mentioned the 10 mg for the opioid naive patient. She said true. Bridged to Butrans. Showed her the demo. Focused on the Tramadol patient uncontrolled that would be appropriate for Butrans. Also touched on the Initiation guide to demonstrate where to start Butrans. I asked if she had any questions thus far,,but the dr didn't want to talk.</p>
PPLPMDL0020000001	Fairview Park	OH	44126	2/24/2014	<p>Spoke to Katrina the ma and she said she didn't know anything about Butrans and knew of OxyContin. I asked to set up an opioid Inservice on the two products and try an address any concerns, she said she would ask the doctor. I left the naive study of Butrans along with savings cards for each product. I highlighted what Butrans is: opioid, schedule 3, indication and gave her a Scott profiler to look and then give to the doctor for him to review. I asked if they have had any denials on OxyContin last week or the week before, she said no.</p>
PPLPMDL0020000001	Lakewood	OH	44107	2/25/2014	<p>Dr thru window said hello. I said Friday doctor we are gonna focus on two things....extended release opioids in your market place and what tools you need in 2014 to help sort out the appropriate patients from the others. Dr said ok. Left Butrans study and OxyContin conversion guide.</p>
PPLPMDL0020000001	Garfield Hts	OH	44125	2/25/2014	<p>Reviewed OxyContin Q12h, flexible dosing along with Butrans for those patients requiring around the clock analgesia,reviewed Initiation/Titration doses, Said Ok will consider. Booked lunch appt</p>
PPLPMDL0020000001	Brooklyn	OH	44144	2/25/2014	<p>Reviewed OxyContin Q12h, 7 tablet strengths,savings cards along with Butrans for those patients requiring around the clock analgesia, Said Ok but overcoming cost with his patient base is a challenge,</p>
PPLPMDL0020000001	Cleveland	OH	44113	2/25/2014	<p>Reminded of Butrans for those Tramadol/LorTab failures,Butrans patient info guides, Initiation/Titration also reviewed Opioid Naive trial and the 30%pain reduction said she will consider expanded use for appropriate patients</p>
PPLPMDL0020000001	Cleveland	OH	44113	2/25/2014	<p>Reviewed Butrans Opioid Naive Trial and the 30% reduction in pain scores,reviewed Initiation/Titration section along with Patient info guides along with formulary coverage. Said she will continue to prescribe new starts for appropriate patients</p>
PPLPMDL0020000001	Cleveland	OH	44113	2/25/2014	<p>Reminded of Butrans for those LorTab failures requiring around the clock analgesia, said Ok, is always looking to start new appropriate patients. Reviewed and distributed Butrans Patient info booklets</p>
PPLPMDL0020000001	Akron	OH	44308	2/25/2014	<p>MSL email communication with PI regarding upcoming poster and symposium presentations at the Society For Pediatric Anesthesia and American Pain Society meetings. Dr. Friebert is not planning to attend either meeting.</p>
PPLPMDL0020000001	Mogadore	OH	44260	2/25/2014	<p>I asked leane up front if dr Buis needs any OxyContin r Butrans copay cards. Dr came up to the counter and said she needed both. Dr said she hasn't seen OxyContin copay cards in a while and asked me to e plain. I reviewed how the card works and for which patients. Reviewed the Butrans trial card and copay card as well. I asked dr where she is using OxyContin and she said for patients in severe pain and said it works well for the right patient. Discussed who is the right patient with dr and then asked for more business. Asked dr to also identify patients for Butrans like those on ultram or vicoden who need a dose adjustment. Dr said ok.</p>
PPLPMDL0020000001	Lakewood	OH	44107	2/25/2014	<p>Dr said he is referring his opioid patients out and he clarified by saying all of the patients needing opioids for longer than 3 months, I asked who is telling u to do this...he said pain management is telling them And he said they too are not writing opioids they are doing shots. I asked what medical benefit are shots. He said its more profitable. I said so what happens when Their insurance doesn't cover the shots any more will you treat them when they come back and he said no. I reminded him of the med 80 that he asked me about and the piece I gave him to review. He remember. I said it was a guideline not a law. I mentioned the molecule of oxycodone, he was aware it was Percocet. I said I wasn't asking him to write anything new, just change the delivery system for those appropriate patients. He asked about Medicaid and caresource. He wouldn't take my coupons for OxyContin. We talked about Butrans, he said that is the only product that has a chance in his office this year. He reviewed caresource coverAge And dosing. Told him we would have an opioid review at our lunch next month.</p>
PPLPMDL0020000001	Akron	OH	44305	2/25/2014	<p>Showed dr the Butrans poster and asked him if he would find it helpful in an exam room when explaining the low back and the conditions that are associated with it? Dr said he really liked and and so did mrs Vora. Dr said he wanted a few for his rooms. I asked dr this week to identify patients on IR opioids wi private prescription plans who need a dose adjustment and to use Butrans. Dr said ok. Reminded him to continue to also identify Percocet patients who need dose adjustments as well and use OxyContin.</p>
PPLPMDL0020000001	Lakewood	OH	44107	2/25/2014	<p>Asked the doctor when was the last time he wrote for OxyContin he said it's been awhile,but his nurse reminded him that he just write it a few days ago for a post operative patient. I reminded him of the limitations of post op indication, dr was aware. Dr said he writes mostly acute Percocet and he told me has had trouble getting norco filled in the area. I assured the doctor that acute patients definitely are not appropriate for OxyContin. I referenced section. 12.3 and talked about the molecule OxyCodone and its half like and oxycontin's half life. Dr said he did have patients on short acting OxyCodone. I said what would happen if the patient on the short acting product was not improving and their pain was continuous for an extended period of time. Dr said he would probably keep them on Percocet and increase the dose and frequency. I asked what would be the downside to offering the. OxyContin at that point. He said nothing but cost really. Covered coupons. Talked about Butrans. Dr asked about steady state and dosing and how often to. Hanged the patches. I covered everything using visual aids and dr said it was helpful and that he learned something. I asked him what patient profile is coming to mind right now, he said the elderly. I asked why...he said cause its less for them to remember. We talked about abuse potential,insurance coverage. And I asked him if you offered it to a Scott patient type....could you feel he was appropriate for Butrans. He said maybe.</p>
PPLPMDL0020000001	Lakewood	OH	44107	2/25/2014	<p>Dr said OxyContin rep again...I said didn't you call me wanting me to review q12h dosing? He Said no. today I wanted to give you a Butrans invite to a dinner proGram at red in march. Dr said he doesn't have time to attend. I said it was worth a shot.</p>
PPLPMDL0020000001	Lakewood	OH	44107	2/25/2014	<p>Spoke to Karen the ma and the doctor today about changes in opioids to his practice from last year. He said he is referring most out. I said which ones get referred out. He said anything that is chronic. I said pain patients must take up a lot of your time huh. He said yes Nd even the ones he believed have turned out to be trouble. I said you mean thru drug tests...he said yes And behavior. I told him I did not promote any products that patients can prn themselves and I only promote two extended release products that is dosed once a week for Butrans and q12h for OxyContin . Dr said OxyContin. Dr said he is trying to write less. I said I'm actually asking you to write less short acting oxycodone like Percocet for those that are appropriate for. Different delivery system. I asked if he could see see my lodgic for the request. Dr said yes but he doesn't want to treat chronic. I said understood and the. You won't be writing much OxyContin. However....that one patient that comes in your office appropriate you would convert them to oxycontin right. He said yes. Dr knew very little of Butrans. Reviewed the. A resource Tramadol Scott profile. Reviewed Initiation guide. Dr said he would read the study. I told him I was not doing him a service my giving him such a high over of a product he knows almost nothing about. I encouraged to grant me an apt to talk more. He said he would have Karen ck his schedule and call me.</p>
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/25/2014	<p>Asked dr and Liz which dose of OxyContin is most often used? Dr said he's not sure but uses a lot of 40's and 60's. I looked into his data prior to the call and noticed he uses most of the 40mg then 80,then 60mg dose. I asked dr when he uses the 80 mg dose and to treat what? Dr said he uses the higher doses to obviously treat severe pain. Dr said that he doesn't use too many of the lower doses because Percocet usually does the job. I attempted to explain how he can utilize the lower doses for his patients on low doses of Percocet who need a dose adjustment. Dr said he knows all the doses but they don't fit his patients. I asked him to remember Butrans for those patients who can't tolerate oral medicines for pain and discussed he doses and conversions.</p>
PPLPMDL0020000001	Cleveland	OH	44113	2/26/2014	<p>Quick OxyContin Q12h, 7 tablet strengths along with Butrans for those appropriate patients requiring around the clock analgesia, Said Ok, will further discuss at lunch appt</p>
PPLPMDL0020000001	Cleveland	OH	44106	2/26/2014	<p>Visited Anes/Pain dept. Sahgal review of OxyContin/Butrans for appropriate patients. Requested appt with Terrah for dept</p>
PPLPMDL0020000001	Cleveland	OH	44106	2/26/2014	<p>Reviewed Butrans dose strengths (Initiation/Titration) and formulary opportunities along with OxyContin Q12h and 7 tablet strengths. Said he will consider for appropriate patients</p>
PPLPMDL0020000001	Akron	OH	44333	2/26/2014	<p>Stephanie said she only had a couple of minutes over lunch because she is way behind on charts. She said that she still feels good about OxyContin and Butrans but is usually seeing patients for follow ups who are already on it. Stephanie said that she understands where to use each product after I told her we needed to take a minute to discuss candidates for each product. Discussed special populations for OxyContin and Butrans.</p>
PPLPMDL0020000001	Akron	OH	44313	2/26/2014	<p>Asked dr at window if he is starting OxyContin when he knows a patient is not tolerating an IR opioid? Dr said sometimes he has and said that all opioids have similar side effects anyway. I asked him if he would use the lowest effective dose to minimize any tolerability issues? Dr said he tries. I asked for more OxyContin 10mg dose. Reminded him of the Butrans patch for his patients who are on tramadol or vicoden who need a dose adjustment. Dr said ok.</p>
PPLPMDL0020000001	Stow	OH	44224	2/26/2014	<p>Spoke with Lee the pharmacist. I asked her if they have dispensed Butrans or OxyContin recently and where they are coming from? Lee looked in the computer and said the last Butrans they filled was for Karen Hodakievic for the 10mcg and have had not other fills this year. Lee said they have 2 x 5mcg and 2 x 10mcg in stock. Explained the conversions guide and the trial and copay cards. Lee said they see some OxyContin from comprehensive pain mgt in stow but not much. Lee said they typically fill the 10, 20 and 40 mg doses.</p>
PPLPMDL0020000001	South Euclid	OH	44121	2/26/2014	<p>Quick products mention at window. Discussed Butrans after Tramadol, start 10 mcg hr. 1 patch worn every 7 days, 4 patches monthly. OxyContin opioid naive dose of 10 mg discussed. Left 4/30/14 program invite for both drs.</p>
PPLPMDL0020000001	Berea	OH	44017	2/26/2014	<p>Left and discussed OARRS flashcard, state guidelines for responsible opioid prescribing. Explained that Intermezzo savings cards exp next month 3/14.</p>
PPLPMDL0020000001	South Euclid	OH	44121	2/26/2014	<p>I gave dr two things to remember...if Tramadol isn't working for some pains pain and they need an extended release remember butrNs 5mg for those appropriate. also if the Percocet patient is needing an extended release product think OxyContin it's the sAme molecule yet different delivery system and there are coupons for both. He said ok and walk away.</p>
PPLPMDL0020000001	South Euclid	OH	44121	2/26/2014	<p>Quick window call. Discussed Butrans as option for patients like Scott, initiate with 10 mcg hr. 1 patch weekly, 4 patches each month. OxyContin, 10 mg opioid naive dose discussed. Met with nurses, shared OARRS and state guidelines, responsible opioid prescribing. Intermezzo savings cards left, explained they expire 3/31/14.</p>
PPLPMDL0020000001	Olmsted Falls	OH	44138	2/26/2014	<p>Dr walked a patient to the window. I asked the doctor if I could address the starting dose conversion from a product like Tramadaol to Butrans or from Percocet to OxyContin if appropriate for an extended release opioid. He said no he was all set and walked away. Left naive study and oxycontin conversion guide</p>
PPLPMDL0020000001	Stow	OH	44224	2/26/2014	<p>Good discussion on OxyContin and Butrans discussion over lunch. Dr Balter first said that he is having many insurance issues with OxyContin since the beginning of the year and can't understand it. I discussed with him that the new year bring patients with new plans, employer groups changing covered meds, patients deductibles are not met so copay may be higher. Dr said that makes sense and said those are good points. Spoke to dr about not thinking of a denied PA as the last step in getting patients what they need. Spoke to him about the appeal process. Discussed his use of OxyContin and the doses he uses and why. Dr told me that he continues to try and get patients on ER opioids ASAP and will titrate through the doses instead of doing the same with IR opioids. I discussed use of OxyContin in special populations,dose adjustments, start principles and patient profiles. Discussed Butrans for specific populations like Scott and Kathy. Reviewed conversions and titrations.</p>
PPLPMDL0020000001	Cleveland	OH	44195	2/26/2014	<p>Visited Pain mgmnt dept, Reviewed OxyContin/Butrans with Crawford, Left Initiation/Titration guides</p>
PPLPMDL0020000001	Cleveland	OH	44195	2/26/2014	<p>Quick OxyContin Q12h, flexible dose reminder, Said ok, nothing new learned. Left Initiation/Titration guide</p>
PPLPMDL0020000001	Akron	OH	44320	2/26/2014	<p>I showed dr the OxyContin conversion and titration guide and asked her what the downside is to prescribing OxyContin q12 for patients already on IR oxycodone who are still in pain? Dr said she likes OxyContin but patients don't want it and its too difficult for patients to get it though insurance, Medicare and Medicaid. I asked her if she knows this because patients have told her they don't want OxyContin? Dr said yes, they want the immediate release. I told her that she needs to tell her patients that she's the doctor and not the patient. Dr said there comes a point where arguing with patients and trying to reason with them becomes too draining. I asked her to just take the time, if she's not already to explain the product to them and why she wants them to take it instead of the opioid. Dr said she does. Reminded her where to use Butrans. Dr said she has a patient on it and said its working well. I told her that I'm sure she has many other patients with a similar profile that she should also be prescribing it for. Dr said she knows and will try.</p>
PPLPMDL0020000001	Stow	OH	44224	2/26/2014	<p>Dr told me that he is seeing a lot of success with OxyContin and is using it as early as possible when he knows patients will be in pain for a long time. Dr said that he uses mostly 10-40mg and rarely goes above it. Dr said he now has a few patients he is trying to taper down from 80mg because its not the dose he wants them on. Dr said they got a lot of patients from other practices that have either gone under or closed from either retirement or moved. Dr said many of them were taking way too much opioids and he's trying to clean them up. Dr told me that he just has a patient who has been taking Butrans for over a year and has Humana. Dr said that starting in January they decided to not cover it. I explained to dr why he needs to fight these situations especially when a patient is doing so well. I explained how he can appeal the PA denial. Dr said he did to know he could do that and will try. I asked dr for a copy of the denial letter and he said he would get it. Reviewed OxyContin FPI sections on use in special populations and titration. Dr said he will continue to write both products cause they work!</p>
PPLPMDL0020000001					

	Lyndhurst	OH	44124	2/26/2014	Recruited for thu 3/20 and wed 4/30 Butrans programs. He will be out of country during both those weeks. 30 % pain reduction insight. Doctor feels pain reduction is good. He thinks Butrans is a good product. His only concern has been coverage. He hasn't had great success in past getting covered, especially for Medicare D patients. He's thinking of placing a male patient, Medicare D, Anthem Senior, on Butrans 5 mcg/hr; opioid naive patient. Communicated to doctor he may be able to get covered with a prior auth. Need to follow up on this patient, and see if Butrans was covered. OxyContin, opioid naive dose of 10 mg. Next time I'd like to discuss this patient profile, George and get your feedback regarding a trial of OxyContin for a patient like George. Discussed and left OARRS flashcard, buprenorphine flashcard, cd/urine screen flashcard. ^^ Get dr another Butrans
PPLPMDL0020000001	Munroe Falls Akron	OH	44262	2/26/2014	Quick discussion and told her that she needs to focus on existing patients already on ultram for Butrans and those already on Percocet for OxyContin. I gave her the conversion and titration guides for each.
PPLPMDL0020000001		OH	44333	2/26/2014	Good discussion around Butrans and OxyContin. I discussed use of Butrans in special populations again and discussed his use of the 15mcg. Dr said that Elise had a patient needing more than the 15mcg dose just yesterday and I need to speak with her about it. Dr said that most of his patient are doing well on 10mcg or on the 20mcg dose. I asked what he thinks of the lowest therapeutic dose and if the 15mcg dose was possibly more appropriate for some patients on 10 or 20mcg? Dr said there may be a patient or two that he could move down to the 15mcg dose and may try it in one patient. Discussed the fact that he should be using more OxyContin for those already on oxycodone. Dr said he gets it and said that he feels that many of them may need Percocet for breakthrough. I told him maybe but he should titrate OxyContin until appropriate analgesia is reached. Dr agreed and said ok that he will try to convert more patients.
PPLPMDL0020000001	Berea	OH	44017	2/26/2014	Jasmin the rn said the dr doesn't want to write that any more opioids. I asked how he will treat pain in 2014 and she said just a few weeks of hydrocodone then refers out. She wouldn't take coupons. I gave her the naive study to pass to the doctor, she said he read the information I left time. I said what questions does he have. She didn't know and she wouldn't ask the doctor. I reviewed the moderate pain patient under 300mg of tramadol and not controlled with their pain...the Scott profile. Rn said she would tell the doctor the information.
PPLPMDL0020000001	Stow	OH	44224	2/26/2014	Good conversation about both products. Dial said she wanted to know more about Butrans conversions, patients good for it and how to apply patch. I explained all key selling messages, proper application of the patch, conversions and patient profiles. Dial said it helped and feels good about it and usually is seeing patients on follow ups on it and most really like it. Discussed OxyContin doses, conversions and patient types. Dial said she had patients that either really like it and those that want Percocet instead. Discussed conversions and profiles.
PPLPMDL0020000001	Lyndhurst	OH	44124	2/26/2014	Met with pharmacy mgr Adrienne. She was unaware of OxyContin changes to section 9.2 of FPI and wanted more information on studies. I responded that I cannot speak to studies but I can leave her FPI, reformulation brochure to look over. She was satisfied with response. She is only aware of one patient on Butrans. Discussed geriatric patients studied, adverse events in that population, pharmacokinetics, 5 mcg opioid naive, start dose. Black box warning discussed. OxyContin, 10 mg start dose, q 12 h dosing, 7 strengths available. Discussed and left RX patrol flashcard. ( a few of dr Dean Pahr patients are customers here)
PPLPMDL0020000001	South Euclid	OH	44121	2/26/2014	Met with dr med assistant Tracy. Discussed Butrans after Tramadol, C11 x 1 week pain patch, 4 patches monthly. Trial, savings explained. Tracy says dr loves savings cards and will always remember to give to patients as she keeps them in her exam rooms. OxyContin opioid naive 10 mg dose discussed. Controlled release product, q 12 h dosing schedule, 7 strengths available. Percocet, oxycodone conversions discussed. Let Tracy know I'd be back with savings cards.
PPLPMDL0020000001	South Euclid	OH	44121	2/26/2014	(Left 4/30 Butrans program invite). Met at front window with med asst Jen. Doctor may prohibit lunch appointments after May of this year. She will meet with him to ask if he'd consider one more lunch appointment with me over in Concord. He no longer attends the group lunch for doctors on his floor (basement level 065) Discussed OxyContin for patients not controlled on prn oxycodone or Percocet. Start dose 10 mg, 7 strengths available, dosed q 12 h. Butrans as a transdermal option. 1 patch worn every 7 days, 4 patches per month. 4 strengths available. Discussed and left OARRS flashcard, how to protect your practice brochure.
PPLPMDL0020000001	Olmsted Falls	OH	44138	2/26/2014	Spoke to dr about Butrans and OxyContin delivery system. I asked him how he felt his patient could manage 4 patches a month? He thought pretty good. Talked about the Tramadol Scott patient and the moderate atc pain that would be appropriate for Butrans s. Discussed patch placement and savings cards. I agreed that the doctor has very limited Percocet patients. However that aside....dose it make any sense to convert a patient for an atc short acting product to an extended delivery system like OxyContin. He said yes but it would depend on price.
PPLPMDL0020000001	Berea	OH	44017	2/26/2014	We discussed how he was managing pain patient in 2014 and he said he is not Afraid to prescribe opioids if its appropriate. He does refer to dr Astley and dr tabbaa out of metro. We talked about why a doctor would prescribe OxyCodone short acting products like Percocet around the clock instead if changing the delivery system to an extended release product such as OxyContin. Dr said it must be price. I reviewed the savings cards for the commercially insured. Dr thought Butrans has a good fit in primary care and he told me he was going to try and write more of it this year instead of hydrocodone products. I said how do you know who is a Candidate for Butrans? Dr said if they fall hydrocodone or they don't want to take a pill and need a around the clock opioid. Reviewed the indication and reviewed the initiation guide for the starting dose based on the doses he spoke about. We talked about abuse potential. Reviewed patch placement. I asked the doctor what does the patient have to do after they place the Butrans patch on the approved site. The doctor said nothing. I asked if the dosing schedule of Butrans was something he thought the patients could do. Doctor said yes. Reviewed caresourc aNd workers comp....also reviewed the commercially insured patients and the savings cards. Dr said he might attend the march program for Butrans On The 20th.
PPLPMDL0020000001	Mayfield Hts	OH	44124	2/26/2014	Lunch. Asked doctor what recent experience with Butrans has been and is there any reason that he would not continue to write Butrans moving forward? He responded that his only concern is coverage/cost. He asked if our Med D coverage has improved for Butrans and I responded with Med D plans Butrans is currently preferred on. For commercial: I asked him to remember Butrans is preferred on his 2 largest plans: Med Mutual and Express Scripts. We also discussed Medicaid aprrior auth. I told him I'd drop off formulary grids as soon as I get shipment, so he has hard copy to refer to. He says he cannot remember which plans and needs something in writing. I asked him the same questions regarding OxyContin. How are patients doing? Any issues or concerns? He responded all is well. I asked him for business this week for both Butrans and OxyContin in the patient types we've been discussing. After prn Tramadol is not controlling patients' persistent pain; and for OxyContin, in patients that have been on prn oxycodone or Percocet, consider conversion to controlled release OxyContin, when pain needs around the clock attention. He says he will do so.
PPLPMDL0020000001	Copley	OH	44321	2/26/2014	Used the tramadol insight and asked dr to tell me about what he's currently doing when a patient on tramadol needs a dose adjustment? Dr didn't really give me a direct answer but said that he hopes patient either changes lifestyle like physical therapy or go to see a specialist. I asked him for a tramadol failure? Dr said does write vicon but only when he has do based on pain intensity. I explained to him that a tramadol failure is a good candidate for Butrans and he needs to give it more of a try. Dr said ok. Showed him the OxyContin doing and conversions guide and spoke about when to use it based on patients already being on oxycodone. Dr said ok and went into a room. Nothing else learned.
PPLPMDL0020000001	Berea	OH	44017	2/26/2014	She waved from ten feet away, and I asked if she had any questions about converting a Tramadol to Butrans if they were appropriate of course she said no. I told her I was gonna leave some OxyContin conversion from Percocet and some Tramadol to Butrans for those appropriate patients. She said thank you.
PPLPMDL0020000001	Westlake	OH	44145	2/26/2014	Asked the doctor if he thought Butrans had a fit into his practice and where? Dr said those that like patches. I said do u find patient are liking the patch that you have written so far, dr said yes. I said I'm glad it's a good experience so far. I asked if he has tried Butrans after a Tramadol failure yet? He said no. I gave him the initiation guide and asked him to think about that transition if appropriate this week. Left him the OxyContin conversion guide and said I'll save this for next time because he didn't have any more time.
PPLPMDL0020000001	Cleveland	OH	44115	2/27/2014	Reviewed with Dave Rph OxyContin Q12h along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, nothing new learned
PPLPMDL0020000001	Brooklyn	OH	44144	2/27/2014	Window call, Reminded of Butrans for those patients requiring around the clock analgesia along with OxyContin Q12h Tablet strengths, said OK will consider, booked appt to further discuss
PPLPMDL0020000001	Cleveland	OH	44115	2/27/2014	Visited Anes/Pain depr, Discussed OxyContin/Butrans with Dr. Nickels and staff, Dr said he will continue to support for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44115	2/27/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, discussed his success with appropriate patients. Reminded of OxyContin Q12h and 7 dose strengths. Said he continues find appropriate
PPLPMDL0020000001	Cleveland	OH	44115	2/27/2014	Reviewed OxyContin Q12h and Butrans for those Tramadol failures with George Rph, said OK, will support for appropriate patients
PPLPMDL0020000001	Westlake	OH	44145	2/27/2014	I said I just wanted to remind you two things about the extended release opioids Butrans and OxyContin...if patient are taking too many short acting atc pain pills and aren't getting the control they need consider the delivery system change to Butrans or OxyContin. After Tramadol for Butrans and after Percocet for OxyContin...if appropriate of course.
PPLPMDL0020000001	Euclid	OH	44119	2/27/2014	Quick detail, here's Butrans trial, savings cards as promised. Quick point: no restrictions for Butrans. with mild to moderate hepatic impaired patients and no restrictions with renal impaired patients.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/27/2014	Showed dr the Butrans conversion guide as well as Butrans and OxyContin copy cards. I gave dr the ultram insight and he said there is plenty of business to be had for Butrans for ultram and viconden patients but said however it's not always a slam dunk. I asked why and he said because the prohibitors are usually cost, not wanting to wear a patch, and can take a while to get it approved. I asked dr when he knows that a medicine is the best option for the patient, isn't it worth it to jump through a few hoops if necessary? Dr said it is and said he is writing but has many that he want to start but aren't able to get it. I asked dr for examples of denied PA s so I can work on it for him. Dr said he will do that. Left him with the OxyContin conversion guide and dr said he won't write it.
PPLPMDL0020000001	Fairlawn	OH	44333	2/27/2014	Quick hello at front counter and asked him if he finds patients on Percocet as candidates of OxyContin if they need an adjustment? Dr said it makes sense to switch them to the long acting oxycodone but said that he still wants to leave that up to the specialists. I asked why and he said he doesn't want his patients to know that he's the one they see for the schedule 2 opioids. I told dr I understand and asked if he would write it as he referred so they go to pain management already on the ER opioid? Dr said maybe for some patients but said it won't be the rule. Told dr to use Butrans as the schedule 3 opioid for ultram and viconden patients not controlled. Dr said Met with nurses on pain management floor. Discussed OxyContin and Butrans indications, dosing strengths, titration, opioid naive and opioid experienced start doses. Scheduling, Black Box warning, respiratory depression discussed. Savings card for OxyContin, Trial, savings for Butrans discussed. Non branded resources discussed including PAP journals.
PPLPMDL0020000001	Akron	OH	44333	2/27/2014	Met dr for the first time in the akron office. I told dr that I manage Butrans and OxyContin in the akron territory. Dr said he has used Butrans a few times and said he's still not sure where to use it. I explained Butrans patient types, conversions, starting doses, proper initiation doses and titration. Dr said that's good to know and wanted the initiation and titration guide. Reviewed OxyContin doses and patient profiles. Dr had to go into a patient Spoke to Robert the pharmacist and asked him how much Butrans he has seen in the month of Feb? Robert said he didn't know but sees enough to keep certain doses in stock. I asked him if he has the 15mcg dose and he said no. Robert said he will not order it until he sees a script because it costs them too much money if it doesn't get dispensed. Robert said he noticed there is a back order until the beginning of March. Spoke about OxyContin and doses as well as titration.
PPLPMDL0020000001	Cleveland	OH	44109	2/27/2014	Visited IM/PM depts Left OxyContin/Butrans PI's and Initiation/Titration guides for Dr. Ricanati, Maguoulias, NG, Falik-Yuttes and NP's. Requested appts obtained another contact Michelle
PPLPMDL0020000001	Cleveland	OH	44109	2/27/2014	Dr. reviewed OxyContin and Butrans PI's, Initiation/Titration guides, said he will contact me if he has any further questions
PPLPMDL0020000001	Akron	OH	44310	2/27/2014	I asked dr if he has patients that he refills each month on Percocet? Dr said yes. I asked him what the downside would be to switch these patients to the long acting oxycodone? Dr said he's not sure. I showed him the conversion guid from the visad from Percocet and explained what OxyContin is, how it's dosed, conversions from Percocet and if he would switch patients who need dose adjustment? Dr said he won't switch just a switch but if he thinks they need a more steady release of oxycodone he will prescribe it. I ask dr when a Percocet patient comes in for a follow up to reevaluate them for q12 OxyContin. Dr said ok. Gave him the Butrans initiation and titration guide and asked for him to suit more for those failing ultram.
PPLPMDL0020000001	Westlake	OH	44145	2/27/2014	I asked her how she felt about Butrans being a moderate pain product not to be given to patients who are over 80mg morphine equivalent. She said they see all kinds of pain patients. I said even Tramadol patients, she said yes. I asked what if you were to convert someone from Tramadol to Butrans if they were appropriate, how would your patient respond? She hasn't written it for a while and said as long as they don't mind a patch. I said after your patient places the patch on one of the 4 appropriate sights...whAt does the patient have to do next? She said nothing. I said exactly. In 7 days they change their patch, remove the old one fold n flush. I asked if this sounded complicated for the patients or for you to explain. She said no. I gave her the OxyContin. Conversion guide.
PPLPMDL0020000001	Westlake	OH	44145	2/27/2014	I asked the doctor what's weighs more in his prescribing patterns with choosing opioids safety first or efficacy first? Dr said safety. I said all opioids have abuse potential, but I'd like you to think about why someone would prescribe a short acting product atc like Percocet when they can be offered an extended release product like OxyContin? He said he doesn't know. I asked him to think about that next his Percocet patient is in for his office visit. If they are appropriate to think about OxyContin. Told him I was going to leave a safety and efficacy study for Butrans to think about how 4 patches a month might be an option for the right patient.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44109	2/27/2014	Discussed OxyContin Q12h along with Butrans for those patients requiring around the clock analgesia with Janice, recvd Michelle-MA- contact info for appt requests
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	2/27/2014	Dr said he ended more Butrans copy cards. Reviewed the trial card as well and asked if he has started a patient on Butrans who was failing on tramadol? Dr said his patients have been on vicoden so far. Reviewed the Scott profile and asked him if he has patients like him? Dr said he can think of a few. I asked Dr to try it in the tramadol patient and reviewed conversions. Left him with OxyContin conversion guide.
	Norton	OH	44203	2/27/2014	Discussed the molecule of OxyContin and of Percocet. Dr was aware. I asked him if he has concerns dosing prn opioid medication etc. Dr said yes and described the steps has in place to do urine screens and pill counts for patients. Dr said he doesn't have any problem with writing opioids as long as the patient is appropriate and willing to sign his contracts. Dr said Medicaid doesn't cover OxyContin, there for he will switch them to something the patient can afford that's long acting. I asked why he prescribes OxyContin and the dr said he believes it works patients can still get it. I asked him if the reformulation was of any value. He said not really. He said its good to know, but he feels his patients won't abuse. Talked about abuse potential and gave him the leave behind piece to reference if he had questions. Dr said he likes Butrans but he has been giving it to patients coming in for an increase in their hydrocodone. I said why there and not after Tramadol? Dr said its never good to give a patient too many pills, so if they need an extended release he converts to Butrans and supplements with hydrocodone. We reviewed the initiation guide, dr confirmed he was starting at 10mcg of Butrans. Dr asked me if I knew about the hydrocodone x product that was on TV today. I said I didn't know anything about it.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2014	I asked the np what she has to tell her patients to do after the patient puts the patch on for the first time. She said what? I said nothing for a week until they change the patch. I asked if this would be valuable to her patient. She said maybe.
PPLPMDL0020000001	Cleveland	OH	44113	2/28/2014	Reviewed Butrans for those patients requiring around the clock analgesia, Opioid naive trial- Dr. said 30% pain reduction was significant and important to his patients, Initiation/Titration, Also reminded of OxyContin Q12h, 7 tablets strengths, said he will consider but doesn't like to struggle with PA's had pharm. ins. switch patient to MSCContin recently
PPLPMDL0020000001	Cleveland	OH	44109	2/28/2014	Reviewed OxyContin/Butrans Initiation/Titration guide, with tech, no new info learned
PPLPMDL0020000001	Cleveland Hts	OH	44118	2/28/2014	Reviewed OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures, requiring around the clock analgesia, Said will continue to find new appropriate patients, follow up with Formulary grids for both products
PPLPMDL0020000001	Richmond Heights	OH	44143	2/28/2014	Dr C and Med asst/nurse Carol not in. OxyContin Savings card, information drop only. Left OxyContin reformulation guide, OARRS flashcard, how to protect your practice brochure. Note: next 2 weeks, dr out on vacation.
PPLPMDL0020000001	Hudson	OH	44236	2/28/2014	I asked dr if he has any patients currently past the three months on an IR opioid like tramadol or vicoden who would be good candidates for 7 day Butrans? Dr said he has a few people that he might try Butrans on that are past 3 months. I told dr that's great and to just discuss the option of Butrans for those patient. Dr said ok. Reminded dr of OxyContin and told him he has 7 doses to use to individualize the dose. Dr said ok.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2014	Spoke to dr about patients on Percocet atc if it made sense to move them to a different er delivery system. Dr said yes. She said she tried to write it yesterday but it was too expensive some she said it was part d patient and it was gonna cost over 100 dollars. Discussed savings cards for commercially insured patients. Discussed Butrans and she said she will try to write it again. Reviewed the Tramadol patient being reassessed and appropriate for Spoke to Joni(Dmitri's nurse) and Glenn about where they are with getting Butrans approved? Joni said that she has seen more issues with getting approval for PA's. Joni said they are having more denials from UHC community plan and they don't know why. I told Glenn that the PA should go through as long as there is a history of IR opioid use or tolerability issues. Glenn said he didn't have time to talk because he has a meeting and said to come back next week.
PPLPMDL0020000001	Cleveland	OH	44109	2/28/2014	Reviewed OxyContin/Butrans Savings cards with Bernie RPH, said he sees Butrans RX's from Nickels group (Torres, Tryon)
PPLPMDL0020000001	Akron	OH	44312	2/28/2014	Dr told me that he started a patient on Butrans on Tuesday this week. I told dr that's good news and asked why Butrans? Dr said that it is a female patient with good insurance who has failed tramadol and vicoden. Dr said the patient has real bad low back pain and said he didn't want her to continue to increase the number of pills every day. I told dr it sounds like an excellent candidate for Butrans. Dr said he started on the 5mcg patch, gave her the information guide and Carla his nurse gave her a copy card. I reminded him of OxyContin for those patients already on oxycodone short acting. Dr said he knows and is trying to streamline his pain patients.
PPLPMDL0020000001	Lakewood	OH	44107	2/28/2014	Reviewed why patients need an extended release opioid in the first place and the doctor agreed that they should be converted sooner than the insight that I shared with him. Reviewed Percocet dosing to OxyContin conversion using detail aid. I said is there any reason why this doesn't make sense and he said no. Covered managed care. Showed the doctor the leave behind poster on the spine for Butrans. Dr said that very helpful visual aid. I said what are some obvious reasons if a patient came in with back pain that wasn't going away and getting worse...dr said he would have to rule out it wasn't cancer in the lower back bones. I said an increase in opioids isn't always the answer and only thru a good reevaluation can you find these things out. Dr agreed. We spoke about dosing Butrans, where to place the patch and if his patient could supplement. I showed him the visual aid where it answered that question. He said his patient wouldn't want to come off Tramadol...I reminded him that Butrans would be the primary pain product and the NSAID or short acting opioid for supplemental. I asked him how his patient would feel about once a week dosing. The doctor said his patient would like that...I asked would his patients be taking other medications during the week? And he said probably yes. I reminded him of respiratory depression, other cns medications along with Butrans is a warning. Dr asked how many refills, and I reminded him of the schedule three multiple refills with Butrans.
PPLPMDL0020000001	Mayfield Village	OH	44143	2/28/2014	Dr took vacation day. Lunch with practice. Met with his med asst. we discussed both products, patient selection, opioid naive & experience start doses. Titration & steady state for both. His savings cards should work for OxyContin, how trial, savings should work for Butrans. Left & showed how to protect your practice brochure & OARRS flashcard. Left invite 4/30 program. Discussed 3 largest plans Med D access preferred OxyContin, Butrans.
PPLPMDL0020000001	Mogadore	OH	44260	2/28/2014	Led with the new ER opioid start and asked him what needs to happen in order of him to start an ER opioid? Dr said its all on a case by case basis and dr said it doesn't have a set criteria for starting an ER opioid. I asked him who he thinks is right for OxyContin? Dr said he thinks a good patient is one that has been on a number of IR opioids and is treatable over a long term. Dr said he will use it at the lowest dose then titrate up. I reviewed the start principles and dr said it makes sense. Reviewed patient profile Maggie and dr said good patient but started too late. Dr said he will try to switch some more patients over to the ER oxycodone because it just makes sense for some. Reviewed Butrans key selling messages, patient profiles and asked for him to write more. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Hudson	OH	44236	2/28/2014	Spoke to Beth the pharmacist about Butrans and OxyContin. Beth said a floater had a prescription come through last week and it was written apply one patch daily. Beth said that the pharmacist called the office and discussed the dosing frequency. The prescription was changed to the correct dosing frequency as one patch a week. Beth said she doesn't know which doctor it was. I discussed application of the patch because she asked what a patient does it if it peels or comes off. Reviewed the patient information guide and gave her a few. I told her to hand those out with the copy card if necessary. Beth said they continue to see OxyContin and see most of the 10, 20 and 40mg doses. Beth said that she just sent back 80 mg doses because they expired. I reviewed the doses and titration with start principle.
PPLPMDL0020000001	Mayfield Village	OH	44143	2/28/2014	Lunch. Reminded him of his agreement to initiate 10 mg OxyContin for patients like George. Steady state, titration, dosing discussed. Also discussed black box warning, watch for respiratory depression in elderly, debilitated, cachectic patients. Butrans, another option for opioid naive. 1 x week transdermal patch. He needed to get back to patients: I told him next time I'd like to discuss the right patient type to start Butrans, as last visit he stated " he hasn't found right patient".
PPLPMDL0020000001	Cleveland	OH	44113	2/28/2014	Introduced Butrans, 7 day Transdermal, Tramadol failures requiring around the clock dosing, Initiation/Titration, Reviewed OxyContin Q12h, flexible 7 dosing strengths Said she will consider, Dr.K is managing most pain patients but will consult/recommend accordingly
PPLPMDL0020000001	Mayfield Village	OH	44143	2/28/2014	Lunch. Summarized last call. Should you ever need to refill OxyContin or Butrans, I'd like you to have knowledge of products, dosing & titration. Reviewed opioid naive & experienced starting doses both products, strengths available, savings available to commercially insured patients. Discussed Purdue's non branded items for responsible prescribing of opioids. Showed how to protect your practice brochure, OARRS flashcard. Asked about wed 4/30 program. No way he can make wed night. He took WED. as day off preciously, but due to patient needs, he's working all day again Wed.
PPLPMDL0020000001	Hudson	OH	44236	2/28/2014	Saw dr at window and gave him the oxycodone insight. Dr didn't say much so I told him that he needs to ensure his patients are on the most appropriate medicine for managing their pain. Handed him the conversion and titration guide and asked for him to use the 10mg. Reminded him to also get some Butrans experience under his belt! Showed him the Scott profile and told him that he said he said before he has patient taking tramadol around the clock. Dr said ok he will find a patient.
PPLPMDL0020000001	Euclid	OH	44132	2/28/2014	Met with med asst @ front desk, dr won't be in until after 1:30 today. Discussed the 2 options I have for patients with pain around the clock. Discussed OxyContin opioid naive dose of 10 mg, or in patient dosed q 6 h on oxycodone or Percocet who's no longer prn. Explained how savings cards work off patients co pay. Butrans, transdermal option, buprenorphine system worn 1 x week, 4 patches monthly, 4 strengths. Opioid naive dose 5 mcg hr. Left 4/30 invite, how to protect your practice brochure.
PPLPMDL0020000001	Mogadore	OH	44260	2/28/2014	Discussed the oxycodone ER insight and asked her about it. Dr said she can actually count the number of patients she has on OxyContin. Dr said that they recently started doing urine drug screens and she has been amazed with what has come back on on patients she thought she knew and trusted. Dr said that she will write OxyContin of the right patient and that patient is one that isn't a surgical candidate and has shows steps in the right direction with lifestyle modification, physical therapy etc... I showed her the conversions from Percocet and asked her if she currently has patients that have been on Percocet for more than 6 months? Dr said she does. I asked shy she is keeping them on Percocet for that long? David its a cost thing because dr said from her experience the patients that need OxyContin are usually poor and don't work. I asked her if she has any patients on it opioids that have commercial insurance? Dr said some. I asked her to focus there for OxyContin and asked if it makes sense to convert them when either tolerance or efficacy issues are presented? Dr said it dos make sense.
PPLPMDL0020000001	Euclid	OH	44117	2/28/2014	Quick review of Butrans key selling messages and asked of business in patients like Scott and Kathy.
PPLPMDL0020000001					Dr d took vacation day, just med assts & PT staff in. Met with Tenesia @ front window. Discussed OxyContin, start dose, 7 strengths, q12 h dosing schedule. Let her know how savings cards should work. Butrans. Cill 1x week transdermal option. Can call in w refills. Discussed 4/30 program, left invites for both drs.
PPLPMDL0020000001	Westlake	OH	44145	2/28/2014	Spoke to dr and gave him a wall posted of spine. Asked him to think about those patients who are taking Percocet atc if they might be ready for OxyContin q12h.
PPLPMDL0020000001	LAKEWOOD	OH	44107	2/28/2014	Asked what steps were in place this year about stocking opioids? He said limited amounts of hydrocodone. Discussed OxyContin, he stocks some not all doses but he said they can get them with in 24hrs usually. I asked him if he has heard of Butrans...he said yes. I said were you aware it was schedule 3 and the transdermal patch is worn for 7 days. He said yes. I spoke about the locations the patients could place the patch and how to discard after the 7 days.
PPLPMDL0020000001	Euclid	OH	44119	2/28/2014	Dave off today. Pharmacist Arjeet filling in. Spoke with tech first. Left OxyContin reformulation guide, discussed OxyContin Start dose, q12 h dose schedule. Discussed Butrans indication, 1x week, 4 patches month. Patients may come in using non opioid or a few short acting opioid in conjunction with Butrans. Trial, savings discussed. Left RX Patrol flashcard. Arjeet says he sees a lot of q8 h OxyContin scripts written. What does the state say on that? I cannot speak to what the state would say, I can only speak to our FPI, in that our recommending dosing is q 12h, two OxyContin in 24 hr period, typically taken at 8 am and 8 pm. He was satisfied with response.
PPLPMDL0020000001	Cleveland	OH	44118	2/28/2014	Reviewed OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures, requiring around the clock analgesia, said she will consider, follow up with Formulary grids for both products
PPLPMDL0020000001	Rocky River	OH	44116	3/3/2014	I asked the doctor if she had any concerns writing OxyContin for appropriate patients this year? Dr said well and paused. I said you do, how can I help. She said she didn't want to write chronic pain meds any more. I told her I understood. And to consider one thing...I'd like to only focus on current patient, already being treated with Percocet with monthly refills and zero new patients. When that one patient started using their prn medication atc, please consider a different delivery system. Scheduled q12h. She said ok. Left her some Butrans Patient starts for review and to be distributed
PPLPMDL0020000001	Garfield Hts	OH	44125	3/3/2014	Reviewed OxyContin Q12h, 7 tablet strengths, savings cards/Formulary along with Butrans for those patients requiring around the clock analgesia, Said he will continue to look for appropriate patients that can afford options
PPLPMDL0020000001	Olmsted Falls	OH	44138	3/3/2014	Discussed his thoughts using a transdermal schedule 3 patch dosed 4x a month...dr asked about dosing and I reviewed the indication for appropriate use. Asked him his hesitations for writing OxyContin, the doctor said besides OxyContin having a bad name it was schedule 2.
PPLPMDL0020000001	Berea	OH	44017	3/3/2014	Left dr some Butrans patient brochures and I reminded him of this resource along with the coupons for both the products. I asked if he was anything else I could help with and he said no.
PPLPMDL0020000001	Garfield Hts	OH	44125	3/3/2014	Quick Butrans reminder Initiation/Titration, along with formulary status, Also reviewed OxyContin Q12h and 7 tablet strengths, Said Ok, will continue to find appropriate new patients

	Berea	OH	44017	3/3/2014	Dr said she does not have her Schedule 2 license is why she doesn't write OxyContin. We discussed the molecules of Butrans and OxyContin and discussed extended release opioids and the rationale behind it. Dr said prescribers don't want to be associated with treating chronic opioids. I said what exactly is the difference between having patients on short acting products month after month after month vs. the word chronic? She said "I guess nothing". Dr said its a mindset that has to change and I agreed. I asked what is the clinical benefit for a patient taking a short acting product 3 or more times a day then an extended release product taken twice a day scheduled. She shrugged her shoulders and said she wasn't sure. I asked how do you know what dose they take daily either, she said good point. Dr said she wishes there was better education for patients on the expectations of pain medications. We reviewed the initiation guide of Butrans and she also told me she was never over 80 mg morphine equivalent. And showed me the dose level appropriate for a 5mcg starting dose with Butrans.
PPLPMDL0020000001	Cleveland	OH	44125	3/3/2014	Reviewed partners in pain as a possible resource for her.
PPLPMDL0020000001	Fairlawn	OH	44333	3/3/2014	Reviewed OxyContin/Butrans Savings cards along with dosing and appropriate patients, Matt Rph said he hasnt see any new Butrans RX's a few OxyContin
PPLPMDL0020000001	Berea	OH	44017	3/3/2014	Good discussion after using insight about ERO opioids. Dr said that even though she is new as a doctor, in residency she saw the worst of the worst when it comes to pain patients. Dr said that most patients want that phycosocial response to taking a pill every 4 or 6 hours and even though the dr knows it may not be the best therapy at least the patient is adhering to their medicine. Discussed OxyContin conversions and patient types for it. Used Kathy profile to discuss the appropriate patient type for Butrans. Reviewed the profile, discussed initiation titration and use of supplemental analgesia and conversions. Dr brought up QT prolongation. Discussed what is in the FPI about 2x 20 mcg patch studies and said it is not required to get a EKG. Discussed specific populations for renal and hepatic impairment. Dr said that's good stuff to know. Asked for her to try to try it in a patient
PPLPMDL0020000001	Akron	OH	44333	3/3/2014	Dr asked me about proposed new hydrocodone product coming out. I told him I didn't know much and asked his thoughts. Dr said it doesn't have abuse technology and he was surprised FDA approved it. I asked how much does this technology weigh in your decisions to write extended release products. He said it doesn't really. I asked him if he believed any of the med 80 statistics that came out last October, showed it to him. He said yes he does believe opioids are being sold and misused. I reenforced that even with the reformulation of OxyContin or the patch of Butrans it can be abused and offered to give him the study carrier leave behind. DR looked at cover and gave it back. Dr said a little better is better than not doing anything at all. I said I hope you remember that when there is an appropriate patient for OxyContin. I asked the dr why would he hesitate to write a schedule 2 over a schedule 3....both extended release. Dr said he gets too many hassles with managed care with schedule 2's Nd he said it was too expensive. I asked when's the last time he gave a savings card to a commercially insured patient. He said it's been a while. I reminded him that both Butrans and OxyContin coupons are in his closet. Dr said Butrans has a fit with patients cause its only 4 patches a month. I asked if he would find an appropriate patient this week to convert to Butrans. He said he will try it if he finds one.
PPLPMDL0020000001	Euclid	OH	44117	3/3/2014	Spoke to Becky about Butrans and OxyContin. Becky said until she gets her masters she can't prescribe any narcotic Without physician. Discussed that she still sees mostly acute pain but does see patients on pain medicines for around the clock pain. Discussed use of OxyContin for a patient she had years back that was switched to OxyContin from Percocet based on severe pain. I asked her to still use her judgement when with a patient that showed promise for an ER opioid. Butrans for patients on around the clock ultram or vicoden use.
PPLPMDL0020000001	akron	OH	44333	3/3/2014	Dr Morley stuck in NYC due to weather, won't be in this week. Spoke with medical asst Tenesia. She checked savings cards, have for both products. Reminder opioid naive dose for OxyContin is 10 mg, opioid naive dose Butrans 5 mcg hr.
PPLPMDL0020000001	Garfield Hts	OH	44125	3/3/2014	I asked dr when he writes an IR opioid what he's writing them for? Dr said for both acute pain and around the clock pain. I asked dr when he's writing a IR opioid for around the clock pain and if his goal is to use the lowest therapeutic dose, how it writing an IR opioid helping him meet that goal? Dr said he knows and said that he just wrote the Butrans 15mcg for a patient that was on vicoden HP 40mg a day. I told that's thats great and to make sure the patient is titrated if necessary. I reminded dr to use OxyContin for the patients already on Percocet.
PPLPMDL0020000001	Cleveland	OH	44125	3/3/2014	Visited surgery center, Left OxyContin/Butrans Initiation/Titration guides for Key clinicians (Lopresti,Levine,O'brien Gemma,Forcier, ElKhari Pantec, Peralta-CCF(Lichenberger,Rapuri,Sargento,Nowak, Love, Hauer-Healthspan surgeons) Left cards and info for Nursing Staff/Clinician
PPLPMDL0020000001	Fairlawn	OH	44333	3/3/2014	Visited surgery center, Left OxyContin/Butrans Initiation/Titration guides for Key clinicians (Lopresti,Levine,O'brien Gemma,Forcier, ElKhari Pantec, Peralta-CCF(Lichenberger,Rapuri,Sargento,Nowak, Love, Hauer, HealthSpan surgeons) Left cards and info for Nursing Staff/Clinician
PPLPMDL0020000001	Fairlawn	OH	44333	3/3/2014	Met Heather for the first time from the north canton store. I asked her about what she thought a good candidate for OxyContin would look like? Heather said a patient who suffered from moderate to severe pain. I told her that moderate to sever is right and read her the indication. I explained the dosing, 8a and 8p dosing regimen and conversions from Percocet. Heather said they don't have anything over 40 mg in her canton store. I asked her how familiar she is with Butrans and she said they have the starting doses in her store. She said they get some prescriptions for both products. Explained patient types for Butrans and conversions and titration.
PPLPMDL0020000001	Fairlawn	OH	44333	3/3/2014	Used insight for first time ERO opioid use for opioid naive patients. Dr said that he is unlikely to use OxyContin as a first line opioid. Dr said that he will use IR opioids because if he goes to an ER opioid that makes him feel that he's committed to it forever. Dr said its also the patients own feeling of need to take a pill every 4 or 6 hours to control pain. Barry asked if he feels its riskier to use OxyContin than Percocet? Dr said no its not and reiterated that its his belief that using an ER opioid makes him and the patient committed. Discussed conversions and use of the product in he right patient. Butrans for the vicoden patient and dr said that he could use Butrans for that vicoden failure.
PPLPMDL0020000001	Akron	OH	44333	3/3/2014	Spoke to dr about a patient he has on Butrans who's analgesia runs out at day 5. Dr said he got her insurance plan to approve two additional Butrans patches for the month and in the new year they are not approving it. Discuss reasons for this based on insurance plan changes. Dr said he's going to do another peer to peer discussion to gain approval. Asked how the protocol is going for Butrans and he said its running smooth. Dr discussed a patient taking OxyContin and not being able to get it approved in the new year as well. Dr said he needs to fail MS Contin in which he said most patients. Asked for continued Butrans and OxyContin prescriptions.
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/4/2014	Reviewed OxyContin Q12h, flexible dosing strengths said he continues to find appropriate patients. Discussed Butrans for those patients requiring around the clock analgesia, said he will consider, Inquired about a updated formulary card.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/4/2014	Quick call in hallway of hospital. I told him how great the pain seminar was and thanked him for so welcoming me and Purdue. I told him to continue supporting Butrans for the right patients. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/4/2014	Discussed with dr the patient she spoke to me about on my last visit. I told her that I noticed that the patient had been on Butrans previously and on the 5mcg dose. I told dr that she told me she was considering Butrans because the patient has had so many tolerability issues in the past and as considering Butrans. Dr said she wondered why the patient was not moved to the 10mcg. Dr said after she noticed the who the patient was she said the patient had never been on Butrans previously. Dr said maybe it was prescribed but never filled. Discussed the situation with Darlene and told her that the patient can get Butrans with the current insurance but with a PA. Darlene said she will keep it and initiate the pa once it is prescribed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/4/2014	Spoke with Liz the office manager about the doctors use of OxyContin. I asked why he isn't using the OxyContin copay cards? Liz asked how the help patients. Discussed the cards and asked for her to tell him to use them for commercial patients. I asked Liz to let me know when she gets denials for OxyContin and let me know what dose he is prescribing the most of. Spoke to Liz about looking for patients that are already on IR oxycodone and reassessing them for OxyContin. Nothing else learned.
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/4/2014	Reviewed OxyContin and Butrans savings card with RPH, no new info learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/4/2014	Spoke to Glenn about Butrans prior authorizations and denials. I told him that the only way I can help him figure out situations of denials for Butrans is to be provided some sort of data to support this. I asked him if he would identify a plan or two that have been difficult for him with Butrans. Glenn said he would do that and I told him I want hard copies to give to our RAE to research.
PPLPMDL0020000001	Akron	OH	44305	3/4/2014	I told dr that from my understanding when patients are taking more than two pills of an IR opioid per day they are considered to taking them around the clock. Dr said he agrees. I showed him the Scott profile for Butrans and said when he has an existing patient in on tramadol and they are taking it more than twice a day to switch them to Butrans. Dr said that every time he has a tramadol patient in he thinks of Butrans. I told him that's good to know. I showed him the Percocet to OxyContin conversions from the main visaid and asked him to also think OxyContin when a patient is taking Percocet around the clock. Dr said he's always trying to make his patients more efficient with their medicines.
PPLPMDL0020000001	University Hts	OH	44118	3/4/2014	Window call, Reminded of OxyContin Q12h along with savings cards for Butrans as well. In addition to those Tramadol failures requiring around the clock analgesia. Said Ok, will consider. Nothing new learned. Invited to Butrans program
PPLPMDL0020000001	Akron	OH	44305	3/4/2014	Met Nicole the pharmacist who is new and fresh out of school. Introduced Butrans for the first time hitting all new key selling messages. Discussed dosing, conversions, patient types and dosing. She said they had one 5mcg on the shelf. Discussed copay cards as well. Showed her the OxyContin conversions from main visaid and asked her what they are saying in school about OxyContin? She said they are not saying good things about all narcotics and saying the use is trying to be curbed and it's not just OxyContin. Showed her the conversions and discussed its the right medicine for the right patient.
PPLPMDL0020000001	Cleveland	OH	44127	3/4/2014	Reviewed OxyContin Q12h, flexible dosing strengths, Savings cards, said Ok but doesnt prescribe CII's, reminded of Butrans CII, for those Tramadol failures requiring around the clock analgesia, Said he will consider, has alot of Caresource/managed medical
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/4/2014	Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, said he hasnt used it yet, but will consider, Also reviewed OxyContin Q12h,
PPLPMDL0020000001	Cleveland	OH	44118	3/4/2014	Reviewed OxyContin Q12h and flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok, likes Q12h dosing along with 7 day transdermal delivery system, Reiterated that Butrans has the same abuse/misuse potential as other opioids.
PPLPMDL0020000001	Cleveland	OH	44114	3/5/2014	Reviewed Butrans for those Tramadol/Norco failures requiring around the clock analgesia,15mcg/hr dose, formulary-BWC. Said Ok will continue to remind Marshall,Bernie and Muenster. Also expressed. Invited to upcoming program
PPLPMDL0020000001	Cleveland	OH	44113	3/5/2014	Quick Butrans reminder, Patient info booklets along with Invite to upcoming March 20th program. Said she continues to find appropriate patients along with educating them about Butrans.
PPLPMDL0020000001	Cleveland	OH	44113	3/5/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, also discussed multiple doses of IR products around the clock, Said she will continue to find appropriate patients, says she use patient info booklets to help educate and set expectation of subsequent visits/invited to upcoming program
PPLPMDL0020000001	Cleveland	OH	44114	3/5/2014	Reviewed Butrans for those Tramadol/Norco failures requiring around the clock analgesia,15mcg/hr dose, formulary-BWC. Said Ok will continue to find appropriate patients. Invited to upcoming program
PPLPMDL0020000001	Akron	OH	44320	3/5/2014	Discussed with dr using the lost effective dose. Dr said she agrees with it. Discussed escalating doses of short acting opioids and using them for patients with around the clock pain. Dr said that she agrees its not a good approach and that sometimes she doesn't feel like getting into an argument with her patients about use of ER opioids vs IR opioids. I asked dr if she just tells patients what she is going to give them for pain instead of the patient deciding how to Medicare for pain by giving such a wide dosing range on a prn basis? Dr said shed like to do that more but patients leave the practice when they don't get what they want. I asked her if that's bad and she said sometimes yes because that's revenue. Discussed how she can fit in products like Butrans and OxyContin.
PPLPMDL0020000001	Lakewood	OH	44107	3/5/2014	I asked if she was still stocking my products she said yes. I reviewed she saw. Ole use of oxycontin's d asked if she knew about the reformulation, she said yes. I asked her how much he thought that was important, and she said extremely.
PPLPMDL0020000001	Akron	OH	44320	3/5/2014	Spoke to dr along with dr Adams about using the lowest therapeutic dose. Dr said she wants to but that's not what the patients want. I asked her how she thinks the patients got to that point? Dr said because they always want more. I told her that someone is giving them more though and that has to come to a point where if a patient is taking an IR opioid around the clock they should be moved to an ER opioid or referred. Dr said that's when they refer. I told her she may not have to refer as much if they initiate ER opioids sooner. Dr agreed and said they try not to do that. Discussed where Butrans and OxyContin fit into that philosophy with patient profile use.
PPLPMDL0020000001	Cleveland	OH	44109	3/5/2014	Visited PMR Dept. invited (Harris,NP's to upcoming program, Left Butrans/OxyContin info
PPLPMDL0020000001	Westlake	OH	44145	3/5/2014	Spoke about changes to opioids Nd she said there were none set in place. I asked her how I can see the dr outside a lunch and she said his schedule changes so much they could barely keep track of where he is. Reviewed Butrans dosing and patch placement along with managed care.

PPLPMDL0020000001	Lakewood	OH	44107	3/5/2014	Invited to march 20th Butrans program, dr said he was t sure he could come. I said extended release opioids are big in discussion....and asked if I could answer why I'm here today. Dr said to sell more opioids. I said no. To suggest a reduction of atc short acting opioids for the extended release consideration, Such as OxyContin for those appropriate. Dr didn't have much to say and walk away to see a patient. It was a window call.
	Akron	OH	44333	3/5/2014	Good discussion over lunch about finding the lowest therapeutic dose. Discussed escalating doses of IR opioid to treat around the clock pain. Elise said most patients that come to their practice come on moderate to high doses of vicoden. Elise said it would be nice if FP and IM would do more to evaluate the patients pain but understands it may be out of their scope. Elise said Butrans has been a product great for more moderate pain patients who may not be surgical candidates. Discussed appropriate parts for both Butrans and OxyContin. Elise said there may be cases where OxyContin would be prescribed after NSAIDs. She said that OxyContin is a great product for patients in severe pain who need an ER opioid. Reviewed profiles for each product and discussed titrations for each.
PPLPMDL0020000001	Akron	OH	44333	3/5/2014	Good appointment over lunch. Discussed Butrans and OxyContin and where each one fits in his practice. Dr said his nit he for Butrans is for older adults who have chronic pain like spinal stenosis or arthritis. Dr said that patient type likes that they can put it on and not change it for a week. Dr said he has many others younger than 65 on it in which it works well but the older population loves it. Discussed use in older populations from visaid. Discussed OxyContin use, doses, patient profiles, titration and need for supplemental analgesia. Dr said many of his patients need breakthrough medicine. I asked him if he has titrated the dose instead? Dr said yes but it doesn't always do the trick. Discussed how patient type selection impacts that finding and what dose patients are started on based on pain intensity.
PPLPMDL0020000001	Akron	OH	44313	3/5/2014	Caught dr in between appointments and asked him when the last time he write a new prescription go OxyContin? Dr said he writes the a lot. I asked new prescriptions or refills? Dr r said both. I asked if he could tell me when he writes a new OxyContin who he's writing it for? Dr said usually for a patient that is taking Percocet and doesn't have an issue paying for it. I told him that's good to know. I asked to think of OxyContin for that 20mg a day Percocet patient who you know has pain around the clock. Dr said ok. Reminded him to use Butrans more often of those failing on tramadol or vicoden.
	Westlake	OH	44145	3/5/2014	Spoke to the ma (I can't spell her name) - I said its common practice to try and write the lowest effect dose of most pharmaceuticals right? She said right. I said would u ever really write the highest dose to start? She said no. I said then answer me this...if opioids have such abuse potential....what is the clinical benefit of writing a short acting product several times a day given 1 to 2 a day? She said she didn't know. I reminded her that my goal was not to increase his opioid volume but to rethink the delivery system for those approaches for an extended release product like Butrans or OxyContin. She said she would tell the dr what I said.
PPLPMDL0020000001	Lakewood	OH	44107	3/5/2014	Invited to Butrans program which he is not certain he can attend. I told him I was aware of his worries and hesitations regarding writing opioids and OxyContin. I reminded him that next week at our lunch we would talk about the myths and the facts of OxyContin along with my thoughts about choosing products with the lowest effective dose and concentrating On The safety aspect of selecting products. Dr said he was looking forward to it.
	Akron	OH	44303	3/5/2014	Told Rod about what I'm talking to physicians about recently and told him I thought I would be important to let the pharmacists know in the area. Discussed speaking to drs about using the lowest therapeutic dose, drs continuing to treat around the clock pain with IR opioids, drs saying its easier to just write refills. Rod said it sounds like a discussion that needs to be had with doctors because he agrees that too many patients are left on IR opioids which tends to cause more abuse problems. Discussed Butrans and OxyContin and where they fit in by heading the escalating doses of IR opioids off at the pass by prescribing ER opioids sooner and recognizing chronic pain.<font color=blue><b>CHUDAKOB's query on 03/18/2014</b></font>Cliff, when he said that IR opioids cause abuse problems, it is incumbent upon us to let him know that so do extended-release opioids like Butrans and OxyContin, even if he knows it. If you did do that, then it can be in your call notes. This is the fair balance of the presentation. Does this make sense?<font color=green><b>REICHL's response on 03/20/2014</b></font>Agreed. I'm confident I discussed that with him. Did not note it.<font color=blue><b>CHUDAKOB added notes on 03/21/2014</b></font>OK. I believe you did. Please make sure to note it as well. Invited him to Mondays lunch. I set it up with talking about the 2014 opioid myths about OxyContin any concerns that he will have....and that I have the medical affairs number on speed dial. I reminded him that he has yet to fully understand the value Butrans could potentially bring to a patient and urged his participation. He said he will see.
PPLPMDL0020000001	Lakewood	OH	44107	3/5/2014	I asked dr when the last time was he prescribed a new OxyContin prescription? Dr said he wasn't sure but does write it. I asked him when is he typically writing it and for what type of patient? Dr said his patients on OxyContin were on too high of doses of short acting so he converted them. I told dr that he can write OxyContin as low as 10mg q12 and that would be for a patient either who is opioid naive to a patient taking 20mg of Percocet. Dr said ok. I asked him to write more OxyContin and then Butrans for those who are failing tramadol or vicoden.
PPLPMDL0020000001	Cleveland	OH	44102	3/5/2014	Discussed OxyContin Q12h along with flexible dosing strengths. Quick reminder on Butrans for those patients requiring around the clock analgesia. Asked for assistance on gaining access to Nancy NP-(Dr. Nouraldin). Invited to upcoming program
PPLPMDL0020000001	Barberton	OH	44203	3/6/2014	I asked the doctor is she was aware of the reformulation of OxyContin back in 2010. She said oh yes. I asked if there was any information I could provide her on the Percocet conversion to OxyContin, for appropriate patients she said no she knew. Left a study on Butrans for her to review the pain scores and the dosing.<font color=blue><b>CHUDAKOB's query on 03/18/2014</b></font>Lisa, I am guessing that the vast majority of the time, when we ask a physician if there is any information we can provide them, the answer will be no. I think your next call objective is a good start. What insight will you use? How will you engage her in conversation after the insight. Try to be a little more specific on the next call objective. It will pay off.<font color=green><b>BARTOLI's response on 03/20/2014</b></font>I would use the primary care insight next time. I did back off because of her body language and eye glare at this visit.<font color=blue><b>CHUDAKOB closed the query on 03/21/2014</b></font>
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/6/2014	Spoke to Kyle the pharmacist about Butrans and OxyContin. I asked him how familiar he is with Butrans and showed him the initiation and titration guide? Kyle said he knows about it but they haven't filled it in along while. Kyle said he didn't know it was a schedule 3 and asked if I have spoke with falls family doctors because they would jump on it. I told him I do meet with them about Butrans. Explained the dosing, conversions and titration along with appropriate patient types. He has none on the shelf and said he would speak with the staff about it and wanted the slide conversion guide. Discussed OxyContin dosing, appropriate use, titration and how much he dispenses. Kylie said he dispenses some but not a lot.
PPLPMDL0020000001	Barberton	OH	44203	3/6/2014	Susan the ma said that there were no lunches and the dr won't see me. I've been leaving literature. I discussed the product am scheduling and the goal of identify current patients on short acting opioids of converting g them to a different delivery system if appropriate. Susan said she would pass the information to the dr but I could t see him.
PPLPMDL0020000001	Uniontown	OH	44685	3/6/2014	Discussion in hallway of green office. I asked dr if he has been finding new opportunities for OxyContin 10mg of those patients on lower doses of Percocet? Dr said he is trying all the time. I told him that the dosing flexibility allows him to make the dosing as specific. To the patient as possible. Told him that the same hold true with Butrans and that the 4 doses allows him to also make the dosing adjustments necessary to each patient.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/6/2014	Dr just returned from 2 weeks out of office, behind, next week better to talk. Met with Ebony (med assjat front window. Discussed indications, dosing, scheduling for OxyContin & Butrans. Discussed trial, savings cards. Left protect your practice tri fold & 4/30 invite for Dr Roda & Patricia Moran as well.
PPLPMDL0020000001	Stow	OH	44224	3/6/2014	Spoke to Sandra about the goal of an hcp to use e lowest effective dose. Sandra greed and stated the new office policy about moving patients down on their total daily dose of opioids. I talked about when the realization is to initiate an ER opioid like Butrans or OxyContin. I spoke to her about the right medicine for the right patient at the right time. Discussed when and patient types for buy tarns and OxyContin. Sandra said she agrees and said she will see the need for more Butrans because of what they are doing with their patients. Sandra said that she will use Butrans once patients are down to 3 or 4 pills and have been proven to still be in pain every day. Discussed dosing and asked for her to also use the patient information guides.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/6/2014	Quick window call reminded her of last conversation where she agreed to consider Butrans after migraine meds, Botox, and before Vicodin or Percocet. Discussed 4/30 program. OxyContin after prn oxycodone & Percocet.
PPLPMDL0020000001	Stow	OH	44224	3/6/2014	Short conversation about using the lowest therapeutic dose. Laura said that the practice is taking the stance now where they have a policy about opioid amounts and total morphine equivalent per day. Laura said they are trying to weine all patients down on their total opioid amount per day and that she thinks Butrans use is going to pick up. I asked why and she said because Butrans is first a week long patch, dosing is somewhat low, and its a schedule 3. Laura said she really likes it and is going to try and use more going forward.
PPLPMDL0020000001	Stow	OH	44224	3/6/2014	Spoke with dr Holmes along with dr bailey. Asked the question about lowest therapeutic dose. Dr said she agrees and will usually use the comments from the patient, level of pain intensity of the patient, and radiographic evidence to determine what the course of action will be. I spoke about how many patients continue to go through escalating doses of IR opioids to treat around the clock pain and asked her why that is? Dr said dr bailey that the hope is that they won't use the high range of the IR opioid prn use and said if they do she will make the decision to start an ER opioid like OxyContin or Butrans. I discussed the options of OxyContin and Butrans by talking about patient specific use and proper initiation and titration.
PPLPMDL0020000001	Uniontown	OH	44685	3/6/2014	Re-introduction to dr from the time she was with the spine and pain institute. Dr said she still has the Butrans information I gave her at the old office. Dr asked about conversions from vicoden. Reviewed conversion scale from main visaid and used the Kathy profile to discuss patient specific utilization. Dr said ok and we will talk more in an appointment. Told her I have OxyContin as well and would like to discuss that as well. Gave her a conversion and titration guide.
PPLPMDL0020000001	Stow	OH	44224	3/6/2014	Spoke with dr bailey and holder at the same time. Led with asking with no matter what disease state they are writing for is it the goal to write the lowest therapeutic dose? Dr bailey said it is. I asked him when a IR opioid is written what it looks like? Dr said usually the lowest he can write which is 1-2 pills a day prn. I asked if he has patients taking more than that per days. Dr said he does but said that the hope is that patients pain isn't chronic. I asked how he determines when. A patient is chronic. Dr said all patients are different and sometimes radiographic evidence doesn't always correlate with a patients pain. I asked why patients are being treated with IR opioids for around the clock pain? Dr said again is that the hope is that its not chronic. Dr said there are some that take 3 or more pills every day. I told dr that's when he needs to use products like Butrans or OxyContin and showed him the dosing guides. Dr said he knows and will keep them in mind.
PPLPMDL0020000001	Uniontown	OH	44685	3/6/2014	Spoke with Abby and new physician Marisa Wynne in their office in green. Short discussion with both about Butrans and OxyContin. I asked Abby that she is now in a practice that prescribes OxyContin and has good success with it what her thoughts are on it? Abby said that she's not sure yet and because it's been so long that she needs a refresher which she has had from the other providers in the office already. She asked if I was coming in for a lunch to talk more and I told her it do soon. Reminded her to continue prescribing Butrans for those failing IR opioids especially those on tramadol and low dose vicoden. Abby said she will continue to prescribe.
PPLPMDL0020000001	Cleveland	OH	44103	3/6/2014	Reviewed OxyContin Q12h, along with Butrans for those Tramadol failures requiring around the clock analgesia. Reiterated her position along with the Chief Medical Dir. Referring most patients to Pain mgmt. Invited to upcoming program
PPLPMDL0020000001	Barberton	OH	44203	3/6/2014	Dr mentioned he heard hydrocodone was going schedule 2. I asked him how he felt about schedule 2 product opioids vs. schedule 3 and he said he felt schedule 2 products are harder to deal with cause of step edits with insurance companies. I reviewed OxyContin and the managed care. And the review of Butrans. Discussed the patient on short acting products. And asked if he had 2 patients that were on them dosed several times a day and he said a few. I asked the clinical be it of dosing that way vs. an extended release delivery system like OxyContin? He said the name was his hurdle.
PPLPMDL0020000001	Stow	OH	44224	3/6/2014	Good conversation about the state of Summit Pain. Dr told me that they hire a new CEO and business manager, their patients are steady and seeing more referrals. Dr talked about how the new philosophy is to reduce the total opioid amounts for every patient and weine opioids down for those on high doses. I spoke to him about how Butrans would fit perfectly into that new philosophy. Spoke about Butrans down, indication, patient types and starting it sooner than later in the algorithm for treating pain.
PPLPMDL0020000001	Cleveland	OH	44195	3/6/2014	Discussed OxyContin Q12h, Savings Cards along with Butrans for those patients requiring around the clock analgesia. Said he will consider along with discussing with Fellows (Travineek etc)
PPLPMDL0020000001	Akron	OH	44312	3/6/2014	Discussion in back hallway about Butrans. Dr said at he has tried it a couple of times since we last spoke and had some insurance issues and patients didn't start it. I asked if he or someone in the office knew the plans? Dr said he can't remember by audit was mid month of Feb. I asked dr to continue to find candidates and reviewed Scott profile and conversions. Dr said he will try to get plan info for me on my next visit. Dr also said its not going to stop him from trying it in his practice. Told dr not to forget about those patients needing a dose adjustment on Percocet that are in pain around the clock. Dr said it makes sense and will continue to help those in
PPLPMDL0020000001					

	Barberton	OH	44203	3/6/2014	Set up the objective for why I was in the office today with the extended release insight. I asked him if he was me, wouldn't you select some primary care offices to consult. He said probably so. I brought up something he said last time, he said he sees a great deal of patient in pain on Percocet and short acting products and that most of his extended release patients are in the nursing homes. And the goal today, was not for him to increase his volume of opioids. But in fact to be open to the possibility that some patient currently being treated with short acting products may be appropriate for a. Extended release delivery system. I asked him if this sounded fair and reasonable. He said yes. Dr said he has written Butrans in the nursing home, discussed the Initiation guide for Butrans and reviewed the morphine equivalent doses not appropriate for Butrans. Discussed the patient he thinks of for OxyContin and he said the older more severe. Then he said it was because when it first came out that's where it was positioned. We reviewed all the dosages and the 12.3 section comparing oxycodone half life to OxyContin. Dr said he never realized the half life, as I referred to OxyContin and a short acting product with an extended release delivery system. Dr agreed it made no logical sense to keep someone on Percocet if they are being dosed several times a day and he said he will change the. To OxyContin if appropriate. And agreed to look at Butrans after Tramadol for appropriate patients. <font color=blue><b>CHUDAKOB added notes on 03/18/2014</b></font>This looked like a really good call. I liked how you checked in with him. You also provided him with good clinical data. Keep selling him on what he agreed to. Don't veer off course. Nice call Lisa!
PPLPMDL0020000001	Akron	OH	44312	3/6/2014	Quick message in hallway about OxyContin and Butrans. I asked dr to please reassess his existing patients on Percocet for OxyContin? Dr said he is doing his best to keep the amount of opioids his patients are taking. I told dr that's good and OxyContin can help with that because its a fixed dose, single entity opioid with doses as low as 10mg q12. Dr said those are good points and he will try. I asked him to get back into Butrans. I told him that I don't want him to be missing opportunities for Butrans use in those that are stuck in tramadol or vicoden and still in pain around the clock. Dr said he will try.
PPLPMDL0020000001	Akron	OH	44312	3/6/2014	Failed to enter call on call date of 3/6/14. Discussed with dr the opioid experienced trial focusing on inclusion and exclusion criteria, age range of patients involved in study, clinical results and asked him if his results have been similar? Dr said they have. Dr said all his patients on it really like it and get good pain relief. I asked dr to focus on Butrans for his tramadol and vicoden failures or in-tolerability. Dr said he will. Discussed the option of OxyContin for his patients already on IR oxycodone. I told dr that I'm pretty sure he had those types of patients. Dr agreed and said its hard to get them to switch. I asked him to try.
PPLPMDL0020000001	Cleveland	OH	44113	3/7/2014	Visited Pain/Anes dept. Reviewed OxyContin/Butrans with Dr. Shen and Dale, Discussed appropriate patients and Savings Cards
PPLPMDL0020000001	Cleveland	OH	44195	3/7/2014	Quick OxyContin reminder , Q12h, flexible dosing strengths, savings card along with Butrans for those patients requiring around the clock analgesia. Invited to Butrans program . Said she will consider and continue to find appropriate patients
PPLPMDL0020000001	Cleveland	OH	44195	3/7/2014	Intro. Discussed OxyContin Q12h, 7 tablet strengths, patients taking IR products around the clock, Dr.said he will continue to prescribe for appropriate patients. We also reviewed Butrans for those patients requiring around the clock analgesia, He along with Mel Davis MD are proponents of Butrans, does prescribe on the floors and will continue to explore new patient starts, Reviewed Butrans and OxyContin Savings card programs
PPLPMDL0020000001	Cleveland	OH	44113	3/7/2014	Reviewed OxyContin Q12h, flexible dosing. Discussed IR products utilized around the clock along with Butrans for those patients requiring around the clock that are not adequately controlled on present therapy. Said he will consider to prescribe and influence appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	3/7/2014	Reviewed OxyContin Q12h, flexible dosing. Discussed IR products utilization around the clock, agreed, said it was a PC problem. Also, reviewed Butrans for those patients requiring around the clock that are not adequately controlled on present therapy. Said she will consider for appropriate patients<font color=blue><b>CHUDAKOB's query on 03/17/2014</b></font>-Mark, what is a PC problem?<font color=green><b>GUTKOMA's response on 03/17/2014</b></font>-Primary Care Physicians are responsible for the IR around the clock prescribing habit.<font color=blue><b>CHUDAKOB added notes on 03/18/2014</b></font>-Please write out everything. This way there is no confusion with anyone reading the notes. Thanks Mark!
PPLPMDL0020000001	CLEVELAND	OH	44195	3/7/2014	Reviewed w/Troy OxyContin/Butrans Savings card info along with utilization, no new info learned
PPLPMDL0020000001	Cleveland	OH	44113	3/7/2014	Reviewed with Justin Rph OxyContin/Butrans patient types asked for referrals, invited to upcoming Butrans program. No new info learned
PPLPMDL0020000001	Akron	OH	44312	3/7/2014	I asked dr if he has patients taking IR opioids for pain who may be of Medicare age who may have hepatic or renal impairment which may limit you in your treatment of their pain? Dr said he does have a few that he has to be careful with and asked why? I told him about the use of Butrans in special populations and discussed renal and hepatic impairment. Dr said that's good to know and will help him find more people. I asked him to please continue thinking of Butrans for those on NSAIDs or tramadol who need a dose adjustment. Dr said ok. I handed him the OxyContin conversion guide and told him to start it in patients already taking Percocet.
PPLPMDL0020000001	Cleveland	OH	44195	3/7/2014	Visited Onc/Dept met with Goforth, Faïman, Bassan, Reviewed OxyContin and Butrans Initiation/Titration guides, Savings Cards along with upcoming program invite
PPLPMDL0020000001	Akron	OH	44319	3/7/2014	Dr came to window and asked if I'm there to remind him about Butrans? I said yes but I'm there to talk to him about OxyContin. Dr said he just refilled a few this week and had one new start. I told him that's great and asked him what the patient was on prior to starting? Dr said it was a patient who was taking up to three Percocet a day and needed more. Dr said he stated on 10mg because its an older patient. I reminded dr that he can titrate every one to 2 days and the next dose up would be the 15mg. Dr said thanks. Gave him a conversion guide and then reminded him to start a patient on Butrans who needs an adjustment on tramadol. Dr said that's where he will probably use it first. Dr asked about vicoden conversions. I showed him the conversion guide and explained it. I asked for business and he said he will write it sooner than later.
PPLPMDL0020000001	Akron	OH	44305	3/7/2014	Good conversation about OxyContin and Butrans. I asked dr to explain to me the difference between a patient he will write Percocet for vs one for OxyContin? Dr said he will write Percocet for a patient who has acute pain. I asked dr to give me an example in his practice and he said for patient who has just presented with lung cancer who is in severe pain. Dr said he will write Percocet up to 2 pills a day. I asked when the switch to OxyContin happens? Dr said once the patient needs more than two pills he will write OxyContin. Dr said sometimes the nurses from the hospital will call him and say that the patient needs more Percocet. Dr said he always has to educate the nurses about OxyContin and Percocet and will always write OxyContin for those patients in the hospital. I showed dr the conversions and asked him to continue to reassess his Percocet patients for OxyContin. Dr said ok. Quick detail on Butrans and asked him if he writes fentanyl? Dr said he does and patches work for some patients who can't tolerate oral narcotics. I explained the patch and dosing schedule with conversions and titrations along with the vicoden profile. Dr said he will keep it in mind for more moderate pain.
PPLPMDL0020000001	Akron	OH	44307	3/7/2014	Spoke with Eric about OxyContin and Butrans. Spoke to him about how too many patients are not being switched to ER opioids at the point where a patient is experiencing pain around the clock. Eric said he totally agrees and that he sees it all the time in the pharmacy where the same patients continue to increase doses of vicoden and Percocet. I asked if they see most of their padri options from FP and IM? H said for sure but they get their fair share of pain specialists that do it to. I discussed OxyContin patient specific candidates and fixed dose single entity ER oxycodone. Discussed Butrans indication, doses and conversions. Eric said they see a lot of Medicaid and they don't usually use the copay cards because patients don't qualify.
PPLPMDL0020000001	Akron	OH	44307	3/7/2014	Spoke with Eric about OxyContin and Butrans. Spoke to him about how too many patients are not being switched to ER opioids at the point where a patient is experiencing pain around the clock. Eric said he totally agrees and that he sees it all the time in the pharmacy where the same patients continue to increase doses of vicoden and Percocet. I asked if they see most of their padri options from FP and IM? H said for sure but they get their fair share of pain specialists that do it to. I discussed OxyContin patient specific candidates and fixed dose single entity ER oxycodone. Discussed Butrans indication, doses and conversions. Eric said they see a lot of Medicaid and they don't usually use the copay cards because patients don't qualify.
PPLPMDL0020000001	Uniontown	OH	44685	3/7/2014	Saw heather along with dr Orgel. I asked her if she thought OxyContin would be a product she would find useful in her practice? Heather said it will not be part of her prescribing. I asked if Butrans seems like it would be an option for her patients failing tramadol or vicoden? Heather said possibly. I gave her an initiation and titration guide and asked her to just try it. Heather said ok.
PPLPMDL0020000001	Cleveland	OH	44195	3/7/2014	MSL email communication with Dr. Dell to provide responses to questions regarding BUP3031 protocol and potential surgical population. Dr. Dell continues to work with pediatric surgeons and orthopedic surgeons to assess interest in BUP3031.
PPLPMDL0020000001	Cleveland	OH	44195	3/7/2014	Quick call in hallway, Reviewed OxyContin Q12h along with Butrans- 7 Day transdermal for those patients requiring around the clock analgesia. Said he will consider and to book appt. with admin. Pat
PPLPMDL0020000001	Akron	OH	44312	3/7/2014	Short conversation as dr was packing up to leave for the day. I asked her if she had seen back her last patient started on Butrans from vicoden for a follow up? Dr said she just saw the patient yesterday and is liking Butrans. Dr said the patient is getting good pain relief and wants to continue it. I told her that's great to hear and asked her to build on that success for even more candidates. Reminded her to use OxyContin for those patients of hers who she has refilled Percocet for more than 2 times. Dr said she probably won't do that because she doesn't want to commit to long term pain. I asked her how different it is by treating the same pain every 4 or 6 hours? Dr said we can discuss next time.
PPLPMDL0020000001	Uniontown	OH	44685	3/7/2014	Signing up for lunch and dr and saw dr walking by. Stopped dr and told him if he would reassess his patients on Percocet for OxyContin? Dr said he is trying. I reminded him that OxyContin is a fixed dose, single entity ER opioid with 7 doses. Dr said ok. Told him to not forget about Butrans for those patients needing a dose adjustment on tramadol.
PPLPMDL0020000001	Cleveland	OH	44195	3/7/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring the clock analgesia. Said she will consider, invited to upcoming Butrans program
PPLPMDL0020000001	Uniontown	OH	44685	3/7/2014	I asked dr why he isn't seeing reps anymore unless they have a new product? Dr said he's been too busy to do it. I asked him if a lunch is even out of the question for Butrans? Dr said he hasn't been even doing lunches but said if I want to come in for a lunch I can. I told dr I appreciate it and until then to get some more Butrans use for those needing an adjustment on tramadol. Dr said ok. I handed him the OxyContin conversion guide and told him I know he doesn't write schedule 2 medicines but it may be suitable for him to write it in a patient who already are on Percocet. Dr said he probably won't but ok.
PPLPMDL0020000001	Westlake	OH	44145	3/10/2014	Spoke to Kathy and Rosie the rn regarding Butrans and patch placement and managed for both products.
PPLPMDL0020000001	Brooklyn	OH	44144	3/10/2014	Reviewed OxyContin Q12h, 7 tablet strengths, Savings Card. Discussed Q4-6h IR dosing schedule, Said he agrees and will consider for appropriate patients that can afford option. Reminded of Butrans for those Tramadol failures requiring around the clock analgesia, Will consider for appropriate patients that can access Butrans, Overall feels patients are adequately controlled. Invited to program
PPLPMDL0020000001	Lakewood	OH	44107	3/10/2014	Discussed reviewing current opioid patients and reevaluating those that may be appropriate for an extended release delivery system. Dr said yes when I asked if it was his goal to treat patients with the lowest most effective dose. Dr agree. Discussed when Patient comes in on a short acting opioid or Tramadol on 2 not controlled and wanting another dose...I asked if he could pause and reassess if the patient would be appropriate for Butrans or OxyContin. Dr said he was trying not to write OxyContin. When asked why he stated "they" don't want patient treated with chronic pain meds. When clarified who, he said the ccf main office. Dr said he was interested in Butrans and asked a few times it was schedule 3. Discussed Initiation. dr said most of his patients were under 300 mg, reviewed the 5mcg of Butrans. Also touched on steady state and managed care for both products. Reviewed the Percocet patient not controlled, discussed appropriate patient type for OxyContin. And reviewed indication for both Butrans and OxyContin.
PPLPMDL0020000001	Brooklyn	OH	44144	3/10/2014	Reviewed OxyContin Q12h, 7 tablet strengths, discussed q4-6h IR protocol , Dr.said he will consider for appropriate patients, Reminded of Butans for those patients failing on Tramadol requiring around the clock analgesia, Savings Cards and formulary status. Invited to program
PPLPMDL0020000001	Cleveland	OH	44195	3/10/2014	MSL email communication with Dr. Dell to inquire about BUP3031 and to request contact information for adult clinical trials.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/10/2014	Quick window. Introduction. Discussed Butrans after prn Tramadol, OxyContin after prn oxycodone, Percocet. Left 4/30 Butrans invite, 8x11 FPI, Dosing slider. Left OxyContin reformulation folder. ( no breakfasts, lunches yet, only there 30 days) savings cards both products, PAP orange web key,
PPLPMDL0020000001	Akron	OH	44319	3/10/2014	Walked in to discuss the OxyContin copay card specifics along with staff and dr came to window. I showed him the conversions from Percocet to OxyContin and said that we have discussed in the past about using more of the low doses of OxyContin and if he could start more patients from 20mg Percocet a day to OxyContin 10mg? Dr said he agrees he needs to do that more. Told him that patient specificity for Butrans is also important and explained the Kathy profile. Dr said he's going to do it and he just needs to find the right patient. I told him to look over the Kathy profile because he probably has someone like her to start Butrans on. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44109	3/10/2014	Discussed w/tech OxyContin/Butrans Savings Card info, Invited Pharm D to Butrans program. No new info learned
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/10/2014	Met with new MA Theresa. Discussed OxyContin indications, dosing, opioid naive dose. Discussed Butrans indication, strengths, opioid naive dose. Left new 7-day marketing piece for dr Roxana. Left OARRS flashcard, protect your practice brochure. Left 3/20 invite Butrans. Left one Butrans patient guide. (Note: can schedule lunch after May 1, with office mgr Mary, for just their side).
PPLPMDL0020000001	Lyndhurst	OH	44124	3/10/2014	Quick window. Butrans as first opioid or after prn Tramadol, OxyContin after prn oxycodone or Percocet discussed.

	Akron	OH	44319	3/10/2014	I told dr that with any product he prescribes for all the disease stats he has to treat as a family doctor, I'm guessing that he has to prescribe the right medicine for he right patient. Dr agreed. I told dr that with OxyContin and Butrans is very much the case. I told dr to put it simply, OxyContin is a product that should be prescribed when an existing patient of his who needs more Percocet and has pain around the clock. I should him the conversions from the main visaid and asked him if he can do that the next time he's in that situation? Dr said its not that easy because patients would rather take 4 pills a day than 2. Dr said its a big psychological barrier to overcome with patients and it takes time. I agreed its going to take time but told him its a perfect opportunity to adopt change for a patient that needs more Percocet a day to discuss the option of OxyContin. Dr said ok. I showed him the Kathy profile for Butrans and told him that he can't continue to miss opportunities for patients taking hydrocodone around the clock to start Butrans. I explained the conversions and asked him what the downside is to using Butrans in patients like Kathy? Dr said he doesn't know. Dr said he will try.
PPLPMDL0020000001	Cleveland	OH	44109	3/10/2014	Visited Ctr. Left OxyContin/Butrans Initiation/Titration/Kathy profile along with invite to upcoming Butrans Program.(Campbell,Dziwiz,Dhillon,Slattery,Ng,Zabak,Fox, Geho, Gemechu)
PPLPMDL0020000001	Cleveland	OH	44109	3/10/2014	Dr.Reviewed OxyContin/Butrans PI and Initiation/Titration info. Said she is referring patients to PM, will consider if appropriate. No further contact requested
	Akron	OH	44319	3/10/2014	Spoke with the pharmacy technician Elise. She was receiving new medicines and didn't have time to talk much. She said that she knows of Butrans and looked into the system and said she didn't have any filled in the last 6 months. I have her the Kathy profile and just explained the hydrocodone combo candidate. Reviewed OxyContin dosing, conversions and showed her the conversion and titration guide. Elise said she fills it and the 40 mg if most commonly filled.
PPLPMDL0020000001	Highland Heights	OH	44143	3/10/2014	Lunch. Discussed titration & maintenance of therapy on pages 20&21 of core visual aid, discussed hepatic & renal impaired data. Dr appreciated information. Reminded him how to write, 4 strengths including 15 mcg hr, and what plans to write for. Discussed section 8.5 geriatric data. Dr states he would write Butrans more in med d over age 65 but Butrans challenging to find Med D plan that covers. Told him to focus on Caremark. We also discussed BWC & managed Medicaid. Dr also stated, doesn't it take 3 days for Butrans to work? I responded with steady state information, discussed use of non opioids & shirt acting opioids when initiating Butrans as per clinical trial data. Dr asked how long it takes for Butrans to get out of patients blood once Butrans is removed, followed up with answer from FPI. , Caresource PA. OxyContin, discussed starting, opioid naive dose. Geriatric patients studied. 7 strengths, lowest effective dose, side effect profile.<font color=blue><b>CHUDAKOB's query on 03/27/2014</b></font>Jenny, what specific information did you follow-up with him in the FPI when he said"Dr asked how long it takes for Butrans to get out of patients blood once Butrans is removed, followed up with answer from FPI."<font color=green><b>BALLUE's response on 03/28/2014</b></font>Section 12.3 Pharmacokinetics: ...after removal of Butrans, mean buprenorphine concentrations decrease approx 50% within 10-24 hrs, followed by decline with apparent half-left of approx 26 hrs.<font color=blue><b>CHUDAKOB added notes on 04/03/2014</b></font><b>Great. Nice work! Thank you!
PPLPMDL0020000001	Akron	OH	44333	3/10/2014	Asked Wendy to see if I could speak to the doctor for a quick second since he has decided not to do lunches anymore. Wendy said she can ask him but that I need to make it quick because he behind. Dr came to front counter. I gave him the OxyContin conversion and titration guide opened to the Percocet to OxyContin conversions. I asked him with Percocet what he considers as pain around the clock? Dr said it depends. I asked what it depends on? Dr said its usually around 2 or 3 pills a day. I asked him what he does when a patient reaches more than 2-3 pills a day? Dr said he tries to use a long acting opioid and said he likes Butrans. I told him I'm talking about OxyContin for his existing Percocet patients taking 3 or more a day and to convert them to OxyContin especially the patients failing Percocet or have a tolerability issue. Dr said ok. Told him he should have plenty of Butrans patient cards. Dr said to leave OxyContin cards.
PPLPMDL0020000001	Westlake	OH	44145	3/10/2014	No Dr was walking out to head to hospital. Asked if she wanted a posted of the spine and she said yes. I asked her if she was he's sister writing Butrans again since her last experience. She told me , she now sees the patients for the doctor at the hospital and writes under him or follows his direction what to write. We discussed the Tramadol failure patient and the potential appropriate use of Butrans. Reviewed starting dose.
PPLPMDL0020000001	Mayfield Village	OH	44040	3/10/2014	Met w tech Patricia first, female pharmacist floater in. Discussed RX patrol resources & left how to protect your pharmacy trifold brochure. Butrans, discussed scheduling, strengths, indication & patient guide. Left 1 Butrans guide & Discussed educational aspects of guide. Pharmacist asked if I could leave just a few savings cards; I responded we are not able to "break" packs of 5. OxyContin, they have a recent 10 mg prescription. Discussed OxyContin scheduling, recommended q 12 h dosing, 7 strengths.
PPLPMDL0020000001	Waterford	OH	45786	3/10/2014	I-Butrans dosing, clinical trials, administration, limitations of use and managed-care. OxyContin start principles and patient vignette.W-said that she has patients that Butrans would be appropriate for who are on Tramadol and not controlled. Said that she has had concerns of Butrans due to cost.
PPLPMDL0020000001	Akron	OH	44313	3/10/2014	I asked dr if it makes sense to him that if a patient has complained of pain around the clock for 3 or more months and taking short acting opioids for analgesia that I change probably needs to be made? Dr said usually it does. I asked him if it also makes sense that if a patient has been on Percocet for 3+ months and still in pain to give the patient the q12 h oxycodone? Dr said it seems simple enough. I asked dr to do it more often and to reassess those Percocet patients. Reminded him that Butrans continues to be a product suitable for patients failing tramadol or vicoden and its a schedule 3. Dr said he will try to find more patients.
PPLPMDL0020000001	Westlake	OH	44145	3/10/2014	Discussed managed care concerns that the doctor brought up from last time. Reviewed plans. Focused on caresource patients and the prior authorization, also covered commercial plans. Dr said he would write more Butrans if the managed would be affordable. Reviewed savings plans. Also discussed oxycodone short acting patient who is taking it atc to think about OxyContin if appropriate.
PPLPMDL0020000001	Brooklyn	OH	44144	3/10/2014	Quick Butrans review for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, Said OK will consider, Invited to upcoming program
PPLPMDL0020000001	Brooklyn	OH	44144	3/10/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h. Dr. Reiterated that she along with her colleagues at this location are not prescribing pain meds. Jackie/Kendra said they will keep info and contact if practice policy changes
PPLPMDL0020000001	Lakewood	OH	44107	3/10/2014	Reviewed with nurses the scheduling of both products and managed care coupons. Discussed patch placement, how to discard, initiation of Butrans from a hydrocodone or Tramadol product to Butrans. Nurse asked if they were out of a short acting product would caresource patient allow a few short acting pills along with Butrans until steady state is reached. I didn't have e answer. Nurses said the doctor was trying to decrease his schedule 2 products for chronic.
PPLPMDL0020000001	Akron	OH	44304	3/10/2014	Saw dr at counter where he discharges patients and asked him if he feels its appropriate to convert a patient on Percocet around the clock and still in pain to OxyContin? Dr said yes it does. Dr said he's told me before that he really doesn't like writing OxyContin because he's not a pain management specialist. I told him I understand but said I'm just asking why he might treat pain around the clock with a q4 or q6 product like Percocet? Dr said he sees my point and has been trying to evaluate those patients. I told him that's all I'm asking. Reviewed Butrans again as a product he can use for his patients failing tramadol with a 7 day schedule 3 transdermal system.
PPLPMDL0020000001	University Heights	OH	44121	3/10/2014	Found out from staff dr can no longer write CII meds or CII meds. He does write CIV meds and insists Tramadol, in state of Ohio, is schedule CIV. Discussed OxyContin indication, q 12 h dosing, lowest effective dose, initiating/ maintenance of therapy for cancer patients, dr says I no longer write OxyContin. Then reminded him of the many times we've discussed Butrans, 1 x week transdermal option. CII can be called in with refills. Consider as first opioid or after patient fails on prn Tramadol. He will most likely not write he says.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/10/2014	(Meg with office mgr front window. Confirmed dr reed will be in @ my next FRI lunch. Show up by 11:45; as Karen Steffey leaves at 12 n that day) discussed OxyContin q12 h, start dose 10 mg, also opioid naive dose. Butrans, as first opioid ( start 5 mcg hr) or after prn Tramadol, start 10 mcg hr.
PPLPMDL0020000001	Cleveland	OH	44103	3/10/2014	Reminded of OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia,Senokot 5 request Said Ok, no new info learned
PPLPMDL0020000001	Richmond Hts	OH	44143	3/10/2014	Discussed OxyContin, indication, opioid naive /start dose of 10 mg, 7 strengths, lowest effective dose. Dr says he's not a fan of long acting opioids. He doesn't want responsibility of writing. Let him know I have resources available regarding more responsible prescribing of opioids that I will leave him. Reminded him of our previous discussions regarding Butrans. Suggested he give Butrans more thought after patients fail on prn Tramadol. He will consider, asked me to place packet on his desk. Left Butrans dosing slider, invite for 3/20 program,
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/10/2014	Courtesy call, as I came in to speak with dr Roxana. Discussed OxyContin as q 12 h dosed option for pain, dr quickly responded, I don't write that, and I don't write long actings. Presented Butrans as option, in 1 x week transdermal system. I have a few patients on the patch ( George is confusing Butrans with Fentanyl) asked him to read over my information, so we can discuss further next time. Left Butrans 8x11 FPI, new 7 days marketing
PPLPMDL0020000001	Waterford	OH	45786	3/10/2014	I- Butrans dosing, limitations of use, boxed warning, administration, managed-care and co-pay cards. OxyContin start principles.W-said that managed-care has always limited his use of OxyContin and Butrans. He said that the co-pay cards would be helpful.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/11/2014	Discussed Butrans clinical trials explaining all parts of study and focusing on patient types appropriate for Butrans. Reviewed Scott and Kathy and asked dr about any recent experience with Butrans. Dr said she knows she has not used Butrans in a long while. I asked her why not? Dr said she is trying to get her patients to do more for themselves other than just taking analgesics and its working. I asked like what? D r said physical therapy, Aqua therapy and lifestyle modifications. I told her that there will still be some patients that require opioids and Butrans is a good fit for her practice since she does have existing patients on tramadol or vicoden. Dr said she does and will keep her eyes open. Explained the Butrans posters which she said she wanted and dr Azem will want them as well.
PPLPMDL0020000001	Cleveland	OH	44114	3/11/2014	Reminded of Butrans for those patients requiring around the clock analgesia, Reviewed Initiation/Titration and BWC. Invited to program. Said he continues to find new appropriate patients. Quick OxyContin reminder, Q12h
PPLPMDL0020000001	Cleveland	OH	44195	3/11/2014	Discussed Butrans for those patients requiring around the clock analgesia, Initiation/Titration along with Savings Cards, OxyContin Q12h flexible dosing strengths, . Said she will continue to identify appropriate patients. Confirmed attendance to March 20th program
PPLPMDL0020000001	Cleveland	OH	44127	3/11/2014	Discussed Butrans and Kathy profile, agreed she sees patients similar, feels patients are doing okay, relies on Josie for PA, but will consider. Reviewed OxyContin Q12h, Initiation/Conversion guide, discussed Q4-6h dosing of IR products, Said she prescribes very conservatively Q8h 20-30 max quantity. But will consider for appropriate patients. Invited to program
PPLPMDL0020000001	Cleveland	OH	44127	3/11/2014	Reviewed OxyContin Q12h, Initiation/Conversion guide, discussed Q4-6h dosing of IR products, Said he prescribes very conservatively Q8h 20-30 max quantity. But will consider for appropriate patients. Discussed Butrans for those patients requiring around the clock analgesia, said he has 2 patients in mind. Reviewed dosing. Invited to upcoming program
PPLPMDL0020000001	Euclid	OH	44132	3/11/2014	Front window. Discussed Medicaid prior auth for both Oxycontin and Butrans. Left 4/30 Butrans invite and how to protect your practice brochure.
PPLPMDL0020000001	Euclid	OH	44117	3/11/2014	Lunch. Discussed using OxyContin more often after prn oxycodone and Percocet. Dr states they typically keep patients on what Dr. Moufawad has patient on; as that's who they refer to. Discussed lowest effective dose, starting dose and opioid naive dose: 10 mg. Butrans discussed as first opioid or after prn Tramadol. Discussed supplemental analgesia, non opioid and opioid, as used in clinical studies. Dr says he tried to write Butrans 3 different times recently and all 3 plans would not cover Butrans. He can't remember which plan patients on, as in Painesville, they do have some self pay/commercial patients; each patient stated Butrans was going to run over \$150 monthly. Told dr I'd follow up at Painesville location and find out why. Note: in Euclid EVERY patient on BWC. Dr also states he has tried to get through on BWC, and recently, Prior Authorizations needed. He says if Butrans keeps getting denied, he has no choice but to write something else that's covered/more cost effective. I asked him not to give up on Butrans, since it's working well for patients, will work with him to update him on access. He is 90% sure he WILL attend 4/30 program. Note: he finishes at 5 in Euclid on WED.
PPLPMDL0020000001	Valley View	OH	44125	3/11/2014	Reviewed OxyContin along with Butrans for those patients requiring around the clock analgesia, Aaron said he has increased fill rate and will be attending upcoming Butrans program
PPLPMDL0020000001	Euclid	OH	44119	3/11/2014	Quick Hallway. Nurse mgr Carla Van Pelt appreciated me bringing more PAP journals as promised. Caresource PA for Butrans discussed, Carla asked if same exact PA would work for OxyContin. I told her I'd contact Purdue and get back to her. Put call in to Kendra, waiting for reply. Note: Carla says their new supervisor, wants all pharma reps to check in @ front window with Kathy now, prior to coming back to nurses station. Discussed with Paul, Caresource PA for Butrans and using as first opioid or after prn Tramadol. For OxyContin, use more often when prn oxycodone/Percocet not controlling patients' pain.
PPLPMDL0020000001	Barberton	OH	44203	3/11/2014	Discussed dosing with OxyContin and managed care. Also mentioned Butrans 4 patches and Tramadol under 300 mg starting dose would be 5mcg.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/11/2014	I asked dr if he is going to use the rest of his OxyContin copay cards before the end of the month because that's when they will expire? Dr said he's trying to but then continued to discuss how much OxyContin costs even before the copay cards. I asked him an example of a plan and he could not think of one. Spoke with Liz and she said patients are not having any issues paying for it and its not that expensive. I reminded dr that Butrans may be an option for some of his patients on Vicodin.
PPLPMDL0020000001					

	Euclid	OH	44119	3/11/2014	Quick Halfway. Discussed OxyContin start, opioid naive dose 10 mg. Discussed Butrans as first opioid or after prn Tramadol. Nurse mgr Carla Van Pelt asked if Cleveland Clinic employees could use savings cards? I replied yes. Shes been asking for some PAP tear sheets or hand outs we used to have (purple??) I'm not sure what she's referring to??? Note: make sure to check in with Kathy at front desk BEFORE heading back to nurses station.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	3/11/2014	Requirement enforced by new supervisor.
					Discussed with dr the. Link all trials for Butrans. Reviewed each one discussion study design, results and AE profiles. Discussed the fact that patients in trials had low back pain or osteoarthritis and its right up her alley.
PPLPMDL0020000001					Discussed inclusion and exclusion criteria and discussed how patios in the experienced trial were only given non opioid analgesics for supplemental analgesia and explained the products and doses. Dr said she really likes Butrans and will continue using. Reviewed the new Butrans poster which she said she really liked and wanted them for her exam rooms. Dr said that the patient we discussed last week is coming in tomorrow and she will start Butrans. Discussed that another option for severe pain and those already on IR oxycodone is OxyContin. Reviewed doses, titration and patient types.
PPLPMDL0020000001	Cleveland	OH	44127	3/11/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Janet said she will relay info to Dr., she will be back in the office next week. Will invite to upcoming Butrans program
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/11/2014	Caught dr in hallway of hospital. Dr said he's been using more OxyContin in the hospital recently. I told dr that's great and if he's more or less switching over patients on Percocet? Dr said yes and in his practice. Dr said that he just finds that it just makes sense to switch patients and most like it better. Discussed doses and told him he can titrate every 1-2 days. Reminded dr to also use Butrans in his practice for those in pain around the clock on tramadol or vicoden. Dr said he sees more vicoden and is using it for those patients.
PPLPMDL0020000001					Visited Walker, OxyContin/Butrans Initiation/Titration guides, invited Fellows to upcoming program, Confirmed Attendance Wu,Travicheck,jiang
PPLPMDL0020000001	Cleveland Akron	OH	44195 44310	3/11/2014 3/11/2014	I asked dr about the patient on Butrans who is taking hydrotherapy and was having issues with the patch staying on. Dr said he did as I suggested to use tagaderm and patient said its working well and had had no issues. Dr was writing a prescription for Butrans as I spoke with him. Dr said the patient is currently on vicoden and wasn't getting and enough pain relief. Dr said he is staring Butrans 5mcg. Reviewed dosing and asked him to titrate if necessary every 72 hours. I reminded him that OxyContin continues to be an option for those Percocet patients who are in pain around the clock. Dr said he knows but isn't convinced he will use it. Nothing else learned.
PPLPMDL0020000001	Cleveland C. Falls	OH	44195	3/11/2014	Quick OxyContin Q12h, reminder along with Butrans for those patients requiring around the clock analgesia. Said Ok Will consider, nothing new learned
PPLPMDL0020000001					Spoke to Denise about OxyContin and Butrans. I told Denise about what I'm talking to drs about when it comes to OxyContin. Discussed conversions, cringe entry opioid, and q12 dosing. Denise said she sees them from pain management in the hospital and dr Chonko. Denise said she also sees a lot of Lyrica and a few other schedule 2 medicines but said she sees more OxyContin than anything. She said she needed updated OxyContin copay cards by he end of the month. Discussed the Kathy profile for Butrans and asked her if it makes sense? Denise said it does and that Glenn has been sending more prescriptions for it through their pharmacy.
PPLPMDL0020000001	Euclid	OH	44119	3/11/2014	Met with tech Dana & Pharmacist Kathleen. Discussed OxyContin opioid naive, starting dose 10 mg, q 12 h. Discussed topics contained in Butrans patient guides, including proper application, disposal, pharmacist will place on shelf with product. Left how to protect your pharmacy brochure.
PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	Reviewed Tramadol insight. Dr agreed he sees Tramadol patients a few short acting products a day. I asked him if that patient may ever be increased to three a day or four a day would that be justifiable for an extended release product, he said probably. Reviewed Initiation guide of Butrans along with the indication. Dr asked what schedule it was and I answered 3. Dr asked about managed care. I replied with the commercial coverage and the caresource. Dr said they have many caresource patients. Reviewed OxyContin the q12h dosing. Dr said he writes very little OxyContin. I asked who he thought was an appropriate patient for OxyContin and the dr said elderly.
PPLPMDL0020000001	Cleveland Rocky river	OH	44195 44116	3/12/2014 3/12/2014	Reviewed OxyContin Q12h flexible dosing along with Butrans for those patients who need around the clock analgesia. No new info learned from Roxanne Rph. Discussed the patch of Butrans and the molecule buprenorphine. Dr said she was familiar with the molecule in other forms. We discussed no dose adjustment for mild to moderate renal or hepatic patients. Also discussed scheduled 3 product. I asked her why is it ok to dose someone prn 3 or 4 times a day with an opioid but not part to offer the appropriate patient an extended release product like Butrans or OxyContin. Dr said patients like the high feeling they get from a short acting product. I said that can't be a good thing, she said its easier to give what they want. I asked if it made sense to offer Butrans before they got to a hydrocodone product in the fist place....if they were appropriate for atc opioid and met criteria. Dr said maybe so. Covered managed care. Discussed where she saw a fit for OxyContin, she said her chronic older patient or cancer patients? I said do you ever think of OxyContin for moderate pain? She said no. Reviewed dosing and dosages available.
PPLPMDL0020000001	Richmond Heights	OH	44143	3/12/2014	Met w med asst @ front window. (Last name pronounced Na Tay zen) discussed OxyContin & Butrans, scheduling, appropriate patients, opioid naive & start doses, savings available for both. Left 4/30 Butrans invite. Left OARRS flashcard, protect your practice brochure, Butrans 7 days initiation, maintenance piece.
PPLPMDL0020000001	Garfield Hts	OH	44125	3/12/2014	Discussed OxyContin Q12h, Tablet strengths, formulary status, Savings Card also agreed O4-6h prn on any product is questionable, Will consider for appropriate patients along with Butrans for those patients requiring around the clock analgesia. Will be joining CCF on Monday
PPLPMDL0020000001	Cleveland	OH	44106	3/12/2014	Quick OxyContin review Q12h, flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia, Invited to upcoming Butrans program, Said he will consider for appropriate patients and will be out of town for program
PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	Spoke to Kathy, reviewed Scott profile and showed Rosie the rn where to place the patch and how to use the savings cards.
PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	Handed him a Butrans poster of the spine, he said he was going to hang it in the patient room. I reminded him of our last conversation of the caresource patient needing an atc opioid if appropriate. Explained the prior authorization. Also reminded him of the savings cards for commercially insured patients.
PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	Discussed how he treats patients with moderate somatic pain in the office. He said he uses Tramadol or a few short acting products. I pulled the Scott profile and asked for him to picture the patient on Tramadol taking a few daily for the last 90 days. Reviewed the pain being uncontrolled and either switching medications or adding to the Tramadol. I said if you are doctoring any product several times a day why would you consider an extended release product. He said he would consider the different delivery system at that point. After review if Butrans dosing and initiation guide the dosing said he would try it as long as managed care was good. Discussed OxyContin dosing and delivery system.
PPLPMDL0020000001	Akron	OH	44320	3/12/2014	Dr told me that he prescribed Butrans a few weeks ago. I told him that's great and asked him to tell me about it. Dr said the patients was taking too much vicoden so he started Butrans. I asked him what the dose of vicoden was a what dose of Butrans he started? Dr said he's not for sure but said he thinks the patient was taking it about 4 times a day and had a lot of constipation. Dr said he thinks he started 10mcg dose. I told dr that's a good place to start. I reminded him that he can titrate every 72 hours if necessary and to continue to reassess his hydrocodone patients. I also told him that OxyContin is a good option for those already taking Percocet and need a dose adjustment. Dr said he feels more comfortable starting Butrans. I told him that's ok but to keep the conversions in mind and gave him the Butrans slide guide.
PPLPMDL0020000001	Akron	OH	44320	3/12/2014	Dr said she has a question for me regarding OxyContin. Dr asked what the abuse preventative parts to OxyContin are. I gave her the approved piece for OxyContin abuse deterrent properties and told her when the reformulation occurred. Dr asked if all doses are abuse deterrent? I told her they are and asked why she wanted to know? Dr said that when we talked about OxyContin last she thought she remembered about how it was reformulated but wasn't sure. I asked her if there is anything else she needed and dr said no. Discussed OxyContin dose and titration. Reviewed the Kathy profile for Butrans and told her that before she refills a vicoden prescription today to think Butrans. Dr said ok.
PPLPMDL0020000001	Cleveland akron	OH	44106 44333	3/12/2014 3/12/2014	Reviewed w/Janet OxyContin Q12h, along with Butrans for those Patients requiring around the clock analgesia. Said she will pass along Initiation/Titration guides along with Program invite to Tara
PPLPMDL0020000001					Followed up with dr from last week about his most recent patient he started on Butrans. Dr said he started Butrans and has but has cut his vicoden amount in half. I told dr he may need to titrate to Butrans 20mcg based on how patient is doing and to b careful with respiratory depression which Butrans and high doses of vicoden for breakthrough. Dr said thanks for the reminder. Dr said he also has a nursing home patient he is going to start on Butrans and will let me know when he does. I reminded him of conversions and asked him for continued business said to not forget OxyContin in those patients already on IR oxycodone.
PPLPMDL0020000001	Cleveland Garfield Hts.	OH	44106 44125	3/12/2014 3/12/2014	Reviewed OxyCotin/Butrans Initiation/Titration, formulary review, invited Margie to program, Nothing new learned
PPLPMDL0020000001					Discussed Butrans CII for those Tramadol failures requiring around the clock analgesia, 7 day transdermal, Initiation/Titration along with OxyContin Q12h, 7 tablet strengths, Said she will consider but under past practice protocol, Dr.'s see pain patients, Check back after April 1st under new CCF practice
PPLPMDL0020000001	Munroe Falls	OH	44262	3/12/2014	Dr told me she had a patient started on OxyContin this week when she saw my conversion guide. I asked her to tell me about it and dr said she got a new patient in who was taking Percocet and said she just started OxyContin because the patient said the pills per day were too confusing. Dr said she started on 20mg q12 and the patient seemed happy. I told her that's great and to remember to titrate every 1-2 days when needed. Dr said she isn't giving the patient anything for breakthrough and see what happens. I reviewed the Butrans Kathy profile and asked her if she has patients like her? Dr said she does and that she will do her best to write it again.
PPLPMDL0020000001	Garfield Hts.	OH	44125	3/12/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration, Said she will consider. Reviewed OxyContin Q12h, said she has Dr. Topalsky RX pain patients, She along with Dr.T will be joining UH 4/1/14
PPLPMDL0020000001	Cleveland Akron	OH	44106 44333	3/12/2014 3/12/2014	Visited Anews/Pain, Seidman., Left OxyContin/Butrans info Initiation/Titration, Progam invites, Requested apppt.
PPLPMDL0020000001					Dr told me that he write two new Butrans prescriptions this morning. I asked him to tell me about them and he said both patients were taking tramadol with one patient taking it 6 Tim's a day and the other about 5. Dr said he didn't mess with starting the 5 mcg and started both patients on the 10mcg dose. I told dr that for both patients he should have started on the 10mcg anyway. Reminded to titrate through the doses. Told dr that he can be using OxyContin as well and per his use age of it only for patios seeing him already on an IR oxycodone. Dr said that's when it makes the most sense for him.
PPLPMDL0020000001	Cleveland Akron	OH	44109 44313	3/12/2014 3/12/2014	Reviewed OxyContin and Butrans P's along with Initiation/Titration guides. Said she will contact me if further info is needed
PPLPMDL0020000001					I showed dr the Percocet to OxyContin conversions and pointed to the 20mg of Percocet to 10mg q12 of OxyContin. I asked him if he has patients on that dose of Percocet? Dr said probably. I asked him if when patients fail it either because of analgesia or tolerability to switch the to OxyContin? Dr said that he tries to use it as much as he can and said thanks for the dosing reminder. Gave him the life conversion guide and told him I wanted to make sure he's not missing opportunities for Butrans. Dr said ok.
PPLPMDL0020000001	Richmond Heights	OH	44143	3/12/2014	Brief call in lunch room. Insight #11, could there have been a missed opportunity in re assessing patients to see if they actually need an extended release? Dr says, do you mean schedule 2 drugs? Yes, and OxyContin is actually controlled release, q12 h dosing. Start dose 10 mg, dr stats he's more comfortable writing short actings. I let him know I'd like to ge him more comfortable with OxyContin, and have clinical data & resources I can share, including \$70 cards. I then discussed Butrans indication, scheduling. Dr forgot Butrans is CII. We discussed positioning of Butrans: as first opioid after patient has failed on non opioids like NSAIDS; and after Prn Tramadol. Invited him to Wed Butrans 4/30 program, which he should be able to make if he's done early on Wed. (Begged med asst Toni to get 30-60 seconds w dr in between patients; she states he NEV gR sees outside of lunch, asked her to ask anyone: After waiting until he finished his last patient of the day, Toni asked him & got approval to meet with me)
PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	Gave Vickie the np Butrans spine posted and reviewed inclusion criteria of Butrans using the poster as reference. Discussed caresource patient and Tramadol failures who are in need of atc pain control for an extended period of time not acute use. Shared managed care coupons for commercially insured and highlighted someof the plans they have in the office and how Butrans and OxyContin are covered. Vicky said she doesn't write schedule 2 products. Quick review of the dosing and strengths available for OxyContin.
PPLPMDL0020000001	Westlake Akron	OH	44145 44320	3/12/2014 3/12/2014	Kyle said she was busy today so I pointed out where to place the patch and how to discard. Reviews the dosing of OxyContin.
PPLPMDL0020000001					Dr told me that she didn't have much time because she is backed up. I showed her the Maggie profile and told her that this is a situation where the practitioner may have waited too long to initiate OxyContin. Dr said ok. I asked her if she agreed and she said maybe. I asked her what she would have done and she said she can't say because she doesn't have the patients total history. I told her I understand and that I am trying to tell her to switch patients to OxyContin earlier in the treatment with Percocet when lack of analgesia or tolerability is first seen. Dr said that makes sense. Told her that Butrans is yet another option when her patients on tramadol or Discussed OxyContin Q12h, Tablet strengths, formulary status, Savings Card also agreed O4-6h prn on any product is questionable. Reminded of Butrans for those patients requiring around the clock analgesia, said he has 2 patients on Butrans and doing well. Will be joining CCF on 3/17/14
PPLPMDL0020000001	Garfield Hts	OH	44125	3/12/2014	

PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	Asked him if he has ever written OxyContin since its reformulation. Dr said he writes very little Chronic pain medications. Discussed prn medications dosed several times a day and discusses the Tramadol insight. Dr said he was surprised it was that high and that ppl stay on Tramadol, so long. I asked the doctor why after seeing this type of statistics I would be in the primary care office. He said yes. Discussed moderate pain and Butrans indication, reviewed inclusion criteria of naive study and the pain scores. I asked what he knew about Butrans and if he ever heard the media talk about it. He said no. Invited to Butrans dinner program. Dr has limited people on OxyContin but has not started a new person on it in a while.
PPLPMDL0020000001	Akron	OH	44333	3/12/2014	Elise told me that she went to prescribe OxyContin today for a patient taking Percocet about 4-5 times and the patient checked with their insurance and it cost them over \$200. I asked her the plan and she said it was a dual eligible. I told her that it sounds right but I can't be sure and will check into it. Elise said she gave the patient MS Contin and said he will probably fail. I told her to keep me updated and I will check with my RAE. I reviewed Butrans patient type and insurance plan coverage. Reminded her to continue using OxyContin and to please contact me with any insurance issues.
PPLPMDL0020000001	Copley	OH	44321	3/12/2014	Ld off discussion with dr about the tramadol insight. I told dr that there is a problem when it takes patients on tramadol almost a year to be converted to ER opioids. I showed dr the Scott profile and outlined it for him. I told him that when he ready to refill a tramadol patient and they are taking it more than 3 times a day to start Butrans. I also told him that his best bet is to start w patients who have private insurance. Dr said ok. I discussed OxyContin as a product that he can write for those already on oxycodone but in the short acting delivery system. Dr had no comment.
PPLPMDL0020000001	Westlake	OH	44145	3/12/2014	I said when you see a Tramadol patient this week Nd they are moving from 2 pills uncontrolled before you add a third or 4th prn Tramadol couldn't be possible that an extended release delivery system might be an option. He said yes. Reviewed Butrans, he said he was under the 300 mg daily dose of Tramadol, therefore I showed him the Initiation guide referencing the starting dose of 5mcg reviewed the 7 day transdermal patch and dosing. Showed him where it states Butrans would not be appropriate to Initiation a patient and discussed OxyContin q12h dosing.
PPLPMDL0020000001	Norton	OH	44203	3/12/2014	Reviewed section 12.3 of the fpi and disu. Es the half life of the short acting oxycodone and OxyContin a half life. Asked him what the clinical rationAle is for dosing a short acting opioid at vs. an extended release product like OxyContin q12h. Dr said it was habit. But he agreed to write OxyContin for appropriTe patients. Dr asked About managed care for butrNs.
PPLPMDL0020000001	Cleveland	OH	44112	3/13/2014	Quick Review of OxyContin Q12h, 7 Tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said she hasnt had a taker yet" no time to further discuss, but will consider
PPLPMDL0020000001	Brooklyn	OH	44144	3/13/2014	Discussed OxyContin Q12h, 7 tablet strengths, Savings Cards said he will continue find appropriate patients that can afford product. Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration, Savings card, formulary coverage, Said most of his patients cost and coverage are issues but will consider for appropriate patients, Asked for 1 patient said he would.
PPLPMDL0020000001	Cleveland	OH	44113	3/13/2014	Reviewed OxyContin Q12h along with Butrans for those patients requiring around the clock analgesia, Said he along with his NP's are always looking for appropriate patients. Also said he will be attending program
PPLPMDL0020000001	Cleveland	OH	44195	3/13/2014	Visited Dept. distributed OxyContin/Butrans Initiation/Titraaion along with confirmed attendance to upcoming program (Travineck, Chang, Greishaber, Deoree, Yanosi, Wu, Xu and Kanu
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/13/2014	Spoke with Robert about the new OxyContin copy cards and provided them to him. Robert said they have been going through them and said they will wait until the last day of the month until they use the new ones. Robert said he has no issues with it and is filling it on a regular basis. Discussed Butrans copy cards, dosing, and patient types. Robert asked about conversions from vicoden so it viewed the conversions and morphine equivalents.
PPLPMDL0020000001	C. Falls	OH	44223	3/13/2014	Spoke with Cindy the pharmacist and Denise the technician about the new copy cards for both products. Cindy said that she had a patient with a Medco Medicare D plan who was prescribed 60 pills of OxyContin. Cindy said there was no PA and was approved but the cost was \$70. The patient could not afford it so the patient was switched to ER Morphine. I discussed the Medicare D plans and Cindy said it was a former Goodyear employee who no longer has the company insurance. Discussed Butrans copy cards and patient types with conversions.
PPLPMDL0020000001	Akron	OH	44310	3/13/2014	I asked dr since my last visit if he had any parings in for follow up on Percocet? Dr said he doesn't remember. I reviewed the last discussion and told him that when a patient comes in on Percocet and complains of pain all day long, to switch the patient to OxyContin. Dr said ok. Gave him e conversions guide. Reminded him about a tramadol patient needing a dose adjustment to use Butrans and asked him if it makes sense? Dr said it does. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44115	3/13/2014	Reviewed OxyContin and Butrans for those patients requiring around the clock analgesia, George Rph said he hasnt filled any. Said Dr. Nickels is mainly doing blocks and Rxing NSAIDs to follow
PPLPMDL0020000001	Stow	OH	44224	3/13/2014	Dr told me that he wrote a OxyContin 10mg prescription his week. Dr said a patient came to him with stage 3 cancer and was taking nothing for pain. Dr said he asked the patient what he wanted and the patient said he took OxyContin in he past and it worked well. Dr said he wrote the prescription and said he is sure he will need to titrate up. I reminded dr of the titration every 1-2 days and all 7 doses. I discussed Butrans patient types Scott and nancy after talking about the tramadol and hydrocodone insights. Dr said he agrees with that data and said that he tries to go to ER opioids at the first sign of chronic pain. Dr said his time frame is usually 3 months when a patient is considered chronic. Dr said that he doesn't see too many patients with IR opioids and dr Seiple is the one who gets most of them. I told dr to use more Butrans when the patient profiles I discussed need dose adjustments. Dr said ok- <font 03="" 04="" 2014&lt;="" 3="" 30="" a="" added="" agree="" agree.="" already="" an="" another="" anything="" are="" at="" b&gt;&lt;="" be="" been="" before="" by="" chance="" color="blue&gt;&lt;b&gt;CHUDAKOB" come="" consider="" could="" doctor.="" er="" feel="" font&gt;-cliff,="" font&gt;i="" font&gt;totally="" for="" give="" goes="" guess="" has="" he="" however="" i="" in="" in.="" including="" initiates="" ir="" is="" it="" least="" long="" longer="" longer.="" many="" maybe="" might="" months="" months.="" months.if="" my="" need="" notes="" nsaids?="" of="" on="" opioid,="" opioid.&lt;font="" or="" pain="" patient="" philosophy="" physician="" physicians="" query="" response="" russ="" saw="" six="" taking="" td="" than="" thanks!<="" that="" the="" then="" they="" thought="" thoughts?&lt;font="" three="" time="" to="" too="" until="" up="" usually="" waits="" wasn't="" we="" what="" where="" while="" with="" would="" your=""></font>
PPLPMDL0020000001	Hudson	OH	44236	3/13/2014	Spoke with dr about OxyContin and Butrans. Reviewed start principles for OxyContin, q12dosing, conversions and asked her how she feels about OxyContin? Dr said that she doesn't have an issue using it but really wants to reserve it for the specialists as she is not. I told her I understand and asked her if at least it makes sense to convert a Percocet patient to OxyContin if they are failing it and have intolerance to Percocet? Dr said she agrees. Explained all key selling messages for Butrans and asked her if she would try it in a patient like Scott and if she has patient like him? She said she has some and said she has prescribed it about a year or so ago for a patient failing vicoden. I reviewed the Kathy profile and asked for more business.
PPLPMDL0020000001	Tallmadge	OH	44278	3/13/2014	Quick message in hallway. I told him to take the extra second with a patient on IR oxycodone to see if they would be a candidate for q12 oxycodone. Dr said ok and said he uses OxyContin. I told dr I know and to continue using the single entity, fixed dose OxyContin. Reminded dr to think of Butrans when he had a patient failing tramadol.
PPLPMDL0020000001	Cleveland	OH	44124	3/13/2014	Met with. Med asst front desk. Discussed OxyContin opioid naive/starting dose, q12 h dosing, suggested 8am and 8 pm dosing schedule. Left dr Butrans 4/30 invite, Moufawad resume, Butrans FPI. left new 7 days initiation, maintenance piece.
PPLPMDL0020000001	Cleveland	OH	44115	3/13/2014	Reviewed with April OxyContin Q12h, flexible dosing strengths, along with Butrans for those Tramadol failures requiring around the clock, said she would relay info. Invited Dr. to upcoming program normally doesnt attend any outside programs
PPLPMDL0020000001	Barberton	OH	44203	3/13/2014	Discussed OxyContin 12.3 half life Aldo q12h dosing. Reviewed Butrans patch placement
PPLPMDL0020000001	Cleveland	OH	44144	3/13/2014	Quick OxyContin reminder Q12h, flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok, has been behind due to Dr. Hilton's retirement. Will keep in mind
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/13/2014	Quick hello in hallway and told him that OxyContin and Butrans are ER opioid options for those patients he knows he can treat and have failed their IR opioid. Dr said ok. I told him that OxyContin is a single entity fixed dose opioid to be dosed q12. I told him Butrans is the schedule 3, 7 day patch for patient failing tramadol. Dr said ok again. Nothing else learned.
PPLPMDL0020000001	Hudson	OH	44236	3/13/2014	Led with insights on tramadol and hydrocodone. I asked dr what he thinks about those statistics? Dr said he agrees there are too many patients who have pain every day taking short acting opioids for the pain. Dr said he does his best to get his patients on some type of ER analgesic once he has determined the patient is chronic. Asked dr when he knows a patient is chronic? Dr said usually beyond three months of constant pain. Dr said that he really likes Butrans and is always thinking of ways to use it in his practice. I reviewed the Scott and Kathy profiles and asked dr to focus on these two profiles. Dr said he has lots of patients that he needs to change paths with for their pain relief. Reviewed OxyContin dosing, single entity, fixed dose q12 oxycodone. Discussed conversions from Percocet and asked for the business. dr said ok.
PPLPMDL0020000001	Cleveland	OH	44115	3/13/2014	Visited Pain dept. Reviewed with Dr. Nickels, OxyContin Q12h, flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Mayfield Village	OH	44124	3/14/2014	Lunch. Total office call. Penny came in late, went directly to patients, did not come into lunch room. Discussed indication, appropriate patients & dosing for OxyContin & Butrans. Left 4/30 invite for Penny, OxyContin reformulation folder, Butrans new mktg piece.
PPLPMDL0020000001	Cleveland	OH	44102	3/14/2014	Reminded of OxyContin Q12h, 7 tablet strengths, and Savings Cards said OK will continue to prescribe for appropriate patients. Reviewed Butrans for those Tramadol failures that are requiring around the clock analgesia, Said he will consider
PPLPMDL0020000001	Stow	OH	44224	3/14/2014	Discussed tramadol insight and asked her if she agrees that it is taking way too long to convert patients to ER opioids? Dr agreed but said that she also thinks that opioids aren't always the answer. Dr said that patients need to do physical therapy, lifestyle changes and things like that to aid in the change of the pain cycle. I agreed and said the patients need to also take responsibility. I asked her if it also makes sense to use Butrans when pain becomes to be around the clock? Dr said it does and said she will try but just doesn't have many patients she sees for pain. Discussed e option of OxyContin and when to use it like in Maggie.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/14/2014	Revisited indications, scheduling for OxyContin & Butrans. Courtesy detail as dr part of Atrium Medical group. Continue to keep him updated & share non branded information such as how to protect your practice brochure. Next Indian HCP conference will be Nov 2014 downtown will be much larger & include residents & fellows. Asked him to add an analgesia, pain topic & it's more likely I cam exhibit. Since conference @ Lake West hospital doesn't include pain/ analgesia, it doesn't make good business sense for me to attend, he will see what he can do about adding session on pain mgt.
PPLPMDL0020000001	Akron	OH	44312	3/14/2014	Told dr that I wanted to ensure he had updated patient savings cards for OxyContin and Butrans. Dr said he continues to have his handful of patients doing well on OxyContin. I told dr that's great but I want you to use it more often in those patients already on Percocet. I asked him if he has patients on Percocet? Dr said yes and most are doing well with it. I told him even if patients are doing well but have been taking it for months and months, what's the dosing to giving them the same product but in a q13 delivery system? Dr laughed and said it's not that easy. Discussed Butrans dosing and conversions.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/14/2014	Lunch. Fri dr comes on after 1:30. Discussed OxyContin cost first, and UHC has \$40 charge in 2014 across board for all long acting opioids. Reminder it use \$30/70 cards in closet for best price, commercial patients. Discussed section 8.8 gender differences, opioid naive females demonstrate up to 25% higher average plasma concentrations & greater frequency of typical opioid AEs than males, even after adjustment for body weight, no female/ male difference detected for efficacy or AEs in clinical trials, dr did not know this, we discussed 10 mg opioid naive dose & ability to titrate in 1-2 days to 15 mg. Special populations (Elderly over age 65) discussed, plasma concentrations of oxycodone 15% higher in elderly vs young subjects (21-45) dr did not know this either, appreciated info. We also discussed Geniatric use, section 8.5 with reduction of starting dose to 1/3 to 1/2 the usual dosage in debilitated, non opioid tolerant patients. He did not remember this info either. Revisited Butrans data, after PRN Tramadol, indication, dosing, can be called in with refills. ( he says talk to dr tamaskar, as he's president of Indian HCP organization, ask him to add, pain/analgesia topic to November 2014 downtown)
PPLPMDL0020000001	Stow	OH	44224	3/14/2014	Spoke with dr about Butrans and OxyContin. Led with insights on tramadol and hydrocodone patients and time it took each to be converted to ER opioids per IMS. Dr agreed and said it's ridiculous that patients stay on IR opioids. Dr said there are many patients that start out chronic and then work their way into acute. Dr admitted that physicians are part of the problem why there is so much abuse of products like vicoden. I discussed Butrans doses, titration, conversions, opioid experienced trial, and profiles. I asked dr if she has patients like Scott and Kathy that it would make sense to start Butrans? Dr said she can think of a good sized handful of patients that would fit the bill. Dr said she is going to try it. Discussed OxyContin dosing, titration. Conversions and Maggie profile. Dr said she is going to leave that up to the specialists and doesn't even have patients on Percocet.
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2014	Quick OxyContin Q12h reminder along with Butrans for those patients requiring around the clock analgesia, Initiation/Titration and invited to upcoming program. Said OK, he will consider
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2014	Visited ortho dept. left OxyContin/Butrans Initiation/Titration (Stearns, Bilfield, Osorio) and invites to upcoming Butrans program
PPLPMDL0020000001	Green	OH	44232	3/14/2014	Met Jenna the pharmacist and discussed the Kathy profile go Butrans, dosing, titration and conversions. Jenna said they have a patient on 5 and 10mcg doses and have both on the shelf. I discussed the copy cards and discussed OxyContin dosing conversions from Percocet. Jenna said they haven't seen too much of it but the 10 and 20 mg are the most commonly dispensed.

PPLPMDL0020000001	Stow	OH	44224	3/14/2014	Dr back from nursing home run and only had a minute over lunch appointment. I quickly reviewed th OxyContin dosing, conversions and titration information. I asked him if he currently had patients on Percocet? Dr said he has a few. I asked him to reassess them for OxyContin q12 and reviewed conversions again. I told him hat he may be missing opportunities for Butrans when patients fail IR opioids for any reason. Dr agreed and said he should try it. Discussed doing, conversions, patient types like Scott and Kathy.
	Tallmadge	OH	44278	3/14/2014	I asked what it might mean to a patient who wants something other than tramadol for their pain relief to discuss the option of Butrans with them? Dr said it depends on the patient but said that he likes Butrans so far. Dr said he titrated a patient from Butrans 5mcg to 10mcg recently. I remindd dr that he can titrate as soon as 72 hours once it reaches steady state. I showed him the Kathy profile and said that the hydro one patient is also a good candidate for Butrans if failing efficacy or tolerability. Dr agreed and said ok. I reminded dr that he should stick to commercial plans like medical mutual, ESI and anthem for the path of least resistance. I told dr that he should also consider OxyContin for his patient failing Percocet.
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, asked what happens when patient fails on present therapy, said she switches or increases dose, asked why not Butrans, feels patients want PO delivery and not covered on ins, but will consider Butrans. Also reviewed Butrans coverage with Melissa
PPLPMDL0020000001	Akron	OH	44319	3/14/2014	Dr said he didn't have time but asked me what the dosing is of OxyContin. I handed him a conversion and titration guide and described the 7 doses, titration and conversions from Percocet. Told him to use more of it and to use Butrans for his patients failing tramadol.
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2014	Quick call reviewed Butrans for those Tramadol failures-along with OxyContin q12. Said he will consider. Nothing new learnedBooked lunch appt
PPLPMDL0020000001	Mogadore	OH	44260	3/14/2014	I told dr that the patient copay cards she has for OxyContin and Butrans will be expiring the end of the month and when she goes to use one, I don't want it to be expired. Reviewed cards and asked her to continue writing OxyContin and Butrans. Dr said she will. I reminded her to remember when reassessing patients on Percocet as candidates for the q12 OxyContin. Dr said she will and thanks.
PPLPMDL0020000001	Stow	OH	44224	3/14/2014	Led with tramadol and vicoden insights. Dr agreed with the statistics. I reviewed all key selling messages for Butrans and OxyContin. Dr didn't have much to say. I asked for his thoughts on using Butrans for patios like Scott and Kathy. Dr said he may try it. I asked what's holding him back and he said he doesn't want to treat pain. I asked him if he uses NSAIDs or tramadol? Dr said yes. I asked why its Doo easy to write IR opioids but not ER opioids.p? Dr said he just doesn't like to use ER opioids.
PPLPMDL0020000001	Barberton	OH	44203	3/14/2014	Spoke to Pam the office manager, left dr Butrans poster and explained the indication and managed care.<font color=blue><b>CHUDAKOB's query on 03/30/2014</b></font>Did you gain any information about her role in the office? How does she interact with the physician? the rest of the office? the patients? When you speak with the office manager, making the call about her will show her the importance you place on her and her position. Does this make sense?<font color=green><b>BARTOLI's response on 04/02/2014</b></font>Noted. I will make more attempt to engage office managers and learn about their roles in the office.<font color=blue><b>CHUDAKOB closed the query on 04/03/2014</b></font>
PPLPMDL0020000001	Cleveland	OH	44113	3/14/2014	Quick OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Savings Cards, Said Ok, will consider, nothing new learned
PPLPMDL0020000001	Barberton	OH	44203	3/14/2014	Jeff the pharmacist said they will continue to stock OxyContin in limited amounts. I asked if he had seen any q12 dosing or q8 being written? He said he fills it q12h. Reviewed Butrans, indication and dosing.
PPLPMDL0020000001	Fairwan	OH	44333	3/14/2014	Discussion in hallway about him using OxyContin. I asked him if he is seeing efficacy with q12 dosing when converted from q4 or q6 dosing of Percocet? Dr said he tries as hard as he can to use OxyContin or any ER opioid as a soon as he can. Dr said it doesn't make sense to use an IR opioid for chronic pain and that what he treats most. I told him I can't agree more! I asked for continued business and to remember Butrans as that ER opioid for patients not responding to tramadol or vicoden. Dr said ok.
PPLPMDL0020000001	Barberton	OH	44203	3/14/2014	Discussed if he has Percocet patient s taking 3 or more a day. Dr said yes. Reviewed the conversion to OxyContin. Also reviewed single entity, savings coupons and dosing q12h. Dr was unfamiliar with Butrans. Showed demo and asked him why he wouldn't write it for someone after Tramadol that was appropriate (I did review indication). Dr said habit. Reviewed starting dose and supplemental according to fpi. Dr said he would think about it.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/14/2014	Lunch. Revisited data shared on last call, George profile, his agreement to consider writing starting dose, (opioid naive dose) of 10 mg, q 12 h of OxyContin. Dr admits he doesn't want the responsibility of writing, managing long acting opioids; he'd prefer to send to pain mgt. Reiterate the fact I'm just asking for a few trials on trusted patients. Butrans indication, scheduling, dosing, opioid naive, start dose of 5 mcg hr. Dr repeated that he just hadn't found the right patient. The patient I'd like you to think about dr is a patient who cannot tolerate NSAIDs or Tylenol, or whom those non opioids did not diminish continual pain. Also that prn Tramadol patient that has been refilled month after month. Ir Tramadol insight. Discussed missed opportunities to re assess patients around the 10 ms to see if patient requires around the clock analgesia, for extended period of time. Again, just asking for a few trials in trusted patients. Will keep working on, doesn't seem like dr will budge regarding long actings. (Atrium medical, syed asraf group)
PPLPMDL0020000001	Barberton	OH	44203	3/14/2014	Dr was talking about Saftey profile in the reformulation of OxyContin. I gave him the leave behind piece to review. I asked him if it was saftey the driving force being selecting your extended release opioids or is it cost? Dr said Saftey. Discussed lowest dose of Butrans and OxyContin for opioid naive patients. Explained both indications, extended release and dosing for Butrans and OxyContin.<font color=blue><b>CHUDAKOB's query on 03/30/2014</b></font>Lisa, I am wondering why your next call objective is a repeat of the same question. He answered the question by saying saftey. Can you build off of that on your next call?<font color=green><b>BARTOLI's response on 04/02/2014</b></font>Yes.<font color=blue><b>CHUDAKOB's query on 04/03/2014</b></font>Great. What would that next call objective look like?<font color=green><b>BARTOLI's response on 04/07/2014</b></font>Review oxycodone and perhaps TrAmadol insight. Asked what the driving force and or trigger signal for him to convert patients to an extended release product. Does he have patients currently on act short acting products that he may consider converting this week to Butrans or OxyContin if they were appropriate?<font color=blue><b>CHUDAKOB added notes on 04/14/2014</b></font>Perhaps you can review saftey again by showing him our saftey profile. If you already did that, I don't see it in the notes. You can discuss its use in the elderly as an example of saftey.
PPLPMDL0020000001	Cleveland	OH	44102	3/14/2014	Reviewed with Mike Rph OxyContin Q12h along with Butrans for those Tramadol failures requiring around the clock analgesia, no new info learned
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	3/14/2014	Dr told me that he has written a lot of Butrans this week. I asked dr to give me an example of one. Dr said that he had one patient on 30mg a day of hydrocodone and wanted more. Dr said he started Butrans 10mcg and figures he will need to go to the 15mcg. I told him it would be like a good plan. I asked why Butrans? Dr said its one of the only ER opioids he writes because he likes that its a patch, it lasts 7 days and patients seem to like it. I asked what he typically does for a patient Percocet? Dr said it depends on the dose but said he uses Butrans for most of those patients also. I asked if he uses OxyContin for any patient failing Percocet? Dr said he does but he really likes Butrans. I asked dr to keep OxyContin in mind for patients not suitable for Butrans. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44195	3/17/2014	Quick Review of OxyContin q12h along with Butrans for those Tramadol failures requiring around the clock analgesia, invited to program, Said she will not be able to make it, has a lot of experience with both OxyContin and Butrans in S.C, will continue to prescribe for appropriate patients.
PPLPMDL0020000001	Cleveland	OH	44124	3/17/2014	Met with Jessica first, then Susan. Asked to see office coordinator, Renetta. She was unable to come up front. Dr C only comes in on Fridays now. He is phasing the other 4 days of the week to holistic practice, and just purchased another practice where he will NOT treat any pain patients. Left box OxyContin savings cards; left OxyContin and Butrans formulary grids for Dr and Rinatta.
PPLPMDL0020000001	CLEVELAND	OH	44195	3/17/2014	Reviewed OxyContin/Butrans Savings Card along with invited Troy to upcoming Program, No new info learned
PPLPMDL0020000001	Cleveland	OH	44195	3/17/2014	MSI email communication with Dr. Dell in response to adult trial contacts, MSI shared contact information with PLPL colleagues and thanked Dr. Dell and team for their assistance.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/17/2014	Met with pharmacist Giovanni.
PPLPMDL0020000001	Waterford	OH	45786	3/17/2014	I-Butrans dosing and managed care. OxyContin co-pay cards and managed care.W-said that she has several patients on Butrans and the managed-care information is helpful.
PPLPMDL0020000001	Waterford	OH	45786	3/17/2014	I-Butrans dosing and managed care. OxyContin managed-care.W-said that managed-care grids are helpful.
PPLPMDL0020000001	Cleveland	OH	44195	3/17/2014	Reviewed OxyContin Q12h, 7 Tablet strengths, Savings Card/Patient Kits also, Butrans Initiation/Titration info. Invite to upcoming program (Davis, Advani, Gutsell, Andresen, Dobbs, Gilligan, Jorge, Lagman, Estafan, and
PPLPMDL0020000001	Cleveland	OH	44195	3/17/2014	Quick OxyContin review Q12h, 7 tablet strengths along with Butrans, 7 day transdermal for those Tramadol failures, Said Ok and to email appt request. Left Butrans/OxyContin initiation/ Titration guides
PPLPMDL0020000001	Cleveland	OH	44195	3/17/2014	Quick OxyContin reminder Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Invited to upcoming program, Said Ok will consider, nothing new learned
PPLPMDL0020000001	Cleveland	OH	44113	3/17/2014	Quick OxyContin reminder Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, refers most patients to Dr. Shen/Dale but will consider
PPLPMDL0020000001	Cleveland	OH	44195	3/17/2014	Reviewed OxyContin Q12h, 7 tablet strengths, patient essential kits along with Butrans for those Tramadol failures requiring around the clock analgesia. Said he is no longer practicing Hospice/Palliative care, entire focus is Oncology, but is still confidently prescribing OxyContin. Reviewed savings card and formulary grid
PPLPMDL0020000001	CLEVELAND	OH	44195	3/17/2014	Quick OxyContin review Q12h, 7 tablet strengths along with Savings card, Said Ok , refers to Harry Goforth MD
PPLPMDL0020000001	Barberton	OH	44203	3/17/2014	Invited to the Butrans program on the 20th, asked him if he had tried butrans yet. He said no. I told him two things to focus on...showed him the Initiation guide. Under 40mg of hydrocodone Butrans appropriate. Over 40mg hydrocodone OxyContin appropriate, per fpi and indication. Next time you see a Tramadol patient not controlled and already on 3 short acting a day...does Butrans make sense here for that extended release delivery system. He said yes. After 72 hours steady state is reached. They change the patch every 7 days. He said ok he understood.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/17/2014	Hallway call. Discussed Butrans as first opioid and after prn Tramadol. Convert to 10 mcg hr Butrans. Is there a patient you can think of today who might benefit from Butrans trial? Sarah said yes; showed us patient chart, male patient, who she feels is on too many & multiple pills, including morphine, that may be good for Butrans trial. OxyContin 10 mg opioid naive, starting dose discussed. Lowest effective dose, q12 h dosing. Sarah agrees she won't rule out OxyContin completely.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/17/2014	Hallway. Discussed insight #14, to get dr thinking about changing his writing habits; and converting patients on immediate release to controlled release OxyContin q12h sooner. Butrans after prn Tramadol,BWC discussed.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/17/2014	Quick product mention at window. Gina too busy to come up front. Met with office coordinator Denise Guinto. Left savings cards, Butrans, OxyContin. (Note: Dr. Laham will be in tomorrow, Tues 3/18.)
PPLPMDL0020000001	Norton	OH	44203	3/17/2014	Discussed the clinical benefits of dosing short acting opioids etc. He said there was no clinical rational and he said practitioners need to transition to extended release products sooner. I said how would you recommend me communicating this to other family practice doctors like yourself. He said i have to break their habits and its going to be hard. I asked him how important is saftey using an opioids. He said a usability of a product is his number one concern with choosing an opioid. Reviewed a Scott profile. I asked him what would prevent him from choosing Butrans after Tramadol or OxyContin after Percocet if they met the need for an extended release opioid. He told me managed care would be the only reason. Covered carcouse coverage with Butrans and commercial plans with OxyContin . Dr said he would remember to write it this week if he saw so wine appropriate.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/18/2014	Dr was undecided on going to Butrans program on the 20th. Breakfast. Used Insight #14. Goal: get Dr. to consider writing OxyContin as first opioid, using lowest effective dose. Dr admitted she's increasing use of extended release/long acting opioids and using OxyContin in opioid naive is reasonable. Discussed conversion from ir to OxyContin. Butrans as first opioid, and after prn Tramadol discussed. Dr asked if supplemental analgesia can be used with Butrans. Responded with data from clinical trials, discussed NSAIDs/Tylenol as supplemental analgesia, or, a 1-2 ir opioids at her discretion.
PPLPMDL0020000001	Cleveland	OH	44113	3/18/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, Said Ok she will continue to find appropriate patients. Nothing new learned
PPLPMDL0020000001	Cleveland	OH	44144	3/18/2014	Reviewed OxyContin Q12h, Multiple dose forms along with formulary grids, Along with Butrans for those Tramadol failures that are requiring around the clock analgesia. Asked for 1 appropriate patients for both products said she has a few patients that she will try.
PPLPMDL0020000001	Cleveland	OH	44109	3/18/2014	Reviewed w/tech OxyContin Q12h, Butrans for those tramadol patients requiring around the clock analgesia, no savings cards needed.
PPLPMDL0020000001	Mayfield Heights	OH	44124	3/18/2014	Breakfast. Insight #14 shared to see what doctor anna's feelings are regarding this statistic. She is open to initiating low dose OxyContin in opioid naive. Discussed opioid naive/start dose of 10 mg q 12h. also discussed Butrans as opioid naive option or after prn Tramadol, start Butrans 10 mcg hr. Doctor inquired about supplemental analgesia with Butrans, responded with non opioids used in BUP 3024 trial.

	Mayfield Hts	OH	44124	3/18/2014	Sit down appointment. Insight # 14. Doctor stated this scenario sounds reasonable, with 37% of patients who were prescribed extended release opioid were opioid naive defined as those patients who were not on any opioids within past 3 months. Doctor states he does not like short acting, unless pain is acute. Discussed Butrans Med D formulary wins beginning 4/1/14. Formulary grids discussed, confirmed Denise Guinto keeps track of all updates for him. Discussed Butrans for BWC patients, the 2nd largest plan in his practice. (Note: he may attend Thr 3/20 program, follow up, make reservation for him if needed) Asked dr if we can start fresh with OxyContin, as dr stated he stopped writing OxyContin due to former stigma of product. He is slowly warming up to using OxyContin in his practice. Discussed lowest effective dose and starting with 10mg q 12 h. Doctor was open minded to re assessing Percocet, oxycodone patients, to see if patients would benefit from conversion to an around the clock, controlled release product with q 12 h dosing schedule.
PPLPMDL0020000001					Quick OxyContin Q12h reminder along with Butrans for those patients requiring around the clock analgesia, Will be attending Butrans program with Anne to further discuss
PPLPMDL0020000001	Cleveland	OH	44195	3/18/2014	Reviewed Butrans for those LorTab/Norco failures that require around the clock analgesia, Quick OxyContin Q12h reminder, Said she will continue to find appropriate Butrans patients, Using the patient info booklets to
PPLPMDL0020000001	Cleveland	OH	44113	3/18/2014	Discussed the Tramadol insight and i asked her if she can see this happening in primary care. Dr said yes. Reviewed care source and commercial plans for coverage. Discussed the initiation guide for patients guide uncontrolled on Tramadol under 300 mg to 5mcg Butrans. I asked her if she had a schedule license. She said yes. Pointed out that if a patient was over the 40mg of oxycodone short acting uncontrolled reviewed OxyContin as an appropriate option for patients needing an extended release opioid.
PPLPMDL0020000001	Westlake	OH	44145	3/19/2014	I invited the doctor to the Butrans dinner program on the 20th of March. Reminded him both Butrans and OxyContin are extended release options for his appropriate pain patients.
PPLPMDL0020000001	Westlake	OH	44145	3/19/2014	Shared the extended release insight with the np and asked him how close to his writing style this is for his practice? NP said it seems high. NP Brian said he doesn't see as much pain patients as the other doctors in the group. I reminded him that this was good information to chew on..if and when he see's the appropriate patient today or next month. Invited to Butrans Dinner program- he said no
PPLPMDL0020000001	Cleveland	OH	44114	3/19/2014	Reviewed Butrans for those Tramadol failures, Initiation/Titration, Said he will continue to find appropriate patients
PPLPMDL0020000001	Westlake	OH	44145	3/19/2014	Invited to Butrans dinner program, but she can not attend. We reviewed the Oxycontin molecule, the half life and delivery system. When I asked her if it made any sense to convert someone uncontrolled on 3 percocets around the clock to a delivery system like Oxycontin- the doctor said yes. Dr said she has no problem writing Oxycontin for the appropriate patient type. Reviewed the initiation of Butrans from tramadol and from a Hydrocodone product. Left slim jim behind for her review of Butrans.
PPLPMDL0020000001	Westland	OH	44145	3/19/2014	Spoke to Mary the MA and she said i could only see the doctor with a lunch. I left invite to the Butrans program along with some initiation guide for Butrans. Explained to mary What Butrans was and how it was dosed.
PPLPMDL0020000001	Valley View	OH	44125	3/19/2014	Reviewed OxyContin/Butrans Brand Messages. No new info learned,Confirmed invites to program
PPLPMDL0020000001	Westlake	OH	44145	3/19/2014	Spoke to Lisa the MA, checking in about rspv for the butrans program for dr Partial or Dr. Kale. Left her another invite with a butrans initiation slim jim. discussed dosing and managed care with Lisa. Lisa said Caresource was large in their practice. reviewed Butrans Coverage.
PPLPMDL0020000001	Cleveland	OH	44102	3/19/2014	Reviewed OxyContin/Butrans Brand Message, Confirmed attendance to Butrans program (Ed Rph Dir and Tom Rph)
PPLPMDL0020000001	Akron	OH	44308	3/19/2014	MSL and PRA CRA Bill Thornton met with Dr. Frieibert and Hilary Tonni to discuss OTR3001. MSL provided study updates, enroled patient summary, and update on PK and safety analysis. Dr. Frieibert is committed to enrolling one more patient on the study.
PPLPMDL0020000001	Akron	OH	44308	3/19/2014	MSL accompanied PRA CRA Bill Thornton and coordinator Hilary Tonni to meet with Karen Hughes, investigational pharmacist for MSL. MSL provided introduction to Ms. Hughes with brief study updates.
PPLPMDL0020000001	Cleveland	OH	44113	3/19/2014	Quick OxyContin reminder, Q12h, 7 tablet strengths along with Butrans for those Norco failures requiring around the clock analgesia. Said Ok, will consider.
PPLPMDL0020000001	Westlake	OH	44145	3/19/2014	Reviewed the 15mcg of Butrans, Kyle the pharmacist was aware. Discussed how i can get it stocked and she said demand. Reviewed starting the product for the first time and making sure they have something for pain on board for the first three days until steady state is reached. Also reviewed how to discard the patch and rotation. I asked if they were still stocking oxycotin and she said yes in limited doses. reviewed the q12h dosing. Dr asked me how OxyContin compares to the new Hydrocodone Extended Release product. I said, you don't even write OxyContin right now, what would make you even interested in a new Schedule 2 product. Dr. said he only wanted to know its difference. I told him i didn't have the information to give him. Dr said he heard it could be crushed. I said, every time in your office you talk to me about picking the safest medications for your patients. Dr said yes. I said what you know of Oxycontin is that its been on the market for years and it has been reformulated many years ago. I pointed out that my goal is to get primary care doctors to release there could be an opportunity to convert someone from 3 or 4 prn percocets a day...month after month to a product Like OxyContin. Same molecule, different delivery system. I asked if there was a significant benefit to dosing short acting products so many times during the day? Dr. said no and that he will write Oxycontin or Butrans. He said he gets push back when he writes Oxycontin. I said when was the last time you wrote it? Dr couldn't even remember. I said so its been a while, he said yes. Reviewed managed care. I reminded him of the butrans managed care and the initiation for the moderate patients on tramadol or hydrocodone or might be appropriate for Butrans. Dr said he was too busy to attend the Butrans dinner program on the 20th.
PPLPMDL0020000001	Cleveland	OH	44113	3/19/2014	Quick OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok, refers to Pain Mngmt. But will consider
PPLPMDL0020000001	Cleveland	OH	44113	3/19/2014	Window Call reviewed Butrans for those Tramadol failures requiring around the clock analgesia and OxyContin Q12h, 7 tablet strengths, Said Ok and to book appt to further discuss
PPLPMDL0020000001	Cleveland	OH	44195	3/19/2014	Reminded of OxyContin Q12h, 7tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, Confirmed attendance to Butrans program
PPLPMDL0020000001	Garfield Hts	OH	44125	3/19/2014	Quick Butrans review 7 day transdermal for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, 7 tablet strengths, Said Ok will set up appt. after the transition settles and practice policy is established
PPLPMDL0020000001	Lakewood	OH	44107	3/20/2014	Asked dr why he writes Butrans? Dr said he hasn't write it for a while cause he hasn't seen the right patient. Gave him the Tramadol insight, i asked if they were converted to an extended release product cause maybe they got to a specialist like himself? He said maybe. Reviewed Initiation guide. And also reminded him of OxyContin and the 7 strengths.<font color=blue><b><b>CHUDAKOB's query on 04/13/2014/<b><b>Lisa, I am reading this call note and trying to understand where you were going with him? Can you help?<font color=green><b><b>BARTOLI's response on 04/14/2014/<b><b>Fontoli reviewed the Scott profile with the dr as an example of an appropriate patient type. And reviewed the Tramadol insight with the doctor. I asked him, if a new patient comes to his office on Tramadol but not controlled what does he usually do? I was trying to find out if he keeps patients that are new and on short acting pain medications atc, if he converts them to an extended release opioid or what does he do.<font color=blue><b><b>CHUDAKOB added notes on 04/16/2014/<b><b>FontoliThank you for the clarification. I reviewed OxyContin Q12H, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, he agreed to distribute to appropriate patients she is sending to Pain Mgmt.
PPLPMDL0020000001	Cleveland	OH	44103	3/20/2014	Reviewed OxyContin Q12H, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok, will consider
PPLPMDL0020000001	LAKEWOOD	OH	44107	3/20/2014	Reviewed Butrans patch placement and reviewed supplementation. Reviewed OxyContin dosing
PPLPMDL0020000001	Westlake	OH	44145	3/20/2014	Dr said he was trying to write less chronic medications. I asked him if that included his existing patients or new patients with chronic pain. He said new patients. I said I might have an option for you. Keep in mind the patient that are only taking a few short acting opicoids. When that patient comes back uncontrolled before you change them to 3 or 4 a day. Wouldn't an extended release product like OxyContin be an option? He said maybe. I said have you ever thought about what patient would be appropriate for Butrans. He said he doesn't think of Butrans. And said he had to go.
PPLPMDL0020000001	Lakewood	OH	44107	3/20/2014	We talked about the goal of treating patient with the lowest most effective dose the dr agreed. The doctor said the patients will always take the highest. I said so why do prescribers give them the option of doing it when it comes to opioids and opioids taken atc. Dr said habit. I suggested that the first step needs to start with the prescriber, dr agreed. Reviewed the half life of OxyContin compared to oxycodone for. The last section in 12.3. I re sighted the extended release insight. And said do you think there's so e missed opportunities with these types of patients and the dr said yes. Reviewed dosing of both OxyContin and butNs. Discussed the moderate pain patients on Tramadol or hydrocodone for Butrans. Reviewed the patients on the same molecule oxycodone for OxyContin. If the patient was appropriate. Discussed caresource.
PPLPMDL0020000001	Cleveland	OH	44114	3/20/2014	Reviewed Butrans for those patients requiring around the clock analgesia, Initiation/Titration, Savings Cards along with a OxyContin Q12h reminder. Said Ok
PPLPMDL0020000001	Cleveland	OH	44195	3/20/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Initiation/Titration, Savings cards, Said she has patients to consider,
PPLPMDL0020000001	Westlake	OH	44145	3/20/2014	One thing to think about today. The extended release delivery system like OxyContin, right. He said ok, I said next time I'll talk to you about Butrans. He said oh yes Butrans. And walked away.
PPLPMDL0020000001	Cleveland	OH	44113	3/20/2014	Reviewed Butrans for those LorTab failures requiring around the clock analgesia, Said Ok will continue to find appropriate new starts. Reminded of OxyContin Q12h & tablet strengths, Formulary grids
PPLPMDL0020000001	Cleveland	OH	44195	3/21/2014	Reviewed OxyContin Q12h, 7 tablet strengths, , formulary coverage, Along with Butrans for those Tramadol failures requiring around the clock analgesia. Said he will consider for appropriate patients, requested Savings
PPLPMDL0020000001	Cleveland	OH	44195	3/21/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Savings Cards, Said Ok will consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2014	Reminded of OxyContin Q12h for those appropriate patients that are presently treated every 4-6hr. Said Ok will consider. Also reviewed Butrans for those Tramadol failures requiring around the clock analgesia
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2014	Reviewed OxyContin Q12h Flexible dosing along with Butrans for those patients requiring around the clock analgesia. Said Ok, will continue to find appropriate patients
PPLPMDL0020000001	Cleveland	OH	44195	3/21/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok will consider for appropriate patients,
PPLPMDL0020000001	Akron	OH	44308	3/21/2014	Attend FACETS program coordinated by Ashley (Centene Trainer) in St. Louis.
PPLPMDL0020000001	CLEVELAND	OH	44195	3/21/2014	Reviewed OxyContin and Butrans savings card info. with Troy. No new info learned
PPLPMDL0020000001	Cleveland	OH	44195	3/21/2014	MSL email communication with Dr. Dell and Ms. Riley in follow up to interest in BUP3031. MSL inquired about site readiness to resume startup with new PI in orthopedic surgery. Response pending.
PPLPMDL0020000001	Cleveland	OH	44113	3/21/2014	Reviewed OxyContin and Butrans w/ Justin No savings card needed. No new info learned
PPLPMDL0020000001	Cleveland	OH	44195	3/21/2014	Visited Dept. left OxyContin initiation/Titration info for Goforth, Gutsell and Faiman)
PPLPMDL0020000001	Cleveland	OH	44195	3/21/2014	Reviewed OxyContin and Butrans PI info along with Initiation/Titration guides, Dr said she well informed of products, and will continue to prescribe appropriately.
PPLPMDL0020000001	Cleveland	OH	44103	3/21/2014	Reminded of OxyContin Q12h, formulary grids, savings cards along with Butrans for those patients requiring around the clock analgesia that are failing on present therapy. Said Ok, will consider.
PPLPMDL0020000001	Cleveland	OH	44104	3/21/2014	Reminded of Butrans initiation/Titration doses, along with OxyContin Q12h and 7 tablet strengths, Said Ok will consider for appropriate patients
PPLPMDL0020000001	Cleveland Hts	OH	44118	3/24/2014	Reviewed OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said OK will continue to prescribe for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44118	3/24/2014	Reviewed OxyContin q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok will continue to initiate appropriate patients
PPLPMDL0020000001	Lyndhurst	OH	44124	3/24/2014	Dr came up to window to get office supply; had less than 10 seconds. Dr please consider controlled release OxyContin when refilling prn Percocet or oxycodone, and Butrans after prn Tramadol. Met with Ebony and office coordinator. Left and discussed PAP patient assessment train sheets. Left and discussed formulary grids both products. (Note: lunches Tue, Wed or Thu ONLY now per HCP's).
PPLPMDL0020000001	Lyndhurst	OH	44124	3/24/2014	Caught at front window while scheduling a lunch; 10 seconds. Discussed Butrans after prn codeine and Tramadol, when patient needs ER opioid and IR opioid is not controlling their pain.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/24/2014	Met with medical assistant. Left OxyContin FPI. Showed gender dosing data, females have 25% higher concentration even after weight adjustment. Left PAP assessment guide for Dr. Roda. Discussed Butrans 1 x week buprenorphine transdermal. 4 patches monthly. Discussed, left both OxyContin and Butrans formulary grids.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/24/2014	Dr Goldner apologized he did not have more time, computer repair rep there, system is messed up. Found out from dr that he is in Lyndhurst every Mon, Tues and every other WED or FRI. He rotates Lyndhurst on WED and FRI with Broadview Hts. In Broadview Hts about 2x month. Is only in Akron Thursdays. Provided gender dosing from OxyContin FPI regarding females having 25% greater concentration. Dr says he will take that into consideration in future when initiating OxyContin on female patient. OxyContin lowest effective dose, and opioid naive/start dose of 10 mg, dosed q 12 h discussed. Butrans as first opioid or after prn Tramadol discussed. When asked dr about meals, he says I'm welcome to bring snack in the next few months and when he's more settled he will start scheduling lunches. Left OxyContin conversion/titration guide and PAP patient assessment train sheets. Discussed and left new formulary grids, both OxyContin and Butrans.
PPLPMDL0020000001					

PPLPMDL0020000001	Berea	OH	44017	3/24/2014	Spoke to rn jasmine, I asked her if the dr was interested in learning about a pain medication that can be dosed once a week. She said maybe. I highlighted the dosing, the Tramadol failure patient and the steady state of the product. Explained the opioid naive patient appropriate for an extended release opioid may be appropriate for 10mg of OxyContin. Jasmin said dr doesn't write OxyContin.
PPLPMDL0020000001	University Hts	OH	44118	3/24/2014	Window call, OxyContin reminder Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok will consider.
PPLPMDL0020000001	Cleveland	OH	44104	3/24/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said he will consider
PPLPMDL0020000001	Cleveland Heights	OH	44118	3/24/2014	Reviewed with OpeitRph OxyContin Q12h and Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok no new prescribers
PPLPMDL0020000001	Mayfield Hts	OH	44124	3/25/2014	Lunch. Used Pain Specialist page in Butrans core Visual Aid to discuss renally impaired and mild to moderate hepatic impaired patients. Discussed greater dosing flexibility with 4 strengths. Asked Dr. if he learned anything new from 3/20 program, he stated no. He then said he's been getting a lot of push back from managed care, both commercial and med d, after I probed him "from where" and as a result he says he's turning more to OxyContin. He says he's slowly using more OxyContin as he's pleased with recent efficacy and it's easier to get covered for his patients. Used OxyContin FPI to point out some areas he may have forgotten about or didn't know, including pharmacokinetic studies, geriatric dosing and gender (female) differences.
PPLPMDL0020000001	Highland Heights	OH	44143	3/25/2014	Front window. Asked Mary to present packet of info to dr. Discussed, left new formulary grids, both OxyContin and Butrans. Left PAP assessment tear sheets let Mary know these would be for patient charts.
PPLPMDL0020000001	University Heights	OH	44121	3/25/2014	Quick hallway. Dr very upset about new EMR system. Says it's slowed him down tremendously. Told him I want to help him and his staff save time and call backs with the resources I can provide him such as formulary grids, product trial, savings cards. When I mentioned OxyContin, dr stated I use your product. I responded that's great, I'd like you to continue and I'd like you to think about using OxyContin outside of cancer pain. I'd like to discuss this profile next visit (George) This is patient case where this patient has pain due to osteoarthritis and not a candidate for surgery. Suggested dose is 10 mg, q 12 h. Left conversion/titration guide. OxyContin reformulation folder. Butrans I'd like you to think about after prn codeine or tramadol. 1 x week buprenorphine transdermal - can be called in with refills, which would save you and your staff time.
PPLPMDL0020000001	Cleveland	OH	44127	3/25/2014	Reviewed Butrans/OxyContin Formulary grids along with Initiation/Titration guides, said most of her patients require PA for any branded products, I will review with Josie, said ok she will consider
PPLPMDL0020000001	Cleveland	OH	44127	3/25/2014	Reviewed Butrans/OxyContin Formulary grids along with Initiation/Titration guides, said most of his patients require PA for any branded products, Said he has a patient in mind, told him I will review with Josie, said ok he will consider. Reminded of OxyContin Q12h, 7 tablet strengths
PPLPMDL0020000001	Cleveland	OH	44195	3/25/2014	Visited Dept left Butrans/OxyContin Initiation/Titration Chatterjee, Calabrese, Deal, fellows and nurse education room. Katherine Tuthill CNP, Tiffany Clark, Betsy Kirchner. Renee Recept.
PPLPMDL0020000001	Berea	OH	44017	3/25/2014	Discussed what are his trigger signals for converting someone from short acting opioids to extended release. Dr said it varies. But it's usually dose levels v. quantity of pills per day. I asked if he thought that was what other prescribers thought he said yes. Discussed OxyContin's doses it's dose flexibility and titration. Dr agreed that OxyContin made sense in patients from OxyCodone to OxyContin if they needed atc pain control and appropriate.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/25/2014	Reviewed initiation guide for Butrans. Shared the Tramadol insight. First call to dr as Purdue rep. Detailed OxyContin core messages including indication, q 12 h dosing, 7 strengths, opioid naive and start dose 10 mg. Discussed Butrans as first opioid or after prn codeine or Tramadol for example, used Butrans initiation titration guide. Showed opioid naive dose of 5 mcg hr, and opioid experienced dose of 10 mcg hr. Shared PAP resources available including PAP patient assessment tear sheets. Left 4/30 invite, dr says there's no way he could make a program on Wed eve; he just doesn't attend programs. Dr states he tries to stay away from long acting opioids and he might write a few a year. <font color=blue><b>CHUDAKOB's query on 04/15/2014</b></font>Here is another physician who is not on your tiered selection list. Why are you selling to him as opposed to trying to get into the high decile physician offices on your list. He has no potential.<font color=green><b>BALLIE's response on 04/15/2014</b></font>This was prior to E2E changes, and this practice has been removed from my core/tiered target list.<font color=blue><b>CHUDAKOB added notes on 04/16/2014</b></font>Another mistake on my part. Sorry
PPLPMDL0020000001	East Cleveland	OH	44112	3/25/2014	Reviewed w/Latoya OxyContin/Butrans Initiation/Titration along with Savings Cards.No new info learned
PPLPMDL0020000001	Cleveland	OH	44113	3/25/2014	Reviewed OxyContin Q12h, Initiation/Titration along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, no time, referred to Barb for info.- in service
PPLPMDL0020000001	Mayfield Village	OH	44143	3/25/2014	Quick window. Met with med asst at front. Left packet of information. Let her know I'm leaving marketing piece on my 1x week buprenorphine pain patch; and controlled release OxyContin, q 12 h dosing schedule. Left OxyContin conversion guide/Butrans initiation guide. Left PAP patient assessment tear sheets. (Left same packet of info for Drs. Mukunda/Krishnan as well.<font color=blue><b>CHUDAKOB's query on 04/15/2014</b></font>Yes, my mistake!<font color=blue><b>CHUDAKOB added notes on 04/15/2014</b></font>This looks like it should have been a non-HCP call. Am I correct?<font color=green><b>BALLIE's response on 04/15/2014</b></font>Yes, my mistake!<font color=blue><b>CHUDAKOB added notes on 04/15/2014</b></font>He has no potential.<font color=green><b>BALLIE's response on 04/15/2014</b></font>This was made before E2E changes and is therefore no longer on your call list. Try to spend your time with physicians on your list as these are who will increase your sales.<font color=green><b>BALLIE's response on 04/15/2014</b></font>Noted. This call was made before E2E changes and Dr Price was removed from Core list starting 4/1/14.<font color=blue><b>CHUDAKOB added notes on 04/16/2014</b></font>Sorry. You are correct.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/25/2014	Discussed my continued goal of getting him more comfortable using OxyContin and outside nursing home setting. Discussed efficacy data in FPI and opioid naive, start dose of 10 mg, dosed q 12 h schedule. Let him know typical time patients take OxyContin is: 1 oral pill at 8 am, 1 oral pill at 8 pm. Discussed what q 12 h dosing schedule could mean for elderly patients who are waking up in pain, or having to wake in MOTN to take their IR opioid. Showed other doses available after 10 mg. Left reformulation folder/FPI for his review. Butrans I've been discussing with you for over one year, and again, it's my goal to get you comfortable using this 1x week transdermal pain patch. 4 strengths for flexible dosing. He allowed me to tape my Butrans 4/30 invite to his mirror inside his office and asked me to keep reminding him about program.
PPLPMDL0020000001	Cleveland	OH	44195	3/25/2014	Visited Rheumatology Dept. spoke with Renee, left Butrans/OxyContin info for Chatterjee, Calabrese, Deal, fellows and nurse education room. Katherine Tuthill CNP, Tiffany Clark, Betsy Kirchner
PPLPMDL0020000001	Cleveland	OH	44127	3/25/2014	Reviewed OxyContin Q12h along with Butrans for those Tramadol failures that require around the clock analgesia, Said Ok feels patients are adequately controlled by present therapy
PPLPMDL0020000001	Cleveland	OH	44143	3/25/2014	Dr Kendis off on Tuesdays, but he was in office completing paper work. He was kind enough to come out and talk with me. Detailed him on controlled release OxyContin core messaging, q 12 h dosing. Left reformulation folder for his review. Detailed Butrans core messaging, 1 x week patch, 4 strengths, can be called in with refills. Detailed OTC products. Also discussed PAP resources Purdue has available and showed him PAP patient assessment tear sheets. He was very upfront and stated he's not interested in writing any long acting opioids. He refers all pain patients to pain mgt.
PPLPMDL0020000001	University Heights	OH	44121	3/25/2014	Met with med asst Jen. Discussed OxyContin conversion after prn oxycodone or percocet. Start dose 10 mg. Discussed Butrans after prn Tramadol, Codeine. Even though dr price can no longer write scheduled meds pr UH; wanted to make staff aware of positioning of my products for all HCPs in practice.<font color=blue><b>CHUDAKOB's query on 04/15/2014</b></font>Jenny, Dr. price is no longer a tiered physician and is therefore no longer on your call list. Try to spend your time with physicians on your list as these are who will increase your sales.<font color=green><b>BALLIE's response on 04/15/2014</b></font>Noted. This call was made before E2E changes and Dr Price was removed from Core list starting 4/1/14.<font color=blue><b>CHUDAKOB added notes on 04/16/2014</b></font>Sorry. You are correct.
PPLPMDL0020000001	Mayfield Village	OH	44143	3/25/2014	Dr Solomon still approves all lunches and appointments for their group. First time visiting him as Purdue rep. Discussed OxyContin indication, q 12 h dosing, 7 strengths, opioid naive starting dose of 10 mg. Discussed Butrans 1x week buprenorphine patch, 4 strengths now. Can be called in with refills. Dr was very candid with me and says he will not write any long acting opioids and if he did it would be few and far between. Discussed PAP resources including patient assessment tear sheets. He thanked me for the information. Left him packet of information, conversion guide for OxyContin, Butrans initiation guide. 4/30 Butrans invite. He stated he'd call me if he needs anything further.<font color=blue><b>CHUDAKOB's query on 04/15/2014</b></font>He was not a candidate to begin with, was he?<font color=green><b>BALLIE's response on 04/15/2014</b></font>This was before E2E direction.<font color=blue><b>CHUDAKOB added notes on 04/16/2014</b></font>Sorry. Thanks
PPLPMDL0020000001	E Cleveland	OH	44112	3/25/2014	Quick Butrans intro 7 day transdermal for those Tramadol failures along with OxyContin Q12h, flexible dosing strengths, Said Ok Requested to book appt. Marcia asked to stop back to schedule
PPLPMDL0020000001	Cleveland	OH	44195	3/26/2014	Reminded of OxyContin Q12h/Savings Cards along with Butrans for those patients requiring around the clock analgesia, Said he will continue to prescribe and recommend for appropriate patients, Has not had the opportunity to further discuss with Dr. Davis, but will!
PPLPMDL0020000001	Cleveland	OH	44195	3/26/2014	Reviewed Butrans for those patients requiring around the clock analgesia, Said She is looking to convert some patients, reviewed Initiation/Titration along with OxyContin Q12h.
PPLPMDL0020000001	Cleveland	OH	44195	3/26/2014	Reviewed OxyContin/Butrans PI's/Initiation/Titration guides, requested appt. Betsy stated patients requiring long-term maintenance narcotic pain relief are referred to Pain Mngmnt. Said she will keep contact info for future reference
PPLPMDL0020000001	Cleveland	OH	44195	3/26/2014	Reviewed OxyContin/Butrans Initiation/Titration guides/PI's, Said he will be transitioning from VC of education and Internal Medicine Residency Dir. no further info needed at this time. Will keep my contact info for further reference
PPLPMDL0020000001	Westlake	OH	44145	3/26/2014	Asked dr what is the clinical benefit of dosing a short acting product atc? She said there was non and it causes more problems doing it that way. She also said that managed care forces doctors tow rite products they wouldn't normally write cause of cost to the patient or edit processes in place. Dr said she would keep a look out for Oxycodone patients that may be appropriate for a product like OxyContin. Reviewed managed care. Also talked about the partners in pain web site. Dr said she likes the concept of Butrans so we reviewed the details of dosing, Initiation guided, steady state. Dr said she had a few patients that may actually be a candidate for Butrans. Also reviewed Tramadol insight.
PPLPMDL0020000001	Cleveland	OH	44195	3/26/2014	Reviewed Butrans for those Tramadol failures, Said she will look to prescribe for those patients requiring around the clock analgesia. Reminded of OxyContin Q12h and 7 tablet strengths, Will be moving to Wisconsin after finishing up Residency this spring
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2014	Quick review of OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Initiation/Titration, Said Ok will consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44114	3/27/2014	Reviewed Butrans Program key takeaway, Said he will continue to find appropriate patients to manage around the clock analgesia, Went over Butrans experience program along with OxyContin Q12h and 7 tablet strengths
PPLPMDL0020000001	Olmsted Falls	OH	44138	3/27/2014	Spoke to dr regarding dosing of butrans and tramadol insight. Dr said he has tramadol patients but rarely will move to an chronic medications after tramadol. I said if they weren't controlled...what would you do.He said he would only give him one or two at max short acting opioid. Reviewed q12h dosing with oxycontin, he said he will give it to appropriate patients who are more severe.
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2014	Reviewed OxyContin Q12h, 7 tablet strengths, formulary coverage along with Butrans for those patients requiring around the clock analgesia, Said He along with Linda will keep it in mind for appropriate patients
PPLPMDL0020000001	Lynchhurst	OH	44124	3/27/2014	Dr Kim off today. Met with medical assistant. Discussed low doses of OxyContin, starting dose, opioid naive dose of 10 mg. Discussed \$70 savings card, preferred formulary status. Discussed Butrans as first opioid or after prn Tramadol, codeine. Can be called in with refills. 4 strengths, opioid naive and opioid experienced dose discussed. Was able to leave my info on Dr. Kim's personal desk prior to leaving.
PPLPMDL0020000001	South Euclid	OH	44121	3/27/2014	Met with med asst Jen. Let her know I'd like dr to review OxyContin FPI Gender Dosing, female data. Discussed opioid naive females dosing consideration.She will discuss with him when he's free. Left OxyContin savings flashcard, formulary grid.Discussed Butrans as first opioid or after prn Tramadol. Left Scott profile for doctor's review.
PPLPMDL0020000001	Westlake	OH	44145	3/27/2014	Asked her when was the last time she saw a tramadol patient for their refill? Focused on that type of patient with atc pain...reviewed caresource and savings coupons. Also reminded her that oxycontin 10mg could be giving for an opioid naive patient if they were appropriate.
PPLPMDL0020000001	Richmond Heights	OH	44143	3/27/2014	Lunch. First time meeting dr anand. He practices with dr balaji every THURS. He's in Hudson 1 day per week & Shaker Heights 1 day per week. He stated he was more involved with dermatology previously; now he is focused on Internal Medicine. (Purdue has speciality as Dermatology; should be IM) lead with Percocet insight; dr agrees 264 days a long time for patient to remain on Percocet. I asked him, when he goes to refill his next Prn Percocet script, that he re assess the patient, to see if pain remains persistent & exists around the clock. If so, wouldn't an ER opioid like OxyContin be more suited to that patient? He will consider. Discussed q 12 h recommended dosing, opioid naive ,START dose is 10 mg. focused on lowest effective dose. Butrans discussed. 1 x week transdermal, 4 patches monthly. Left & showed Butrans initiation & titration guide. Invited him to 4/30
PPLPMDL0020000001	Cleveland	OH	44114	3/27/2014	Reminded of Butrans for those Tramadol Failures who require around the clock analgesia, Reviewed Patient Savings program and BWC

	Richmond Heights	OH	44143	3/27/2014	Insight #11 Percocet, 35% on 90 days, takes until day 264 to convert to ER opioid. Dr seems not to trust his patients, as he says I dont believe many of my patients when they say they " need Percocet & it makes them feel better." Told dr the reason I shared this insight is to get him to take a look at how many short actings he's continuing to refill, month after month, for what may be continuous around the clock pain. Would it be fair to say that pain could benefit from an ER opioid like OxyContin? Dr says it's difficult to get patients to change what they're taking. Using OxyContin core visual I pointed to Percocet and oxycodone conversions & stated I'm not asking you to change what you have your patients on, I'm just asking you to change the method of delivery. Is that fair? He then wanted to know what is morphine equivalent for each dose of OxyContin. I replied with it will come up on patients OARRS report. Dr then states he's worried about cost. OxyContin has been on market for over 18 yrs, gas broad commercial & med d coverage; with savings card, patients get \$70 off co pay & pay first \$30 out of pocket. He will consider. Butrans discussed as first opioid or after Tramadol. Went through initiation guide. Showed approx morphine equivalents for conversion from IR opioids. I'd like you to be more comfortable with Butrans. Shared 30% pain reduction, efficacy safety data, 4,6 pain reduction for opioid naive. Tolerability & ability to titrate after 3 days. Please attend 4/30
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2014	Reviewed OxyContin Q12h, 7 tablet strengths, Initiation/Titration, Savings cards along with Butrans for those patients requiring around the clock analgesiaDebbie is retiring
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2014	Reviewed OxyContin/Butrans Initiation/Titration with Stearns,Joy, Bilfield, Savings cards
PPLPMDL0020000001	Cleveland	OH	44113	3/27/2014	Visited Ortho dept. reviewed OxyContin/Butrans initiation/Titration along with Savings cards (Bilfield,Stearns and Joy)
	Lyndhurst	OH	44124	3/27/2014	Tramadol insight. Asked Dr to consider for just a few patients, if there may have been missed opportunities over many months, for earlier conversion to ER opioid such as Butrans and what could that mean for his patients, with around the clock pain. I want you to use Butrans before you convert patient to Vicodin. Transermal patch may be tough sell to patient after they've been on oral pills. Butrans call be called in with refills, which is convenient for you, your staff and patient as well. Left initiation/titration guide. OxyContin, my goal is for you to warm up to OxyContin for a few patients as well. For patients on Percocet or oxycodone who are not controlled on prn opioid, and need around the clock analgesia. Shared non branded and PAP patient assessment tear sheet. Asked him to read over and let me know if of value and if he wants more copies.
PPLPMDL0020000001	Westlake	OH	44145	3/27/2014	dr asked me if oxycontin went generic. I said no its still a branded Opioid and we discussed the 10mg appropriate for opioid naive patient. I asked the doctor if he every wrote the 10mg q12h of Oxycontin in a while? He said no. I asked what he dosed...and he replied with his patients are more complicated. Dr said he doesn't have many patients that require chronic pain medications.<font color=blue><b>CHUDAKOB's query on 04/16/2014</b></font>Lisa, you indicated you presented OxyContin and Butrans, but your call notes only show you discussed OxyContin. Can you please clarify?<font color=green><b>BARTOLI's response on 04/18/2014</b></font>There was not a lot of detail in the Butrans presentation other than a mention or two.<font color=blue><b>CHUDAKOB added notes on 04/22/2014</b></font>If you talk about Butrans at all, then it MSL email communication with Dr. Dell and Ms. Algeri regarding BUP3031 participation under Dr. Anthony DeRoss. Ms. Algeri noted that she is the primary contact to proceed, Dr. Dell responded with additional protocol questions that were forwarded to the PPLP medical team for review.
PPLPMDL0020000001	Westlake	OH	44145	3/27/2014	Reviewed commercially insured coverage and coupons with dr for both Butrans and OxyContin. discussed dosing q12 for those patients appropriate instead of dosing the short acting products atc. Asked if OxyContin sounded reasonable for the patients like those? Dr. didn't have an answer and walked into a room.
PPLPMDL0020000001	Lyndhurst	OH	44124	3/27/2014	Lead with Percocet insight. Discussed missed opportunities for re assessing patient who may need ER opioid around the clock. Discussed lowest effective dose, Opioid haive dose, reduce dose by 1/3 to 1/2 for debilitated non opioid tolerant patients. Discussed gender differences, opioid naive females have 25% higher plasma concentrations, greater frequency of typical opioid AE's than males, even after weight adjustment. Shared pharmacodynamic study data, section 12.2 FPI. Showed and discussed percocet, oxycodone conversions to OxyContin, START principles. Sareh says this guide will be very helpful, she's warming up to low dose OxyContin. Butrans after Tramadol or codine discussed. Can be called in with refills, which can save you and your staff time. Shared PAP resources including PAP assessment tear sheets, which she really liked and will start using
PPLPMDL0020000001	South Euclid	OH	44121	3/27/2014	Met with pharmacist. Discussed OxyContin new \$70 card, left savings flashcard. Q 12 h dosing, controlled release. Discussed Butrans, 1 x week transdermal, now 4 strengths. Left NDC/FPI brochure for Butrans. They have just one patient, of Dr. Shaid Butt, who's on Butrans 20 mcg/hr. OxyContin dispensed regulary. She states they have some type of point of sale savings for patients, not sure what its called. Left protect your pharmacy brochure, and one Butrans patient guide.
PPLPMDL0020000001	Cleveland	OH	44114	3/27/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Butrans Patient experience program along with BWC. Said Ok will consider, Reminded of OxyContin Q12h and 7tablet strengths
PPLPMDL0020000001	Westlake	OH	44145	3/27/2014	Mrs. Seikel the office manager said the doctor is very busy and doesn't see reps outside of a lunch. I Reviewed managed care for oxycontin and butrans.
PPLPMDL0020000001	Westlake	OH	44145	3/27/2014	the ma (can't remember her name), but she told me the doctor was not available to speak with today. I showed her some Butrans intation guide and talked about moderate pain for butrans and also discussed Oxycontin 10mg for the appropriate opioid naive patient.
PPLPMDL0020000001	Lakewood	OH	44107	3/28/2014	Spoke to Beth the office manager about any managed care hurdles I could assist her with regarding OxyContin or Butrans. She said things were still going ok and nothing special to report. Reminded her about the managed care coverage and coupons for both products.
PPLPMDL0020000001	Westlake	OH	44145	3/28/2014	Reviewed dosing of OxyContin and Butrans and reminded of patch placement.
PPLPMDL0020000001	Westlake	OH	44145	3/28/2014	Discussed Butrans 15mcg reminder and the doses of Butrans. Asked if they have seen scripts recently and if patient have any common questions. Kyle the pharmacist said no. Reviewed dosing of OxyContin and asked if they knew the opioid naive dose and how it was written. Kyle said it was the lowest at 12qh.
PPLPMDL0020000001	Lakewood	OH	44107	3/28/2014	Asked the dr to take a look out next week for that one patient who needs the dose adjustment because their pain medication like Tramadol is not controlling their pain and they are already at two or three pills a day. Consider a different delivery system like Butrans or OxyContin. OxyContin q12h schedule 2. 7 day transdermal patch schedule 3.
PPLPMDL0020000001	Lakewood	OH	44107	3/28/2014	Spoke to lisa the ma and asked her about any troubles getting my products though managed care. She said one patient on Medco part d said it would cost a few hundred dollars so they wrote something else. Reviewed commercial plans and savings cards for both products.
PPLPMDL0020000001	Westlake	OH	44145	3/28/2014	Left dr a Butrans posted and thanked her for her time this week at lunch. Asked her if she saw the patients she talked about yet Nd she said no, but she was going to reevaluate their current medications to see if they are appropriate for Butrans. Also reminded her about the Percocet patients if any of them may benefit for a q12h if appropriate.
PPLPMDL0020000001	akron	OH	44333	3/31/2014	Dr told me that that the patient he wrote Butrans for who was. Vicoden HP was denied go Butrans. Dr said that he couldn't remember if the patient had Buckeye or Caresource. I asked dr what the option was instead of Butrans and he said fentanyl. Dr said its ridiculous to go to fentanyl. I told him the patient most likely on buckeye because Caresource most likely would have covered it. Dr said he's trying to get his patients off their multiple pills for pain and said that he did start another patient on Butrans cho didn't want to take all the pills and it was covered. I asked dr for continued use of Butrans for patients like Kathy and reviewed her profile. Discussed OxyContin and told him to use it when patients on Percocet need a dose adjustment. Reviewed the conversions.
PPLPMDL0020000001	Euclid	OH	44119	3/31/2014	Discussed 30% pain insight and linked to Butrans BUP 3024, discussed inclusion criteria such as osteoarthritis and spinal stenosis which Paul mentioned. Discussed tolerability and ability to tirate in opioid naive. Paul asked what is the end point with Butrans? After further probing, discovered Paul wanted information on weaning patients off Butrans if needed. Responded we have no data on weaning patients off Butrans, added clinical data from FPI, and reviewed removal of Butrans and half life. Reinforced Butrans in more moderate pain patients. Paul concluded that he will use his discretion on length of therapy with Butrans. Discussed OxyContin as option after all doses of Butans have been exhausted. Discussed and showed in FPI: dosing for debilitated, elderly and females. Showed section 12.2, discussed efficacy results of study in 182 patients comparing OxyContin 10, 20 and 30 mg doses. Reminder that OxyContin is not scored and cannot be cut/broken in 1/2. Note: Paul states he rarely changes what Drs. Nageeb and Saeed place patients on initially: he does follow up and maintenance for patients. Short call in akron office and asked her how the office protocol is going with trailing Butrans after 2-3 prn medications? Elise said its going well. I asked her if she is seeing more tramadol, vicoden or Percocet when she sees patients? Elise said she didn't know for sure but would say more vicoden. I told her that's a product when a patient needs that dose adjustment to use Butrans. Showed her the Kathy profile and asked if she has any patient like her? She said she does. Nothing else learned.
PPLPMDL0020000001	Fairlawn	OH	44333	3/31/2014	Spoke with Jessica the pharmacist. She was off for three months on maternity leave and said she's just getting back into the swing of things. I reviewed the patient types for OxyContin Tom and Kathy for Butrans. Jessica said she feels like they are seeing a lot of oatients on hydrocodone recently and agrees that Butrans is a good option for those patients. Jessica said she's not seeing as much OxyContin but is seeing more from Petrus recently. I told her that's great and said that Gilbert said the same thing a few weeks ago. Discussed managed care for each product.
PPLPMDL0020000001	Cleveland	OH	44104	3/31/2014	Reviewed OxyContin/ Butrans Savings Card, with Hakeem
PPLPMDL0020000001	Uniontown	OH	44685	3/31/2014	Dr said she really didn't have time to talk today. I told her that the Kathy profile is something that she should review when it comes to Butrans. Dr said me about conversions from vicoden. I showed her the conversion guide in the profile and discussed it. I asked her if she has a patient in mind? She said not really but she was just curious. Nothing else learned.
PPLPMDL0020000001	Euclid	OH	44119	3/31/2014	Resident working with Dr. Norton Winer. Met for first time in Euclid Avenue. Used hydrocodone/apap insight. 287 days before patients were converted to ER opioid. What are his thoughts. He agreed with Dr. Winer that that is a long time to keep patients on ir opioid, if pain is actually around the clock. Discussed low dose OxyContin as an option for patients failing on ir vicodin, oxycodone or percocet. Dr. says he will typically prescribe OxyContin with a few ir oxycodone for break through pain. Introduced Butrans as first opioid when non opioids not controlling pain and before vicodin or oxycontin. Transdermal option, 1 x week, buprenorphine, 4 patches monthly.
PPLPMDL0020000001	Cleveland	OH	44104	3/31/2014	Quick Review of Butrans for those Tramadol failures requiring around the clock analgesia, Initiation/Titration along with OxyContin Q12h and 7 tablet strengths. Said Ok, will keep in mind and had to leave do to illness
PPLPMDL0020000001	Garfield Hts	OH	44125	3/31/2014	Visited Pain Mgmt (Lokesh, Abraham, Dalbir) OxyContin/Butrans initiation/Titration guides
PPLPMDL0020000001	Cleveland	OH	44120	3/31/2014	Reviewed Butrans/OxyContin Savings Cards with Sue-Tech, Left Butrans Initiation/Titration guides, No new info learned
PPLPMDL0020000001	Cleveland	OH	44104	3/31/2014	Reviewed Butrans for those patients requiring around the clock analgesia, Initiation/Titration, Savings Cards, Said he has 3-4 patients at nursing home that are doing well on Butrans, Reminded of OxyContin Q12h, and 7 tablet strengths. Also discussed IR products that are prescribed around the clock for extended period of time, believes clinicians start with the thought of short term fix and then find them treating long term chronically, patients are adequately controlled and satisfied, thus no change in prescribing habit.Admitted Not necessary proper clinical practice, but reality.
PPLPMDL0020000001	Cleveland	OH	44104	3/31/2014	Quick Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h, flexible dosing strengths.Said she will keep in mind but is referring to pain mgmnt now.
PPLPMDL0020000001	Cleveland	OH	44104	3/31/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok, refers to Dr. Rosenfield
PPLPMDL0020000001	Garfield Hts	OH	44125	3/31/2014	Reminded of OxyContin Q12h, Formulary status along with Butrans for those patients requiring around the clock analgesia, Said Ok will keep in mind
PPLPMDL0020000001	Akron	OH	44333	3/31/2014	Spoke to Dana at counter. I told her about the hydrocodone insight and asked her if it sounds about right based on her experience? She said it does and knows it's a problem. Dana said that she tries to get her patients on ER opioids as soon as possible because it just doesn't make sense to keep someone on short acting products for a long period of time. I told her that's good to hear and showed her the Kathy hydrocodone profile. She said this is exactly what they all see in the practice. She said thanks for the reminder. I asked her if OxyContin is a product she also feels good about? Dana said that OxyContin works and is covered pretty well. I reminded her to use it when a patients already on IR oxycodone need a dose adjustment. She said alright.
PPLPMDL0020000001	Cleveland	OH	44103	4/1/2014	Reviewed OxyContin Q12h, flexible dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia , said Ok, will continue to look for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44109	4/1/2014	Reviewed OxyContin/Butrans savings cards with E. Tech, R's are coming from Nickels, Torres and Casey, no new info learned
PPLPMDL0020000001	Cleveland	OH	44113	4/1/2014	Reviewed OxyContin Q12h, 7 Tablet strengths along with Butrans for those Norco failures requiring around the clock analgesia, Said Ok will continue to prescribe for appropriate patients. Discussed IR around the clock prescribing protocol, feels patients are adequately controlled-<font color=blue><b>CHUDAKOB's query on 04/17/2014</b></font>Isn't Dr. Nickels a Butrans Primary call?<font color=green><b>GUTKOMA's response on 04/18/2014</b></font>Yes-<font color=blue><b>CHUDAKOB's query on 04/22/2014</b></font>Then why OxyContin in the first position?<font color=green><b>GUTKOMA's response on 04/22/2014</b></font>Dr. N. led the conversation off discussing OxyContin, CII's and ER opioids.<font color=blue><b>CHUDAKOB added notes on 04/23/2014</b></font>Wow. That is unusual? Thanks for the clarification.
PPLPMDL0020000001	Cleveland	OH	44113	4/1/2014	Reviewed Butrans for those Norco Failures requiring around the clock analgesia along with OxyContin Q12h, 7 tablet strengths, formulary grids. Said Ok will continue to prescribe for appropriate patients, nothing new learned

PPLPMDL0020000001	Cleveland	OH	44113	4/1/2014	Reviewed OxyContin Q12h, 7 tablet strengths, Formulary, Said she doesn't RX CII's, Reminded of Butrans for those Norco failures, agreed those are the patients she tends to use Butrans, asked for expanded use for appropriate patients, said she will consider. Recommended OTC
	Akron	OH	44310	4/1/2014	Good quick discussion through window. I showed dr the Kathy profile and asked him if he is continuing to look for more patients with a similar profile? Dr said is finding more and more patients that either are in pain on vicoden or he just feels they need a change. I told dr that's good to hear and to continue thinking about how he can expand his use. Dr said he is still finding that even patients on Percocet find good results from Butrans. I told dr that since he has the beliefs he has against using OxyContin that it very acceptable.
PPLPMDL0020000001	Stow	OH	44224	4/1/2014	Quick call thigh window and told him that I have one question and one comment. I asked dr when he has used Butrans recently where he has used it? Dr said the last patient was on vicoden and wanted more and also had asked in the past about other options for pain. I told dr that the profile like Kathy is a good candidate for Butrans like he just described but tramadol patients are also good candidates. Dr agreed and said he likes it because its low dose and its a schedule 3. Nothing else learned.
PPLPMDL0020000001	Fairlawn	OH	44333	4/1/2014	Short discussion its dr about Butrans. Discussed the lowest therapeutic dose and how the vicoden prescriptions help her meet that goal. Dr agreed wits wrong but many parents will only take IR opioids due to cost. I asked dr if she has patients with private insurance? She said sh does. I asked if she has patients in legitimate pain. Dr said she does. I asked if she has nay of those also on tramadol or vicoden? Dr said she does. I asked what the downside would be to start Butrans for that patient instead of titrating the IR? Dr said I have a compelling point. I asked dr to try Butrans which she agreed to. Finished with insurance coverage.
PPLPMDL0020000001	Cleveland	OH	44103	4/1/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia she sending to Pain Mgmt, Said Ok, nothing new learned. Sending to St. Vincent Charity
PPLPMDL0020000001	Fairlawn	OH	44333	4/1/2014	Good discussion about OxyContin and Butrans. Of off with insight about IR oxycodone which of into a discussion about identifying patients on Percocet who need a dose adjustment. I asked dr if its riskier to maintain a patient on IR oxycodone or convert them to OxyContin? Dr said I have a good point and said cost will dictate many prescriptions. I told dr to focus on those that are motivated to change and have good insurance. Discussed Butrans and using the lost effective dose. Dr agreed he tries to. Asked him how he would write a vicoden prescription? Dr said 1-2 pills every 6 hours. I asked dr how that helps him reach his goal of using the lowest effective dose? Dr said again I have a good point because it doesn't. Discussed Butrans dosing, conversions, initiation, patient profiles. Dr said he refers a lot to Vucetic and said he has seen many back on Butrans and really like it. I told dr to focus on patients needing a dose adjustment on tramadol or vicoden who are motivated to change and are legitimate. Dr agreed and said he will use it.
PPLPMDL0020000001	Fairlawn	OH	44333	4/1/2014	Discussed Butrans and OxyContin. Discussed Butrans dosing, schedule 3, 7 day transdermal patch, indication, conversions and patient profiles. Dr asked about abuseability and incidence of AE's. I discussed that Butrans contains buorenorphine which is an opioid and it can be abused and miss used like any other opioid. I also reviewed the AE profile from the main visad and asked him if anything stood out? Dr said no. Dr asked what the cash price is. I asked him if he is interested in starting a cash paying patient on Butrans? Dr said no but it would be nice to know the cash price. I told him I didn't know. Reviewed private prescription plans and Medicare coverage. I asked dr to try it in a patient like Scott or Kathy and reviewed each. Dr said he is intrigued enough to try it.
PPLPMDL0020000001	Barberton	OH	44203	4/2/2014	Spoke with Helen the nurse and dr kadekia the head resident of the internal medicine group for dr Edward. Invited the residents to Jenny's Butrans program on the 30th and gave the review of Butrans. Dr did not know anything about Butrans, yet when I started giving dosing and discussing appropriate patient types according to the naive study, the resident said he could identify with those types of patients. Resident said he would review the fpi and patient profile with the doctor and other residents. I told him I'd be back to follow up on the program and other questions he may have. Reviewed OxyContin dosing.
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Reviewed with Rob OxyContin Q12h along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok nothing new learned
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Quick review of OxyContin Q12, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok will continue to consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said Ok, will consider for appropriate patients.
PPLPMDL0020000001	Uniontown	OH	44685	4/2/2014	Quick hello in hallway about OxyContin and Butrans. I told dr I had one question and comment. I asked him if OxyContin is continuing to provide the efficacy results he expects? Dr said it is but wishes he didn't have to mess around with insurance companies as much to get it approved. I asked him if its just OxyContin or any ER opioid? Dr said that I'm right, it is many of the ER opioids and that the insurance companies font want to approve it and would rather patients be on ER morphine or something like that. I told dr that I would like him to give me some examples next time I'm in of plans that have been difficult to get OxyContin approved. Dr said ok. Reminded dr to continue to think of Butrans as that option for his patients on tramadol or vicoden that need a dose adjustment. Dr said he like Butrans. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Reviewed w/Marge OxyContin/Butrans savings cards along with info on key prescribers, (HIV-Infectious Disease, Hem/Onc)
PPLPMDL0020000001	Akron	OH	44320	4/2/2014	Dr told me dr Bonoy is out of the country and she only has a second so I told her that Butrans can provide a very good solution for her patients who need dose adjustments on products like tramadol and vicoden. Dr said she has used it a few times. I told her if I'm not mistaken, she has had pretty good success! Dr agreed. I asked her why then is she not finding more candidates for it? Dr said patients can't afford it. I told her that I'm sure she has some patients with private prescription insurance where cost sit an issue. Dr said she probably does. Reminded her to also use OxyContin for those patients needing that dose adjustment on Percocet. Nothing else learned.
PPLPMDL0020000001	Barberton	OH	44203	4/2/2014	Emergency medicine. Spoke to the front office coordinator.
PPLPMDL0020000001	Westlake	OH	44145	4/2/2014	Saw dr and the np today. We discussed how he was addressing opioids in his office in 2014. Dr said they try not to write for chronic pain meds. I said so what happens after they have been on NSAIDs for like 90 days and their pain gets worse. He said he may consider Butrans, doesn't want to start writing Tramadol and won't write many short acting products either. I asked who he referred too, he said kabbarra and some other names. Then the dr and np said their patients don't get in right away. I asked if they give them pain medications until they do get into see the doctor and the answer was it depends. Reminded dr about Butrans dosing, managed care coverage.
PPLPMDL0020000001	Barberton	OH	44203	4/2/2014	Also highlighted caesource. Dr said he rarely sees a chronic pain patient but he will remember Butrans if appropriate.
PPLPMDL0020000001	Barberton	OH	44203	4/2/2014	Spoke to Helen the ma about seeing the doctor. I provided her with dosing on both products, she was not familiar with Butrans. She gave me the name of the head resident to talk with about product.
PPLPMDL0020000001	Akron	OH	44333	4/2/2014	Discussed with Kim the rn Butrans and OxyContin dosing. She was familiar with Butrans and I asked her if the new doctor to the group would be interested in learning about Butrans, she said yes and booked a lunch. Dr Patel and Sykes are both in on Wednesdays. Left her fpi for the dr to review and a patient profile.
PPLPMDL0020000001	Akron	OH	44313	4/2/2014	Good discussion about Butrans and OxyContin and introduced the new patient handout tearpad. Dr said he won't use them and doesn't use the patient information guides as well. I asked why and he said that most of his patients he starts on Butrans are Medicare D and they can't use the copay cards anyway. I told dr that even though they don't qualify for the cards they can still find benefit from the patch location descriptions, disposal and proper skin prep. Dr said he reviews all that with the in person. I asked dr if he is getting the Butrans patient experience program surveys in the mail? Dr said he is. I asked what his patients think about them and he said most like them. I asked for continued business with Butrans and to focus more on patients under Medicare age. Reminded about OxyContin use for those patients coming in to see him already on IR oxycodone.
PPLPMDL0020000001	Akron	OH	44333	4/2/2014	I asked dr if he currently has patient that are currently taking 20mg of Percocet a day? Dr said yes. I have him the OxyContin conversion and titration guide and asked him if it makes sense to convert them to IR oxycodone 10mg q12? Dr said it does and said he knows he should be using more of the lower doses. I asked him what the downside its for the conversion? Dr said none as long as the patient can afford it. I told dr to focus on private prescription and Medicare D patients. I gave him the Kathy profile for Butrans and told him to gain more clinical experience with it in a patient like Kathy.
PPLPMDL0020000001	Akron	OH	44320	4/2/2014	Discussed with Elise the doses she finds most useful to her in her practice. Elise said she sees some values in the 5mg dose which she uses for patients on low dose IR opioids and those that are elderly and frail. Elise said that she likes the 10mcg but said she has found great value in the 15mcg dose. I asked why and she said because when patients need more than the 10mcg she and her patients feel better about titrating in smaller increments. I told her that's good to know and told her and dr Vucetic that the 15mcg is again on back order. I told her that I'm sorry and that I will find out chick pharmacists have it in stock to help in patients refilling good opportunity. Discussed OxyContin and showed her the conversion and titration guide. I asked her if it makes sense for a patient needing a dose adjustment on Percocet to convert them to OxyContin in a 1:1 ratio? Elise said it does and she likes it because it works!
PPLPMDL0020000001	Cleveland	OH	44109	4/2/2014	Visited and Left Butrans/OxyContin Initiation/Titration, Kathy profile (Campbell, Dhillon, Dietz, Geho, Gemechu, Slattery, Corrigan, And Baker)
PPLPMDL0020000001	Akron	OH	44320	4/2/2014	Pharmacist told me she's too busy and discussed products with intern Sara. Explained Butrans and asked her what her knowledge is on Butrans? She said a little. Reviewed initiation and conversion guide, Scott profile and conversions. Reviewed copay trial card and copay cards. Discussed oxycotin conversion and titration guide, doses and conversions. Sara said she sees it being filled pretty often. I asked her if it makes sense that when a patient who continues to be refilled on Percocet and wanting more to convert them to the q12 oxycodone? She said she does and they do make recommendations to the patients to discuss things like that with their doctors.
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Visited Dept. Discussed OxyContin/Butrans Initiation/Titration (Sahgal/Hayek)
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Visited Dept. Requested Appt with Armitage, Bobak, Ligaris, And Rodriguez) Left OxyContin/Butrans Initiation/Titration
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Visited Dept. Requested Appt with (Alin, Silverman, Dowlat, Savvides, Conney, Nayak, Little, Sharma, and William) OxyContin/Butrans Initiation/Titration guides
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Visited Pain Mgmt (Hayek, Sahgal) reviewed OxyContin/Butrans Initiation/Titration,
PPLPMDL0020000001	Cleveland	OH	44106	4/2/2014	Reviewed OxyContin/Butrans PI along with Initiation/Titration guides, Said Ok, no info or further contact requested
PPLPMDL0020000001	Akron	OH	44320	4/2/2014	I told dr that I feel like we made some headway in the last two calls with OxyContin and Butrans. Dr said why? I told her that our discussion about using the lowest effective dose and her prescribing IR opioids that give a wide range of total daily dose doesn't lend itself to her goal. Dr said she remembers and admitted it got her to think differently about writing for pain. I told her with products like OxyContin and Butrans, patient selection is vital. I told her that she needs to weed out patients that she knows branded medicines will be cost prohibitive and those she just doesn't believe they are good candidates based on the indication. I told dr she needs to find that subset of patients for OxyContin, especially those already on oxycodone, who are motivated to get their pain under control. Reviewed Kay profile for Butrans and Maggie for OxyContin. Dr said she will try harder to think of oatiens for each.
PPLPMDL0020000001	Westlake	OH	44145	4/2/2014	Reviewed extended release opioid Butrans and OxyContin dosing. Q12h for OxyContin and 7 day transdermal patch. Reminded them on section 12.3 of OxyContin showing the 10mg starting dose for opioid naive patients who are appropriate. Discussed patch placement
PPLPMDL0020000001	Euclid	OH	44117	4/2/2014	Percocet insight. Asked Dr to consider that for patients on IR Percocet for several months, perhaps there were a few missed opportunities for conversion to controlled release delivery system. Steady state, half life data shared from FPL. Also discussed access for patients @ Painesville location: who are cash pay or commercially insured: \$70 cards can be used every 14 days. Dr states many plans continue to require patients to try morphine first. Discussed male Moufawad patient who's been on Percocet 10 mg 4x daily; Dr DeMicco recently placed patient on Butrans 10 mcg hr; allowed patient to keep Percocet as supplemental analgesia. Patient is laborer, who must stay alert for job daily. Patient did not want to increase Percocet dose. Upon follow up, patient says Butrans making a difference and he actually had 5-6 Percocet left. Typically, patient says, he runs out of Percocet at end of month. Walgreen's female pharmacist (Univ Hts location/Cedar & Warrenville Hts) gave patient a hard time. Pharmacist tried to change both Dr. Moufawad/Dr. DeMicco recommendation for patient initially. Discussed and left Butrans patient tear sheets. Also learned Dr. Pizsel OM is meeting with their practice next week. Dr. Pizsel has asked Dr to take over, 500+ BWC patients. Most would see Dr DeMicco in Painesville, as that's closest in proximity to Geneva. Dr will continue to follow up regarding this conversion of Pizsel patients prior to Aug. 1.
PPLPMDL0020000001	Berea	OH	44017	4/2/2014	Thanked dr for the time last week, I stated my goal is pretty simple. Identify those patients in your practice not controlled that are on short acting products that may be in need and appropriate for an extended release agent. like the Tramadol patient to Butrans or the Percocet patient to OxyContin if appropriate. Dr said ok and walked into a room.
PPLPMDL0020000001	Barberton	OH	44203	4/2/2014	Nurse told me to return at another day cause they were busy. I left Butrans fpi and David profile gave her the indication and dosing.
PPLPMDL0020000001	Cleveland	OH	44112	4/3/2014	Discussed OxyContin Q12h, 7 tablet strengths, IR around the clock, Dr. agreed and will consider for appropriate patients. Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok
PPLPMDL0020000001	Cleveland	OH	44113	4/3/2014	Reviewed Butrans for those Tramadol/Norco failures requiring around the clock analgesia, Patient info booklets. Said Ok will continue to prescribe to appropriate patients

	Cuyahoga Falls	OH	44223	4/3/2014	Short discussion as he still has two procedures to complete. I told him about the oxycodone insight and the hydrocodone insight. Dr agreed that they see too many patients on way too much opioid on board. I told him my challenge is to educate the primary care physicians and internists to use the products properly and find out why and when they refer to PM. Dr said that's a great idea to teach them how to use OxyContin because Dr said he sees too many patients on way too much Percocet or OxyContin. I asked for continued business Dr said he is really liking Butrans. I asked why and he said for patients on vicoden or Norco it works great and patients like that its a week long. I told him great and to use it even for patients on tramadol. Dr said if his patients are on tramadol its been added to vicoden or Percocet.
PPLPMDL0020000001	Cleveland	OH	44124	4/3/2014	Met w same med asst from last time. Left packet of info for Dr. including updated OxyContin formulary grid, protect your practice brochure, PAP patient tear sheets.
	Mayfield Heights	OH	44124	4/3/2014	Window call w med asst Carrie. Laham off today, will be in tomorrow Fri 4/4. Gina Savoca @ Hillcrest hospital. Dr Dewes only one doing office visits. Discussed OxyContin formulary updates, opioid naive dose of 10 mg. Discussed, left Butrans patient tear sheets. Left OTC Senokot, Senokot S, tear sheets for Laham. Discussed, left savings cards, both products.
	Highland Heights	OH	44143	4/3/2014	Met with Kristen. Shared protect your pharmacy brochure, discussed other Purdue RX Patrol resources. Discussed low dose OxyContin. She recently ordered OxyContin 15 mg for a patient. Discussed gender, geriatric data from FPI. Section 12.2 data on results from 182 patients in clinical trial, comparing, 10,20 & 30 mg OxyContin to placebo. Still no Butrans dispensed, ever. Discussed & left 1 patient guide. Reminder 4 strengths with newest strength being 15 mcg hr.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	4/3/2014	Quick hello through window and told her I have one question and one comment. I told her about the hydrocodone insight and asked her how in her practice she avoids treating around the clock pain with IR opioids? Dr said sometimes you have no choice because they just won't take anything. Than the cheap alternative but she said she tries to get patients on longer acting products sooner. I told her that's great to hear and that patients on hydrocodone are good candidates for Butrans. Gave her the Kathy profile and reminded her how to dose. Closed with OxyContin as the product for patients already on IR oxycodone.
	Akron	OH	44312	4/3/2014	Talked to dr through window about Butrans and told him I had one question and one comment. I asked dr if he feels that patients on tramadol who need a dose adjustment would be appropriate for Butrans? Dr said it depends on the pain level and reason for pain. I asked him if he had patients like Scott and showed him the profile and reviewed the specifics. Dr said in that case it makes sense. I asked dr if he has patients that fit a similar profile as Scott? Dr said he does and has started Butrans for some of them. I told him great and to continue please. Discussed new Butrans managed care grid with Donna the office manager.
	C. Falls	OH	44223	4/3/2014	Spoke with Cindy and Denise about splitting Butrans boxes. Cindy said it doesn't make economical sense because many insurance plans will not allow patients to pay for just one or two patches. The entire box will be billed out so it doesn't make sense. I told her I understand and its that I spoke about it with one of the providers in pain mane meant. Denise said she had the same discussion with the provider. Discussed OxyContin dosing and patient types. I asked about stocking of the 15mcg and she said they have all the doses.
	Cuyahoga Falls	OH	44223	4/3/2014	Led with insight about oxycodone and percentage of patients on the medicine for 90 days or longer. I told dr that the problem is that patients as a whole at being left on products like Percocet or even hydrocodone was to long. I asked dr if he agrees with this statistic and what he sees in his practice from the referrals he gets? Dr said he agrees that patients are not being placed on proper medicines or even the right doses. Dr said many of the patients com see him on Percocet and vicoden or Norco. Dr said it gives him more work. I asked if he would rather have patients coming in on the lowest effective dose and on products like Butrans or OxyContin? Dr said for sure. I told dr that specific patient selection is vital. Discussed Scott and Kathy, titration, and managed care. Dr said he really likes Butrans because its a product that works, safe and patients like it. I told him that there are AE's with Butrans and discussed them from the opioid experienced trial. Dr agreed and asked about contraindications. Read them from the visaid and asked why he asked? Dr said he was just wondering. I asked him for continued business and to use OxyContin in a place where the patients are already on IR oxycodone. Dr said ok.
PPLPMDL0020000001	Cleveland	OH	44106	4/3/2014	Quick review of OxyContin Q12h, Savings cards along with Butrans for those patients requiring around the clock analgesia, Initiation/Titration. Said Ok would like to further discuss. Scheduling appt with Terrah
	Cuyahoga Falls	OH	44223	4/3/2014	Good discussion around insight about hydrocodone and % of patients on them for 90 days or longer. Jake agreed and said that its a concern for him and other pain specialists because it makes more work for them when they get patients taking way too much IR opioids. Jake told me he had a patient of dr Granthams who was taking 700 mg of Morphine equivalent. I agreed and told him he's right and its a big challenge. Jake told me that they should be either referring out sooner or dose correctly. Discussed Butrans use in patient types like Scott and Kathy, titration, and that in the Bup 3915 trial the only supplemental analgesics used were NSAIDs. Jake said that's good to know. Asked for continued business. Discussed Maggie profile for OxyContin, conversions, when to initiate with OxyContin and to convert Percocet patients.
	Cuyahoga Falls	OH	44221	4/3/2014	Told dr about insight about hydrocodone. I told her the reason I told her this is the problem that's happening is too many patients are being treated with IR opioids for around the clock pain and it concerning to me. I asked her what he thighs are on that topic? Dr said she agrees its a problem but insurance companies aren't helping either. I told her I agreed and told her I realize not all her patients are appropriate for ER opioids like Butrans or OxyContin but one patient I wanted her to use Butrans on are the ones like Kathy. Dr agreed and said she will continue to write Butrans.
	Cleveland	OH	44103	4/3/2014	Responded to Dr. request - Reviewed Butrans Patient info booklets, along with OxyContin Q12h, 7 tablet strengths, formulary grids. Dr. said Ok, reviewed new NEON Center policy
	Cuyahoga Falls	OH	44221	4/3/2014	Used the oxycodone insight about percentage of patients continuing on oxycodone. I told dr that the reason I'm telling her this is because there may be some opportunities she is missing when it comes to converting those patients to OxyContin. Dr said she uses OxyContin as had no issues using it. I asked here she is primarily using it and she said for her moderate to sever pain patients. I told her I'm glad she said moderate because of the indication. I told her to reevaluate patients she refills on oxycodone and consider converting them to oxycotin. Dr said ok. I told her I'm still waiting for her to wrote a Butrans prescription. Dr liked and said she knows. I asked her what is it about Butrans that makes her hesitate? Dr said she didn't know. Reviewed all key selling messages and asked her to try it.
	Cuyahoga falls	OH	44223	4/3/2014	Good conversation about the OxyContin insight and % of patients still on IR oxycodone for 90 days or more. I told him that the reason I'm telling her this is because there is a problem right now with IR opioids being used to treat around the clock pain. I told her that she gets it because from what she has told me in the past, she tries to get patients medicines streamlined into ER opioids ASAP. Kim agreed and said she realizes there's a problem when she sees referral patients on way too much IR opioids and they still are in pain but believe the pills still work. Kim said that with Butrans, it a product that many older patients really take to because its a patch and they are already taking pills for other issues and don't want another. Discussed lowest therapeutic dose and patients types for Butrans and OxyContin. Kim said she had no problem using OxyContin and finds that its easiest to start on a patient who is taking Percocet. I asked if she gets any pushback? She said yes. I asked if she has ever told a patient she is giving them the 12 hour version of the medicine they have been taking? She said she has not and its a great idea and will use it. I asked for more a business on both products and explained the copay cards.
PPLPMDL0020000001	Cleveland	OH	44127	4/3/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said she has a patient in mind that she will consider
PPLPMDL0020000001	Barberton	OH	44203	4/3/2014	Dr thought converting patients to extended release product made sense for those on 3 or more short acting products for longer than two weeks he said. De said he liked the. turbans patch technology. Dr said managed care was his biggest concern. Reviewed managed care- workers comp and care-source were mentioned by the dr. Reviewed OxyContin dosing schedule. Doctor said he was aware of the reformulation of OxyContin. When asked why people write hydrocodone products atc dr said he was not sure, yet he guessed it was because most people hope the patients will only need it for a few weeks at first, then it increases when the patient is not controlled.
	Cleveland	OH	44103	4/3/2014	Reviewed with Sheila Tech. Butrans- 7 day Transdermal, dose forms along with OxyContin Q12h and 7 tablet strengths
	Highland Heights	OH	44143	4/3/2014	Communication insight #3, 71% of HCPs feel patients do not share enough info with them regarding their expectations for treatment. Also discussed with med assistants. They feel that patients share more than enough info; are very demanding and sometimes scare the staff because "they want their pills." Dr feels he receives adequate info from patients. Med staff also stated dr is VERY cautious as to what/which opioids he writes. Their perception is that he only has a few patients on OxyContin. This lead me to bring up section 12.2 of OxyContin fpi, dr will keep that information in mind. We discussed the ability to titrate in 24-36 hrs if needed, to next dose of 15 mg, dosed q 12 h. Does using OxyContin in lower doses for appropriate patients make sense? dr replied yes. Transitioned to opioid naive patients for Butrans. Also discussed opioid experienced and initiating Butrans after Tramadol or codeine. Dr. states I use a lot of Butrans, my patients do well. Reminded him of 4 strengths now, greater dosing flexibility. showed him new tear sheets: does he prefer tear sheets or booklets? He likes the tear sheets. Updated him on MED D wins with Butrans, he was very happy to hear of additional Med D plans as that's a good chunk of his business. Also updated on OxyContin commercial/Med D status. OTC: Dr prefers Senokot S.
	Cuyahoga Falls	OH	44223	4/3/2014	Discussion with Glenn the pain management pharmacist at lunch with physicians. Discussed Butrans and OxyContin formulary status, current scenario with pa's for Butrans and Glenn said there is not one particular plan that gives them a problem or continually gives them denials. Glenn asked about buckeye and Caresource and couldn't remember status for Butrans. Discuss Caresource PA and buckeye status. Glenn said they may be using it more in the hospital for inpatient use when IR fails and will get it from New Choice. OxyContin status and patient profiles.
	Lakewood	OH	44107	4/4/2014	Dr asked about managed care, reviewed commercial insurance for both product ts. Asked if he has tried to write Butrans in caresource patients. He said not yet.
	Cleveland	OH	44195	4/4/2014	Reviewed OxyContin Q12h, along with Butrans for those patients requiring around the clock analgesia, Initiation/Titration, Said Ok will consider for appropriate patients. Asked to follow up with appt. Times and availability
	Cleveland	OH	44102	4/4/2014	Reminded of OxyContin Q12h, Formulary grid along with Butrans for those Tramadol failures requiring around the clock analgesia. Said ok, will consider for appropriate patients
	Lakewood	OH	44107	4/4/2014	Discussed lowest effective dose and asked hi. How he knew what that was for patients taking short acting products atc for an extended period of time. He said he doesn't really know. The dr also said that they will always take more. I asked why do you treat patient in pain with opioids at in the first place? Dr said habit. Dr said he would use more Butrans in the appropriate patients. He said his concern was that patients on vikoden won't want to be switched to a patch technology.
PPLPMDL0020000001	Uniontown	OH	44685	4/4/2014	Good discussion over lunch about Butrans and OxyContin. Led of with two insights on tramadol and hydrocodone. I discussed with dr that there are simply too many patients being treated with IR opioids for around the clock pain. Dr agreed and said he knows he does it and can think of about 4-5 patients he has in that scenario. Discussed wi dr the conversation he needs to have with those patients about taking a different path especially is they continue to complain about being in pain. Dr agreed and said its just something that he feels if he starts an ER opioid that he's committing him and his patients to long term opioid use but said he knows he's already doing it but with a IR opioid. I told him. I. Glad he realizes that now and asked him if his goal is to write the lowest effective dose when he writes any medicine? Dr said it is. I asked him when he writes a IR opioid 4-5 times a day for a patient how that's helping him reach his goal? Dr said its not. I asked dr to choose patients that are motivated to change and he's knows they are legitimate patients. Dr said he Ned's to have those types of discussions with his patients and he will start Butrans. I asked if he has anyone on Percocet? Dr said he has one or two. I discussed converting those patients to the single entity OxyContin.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2014	Window call Reviewed OxyContin/Butrans Formulary grids, asked to leave Savings Cards, Maria- Said Mondays are better days, leave card and info to be contacted for appt
	Mogadore	OH	44260	4/4/2014	Dr walked by front desk as I was up front. Dr said he write a Butrans today. I told him that's great to hear and asked him what the patient was on prior and he said vicoden. I asked him which dose and he said 10mcg because he said he thought the patient was taking 30mg a day or so. I told him he initiated correctly. In asked for continued use and when he will follow up with the patient. Dr said he thought in 2 weeks. I asked for more OxyContin for those already on IR oxycodone. I told dr the are too many patients today being treated with Percocet for every day pain. Dr said he knows and wishes OxyContin was cheaper. I told him that for a branded medicine is is very affordable for many. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Lakewood	OH	44107	4/4/2014	Asked the doctor if it made any sense to give someone an extended release products instead of dosing short acting products atc? He said yes. I said keep those Percocet patients in mind for OxyContin and perhaps the Tramadol patients in mind for Butrans if they are appropriate.
	Lakewood	OH	44107	4/4/2014	Asked Karen the rn about any managed care rejections on my products she said no. Reviewed caresource coverage for Butrans and commercial insurance.
	Cleveland	OH	44113	4/4/2014	Quick Butrans and OxyContin reminder, Formulary grid review along with savings card utilization, Said Ok, nothing new learned.
	Stow	OH	44224	4/4/2014	Spoke with Greg the pharmacist and discussed Butrans copay cards. Discussed the current cards he has are expired and provided him new ones. I asked if the Butrans scripts have picked up recently? He said it has a bit and asked him if he has the 15mcg dose? Greg said he does not. Discussed the back order situation. Nothing else learned.
	Cleveland	OH	44113	4/4/2014	Visited Pain Dept. (Shen) Reviewed OxyContin/Butrans Initiation/Titration, Formulary grids
	Cleveland	OH	44113	4/4/2014	Visited Pain Mgmt Dept(Shen), Ortho Dept (Stulberg) OxyContin/Butrans Initiation/Titration along with Formulary grids
	Cleveland	OH	44195	4/4/2014	Visited Anes/Pain Dept/ Raymond/Travinek, OxyContin/Butrans Initiation/Titration

PPLPMDL0020000001	Tallmadge	OH	44278	4/4/2014	Spoke with Rosemary the pharmacist who once was at giant eagle in uniontown. Discussed Butrans and fills in her pharmacy. She said she hasn't been there long enough to know but said she thinks they have a couple of patients on it. I discussed doses and titration along with patient types. They do not have the 15mcg dose. OxyContin dosing, conversion and titration guide. Rosemary said they have almost all doses because she looked the
PPLPMDL0020000001	Akron	OH	44310	4/4/2014	Led with the oxycodone insight and told dr that I'm telling him this because too many patients are being treated for around the clock pain with IR opioids. Dr agreed and said he may have one handful of patients he refills on OxyContin but said I should know he doesn't write any new prescriptions. I asked him if he has patients on Percocet? Dr said not many. I told him even if he has one that has been on it for 3-6 months that they would be a candidate for q12 oxycodone. Dr said ok. Reminded that Butrans should be initiated when patients need a dose adjustment on vicoden and reviewed the initiation and titration guide.
PPLPMDL0020000001	Akron	OH	44307	4/4/2014	Good discussion with dr about OxyContin and Butrans. I asked dr that in the wound center what types of patients he seeing and if its only acute pain or its chronic pain? Dr said he sees mostly patients in constant pain from diabetes, bed sores, post operative pain and acute pain that has manifested into chronic pain. I asked dr if he is using OxyContin? Dr said he is for may of his patients. Dr said that the 12 hour OxyContin works very well and doesn't want to treat every day pain with short acting oxycodone. I told dr that's go great to hear. I showed dr how he needs to be initiating and titrating OxyContin. Dr asked about copy cards and I told him I will get them to him. I asked which doses he's using most and he said 10-40 mg q12. I told him I'm glad he's using the lower doses as well. I asked about Butrans and he asked about using it and OxyContin for post operative pain. I explained from both visads under the limitations of use about post operative pain. Dr said that's good to know and said the he's thinking he should be using more Butrans for some of his patients. Explained the dosing, titration and patient type. Raid he has some patients that would fit for Butrans.
PPLPMDL0020000001	Akron	OH	44307	4/4/2014	Spoke with dr Ray Leone in the wound center within the hospital. Discussed his uses for OxyContin and the types of patients he sees in the hospital. Discussed how OxyContin can be used for post operative care however did specifically discuss limitations of use from visad. Discussed Butrans use and patient types.
PPLPMDL0020000001	Cleveland	OH	44113	4/4/2014	Window Call, Reviewed Butrans for those Tramadol failures requiring around the clock analgesia along with OxyContin Q12h and formulary grids, Said Ok, booked appt
PPLPMDL0020000001	Lakewood	OH	44107	4/4/2014	Some to lisa the nurse about any managed care problems happening with Butrans or OxyContin. She asked about part d coverage for OxyContin. Reviewed the Information.
PPLPMDL0020000001	Akron	OH	44312	4/4/2014	Short call as I was speaking to him about coffee on a monday of next week. Discussed oxycodone insight and told him the reason why I'm telling him this is because there are way too many patients being treated with products like Percocet for around the clock pain. Dr said he agreed. I asked him when he uses OxyContin where he's using it? Dr said for those on Percocet. I began to discuss more however dr got a call from the hospital and was behind. Dr said to pic up conversation next week.
PPLPMDL0020000001	Cleveland	OH	44195	4/4/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Requested address' of departing Pain Fellows
PPLPMDL0020000001	Stow	OH	44224	4/4/2014	Asked to see dr yang and he came to window. I asked him if he has been using to copy cards for Butrans in his private insurance patients? Dr said he is. I told him the ones he currently has are expired and I'm giving him new ones. Dr said thanks. I asked dr to please focus on patients failing on tramadol or vicoden. Dr said ok. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44125	4/7/2014	Reviewed OxyContin/Butrans, Angle/Tech no savings cards needed,
PPLPMDL0020000001	Garfield Hts	OH	44125	4/7/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Patients requiring around the clock analgesia, Said Ok, will keep in mind for appropriate patients.
PPLPMDL0020000001	Garfield Hts	OH	44125	4/7/2014	Reminded of OxyContin Q12h, flexible 7 dosing strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said he will consider for appropriate patients, feels patients are doing Ok.
PPLPMDL0020000001	Cleveland	OH	44125	4/7/2014	Visited Surgery Dept. Eleene K. Clinical nurse mgr, OxyContin/ Butrans PI product review, all appts Requests be emailed
PPLPMDL0020000001	Olmsted Falls	OH	44138	4/7/2014	Discussed Butrans 7 day once weekly dosing and reviewed the Scott profile. I asked the dr why he hasn't written Butrans for a while and he said he wasn't sure about it. I asked if it was the dosing or the patch technology? He said a little of both. I said are you comfortable writing schedule 2's. He said only in the more severe pain patient.
PPLPMDL0020000001	Akron	OH	44333	4/7/2014	Spoke with dr about his use of Butrans and the patient types he is finding success. Dr said his little old ladies are still the patients he is finding the most success. I asked him about his patients under Medicare age that could be candidates for Butrans. Dr talked about patients 30 and 40 who really don't have the pathology to write IR opioids. Dr said patients must have pain resulting from a physical pathology that has required surgery or other intervention. I asked him if patients in their 50's would be candidates? Dr said if they meet his criteria than yes. I asked for continued business and discussed the back order of the 15mcg dose. Told him about pharmacist that currently stock it. Discusses his use of OxyContin for those already on the oxycodone molecule. Dr said he has been having some issues for Exalgo so there is more opportunity for OxyContin. Dr said he knows he writes a good amount of it because it works!
PPLPMDL0020000001	Garfield Hts	OH	44125	4/7/2014	Visited Surgery Dept.(Eleene Kempe-Clinical Mgr)Reviewed OxyContin/Butrans, Initiation/Titration, Request appt directly with surgeons
PPLPMDL0020000001	Cleveland	OH	44106	4/7/2014	Reviewed OxyContin and Butrans PI's along with Initiation/Titration guides and asked for no further contact. Said she has my contact info and will call if she has any questions.
PPLPMDL0020000001	Akron	OH	44333	4/7/2014	Short discussion as I was taking with dr Vucetic. Discussed Butrans dosing with 5 and 10mcg, titration and who is Butrans being used for? Else said she does use the 5 mcg dose and finds success with it. Noting else learned.
PPLPMDL0020000001	Fairlawn	OH	44333	4/7/2014	Spoke with Gilbert and Sue about OxyContin and Butrans. Gilbert told me that he just filled an 80 mg OxyContin for dr Petrus. Gilbert said that the patient had bone cancer and needed a strong opioid. Discussed dosing and titration and conversions of OxyContin and the pharmacy protocol for checks and balances for opioid dispensing. Butrans discussion and about patients being treated for around the clock pain on IR opioids. Gilbert said its an excellent option for patients on tramadol and vicoden and discussed 15mcg dose. Gilbert checked the stocking of the 15mcg and the back order. Gilbert said he has all doses in stock and said his wholesaler does not have any. Discussed Kathy profile and vicoden patients similar to her profile as good candidates.
PPLPMDL0020000001	Akron	OH	44312	4/7/2014	Discussed patients he currently has on Butrans coming from Norco and Percocet. Dr talked about a 40 year old female patient on Butrans 10mg who was experiencing a mild rash due to Butrans. Dr said he probably would not have brought it up but felt inclined. Discussed patient toys for Butrans, Kathy and Scott profiles and insight about tramadol. I asked when he has a handful of patients that he knows are motivated and legitimate to initiate Butrans when they are faced with a decision to make for the patient to titrate the IR, move to another IR, or use another option like Butrans. Dr agreed and said ok.
PPLPMDL0020000001	akron	OH	44333	4/7/2014	Discussed his use of Butrans and his most recent patient he started on Butrans who had buckeye and was denied. I told dr that I know he tried it again for a Caresource patient and what the deal is. Dr said he can't remember but is seeing more Molina managed Medicaid. I discussed specific patient type selection and discussed how he needs to properly identify patients for Butrans and OxyContin. I told him he needs to identify motivated patients who he trusts and thinks they are in legitimate pain. Dr agreed and said that's its tough because he said that he is trying to not write a lot of opioids because he's not a pain mane meant dr. I agreed and said maybe when he knows he's going to refer to pain management to write Butrans or OxyContin as the discharge product. Dr said its a good idea. I told him to focus on patients meeting his criteria for opioids and also already on IR oxycodone.
PPLPMDL0020000001	Garfield Hts	OH	44125	4/7/2014	Quick OxyContin reminder, Q12h, 7 tablet strengths and formulary grid, Said Ok, nothing new learned
PPLPMDL0020000001	Brooklyn	OH	44144	4/7/2014	Reviewed OxyContin Q12h, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok, will consider.
PPLPMDL0020000001	Brooklyn	OH	44144	4/7/2014	Quick review of OxyContin Q12h, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok and rarely prescribes any narcotics
PPLPMDL0020000001	Akron	OH	44312	4/7/2014	Discussion about his existing patients who are currently on tramadol or hydrocodone who have continued to be refilled on them month after month. Reviewed Butrans 7 day schedule 3 opioid that is suited for those patients needing a dose adjustment. Discussed Kathy profile and asked him if it makes sense to use it and if he has any reservations in using it? Dr said he does not and them reviewed the AE profile from the opioid experience trial. I asked dr if there is anything that stands out that would prevent him from using it? Dr said nothing that he wouldn't expect from an opioid. I asked dr to try it first in the right patients and gain some clinical experience. Dr
PPLPMDL0020000001	Akron	OH	44312	4/7/2014	Discussed OxyContin but led with insight on oxycodone. I told dr that the reason I'm telling him this is because there is a big problem with patients being treated for around the clock pain on IR opioids and I want him to take patients who are still in pain on Percocet and convert them to OxyContin. Showed him he conversion scale from the MVA and dr said that most of his orients are addicted and will not switch because its the stigma about OxyContin that prevents him from using it. I asked him if its his stigma or his patients? Dr said its his. I told him he's going to need to get over that and asked him if he has any patients that he can treat that are motivated to get their pain under control? Dr said maybe a handful. I told dr lets start there and move from there. Dr said ok. Discussed Butrans dosing and patients types along w when patients may be appropriate.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Discussed who is the appropriate patient using the Pam and Scott profile. After reviewed I asked where he thought he would like to try Butrans this week? Dr said depends on managed care and if he will even see a patient like Pam or Scott. I asked if he had any concerns with Butrans in these patients and he said no. Reviewed dosing, also covered OxyContin and its dosing. Focused on the core visual aid where it demonstrates the Percocet and OxyContin dosing, dr said he felt more comfortable writing schedule 3 like Butrans over OxyContin. I asked why. He said the name OxyContin. I asked when the last person asked for OxyContin. By name. He said nothing.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Reviewed the visual aid regarding abuse deterrent.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Asked the doctor when was the last time he converted some from Percocet to OxyContin? He said it's been a while. I said if you had someone being dosed on 2 or three a day for an extended period of time. at what point do you think about a different delivery system with the same molecule. He said he doesn't have many chronic pain patients.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Dr said he thinks Butrans should be used more by primary care drs. We reviewed Pam he said he doesn't have many chronic pain patients. Reviewed the primary care insight....and went to the OxyContin page showing the conversion.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Reviewed the FDA snit number 16 and showed the main core visual aid header where it states the information. Told him that I only wanted to focus on the patients currently being treated with an opioid and those that are dosed twice a day with short acting opioids. Dr said right away he has them, I said it was not appropriate for the products I promoted to be used prn or acutely! reviewing the limitations. But the question is at what point does the patient coming back ask for more medication ...wanted to move from 2 pills a day to 3 pills a day. Why couldn't a different delivery system be then presented to the patient at that point. Dr said it could. Reviewed how to start Butrans, also worked in OxyContin and reviewed the scheduling of each products. I asked the doctor if his patients on med d maybe in the nursing home, might be a place to try Butrans if appropriate. He said maybe.
PPLPMDL0020000001	Uniontown	OH	44685	4/10/2014	Reviewed Safety data like renal,hepatic,elderly populations. Also covered supplementation. Dr said they refer to dr, kabbarra and that they want to deal with less pain patients. We talked about those patients he is referring. Dr said the problem is the patients want to come back to him and be treated. Dr said dr kabbarra mentioned Butrans to him before. I asked why he hasn't tried it. He said he wasn't sure about it cause he doesn't have experience with it. Reviewed managed care last.
PPLPMDL0020000001	Valley View	OH	44125	4/10/2014	I asked dr what IR opioids she sees most of in the practice? Dr said probably Percocet. I asked her what she does when her patients on Percocet want more? Dr said she is a minimalist when it comes to opioid prescribing. I told her there is nothing wrong with that and wither Butrans IR OxyContin can be great for her philosophy. I asked her what she does when a patient on any IR opioid comes in for a follow up and says they need more IR opioid? Dr said she doesn't want to give it to them because its too many pills. I asked her if the lowest effective dose is something she believes in? She said it is. I asked her how multiple pills of an IR opioid for treating around the clock pain is helpful? Dr said some of the pain she sees is acute. I told her to take out acute and prn pain and focus on patients with around the clock pain. Dr said ok and that makes sense. I explained Scott and Kathy profiles and asked her if she had patients like those? Dr said she doesn't have her own patients yet so she needs to speak to the patients dr before she changes medicines. I asked her if she does that currently and she said yes. I asked her if Butrans makes sense for what we discussed and she said it does now and thanks. Reviewed OxyContin information and dosing guide with conversions. I asked her to use OxyContin for those Percocet
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/10/2014	Discussed OxyContin/Butrans utilization by clinicians, dosing and opportunity to recommend to prescribers. Aaron said he will continue to recommend/advise for appropriate patients
PPLPMDL0020000001	Westlake	OH	44011	4/10/2014	Spoke with Lisa e pharmacy tech about the situation with Higley and Sassano. Lisa looked up cash price and said even if the insurance wasn't ran it he only dose that would have been over \$400 would be the 20mcg which is \$500. Lisa asked about copy cards and I gave her new cards. Discussed he appropriate patients with Scott and Kathy. Lisa said they have all doses and told her about the 15mcg back order. Discussed OxyContin dosing and Percocet conversions and copy description.
PPLPMDL0020000001	CLEVELAND	OH	44195	4/10/2014	Open with Insight regarding the FDA. Dr said he doesn't write chronic pain medications due to his speciality of being a cardiologist. Reviewed some of the safety details from the fpi. Reviewed dosing of both products and reminded on formulary.
PPLPMDL0020000001	Cleveland	OH	44195	4/10/2014	Reviewed OxyContin savings cards with Tech, Troy was on vacation, Learned they have a PA team (2) that handle PA's for patients.Nothing else learned
PPLPMDL0020000001	Cleveland	OH	44195	4/10/2014	Visited CCF Taussig, Left OxyContin/Butrans Formulary grid info for Dr's(Budd,Pelley,Gutgsell,Garcia,Faiman, Estfan,Advani, Sobeks, Moore)

PPLPMDL0020000001	Cleveland	OH	44195	4/10/2014	Visited Oncology/ CCF Taussig, Left OxyContin/Butrans Formulary grid info for Dr's(Budd,Pelley,Guttsell,Garcia,Faiman, Estfan,Advani, Sobecks, Moore)
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Asked if he ever calls the dr and suggest a medication change to question how a script is written? He said yes but not often. Reviewed the dosing of OxyContin and Butrans. Showed the conversion chart of OxyContin and the starting dose of Butrans. Reviewed FDA insight and pharmacist said they are good about checking the new patients who come in to their store.
PPLPMDL0020000001	Parma	OH	44129	4/10/2014	I spoke with Myra regarding the Butrans Patient Experience Kit. The territory is currently vacant. I went over. The kits with her and explained the purpose was to help her gain information about her patients pain experience in-between visits. Explained the program to Dawn the office manager as. Well as staff. Also went over updates to the program. Myra said patients want to keep their pills. We discussed initiating Butrans after tramadol. She agreed. I left her a kit and 2 packs of savings cards
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Gave the FDA insight thru the window and asked hi. If thought this technology in OxyContin will be important to primary care doctors. He said it should but he doesn't think so. I told him that I was trying for the primary care to understand that by dosing short acting products several times a day they could be using an extended release delivery system. I asked him why this concept was so hard to adapt to. He said habits don't break easily. I asked how ling it took him to try Butrans. Dr said not very long. I said why did you try it right away....but others are won't. He said they don't see the value in changing their habit.
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Spoke to Daniele the rn. Reviewed FDA insight and asked if I could meet with the doctor to provide her with some information. I left her some OxyContin and Butrans literature and my card.
PPLPMDL0020000001	Akron	OH	44310	4/10/2014	I asked dr when he decides to move to an ER opioid? Dr said it depends on the patient? I asked him to give me an example of when he would? Dr said when he knows the pain is chronic. I told him that's when he needs to use a product like OxyContin. Dr said ok. I asked him if he has existing patients on Percocet and dr said some. I asked him what the downside is to converting those patients to OxyContin when they need a dose adjustment? Dr said it makes sense. I told him that's good to hear and I need him to make the decision to take a patient on Percocet to the q13 oxycodone. Dr said ok. I reminded him about Butrans and it use for patients already on tramadol or vicoden who also may need dose adjustments. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	4/10/2014	Butrans reminder, no new information learned.
PPLPMDL0020000001	Akron	OH	44333	4/10/2014	Led with insights on tramadol and Hydrocodone. I asked dr what she sees the most of from IR opioids in the practice? Dana said she sees a, it of vicoden and Percocet. Dana said that she wrote for Butrans twice last week and one was a UHC Community plan which was denuded. I told her it should not have been because that plan requires a PA and not denied. Dana said she does remember seeing a PA she thinks and will put the pa through. I told her about the PurdueHCP.com website to check formulary. I asked wdana where most of her patients on Butrans are coming from; Medicare or non Medicare? Dana said she doesn't think her Medicare patients are good for Butrans because they don't like change. I told her about the age range of patients in the opioids experienced trial and told her that many of them might appreciate a once a week patch. Dana said it makes sense. I asked her for continued business and to write it for some Medicare patients. Dana said ok. Discussed OxyContin for her Percocet patients who need dose adjustments and reviewed the Maggie profile. Dana said she does write OxyContin and that it does work for that paring type. Nothing else learned
PPLPMDL0020000001	Westlake	OH	44145	4/10/2014	Dr said his fellow doctors don't want to write opioids any more and they are told to write only for a few weeks and refer out to dr kabbarra. I asked who is telling him this. Dr said the people that make the laws. Reviewed the med 80 guideline, also discussed new FDA insight 16. Talked about treating Butrans and OxyContin with patients you already have on opioids not new patients and the patients dr believes. Dr talked about his wife and her chronic back pain. He asked about taking Butrans with heart conditions and we reviewed the section of the package insert. Asked him to think Butrans for the Pam profile using new usual aid and asked him if he thought this might be an option. He said maybe. We reviewed dosing, supplemental, coupons with Butrans and OxyContin. Asked about med d plans, covered that topic.
PPLPMDL0020000001	Fair/wn	OH	44333	4/10/2014	Short OxyContin call ever lunch. Dr said he's two hours behind and said he has seen a difference in the last month with his ability to get OxyContin covered. I told him I'm glad to hear that and asked why? Dr said he's not sure but has not had patient call back. I reviewed a few things from the main visaid including OxyContin 10mg page and conversions. Dr said I sold know that he tries to get his patients on IR opioids as soon as possible and finds that OxyContin is ideal for that purpose. I asked him when he gets new patients which IR opioid he sees most? Dr said Percocet and that's why it makes sense to use OxyContin. Told dr I'm glad it provides the efficacy he is looking for. Reviewed the adverse events including respiratory depression. I asked dr for continued use and reviewed managed care. I asked if he has patients on Hydrocodone who complain of being in pain? Dr said a few. I reviewed the Kathy profile and asked him if it makes sense to use Butrans before going to another IR opioid or titrating hydrocodone? Dr said he likes Butrans and tries to use it as much as he can.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/10/2014	Both dr Chteingardt & dr Anna left office already. Spoke with med ast at window. Discussed & showed OxyContin savings sell sheet; she states they have been handing out cards. Med ast wanted to be sure patients pay no more than \$30 out of pocket. I stated they pay first \$30 and get \$70 off total co pay, for any of the 7 strengths. She was satisfied with response. Discussed opioid naive dose 10 mg; first ER opioid to include abuse deterrent properties in FPI. Discussed Butrans as transdermal option for around the clock pain. Left protect your practice brochure.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/10/2014	Dr Higley told me that he has had three patients in the last month who he gave a Butrans prescription for and was told that the price was \$400 or over. I asked dr if the patients were on federally funded program or commercial insurance? Dr said commercial insurance. I told dr that's very atypical and the possibility is that the patient either may not have met their ductatable or the insurance was never processed at the pharmacy. Dr said that's possible and makes sense. I gave dr new copy cards and maybe the cards they had were expired and not processed. I asked dr where he is using Butrans and he said for tramadol, vicoden and even Percocet failures. I asked dr if he would convert a Percocet patient to OxyContin? Dr said no. Dr said he will never write more than 90 pills of Percocet and if they ask for it he sends them to pain management. I asked if all the current patients he had on Percocet are doing well and not asking for more? Dr said they are doing well and are legit. I told dr that 21% of patients in Bup 3015 Butrans trial were taking oxycodone combinations. Dr said good to know because he's already using Butrans for those patients. I asked for continued use despite the few patients with large copays.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/10/2014	Discussed drs use of OxyContin for his patients already on IR oxycodone. I showed dr the conversion chart from Percocet and asked him what signals him to convert to OxyContin? Dr said he tries to do it as often as he can but insurance gets in the way. I asked him when and which plans get in the way? Dr said most of them. I asked him which products are they tending to ask to be written instead? Dr said it depends on the plan and said it can be MS Contin, methadone, ER Morohine. I asked if and when those fail does he write OxyContin? Dr said he does. I showed dr Pitt, Liz and Lida the PurdueHCP.com website and how it can help them find to formulary coverage, product information and printing copy cards. Liz and Lida thought it was great and said they will use it. I told dr Pitt that he may be missing opportunities for Butrans and explained the Kathy profile on hydrocodone. Dr said he understands it but probably won't use it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/10/2014	Dr overheard my conversation with Higley and said that he wrote a Butrans recently for a patient failing vicoden and that patients also said it was going to be \$400 for Butrans. I explained to dr that must be a one off situation because its not typical. Explained insurance coverage, profiles and patients suited for Butrans. Dr said he will keep trying and thanked for updated cards. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/10/2014	Hallway call and told dr that OxyContin is oxycodone in a 12 hour delivery system and asked dr if he would us OxyContin of those patios of his already on oxycodone short acting? Dr said he does like writing for opioids. I asked what he does then? Dr sad he either doesn't take them or refers to pain management. I asked when he decides to refer and dr said he tris not to write either short or long acting opioids. Dr walked away. Nothing else
PPLPMDL0020000001	Berea	OH	44017	4/11/2014	Spoke to the dr regarding why she doesn't write schedule 2 products. She said she doesn't have the license to write them. Reviewed the FDA Insights and OxyContin detail aid page on the tiers. She said it was very important to her that companies try to do this. She said she has 1 writte. Any new Butrans. We reviewed the Pam profile and I asked her what was the down side to try it here if appropriate and if they were covered in med d plans with preferred coverage. She said no reason. Left her literature to review.
PPLPMDL0020000001	Westlake	OH	44145	4/11/2014	Spoke to Megan and Pam for a while on the changes to their office hours and locTions. We reviewed Butrans and the office staff said they would help me see the doctor if they can. They said the doctor hasn't written it in a while cause he does a lot of blocks and doesn't write as much opioids, I said not even for break through and she said yes some. I asked when was the last managed care problem with OxyContin....they couldn't think of one. We reviewed the FDA insight and managed care coverage.
PPLPMDL0020000001	Westlake	OH	44145	4/11/2014	I talked to the dr about what the FDA is talking about using the insight, I left it with I hope when it comes to treating appropriate patients with an extended release product this information comes to mind. And when I come back, we will talk about using Butrans in appropriate patients with med d coverage.
PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Quick review of OxyContin every 12 hours, flexible dosing strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate patients, Judy said she also review with Dr.
PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Reviewed OxyContin every 12hr, 7 tablet strengths, savings cards along with Butrans for those patients requiring around the clock analgesia, Dr agreed and will consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Reviewed OxyContin every 12 hrs, savings cards along with Butrans for those patients requiring around the clock analgesia, Said Ok will continue to find appropriate patients
PPLPMDL0020000001	Cleveland	OH	44104	4/11/2014	Reviewed OxyContin every 12h, 7 tablet strengths said Ok will consider for appropriate patients, asked for that 1 patient with favorable formulary status (ie Med. Mutual) said he will consider. Also reminded of Butrans for those Tramadol failures requiring around the clock analgesia.
PPLPMDL0020000001	Cleveland	OH	44103	4/11/2014	Quick OxyContin reminder, every 12 hours, dosing strengths along with Butrans for those patients requiring around the clock analgesia, said Ok will continue to find appropriate patients
PPLPMDL0020000001	Westlake	OH	44145	4/11/2014	Dr was not in. Reviewed Butrans and OxyContin extended release options to the nurse.
PPLPMDL0020000001	Uniontown	OH	44685	4/11/2014	Quick hallway call and told him I had one question and one comment. I asked dr when it comes to his Percocet patients, when does he decide to move to an ER opioid? Dr said it depends on what he's treating them for and what the pain level is. Dr said he likes to go to OxyContin for those already on oxycodone and that it just makes sense unless the patient says no to OxyContin. I asked him if he gets many patients telling him no to OxyContin? DR said not many but some do even though he explains Percocet and OxyContin are the same thing but one is IR and one is ER. I told dr to pls focus on the IR oxycodone or Percocet for OxyContin and its. 1:1 ratio. Dr agreed and said ok. I told dr that Butrans is another ER opioid suited for those not to goal on their IR opioid like tramadol or vicoden. Dr said alright. Nothing else learned.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/11/2014	Discussing most recent formulary updates for Medicare D for Butrans with Terri and Gail and dr said things are continuing to go well with Butrans. I discussed new formulary update for Butrans with dr and he said he's glad to know coverage is getting better. I asked him if he is getting denials for it more than before? Dr said no because Glenn and his staff do a good job getting it approved. I asked him for continued use and asked if he is using it for patients that are Medicare D? Dr said he is along with patients much younger. I spoke to him about the average age of patients in the clinical trials. Nothing else learned. Discussed with Gail and Terri about using Purduehpc.com to print copy cards, check formulary coverage and access product information.
PPLPMDL0020000001	Akron	OH	44312	4/11/2014	Told dr that I haven't seen him in way too long and I need just a second in between patients to talk OxyContin and Butrans. Told him about insights on oxycodone and tramadol. I told him that with OxyContin, he should be using it for those patients already on oxycodone who need a dose adjustment. I showed dr the visaid page about reassessing and asked if he does that? Dr said kind of but depends on time how thorough he is. I stressed the importance of it and asked him to initiate on 10mg and to titrate every 1-2 days if necessary. Told him that the ability to titrate with Butrans is every 3 days and to take out patient types like acute and prn pain and to focus on every day pain patients like Scott and reviewed the profile. I asked if he would reassess those tramadol patients for Butrans? DR said he will. I reviewed insurance coverage and new Medicare plan coverage. Dr said that's good because that's where he has ran into trouble.
PPLPMDL0020000001	Akron	OH	44319	4/11/2014	Led with the oxycontin insight and asked him when he decides to move to an ER opioid for patients on Percocet? Dr said it depends on the patient. I reviewed the Maggie profile and asked him if it makes sense to start OxyContin? Dr said it does and he knows he needs to convert come patients. I told him I know there is a, lot of opportunity to write OxyContin for those patients when they need a dose adjustment or complain of being in pain. Dr said ok. I told him to identify those patients and told him he needs to be stern with patients that continue to want their IR opioid for around the clock pain. Reminded him about Butrans patient types and why and when to initiate and titrate. Dr said ok. Gerard dr may be retiring in June?
PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Reviewed with Aurora OxyContin every 12 hours along with Butrans for those patients requiring around the clock analgesia that are failing on present therapy. Said Ok will remind Dr.
PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Visited Pain mgmnt and Ortho dept Reviewed OxyContin every 12h along with Butrans for those patients requiring around the clock analgesia
PPLPMDL0020000001	Lyndhurst	OH	44124	4/11/2014	Met with Rhonda at front. Dr in doing injections. Impossible to get him up front. Discussed Butrans patient guide tear sheets; hand out before each Butrans patient leaves office. Discussed, left updated formulary grid, Med D updates as of 4/11/14. OxyContin, patients understand "clock time" better, a recent survey tells us, take every 12 hours would be better for patients to understand. Updated on OxyContin recent formulary status, left new grid. Left 4 spine posters; med staff really liked. Does NOT take OTC samples. NO LUNCHES yet approved by doctor.
PPLPMDL0020000001					

PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Reviewed with Justin OxyContin Q12h along with Butrans for those patients requiring around the clock analgesia who are failing on present therapy. Pharmacy will be closing and CCF will be taking over
PPLPMDL0020000001	Lyndhurst	OH	44124	4/11/2014	Dr Reed on vacation. Met with office mgr at front window. Discussed writing OxyContin every 12 hrs vs q 12 h, because a recent study suggested that "clock time" is easier for patients to understand. Discussed savings card for OxyContin and how it can be used every 14 days with 14-day RX. Discussed Butrans formulary coverage, and Med D wins as of 4/1/14. Secured another lunch in June on Monday when Dr. Reed will be in.
PPLPMDL0020000001	Westlake	OH	44145	4/11/2014	Discussed the FDA insight and asked if he was aware about OxyContin and referred to visual aid. He told me they were busy to come back. So I warped it up and handed them a Pam profile on Butrans to review.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/11/2014	While waiting for Dr Roda; found out she's only HCP in today. Dr Reed on vacation. Spoke with office mgr at front; she's been on hold with Express Scripts for over 48 mts for prior auth. Says ever since Medco merged with Express Scripts she's having really difficult time. Empathized with her and responded I hear that in all my offices. While on hold she was able to confirm my May lunch and schedule me for Monday June 9th. At window, quick: OxyContin write every 12 hours on rx, which we found out is easier for patients to understand in recent study; Butrans 3 recent Med D wins as of 4/1/14.
PPLPMDL0020000001	Cleveland	OH	44113	4/11/2014	Quick OxyContin every 12 hours dosing reminder, Butrans for those patients requiring around the clock. Said Ok nothing new learned
PPLPMDL0020000001	Akron	OH	44312	4/11/2014	Dr asked why I was back so soon? I told him that I felt it was important to discuss the stigma thing he brought up on the last call. I asked him if he really has a problem with the name OxyContin? Dr said he does. I asked why and if its the oxy or the Contin he has a problem with? Dr said that was a good explanation of it. Dr said he just doesn't want to be known as one who prescribes lots of OxyContin. I asked him how its different to refill and prescribe Percocet? Dr said its not other than the name. I told him to focus on that handful of patients we discussed that are motivated to change or convert to OxyContin. Dr said ok. Reviewed Butrans patient types and asked him to identify patients.<font color=blue><b>CHUDAKOB's query on 05/06/2015</b></font>Cliff the above call notes makes reference to "if it's the Oxy or the Contin?" Please make sure to not use this language in your promotion as all promotional messaging has to come from the home office and be approved through legal. In a separate E-Mail I will be sending you a memo that references this. Please acknowledge in your response to this query that you have read and understand the memo.<font color=green><b>REICHCL's response on 05/07/2015</b></font><b>E-Mail I will be sending you a memo that references this. Please acknowledge in your response to this query that you have read and understand the memo.</b>Our ability to use the above language as it pertains to Oxycontin is not approved.<font color=blue><b>CHUDAKOB added notes on 05/22/2015</b></font>Thank you Cliff.
PPLPMDL0020000001	Brooklyn	OH	44144	4/14/2014	Reviewed OxyContin and Butrans savings cards with Rhonda Tech. Will relay info to Julie Rph
PPLPMDL0020000001	Lyndhurst	OH	44124	4/14/2014	Lunch. Percocet insight # 11. 35% of IR oxycodone scripts including Percocet, associated with length of therapy lasting 90 days or longer. Of those, average # of days until patient converted to ER opioid was 264. Is is fair to say you are guilty of this as well and may have missed a few opportunities to touch back with patient and discuss conversion to ER opioid such as OxyContin. Yes, that's fair, so when you go to fill your next Percocet; consider OxyContin every 12 hours discussed. Opioid naive dose, and steady state discussed. Butrans Tramadol insight #12. 39% if tramadol associated with therapy 90 days or longer; of those average # of days until conversion to ER opioid was day 242. Missed opportunities discussed, conversion to Butrans 10 mcg hr discussed. Dr says Butrans requires a lot of prior auths. Discussed different plans require different measures including prior auths. Also discussed as of 4/1/14 Med D wins for Butrans. He says just keep reminding him; quick reminder BWC will pay for Butrans.
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Spoke to the two nurses regarding the FDA insight and highlighted the core visual aid of that section. Reviewed the updated managed care grid and asked them what they were doing different to treat pain this year. They said dr was referring more chronic patients out. I said why, she said she doesn't want to treat them anymore be she is concerned about the dea. The dr said she had a patient that tested negative on a drug screen and that was the turning point. Dr agreed that she is not referring all her pain patients out. I talked about the Scott patient and how she was treating this type of patient under 300 mg of Tramadol Nd the patient then states they aren't controlled any longer she said she will treat a patient like this. Discussed managed care ressource and other commercially covered plans that Butrans has coverage. Discussed changing up the delivery system to give them atc pain control, with 4 patches a month. I asked to follow up th her a few weeks, she said yes. So the nurses told me what day would be a good day to return with a follow up.
PPLPMDL0020000001	Brooklyn	OH	44144	4/14/2014	Reminded of OxyContin 7 tablet strengths, every 12 hours dosing along with Butrans for those patients requiring around the clock analgesia that are failing on Tramadol. Said ok will consider for appropriate patients,nothing else learned
PPLPMDL0020000001	Lyndhurst	OH	44124	4/14/2014	Sara on vacation. Lunch. Total office call. Asked group if there's 1 or 2 MAs that work with Sara on regular basis; answer is no; whoever is available to help with assist her. Discussed my products, indications, appropriate patients for each. Opioid naive dose for Butrans of 5 mcg hr, 4 strengths, 20 mcg hr max dose. Discussed OxyContin starting/opioid naive dose 10 mg every 12 hours. Suggested schedule 8 am and 8 pm. Pills are not scored, cannot be split; discussed elderly, debilitated, females using FPI for dosing recommendations and 15% higher concentration in elderly for oxycodone and 25% higher concentration of oxycodone in females. Steady state of OxyContin discussed; section 12.2 comparing 10, 20, 30 mg OxyContin to placebo discussed. Left 3 PAP spine posters for all 3 HCPs BACK IN OFFICE 4/15/15.
PPLPMDL0020000001	Cleveland	OH	44144	4/14/2014	Reminded of OxyContin every 12 hours, 7 tablet strengths along with Butrans for those Patients requiring around the clock analgesia. said Ok will consider for appropriate patients. Also reminded of formulary status
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Spoke to Laura the ma about Butrans and OxyContin. Discussed updated managed care and description of what Butrans is, left her the Scott profile. She didn't have time to talk much, but scheduled me a lunch.
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Discussed the pharmacy article and asked him what was important to tell the patients when dispensing opioid. He said they check Ors. We reviewed dosing of OxyContin and Butrans. Also the FDA insight and showed our core visual aid.
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Spoke the the nurse, reviewed Butrans and OxyContin indication and dosing. Dr came to window and said hello, introduced myself and attempted a Tramadol insight. She cut me off and said I should make apt to discuss it with her.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/14/2014	Met with med asst at front window. Discussed my ER opioid products for patients who need around the clock analgesia for extended period of time. She states dr rarely writes either of my products. She states he is more interventional medicine, physical therapy, etc. She will however leave him information on both. ** Visit him in suite 214 ONLY from now on
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Dr was not in today, but usually is. Spoke to Pam his nurse. And reviewed managed care for OxyContin and Butrans. Gave her the FDA insight and reminded her of our labeling showed the OxyContin detail aid. Reviewed. Reviewed Butrans managed care with ressource and med d plans. Also discussed the Butrans experienced program. Discussed dosing and strength.
PPLPMDL0020000001	Mayfield Heights	OH	44124	4/14/2014	Quick hallway. Updated Butrans Med D wins as of 4/1/14. Updated OxyContin \$70 card; patients can use every 14 days with 14-day script. Reminder 4/30/14 Moufawad program.
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Spike to mrs. Seikel the office manager regarding managed care for Butrans and OxyContin. She said she doesn't make any of the decisions on the products. I asked her what she does, she said she takes calls from patients and the insurance companies and they all work on prior authorizations. I asked if it took up a lot of her day and she said yes, she is always on the phone. Talked about out med d coverage on Butrans.
PPLPMDL0020000001	Cleveland	OH	44195	4/14/2014	Visited Ortho. Dr.Rosneck,Evans,Anderson, Fowler left OxyContin and Butrans Initiation/Titration info, Requested appts
PPLPMDL0020000001	Akron	OH	44313	4/14/2014	Spoke with technician Amy. I reviewed Butrans and OxyContin dosing,scheduling, patient types and titration. I asked her if they have Butrans 15mcg stocked? Amy looked and said that they currently on have the 10mcg dose but usually have the 5mcg as well. She said she would order it. I told her about the back order of the 15mcg dose. Amy said she has all doses of OxyContin and tend to dispense more of the 10,20 and 40mg.
PPLPMDL0020000001	Fairlawn	OH	44333	4/14/2014	Caught dr in hallway and dr remembered me from years back when I called on the office. I told dr I'm back in akron with Purdue and in pain management. Dr said OxyContin? I said that's correct along with Butrans. Dr said he isn't familiar with it. Gave him initiation and titration guide and gave him a quick rundown of the product with key selling messages. I asked if he's writing OxyContin and when? Dr said not much but said he's interested in taking to me and to set up a lunch. Lunch scheduled for June as earliest availability.<font color=blue><b>CHUDAKOB added notes on 04/30/2014</b></font>Nice job going into this office. Looks like it might pay off.
PPLPMDL0020000001	Euclid	OH	44117	4/14/2014	Discussed low dose OxyContin, and considering in opioid naive. Discussed section 12.2 of FPI; presented data comparing OxyContin 10, 20 and 30 mg compared to placebo. Dr wasn't aware of this data, was surprised. Discussed starting opioid naive dose for debilitated non opioid tolerant, elderly & opioid naive females & linking to data I shared. OxyContin pills are not scored, suggested starting dose for debilitated elderly is 1/2 to 1/3 starting dose; that's where 10 mg comes in. Ability to titrate if needed to next dose of 15 mg in 1-2 days. Discussed ability for commercial, cash patients @ their Painesville location to use \$70 card every 14 days with 14-day script. Butrans after Tramadol. BWC reminder.
PPLPMDL0020000001	Akron	OH	44333	4/14/2014	Quick hello in the hallway of his office while talking to Marsha Fox about purduehcp.com and how its a great resource for her and her patients. Dr walked up and said it wounds like something they could use. I told him they can print out copy cards for Butrans and OxyContin and check formulary status. I asked dr what he does when a patient needs more analgesia beyond the Butrans 10mcg? Dr said everyone's different. I asked him if he would ever titrate beyond the 10mcg? Dr said sometimes. I told him about titration in Bup 3015 and use of NSAIDs for breakthrough pain. Dr said ok. I reminded him to use OxyContin for patients needing dose adjustments on Percocet and showed him the conversions.
PPLPMDL0020000001	Brooklyn	OH	44144	4/14/2014	Quick OxyContin reminder as he was leaving 7 tablet strengths every 12hours along with Butrans for those Tramadol failures. Said Ok
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Reviewed the baby boomer insight with the dr and he made a comment about the number being large. Discussed the Profile Pam and dr said he sees many over 65 and in the nursing homes. I asked if he thought Butrans or OxyContin might be Appropriate for some those patient in chronic pain and currently being dosed atc with short acting products. Dr said maybe, he asked about managed care. Which I reviewed. Also discussed abuse potential for both products. Reviewed dosing of both product.
PPLPMDL0020000001	Lyndhurst	OH	44124	4/14/2014	Lunch. Revisited Tramadol insight #12. 39% of IR Tramadol scripts associated with therapy 90 days or longer; of those scripts lasting 90 days/longer; average # of days patient converted to ER opioid was day 242. Dr says thats a product that's affordable for patients and is good option for elderly. I shared with dr 4/1/14 Med D wins. He stated now that's what i needed from you - better Med D coverage. He will keep those 3 plans in mind from now on. Discussed re assessing patients,steady state and 72 hour steady state. Discussed supplemental analgesia used in Butrans trials. OxyContin, discussed low dose for a few trusted patients. Discussed 10 mg opioid naive dose, steady state, START principles. Also discussed START principles with his ma Helen who's been with him over 28 yrs.
PPLPMDL0020000001	Brooklyn	OH	44144	4/14/2014	Window call. Reminded of OxyContin every 12hours, 7 tablet strengths along with Butrans for those Patients who require around the analgesia, Said Ok, nothing new learned.
PPLPMDL0020000001	Mayfield Hts	OH	44124	4/14/2014	Asked dr not to abandon Butrans, as he increases his OxyContin use. Reminded him why he likes Butrans: efficacy, 4 strengths, ability to call in with refills, trial, savings cards, patient education with guides/tear sheets. OxyContin, opioid naive/start dose of 10 mg every 12 hours discussed. Reminder savings card and ability for patients to use every 14 days with 14-day script. He admits he forgot about cards and asked for pack right there. He directed medical asst where to place cards so he can remember location.
PPLPMDL0020000001	Westlake	OH	44145	4/14/2014	Gave dr the FDA Insight and showed him the OxyContin visual aid on the label change. I asked if the I formation was reason enough to write OxyContin for those needing every 12hour dosing for an extended period time. He's said he has been trying to write less chronic opioid medications. I said ok but is the information you just heard important to you? He said yes. I said great. I told him I was leaving him with a patient profile named Pam, next time I'm back we can talk about your experiences using butrNs in the med d patients who are appropriate for Butrans. Dr said he can tell me right. Now the answer is zero. I said zero patients that are over 65? He said no he has lots of those, he meant on Butrans. I asked what was is hesitation in this population. He said nothing. I said I don't understand why you would dose someone with a short acting products atc in the first place. He said cause the patients might not take it atc. I said do you know that for a fact? He said no, and I said that just left the door open for Butrans you realize. I reviewed Butrans dosing and I asked how the dr felt about managing his patients dosing on Butrans. Dr said aren't they weekly patches. I said yes.
PPLPMDL0020000001	Fairlawn	OH	44333	4/14/2014	Asked to see Amanda. Oyakawa's nurse. I discussed the fact that I needed to speak with her and dr about a few important items. Amanda took me back into his office and I discussed the oxycodone insight and told them how bad the problem is with patients treating themselves for around the clock pain with IR opioids. I told dr the reason why I was telling them this is because he can help reverse it by converting patients on Percocet to q12 OxyContin. Dr said he understands and he's doing everything he can. I told dr that his belief that he is committing himself and his patients to long term opioid therapy by writing an ER opioid but said that when IR opioids are being refilled month after month its the same thing! Dr said he knows and said he does try to get patients on ER opioids. I asked for continued use of OxyContin and that Butrans is suited for those continuing to be refilled on tramadol or vicoden. Discussed the use of purduehcp.com to Amanda.<font color=blue><b>CHUDAKOB's query on 04/30/2014</b></font>Cliff, it may sound picky, but, but the word bad is a comparative word. I appreciate your passion for this, be we must be very careful on what we say.<font color=green><b>REICHCL's response on 05/08/2014</b></font>Ok<font color=blue><b>CHUDAKOB closed the query on 05/14/2014</b></font>

PPLPMDL0020000001	Cleveland	OH	44124	4/14/2014	Lunch. Non core, attended my core lunch. Tramadol insight. Dr was surprised at this statistic, however she doesn't want responsibility of managing pain patients; and long acting opioids. Asked her to consider Butrans after prn Tramadol or as first opioid, when patient needs around the clock analgesia. Discussed low dose OxyContin. Opioid naive dose of 10 mg. Discussed, using OxyContin FPI for support: elderly, elderly debilitated and females. Steady state discussed. START principles, using core Vis Aid. Insight # 17: questionnaire completed by 299 patients, outpatient pain mgt clinic, found large proportion of patients don't comprehend commonly used RX instructions. In this study, more patients understood RX instruction every 12 hours vs. bid or twice a day. So with OxyContin, product would be written OxyContin every 12 hours.
PPLPMDL0020000001	Cleveland	OH	44125	4/14/2014	Reviewed OxyContin 7 tablet strengths every 12 hour dosing along with Butrans for those patients requiring around the clock analgesia, Refers to pain mgmnt, asked for those referred to PM, Why not Butrans? Nothing new learned
PPLPMDL0020000001	Stow	OH	44224	4/14/2014	Good discussion over lunch about Butrans and OxyContin. I asked Sandra since we lost spoke how its going getting patients off their IR opioids and using all long acting. Sandra said things are going ok and there is some pushback from patients but she said they expected that of course. I asked Sandra what the limit is on prn or IR opioids? Sandra said 3 or more they will be tapering them off and going with long acting. I asked her how she decides on which ER opioid to use? She said it depends on the patient because most of them have tried and failed multiple ER opioids in the past. I told her that Butrans is right up her alley now more than ever because of how they are streamlining their patients medicines. Sandra said she agrees but cost may prevent her from using it more. She said that she has had a couple of denials recently on commercial plans that she didn't expect and she couldn't remember what they were. She asked me to speak with Marci which I did and she said she will need to pull up the info and come back later this week. I told Sandra about patients types Scott and Kathy and reviewed Bup 3015. I asked her if her patients need anything. For breakthrough pain and she said most do. I emphasized that fact that in that trial patients were only given APAP IR ibuprofen and explained the percentage of patients that completed the 12 weeks. Sandra said that that's big and will remember. Reviewed new Medicare coverage and asked about now thinking OxyContin?
PPLPMDL0020000001	Akron	OH	44333	4/14/2014	Reintroduced myself to dr and dr explained to me he is retiring in two weeks. Dr said that they couldn't even get a doctor to replace him even with multiple candidates. No one wanted it. Dr said they are bringing in. A nurse practitioner to fill his spot. Dr asked what I was talking to him about and discussed OxyContin and Butrans at the window. Dr said he has used OxyContin in the last but never had the patients for it. Dr asked if I discuss my products with the pain specialists? I told him I do and often. Dr said good because he knows OxyContin is a product at works well in the right patient. I asked him what that is for him and he said all day pain up to cancer pain. I told him that's good to hear and reviewed moderate to severe pain. Introduced Butrans and hit key selling messages. Dr said to set up a lunch with the others to introduce Butrans.
PPLPMDL0020000001	Akron	OH	44320	4/14/2014	Met Casey the drs medical assistant. I asked her how familiar she is with Butrans and OxyContin. She admitted she has not seen Butrans but knows a little about OxyContin. I introduced Butrans to her reviewing all key selling points. Discussed on OxyContin and asked her to please provide the doctor with information.
PPLPMDL0020000001	Stow	OH	44224	4/14/2014	Discussed insight about tramadol and hydrocodone and told him the reason why I'm saying that is because the practice he is in is taking a great stand concerning the welfare of their patients by reducing all the IR opioids and looking to convert to ER opioids. Dr said they are on a good path and said its been difficult because there has been a lot of pushback and patients have already failed so many ER opioids in the past. I asked him how he is tapering a patient for example of Norco 5/325 6 times a day? Dr said he will reduce by 25% every 5 days and after the first week or two will add the ER opioid. I asked him how he decides and he said trial and error. I told him Butrans is right up his alley and explained the hydrocodone patient profile and asked him if he will write more Butrans? Dr said he agrees and will try. Discussed new Medicare plans and Bup 3015 inclusion and exclusion criteria. Discussed the opportunity for OxyContin with the new office policy. Dr said its not out of the question. I asked if it makes sense to convert patients already on IR oxycodone or Percocet who need a dose adjustment? Dr said it does and he would rather go to OxyContin than Opana because of the abuse deterrent properties. I gave him the information on it and told him to review.<font color=blue><b>CHUDAKOB's query on 04/30/2014</b></font>Cliff, telling the Dr. That he is taking a great stand concerning the welfare of his patients by converting to ER opioids is not a proven statement, and in fact may not be true given the limitations of use section in the new FPI. Please make sure you are refraining from these type of statements, as they cannot be proven.<font color=green><b>REICHL's response on 05/08/2014</b></font>Ok<font color=blue><b>CHUDAKOB
PPLPMDL0020000001	University Hts	OH	44118	4/15/2014	Window call Reviewed OxyContin 7 tablet strengths every 12 hours dosing along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate patients, Said to stop back later in week to book lunch apt<b>FROM IPAD</b><b>Reviewed OxyContin 7 tablet strengths every 12 hours along with Butrans for those patients who require around the clock analgesia. said Ok will consider for appropriate patients , no new info learned. Asked to stop back to book apt
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/15/2014	Reviewed OxyContin/Butrans patient info and position with Tech, no new info learned
PPLPMDL0020000001	Barberton	OH	44203	4/15/2014	Gave dr the Butrans spine chart and the dr mentioned some of the common back pain patients he sees that the chart could be helpful. I reminded him at patients never on opioid therapy entered into our Butrans study and they had many of these identifiable back pain (mentioned a few). So it sounds like if they needed atc pain relief for an extended period of time that Butrans might be appropriate right. Dr said yes and said he liked the Butrans. Reminded on OxyContin schedule 2 extended release delivery system dosed every 12 hours.
PPLPMDL0020000001	Uniontown	OH	44685	4/15/2014	Short conversation with dr about his use of OxyContin and Butrans. I told him about the insights on oxycodone and hydrocodone. Dr said that's why he tries to start the extended release opioid sooner. I reviewed the pages of the main visad on appropriate patients like low back pain and osteoarthritis pain. I asked him if he has patients she treats for those types of pain? Dr said of course. Reviewed the 10mg page and emphasized the 20mg dose and conversions. Dr said he is trying to write more and more but said insurance for it is really tough. I asked for specific plans but he didn't reveal any he could remember. I told him that his nurse or ma needs to contact me about those and I may be able to help. Dr said ok and that would help. I asked for continued business. Reviewed the Scott and Kathy profiles for Butrans, conversions, and titration. Asked for more business and if it makes sense to use Butrans for he patients I described? Dr said it does. I told him I just didn't want him to miss opportunities for Butrans when OxyContin isn't appropriate. Dr said he understands.
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/15/2014	Reviewed OxyContin every 12hours, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia. Savings cards. Said ok will consider for appropriate patients<font color=blue><b>CHUDAKOB's query on 04/24/2014</b></font>Did you lead this call with insight #16? If so, I do not see it in the call notes? What was his response?<font color=green><b>GUTKOMA's response on 04/27/2014</b></font>Not appropriate to lead with insight at this time will attempt if appropriate on next opportunity<font color=blue><b>CHUDAKOB closed the query on 04/30/2014</b></font>
PPLPMDL0020000001	Garfield Hts	OH	44125	4/15/2014	Reviewed OxyContin 7 tablet strengths every 12hrs along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate patients, Asked for 1 patient<font color=blue><b>CHUDAKOB's query on 04/24/2014</b></font>Did you lead this call with insight #16? If so, I do not see it in the call notes? What was his response?<font color=green><b>GUTKOMA's response on 04/27/2014</b></font>Not appropriate to lead with insight at this time, will attempt if appropriate on next opportunity.<font color=blue><b>CHUDAKOB's query on 04/30/2014</b></font>You answered this the same way on three calls this day. Were mine of them "appropriate"? If not why?<font color=green><b>GUTKOMA's response on 04/30/2014</b></font>My understanding is that insights are used to open up dialogue that leads to a product discussion. Although I didn't lead with verbatim insight we did have a robust discussion about OxyContin,every 12 hours and the FDA approved Tier 1/3 labeling that describes abuse deterrent characteristics, In the end I did identify 1 appropriate patient for OxyContin and will note insight #16 for next visit. Thanks<font color=blue><b>CHUDAKOB added notes on 05/01/2014</b></font>I am glad to hear that. Your call note does not
PPLPMDL0020000001	Garfield Hts	OH	44125	4/15/2014	Window call, Reminded of Butrans for those patients requiring around the clock analgesia who are failing on present therapy, Said Ok will consider for appropriate patients, referred to Christina NP and Gwne Np
PPLPMDL0020000001	Cleveland	OH	44118	4/15/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, along with OxyContin every 12hours, 7 Tablet strengths, Savings cards. Said Ok will consider for appropriate patients, Invited to upcoming program<font color=blue><b>CHUDAKOB's query on 04/24/2014</b></font>Did you lead this call with insight #16? If so, I do not see it in the call notes? What was her response?<font color=green><b>GUTKOMA's response on 04/27/2014</b></font>Not appropriate to lead with insight, will attempt if appropriate on next opportunity<font color=blue><b>CHUDAKOB added notes on 04/30/2014</b></font>You wrote this on another query. Why is is not appropriate?
PPLPMDL0020000001	Stow	OH	44224	4/15/2014	Dial didn't participate much in the discussion any OxyContin and Butrans. I did ask her if she finds oxycontin as a product that makes sense to her and when and where to use it? She said that e providers in the office use so much of it that she is exposed to it quite often. She said she agrees with when and where to use it and it does make sense to convert a patient to OxyContin when they have been in pain for an extended period of time. I told her that's good to know and dial said that she really likes Butrans and didn't know she could write it for an opioid naive patient. She said they don't have many but it proves to her that it has a wide range of use. Reviewed the trial for 3024 and inclusion and exclusion criteria.
PPLPMDL0020000001	Barberton	OH	44203	4/15/2014	Spoke with Tessa the office manager regarding the delivery system of both my products. Asked her if she had any meetings to dis yes pain, she said no that they don't treat pain that much. Discussed Butrans, it's scheduling, the Scott profile was reviewed. Gave her Butrans invite to give the dr.
PPLPMDL0020000001	Barberton	OH	44203	4/15/2014	Dr was interested in managed care coverage for Butrans and OxyContin along with scheduling. Reviewed dosing with Butrans and OxyContin. Invited to Butrans dinner program on the 30th.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/15/2014	Provided review if the Maggie profile for OxyContin and asked him what he would change? Dr said not much other than starting the ER opioid earlier. I told dr that makes sense and asked him if that's what he tries to do? Dr said he tries but insurance doesn't allow him. I asked him what percentage of his practice is pain management and suboxone? Dr said its about 50/50. Dr said he is trying to see more pain patients and is seeing how much short acting is being used and he tries to start ER opioids. I asked him why and he said because it just makes sense if the patient is in pain all the time. I reviewed the OxyContin copy cards and reviewed the Kathy profile for Butrans and asked him to just try it. Dr said ok.
PPLPMDL0020000001	Barberton	OH	44203	4/15/2014	Spoke the the ma thru the window. I asked how I could see the doctors but she couldn't provide me with any direction other than the lunches. Reviewed with her Butrans and OxyContin delivery systems and dosing. Left invite to Butrans dinner program for all docs.
PPLPMDL0020000001	Euclid	OH	44119	4/15/2014	Had to discuss another Dr Emad Mikhail patient with pharmacy mgr Dave. Dave states he has never NOT accepted or allowed patient to use Butrans/Trial card presented to him from Doctor's office. He states that majority of patients assume first month is free and freak out when it's not. He also states that patients don't read the fine print carefully, nor do they activate card when they come into pharmacy. He welcomes DR Mikhail or medical staff to call him at any time.
PPLPMDL0020000001	Norton	OH	44203	4/15/2014	Spoke to Christy the office manager. Scheduled a lunch and reminded her about Butrans being schedule 3 and OxyContin schedule two.
PPLPMDL0020000001	Barberton	OH	44203	4/15/2014	Discussed with the ma vinclette Butrans dosing managed care and reviewed OxyContin. Delivery system. Invited dr to Butrans dinner program.
PPLPMDL0020000001	Uniontown	OH	44685	4/15/2014	Abby said she learned I have OxyContin from dr Balter. She asked me why I never mentioned it and I told her I did after she left summit pain because of he hatred for it in that practice. Abby agreed and said that they saw it as the devil and then told me she never quite understood it because they write plenty of Percocet.....I told her that is strange asked her what her thoughts on oxycontin are now? She said she already has written a lot of it and finds that its perfect for patients already on oxycodone. I reviewed all key selling messages and she said she has the conversion and titration guide I left her a few weeks ago which really helped. Discussed Butrans patient types, conversions and titrations. I asked her if she has any questions and she told me she has discussed Butrans with dr Fouad and wants to know about conversions or equivalencies. I told her there is no equivalency for Butrans but approximate conversions. Discussed started doses and titratable doses and when with stare any state. Abby said she is trying to see patients back every two weeks when she knows they will need to be
PPLPMDL0020000001	Garfield Hts	OH	44125	4/15/2014	Visited Pain mgmnt dept, (Singh, Abraham, Samuel, Lokesh) OxyContin/Butrans Initiation/Titration and Formulary grids
PPLPMDL0020000001	Uniontown	OH	44685	4/15/2014	Spoke with Kelli one of the pharmacy technicians. I told her that I am checking on which pharmacies in the area have the Butrans 15mcg and asked her if she is familiar with it with I showed her the conversion guide. She said she knows about it. Reviewed all key selling messages. Kelli looked and said they have all doses but the 15mcg. I told her it is currently on back order. Discussed OxyContin dosing, conversions titration and patient types already on oxycodone. Kelli said they don't fill too much but enough to ensure they have all the doses in stock.
PPLPMDL0020000001	Akron	OH	44333	4/15/2014	Dana told me that after our last visit she has written Butrans and OxyContin. I asked her for the give me information and she said e OxyContin was for a Percocet patient and Butrans was vicoden. I told her that's spot on for patient identification on each. Dana said that she sated the patient on 10of OxyContin and 10mcg of Butrans for the other. Dana said she knows each will need to be titrated and will intend on doing that before the first month. I reviewed patient type selection for oxycontin and Butrans with Kathy. Dana said she will continue to write both. Reviewed new Medicare plan coverages for Butrans.
PPLPMDL0020000001					

PPLPMDL0020000001	Akron	OH	44310	4/15/2014	Dr told me that he wrote a Butrans 15mcg for a patient who lives near Massillon late last week and told me that he cannot find it. I told dr and Char about the Butrans 25mcg back order. I told them about the pharmacies around their area that have it. DR said the patient won't drive all the way up for it. Dr said he will maintain the 10mcg dose because he doesn't want to move to the 20mcg yet. I told him I understand and reviewed steady state and asked if he has ever asked to see patients back in two weeks instead of a month to ensure the dose is correct? Dr said he does and is doing it tie this patient being discussed. I asked for continued business and to also use more OxyContin for some existing patients already on IR oxycodone. Dr said alright but it won't be much.
	Barberton	OH	44203	4/15/2014	Spoke to Julie the office manager regarding setting up an Inservice for the doctors. She said they don't do that but scheduled me a lunch. I asked dr if he would like to attend the Butrans dinner program, he is going to ck his schedule. I asked he question why is it such a risky proposition to write an extended release opioid vs using a short acting opioid atc? He said the abuseability of an extended release product. I said so are you saying hydrocodone can't be abused? He said products like ms cotin can be more abused. I reviewed the abuse potential of all my products and gave him the FDA insight. And showed him the OxyContin headline page of the detail aid. I asked if he realized this and he said yes, that's why he will pick OxyContin for he chronic patient over another extended release delivery system. I said what about Butrans after Tramadol if the patient needed act pain therapy for an extended period of time. Why not choose Butrans that's dosed once a week. He said he isn't sold on it yet. I said fair enough. And reinforced my scheduled lunch to review our products and reminded him
PPLPMDL0020000001	Garfield Hts	OH	44125	4/15/2014	Reviewed OxyContin 7 tablet strengths every 12 hours along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate pateints, Savings Cards, Going to be following CCF<font color=blue><b>CHUDAKOB's query on 04/24/2014</b></font>Did you lead this with insight #16? If so, I do not see it in the call notes? What was his response?<font color=green><b>GUTKOMA's response on 04/27/2014</b></font>Not appropriate lead approach at present time, will attempt if appropriate on next opportunity.<font color=blue><b>CHUDAKOB added notes on 04/30/2014</b></font>Our direction is to lead with this insight the first time around.
PPLPMDL0020000001	Garfield Heights	OH	44125	4/15/2014	Window call, Reviewed Butrans for those Tramadol failures who require around the clock analgesia along with OxyContin every 12 hours and 7 Tablet strengths, Said Ok, left invite to program
PPLPMDL0020000001	Uniontown	OH	44685	4/15/2014	Dr said she had a patient on Monday who she started on OxyContin from Percocet. I told dr that's great to hear and asked her when she has patients like that that are ready for a dose adjustment to continue to convert them to OxyContin? Dr said it does and will try to do more of it. Dr said also that after our discussion last time about Butrans and UHC Community plan that she has a patient in last that day with the plan who was failing vicoden. Dr said she actually write Percocet because of cost for the patient but she said the patient called back today saying Percocet isn't working or wanting more. Dr said she just knows the patient wants come thing else. Dr said she's going to write Butrans. I told her good to hear and to continue identifying those types of patients.
PPLPMDL0020000001	Norton	OH	44203	4/15/2014	I asked the dr why its a riskier proposition to write Butrans or OxyContin over dosing someone atc with short acting opioids. Dr said he would never dose someone more than 2 pills a day, he would convert to OxyContin or Butrans. So why would ppl though. He said for cost cause he thought percent was cheap or managed care tell g them they have to write ms cotin before Butrans. I said what plan made u do that. He said caesoreure. We reviewed managed care and I asked for a copy of the denial. Then he said Uhc. I said yes....that plan is a challenge and then refused to the larger plans in his office with coverage. I asked him why he selects Butrans. Dr said because it's less medication for his patient to take and its schedule 3. I reviewed the FDA insight. Dr said the zxyhd repo was in yesterday. I said after heading the insight on the FDA....what are you going to do. He said he won't write it cause it's asking for trouble. We reviewed nth page of the OxyContin where it reviewed the information also I reinforced it was still abusable.
PPLPMDL0020000001	Cleveland	OH	44109	4/16/2014	Reviewed OxyContin and Butrans initiation Titration, no new info learned from Ray Rph
PPLPMDL0020000001	Munroe Falls	OH	44262	4/16/2014	Reviewed our last discussion about using the lowest effective dose. I told her that when a prescription for vicoden is written that says take 1-4 pills a day that is giving a patient a 400% range of medicine to treat how they feel is appropriate. Dr said she agrees and it's not right. I told dr that I'm guessing when that range is given patients most likely will lean more towards taking more than not enough. Dr agreed. I told her that when she knows its time to start a ER opioid she has two great options, oxcycontin and Butrans. Discussed oxcycontin as the product ideal for patients already on IR oxycodone and the patient tells her they are still in pain and to just convert them to a 12 hour oxycodone. Dr said it makes sense, I told her from the MVA about the examples of pain conditions from page 5. Discussed the Scott profile for her patients needing a dose adjustment on tramadol and reviewed the profile. I asked her to just take a patient on tramadol and Percocet and start the appropriate ER opioids we discussed. Dr agreed. Discussed the new Medicare plans for Butrans.
PPLPMDL0020000001	Akron	OH	44320	4/16/2014	Dr said he remembered Barry as the OxyContin guy. Reminded dr that OxyContin has been available for 18years. Told dr that he has an opportunity to also use a product like Butrans and showed him the dosing. I told him that he needs to use it for patients that he continues to refill on tramadol or vicoden and are in pain around the clock. Reminded dr that Butrans is a schedule 3 7 day transdermal system. Reviewed copy cards. Dr asked a patient getting blood work what insurance she has and she showed him his card and it was UHC commercial. Dr asked if its covered and I showed him the formulary grid. Showed him that's its third tier. Dr said she will write it again and I told him about the new Medicare wins with UHC aarp and Caremark silverscript. Dr said ok and went into a room. Dr opened the door shortly after and asked me to come over. Dr asked me if patients on Percocet can also use Butrans? I told dr that Percocet can be used for breakthrough pain. Dr said ok and asked for a copy card and trial offer. Gave the dr the card and patient walked out with a Butrans prescription.
PPLPMDL0020000001	Akron	OH	44333	4/16/2014	I asked Elise about her use of OxyContin and Butrans. Elise said she continues to have no issues with oxcycontin and has found out how well it works in patients already on oxycodone. I told her that's great to hear and asked where she usually starts? Elise said depends on the dose of Percocet et but she knows its a 1:1 ratio and its easy. I asked her about Butrans and if she has had any activity with it recently? She said no because she hasn't been seeing as many patients because Karen Hodakievic is back. I asked her about Butrans and what she says to a patient who gives pushback about Butrans? She said she doesn't get much and just tells them that the Butrans will be a good option. Elise said that she doesn't have any issues with patients not using it and said it is truly a great option. I asked for continued use of both products.
PPLPMDL0020000001	Akron	OH	44304	4/16/2014	Asked dr if he had a minute to discuss a few things and he said no. I looked for Butrans and OxyContin copy cards and spoke with Jess who said that she gives them to the doctor and he keeps them.
PPLPMDL0020000001	Akron	OH	44333	4/16/2014	Good discussion with dr about using Butrans in his patients who are aged 50-64. Used the clinical trial to help prove patient selection and age range for Butrans. Dr said he is continuing to use Butrans and will try to expand its use. Discussed 15mcg doses stocked in pharmacies.
PPLPMDL0020000001	Hudson	OH	44236	4/16/2014	Good discussion over lunch about Butrans and OxyContin. Discussed in losing dosing, titration conversions and patient profiles. Also discussed both tramadol and vicoden insights and told her there is a problem with IR opioids being used to treat around the clock pain. Dr said that she just started on November and is still building her practice so she is just now starting to see more and more pain patients. Dr said she doesn't like writing IR opioids and attempts to identify he source of pain and treat accordingly. I discussed patient types Scott and Kathy for Butrans and asked her to just try it. Dr agreed she will. Discussed oxcycontin for patients on oxcodone already and the one to one ratio.
PPLPMDL0020000001	Cleveland	OH	44109	4/16/2014	Visited PMR/IM depts (Harris,Morton,Sheffler,Vargo,Harrington,Ricanati,Magoulas, Falcik-Ytter) Left OxyContin/Butrans initiation/titration guides along with appt requests
PPLPMDL0020000001	Akron	OH	44320	4/16/2014	Discussed Butrans and OxyContin and identifying patients for each. Recapped last call about dr agreeing that one of her goals is to use the lowest effective dose. Dr said yes that is a goal. Dr said she has been thinking more about Butrans. I asked her why? Dr said she knows that its a good option for patients that are failing NSAIDs or tramadol and need a long acting product. Dr said she likes that its low dose and is a schedule 3. I asked her to identify patients on tramadol or vicoden that need a dose adjustment and she knows the source of their pain. Dr agreed and said she will do that. I asked dr to think about OxyContin and identify the patients that are currently being refilled on Percocet. Dr said she agrees but doesn't like to open the can of worms with OxyContin and doesn't want to be known as a physician who writes it. I asked her if she writes Percocet and she said yes.
PPLPMDL0020000001	Stow	OH	44224	4/16/2014	I asked her to explain OxyContin as the 12 hour oxycodone and she said she has done that and it has worked. I asked her to keep doing it. Dr said ok. Spoke to Jamie about stocking and back order of Butrans 15mcg dose. Jamie looked and said they have 2 boxes of the 15mcg dose. Jamie also looked and said there are 12 available from cardinal to order. Discussed back order and scripts of it. Jamie said they have a patient that goes from 20 one week,to 15mcg then to 10mcg and back up. I asked who the physician is and she said Dr Ali. I asked about OxyContin fills and she said she has all doses and has about 4 bottles of every dose and sees mostly the 10, 20 and 40 mg doses. I asked if she sees it written as q12h and she said yes but if its different she will change it. I asked if she runs OARRS and she said yes. I asked if a red flag comes up with it what the procedure is. She said she will call the doctor and said that a couple of times they have discharged the patient.
PPLPMDL0020000001	Cleveland	OH	44109	4/16/2014	Quick OxyContin reminder, every 12 hours, 7 tablet strengths, said Ok no new info learned
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/16/2014	Reviewed OxyContin every 12 hours, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia said ok now new info learned
PPLPMDL0020000001	Cleveland	OH	44109	4/16/2014	Quick review of OxyContin every 12 hours, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, said Ok, book appt thru email
PPLPMDL0020000001	Cleveland	OH	44109	4/16/2014	Quick review of OxyContin every 12hours, 7 tablet strengths along with Butrans for those Patients requiring around the clock analgesia, said Ok
PPLPMDL0020000001	Cleveland	OH	44109	4/16/2014	Reviewed OxyContin every 12 hours, 7 tablet strengths along with Butrans for those Tramadol failures, Malek Said Ok will relay info nothing new learned
PPLPMDL0020000001	Hudson	OH	44236	4/16/2014	Discussed OxyContin as a product he should be using for his patients on Percocet. Barry used the logic about patients having a dose range that allows patients to basically treat themselves however they want. Dr admitted that he is contributing to the problem of patients being on IR opioids way too long. Dr said it easier to refill he IR than start another product. I asked for more OxyContin business. Discussed Butrans in depth discussing all key selling messages and using patient profiles Scott and Kathy do show specific patient selection for the product. Dr said it is a good option and he should be using it. Discussed new copy cards and managed care.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	4/17/2014	Dr Hegde was listening to the conversation I was having with dr Azem about Butrans and said that she thinks she has a patient that would be good for Butrans but want sure. I asked her to tell me about it and she said the patient is on vicoden and not getting enough relief. I told her it sounds like a good candidate for Butrans and told her to initiate. I asked about the patients dose of vicode and she couldn't remember but asked me about conversions. I reviewed conversions and titration. Told dr I would follow up and to also use oxcycontin for those patients continuing on Percocet. Dr said ok.
PPLPMDL0020000001	Euclid	OH	44132	4/17/2014	Lunch. Busy practice, everyone talks at eachother during lunch; they never stop moving, talking, typing on laptops etc. Will be a challenge. Discussed OxyContin lowest effective dose, appropriate patient selection, indication, insight around patients understanding "every 12 hours" language best. Would he use in opioid naive? yes? Adverse event profile discussed, dr has no issues. Discussed OxyContin is first FDA aooroved Tier 1 and 3 labeling regarding abuse deterrent studies. Dr was unaware of reformulation in 2010. Let him know he can review data in section 9.2 of FPI. Discussed single entity opioid should patients not be able to tolerate APAP or NSAIDs. After patients on PRN oxycodone/Percocet/conversion shown. Also discussed START principles using Core Vis Aid. Discussed broad commercial/med d access for patients. Asked age of patients? He states it's a mix of younger/geriatric. Discussed \$30 out of pocket with savings card; that will cover any of 7 strengths. Asked dr what he knows about Butrans? Not much he replied. Let him know next lunch I'd like to discuss both our clinical trials. Discussed indication. Dr asked what schedule? I replied CII and can be called in with refills. Discussed as first opioid or after Tramadol/Codeine. Opioid naive and experienced dosing discussed, showed and left Butrans titration guide. He will review. He has 9 patient rooms, yet med assts say he only uses 4. Left 4 PAP spine posters; he really liked them and that they were not branded.
PPLPMDL0020000001	Cleveland	OH	44114	4/17/2014	Reviewed OxyContin every 12 hours, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44113	4/17/2014	Reviewed Butrans Patient experience program, along with OxyContin every 12 hours, 7 tablet strengths and formulary grids. Said Ok will continue to find appropriate patients
PPLPMDL0020000001	Cleveland	OH	44103	4/17/2014	Reviewed OxyContin every 12 hours along with Butrans Savings cards, Hakeem said he hasnt seen any Butrans will discuss for appropriate patients
PPLPMDL0020000001	Cleveland	OH	44195	4/17/2014	Reviewed OxyContin Labeling changes (Tier 1 & 3). Every 12 hours dosing, 7 tablet strengths, Savings cards along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate
PPLPMDL0020000001	Cleveland	OH	44113	4/17/2014	Reviewed Butrans Patient experience program, along with OxyContin every 12 hours, 7 tablet strengths and formulary grids. Said Ok will continue to find appropriate patients
PPLPMDL0020000001	Euclid	OH	44119	4/17/2014	Brand New HCP, in M-F. Discussed with med asst at front my product indications and scheduling. Left Dr OxyContin reformulation folder, Butrans 4 strengths brochure I had in my bag. Left how to protect your practice
PPLPMDL0020000001	Euclid	OH	44119	4/17/2014	Met with med asst @ front. Note: new HCP: Rebekah M. Chapnick, MD = add to Phoenix. Discussed OxyContin indication, scheduling. Discussed Butrans indication, scheduling. Left 7 days brochure for all HCPs in practice and reformulation folder.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/17/2014	Spoke to Mike the pharmacist about Butrans 15mcg and asked him if they have it in stock? Mike looked and said that he has all doses except the 15mcg. Mike looked at McKesson and said they have none in stock but said it says that they will be shipped on 4/9 and said that obviously didn't happen. Discussed physicians in the area such as summit pain and western reserve pain. Mike said that many of the patients from summit pain get their prescriptions filled there and said he's not sure how many go to their in house pharmacy. Discussed his procedures for narcotics fills. Discussed the pharmacies checks and balances to protect them and the patients and Mike said he will call the office if there is an issue. Mike said they do fill OxyContin and it is the number one ER opioid filled and do fill others but said the numbers have gone down for OxyContin.

PPLPMDL0020000001	Cleveland	OH	44106	4/17/2014	Visited Onc/Hem, FP depts. left OxyContin/Butrans Initiation/Titrations , requested appts. No new info learned
	Cuyahoga Falls	OH	44221	4/17/2014	Spoke with Darlene and dr Azem about a denial on Butrans yesterday. Dr said the patient has failed Mobic, tramadol, vicoden 5/500, Norco and IR oxycodone. Darlene said the patient has an indigent plan through Akron general indigent plan through Buckeye. I discussed the reality about buckeye which Darlene said she knows they make it tough. Dr said they are going to appeal and will let me know. I told Darlene that I have seen buckeye patients approved on Buckeye so its not out of the question. Discussed new Med D plans and dr said that is great news. I asked dr to continue trying to prescribe it and I'm glad that a majority of them are approved without quick hallway. Nageeb on vacation, he's only HCP in. OxyContin is first ER opioid with FDA approved Tier 1 and Tier 3 labeling that describes abuse deterrent characteristics discussed; BPE kits discussed. Win Win for him and patient. He gets info on patient's therapy/progress; patient gets nice perk when filling out the 5 therapy questionnaires.
PPLPMDL0020000001	Euclid	OH	44119	4/17/2014	Quick review of OxyContin every 12 hours, 7 tablet strengths, savings card, said ok no new info learned
PPLPMDL0020000001	Cleveland	OH	44195	4/17/2014	Met with tech Dana. Reviewed previous discussion w pharmacist Dave. They are going to work with me in making sure to tell patients to READ the fine print on Butrans savings/trial cards; and make sure to ACTIVATE prior to coming to pick up RX. Discussed and left Pharmacy piece with buprenorphine prescribing laws. OxyContin Tier 1, Tier 3 FDA abuse deterrent labeling discussed.
PPLPMDL0020000001	Euclid	OH	44119	4/17/2014	Used the insight about tramadol and told him that I'm telling him this because there is a big problem in our society today with patients continuing to be prescribed and refilled on IR opioids to treat their around the clock pain. I asked dr if he agrees? Dr said he does and its a shame. I told him that he can make a difference by knowing when the right time is to move to an ER opioid like Butrans or OxyContin. I told dr that his specific patient identification is important with each product and I asked him to focus on the tramadol and vicoden patients for Butrans and Percocet or oxycodone plain for Q12h OxyContin while showing him the visads for each product. Dr said its good to know those products are available when he needs to use a long acting opioid. I asked him if he will use more Butrans for the patients we discussed? Dr said he will and said he knows he need to convert more patients to OxyContin. Nothing else learned. Discussed new Butrans Medicare coverage with Mrs Vora who is the office mgr.
PPLPMDL0020000001	Garfield Hts	OH	44125	4/18/2014	Reviewed OxyContin 7 tablet strengths every 12hours along with Butrans for those patients requiring around the clock analgesia. Said Ok will consider for appropriate patients.Will be following CCF policy
PPLPMDL0020000001	Cleveland	OH	44102	4/18/2014	Reviewed OxyContin 7 tablet strengths every 12 hours along with Butrans for those Patients who are not adequately controlled on present therapy. Said Ok will consider for appropriate patients. Requested appt. to further
PPLPMDL0020000001	Tallmadge	OH	44278	4/18/2014	I asked dr if he had a quick second to discuss something. Dr said no because he's way behind. I asked him anyway how he decides who is appropriate for OxyContin? Dr said he dos use it and usually for patients either in cancer pain or one that he knows a long acting opioid is necessary. Dr started to walk away and I told him to initiate a patient on e 7 day patch Butrans. Noting else learned.
	Akron	OH	44319	4/18/2014	I asked dr at what point does he died to move to OxyContin? Dr said it depends but usually once they reach 3 or 4 short acting medicines. I asked him why he waits till then because if he has a patient already on IR oxycodone and a dose adjustment is necessary. The patient should be converted to OxyContin. Showed dr the conversions and asked him to start patients on 10mg of OxyContin for patients needing more than 20mg of Percocet. Dr said it makes sense. I showed hi. The Scott profile and told him that another option for ER opioid is Butrans for a patient on tramadol who needs a dose adjustment. I asked if it makes sense to move to ER opioids sooner when pain becomes around the clock? Dr said it does and said thanks for the information.
PPLPMDL0020000001	Akron	OH	44312	4/18/2014	Quick hallway call and reviewed the Scott profile for Butrans and asked him if he has any recent starts? Dr said he has had a few over the last month. I told him that I know he has a good number of patients that are of Medicare age and told him that its now easier to get it approved without restriction on 91% of his Medicare patients. Dr said that's a good number and its nice to know. Dr said to make sure I tell Karen next week when she's in the office. Reminded dr about the other ER opioid OxyContin for his patients needing a dose adjustment on Percocet. Dr said ok.
PPLPMDL0020000001	Akron	OH	44319	4/18/2014	Quickly told him about the oxycodone insight and told him that he can help to change the statistic by converting more patients on Percocet to OxyContin. Dr said its too expensive. I asked for whom? Dr said most of his patients. I told him that means some that would be appropriate. Dr said sure. Reminded him of the Butrans doses and to be used for patients on tramadol. Dr didn't respond. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44113	4/18/2014	Visited Ortho Dept. (Stearns,Bilfield,Bohl,Berkowitz) OxyContin/Butrans Initiation/Titration, Savings cards
PPLPMDL0020000001	Akron	OH	44305	4/18/2014	Spoke with Matt the pharmacist about OxyContin and Butrans. I discussed sporophyte patients for each and then told him about the Butrans 15mcg back order. Matt looked and said he currently has two boxes of 5mcg and sees that there are 12 available from cardinal but said he doubts that if he goes to order it it won't be available. Discussed dose titration and proper administration.
PPLPMDL0020000001	Cleveland	OH	44113	4/18/2014	Reviewed Oxycontin 7 tablet strengths every 12 hours dosing along with Butrans for those patients requiring around the clock analgesia, Said Ok, referred to Mary RN, Savings card
PPLPMDL0020000001	Cleveland	OH	44113	4/18/2014	Quick window call reviewed OxyContin 7 tablet strengths every 12 hours along with Butrans for those Tramadol failures who require around the clock analgesia, Said Ok prescribing less, nothing new learned
PPLPMDL0020000001	Cleveland	OH	44125	4/18/2014	Reviewed OxyContin every 12 hour dosing along with Butrans for those patients requiring around the clock analgesia, Said Ok will relay to staff Rph
PPLPMDL0020000001	Cleveland	OH	44105	4/18/2014	Quick review of Oxycontin 7 tablet strengths every 12 hours along with Butrans for those patients requiring around the clock analgesia, Said Ok, no time now, stop by office next week
PPLPMDL0020000001	Tallmadge	OH	44278	4/18/2014	Quick message to dr at front counter. I used the FDA draft guidance letter insight and told him about the tier 1 and 3 with OxyContin. Dr said he remembers it being reformulated but didn't know about the tiers. I asked him to use OxyContin when a patient comes in on Percocet and needs a dose adjustment. Showed him the conversations and asked him what his thoughts are? Dr said it makes sense and asked me when it should be dosed. I told him its basically q12 oxycodone and its recommended to be doses at 8a and 8p. Dr said ok. I showed him the Butrans slide guide conversion chart and asked for him to identify one patient like someone on tramadol who needs a dose adjustment and the pain is around the clock. Dr said ok.
PPLPMDL0020000001	Akron	OH	44319	4/18/2014	I told dr again about the oxycodone insight and told him I'm telling him this because we have an epidemic on out hands with patients being treated too often with IR opioids for around the clock pain. I told him he needs to start making a difference with his prescribing habits. Dr agreed there is a problem. Dr said the problem with converting patients to ER opioids like OxyContin is the psychological aspect of no longer taking a pill every 4 or 6 hours for their pain. I told him its not going to happen overnight and that he needs to set that expectation with his patients earlier as to how their pain therapy is going to be. Dr said ok. I showed him the conversions from Percocet to OxyContin and asked him to identify just one patient at a time. DR agreed. I showed him where to use Butrans and the conversions. I asked him if he will start one patient for each product as he adjusts his patients medications? Dr said ok and asked how often oxycontin is dosed. I told him its q12 ER oxycodone and to be dosed 8am and 8 pm.
PPLPMDL0020000001	Cleveland	OH	44195	4/21/2014	Revised OxyContin every 12 hours, formulary grid. Went over Butrans Experience kits per request, Said she will review with clinicians and will look to start appropriate patients<font color=blue><b>CHUDAKOB's query on 04/30/2014</b></font>What happened to the FDA draft Guidance insight we were supposed to lead with?<font color=green><b>GUTKOMA's response on 04/30/2014</b></font>Discussed FDA draft guidance on previous call 4/17.In addition, Also on this call I was following up from the previous request for the Butrans experience program kits.<font color=blue><b>CHUDAKOB added notes on 05/01/2014</b></font>Ok. I see where you discussed the tiers, but it doesn't say you led with the insight. At any rate, thanks for clarifying
PPLPMDL0020000001	Cleveland	OH	44195	4/21/2014	Quick OxyContin Review every 12 hours, 7 tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok will consider for appropriate patients, Said to make appt for office
PPLPMDL0020000001	Cleveland	OH	44195	4/21/2014	Reminded of OxyContin every 12 hours, 7 tablet strengths, Butrans for those Tramadol failures requiring around the clock analgesia, said Ok will consider for appropriate patients, Asked Anne to review Butrans Experience
PPLPMDL0020000001	Mogadore	OH	44260	4/21/2014	I told dr that every time we talk about Butrans he tells me two things. First is that he really likes it and it works. The second is that he wished it was covered on more insurances and have it be lower cost. Dr laughed and said he does do that. I told him that his wishes have come true because there have been two big wins with Butrans Medicare patients. Told him about Caremark and UHC aarp. Dr said that is good to know and to make sure I tell his prior auth girl when I'm in next because she's the one who needs to know. Asked dr to please continue to discuss the option of OxyContin with his patients needing a dose adjustment on Percocet or IR oxycodone.
PPLPMDL0020000001	Fairlawn	OH	44333	4/21/2014	Discussed the Butrans 15mcg with Sue and Gilbert. Sue told me that it got shipped to their wholesaler on 4/18 and have about 22 boxes available. Sue told me that she had a patient on dr Fouads today who came in to fill the 10mcg of Butrans and were currently out of it. Sue said she just ordered 6 boxes from the wholesaler. Sue said the patient was very upset and did won't want to wait the 24 hours. Sue said the patient was going to go to other pharmacists to find it. Discussed OxyContin stocking and Gilbert said they have at least 3 bottles of each dose.
PPLPMDL0020000001	Waterford	OH	45786	4/21/2014	I-Butrans dosing and titration. OxyContn pages 14 and 15, limitations of use, boxed warning and dosing.W-said that she likes Butrans but had trouble with managed-care. Went over managed-care information for Butrans.
PPLPMDL0020000001	Uniontown	OH	44685	4/21/2014	Discussed all key selling messages for OxyContin and Butrans. Reviewed the new label update for the abuse deterrent properties to OxyContin and used the FDA draft guidance insight. Dr said he did not know about it and said that's really good news. Dr said he has written for OxyContin and currently has a handful of patients on it from cancer pain to spinal stenosis. Discussed specific patient types,titration and dosing individualization. Dr did not know about Butrans. Discussed dosing,titration,conversions,AE's,clinical studies and managed care. Dr said it sounds like a product he would use and said it makes sense to use for tramadol and vicoden patients.
PPLPMDL0020000001	Cleveland	OH	44195	4/21/2014	Visited Dept. (Crawford,Leizman, Raymond,Knaus) Oxycontin Initiation/Titration, Butrans experience program, Butrans formulary grids
PPLPMDL0020000001	Uniontown	OH	44685	4/21/2014	Led with FDA draft guidance insight and told him that I'm telling him this because of the Tiers and how OxyContin has 1 and 3. Dr said he didn't know anything about that and said he had always felt comfortable using OxyContin and said he will go to it when a patient reaches 20mg of Percocet or IR oxycodone. Told dr that's good to know and he said he will start on the 10mg OxyContin and will titrate until he believes they need a specialist. Discussed individualization of the dose, titration and specific candidate selection. Discussed Butrans and told him about the tramadol and vicoden insights. Dr said its crazy because he doesn't know why do many patients stay on IR opioids because he said Butrans is also a schedule 3 opioid that dr said is easy to prescribe and said he likes the patch vs the pill option. I told dr about the Bup 3015 and using it for his NSAID and tramadol patients. Dr said he will continue using. Closed with new insurance coverage for Medicare. Dr said he just writes it and to give the new Medicare coverage info to Tiffany who deals with pa's.
PPLPMDL0020000001	Akron	OH	44319	4/21/2014	Drs medical assistant Dawn gave me one minute to discuss Butrans and OxyContin. Dane said she didn't know about Butrans. Quickly told her that I'm guessing that the dr writes and refills short acting opioids or NSAIDs for pain. Dawn said she does. I told her about Butrans indication, dosing, conversions,titration, application sites and schedule 3,7 day transdermal system for patients who need dose adjustments on short acting opioids or NSAIDs. Dawn said it sounds like a good option for the doctor and will make sure she discusses it with the doctor. Left her with OxyContin information.
PPLPMDL0020000001	Uniontown	OH	44685	4/21/2014	Led conversation with FDA draft letter insight and told him that I'm telling him this because of oxycontin's reformulation in 2010 and the tier levels 1&3 for OxyContin. Dr readover the information from the visaid and said he had heard about the new long acting hydrocodone and said he knows its not abuse deterrent. I told him it sounds like its important to him when writing an ER opioid. Dr said of course it is! Dr said he really likes OxyContin because its been around forever and it works. I reviewed specific patient type selection and when he moves to it. Dr said its becoming more difficult to write it because of the pressure the state is putting on PCPs using it. Dr said he will use it when he knows it must be done for the right patient. Discussed Butrans core selling messages,patient type discussion, titration and use of 15mcg dose. Dr said he will continue to use it and finds that most really like it. Nothing else learned.
PPLPMDL0020000001	Akron	OH	44333	4/21/2014	Asked Carrie the ma to see dr about OxyContin. Carrie said he doesn't use much of it at all. I asked what he does use for pain? Carrie said he uses short acting products for post operative pain and long acting doesn't make sense. I told her to please give dr materials on OxyContn on the label update on abuse deterrent properties.
PPLPMDL0020000001	Garfield Hts.	OH	44125	4/21/2014	Reviewed OxyContin every 12 hours, tablet strengths along with Butrans for those patients requiring around the clock analgesia, Said Ok, for appropriate patients
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/21/2014	Quick hello while on the floor at Robinson. Dr said he got his letter from Purdue verifying his request to speak. I told him that's great to hear. I asked dr if he's finding places to out OxyContin as he stated before when he has patients on IR oxycodone to convert them over. Dr said he is but is finding more opportunity for Butrans because of the volume of hydrocodone he sees. I asked him to continue prescribing Butrans but to also continue to convert patients to OxyContin when those patients need dose adjustments. Dr said ok. Spoke to Terri about copay cards and they are doing ok on them.
PPLPMDL0020000001	Cleveland	OH	44105	4/22/2014	Reviewed with Hakim OxyContin and Butrans savings cards, said ok nothing new learned
PPLPMDL0020000001	Cleveland	OH	44113	4/22/2014	Reviewed Butrans Experience kits, Initiation/Titration, Formulary grid along with OxyContin 7 tablet strengths every 12 hours, 1st ER opioid Tier 1 and 3 labeling that describes deterrent characteristics. Said Ok will continue to find appropriate patients for Butrans and no change in practice on CII's
PPLPMDL0020000001	Cleveland	OH	44113	4/22/2014	Reviewed Butrans Experience kits, Formulary grid along with OxyContin 7 tablet strengths every 12 hours, 1st ER opioid Tier 1 and 3 labeling that describes deterrent characteristics. Said Ok will continue to find appropriate patients for Butrans and no change in practice on CII's

PPLPMDL0020000001	Westlake	OH	44145	4/22/2014	Hallway discussion regarding OxyContin FDA insight and Butrans. Dr said he hasn't tried butrans yet. Reviewed Initiation guide and what plans were of greatest interest to him and he said caresource and part d plans. Reviewed coverage and I asked him was he surprised to see this much coverage, he said yes.
PPLPMDL0020000001	Westlake	OH	44145	4/22/2014	Daniele the nurse wouldn't take a poster for the doctor. Reviewed Butrans and OxyContin cousins. Attempted to talk about the experienced kits, but she cut me off.
PPLPMDL0020000001	Westlake	OH	44145	4/22/2014	Managed care review of both products, talked them I to scheduling me an early meeting with dr Duncan on Thursday to follow up with our last discussion.
PPLPMDL0020000001	Westlake	OH	44145	4/22/2014	Discussed managed care part d plans with office manager regarding Butrans and OxyContin.
PPLPMDL0020000001	Olmsted Falls	OH	44138	4/22/2014	Spoke to ma, reviewed Butrans and dosing. Also covered managed care like part d plans with coverage.
PPLPMDL0020000001	Cleveland	OH	44109	4/22/2014	Visited PMR/IM dept, (Harris,Harrington, Gelehrter) OxyContin and Butrans formulary grids, Initiation/Titration and requested appt
PPLPMDL0020000001	Cleveland	OH	44195	4/22/2014	Reviewed OxyContin PI, and initiation/Titration guide, Dr said no further contact needed at this point, will keep contact info
PPLPMDL0020000001	Euclid	OH	44132	4/22/2014	Met with med asst at window. Dr B already gone for day. Reminded her I was there last week for lunch; discussed OxyContin indication and dosing. Discussed Butrans indication; left Pam profile, asking Dr B to read. Discussed my upcoming speaker program on Wed 4/30. Let her know if any of the HCPs want to attend; just call me and I can register them.
PPLPMDL0020000001	Euclid	OH	44117	4/22/2014	Lunch. Dr had several questions regarding abuse deterrent products around OxyContin, so I left him polybagged studies and told him there's \$5.46 value that will appear on Sunshine Act Reporting. Discussed OxyContin as first ER with Tier 1 and Tier 3 abuse deterrent FDA labeling. He wrote a prior auth for patient recently for OxyContin; hasn't heard anything for a few days. Patient was on 40 mg oxycodone; he converted to 20 mg OxyContin, he says, because it simplifies things for patient, and patient taking less pills, he says. I told him I'd follow up on that particular Prior Auth; some take longer than others. Discussed Butrans Med D wins; the girl who handles prior auth's wrote plans down. Discussed ability to call/fax Butrans in with refills, which could help save her and med assts time. Left 4 PAP spine posters; he will place in PT room and each patient room.
PPLPMDL0020000001	Olmsted Falls	OH	44138	4/22/2014	Reviewed the FDA insight and talked about his thoughts on products with this technology vs not. Hal the pharmacist said it help to have it. Talked about OxyContin reformulation, he was aware. Also covered it was dosed every 12 hours. I asked Would he call if he saw it written every 6 or 8 hours dosed. He said maybe. Reviewed Butrans dosing,patch placement.
PPLPMDL0020000001	Westlake	OH	44145	4/22/2014	Nurse Illada, brought me back to see the doctor and introduce butrans. Discussed FDA insight and asked him how important this technology was to his prescribing considerations. Dr said he really forgot about it cause he doesn't write extended release products for chronic pain. Highlighted the current patients being treated for pain. Dr agreed he has patients on short acting products and tramadol. I asked him why he wouldn't consider an atc extended release after a patient comes in already on three pills a day looking for more pain coverage. Dr said after a certain dose and duration of a short acting he will refer a patient out. Dr wouldn't comment on specifics. Dr said he can see if someone was being on 4 short acting opioids for a chronic length of time how they could be moved to an extended release. I tied short acting oxycodone to OxyContin in the same manner. Dr said scheduled 2 products are harder to write. I asked why? He said no one wants them to write chronic medications any more. I asked if maybe better assessments should be taken when the first opioid is written. He told me that he doesn't have time to see patients back every month for an evaluation and a refill for schedule two products. He was very aware that schedule 3 products could have multiple refills and he said he will see them back in 4 months for chronic patients. We reviewed dosing, patch location, plasma curve via the detail aid. Dr had me schedule a lunch to review this information around the clock analgesia. Said OK we behind schedule, book appt
PPLPMDL0020000001	Cleveland	OH	44113	4/22/2014	Quick window call reminded of OxyContin every 12hours, 7 tablet strengths along with Butrans for those Tramadol failures requiring around the clock analgesia. Said OK we behind schedule, book appt
PPLPMDL0020000001	Euclid	OH	44132	4/22/2014	Quick window. Reminder I met her last week @ lunch. OxyContin opioid naive/start dose 10 mg every 12 hrs discussed. Promoted and left invite for 4/30 program. Left Pam patient profile for her review, Butrans initiation guide: Butrans as first opioid or after prn Tramadol/Codine discussed. 8x10 Butrans FP left. (Also left invite for Cara McHugh, CNP, who does NOT have DEA license yet).
PPLPMDL0020000001	Westlake	OH	44145	4/22/2014	Reviewed FDA insight, tied into core visual aid. Dr said he forgot about OxyContin's reformulation. I asked how important is choosing these products with these steps taken that the FDA is providing opioid manufacturers and he said safety is very key. He said that he writes OxyContin yet he writes it for cancer patients. I said why wait for the severe pain patient why not the 10 mg for an opioid naive patient if they require an opioid atc? Dr paused and couldn't think of an answer. I asked him why is a riskier proposition to offer an extended release product like OxyContin or Butrans over a short acting product dosed atc? Again. Dr said nothin. Reviewed the Percocet to OxyContin conversion page. Drs aid he writes Butrans and he likes it. I asked him what patient type does he think of when writing Butrans, dr said cancer pain patients or patients currently on vikodin. Dr compared Said it was like fentanyl but safer. I made sure to tell him about abuse potential for Butrans and OxyContin. Said there was no head to head study's and reviewed Initiation guide. After review doctor said he was surprised and he asked if someone is over 40 mg what to do. I told him Butrans was not appropriate to start therapy if someone is over 40 mg of hydrocodone. I told him OxyContin may be a choice if you were looking for a single entity extended release product for the atc every 12 hours. Reviewed managed care, experience program and caresource and med d plans.
PPLPMDL0020000001	Cleveland	OH	44113	4/22/2014	Reviewed Butrans for those Norco failures who are requiring around the clock analgesia, Said OK, continues to find new starts. Also reminded of OxyContin every 12 hours, Tier 1 and 3 Abuse deterrence, Said position on CII's hasn't changed
PPLPMDL0020000001	Cleveland	OH	44114	4/22/2014	1. Determine if want to move forward w/ Pain PACT program 2. Share Butrans formulary win w/ AARP
PPLPMDL0020000001	Barberton	OH	44203	4/23/2014	Met office manager dawn. Dr not in on Wednesdays. Dawn said they only do workers comp. reviewed managed care coverage. Dawn said dr. doesn't write schedule 2 products but he will write schedule 3. Dawn said they write Celebrex a lot. Discussed how Butrans and OxyContin can be dosed after an NSAID if the patient required atc extended release product. Dr doesn't do lunches however dawn said he may see me cause my product is new.
PPLPMDL0020000001	Akron	OH	44333	4/23/2014	Good discussion over lunch about Butrans opportunities and patient type selection. Discussed profiles, conversions and discussions with patients about the product. Reviewed new Medicare plan wins and told her how important those two plans are to her business. Elise said that she just had a patient not approved for OxyContin. I asked her if she has the denial? She showed it to me and said that it was a UHC community plan Medicaid. Elise told me that they are recommending Exalgo and others that were tier 3. I told her that OxyContin is a PA and she needs to try that first. She said Caci already changed the script. I told her to tell me prior next time. I asked for continued business and discussed the FDA draft guidance letter. Elise said its good to know and gives her piece of mind.
PPLPMDL0020000001	Cleveland	OH	44195	4/23/2014	Reminded Roxan of OxyContin every 12hours along with Butrans Savings Cards, Said ok, no new info learned
PPLPMDL0020000001	Cleveland	OH	44195	4/23/2014	Quick review of OxyContin 7 tablet strengths/Saving cards along with Butrans for those patients requiring around the clock analgesia , Said he will continue to prescribe for appropriate patients, nothing else learned
PPLPMDL0020000001	Barberton	OH	44203	4/23/2014	Spoke to sarah the office manager. Discussed Butrans pain patch, dosing and managed care. Gave invite for Butrans. Discussed OxyContin and the appropriate patient. Gave initiation guide and a Butrans study
PPLPMDL0020000001	Akron	OH	44313	4/23/2014	Dr came over to window and spoke to me about OxyContin. Dr asked for a conversion guide for OxyContin that shows vicon to OxyContin. I told him that we cannot provide it because they are only estimates. I told him he can very easily find it online. I asked if he typically goes to OxyContin from vicon? Dr said sometimes and this patient needs OxyContin for chronic low back pain. I reminded dr of the 10mg dose and to start there and titrate every 1-2 days. Dr said he wanted a conversion chart for Butrans as well. I reviewed it with him and asked him if affordable cost for his Medicare patients is important? Dr said yes. I told him about the two new wins and told him that 70% of his Medicare patients are covered unrestricted for Butrans. Dr said that's good to know and to tell Tina and Kim. Discussed coverage with them and discussed appropriate patient types and
PPLPMDL0020000001	Cleveland	OH	44105	4/23/2014	Discussed OxyContin as the first ER opioid with FDA approved Tier 1 and Tier 3 labeling that describes abuse deterrent characteristics, also reiterated OxyContin CII that can be still be abused, Said OK, will consider for appropriate patients. Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Said he has a few patients in mind, reviewed Savings cards and Initiation/Titration
PPLPMDL0020000001	Cleveland	OH	44127	4/23/2014	Discussed OxyContin as the first ER opioid with FDA approved Tier 1 and Tier 3 labeling that describes abuse deterrent characteristics, also reiterated OxyContin CII that can be still be abused,Reviewed Butrans for those patients requiring around the clock analgesia, Said he will consider for appropriate patients, but again stressed PA's challenges,Reminded of Med. Mutual 2nd tier and Silverscript/Caremark Part D 2T
PPLPMDL0020000001	Cleveland	OH	44114	4/23/2014	Reviewed Butrans for those patients requiring around the clock analgesia along with OxyContin as the first ER opioid with FDA approved Tier 1 and Tier 3 labeling that describes abuse deterrent characteristics, also reiterated OxyContin CII that can be still be abused, Said he will consider for appropriate patients, continues to find new starts for Butrans.
PPLPMDL0020000001	Akron	OH	44320	4/23/2014	Led with FDA draft insight and reviewed the appropriate MVA pages. I told her she is missing opportunities I write a product that has 18 years of clinical use behind it. Dr said she knows but doesn't want to get involved in being knows for giving it out. I asked her to find specific patients that are motivated for change. Discussed opportunities for Butrans and asked her what percentage of patients should she be happy with when prescribing a branded medicine? Dr said it must be high. I asked her how 70% sounds unrestricted? Dr said that's very good. Discussed new plans for Medicare. Dr said she will work on it.
PPLPMDL0020000001	Barberton	OH	44203	4/23/2014	Breakfast. Discussed FDA insight and discussed her thought and she said she knew about it. Dr shared some stories about current patient are opioid therapy. Most of her patients are on short acting products. She will convert someone from Percocet to OxyContin if they need an extended release products and if managed care is covered. She talked about Medicare part d and the cost to these seniors. We discussed managed care coverage for Butrans. Dr said she hasn't found new patients. I described the Tramadol patient who is taking 2 pills a day and the. Needing more coverage...do you think 3 or 4 a day is appropriate for an extended release. Dr knodded. Dr described who was a OxyContin patient in her practice. She said spinal stenosis or an older patient who needs chronic pain medications, she mentioned on of her patients who was in her 90's.
PPLPMDL0020000001	Barberton	OH	44203	4/23/2014	Discussed Pam profile, dr agreed he has these patients. Dr sid he would not go from an NSAID to an extended release product is aid what if she needed the atc coverage, he said maybe . Reviewed med d coverage with AARP and silver script. Dr Patel is a med d target for silver scripts and aarp. Dr said he has patients on OxyContin and will use it when appropriate. Reviewed managed care. Also showed the per cost conversion to OxyContin page on the detail aid.
PPLPMDL0020000001	Norton	OH	44203	4/23/2014	Asked about his norco patients. Asked if they come in on three pills a day what do you switch them to? He said Butrans or OxyContin. He said OxyContin isn't covered on caresource so if its that patient he will write Butrans.
PPLPMDL0020000001	Akron	OH	44333	4/23/2014	Asked about how he writes Percocet. He's aid he usually doesn't start a patient on it unless they are allergic to norco or have break thru pain dr thought the molecule of Butrans was morphine, I corrected him that it was Good discussion over lunch and discussed patients he has on Butrans and his practice makeup with insurances. Dr said that his practice is 80% private insurance and 20% Medicare and Medicaid. Dr said that the private insurance patients are under 65 and most do not need ER opioids and that they are more candidates for injections or spinal cord stimulators. Dr said its the Medicare and Medicaid patients that he finds need the ER opioids like Butrans. I asked him what % of Medicare coverage he would find is acceptable to continue prescribing Butrans? Dr said at least 50-60%. I told him that just aarp and Caremark alone make up at least 50% of his Medicare business. Dr said that's great news and will make it much easier because he hates when patients tell him its too expensive. I asked for continued business. OxyContin dada draft letter and MVA discussion. Dr said FDA is taking out of both sides of their mouths by letting Zohydro to be released without abuse deterrent properties. I agreed sits strange. I discussed the fact that an 18year old product with abuse deterrent properties in 2010 should give him piece of mind. Dr agreed that it does and will write more.
PPLPMDL0020000001	Akron	OH	44320	4/23/2014	Dr asked me where the Butrans patient savings cards are? I took dr into thedrug sample room and showed him. I reminded him that the copy cards are only for commercially insured patients Medicare or Medicaid don't qualify. Dr said he didn't know that. I asked dr about the patients he started last week and if they were Medicare or Medicaid? Dr said one was Medicaid. I told dr that no products that have copy cards are able to make them for federally funded programs. I asked what the patients were taking prior to Butrans and he said he thinks Percocet. Discussed the new Medicare wins with Butrans and expressed the excellent coverage it now brings him I reminded him about conversions and appropriate starting doses. I told dr he also needs to be converting Percocet patients to OxyContin and showed him the new conversion and titration guide.
PPLPMDL0020000001	Cleveland	OH	44195	4/23/2014	Visited Tausig, (Goforth,Falman) reviewed OxyContin every 12 hours along with Butrans for those patients requiring around the clock analgesia. Initiation/Titration.
PPLPMDL0020000001	Akron	OH	44304	4/23/2014	Spoke to pharmacist along with Lisa the technician about Butrans dosing, conversions, patient types and asked about the 15mcg back order. Lisa said McKesson has 12 available to order. I asked the pharmacist to order and he said they only dispense the 5 and 10mcg doses and just dispensed their last 10mcg yesterday. I asked if he reorders right away and he said he will get around to it. I asked Lisa to order. Discussed OxyContin doses,titration and conversions from IR oxycodone and Percocet. Reviewed copy cards for each product.
PPLPMDL0020000001	Munroe Falls	OH	44262	4/23/2014	Short call in hallway as dr was going into an exam room. I told her there is a new OxyContin conversions and titration guide and showed it to her. I asked for continued business and to convert more patients from patients. I showed her the Kathy profile and asked her to please just try it again and to not miss out on opportunities.
PPLPMDL0020000001					

	Barberton	OH	44203	4/23/2014	Met the doctor. Discussed FDA insight. Dr was aware of OxyContin's reformulation. Dr said he writes both OxyContin and Butrans. Dr said he likes that Butrans is dosed with 4 patches a month. Dr said he will turn to an extended release after vikodin for Butrans or after short acting oxycodone product being dosed three or more times a day. Dr said he doesn't see patients a lot that are appropriate for Butrans. Because he feels his patients are dosed at higher mg and won't convert to Butrans. We reviewed Initiation guide. He said most of his patients fall in the 10mcg starting dose, however he usually starts them all on 5mcg and will titrate. Reviewed the opioid naive study results, and went over the pain reduction insight.
PPLPMDL0020000001	Stow	OH	44224	4/23/2014	Quick call at front counter and told her about the FDA draft guidance letter and showed her the tier 1&3 for OxyContin. I told I'm telling her this because abuse deterrent studies are very important to the FDA and OxyContin had them in 2010. Stephanie said its good to know and she has no issues using it. I asked her to conversion from IR oxycodone or Percocet when a dose adjustment is required. She said ok. I asked her to also continue to identify patients on tramadol and vicoden as good candidates for Butrans. Left her the new OxyContin conversion and titration guide.
PPLPMDL0020000001	Cleveland	OH	44195	4/23/2014	Reviewed OxyContin 7 tablet strengths every 12 hours along with Butrans for those patients requiring around the clock analgesia, Said she will consider, nothing new learned
PPLPMDL0020000001	Stow	OH	44224	4/23/2014	Asked Jamie the office manager to see the doctor. Fouad was an hour behind and he came out to discharge a patient. I asked him for a minute. I told him about the FDA go draft guidance letter and showed him the pages in the MVA. Dr said that's good to know but already said he cill continues to feel comfortable using it. I told him I hope it gives him piece of mind when reviewing the tiers OxyContin has. Dr said it does. I told him that he also tells me tow things almost every time we talk over lunch about Butrans. First that it works and the patients like it. Second, that he wishes it would be covered on more insurance plans. I explained the two new Medicare plans and told him that UHC and Caremark account for about 45% of his total Medicare business and about 75% of his Medicare business is covered without restriction. Dr said that's good to know and to make sure I have Jamie send a copy to the home office.
PPLPMDL0020000001	Cleveland	OH	44127	4/23/2014	Reviewed Butrans for those Tramadol failures requiring around the clock analgesia, Formulary and Savings card review, Also reminded of OxyContin 7 tablet strengths every 12 hours. Said Ok and will have Renee work on getting PA's
PPLPMDL0020000001	Akron	OH	44304	4/23/2014	Asked dr for a quick second about OxyContin and Butrans? Dr said he'll give me 30 seconds. I told him about the FDA draft letter and showed him the tier selection 1&3. I told him I was telling him this because abuse deterrent properties in opioids are extremely important and OxyContin change its formulation to meet this need in 2010. I asked to plead keep thinking about oxycontin's ability to take conversions from IR oxycodone or Percocet and its a 1:1 ratio. Dr said ok. I told him to please continue looking for candidates for Butrans who are on tramadol or vicoden.
PPLPMDL0020000001	Cleveland	OH	44127	4/24/2014	Reviewed OxyContin as the first ER opioid with FDA approved Tier 1/3 labeling that describes abuse deterrent characteristics, Said he will consider for appropriate patients, Reminded of Butrans for those Tramadol failures requiring around the clock analgesia
PPLPMDL0020000001	C. Falls	OH	44223	4/24/2014	Spoke with Cindy and Denise about OxyContin dispensing from physicians in the area. Denise said the most they see is from pain management which isn't much. None from falls family practice or other family in the area. Cindy said she sees some from Pitt. Discussed Butrans dispensing, 15mcg back order. Denise said the back order is up and they have it to order. Denise said they have 2 on the shelf. Denise spoke to me about how in May the FDA is looking to make vicoden and schedule 2 medicine.
PPLPMDL0020000001	Cleveland Heights	OH	44118	4/24/2014	Reviewed OxyContin Initiation/Titration, 7 tablet strengths every 12 hours along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok will consider for appropriate patients,
PPLPMDL0020000001	Cleveland	OH	44127	4/24/2014	Discussed Butrans Experience program, reviewed for those Tramadol failures requiring around the clock analgesia, along with OxyContin 7 tablet strengths every 12 hours Said Ok will consider for appropriate patients.
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/24/2014	Reviewed OxyContin 7 tablet strengths every 12 hours, Savings Cards along with Butrans patient experience program, Said Ok will consider for appropriate patients, Asked to book appt to further discuss with Sherisse NP
PPLPMDL0020000001	Cleveland	OH	44118	4/24/2014	Reviewed OxyContin 7 tablet strengths every 12 hours, Savings Cards along with Butrans patient experience program, Said Ok will consider for appropriate patients,
PPLPMDL0020000001	North Olmsted	OH	44070	4/24/2014	Spoke to Nadia the head tech, Rita and Paula the pharmacists were on vacation. They had a floater that was too behind to talk. Gave her the reprint to distribute, e said she has seen Butrans come thru and I asked if she does anything for the patients she said no and her biggest interest is in managed care because she handles all the managed care scripts processed.
PPLPMDL0020000001	Cuyahoga Falls	OH	44221	4/24/2014	Quick hello to dr in hallway. She said she isn't have time so I asked her to convert more of her Percocet patients to OxyContin and tramadol to Butrans. Nothing else learned.
PPLPMDL0020000001	Cleveland	OH	44118	4/24/2014	Remove from OxyContin target list. Not at this location. Located at 18901 LakeShore Blvd Euclid OH 44119 - 216-682-7500
	Cuyahoga Falls	OH	44223	4/24/2014	I told dr that after our last discussion I was thinking about him saying that he would ask his oriens if they have met their deductible then decide to prescribe Butrans or not. I told him to not do that and discussed insurance coverage. I told him that the few patients with high copay was a small proportion of patients who pay a fair price for a branded medicine. Dr agreed. I told him about Caremark and UHC aarp coverage and how it affects his Medicare business. Dr said that's great to know and it will definitely help. I asked him to continue starting Butrans after NSAIDs or tramadol. I told him that his Percocet 20mg patients are still candidates for OxyContin 10mg and it is before his cutoff of 3 pills a day. Dr said he knows but doesn't want that in his practice. Nothing else learned.
PPLPMDL0020000001	Westlake	OH	44145	4/24/2014	Rachael the nurse. Spoke to dr hohn about how she treats patient in pain and she said she refers them out to pain management for most her patients cause she said the Ohio laws don't want prescribers writing opioids. I introduced her to Butrans, she said it was an option to keep in mind.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/24/2014	Good discussion about OxyContin and Butrans. I first asked him how often his patients ask him for OxyContin that aren't already on it? Dr said they usually don't but they ask for Percocet. I told him that's interesting because I told him I'm guessing his patients on Percocet have been on it for an extended period of time. I asked why he won't switch some of those patients to OxyContin? Dr said he is trying to do that and then spoke about insurance difficulties. I asked him for more conversions to OxyContin from IR oxycodone. Discussed insurance coverage with Liz. I asked him to use Butrans clinically again and use it in the right patient like Kathy. Dr said he has used it and may consider it again.
PPLPMDL0020000001	Westlake	OH	44145	4/24/2014	Window. Something to think about today, your Percocet dr patients taking their medication around the clock, if they require an extended release products and are appropriate, please remember OxyContin. She said yes she needs to remember to use it more. She told me she wrote a Butrans script like she said she would for the patient type we discussed previous call. SHE said she has 4 more she wants to convert to Butrans here soon on their next visit. Reminded her of the coupons, she said she handed them out to the patient and she is awaiting their feed back soon.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/24/2014	Spoke to Glenn and Tara about the new Medicare coverage for Butrans. I told him that I know the Medicare side of business for all the doctors in the practice is extremely important. I told Glenn about Caremark and UHC AARP coverage and that with dr Sable alone those two plans account for about 40% of his entire Medicare population. Glenn said that's great to know and he wrote the information down. I asked Glenn if he has any denial forms for me on Butrans and he said no and things have been much better recently. Glenn said they just got two Caresource PA's go through and some commercial plans are covering it now that didn't before and said he can't remember which ones they were. Tara said she will let Jake Sisko know about it.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/24/2014	I asked dr what he is currently doing for his patients who are not to goal on wire vicoden or Percocet? Dr said he will titrate up to about 3-4 pills a day then usually refer out. I asked him why he titrates up on a product like Percocet? Dr said its just what he does. I showed him OxyContin dosing and conversions and asked him if it makes sense to convert a patient to the q12 oxycodone instead of continuing to titrate and refill? Dr said he knows but doesn't like to prescribe narcotics anyway. I told him he's already doing it though. Dr said he knows. I asked him why it's ok to prescribe and fill Percocet but not to write OxyContin? Dr said that's a good question. I told him to please convert just one patient and see what happens. Dr said ok. I quickly reviewed the Butrans conversion and titration guide and asked him to also just give it a shot so he will know clinically.
PPLPMDL0020000001	Cuyahoga Falls	OH	44223	4/24/2014	Confirmed drs location at 3033 state road. Dr has been at unity for approx 3 years. Spoke to his ma Mary about OxyContin and Butrans. Mary didn't know about Butrans so I discussed all key selling messages. I asked her if she thinks drs would be interested? She said he doesn't write much for pain but to give it a try. Office closed for reps at 3:30pm. Left with OxyContin conversions and titration guide and Mary said he may have one patient on
PPLPMDL0020000001	Cleveland Hts	OH	44118	4/24/2014	Reviewed OxyContin and Butrans Initiation/Titration guides - nothing new learned
PPLPMDL0020000001	Westlake	OH	44145	4/24/2014	Discussed Percocet patient who is taking 2 short acting opioids a day. Dr said he has these types of patients but said he has patients on 4 or 5 a day of norco or oxycodone. I asked him why he would give them an extended release product. Dr said it depends on if the patients want to take it or not. He said they like their pills. We discussed how many other products to do you write 4 or 5 a day for...he said very few. We reviewed molecule of OxyContin and highlighted a different delivery system option for his patients he is already treating for chronic pain. Provided him with FDA insight...dr didn't have much to say about this. Asked who he is writing OxyContin for currently and he said his old timers. Highlighted the ten mg and reviewed it was an opioid naive dose. Also talked about tailor the dose to a patients need starting with the lowest most effective dose. Dr agreed. Managed care reviewed. Bridged talking about his over 65 year old patients. After review of his practice dr said he has a great deal of Silverscript and AARP. Covered Butrans. Talked about the Pam patient. Yet he said his patients are already on higher doses then in the patient profiler. Reviewed both studies and pain reduction scores, shared pain reduction insight. Dr was more interested in the opioid experienced study. Talked about his Tramadol patients but dr didn't think he had many on Tramadol and said he saw more norco patients. Discussed Butrans experienced kits and dr said he would give them out.
PPLPMDL0020000001	Stow	OH	44224	4/24/2014	Led discussion about the FDA draft guidance and read the bullet at the top of the page about the tiers for OxyContin. I told her that I hope it gives her even more piece of mind when it comes to prescribing OxyContin. I told her that she should be using it for those already on oxycodone and discussed the 10mg page and conversions. Dr said that's good information and she wants to use it more but runs into insurance issues on her Medicare patients. I asked her if she knows of the plan or plans and she said no. I told her I hope it may be necessary to complete the PA at times. Dr said those patients must first fail methadone, ER Morohine or fentanyl first. I told her I understand and reviewed the plans without restriction. Reviewed the Kathy profile for butrans and asked for her to just try it clinically.
PPLPMDL0020000001	Stow	OH	44224	4/24/2014	Met drs new ma Laura while talking to dr about Butrans and OxyContin. I told him about the hydrocodone issue and that we have a big problem on our hands w/ IR opioids being used for around the clock pain. Dr agreed and said that's why he doesn't write much for pain but said he has found a place for Butrans. I asked him where and he said tramadol and vicoden when he knows he can control their pain and they are not candidates for referral to specialists. I told him I'm glad for that and reviewed the Scott profile. Discussed the patient information guide and new Medicare plan coverage with Caremark and AARP. Dr said that's big. I told him it is and to look more at that segment of his patient population as good candidates when they meet the indication. Reminded him to use OxyContin when patients need more Percocet and to dose it q12. Reviewed key selling principles to Laura as she didn't know about it.
PPLPMDL0020000001	Cleveland	OH	44109	4/25/2014	Reviewed OxyContin every 12 hours along with Butrans for those patients requiring around the clock analgesia, Myrna said ok, Nickels, Torres
PPLPMDL0020000001	Brooklyn	OH	44144	4/25/2014	Quick review of OxyContin 7 tablet strengths every 12 hours along with Butrans for those Tramadol failures requiring around the clock analgesia, Said Ok will prescribe for appropriate patients that can afford branded products
PPLPMDL0020000001	Cleveland	OH	44113	4/25/2014	Reviewed OxyContin And Butrans initiation guides, FPI's Said no further info requested at this time said he refers to PMR,
PPLPMDL0020000001	Akron	OH	44312	4/25/2014	Discussed BEP with Karen who is dr Lonsdorf's head RN. Explained the kit and to be used for new starts on Butrans only. Karen said she thought it sounds like a great program and will explain to the patient. Left Butrans and OxyContin formulary grids and told her about the oxycontin and conversion guide.
PPLPMDL0020000001	Euclid	OH	44123	4/25/2014	Met w pharmacist Jeff after Dr Tamaskars office called me & stated they can't find Butrans savings cards. I offered to drop Butrans savings card off for 61 yr old female patient; whom dr wrote Butrans right after I left him at lunch. Jeff had to order Butrans for patient. I asked him to call patient & let her know she must ACTIVATE card to get trial, savings PRIOR to her picking up RX. Explained & showed Jeff how cards designed to work. Discussed & left patient guides. He is leaving at 3, pharmacist Mary is next shift. He will let Mary know. Also spoke with tech Shawna, discussed, left Butrans NDC brochure/FPI. Left OxyContin reformulation folder, left protect your pharmacy brochure. Jeff states he's getting less OxyContin scripts recently. Asked him why he thinks that is; he replied not sure.
PPLPMDL0020000001	Cleveland	OH	44113	4/25/2014	Visited Pain Dept. (Shen, Novak, Daoud) OxyContin/Butrans Initiation/Titration guides
PPLPMDL0020000001	Cleveland	OH	44113	4/25/2014	Reviewed OxyContin/Butrans Initiation/Titration guides, FPI, said no further contact is needed at this time, will keep info for future reference
